REVIEW OF AUGUST.

The tone on the Stock Exchange and in business circles continued very confident during August. The firmness of the money market and the continuance of the strike of the anthracite coal miners did not serve in any way to modify sentiment in that regard. The great underlying fact in the situation was considered to be the encouraging agricultural prospects, together with the large railroad earnings and the uninterrupted activity and prosperity of industrial interests throughout the United States.

In the anthracite miners' strike indications at the close of the month seemed to point to an early collapse of the movement. The companies kept up work at a good many of the washeries at the culm banks, and some of them also succeeded in mining a little coal at a few of the collieries. The aggregate amount of coal turned out in this way, however, was not large. The strikers showed a very ugly and menacing attitude, and the militia regiments at the scenes of trouble were frequently called upon to insure protection to such non-union men as had ventured to go to work. This attitude made it exceedingly hazardous for the companies to undertake the mining of coal on a large scale. The two most important events of the month bearing on the strike were the return to this country of Mr. J. P. Morgan after an extensive sojourn in Europe and the statement given out by Mr. Abram S. Hewitt setting forth with great clearness the real point at issue in the strike. The strikers had hoped that Mr. Morgan could be induced to intervene on their behalf, but this expectation was quickly seen to be futile.

It remains to be said that the bituminous coal miners' strike in the New River district of West Virginia also continued throughout the month, involving quite a serious loss of traffic to the Chesapeake & Ohio Railroad. At the mines of the Norfolk & Western, on the other hand, but little trouble was experienced in carrying on operations, so that that road enjoyed, as it did in July, a very material increase of its traffic.

With reference to the crop situation, the conditions could hardly have been much more satisfactory. The Agricultural Bureau in its report issued on the 10th placed the general average of the corn crop of the United States on August 1 at 86·5, as against only 54 on the first of August the previous year. At the same time the area planted to corn is 3,520,000 acres larger than the area harvested in 1901. Throughout the

month no important adverse development was noted anywhere, and all the indications pointed to a crop of 2,500 million to 2,600 million bushels, or 1,000 million bushels more than the short crop of 1901. In some of the larger corn-producing States the contrast between the two years was seen to be very striking indeed, the promise in Kansas being indicated by 103, against only 19 last year, that of Missouri by 100 against 29, that of Nebraska 101 against 36, etc., etc.

The stock market showed much animation and great strength through most of the month. On the 26th the share transactions reached 1,299,727 shares, an aggregate of daily business not reached for a long time previously. The rise in prices was general and pronounced. Atchison common rose from 91 on the 2d to 95¾ on the 26th; Baltimore & Ohio common from 108¾ to 115¾ between the same dates; Canadian Pacific from 135¾ on the 2d to 143 on the 29th; Illinois Central from 164 on the 5th to 173½ on the 27th; Louisville & Nashville from 144 on the 1st to 159½ on the 20th; Pennsylvania from 158⅞ on the 1st to 163¼ on the 27th; Nashville Chattanooga & St. Louis from 105 on the 7th to 119¼ on the 14th, etc. A feature of the speculation was the prominence of many of the low-priced shares. Taking the low and high points for the month (which latter were not in all cases fully maintained at the close), Duluth South Shore & Atlantic common moved up from 17 to 24; Denver & Rio Grande common from 44 to 51¾; Evansville & Terre Haute from 60½ to 71; "Soo" common from 62½ to 79½; Norfolk & Western common from 64¼ to 73¾; Reading common from 66⅜ to 70⅛; Southern Pacific from 68⅛ to 77⅞; Texas & Pacific from 44½ to 54; Toledo St. Louis & Western common from 21½ to 32½. Express stocks also attracted attention by reason of very sharp advances, American Express rising from 234½ to 265; United States from 122 to 160; Wells Fargo from 215 to 255, and Adams Express from 205 to 220. In Colorado Fuel & Iron some sensational fluctuations occurred, due to the contest for control between the Osgood management and the John W. Gates party.

Some rather important developments in the railroad world occurred. As was to have been expected, the semi-annual dividend on Reading first preferred stock was reduced from 2 per cent to 1 per cent. The matter was of moment only because the inability to pay the full 2 per cent involves a continuance of the voting trust, which trust would have expired with the payment of another semi-annual dividend at the rate of 2 per cent. In the case of the Southern Railway Company, where the same question was involved, the action on the preferred dividend was deferred pending determination on the part of the security holders as to whether the voting trust should be extended. Among other dividend changes may be noted the lowering of the dividend on Central of Georgia first preference incomes, the yearly payment being made only 3 per cent (that taking all the income available for the purpose), as against the full 5 per cent in the previous year. In the case of the Colorado & Southern Railway, on the other hand, the semi-annual dividend due in October was made 2 per cent, or at the full rate of 4 per cent per annum, as against only 1½ per cent paid at the two previous semi-annual dates.

In the money market increased firmness developed, and on August 15 the call loan rate touched 6 per cent. On the closing day the range was 4 to 5½ per cent. Loans the first half of the month showed heavy expansion. But the surplus reserves of the Clearing House banks on the 16th got down to $7,126,600, and thereafter loans underwent marked contraction, leaving the total August 30th only 910 millions, against 929 millions August 16 and 913 millions July 26.

The foreign exchange market, influenced by dearer money and also by quite liberal offerings of bills against future shipments of cotton, sharply declined. After a shipment of $519,445 gold to Germany on the 7th, the gold outflow came to an end.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1902. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1902*," were made on that date except those in italics, which are the nearest in January, 1902. The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

§ Less than 100 shares. *a* Ex-rights. *b* Ex-dividend and rights. *c* Trust Co. certificates. *d* Anaconda Mining now quoted per cent.
NOTE.—On March 31 the Stock Exchange began quoting mining shares having a par value of over $10 on a per cent basis instead of dollars per share. Mining shares with a par value of less than $10 are still quoted in the old way, that is, per share. *e* Ex-stock dividend.
f 1st instalment paid. *g* 2d instalment paid.

BOSTON STOCK EXCHANGE.

A very elaborate and comprehensive report of the dealings on the Boston Stock Exchange is now given in the CHRONICLE each week. We therefore discontinue our monthly record.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of August*. Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant: "op." for optional

7. The black-faced type in the letters showing the interest periods indicates in each case the *month* when the bonds mature.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*).

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

BANKS AND TRUST COMPANIES.

Quotations for the stocks of banks and trust companies are given per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.

Prices marked thus (*) indicate sales. The dagger (†) prefixed to a price indicates that the figures show the book value.

Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
