Principal property involved and scope of problem: The person who was interviewed is the brother of the Party involved. The party interested owns a home at the above address, on which there is an amortized loan. The holder of the mortgage is a private individual living near Beaumont - California. It is desired to keep property rented, and keep up monthly payments on the mortgage.

Inquirer operates under leases approx. 30 acres of farm properties in vicinity of above address. About 4 years ago, inquirer was in school, and land was farmed by his father, an alien now detained by U.S. The father at that time bought fertilizer from Southern Calif Fertilizer Co. on 90 day terms. $476.92 now remains unpaid and the creditor is pressing claim against the inquirer.

Action taken:* Referred to Mr. Larrabee for advice. It developed in this conference that the land for which the fertilizer was bought is not the same land now being farmed by the son. The inquirer, therefore, is not liable for the debt. He is all prepared to evacuate otherwise.

Recommendations of Counsel:

In this case the applicant had received a letter from Harry Finkenstein, Esq., a Los Angeles attorney, requesting that immediate arrangements be made for the adjustment of rentals due under a lease of agricultural property located at Clearwater.

The circumstances were such that I personally called Mr. Finkenstein, and when he expressed a desire to cooperate with this department, I arranged to have the applicant call at Mr. Finkenstein's office for an interview. The lessor is Joseph G. Klepl. I told the applicant that in the event a satisfactory adjustment could not be worked out with Mr. Finkenstein, to let us know.

This interview occurred early in the week of March 16th and I have heard nothing further from the case.

Principal property involved and scope of problem:

Recommendations of Counsel:

Miss Sato is American born. She owns the home where she lives at 1053 South Kenmore and is also the owner of income residence property, comprising three rentable units, at 1042, 1044 and 1044½ South Kenmore, unfurnished.

She has arranged with a friend to live in her own home, care for the property and furniture, and to assume the payment of taxes and utilities in return for use of the property as a home. I suggested that a letter written by her to the friend setting forth definitely the terms of the arrangement, signed by both Miss Sato and the friend, each keeping a duplicate original of the letter, would probably be adequate in connection with that property.

As to the income property, she has decided to grant a power of attorney to a friend who has undertaken to manage and care for this property, collect rents, pay necessary bills, and so forth, on Miss Sato's behalf. She wanted to know what sort of a writing she should have for the protection of both herself and her friend. I recommended a special power of attorney. Miss Sato has no attorney and was anxious

to get the arrangements closed at once. I therefore undertook to draft a form of special power of attorney for her use in this instance, not only to assist her in the emergency, but also to provide specimen copies of a general type of form which is indicated for use in a considerable number of the cases going through this department. Two copies of this form were given to Miss Sato and the remaining copies, with a note of explanation attached to each, were delivered by me to Mr. Watkins on March 24th. (There will undoubtedly be many cases in which this department cannot, with propriety, assume the responsibility of furnishing legal counsel to applicants, and the drafting of powers of attorney and other legal documents on behalf of applicants in the presence of an emergency, should be referred to counsel for the department for disposition.)

Person (Son) Interviewed: Stephen Takiguchi

Address: 1104 E 7th La

Telephone Number: VA 4838

Principal property involved and scope of problem:

Mrs Yamada is purchasing a hotel at the above address. Orig. purch. price was $55,000. bal. owing is $29,815.12 of which $21,815.12 payable to Mortgage Guarantee Co + $8000 to a Mrs Christy. Monthly Payments are $350 to Mtg Guar + $225 to Mrs Christy. Taxes app $200 per mo. + operating expense for hotel is about $600 per mo. Income from rents in building amount to app $600 on hotel room + $325.00 on store space. Takiguchi the son runs a restaurant in the building + all income from the restaurant is being used to help meet payments. As can be seen payments are so large the property is not self supporting. Therefore would like to have monthly payments reduced to about $200 to Mtg Guar + $50 to Mrs Christy. This would enable them to close the hotel down for the duration + convert it into a warehouse to store household goods of other evacuees.

The rate would be $50.00 per year per room. In addition to the 82 rooms in the hotel the basement comprises about 5000 sq ft which could be used for storage. The restaurant would be leased & the stores remain rented. This should enable them to meet all payments for the duration. They want us to contact Mtg Guar & see if we could get payments reduced. Or else handle the property for them some way.

Action taken:*

Suggested that they contact Mtg Guar. Co. & get their reaction to reducing payments to $200 per mo. Also see the city in regards to getting a license to operate the hotel as a warehouse. & to call back & let us know what results were made.

Recommendations of Counsel:

This man and his brother-in-law were prepared to evacuate and move all their possessions out of this area at the time of his conference with me on or about March 17th. Both of these men own automobiles, and both are able to purchase housekeeping trailers in which to live while they are on route to a permanent home; his brother-in-law is an alien but he is American born. He informed me that he had made several efforts to purchase trailers, but that no dealer would make a sale to his brother-in-law because the latter is an alien, and that he did not feel justified in purchasing another trailer for himself, if he could do so, and loaning his own trailer to his brother-in-law if there is any reason why the alien should not be using property owned by American citizens. He wanted to know if this department could assist him. I told him that this department had no authority to force any dealer to make a sale of anything to anybody; that the only thing we could do would be to endeavor to clear up any misunderstandings or misapprehensions on the part of dealers in connection with their right to deal with alien evacuees, and suggested that he continue in his efforts to secure adequate transportation.

Above church occupies and owns old residence at S.E. Corner of Michigan & Chicago Sts., L.A. The church is an alien corporation, and taxes are assessed to the priest, one Giichi Miyano, who is now in custody.
Church now has opportunity to lease property. Inquirer wants to know rights and restrictions on lease or sale of property.

Action taken:* Advised inquirer that church should sell or lease at earliest opportunity — preferably sell, since possible future resettlement of parish members in other parts of L.A. after the war would render this property unusable as their church. Advised that church corporation is probably free to act as generally licensed national, but had better refer any specific deal to Federal Reserve for approval.

Recommendations of Counsel:

This lady farms a considerable acreage in the southwest of Los Angeles. She was indebted to Aggeler and Musser Seed Company for seed purchased with this understanding; credit was extended to her by the seed company in accordance with what she states is the custom in connection with seed purchases, i. e., the seed company delivers the seed with the understanding that when the crops have matured and been harvested their bill is paid out of the proceeds of the crops. In this case, before her crops were any where near maturity a representative of the seed company called upon her and demanded immediate payment of the seed bill. She was unable to make this payment in full, but did make a substantial part-payment. Subsequently this representative called upon her again and demanded an additional payment, stating that unless the same was made within two days the company would attach her truck and any other property found available. She was able to pay, at the time of her conference with me, the sum of $24.00 on account of the seed bill, but no more. I advised her to pay it to the seed company, explain that she would not be able to make a further payment until some crop proceeds are available, and endeavor to adjust the matter directly with the company. This she stated she would do.

Recommendations of Counsel continued:

In this connection she reported that attachments of the trucks and other motor vehicles of Japanese farmers in the general locality of her land are being made on a wholesale scale; that these attachments result in rendering the motor vehicles unavailable for urgent use in connection with the harvesting and marketing of crops, etc. Suggested that the problem was one that this department might attempt to solve. My own feeling is that this department can make recommendation in only those cases which come to our notice, at least at present. If the problems should develop to a size that would warrant a public statement, the staff may then consider the desirability of releasing such a statement.
