The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE *is issued on Saturday morning, with the latest news up to midnight of Friday.*

TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE.

THE COMMERCIAL AND FINANCIAL CHRONICLE, delivered by carrier to city subscribers, and mailed to all others (exclusive of postage):

For One Year $10 00
For Six Months 6 00

THE RAILWAY MONITOR.

This is a Journal of general Railroad Intelligence, intended to supplement the brief railroad news contained in THE CHRONICLE, and published monthly on or about the fifteenth of each month.

Subscription price per year (including a file cover the first year) $4 00
" " " to subscribers of the Chronicle 3 00

The CHRONICLE *and* MONITOR *will be sent to subscribers until ordered discontinued by letter. Postage is paid by the subscriber at his own post-office.*

WILLIAM B. DANA, JOHN G. FLOYD, JR. } WILLIAM B. DANA & CO., Publishers, 79 and 81 William Street, NEW YORK. POST OFFICE BOX 4,592.

Subscriptions and Advertisements will be taken in London at the office of the CHRONICLE, No. 5 Austin Friars, Old Broad street, at the following rates:

Annual Subscription to the Chronicle (including postage) ..... £2 2s.
" " Monitor " " ..... 0 18s.
" " Chronicle and Monitor together ..... 2 16s.

Advertisements, in either Journal, 1s. per line each insertion; if ordered for five or more insertions, a liberal discount is allowed.

☞ The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

☞ A neat file for holding current numbers of the CHRONICLE is sold at the office for 50 cents; postage on the same is 20 cents. Volumes bound for subscribers at $1 50. The first and second volumes of the CHRONICLE are wanted by the publishers.

THE COMPTROLLER OF THE CURRENCY AND BANK LOANS ON SPECIE.

An important question has been settled by the Comptroller of the Currency, as was published yesterday, to the effect that the National banks cannot be allowed under the law to report as *bona fide* gold deposits, sums in coin which in reality are only security for loans, and that the Bank Examiner of this city will be required to scrutinize the alleged practice of the banks by which certain sums of gold are counted first as a reserve, and, secondly, as a security for loans. The announcement has been elicited by the current rumors to which we have lately adverted on several occasions as affecting certain banks in this city.

Some time ago, it is said, the bright idea occurred to somebody that the banking institutions, in order to earn interest on their reserve, could be induced to aid speculation and to carry gold for the clique. The plan was tried and succeeded beyond the most sanguine expectations. It has since been tried again and again, at first secretly, then more openly, until at last it has become an established usage. The cliques buy, for example, a million of gold, deposit it in bank as collateral, borrow a million or more on it in currency, so as to leave a stipulated margin. They pay for this loan the regular rate of interest, or less or more according to the times. Obviously this arrangement enables the speculators to carry on their gold operations with capital furnished by the bank. Except the margin of 10, 12 or 15 per cent, they use no money of their own, and they need none, inasmuch as the bank supplies them with all the rest of the funds required for the operation. If the margin be 15 per cent and the banks were willing to carry so much at this price, it is evident therefore that a clique would have only to raise a "pool capital" of 1½ millions in order to control 10 millions of gold, and that with that sum at command they could at certain contingencies control the market, dictate the gold premium, and regulate for a short time the course of the foreign exchanges.

On the part of the banks the argument is that it is their interest to make a profit by earning interest on their reserve, and that they have at law a right to lend on gold. Neither of these claims can perhaps be disproved. The act of 19th February, 1869, is the only law which attempts to control the freedom of the banks to lend on any collateral except real estate. This statute enacts that "no national banking association shall hereafter offer or receive United States notes or National bank notes as security or as collateral security for any loan of money." Thus the law puts certain other loans under the same prohibition as those based upon real estate which we fully explained a fortnight ago. These forbidden loans are all that the National banks are legally restricted from. On the whole, then, it appears that a bank cannot lend money on a hypothecation of real estate or of greenbacks, or of National bank notes. The law says not a word about gold. On gold therefore a bank may lend, and there is no power in the Comptroller to prevent it. So much for the legal right of the banks to lend on gold. As to the profit they thus gain it is too obvious to need discussion.

In reply to the banks, it has been said that such gains are not the profits of legitimate banking, and that the omission of "coin" in the act of 1869 gives no such right as is claimed. By that statute the national banks acquire no right to interfere and aid in speculations curtailing the free public use of specie, or to lock it up from circulation. The coin is minted and provided by the government, not for the exclusive private advantage of a few gambling speculators, but for the general welfare of the whole community, and this general good the banks are bound to promote by the conditions of their charters, which are violated by every

Digitized for FRASER
http://fraser.stlouisfed.org/

instance of helping speculators to attack the public credit or to put up the premium on gold. Waiving this argument, however, and leaving the question open for future discussion, we have been anxious rather to prevent the banks from reckoning among their reserve the gold so held by them on hypothecation. This hypothecated specie does not belong to the banks. It is not their property. Therefore it cannot, we say, be part of their reserve. It is owned by the speculators, who may at any time pay off their loans, demand back their gold, and carry it off whether the bank be willing or not.

If the banks are prevented from counting such gold as reserve, they will soon cease to lend upon it; for the abuse has grown up by no other means, and has sustained itself by no other device, but by tempting the banks to compel their reserve to fructify and earn interest. At the time when compound interest notes were allowed to be used as a reserve, the banks kept a large quantity of them as part of the legal requirement. Later the three per cent certificates were similarly used with the same object of earning interest on reserves. Now, however, the last of these three per cents have been called in, and there remains no other method by which the banks can make their reserves earn any profits except this latest contrivance of loans on gold. If this temptation is the only inducement which has led the banks to lend on gold as they have done, it follows that when the inducement is taken away, the practice so far as it is vicious will cease.

As to the extent to which the banks have been loaning on gold, we are indebted, among others, to Mr. Osmond H. Schrimer, of the German-American Bank, for some important statistics, which it is not perhaps desirable at present to publish. Enough may be seen by reference to the bank statement on another page of this paper. On examination it will be found that there are a dozen banks in the Clearing-House of this city which hold more gold than greenbacks. Four of these banks have deposits and circulation amounting to 53 millions, calling for 13½ millions of reserves. The reserves are really ample. They amount to 15 millions, of which gold unfortunately constitutes 10¾ millions, while of greenbacks, which are the only really useful reserve in time of panic, these four banks hold but $4,290,500. Applying the same analysis to the whole group of fourteen banks which are most defective, our readers will find the aggregate liabilities of this group of banks amount to 92 millions, while their gold reserves are 20 millions, and their greenbacks only 7¾ millions. This deficiency of greenbacks is the more conspicuous when we compare it with the aggregates of the whole of our Clearing House banks which have 267 millions of liabilities, calling for 67 millions of reserve. The actual reserve is 81 millions, made up of $48,872,500 of greenbacks and $32,273,600 of gold.

A more striking proof could scarcely be given of the accumulation and irregularity of which the Comptroller has taken cognizance than the fact thus brought to light that 20 millions of the Clearing House gold reserve of 32 millions is concentrated in fourteen of the banks, and that in those important institutions its presence indicates a proportionate weakness in the efficient reserves of greenbacks.

THE BROOKLYN TRUST COMPANY.

Considerable excitement has been caused by the suspension of the Brooklyn Trust Company, one of the most popular financial corporations in the vicinity of New York. The Directors, in a card to the public, attribute the difficulties of the company to a "large overdraft" on the part of the late president, Mr. Mills, who was drowned at Coney Island on the 18th inst. This "overdraft," which is a mild description of a felonious offence, is not a recent one. It has been running for a year or more without being discovered by the Board of Directors, whose duty it was to prevent and punish such abuses. Nor is this the only irregularity that has occurred in this young institution. The Secretary, Mr. Rodman, and some of his friends appear to have been accommodated with loans; and the depositors, fearing to lose their money, are some of them taking steps to throw the concern into bankruptcy; others, pressed by need, are trying to sell their claims at a discount; while a larger class are waiting in hope; and these persons, to keep their confidence alive, are promised a first dividend of 50 per cent by the Receiver, Mr. Daniel Chauncey, to be paid in August next, and a subsequent dividend as soon as possible afterwards.

Till some official statement has been intelligibly made of the details of the financial condition of the company any advice is obviously premature. The depositors must be careful at present, however, to act with judgment and forethought. They seem to be secure in any event. The capital of the company was $500,000, and its stockholders are liable under their charter for a further sum equal to the par value of their shares. Here, in this liability-clause, the creditors have half a million of dollars to fall back upon, so that unless it turn out that the defalcations of the president and his friends are much larger than is believed, and exceed $500,000, the insolvent concern can pay off its depositors in full. Hence the whole loss will fall on the stockholders, who are said to be in a condition to pay the assessment. This theory appears to be borne out by the list of their names, which has been published. As to the call loans of the concern, they are said to amount to $1,975,000, and the other available assets of the company are reported at $800,000. But what shape the assets really assume, from whom the loans are due, and what is the precise nature of the collateral securities held, are questions on which the most conflicting opinions are held. Early next week each of these questions should receive a frank and full reply.

But this is not the only resource of the depositors. It is notorious that on the Board of Directors of the Brooklyn Trust Company are men adapted to inspire confidence and to attract deposits. The high reputation of the Board caused the public to trust the company with their money. These Directors stood before the public not as managers of a common bank, but as guardians of a Trust Company; whose investments, like those of a savings bank, were expected not to be the ordinary risks of business undertaken by banks, but solid, substantial, safe beyond question, wholly free from danger. Such were the solemn obligations assumed by the Directors, both as individuals and as a body of Trustees. Relying on these men in full faith, the public deposited two millions of money and more in their hands. Now it remains to be seen what remedy at law or in equity the too-confiding depositors may be entitled to. It is proposed to try this question in the courts. What would be the results of such a suit may admit of doubt. But at any rate it would settle some important questions never yet adjudicated upon as to the obligations of Directors in institutions receiving deposits of other people's money.

In this case the present moment is not propitious to press such questions, for two reasons. First, the immediate interest of the public does not require it, as the first object plainly is to protect the depositors and to guard their claims. If the creditors should rashly throw the concern into bankruptcy, they would precipitate heavy losses, disappointments and delays on themselves and on everybody connected with

FRASER
fraser.stlouisfed.org/

the concern. It is a service to these men, therefore, to show that the better policy for the company and the public is to wait and to take no hostile action, at least until the directors have had time to look about them and prepare their plans. If the depositors will do this, they appear, for the reasons we have mentioned, to be amply secured from ultimate loss. They are sure to get their money in the long run, and at the worst they need fear only a brief delay.

An important object is, however, the saving of the institution if, as is affirmed, it is worth saving. This Trust Company was started a few years ago with hopeful prestige. Such an institution had long been needed in Brooklyn. Its Secretary and its President may have been unworthy men, but they have had a lucrative business. By their recent speculations and losses they surely cannot so soon have scuttled and shipwrecked their vessel with the whole of its precious freight. There may be a strong solid organization left notwithstanding the shocks it has received from the misdeeds of these officers. If their shattered barque be strong enough to start a new voyage with a better pilot, by all means save it for the benefit of all concerned. And, at any rate, a few days will decide the question and bring to light the full evidence on all the doubtful questions involved When these facts are clearly known, there will, perhaps, be less inducement or temptation to institute rash proceedings, and both the creditors of this mismanaged company and its implicated directors will know better what they and their friends can do, and how they may with the largest promise and the smallest loss adjust the past to the future.

THE "ALABAMA" PAYMENTS AND THE SYNDICATE.

We received the assurance yesterday from a source entitled to the highest credit, that the report is correct to which we referred last week that the whole or the larger part of the "Alabama" Indemnity money has already been received at Washington, and paid into the Treasury by the agents of the British Government. A more conspicuous proof could scarcely be given of the futility of hoping to enshroud in an atmosphere of secrecy the major operations of international finance. In a free government like ours, publicity is a prime condition of purity, and it is there fore fortunate for us that the administration of affairs can not in these days of telegraphs and an untettered press be kept from the knowledge of the people. The method of payment is variously reported. Among the evidence which has come to light on the question, a prominent place belongs to the following article from the London *Economist* of July 12. It should be taken in connection with the statement of the London *Times* referred to in our last issue.

"The payment of the Alabama penalty has been managed with unexpected facility. It is not, we believe, altogether concluded, but still by much the greatest part of it is paid. It has, we believe, been managed somewhat in this way. A contract was made with three principal firms in the city, who contracted to pay the money for us in Washington, and who had the option of doing it in three ways:

1. "If the contractors chose to deposit gold on our account in America, they were to be allowed to draw drafts on England, which the Bank of England would honor, and which would be debited in due course to the Exchequer account.

2. "If the contractors so deposited the money, they were also to have the right of telegraphing to their agents here a weekly statement of the amount; and on its receipt the government would at once pay it here at a fixed rate of exchange.

3. "The contractors here had the option, which we believe they have largely exercised of paying in due five-twenty bonds, which the American Treasury has advertised for payment. The contractors are said to guaranty the payment of these bonds on presentation; but this, though formally necessary, is in practice of no account. Nothing can be better than paying the American government in its own due acceptances, and nothing more certain than that it will pay them at maturity.

"The operation has certainly as yet been exceedingly successful. Indeed, so far from its having carried gold from hence to America gold is now coming from America to England."

We need not be surprised to find that in conjunction with the foregoing contract some engagements have been made which have scarcely as yet been reached by the penetrating eye of Wall street. One of these is supposed to be a stipulation as to the supply of gold at the Bank of England. Such a stipulation would have been hard to fulfill if the German Government had gone on importing gold; and if the Bank of France had not agreed to let out $40,000,000 of its idle coin reserve. These two preliminary points being favorably adjusted, however, the rest was easy. The German Government for well-known reasons has left off importing gold for the supply of its mint operations, and the French Government has prevailed upon the Bank of France to weaken its reserve to the extent of 200 millions of francs, so that the pressure of the demand for gold on the Bank of England was terminated, as far as the German mint was concerned.

This preliminary elucidation is needful to explain how it was that the Bank of England some weeks ago was induced to agree to the first and second conditions of the above contract, although it had just raised its rate in an ineffectual attempt to stop the export of gold and to prevent the loss of its bullion reserve. This contract bound the Bank to honor drafts on telegraphic statements, and thus gave the contractors the command of the market for foreign exchange here. The export of gold being stopped from England, all that the contractors had to do was to guarantee that a sufficient amount of gold should be sent from this side, and that the gold reserves of the Bank of England should not suffer from any drafts of the contractors. On this theory the recent exports of gold from here at an expense equal to a considerable commission are easily accounted for, as are also the steady additions which have been almost daily made to the Bank of England reserves for some time past.

Moreover, this arrangement throws light on the statement semi-officially made from Washington that the payment would involve no expense to our government, and that the Syndicate as such had nothing to do with it. Of course the Alabama indemnity payment being, by the terms of the treaty, due in Washington from the British government, the expense of transferring the money must fall on that government, and all our Treasury has to do is to receive payment in gold or its equivalent. The compensation, if any, which the contractors receive, is not due from us, but they have to look as agents to their principal that is the British government, which employed them. This being so, we trust there is no foundation for the report that the Syndicate are to receive a commission on the $15,500,000 of bonds in which the money is to be invested. On this point we repeat the warning which we gave at the time the Alabama Indemnity Bill was up in Congress. The money is directed to be invested in five per cent bonds of the United States at the discretion of the Secretary of the Treasury. But the people will approve no exercise of that discretion which pays out of the coffers of our government any commission on this money to the Syndicate.

The Syndicate, as we said, has really nothing to do with the negotiation. Two or three points are well established which satisfactorily prove this. In the first place it is the duty of Mr. Lowe, the Chancellor of the Exchequer, to pay the award in gold coin or United States Treasury certificates for gold into the hands of Hamilton Fish, Secretary of State, by the middle of next September. Secondly, Mr. Lowe has made an arrangement with the banking houses of Jay Cooke, McCulloch & Co., J. S. Morgan & Co., and Morton Rose & Co. These firms belong to the Syndicate, but the Syndicate embraces other firms also, who have no part whatever in the risks or obligations of this negotiation. Thirdly, Mr. Lowe has already paid over to

Digitized for FRASER
http://fraser.stlouisfed.org/

the bankers fourteen million dollars, of which about seven millions have been transmitted to this country, and the remainder invested in five-twenty bonds of the 1862 issue, which have been called in for redemption on the 6th of September. The bankers named are bound by their agreement with the English Government to settle with Mr. Fish in the same month. Perhaps more than half the payment will be made in the called five twenties. The whole sum, which has been paid, it is said, will appear in the debt statement for August, when a fuller account of the negotiation will be, in all probability, officially given. Enough is known, however, to show that the Syndicate has no claim, directly or indirectly, to any commission whatever on the Alabama indemnity, or on the bonds in which it may be temporarily invested.

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS.

The following are the changes in the Redeeming Agents of National Banks approved since the 17th inst. These weekly changes are furnished by and published in accordance with an arrangement made with the Comptroller of the Currency:

LOCATION.	NAME OF BANK.	REDEEMING AGENT.
Vermont—Barre	The National Bank.	The National Bank of Redemption Boston, approved.
Kentucky—Louisville	The German National Bank	The Ninth National Bank of New York, approved in place of the National Park Bank of New York.
Illinois—Paxton	The First National Bank	The Manufacturers' National Bank of Chicago, approved in place of the Commercial National Bank of Chicago.
Illinois—Carlinville	The First National Bank.	The Continental National Bank of New York, the National Bank of Commerce, Chicago, and the St. Louis National Bank, approved in place of the Second National Bank of St. Louis.
Wisconsin—Baraboo	The First National Bank	The Second National Bank of Chicago, approved.
Iowa—Winterset	The Citizens' National Bank	The Cook County National Bank of Chicago, approved in place of the Second National Bank of Chicago.
Minnesota—Duluth	The First National Bank	The Cook County National Bank of Chicago, approved in place of the Union National Bank of Chicago.

New National Banks.

The following National Banks have been organized during the past week, viz.:

Official No.

2,119—The First National Bank of Marshall Co. at Plymouth, Ind. Authorized capital $50.000; paid in capital, $34.000. M. A. O. Packard, President; John Soice, Cashier. Authorized to commence business July 18, 1873.

2,120—First National Bank of Chelsea, Vt. Authorized capital, $100,000; paid in capital, $50,000. E. Hyde, President; John M. Clark, Cashier. Authorized to commence business July 19, 1873.

2,121—First National Bank of Ashland, Neb. Authorized capital, $50,000; paid in capital, $30,000. J. G. Miller, President; John Simington, Cashier. Authorized to commence business July 21, 1873.

2,122—The Farmers' National Bank of Owatonna, Minn. Authorized capital, $50,000; paid in capital, $50,000. L. L. Bennett, President; A. C. Gutterson, Cashier. Authorized to commence business July 24.

[From our own correspondent.]

LONDON, Saturday, July 12, 1873.

The anticipated reduction in the Bank rate has taken place, and the *minimum* quotation is now 5 per cent. The weekly return which has been published is remarkable for the large decrease in the "public deposits" and in "other securities;" but it shows principally the payment of the dividends, and, it is believed, of some bills in connection with the Geneva award which had arrived at maturity. Notwithstanding the heavy payments made by the Treasury of late, the balance remaining at the Bank is still considerable, the total being £5,762,616, which is only about £500,000 less than at this period last year. The increase in the stock of bullion is smaller than might have been expected, but this fact is due to the dividend payments, while the increase in the note circulation arises out of a similar cause. The position of the Bank, however, is stronger, and the proportion of reserve to liabilities, which was last week 36 1-3 per cent, is now 42¼ per cent.

Throughout the week the demand for money has been exceedingly moderate. During the earlier days few bills were sent in for discount, as a reduction in the Bank rate was considered certain, but the inquiry during the last few days has been good, though by no means larger than could have been expected. There are almost general complaints about the state of trade, and the belief is universal that during the remainder of the summer, business in every department will be exceedingly limited. The transactions are now chiefly in connection with the supply of actual wants, and it is not believed that there will be any departure from that policy for some time to come. The coal question becomes daily more perplexing, and as, even in the height of summer, we are very dear, the prospect for next winter is a serious one, and especially for trade. Three years ago, coals, for domestic use, were obtainable in London at this period of the year for 22s. per ton: they are now 40s. This time last year they were 28s., and the highest price paid during the winter was 52s. per ton. Possibly, the only thing which will prevent coal being very dear will be the slackness of trade, but the winter is too far distant to enable any opinion on that subject to be formed. There are, indeed, new collieries being opened in various parts of the country, and they will, no doubt, soon become productive; but even high wages do not lead to a large immigration of laborers into the mining districts, the great drawback being the disinclination of many, if not most men for underground work. The fact would appear to be that the taste for coal mining must be inherited, and that a certain section of the community keeps the work in its own hands. It is evident that for the present at least the coal miners monopolize the trade, and from the success which attended their operations last winter, if the South Wales strike be excepted, it is more than probable that judging from the state of the trade now, there will be very disturbed, uncertain and dear markets during the winter. Manufacturers will be somewhat perplexed, therefore, in fixing their prices for goods; but it is evident that they will have to make a large allowance for coal.

To-day, there has been a fair inquiry for money, and the following are the quotations:

	Per cent.		Per cent.
Bank rate	5	4 months' bank bills	4⅜@4⅝
Open-market rates:		6 months' bank bills	4 @4½
30 and 60 days' bills	4½@4¾	4 and 6 months' trade bills	4½@5
3 months' bills	4⅜@4½		

The rates of interest allowed by the joint stock banks and discount houses for deposits are subjoined:

	Per cent.
Joint stock banks	4
Discount houses at call	4
Discount houses with 7 days' notice	4¼
Discount houses with 14 days' notice	4½

The following are the rates of discount at the leading Continental cities:

	Bank rate. per cent.	Open market. per cent.		Bank rate. per cent.	Open market per cent.
Paris	5	4¾	Madrid, Cadiz and Barcelona	6	6
Amsterdam	5	4¾	St. Petersburg	4	4½
Hamburg	..	5	Brussels	6	5¼
Berlin	6	5	Turin, Florence and Rome	6	5½
Frankfort	6	4¾	Leipzig	6½	6
Vienna and Trieste	6	5			
Lisbon and Oporto	7	7			

The following statement shows the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English Wheat, the price of Middling Upland Cotton, of No. 40 Mule Yarn fair second quality, and the Bankers' Clearing House return compared with the four previous years:

	1869.	1870.	1871.	1872.	1873.
	£	£	£	£	£
Circulation, including bank post bills	24,420,176	24,353,213	25,811,779	26,693,708	26,621,600

FRASER
louisfed.org/

There is scarcely any demand for gold for export, and fair supplies continue to be sent into the Bank. The supply of bullion held by the Bank of France has been diminished during the week by £1,720,000, due chiefly, no doubt, to the recent payment of £10,000,000 to Germany. The arrangement made by the French government with the Bank of France for an advance of £8,000,000 in gold has obviously had an important effect upon our gold market, so that the gold question is now much less seriously discussed. There is at present a considerable supply of gold on passage to this country, and the New York exchange is therefore less eagerly watched.

In silver a good business has been done, and the supplies of bullion received have been disposed of at former prices. The following quotations for bullion are from the circular of Messrs. Pixley, Abell, Langley & Blake:

GOLD.		s. d.	s. d.
Bar Gold	per oz. standard, last price.	77 9	@ ....
Bar Gold, fine	per oz standard, do.	77 9	@ ....
Bar Gold, Refinable	per oz. standard, do.	77 10½	@ ....
South American Doubloons	per oz.	73 9	@ 74 0
United States Gold Coin	per oz. none here.	....	@ ....

SILVER.		s. d.	s. d.
Bar Silver, Fine	per oz. standard.	4 11 5-16	@....
Bar Silver, containing 5 grs. Gold	per oz. standard, last price.	4 11 11-16	@....
Fine Cake Silver	per oz	no price	
Mexican Dollars	per oz., last price. new,	4 11	old, ...
Five Franc Pieces	per oz., none here.	....	@ ...

Continental bills of exchange have been in demand, and the rates are higher.

The total of the new German gold coinage is now nearly £33,000,000.

Notwithstanding the fineness of the weather and the more favorable condition of the money and bullion markets, business in the stock markets has been very limited and the value of British railway shares has experienced a heavy fall. The first railway dividend for last half-year has been declared, and the result is not unsatisfactory, as it is the same as for the corresponding period of 1872, while a much larger sum has been carried forward. The Stock Exchange appear, however, to have anticipated more, and hence the price of the stock which had been forced up to a somewhat high level, has fallen considerably. Except from the fact that the traffic receipts have been larger, it is difficult to perceive how those interested in railway stocks can expect higher dividends this year. Everybody knows that the working expenses have largely increased, and it will unquestionably be very satisfactory if the dividends for last half year are equivalent to those of the same period in 1872.

Amongst foreign stocks, a prominent feature has been the strength and character of the demand for United States government securities. These bonds have met with a good inquiry for investment, and large amounts have been taken off the market. Erie shares, however, are weaker, owing to the receipt of lower prices from New York; and Atlantic and Great Western third mortgage bonds are also flatter. Other American securities, however, show very little alteration.

The weather has been fine for the growing crops, and there being a good supply of wheat afloat, chiefly from the United States, millers have purchased only for the supply of immediate wants, and produce, ex ship, has been obtained on rather lower terms. Our wheat crop does not promise to be abundant, but, with fine weather, the quality will, it is thought, be excellent. The crops in Austria promise well, but in Southern Russia and the Caucasus they are suffering from drought. It is also said in Hungary and Servia there will be a smaller yield than had been anticipated, owing to the light rainfall.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the three previous years:

IMPORTS.	1872-73.	1871-72.	1870-71.	1869-70.
Wheat ..... cwt.	37,843,263	32,311,827	27,622,675	33,388,619

Flour	22,319	81,072	1,316,106	61,474

According to the Board of Trade returns, the importation of wheat into the United Kingdom in June amounted 3,451,275 cwt., being an increase of 900,000 cwt. as compared with last year. The increase is due to the large importations from the United States, the total of which was 1,695,441 cwt., against 489,768 cwt. Of flour the receipts were 472,613 cwt., against 332,213 cwt. last year. The import of wheat in the first half of the year reached a total of 18,651,268 cwt., being an increase of 3,000,000 cwt., as compared with 1872. The importation from Russia has diminished as much as 2,500,000 cwt., and from Germany about 440,000 cwt. but there has been an increase of rather more than 1,000,000 cwt. in our receipts from France, and of 4,350,000 cwt. from the United States. The import of flour during the six months was 3,393,994 cwt., against 1,446,084 cwt. France having contributed 1,466,571 cwt., against 233,285 cwt. In the half year's importation of barley, compared with 1872, there is a diminution of 1,500,000 cwt.; of oats, 126,000 cwt.; of beans 244,000 cwt., but that of Indian corn has been large, viz.: 8,123,889 cwt., being about the same as in 1872. The export of wheat during the six months is returned a 269,745 cwt., against 119,101 cwt., and of flour at 3,825 cwt. against 7,036 cwt.

The public sales of Colonial wool were commenced on Thursday, and during their progress 218,000 bales will be brought forward. There has been a good attendance of home and foreign buyers, and those from France have purchased largely. All stapled wools command an improvement of 1d. to 1½d. per pound, but other kinds are rather cheaper.

Messrs. Huggins & Co. announce that they are prepared to receive subscriptions to an issue of 576 7 per cent first mortgage gold bonds of $1,000 each of the Chicago & Paducah Railroad Company. The line is 200 miles in length, of which 97 miles are already completed, and it is expected that 32 additional miles will be opened for traffic on the 1st of August next. The price of issue is £175 10s. per £100 bond, and the principal is redeemable at par in 29 years.

Messrs. Bischoffsheim & Goldschmidt announce that they are authorized to receive subscriptions to an issue of $7,600,000, or £1,520,000, 8 per cent Western Extension certificates of the Atlantic & Great Western Railway Company, in certificates to bearer of £100 each. The price of issue is £94 per bond, and the principal and interest are payable in London. This issue has been authorized for the purpose of providing means for securing the controlling interest in the Cleveland, Columbus, Cincinnati & Indianapolis Railway by acquiring 76,000 shares. These shares will be deposited with two trustees, to be held by them as security for the certificates now offered for subscription. It is stated that the Cleveland line paid from its opening to 1867, inclusive, dividends averaging more than 11 per cent per annum on the ordinary stock, and has since paid regularly dividends of 7 per cent, besides expending on construction large sums out of revenue.

The following statement shows the stocks of cotton at and supplies afloat to the principal Continental ports:

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show an increase in dry goods and a decrease in general merchandise. The total imports amount to $6,530,355 this week, against $9,432,296 last week, and $4,112,009 the previous week. The exports are $6,529,632 this week, against $5,427,800 last week, and $4,964,510 the previous week. The exports of cotton the past week were 10,053 bales, against 8,267 bales last week. The following are the imports at New York for week ending (for dry goods) July 17, and for the week ending (for general merchandise) July 18:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

	1870.	1871.	1872.	1873.
Dry goods	$1,777,347	$1,941,029	$2,605,539	$2,256.767
General merchandise	3,679,343	4,153,288	4,615,663	4.273 588
Total for the week	$5.456.690	$6,094,317	$7,221.202	$6,530.355
Previously reported	162,238,561	209,201,356	244.776,593	232.934,815
Since Jan. 1	$167,695 251	$215,295,673	$251,997,795	$239,465,170

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie

from the port of New York to foreign ports, for the week ending July 22:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1870.	1871.	1872.	1873.
For the week	$3,806,211	$5,272,595	$4,274,943	$6,529,662
Previously reported	99,654,347	127,534,376	120,002,854	150,601,911
Since Jan. 1	$103,460,558	$132,806,971	$124,277,797	$157,131,573

The following will show the exports of specie from the port of New York for the week ending July 19, 1873, and since the beginning of the year, with a comparison for the corresponding date in previous years:

July 12—Str. Celtic, Liverp'l—	
American gold coin	$1,000,000
July 15—Steamer Wilmington, Havana—	
American gold coin	57,921
American silver coin	33,966
July 15—Str. Scotia, Liverp'l—	
American gold coin	305,200
Foreign gold coin	97,333
Gold bars	33,000
Silver bars	96,100
July 16 Str. Konig Wilhelm I, Southampton—	
American gold coin	200,000
For London—	
American gold coin	500,000
July 17—Str. Silesia, Hamburg—	
Silver bars	78,108
Foreign silver coin	6,018
For London—	
American silver coin	45,264
Gold bars	15,700
American gold coin	500,000
For Plymouth—	
American gold coin	$300,000
For Paris—	
Silver bars	13,200
July 18—Schr. Lilias, Maracaibo—	
American gold coin	75,000
July 19—Stmr. Deutschland, London—	
Silver bars	17,146
July 19—Str. Abyssinia, Liverpool—	
Silver bars	343,000
American gold coin	150,000
Foreign gold coin	146,000
July 19—Str. Oceanic, Liverp'l—	
Mexican silver coin	14,000
American gold coin	650,000
Silver bars	36,483
Gold bars	31,000
July 19—Str. City of Montreal, Liverpool—	
American gold coin	200,000
Total for the week	$4,944,534
Previously reported	31,829,235
Total since Jan. 1, 1873	$36,773,769

Same time in		Same time in	
1872	$18,786,037	1868	$57,509,316
1871	49,883,757	1867	33,774,091
1870	27,027,185	1866	49,779,151
1869	18,212,726	1865	18,446,175

The imports of specie at this port during the past week have been as follows:

July 14—Schr. Matilda, Tampico—	
Silver	$5,000
July 17—Str. Idaho, Liv'pool—	
Silver	2,178
July 15—Brig A. B. Patterson, Laguayra—	
Gold	35,810
July 15—Str. Cuba, Vera Cruz and Progreso—	
Silver	$16,200
July 15—Str. Perit, Port au Prince—	
Silver	1,350
July 17—Str. Colon, Aspinwall—	
Gold	19,581
Gold dust	6,000
Silver	1,324
July 18—Str. Ariel, Curacoa—	
Gold	6,744
Total for the week	$94,187
Previously reported	2,758,969
Total since January 1, 1873	$2,853,156

Same time in		Same time in

1870	7,317,101	1867	1,066,975

Portland & Ogdensburg Railroad.—The importance to our internal commerce of that great chain of lakes stretching half across the North American continent can hardly be overrated. They wash the shores and drain a territory larger than half Europe, and furnish the highway of commerce for a population of ten millions. Owing to the difficulties and obstacles by which the navigation of the St. Lawrence River—the natural outlet of these lakes to the sea—is beset, the great bulk of the lake freights has heretofore been transported to its destination by the N. Y. Central, connecting Buffalo at the foot of Lake Erie, or Oswego on Lake Ontario with New York, by a line 440 miles, and Boston by a line 500 in length, and the Vermont Central, which receives the lake traffic at Ogdensburg, and conveys it to New York and Boston by lines 400 and 500 miles in length respectively. Ogdensburg is, however, the easternmost point of safe and cheap inland navigation as well as the point from whence the shortest line to deep-sea navigation is found. From these advantages it would seem to be the true gateway by which the vast lake commerce could be passed eastward and westward with the greatest economy. Portland, the best harbor on the North Atlantic coast, is distant from Ogdensburg by the Portland & Ogdensburg Railroad only 350 miles—a distance 70 to 150 miles less than by the other routes from the lakes to Boston or New York. Having, therefore, the shortest line of rail, and connecting with the most easterly points of lake navigation, this new trunk line must naturally receive its full share of the immense traffic of the West and Northwest.

—A new freight line has been established between Eastern ports and the chief cities and towns of the Western and Southwestern States, which is interesting to shippers. The "Clyde" line of steamers plying between Boston and Providence and Richmond have entered into arrangements with the Chesapeake and Ohio Railroad and its western connections for through shipments of goods destined to Portsmouth, Cincinnati, Louisville, Nashville, Memphis, St. Louis, and points in the far west. Another line of the same company plies between Philadelphia and Richmond, and also carries through freights to the same points, giving to the latter the advantage of competing routes. The Old Dominion Line from New York also issues through bills of lading to all principal western cities over the Chesapeake and Ohio Line. It is presumed that large quantities of cotton, wool, hemp, tobacco, and other raw produce will find its way by this route to Eastern factories, and a corresponding volume of manufactured goods will go in the opposite direction.

—We are in receipt of a copy of the proceedings of the sixth annual meeting of the shareholders of the Canadian Bank of Commerce, held in Toronto on the 8th ult. The report of the year's business shows a healthy and prosperous condition. After covering the charges for management, and making ample provision for bad and doubtful debts, the net profits, including premium on new stock amount to $969,159 09. Besides providing for two half yearly dividends of four per cent each, appropriating $30,130 49 for accrued interest on deposits, and adding $10,000 00 to the reserve of interest on current bills—which is now $65,604—the sum of $500,000 has been carried to "rest" account, making that fund $1,500,000, leaving a balance of $20,142 40 at credit of profit and loss. The unsubscribed portion of the capital of the bank amounting to $1,200,000, which was allotted to the shareholders on the 31st of July last has all been paid up except $124,727.

—Mortimer Mackenzie, Esq., long and favorably known in connection with the General Transatlantic Steamship Company, and who assumed the entire charge of its business the first few months of the present year, during the illness of his father, Mr. George Mackenzie, Agent of the Line, sails for Europe to-morrow in the "Ville de Paris." Mr. Mackenzie goes to Europe to join his family, who are now sojourning on the Continent, and he will remain abroad about three months.

BANKING AND FINANCIAL.

BANKING HOUSE OF FISK & HATCH,

5 NASSAU STREET.

NEW YORK, July 21, 1873.

We recommend to our friends and customers for investment of surplus Capital, or in exchange for Government Bonds,

THE CHESAPEAKE AND OHIO SEVEN PER CENT GOLD BONDS; principal and interest payable in gold coin in New York; interest payable January 1 and July 1; Coupon or Registered. Price **90** and accrued interest.

THE CHESAPEAKE AND OHIO RAILROAD, IS A GREAT EAST AND WEST TRUNK LINE, 420 miles in length, extending from Atlantic tidewater at Richmond to Huntington, the most favorable point of railroad connection with the Ohio River, and developing the richest IRON, COAL AND TIMBER regions in the United States.

It is completed, and doing a large, profitable and rapidly increasing business.

ITS FREIGHT TRAFFIC, PASSENGER TRAVEL AND EARNINGS during the current year will be much larger than has heretofore been anticipated, and they are developing with a rapidity which shows the Chesapeake and Ohio to be one of the most valuable and successful railroads in the country.

These facts, together with the SUBSTANTIAL AND ENDURING CHARACTER OF THE ROAD ITSELF, ITS ADVANTAGES FOR ECONOMICAL AND PROFITABLE OPERATION, AND THE UNQUESTIONABLE SECURITY OF THE BONDS OF THE COMPANY, enable us to recommend them with the utmost confidence.

Pamphlets containing full information concerning the Road and the country it traverses will be furnished upon application.

We continue to deal in Government Securities, CENTRAL PACIFIC, WESTERN PACIFIC, and CHESAPEAKE AND OHIO SIX PER CENT BONDS, buy and sell Stocks and Bonds at the Stock Exchange on commission, for cash, make Collections, receive Deposits, on which we allow interest at the rate of 4 per cent, and do a general Banking business.

FISK & HATCH.

TO INVESTORS.

THE NORTHERN PACIFIC RAILROAD COMPANY having determined to close its 7-30 First Mortgage Gold Loan and thereafter to pay no higher rate of interest than 6 per cent. on further issues of its bonds, *the limited remainder of the* **7 3-10** *loan is now being disposed of* through the usual agencies.

This affords a desirable opportunity to persons wishing to *reinvest interest or dividends.*

The Company now has more than 500 miles of its road built and in operation, including the entire Eastern Division connecting Lake Superior and the navigation of the Missouri River; the work of construction is progressing satisfactorily; the Company has earned title to nearly ten million acres of its land grant, and sales of lands have thus far averaged $5 66 per acre.

All marketable securities are received in exchange for Northern Pacifics.

JAY COOKE & CO.,

No. 20 Wall street, New York.

TEN PER CENT. NEW ENGLAND INVESTMENT.

First Mortgage Sinking Fund Gold Bonds
OF THE
LAMOILLE VALLEY, ST. JOHNSBURY AND ESSEX COUNTY RAILROADS,

One hundred and seventeen miles long, from the Connecticut River to Lake Champlain, and forming the Vermont Division of the Portland and Ogdensburg Railroad Trunk Line. Issued in denominations of $100, $500, $1,000, and absolutely limited to $20,000 per mile, WITH A BASIS OF A CASH CAPITAL STOCK OF **$1,200,000** PAID IN AT PAR. Principal due in 1891. Interest payable in Gold Coin in Boston or New York, November 1 and May 1. They yield, at present rates of gold, **8 3-4** PER CENT., and held to maturity **10** PER CENT. per annum interest.

No security is greater than these first-class railroad bonds, based on a large property, as well as on a large and constantly increasing income.

The building and management of the road is conducted with such economy and integrity as to make the investment very profitable and perfectly safe.

E. & T. FAIRBANKS & CO., St. Johnsbury, Vt.
FAIRBANKS & CO., 311 Broadway, New York.
FAIRBANKS, BROWN & CO., 2 Milk St., Boston.
Financial Agents.

☞ For sale by Bankers and Brokers generally.

BANKING HOUSE OF HENRY CLEWS & Co.,
32 Wall street, N. Y.

Deposit accounts of Mercantile firms and Individuals received; all facilities and accommodations granted usual with City Banks; in addition thereto interest allowed on all daily balances.

Bills of Exchange drawn on England, Ireland, Scotland and the Continent; Travelers' and Mercantile Credits issued available throughout the world.

☞ HOUSTON AND TEXAS CENTRAL RAILROAD FIRST Mortgage Land Grant Sinking Fund Seven Per Cent Gold Bonds on the Northwestern Division. The road is entirely completed and its earnings very large. These bonds, which we recommend as an entirely safe investment, can be obtained at 90 and accrued interest, in currency, of JOHN J. CISCO & SON,
No. 59 Wall street.

RAILROAD BONDS.—Whether you wish to BUY or SELL write to
HASSLER & CO.,

FRIDAY, July 25, 1873—6 P. M.

The Money Market and Financial Situation.—There has been a quiet tone in financial circles, and the principal points of the week are summed up in mentioning the continuance of easy money in our local market; the temporary excitement in stocks consequent upon a "corner" in Erie, a decrease of $2,161,600 in the excess of our city bank reserves, and the further reduction of ½ per cent in the Bank of England rate, as reported by cable yesterday.

In the call loan market money has been readily obtainable at 3 @4½ per cent, and time loans secured by first-class Stock Exchange collateral are quoted as follows: 30 days, 4 per cent; 60 days, 4½ @5½ per cent; 90 days, 5@6 per cent, and for the remainder of the year 7 per cent gold. In commercial paper business has been moderate on a basis of 6½@7½ per cent for prime paper having three or four months to run, with some transactions at lower rates on choice paper of only sixty days. An evident preference is noticed among lenders for obligations having a short time to run, and as the Autumn months draw nearer this feeling of caution against a repetition of last season's monetary stringency is plainly perceptible.

Cable advices from London on Thursday reported an increase this week in the bullion of the Bank of England of £804,000, and a further reduction of ½ per cent in the minimum discount rate, bringing it now to 4 per cent, while the open market is ½ per cent lower. The Bank of France shows an increase in specie of 6,000,000 francs.

In our city banks the considerable decrease in specie has the effect of diminishing what is counted as legal tender reserve, and as there is no corresponding decrease of liabilities (deposits or circulation), the excess of reserve is materially lowered.

The last weekly Clearing-house statement of New York city banks, rendered July 19, showed a decrease of $2,161,600 in the excess of reserves above the legal requirement, the whole of such excess being $14,274,125. The total liabilities stood at $267,487,900, and the total reserves at $81,146,100.

The following table shows the changes from previous week and a comparison with 1872 and 1871:

	1873. July 12.	1873. July 19.	Differences.	1872. July 20.	1871. July 22.
Loans and dis.	$288,174,500	$289,877,100	Inc. $1,703,600	$297,214,500	$300,068,724
Specie	34,658,000	32,273,600	Dec. 2,384,400	29,571,800	18,111,983
Circulation	27,291,800	27,281,500	Dec. 10,300	27,376,000	30,371,187
Net deposits	238,916,900	240,206,400	Inc. 1,289,500	247,551,300	255,735,006
Legal tenders	48,329,900	48,872,500	Inc. 542,600	52,895,600	72,419,670

United States Bonds.—The market for Government securities continues firm, without any essentially new feature. The scarcity of bonds still prevents purchasers from filling any large orders at current prices, and therefore transactions are necessarily of small amount.

Closing prices daily have been as follows:

	Int. period.	July 19.	July 21.	July 22.	July 23.	July 24.	July 25.

State and Railroad Bonds.—Transactions in State bonds at the Exchange have been of small volume, and chiefly confined to the more prominent securities, such as Virginia consols, Tennessees, Missouris, North and South Carolinas, with a few sales also of Alabama, Georgia and Louisiana bonds. No intelligence of importance has been received to affect the values of Southern State securities; and from Missouri the report of an injunction granted to prohibit the State from selling the Pacific Railroad of Missouri is not, in fact, unfavorable to the State funds, as the unsettling of financial affairs in that State by a sale of the several railroads involved in the question at issue, could hardly be otherwise than prejudicial to its credit and standing.

In railroad bonds the business has not been large, and has been pretty well distributed among numerous issues. The Lake Shore and Michigan Southern $6,000,000 sinking fund loan is reported by the agents as substantially closed out. We have previously referred to a law passed by the New York State Legislature this year in regard to "Coupon Bonds." We give herewith a certified copy of the law as it now stands on the statute book of the State:

CHAPTER 595.

AN ACT relative to certain negotiable corporate bonds and obligations. Passed May 22, 1873; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The owner or holder of any corporate or municipal bond or obligation (except such as are designed to circulate as currency), payable to bearer, heretofore issued, and payable in this State, but not registered in pursuance of any law thereof, may make the same non-negotiable (except as provided in the second section of this act), by subscribing his name to a statement indorsed thereon that such bond or obligation is his property; and thereupon the principal sum therein mentioned shall be payable only to such owner or holder, or his legal representatives or assigns.

Digitized for FRASER
http://fraser.stlouisfed.org/

Sec. 2. The bonds and obligations mentioned in the last section, after having been indorsed as therein provided, may be transferred by an indorsement, in blank, or payable to bearer, or to order, with the addition of the assignor's place of residence.

Sec. 3. The provisions of this act shall apply to all interest coupons accompanying any corporate or municipal bond or obligation payable in this State.

Sec. 4. So much of chapter eighty-four of the laws of one thousand eight hundred and seventy one, entitled "An Act to authorize the owners and holders of certain railroad mortgage bonds, made payable to bearer, to render the same payable to order only," as is inconsistent with this act, is hereby repealed.

Sec. 5. This act shall take effect immediately.

STATE OF NEW YORK, OFFICE OF THE SECRETARY OF STATE, ss:—I have compared the preceding with the original law on file in this office, and do hereby certify that the same is a correct transcript therefrom and of the whole of said original law. G. HILTON SCRIBNER Secretary of State.

Closing prices daily, and the range since Jan. 1, have been:

Railroad and Miscellaneous Stocks.—The stock market has been, as a general rule, quite firm, with considerable activity prevailing at times. The important feature of the week was the corner in Erie stock, which carried the price up to 65½ on Saturday, the 19th inst., fluctuating between 65 and 60½ on Monday, and afterwards ruling between 59¼ and 62¾, and closing to-day at 61@61¼. On Monday about 5,000 shares were bought in at the Board, "under the rule," for parties who could not make deliveries, and subsequently the price declined as above noticed. At the closest period of the corner stock was worth 1½ per cent per day for its use. The steamer "Russia," which arrived on Wednesday, brought 4,600 shares from London, relieving to that extent the parties short of the stock. Pacific Mail has touched 40, but afterwards reacted, and closes at 38⅝, having been down to 36¾. The report has lately been current that the company's counsel decides a chattel mortgage on its property to be a legitimate method of borrowing. The Vanderbilt stocks are generally strong.

The daily highest and lowest prices have been as follows:

The Gold Market.—There is no important change to notice in the situation of affairs in the gold market, and the price closes firm at 115¾. The bull party was further assisted by a total export of $3,944,533 in specie last week, a part of which it was generally believed, was shipped for effect, considering the lower rates of exchange during the latter part of the week. The shipments this week will probably be small. The reduction of Bank of England rate and easy feeling in London have been favorable to an easier feeling in gold and exchange here. At the Treasury sale of $1,000,000 on Thursday the total bids amounted to $2,635,000. The rates paid for carrying gold to-day were 2, 2½ and 1 per cent to flat. Time loans of gold have been quoted as follows: 30 days, flat to ⅛ for carrying; 60 days, ⅛@¼ for use; 90 days, ½@¾ for use, and all the year 1⅛@1¼ for use. Customs receipts of the week amount to $2,472,000.

The following table will show the course of the gold premium each day of the past week:

	Quotations. Opening.	Lowest.	Highest.	Closing.	Total Clearings.	Balances. Gold.	Currency.
Saturday, July 19....	116	115⅞	116⅛	116	$39,314,000	$2,343,981	$3,246,381
Monday, " 21 ...	116⅛	116	116⅜	116¼	33,683,000	2,083 688	2,418,022
Tuesday, " 22	116¼	116	116⅜	116⅛	33,610,000	1,522,664	1,777,174
Wednesday, " 23....	116⅛	115¾	116⅛	115¾	39 658,000	2,127,871	2,700,845
Thursday, " 24....	115¾	115⅜	115⅞	115½	61,485,000	1,517,950	1,796,707

Jan. 1, 1873, to date...	112⅛	111⅝	119⅛	115¾	.....	.....	.....

Foreign Exchange.—Exchange has been somewhat irregular, and rates close to-day at lower prices. It is stated that many of the bills sold are from second hands, and for the account of parties who wish to obtain gold for sixty days use to protect themselves against a squeeze in cash gold, which they believe the gold clique will endeavor to bring about in a few weeks. Quotations are as follows:

	60 days.	3 days.
London prime bankers	109⅛@109¼	110 @ ...
Good bankers' do.....	109 @109⅛	109⅞@110

AND

STATE, CITY AND CORPORATION FINANCES.

☞ EXPLANATION OF STOCK AND BOND TABLES.

1. **Prices** of the most Active Stocks and Bonds are given in the "Bankers' Gazette," previously. Full quotations of all other securities will be found on preceding pages.

2. **Government Securities,** with full information in regard to each issue, the periods of interest payment, size or denomination of bonds, and numerous other details, are given in the U. S. Debt statement published in THE CHRONICLE on the first of each month.

3. **City Bonds, and Bank, Insurance, City Railroad and Gas Stocks,** with quotations, will usually be published the first three weeks of each month, on the page immediately preceding this.

4. **The Complete Tables of State Securities, City Securities, and Railroad and Miscellaneous Stocks and Bonds** will be regularly published on the last Saturday in each month. The publication of these tables, occupying fourteen pages, requires the issue of a supplement, which is neatly stitched in with the usual edition and furnished to all regular subscribers of THE CHRONICLE.

STATE SECURITIES, CITY SECURITIES, RAILROAD STOCK AND BOND LIST, CANAL AND MISCELLANEOUS STOCK AND BOND LIST.

[Entered according to Act of Congress, in the year 1873, by WILLIAM B. DANA & Co., in the office of the Librarian of Congress, Washington, D.C.]

The monthly tables of stocks and bonds published to-day on the pages following contain many new items of interest. The issues of new railroad bonds continue to be frequent, and the success of these loans in the London market is such as to encourage railroad borrowers who can have their loans brought forward in that market by banking houses of sufficient influence and standing. Among some of the prominent railroad loans noticed since last month in these columns may be mentioned the loan of South and North Alabama Railroad for $5,500,000 guaranteed by the Louisville and Nashville, and brought out in London by Messrs. Baring Bros. & Co.; the Atlantic and Great Western Extension bonds for $7,600,000 to acquire a majority of the stock of the Cleveland, Col., Cin., & Indianapolis road, brought out by Messrs. Bischoffsheim & Co.; the proposals for $2,000,000 of the N. Y. Central & Hudson new mortgage bonds, accepted at about 105; also the creation of a new mortgage for $8,000,000 by the Chicago & Alton Railroad; a new mortgage for $40,000,000, by the Lehigh Valley Railroad; and the Texas and Pacific mortgage, at $40,000 per mile, or a total issue of $77,480,000. The $6,000,000 sinking fund loan of the Lake Shore road is also reported by the agents to be substantially closed out. These and numerous other loans have already been noticed from week to week in our columns, and their details furnished to the readers of THE CHRONICLE.

CANAL AND MISCELLANEOUS STOCK AND BOND LIST.

STATE SECURITIES.

[Entered according to act of Congress, in the year 1873, by WM. B. DANA & Co., in the office of the Librarian of Congress, Washington, D. C.]

Subscribers will confer a great favor by giving us immediate notice of any error discovered in our Tables.

DESCRIPTION. For explanations see foot-notes.	Date of Bonds.	Size or par Value*	Amount Outst'nding.	INTEREST. Rate per Cent.	When Payable†	Where Payable and by Whom.	Principal, when due.	REMARKS.‡
Alabama:								An abstract of Auditor's report for year ending Sept. 30, 1872, was published in CHRONICLE, v. 16, p. 49. Total assessed value of lands, $76,757,299; of town lots, $35,733,482; of personal property, $30,628,489. The Legislature in April passed a law confirming the sale of the Ala. & Chat. RR. to the N. O. & Northeast. RR. Co., but this has not been successfully carried out; also offering $1,000 of direct State bonds for every $1,000 of endorsed railroad bonds the effect of which is noticed in CHRONICLE, v. 16, p. 659. (v. 15, p. 802, 860; v. 16, p. 49, 291, 523, 659.)

Missouri:								The valuation of real estate in 1872 was $437,538,142 and of personal, $140,622,360. Total, $578,155,502, upon which the tax is 5 mills. The local (county) taxes amounted to $1,799,971. The Hannibal & St. Joseph Railroad provides for its bonds. Bonds due Jan., 1872, were paid in gold, after but that time in currency, pursuant to a resolution of the Legislature. The Courts have thus far sustained the law. The Auditor recommends payment of principal and interest in gold. (v. 16, p. 154.)

South Carolina—State stock	1794	var.	38,837	3g.	Q.—J.	Columbia, St. Treas.	At pleasure.	The Comptroller's report, Nov., 1872, showed the bonded debt at $[illegible],831,327, exclusive of $4,797,508 contingent railroad debt, and $4,000,000 Blue Ridge RR. bonds. The assets are stated at $9[illegible],700, but chiefly valueless. The estimate for State expenses and interest to Nov., 1873, was $2,054,547, and for previous deficiency $1,256,405. The Blue Ridge RR. scrip, authorized 1872, has been decided to be unconstitutional. Assessed value of property in 1871, $183,913,337. The State defaulted on interest Jan., 1872. (v. 14, p. 385, 763; v. 15, p. 28, 235, 250, 691; v. 16, p. 354, 791; v. 17, p. 51.)

Tennessee:								The law passed in March, 1873, provides for funding all debt in a 10-40 year 6 per cent bond; interest to be resumed by July, 1874. See Governor's circular in CHRONICLE, v. 16, p. 627. The total debt here given is substantially, according to the report of the Comptroller, Jan., 1873, after deducting bonds paid in by railroads, amounting altogether to $12,282,796. The Comptroller estimates debt of solvent railroads, $3,958,386; due from railroads then sold, $2,878,520; indorsed bonds that will pay interest, $2,172,000, and interest, $260,640; balance revenue due, Jan. 1, 1873, $1,319,234. Total valuation of real estate, 1872, $272,674,352. The rate of taxation is 40 cts on the $100, but a tax is laid on other sources of revenue. (v. 16, p. 181, 187, 214, 323, 387, 459, 627.)

Baltimore:								The city credit has been loaned extensively to railroads, in exchange for their securities, which it holds to the amount of $11,015,968. The sinking fund for B. & O. RR. $5,000,000 loan was $1,466,163, Oct. 31, 1872; West. Md. RR. sinking fund, $8[illegible],400 and the total of the several sinking funds $5,881,-886. Baltimore & Ohio RR. pays interest on $5,000,000 loan; Water loan is paid by income of waterworks, and Public Park by City Passenger Railway, and interest on $1,[illegible],000 by other companies. The $1,000,000 loan of 1872 for West. Md. R.R. is to be in place of $525,000 bonds previously endorsed. The assessed value of property in 1873, $224,728,138; and tax rate $1 63 on the $100 for city purposes, and .17 for State. Population in 1870 was 267,354, against 212,418 in 1860. Loans are issued in registered stock and are generally due at pleasure after the dates of maturity named. The fiscal year now closes Oct. 31. (v. 16, p. 154)

Boston:								The population of Boston in 1870 was 250,526, against 177,840 in 1860. Valuation of real estate in 1871 was $395,214,950; personal property, $217,448,600; total, $612,663,550, upon which the rate of taxation was $1 57 per $1,000 for State and $1 53 for City and County. The net increase of debt in 1871-72 was $745,899. The total debt, April 30, 1872, was $28,628,535, and the sinking fund then held, $11,684,337. Sinking fund provisions are sufficient to meet the debt as it matures. Mr. Thomas Hills Chairman of Board of Assessors, estimates the value of buildings destroyed in the great fire of 1872 at $14,000,000, and personal property at $70,000,000.

Brooklyn:								The average rate of taxation on the assessed valuation of real and personal property in 1872 was about $3 50 per $100, being an increase of 75 cts 8 mills over 1871. The Mayor, in his Message, January, 1873, stated the debt at $23,066,000 for public improvements, less $2,745,000 in sinking funds, $9,478,055 for local improvements (as marked local in this table) which are a lien on the property benefitted and must be paid by its owners, and $2,293,900 of certificates. Population in 1870, 396,200 against 266,661 in 1860. Valuation of property in Kings County in 1872, by the State Board of Equalization, $175 411,593 for real estate and $1[illegible],726,751 for personal. The Board of Supervisors valued the total taxable property of Brooklyn at $207,766,452, and of all Kings County at $219,214 513. The debt was increased $1,359,914 in 1872. The debt of Kings County, separate from the debt of Brooklyn, is $3,654,712. CHRONICLE, v. 16, p. 50, 323.

Jersey, City:								A report made by citizens, Dec., 1872, states the total debt of the city at $6,919,800, an increase of $3,672,000 over the amount nominally held against the city at the time of the consolidation, two years and a half ago. Of the increase, however $2,165,000, arose under contracts adopted before the act of consolidation, and $500,000 has been made by the funding of the former floating debt. These with the cash now in the treasury reduce the actual amount of increase under the present city government to $1,114,000. (v. 16, p. 794.)

NOTE.—The figures sometimes given in brackets, at the end of remarks, refer to the volume and page of CHRONICLE containing fuller information. The letters s. f mean "sinking fund," and l. gr "land grant." Companies consolidated with, or leased to others will often be found under the consolidated or lessee's name.

* For stocks, this means the miles of road operated; for bonds, the miles covered by the mortgage.

† These figures are dollars, showing the denominations or par value of each issue of stocks and bonds.

‡ The interest *per annum* is given on bonds, but the *last dividend* on stocks; *g* means gold; *f*, free of U.S. tax; *x*, extra; *s*, stock or scrip.

‖ J. & J. stands for Jan. & July; F. & A., Feb. & Aug.; M. & S., Mar. & Sept.; A. & O., April & Oct. M. & N., May & Nov J. & D. June & Dec. Q.—J quarterly from January; Q—F., quarterly from Feb.; Q.—M., quarterly from March.

§ These dates show the period when the principal falls due of *bonds*; but the time when the last dividend was paid on *stock*

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, July 25, 1873.

General trade has been very good for the season. The temperature has been comparatively cool till within a day or two, and business men have more generally remained in town than is usual the latter part of July. Mercantile affairs have been in such an unsatisfactory state for some months, that when an opportunity for business is afforded there is a disposition to embrace it without regard to the weather. The health of this and the other principal seaboard cities of the United States remains good, and many circumstances favor mercantile activity; of leading staples but two may be said to be abnormally high in price, while many are unusually low; ocean freights continue high, but there has been a marked decline in the cost of inland transportation.

Provisions have been quiet, except for pork, lard and cheese. The stock of pork has been reduced by considerable sales to the United States Government. Lard has declined, with sales of several thousand tierces as low as 8¾c. for July and August, 8⅞c. for September, 8 7-16 for December, and 8½c. for January, but yesterday there was a partial recovery, with sales at 8⅞c. for July and 8 15-16c. for September. Cut meats have been in request, and late sales include smoked hams in tight tierces at 15@15½c., and pickled bellies in bulk at 8¼@9½c. according to weight. Beef has been quiet. Butter has declined for the common and medium grades, but fine table sorts are firmer, the range of prices being 12@22c. for Western and Ohio, and 20@30c. for State and Orange County. Cheese has been doing better, and for fine State factories 13@13¼c paid: the latter price must, however, be considered an extreme; common to prime Western factories and State dairies may be quoted at 9@12c. To-day mess pork was again firmer, with sales of new mess for August at $17 30. Lard was also firmer; prime Western 8⅞c. for August and 9c. for September. Long clear bacon was quoted at 8¾@9c. The exports of provisions from New York to foreign ports from November 1 to July 22, for three years, have been as follows:

		1872-73.	1871-72.	1870-71.
Pork	bbls.	135,011	119,665	114,253
Beef	pkgs.	79,936	78,474	123,013
Lard	lbs	142,941,648	122,575,518	66,018,115
Bacon	lbs.	270,362,953	177,281,995	55,331,331
Butter	lbs.	2,538,353	3,653,896	3,325,570
Cheese	lbs.	48,884,405	31,707,262	36,690,248
Tallow	lbs.	41,627,056	45,617,454	22,757,327

Petroleum remains without essential change. Crude in bulk 7⅝@7¾c. on spot, and 7⅞@8c. for the future; refined in bbls. 17¾c. spot and first half of August, and 17⅞@18c. for later deliveries; cases, 23c.; naphtha in bbls 9½@10c. The exports since Jan. 1 have been:

		1873.	1872.
From New York	galls.	69,436,025	42,098,685
Other ports		42,898,983	27,389,199
Total	galls.	112,335,008	69,487,884
Same time 1871	galls.	77,135,844	
Same time 1870		69,732,085	

Rosin has advanced with considerable activity in strained at $3 05. Spirits turpentine has declined under free offerings, with large sales at 43@44c. for Southern and New York packages, but there is some recovery at the close, with Southern bbls. selling at 43½@44c. Tallow has been in active demand, and notwithstanding the decline in gold, prices have remained firm at 8 7-16@8½c. for prime country and city. Whiskey advanced yesterday to 95c., and closed firm. In oils there was a sale of 500 bbls. crude sperm, early in the week, at $1 40; 100 bbls. menhaden 42½c. and to-day 600 bbls. crude northern whale, for export, on private terms, quoted at 62@63c. Metals have been generally quiet, but of ingot copper we notice sales of 300,000 lbs. Lake at 27@27½c., cash, and 28@28½c. for future deliveries. Hides and leather have been quiet. Fruits are generally doing better; the crops of domestic this season are generally poor in quality and deficient in quantity.

Freights have been quite irregular. Room has been scarce in vessels on the berth, and the Liverpool steamers have obtained higher rates for grain, as high as 12½d. being paid for several loads of wheat, with cheese 70s., and cotton 5-16d.@⅜d., but some corn has been shipped by sail to Liverpool at 10d. To London some 60,000 bush. wheat were shipped early in the week at 11½d. by sail, and 13¾d. by steam. Grain charters have been dull, and 8s. 7½d. was accepted to Cork for orders against 8s. 9d. in our last (misprinted 8@9d.) For vessels to load petroleum, still higher rates have been paid, namely, 10s. to Stettin, 7s. 1½d. to Rotterdam, 7s. 6d. to Cork for orders, and 49c. for cases to Constantinople. To-day room was scarce for immediate shipment, and higher rates asked, but three loads of grain were engaged by the Liverpool steamer of the 16th August at 11½@12d.

The market continues active for Kentucky leaf tobacco, and prices have ruled firm. The sales for the week have been about 1,100 hhds., of which 300 hhds. for home use, and 800 hhds. for home consumption. Prices have ruled firm, but without quotable advance; new crop lugs 6½@8c., and leaf 8¼@14c. for common to fine. Seed leaf tobacco has been quiet, but prices have ruled rather firmer, this being one of the reasons for the check upon business. Sales have been: Crop of 1870, 100 cases sundries at 8@10c.; crop of 1871, 200 cases Massachusetts and Connecticut at 15@50c., 23 cases New York, and 66 do. Wisconsin on private terms; crop of 1872, 200 cases Wisconsin on private terms. Spanish tobacco shows rather more movement, and the sales include 600 bales Havana at 80@98c.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1873, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

ARTICLES.	EXPORTS SINCE JANUARY 1 TO

COTTON.

FRIDAY, P. M., July 25, 1873.

By special telegrams received to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, July 25. It appears that the total receipts for the seven days have reached 12,618 bales against 13,883 bales last week, 15,181 bales the previous week and 12,428 bales three weeks since, making the total receipts since the first of September, 1872, 3,562,992 bales against 2,706,147 bales for the same period of 1871–72, showing an increase since September 1, 1872, of 856,845 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows:

Received this week at—	1873.	1872.	1871.	1870.	1869.	1868.
New Orleans.....bales.	1,993	461	4,518	1,743	458	373
Mobile	530	44	673	400	131	82
Charleston	2,333	248	895	952	699	130
Savannah	1,782	171	884	1,798	347	380
Texas	549	55	1,584	701	231	158
Tennessee, &c	2,979	506	1,575	1,687	529	865
Florida	7	1	..	41	....	....
North Carolina	276	297	193	56	98	85
Virginia	2,164	795	578	461	426	81
Total this week	12,613	2,566	10,900	7,477	2,810	2,214
Total since Sept. 1	3,562,992	2,706,147	3,967,247	2,843,034	2,109,420	2,177,023

The exports for the week ending this evening reach a total of 14,846 bales, of which 12,705 were to Great Britain, 2,141 to France, and none to rest of the Continent, while the stocks as made up this evening, are now 169,751 bales. Below are the exports and stocks for the week, and also for the corresponding week of last season:

Week ending July 25.	Exported to— G. Brit.	France	Contin't	Total this week.	Same w'k 1872.	Stock. 1873.	1872.
New Orleans	2,317	2,141	....	4,458	2,958	25,872	8,547
Mobile	....	....	....	....	....	11,559	1,076
Charleston	....	....	....	....	....	3,2[illegible]3	5,769
Savannah	....	....	....	....	....	6,586	1,121
Texas	....	....	....	....	....	14,026	876
New York	10,053	....	....	10,053	1,840	82,975	73,506
Other ports	335	....	....	335	200	26,000	14,000
Total	12,705	2,141	....	14,846	4,998	169,751	104,895
Since Sept. 1	1,818,070	250,968	494,041	2,593,082	1,921,133	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 9,848 bales, while the stocks to-night are 64,856 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to July 18, the latest mail dates.

PORTS.	Receipts since Sept. 1. 1872.	1871.	Exported since Sept. 1 to— Great Britain.	France.	Other For'gn.	Total.	Coast-wise Ports.	Stock.

The market for spot cotton the past week ruled dull until after the close of regular hours on Wednesday, when 800 bales of low grades were taken for export. Previous to this there had been a limited business for consumption, and some sales credited to speculation. For future delivery prices have pursued a very irregular course. The most conspicuous features have been the sharp advance in July contracts up to the close of Tuesday's business, and the heavy sales for August at declining prices. It is stated that among the deliveries on July contracts have been 1,200 bales, brought from New England markets, and 636 bales from Liverpool. July, while advancing, showed little activity: but yesterday, with more doing this month, sold as low as 20⅜c., against 20⅞c. on Tuesday, a decline of ½c. This was followed, however, by some reaction. Cotton has been freely offered for August, and the price declined yesterday to 19 9-16c. or one cent below the closing price for July. To day the market opened weak for both July and August, with sales at the lowest prices of yesterday, but gained strength as the day advanced, and closed steady a thirty-second higher; the later months were higher. The prices last reported were: For July, 20 19 32c.; August, 19⅝c.; September, 18¼c.; October, 17 13 16c.; December, 17⅝c. The total sales of this description for the week are 99,500 bales, including —— free on board. For immediate delivery the total sales foot up this week 6,017 bales, including 1,840 for export, 3,466 for consumption, 711 for speculation, and —— in transit. Of the above 500 bales were to arrive. The following are the closing quotations:

	Upland and Florida.	Mobile.	New Orleans.	Texas
Ordinary.....per lb	13¼@....	14¼@....	14¼@....	14¼@....
Good Ordinary	18 @....	18 @....	18 @....	18 @....

* After Change.

WEATHER REPORTS BY TELEGRAPH.—In the Gulf and Atlantic States considerable rain has fallen during the week, which was greatly needed. Reports of the appearance of caterpillars continue, but the belief seems to be almost universal that they have done very little harm as yet; our Selma dispatch is not quite so favorable in this respect. From Memphis and Nashville we still have complaints of drought. At New Orleans it has been warm, sultry and wet, with rain every day but one—showery. Our Mobile correspondent states that it has rained there on more than half the days of the week, three heavy; the crop is developing promisingly; the injury from caterpillars is as yet limited. At Montgomery it has rained on three days; the appearance of caterpillars is still reported, but no damage has,

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

yet, been done; a worm destroyer is said to have been used successfully. It has also rained on three days at Selma, and the rest of the week has been cloudy; caterpillars are becoming more general, and are already doing some damage in localities. At Macon and Columbus they have had rain on three days; our Columbus dispatch adds that the rest of the week it has been pleasant. There has been rain at Savannah—an unusually severe storm, but no serious damage. At Charleston they had rain early in the week, the latter part of the week being clear and pleasant; crop accounts are more favorable; caterpillars have appeared, but they have done very little harm. Our Augusta dispatch reports that they have had rain, but not enough to do much good. It has rained on two days at Memphis—they were local showers; there has been no general rain; days are warm, but nights are cold. They have had one light rain at Nashville this week, but not enough; more is greatly needed; much damage is feared from the drought. The thermometer at Memphis has averaged 75, Montgomery and Mobile 80, Selma 81, Macon 81, Savannah 79, Columbus 84.

FACTS FOR PLANTERS TO CONSIDER.—We have often expressed the opinion that any advance in cotton which is not based upon the true relation of supply and demand is in its final result an actual injury to the planter. Some of our Southern friends find so much satisfaction in high prices that they appear to think we are wrong in this position. A fact or two which the present corner is now developing will be of interest in this connection.

1. For some time there has been a rumor in circulation that cotton was to be shipped from Liverpool, as under the present artificial condition of the market there was profit in the transaction. It appears now that such a movement is in actual progress. This week the steamer "City of Chester" arrived (the 21st inst.), with 363 bales of American cotton; on the same day the "City of Bristol" brought 243 bales of Egyptian, and on the 23d the "Gaelic" brought 657 bales American; Monday the "Adriatic" is expected to arrive, and we understand she has 1,500 bales American for New York.

2. The high prices are also affecting home consumption. The goods market had not been satisfactory for a long time, so that high prices the more easily led spinners to economize the use of cotton, and hence their takings are sure to be something less than anticipated.

These facts are important, as both of them help to give us an increased stock of old cotton to carry over to the next cotton year. This is very undesirable, so far as the planter is concerned; he has no interest in the old stock, and to thus swell the supply early in the season will tend to make the year open with unreasonably declining prices, in case no disaster should overtake the growing crop. We would much prefer to see the old cotton absorbed now, a moderate export continued, this counter movement from Liverpool stopped, and home consumption kept up to the full rate. Such a movement is healthy, and would, in our opinion, best serve the interests of the planter.

THE COTTON CATERPILLAR.—We have received the past week from the South (we do not know from whom) a box containing specimens of this interesting little creature in various stages of development. One was as lively as a cricket and as voracious as an ox; another appeared to have wrapped his silken drapery around him and laid down to pleasant dreams; while a third was encased in his hard, temporary coffin, repairing his wasted energies for new devastations. Whether this pest of the cotton plant is to multiply until it lays waste the better part of the growing crop cannot, of course, be determined with certainty; but there are circumstances which afford strong hope that its ravages are not to become general. First, it appears that a preparation has finally been found which gives promise of being quite efficacious in killing the caterpillar. We refer to the mixture of Paris green and flour, which, as we have been assured, has been applied with gratifying success in Florida. Our Montgomery correspondent also telegraphs to-night that they have tried there with entire success a certain preparation which he calls worm destroyer, and which, we suppose, is composed of much the same ingredients. We see that the Galveston *Prices Current* states that a mixture of flour and arsenic is used in that State. Of course we are aware that a sovereign cure has before this often been announced, but with regard to the preparation first mentioned we think there are some good grounds for believing in its efficacy. And in the second place, it seems to be quite generally admitted among those best able to judge that the caterpillar never flourishes except in wet weather. The conditions for its multiplication are not, therefore, at present favorable, notwithstanding the showers the past week. There never is a season when they cannot be found in the cotton fields of the South, and their mere appearance, therefore, is no cause for alarm.

BOMBAY SHIPMENTS.—According to our cable dispatch received to-day, there have been 8,000 bales shipped from Bombay to Great Britain the past week and —— bales to the continent, while the receipts at Bombay, during the same time have been 3,000 bales. The movement since the first of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, July 24:

	Shipments this week to			Shipments since Jan. 1 to			
	Great Britain	Continent.	Total.	Great Britain.	Continent.	Total.	Week's receipts.
1873....	8,000	....	8,000	639,000	197,000	836,000	3,000
1872....	7,000	2,000	9,000	585,000	236,000	821,000	1,000
1871....	19,000	15,000	34,000	617,000	305,000	922,000	9,000

From the foregoing it would appear that compared with last year there is a *decrease* this year in the week's shipments from Bombay to all of Europe of 1,000 bales, and that the total movement since Jan. 1 shows an *increase* in shipments of 15,000 bales compared with the corresponding period of 1872.

GUNNY BAGS, BAGGING, &c.—There is more inquiry and a better feeling throughout the market for domestic cloth both here and in Boston; we quote prices here at 13¾@14c. for full weights, and a shade less in Boston; sales of 800 rolls in the latter place at 13⅞c. Calcutta cloth is in small demand, and quoted nominal at 10@10½c. Bags rule very quiet, and but few sales have been effected; we quote heavies at 14½c., and lighter weights at 14¼c. The market for jute butts closes very strong, in sympathy with recent advices from Calcutta, which report a very limited shipping business and prices tending upward, owing to small crop. Sales during the past week aggregate several thousand bales at 1⅞c., cash, and a few smaller lots at 2c., 90 days. Holders are now very firm at 1⅞c., and few offering at that. Jute is dull. The Calcutta circular of Messrs. F. W. Heilgers & Co., under date of June 10, says: "Exports to America exhibit a decrease of 50,335 bales, attributable partly to the general commercial depression, and also to the markets being overstocked with the heavy shipments made at the close of last season in anticipation of the duty on raw jute being abolished; this advantage, however, was only extended to cuttings—or butts, as they are technically termed—of which latter the increased exports amount to 60,478 bales. We estimate the net value of the entire season's shipments to Great Britain and America at about two and a quarter millions sterling."

VISIBLE SUPPLY OF COTTON AS MADE UP BY CABLE AND TELEGRAPH.—Below we give our table of visible supply, as made up by cable and telegraph to night. The continental stocks and afloat are the figures of last Saturday, but the totals for Great Britain are this week's returns, and consequently brought down to Thursday evening; hence to make the totals the complete figures for to night (July 25), we add the item of exports from the United States, including in it the exports of Friday only for Great Britain, but for the Continent the exports of the entire week.

	3,021	5,447	25,444	729	1,048	9,356

* Account of stock this week at Nashville showed that the actual stock was 935 bales less than the estimated stock.

Digitized for FRASER
http://fraser.stlouisfed.org/

The above totals show that the interior stocks have *decreased* during the week 3,361 bales, and are to-night 16,088 bales *more* than at the same period last year. The receipts have been 2,291 bales *more* than the same week last year.

The exports of cotton this week from New York show an increase since last week, the total reaching 10,053 bales, against 8,267 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1872; and in the last column the total for the same period of the previous year:

Exports of Cotton (bales) from New York since Sept. 1, 1872

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 22,809 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

	Total bales.
NEW YORK—To Liverpool, per steamers Wisconsin, 2,101....Egypt, 1,721....Oceanic, 914 ...City of Montreal, 1,831....City of New York, 1,204...Algeria, 1,018...Abyssinia, 719.. .per ship Centaur, 545	10,053
NEW ORLEANS To Liverpool per steamer Lagos, 1,253....per ship Rochester, 1,764....per bark Vanguard, 4,086	7,103
To Havre, per bark Livingston, 1,345	1,345
To Barcelona, per barks Angelos, 646....Valparaiso, 200	846
CHARLESTON—To Liverpool, per ship Marcia C. Day, 2,810 Upland and 315 Sea Island	3,125
BALTIMORE—To Liverpool, per steamer Ganges, 50	50
PHILADELPHIA—To Liverpool, per steamers Pennsylvania, 166....Abbotsford, 121	287
Total	22,809

The particulars of these shipments, arranged in our usual form are as follows:

	Liverpool.	Havre.	Barcelona.	Total.
New York	10,053	....	....	10,053
New Orleans	7,103	1,345	846	9,294

Baltimore	50	....	....	50
Philadelphia	287	....	....	287
Total	20,618	1,345	846	22,809

Below we give all news received, during the week, of disasters to vessels carrying cotton from any port of the United States:

SAWLEY CHLUDOW.—A survey was held at Narva, June 28, on the cotton injured by fire, ex Sawley Chludow, from New Orleans; 283 bales were badly damaged by fire and water; 69 bales not entire (some of them containing but a quarter of a bale); there was also some loose cotton (about 690 poods, worth about rs 4 per pood, cash); the remainder had been entirely destroyed.

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 115⅝ and 116⅝, and the close was 115¾. Foreign Exchange market is steady. The following were the last quotations: London bankers', long, 109⅛@109¼; short 109⅞@110, and Commercial, 108⅝@108⅞. Freights closed at 5-16d.@⅜d. by steam and 5-16d.@⅜d. by sail to Liverpool, 1c. gold by steam and 1c. by sail to Havre, and 1c. by steam to Hamburg.

BY TELEGRAPH FROM LIVERPOOL.—

LIVERPOOL, July 25.—5 P. M.—The market has ruled firm to-day, with sales footing up 15,000 bales, including 3,000 bales for export and speculation. The sales of the week have been 77,000 bales, of which 7,000 bales were taken for export and 7,000 bales on speculation. The stock in port is 899,000 bales, of which 379,000 bales are American. The stock of cotton at sea, bound to this port is 380,000 bales, of which 66,000 bales are American.

	July 4.	July 11.	July 18.	July 25.

Trade Report—The market for yarns and fabrics at Manchester is steady.

EUROPEAN COTTON MARKETS.—In reference to these markets our correspondent in London, writing under the date of July 12, states:

LIVERPOOL, July 12.—The following are the prices of middling qualities of cotton, compared with those of last year:

	Ord.	Mid.	Fair & g'd fair		Good & Fine.		Same date 1872 Mid.	Fair.	Good.
Sea Island	16	19	22	24	30	42	21	30	44
Florida	14	17	19	20	22	..	22	28	34

	Ord.	G.Ord.	L.Mid.	Mid.	G.Mid.	Mid.	F. Mid.	G.Mid.	M.F.
Upland	6¾	7½	8¼	8¾	9⅜	10	10⅞	11⅛	11¾
Mobile	6¾	7⅛	8¼	8¾	9⅜	10	11	11¼	11¾
N.O& Tex	6¾	7¾	8 7-16	9	9⅜	10¾	11⅛	11⅝	12⅛

The following are the prices of middling qualities of cotton at this date and at the corresponding periods in the three previous years:

Midland	1870. d.	1871. d.	1872. d.	1873. d.
Sea Isl'nd	18	23	24	19
Upland	9⅜	9	10	8¾
Mobile	9¾	9 1-16	11	8¾
Orleans	9⅞	9¼	11⅛	9

Midland	1870. d.	1871. d.	1872. d.	1873 d.
Pernambuco	9¾	8⅝	....	....
Egyptian	10¼	8	8¼	7
Broach	6¾	5⅞	5⅛	....
Dhollerah	6¾	6⅛	5⅛	4

Since the commencement of the year the transactions on speculation and for export have been:

	Taken on spec. to this date 1873, bales.	1872, bales.	1871, bales.	Actual exp. from Liv., Hull & other outports to date 1873, bales.	1872, bales.	Actual exp't from U.K. in 1872. bales.
American	90,150	170,010	221,660	66,130	59,898	132,030
Brazilian	2,260	81,700	67,570	8,617	26,223	42,280
Egyptian	5,620	31,720	19,910	5,193	4,809	11,040
W. Indian	830	3,580	6,710	5,977	5,448	23,680
E. Indian	39,680	196,570	53,780	99,017	135,528	533,740
Total	138,530	483,580	369,630	184,994	231,906	742,770

Of the present stock of cotton in Liverpool 40¾ per cent is American, against 33 per cent. last year. Of Indian cotton the proportion is 35¾ per cent, against 36¾ per cent.

LONDON, July 12.—The cotton trade has been dull throughout the week, produce, on the spot, having fallen ⅛@⅜d., and to arrive ⅛@¼d. per lb. Annexed are the particulars of imports, deliveries and stocks:

	1871. bales.	1872. bales.	1873. bales.
Imports, Jan. 1 to July 10	138,692	276,749	142,366
Deliveries	184,297	203,279	126,454
Stocks, July 10	185,999	233,854	80,062

BREADSTUFFS.

FRIDAY P. M., July 25, 1873.

The flour market ruled dull and weak until yesterday, when a material decline in prices led to more activity for export. Several thousand barrels were taken at $6@$6 10 for common extra (with one lot at $5 75), $6 30@$6 35 for extra State, $6 75@$7 30 for fancy do. from city mills, with some common to fair superfine at $5@$5 15. Receipts of flour at Western markets show some falling off, and yet are twice as large as at this time last year, while there has not been as yet any corresponding increase in the exports, and holders have become tired of carrying. To-day 1,000 bbls. good extra Western sold at $6 15, and the market was about steady at the decline above noted.

The wheat market has been fairly active, but at declining prices. No. 2 Milwaukee sold largely on Monday at $1 48½@$1 49½, and yesterday at $1 43½@$1 45, and during Wednesday there were liberal sales of No. 3 spring at $1 30@$1 32. The business for arrival has been less active, but has included the last half of August at $1 44 for No. 2 Milwaukee and $1 52¾ for No. 1 Duluth. The receipts at the Western markets continue largely in excess of last year; and among other influences operating to depress prices have been lower quotations from abroad, higher ocean freights, and a decline in gold and exchange. To-day No. 2 Milwaukee sold to a moderate extent at $1 43½@$1 45, one boat load of No. 1 spring at $1 52, one of Amber Canada in bond at $1 55, and two of No. 3 Chicago at $1 31, with some inferior spring at $1 05@$1 20. New Southern was more plenty, with sales of white at $1 70@$1 75.

Indian corn has declined, and yet has shown some irregularity; strictly prime samples have been pretty well supported. Yesterday the offerings consisted of large quantities of heated and kiln

Digitized for FRASER
http://fraser.stlouisfed.org/

dried, and a wide range of prices was established; heated sold at 47@50c; fair kiln dried at 51@52c; good steamer mixed, by canal at 55c; prime canal and rail mixed, suitable to go forward by rail, at 56@57½c. White corn has been scarce, but yellow dull. The receipts at the West are again liberal, and much of the supply heated or otherwise unsound. Accounts from the growing crop are more favorable. To-day, there was a steady market, good to prime steam and sail mixed sold at 54@56c, choice do., by rail 57@58c, and inferior kiln dried at 50@52c.

Rye has been firmer, with a sale of Western at 78c. Canada peas have sold to some extent at 92c in bond.

Oats have been in large supply, and have declined. No. 2 Chicago have ruled in the past two days at 42@42½c. To-day No 2 Chicago sold at 42¼c., and the market was firm.

The following are closing quotations:

GROCERIES.

FRIDAY EVENING, July 25, 1873.

We have had rather more activity in nearly all departments of the market for groceries during the past week. There has been an especially active business done in coffee, and prices are higher on Rio and some of the pale grades, closing very strong. Sugars have sold freely and are ⅛c. higher, closing fairly firm. Molasses has also been in good request, with boiling grades scarce and higher. Tea remains quiet, though the market rules steady with light arrivals. There has been some activity in spices.

TEA.

The week has developed nothing new in relation to tea, and the market is, in all of its essential features, about as we last reported. There has been a moderate inquiry for lines, with sales of all grades at about previous quotations. The arrivals are very light, and the result is favorable for importers, who show no disposition to yield further, and are demanding full rates. Good teas are salable at fair prices, and the outlook on these descriptions is considered a little more favorable. The low grades are unquestionably cheap, and it seems difficult to bring them up to a paying basis, as the supply is so full. The purchases of Oolong teas for this market are said to have been light, and the arrivals will not be heavy, so that holders here may be able to clear out their stocks of these teas at steadier rates, although the supply is ample for all requirements for some time to come. The sales in an invoice way are 1,500 half chests Oolongs, 1,200 do. Greens, and 700 do. Japans.

There have been no imports the past week.

The following table shows the imports of Tea into the United States from January 1 to date, in 1873 and 1872:

	Black.	Green.	Japan.	Total
Atlantic ports, 1873...lbs.	12,691,390	13,437,639	9,312,920	35,441,949
Atlantic ports, 1872.....	12,875,908	14,227,659	7,333,081	34,436,648

The indirect receipts at New York, principally overland receipts from San Francisco, have been 49,801 pkgs. since January 1, against 99,166 last year.

Imports at San Francisco from Jan. 1 to July 1, were 500,065 lbs. of China, 1,330,420 lbs. of Japan and 200 lbs. of Java tea.

COFFEE.

The coffee market has been excited throughout the current week, and a very large business has been done at unusually full prices. The market for the Brazil grades has been advanced ¼c., and the tendency is still upward, especially on the lower grades, which are very scarce. The Rio news, up to the 30th ult., is very strong, and shows that market to be in a position to fully maintain rates. Our stock of Santos is nearly exhausted, and it is difficult to pick up any Rios under 19@19¼c.; a lot of barely prime has been sold at 20c. The pale coffees have been taken out with more freedom and some of the cheaper grades have been stiffened. Large sales of Maracaibo have been effected and the stock is materially reduced, while the advices from Maracaibo are of a character that indicate a reduction of our supplies of that grade for some time, the country being in a state of insurrection. The sales here include 3,865 bags Santos, per "Venus," 4,070 do. do., per "Flamsteed," 1,038 do. do., per "Merrimack," 3,000 do. do., per "P. C. Warwick," 2,557 do. do., per "Ontario," 4,200 do. do., per "Adelaide Pendergast," 2,025 do. do., per "Wavelet," 4,006 do. do., per "Minnet," 3,8[illegible]5 do. do., per "Normen," 1,542 do. do., per "S. America; 6,868 bags Maracaibo, 5,430 do Laguayra, ex sundry vessels; 1,569 mats Java, 1,012 bags Costa Rica, 360 do. St. Domingo, sold in lots for consumption within our range; 3,310 do. St. Domingo, in transit to Europe.

Imports were 7,176 bags Rio, per "South America", 4,074 do. do., per "Nora," 4,000 do. do., per "Fingal," 3,351 do. do., per "Cuba," 2,923 do. Santos, per "Sea Bird;" 4,110 do. St. Domingo, per "Ariel," 360 do. do., per "Oliver," 258 do. do., per "Vicksburg," and 1,050 do. sundries.

The stock of Rio July 24, and the imports since Jan. 1, 1873, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Mobile, &c.	Galveston.	Total
Stock.....	42,307	...	32,454	..	14,474	5,000	94,835

SUGAR.

The market has been fairly active throughout the past week and the tendency has been in favor of sellers. The arrivals have been liberal, but have gone readily into refiners' hands, and the market is well controlled with prices ⅛c. higher than at the time of our last report. This improvement was very fully sustained at the outset, but toward the close there has been rather less stiffness in the market, though sales are readily effected at the quotations. The demand for refined sugars has been steady and liberal, and refiners feel safe in operating in raws, as their products are moving with more freedom and bring full prices, an advance having been established since our last report. The sales of raws have been 8,620 hhds. Cuba, 7¾@8 3 16c.; 500 do. Centrifugal 9@9⅛c.; 150 do. clarified St. Jago, 9⅜c.; 600 do. Porto Rico, 8@9½c.; 100 do. Barbadoes, 8⅛c.; 700 boxes Havana, 7⅞@8¾c.; 2.200 do. Centrifugal, 9@9⅛c.

Imports at New York and stock in first hands July 24, were as follows:

	Cuba. hxs.	Cuba. *hhds.	P. Rico. *hhds.	Other. *hhds	Brazil. bags.	Manila,&c. †bags.	Melado hhds.

MOLASSES.

There has been continued activity in the boiling grades of molasses, and a material reduction of stock has been effected. At the close boilers find some difficulty in obtaining supplies readily, and the market rather favors holders, who are getting 1@2c higher for the high test grades than was last quoted. The stock reported is 457 hhds., Cuba all told. There have been some good-sized sales of Porto Rico during the week, and we close with a stock of 1,382 hhds, while the supply of English Islands has been reduced by liberal transactions to 570 hhds. There is a steady moderate inquiry for grocery grades, but no great activity is reported. Prices remain about the same, and the stock is somewhat reduced, the current arrivals of domestic being very small. There is no change to note in syrups. Low grades continue in full supply, with very moderate sales, while fine and medium qualities are scarce and are generally sold ahead. The transactions in molasses since our last have been 358 hhds. and 46 tcs. Cienfuegos, 30c.; 100 hhds. Cardenas, 29½@30½c.; 420 do. Barbadoes, 33½c.; 405 do., St. Kitts, 34c.; 215 do. Porto Rico, 33@38c; 432, do. Trinidad, 30c.; 297 do. St. Croix, 35c.

THE DRY GOODS TRADE.

FRIDAY, P. M., July 25, 1873.

Reports from the commission houses indicate rather more activity than was noticed in our last report, the market having been visited during the past week by a large number of Western jobbers, who have begun with more or less freedom their purchases of staple fabrics for the fall trade. The season is generally backward, and there is nothing to stimulate very marked activity in the purchases of distributors, but the business already in progress is fair for this season of the year, and there is no discouragement felt regarding the prospects for the fall trade. Should there be a renewal of the monetary disturbances of last spring, trade would unquestionably be unfavorably affected, but if there be no unusual stringency it is safe to look for a fair season. The jobbing business at the moment is very slack. The season is not sufficiently advanced as yet to create much of a demand from retailers, and the only movement in piece goods is in the more staple fabrics which are required for current consumption. The local jobbers are not stocking up very heavily as yet.

COTTON GOODS.—There have been some new features developed in the market for cotton fabrics, in the establishment of some new quotations on leading fabrics. Brown sheetings and shirtings have undergone no change in the standard grades, but lighter weights have been reduced a fraction, and the tendency of the market would seem to be toward lower rates, even on the best grades. In bleached goods the trade has been better, and some of the fine grades of shirtings have been advanced a fraction while some of the wide sheetings are off a shade. There is beginning to be considerable activity in Canton flannels in full packages, and some of the leading makes are reported as sold ahead by the agents. Brown drills have declined under an accumulation of stock and continued dullness in the distributive demand, and we quote somewhat lower. There has been very little movement in colored cottons, and prices are for the most part nominally unchanged. The movement in prints has not fairly begun as yet, although there is some business doing on orders for dark effects for the fall distribution. Prices remain as previously quoted, with moderate firmness prevailing.

WOOLEN GOODS.—There was a fair inquiry from clothiers for the better grades of goods, and cassimeres sold with considerable activity. The better grades of ¾ goods were mainly in demand, and for these pretty full prices are realized, the prevailing feeling being one of encouragement and firmness. The raw material is pretty steady, and as there is no prospect of lower rates on it, manufacturers will have to adhere firmly to present quotations. The sales of cloths and overcoatings have not been very liberal. Flannels have not sold as freely as was expected of them, but the outlook is considered favorable. Other woolens are quiet and wholly unchanged.

FOREIGN GOODS.—The imports show a gradual increase, but are still considerably below those of last year, a fact that must be received with satisfaction. Foreign manufacturers do not seem very anxious to crowd their goods upon this market again this fall, after the disastrous results of the spring trade, and everything favors the belief that we shall have comparatively light importations throughout the season. The jobbing branch has been emphatically dull, but sanguine hopes of a fair autumn trade are entertained, and the bulk of the jobbers will enter upon the fall campaign with unusually light stocks, and the same is believed to be the case with the mass of the retailers. Fancy dress fabrics will be in light supply for the coming season, as the prevailing taste will probably be for plain materials of dark cloth shades. There is likely to be a continued demand for black alpacas and real mohairs, which have become firmly established in popular favor. Black velveteens are more inquired for by the manufacturing trade, but there is still a heavy stock in the market, and prices are in buyers' favor. Medium and fine grades of black and colored Italian cloths and satin de chenes are wanted in moderate quantities for lining purposes by the clothiers.

We annex a few particulars of leading articles of domestic manufacture our prices quoted being those of leading jobbers
