Dear Sir:

The defendants ordered three separate loads of oil fron the Consumers Oil Company as follows:

October 30, 1941,	129.98
November 10, 1941,	129.98
November 26, 1941,	132.58
	392.54.

There is still a balance due of $392.54, the reason for the attachment. Mr. Yoshimura is definitely liable for this sum of money and we can execute a release only upon payment by him of said sum.

I trust that we will be able to work this matter out without too much inconvenience for all concerned.

Dear Mr. Bold:

We, herewith, enclose our itemized expense statement for the two week period , April 27 to May 11, 1942.

We are finishing, today the two day registration of the evacuees in this area. The number registering being 226 families representing 825 evacuees. This number includes the added Orange County area.

We have been greatly suprised at the fact that there has been a very limited amount of personal property to be stored for the evacuees, in fact, there will be less than a small truck load to be stored in San Diego. The automobile registration will not exceede five or six automobiles to be stored on the San Diego lot. The longer period of having the Control Center open is probably the reason for the complete disposal by the Japanese of their personal property and automobiles. We have continually urged their co-operation in arranging their personal property affairs.

The medical examinations are taking place tomorrow at which time we will be able to contact the number of the evacuees problems still existing. At the present time there are a number of problem cases still to be dealt with and which we hope to accomplish a solution of, either before the actual evacuation or shortly thereafter.

We will endeavor to complete the work here and submit a completer report of the interviews and case handlings, as soon as possible after evacuation, Sunday, May 17, 1942, the last day of entrainment by the army.

Dear Mr. Bold:

Confirming our telephone conversation to the Los Angeles office this morning, relative to the receipt of the evacuation exclusion order of this area, the inclusion of the west portion of Orange County has added approximately 200 evacuees for registration at the Oceanside Control Center. These evacuees were not interviewed by the Control Center, therefor, we are somewhat in the dark regarding the arrangments they have made of their affairs. The exclusion order calls for registration at the Control Center, May 11 and 12, with the actual evacuation taking place for about 300 on May 15 and approximately 300 or the balance remaining on May 17, 1942.

We have arranged with Mr. Kircher to come from San Diego to Oceanside to assist us, beginning Monday and continuing until the evacuation is complete. We also requested the Los Angeles office for the assistance of an extra man. We three, I believe will be able to handle our part of the evacuation of this area.

The custody and storage of the automobiles seems to be somewhat of a problem owing to the fact that it will be necessary to drive them by hired men to San Diego lot. This will necessitate the Japanese bringing them to a central point at this Control Center and we deliver them from here and as the delivery of the car by the Japanese to us will occur within the one day prior to evacuation it will be impossible to complete the delivery to San Diego. This arrangement will necessitate having a guard to watch over them until all are delivered to San Diego lot and as there is no bonded guard service in Oceanside some other guard arrangment will have to be made.

The storage of furniture of the Japanese evacuee can be accomplished through the Ace Van and Storage Co., coming

to the designated place where the furniture will be brought to for reloading to the trucking van.

We will endeavor to satisfactorily complete our part of the evacuation in the best possible manner and would appreciate any detailed instructions or information relative to the best handling of these several problems that have come to our attention.

Dear Mr. Watkins:

As we are completing the second week here at Oceanside and starting a third week on Monday, we would appreciate it if you would arrange to send us additional expense checks, as the hotel bill together with additional automobile expense in contacting some of these remote cases in this area has exhusted the $50.00 sent me two weeks ago.

The interviewing of the evacuees during the past two weeks has developed some interesting problems, none of them serious. Several that required postive expression from our department, but in every instance a satisfactory adjustment to both sides was accomplished.

We naturally have anticipated each day the order of posting this area for exact evacution, however, the additional time has been advantagous to the evacuee in summing up his arrangements to evacuate when the order comes. We have found a very intelligent group of Japanese who have had the initative to arrange most of their affairs satisfactorily.

We have been most interested in reading the present publications in the activity of evacuation in the Los Angeles City area and realize the Los Angeles office has been more than active since we came to Oceanside. We will be glad to continue through to completion of the evacuation in this area.

We have not received any additional Instruction Letters since #20, should there have been any issued we would appreciate receiving the latter bulletins and instructions.

Awaiting any further instructions from the Los Angeles office.

Dear Sir:

The second week since establishing Control Center here at Oceanside, finds us continuing to interview about the same average number of persons. The evacuees have been able to close their deals and arrange to leave their business from this area in a completed state when the evacuation order takes place.

We have at the moment a number of cases under consideration, none of them serious. One case, where a purchaser of growing crop complains there is a discrepancy in the amount of acreage represented by the seller and owing to this the purchaser is trying to avoid completion of his purchase agreement. However, he is picking the crop of berries and marketing them. He having taken possession, we are endeavoring to adjust this, but the difficulty is the Japanese seller of the property left voluntarily, when that was possible and we are not able to obtain his testimony of the transaction. We are continuing to endeavor to adjust satisfactorily this case if possible.

We have been able to assist in bringing about the sale of a number of evacuees automobiles, both pleasure cars and particularly the small trucks which predominate in this farm area. It appears to be the hope of the evacuees here, at the present, that there may be a possibility to take their cars to Assembly Centers. This causing a lack of wanting to sell their automobiles at present, which we are endeavoring to discourage and urge them to sell rather than wait until the last moment to dispose of their automobiles.

We have anticipated instructions of the posting of evacuation in this area every day and would welcome the news, as we are

LOS ANGELES BRANCH
FEDERAL RESERVE BANK OF SAN FRANCISCO

prepared to start registration at any time. The tentative survey of the number of evacuees in this area does not conform with the number originally anticipated.

From the published articles the Los Angeles area has become the center of evacuation appartently.

Awaiting further instructions from the Los Angeles office that may be of assistance.

Dear Mr. Wood:

Reference is made to your letter of April 15, 1942, concerning the problems incident to the storage of household goods and automobiles in your area.

We believe that it will be entirely feasible to transport the household effects to the warehouse already established with the Ace Van & Storage Company in San Diego. The cost of hauling will be more than offset by the savings in charges incident to establishing storage facilities in Oceanside.

We have no immediate answer for the problem presented in the matter of driving the cars to the San Diego storage lot; however, we believe that this needs no action at this time, inasmuch as the area has not as yet been designated for evacuation. We have no means of knowing at this time whether the evacuation will be handled in the same manner as in San Diego, which will have a decided bearing on the problem of storing the automobiles. We believe very definitely, however, that rather than establish a separate lot in Oceanside, we will effect transportation to San Diego if that course seems indicated at the time of evacuation.

As requested, we are forwarding Instruction Letters Nos. 18 and 19 and more recent instructions not as yet received by your office. The WCCA forms, both FRB-3 and 4, will be supplied through the Federal Security Agency at the time the control center is established incident to evacuation, and do not believe that you willhave occasion to use the forms prior to that time.

Dear Sir:

Interviewing of Japaneese in this office is continuing each day, satisfactorly, as yet no serious problems have arisen.

The S. Koura and the Upland Fertlizer Co. case involving Mr. Evers, of which you wrote, will be looked into and the facts, if possible, determined whereby some satisfactory settlement may be effected.

The situation on the storage of the Japanese personal property and their automobiles has presented a problem in this area, as Oceanside has not a bonded organized private patrol or watchmen organization to obtain guard service. Mr. Kircher took this guard matter up with the Pinkerton Agency of San Diego and they would not be in a position to supply guard as far away as Oceanside from their headquarters.

There is just one building available, suitable for storage this is owned by the Union Ice Co. of Oceanside, on leased ground, from the Santa Fe Railroad. We will hear tomorrow if it is possible to lease this building and the rental terms. There is enough ground surrounding this building to take care of the storage of the automobiles of the evacuees, however, the guard problem still exists.

The information contained in instruction letter #18 requesting Japanese to bring personal property to a central place for pick up has also created somewhat of a problem here, as a building suitable for this purpose is also difficult to obtain for just a few days duration pending transfer to storage.

We have talked with the Ace Van & Storage who handled the storage of the San Diego area and it is possible to have them truck the personal property from this area to their storage in San Diego of which there is enough square footage to take care of the amount from Oceanside.

LOS ANGELES BRANCH

FEDERAL RESERVE BANK OF SAN FRANCISCO

It will be necessary to have the automobiles to be stored from this area delivered to the lot in San Diego by American drivers if we are not able to store in Oceanside as the Japanese cannot go back into the closed area.

This office has not received instruction letters #18 & 19 or any others of more advance date of which we would appreciate having sent to us. The WCCA forms FB 3&4 will be necessary for the automobile registration of which we have none at present in this office, however, the Federal Employment Agency men were here this morning and apparently are planning on sending forms to this office, but a small supply from Los Angeles would not come amiss, should we happen to run short.

Instructions from the Los Angeles office will be appreciated.

Dear Sir:

We are enclosing a file forwarded to us by Mr. Kircher of San Diego, consisting of a letter dated April 8 addressed to Mr. Kircher by the District Attorney of San Diego, a copy of installment note and a memorandum purported to contain a conversation between the parties involved, as well as a letter from the Inland Fertilizer Company, Los Angeles, to Mr. S. We believe that you will find the letter from the District Attorney at San Diego explains the situation quite thoroughly, and we would suggest that you contact Mr. Evers, who is representing the Inland Fertilizer Company, in an endeavor to ascertain the true facts of the case. Mr. Kircher informs us in his letter of April 13, a copy of which we also enclose, that Mr. Evers holds a bill of sale signed by the Japanese.

We should like to have your report after you have had an opportunity of reviewing this case, at which time please return the enclosures.

Gentlemen: Attention Mr. F. J. Brice

In cases where it is necessary to make application for duplicate ownership certificate and the car has been taken over from an evacuee not the registered owner of record please have application filled out as outlined below.

The first line on the front should carry the name of the registered owner of record. The personal signature of the legal owner of record (notarized) should appear on the line at the bottom so marked. The reverse side should carry on line #1 the signature of the registered owner of record and on line #2 the signature of legal owner. The name of the new owner should be printed (for legibility) on line #3 and his signature on line #4 (disregarding the fact that this line is marked "name of dealer"). The F.R.B. stamps will go on lines #6 to #9 just as on an original certificate. A transfer fee and penalty will be necessary from the new owner amounting in all to $2.00.

The purpose of the above is to have the entire transfer recorded on one application.

If feasible will you have the application for Yamabe, T-4, signed by him on line one (no fee) and the one for Geo. Mikami signed on line 4 by Mary Kobayashi N-16 (fee $2). If these signatures are not available without too much trouble I can possibly get them through Sacramento with a letter of explanation.

The procedure of the letter checking applications

for duplicate ownerships applying to T. Inamura, KK-1 has been expanded in the first part of this letter to apply to all similar cases so you can, if you wish, issue a memo for the information of anyone handling these applications.

Very truly yours,

This car registered to T. Kato as sole owner, see registration certificate attached. Application for duplicate registration not needed. Application for duplicate ownership should be made by T. Kato and signed on lines #1 and #2 by him. The new owner, Inamura, should sign on lines 4 and 5 (disregarding the fact that these lines are marked for Dealer signature. This will leave lines 6 to 9 for F. R. B. stamps.

Mr. Willis L. Hirschfeld, Attorney at Law
629 South Hill Street
Los Angeles, California

Dear Sir:

This is in reply to your letter of December 24, 1936, relative to the German Reichsbank discount rates and the computation of interest on a specific transaction, based upon the current Reichsbank discount rate plus 2% interest.

In accordance with your letter, in arriving at the interest rate to be used, we have added 2% to the current Reichsbank discount rate (which we understand is 4%) or a total of 6%. From March 24, 1936, to January 1, 1937, there are 283 days. On this basis, interest at 6% for 283 days on 50,000 marks amounts to 2,326.026 marks. (365 day basis)

In accordance with your telephonic request, we enclose schedule of discount rates of the German Reichsbank for the period June 7, 1926, to December 31, 1936.

We trust this is the information desired.

Yours very truly,

Assistant Manager

REFERRED BY MR. R. P. JOHNSON TO MR. Craft

Dec. 31, 1936

For the purpose of determining the method in computing the number of days involved from Mar. 24, 1936 to January 1, 1937, I communicated with the bond cashier of the local brokerage firm of Blyth & Co., Inc., and Mr. James A. Shine, Junior Vice President of the California Bank.

Blyth & Company informed me that, in computing interest on bond transactions, it is customary for bond brokers to figure the number of months involved in a given period plus the additional odd days. In other words, from March 24, 1936 to January 1, 1937 there would be nine months and seven days involved, or a total of 277 days.

Mr. Shine, however, informed me that it is the practice of commercial banks to arrive at the total number of days by computing the exact number of days in the period and then figuring the interest on a 360 day basis. Thus, for the period under discussion, the interest would be figured on a 360 day basis on 283 days, rather than 277 days.

For the purpose of replying to this inquiry, however, it would seem reasonable to assume that, in view of the fact that it involves a court judgment, interest would be figured on a 365 day basis, which, according to our computation, amounts to 2,326.026 marks. This represents interest at 6% for 283 days on 50,000 marks.

I have also computed interest on a 360 day basis (assuming that the number of days involved is 277 days). On this basis, the interest would amount to 2,308.333 marks.

If, however, interest is computed on 283 days, the total interest would amount to 2,358.333 marks. (360 day basis).

Gentlemen:

May I impose upon some good natured member of your organization to obtain a computation of interest.

I have a judgment of 50,000 marks rendered in Germany which provides that the interest thereon shall be the German Reichs Bank discount rate, plus two per cent interest. I have been able to get the interest computed up to March 24, 1936, and would like to know how much the interest amounts to at that rate up to January 1, 1937. If this is too much of an imposition, will you be good enough to advise me what the German Reichs Bank discount rates have been from March 24, 1936 up to the present, showing the changes, if any, and the date when they occurred.

4%

Thanking you for any cooperation you may be able to give me, I am

Very truly yours,
Ellis I Hirschfeld

Dear Sir:

Your letter of September 16 was not received until today because it had been inadvertently delayed in the Tulare post office.

The Tulare Assembly Center was evacuated by September 4 and I am not able at the moment to ascertain whether or not George Waka and M. Schimokune were residents of that Center.

However, practically all evacuees from the Tulare Center were relocated to the Gila River War Relocation Project, Rivers, Arizona, and it is suggested that you communicate with the director of that Project for information concerning these evacuees.

SUBJECT: Mr. George Waka

Sir: We have your letter of July 22 relative to the present address of the above named individual. We have investigated all available personnel records, and we regret to advise that Mr. Waka is not registered in this center. It is possible as in the case of many other evacuees that Mr. George Waka may have registered here under another Japanese first name. If you have information as to his previous address or any other names that Mr. Waka may have used prior to evacuation, we may be able to help you locate the person desired.

Sincerely,
