REVIEW OF APRIL.

Among the many happenings during the month of April, unquestionably the most important were the operations connected with the Louisville & Nashville Railroad, and which involved control of that property. The Louisville & Nashville board had decided to issue the 50,000 shares of additional stock authorized a good many years ago (in 1893) and since held in the treasury, and had given the Chairman of the board of directors authority to sell the same. This authority, it appears, was exercised, and the new stock sold in the market before it had been listed on the Stock Exchange and thereby become a good delivery. As about thirty days are required before an application to list is granted, the Louisville & Nashville Company found itself technically in the position of having sold stock short and hence under the necessity of borrowing the shares for delivery.

This situation Mr. John W. Gates undertook to turn to his advantage. He bought heavily of the stock of the road. The original purpose seems to have been o squeeze the short interest, but apparently in carrying out his plans Mr. Gates found it necessary to purchase more stock than he had counted upon, and this made the burden too heavy for him. Quick to recognize his predicament he turned the whole matter, control and all, over to J. P. Morgan & Co., extricating himself from an unfortunate position, while at the same time averting an impending danger to the market.

Mr. Gates executed his new move with much skill, and what threatened to be a repetition of the Northern Pacific corner of a year ago was hence turned into an instrumentality for promoting a bull movement on the Stock Exchange. When it was seen that instead of a corner in Louisville & Nashville stock and a general break-down in prices in the rest of the list, both of these catastrophes had been escaped, the entire market received a favorable impulse and moved sharply upward. There had been numerous large advances in the so-called specialties even before this event, but after that, speculative manipulation was continued on a still greater scale and extended long the whole list. As showing a few of the conspicuous advances in the specialties, we may note that the range for the month on North West. common was from 232 to 271, on Illinois Central 141¼ to 153¾, on New Haven 215 to 255, on Nashville Chattanooga & St. Louis 89½ to 122, Michigan Central 150 to 192, Louisville & Nashville 105¼ to 133, Keokuk & Des

Moines common 20 to 40¾, Fort Worth & Denver City 36¾ to 51½, Chicago Indianapolis & Louisville common 57½ to 72¾, Chicago & Eastern Illinois common 156¼ to 174, Canadian Pacific 112½ to 129⅝, &c., &c.

Weather and crop prospects were watched very closely during the month and at times acted as a deterrent on the rise in stock prices. Complaints of drought in the winter-wheat States, particularly in Kansas, and of damage to the growing grain from that cause, were very numerous. The report of the Agricultural Bureau on the condition of winter wheat showed that the general average for all the winter-wheat States was only 78·7 on the first of April of the present year, as against 91·7 on the same day of April last year. Unseasonably hot and dry weather—in fact midsummer heat—was experienced about the 18th to the 20th and much damage was claimed as the result. The term of heat was not prolonged, however, and later some rain occurred, with a return of cold weather. The effect of all this on the stock market was comparatively trifling, and the rains, though not as heavy as desired, encouraged renewed hopes of a favorable outcome.

A new move in the attacks upon the Northern Securities Company was one of the events of the month. The State of Minnesota having failed in its attempt to get the United States Supreme Court to entertain a motion for an action against the company, the State of Washington stepped in to try its luck and with more success. On the 21st the Supreme Court decided to grant the application of the State for leave to file a bill of complaint against the company. The decision, however, exercised no disturbing effect on the stock market. The same may be said of the further reduction in the dividend on the stock of the Amalgamated Copper Company, which dividend was made only ½ of 1 per cent, against 1 per cent, 1½ per cent and 2 per cent respectively at the three preceding quarterly periods. The dividend on Calumet & Hecla Mining stock was likewise further seriously cut. The expected circular of the United States Steel Corporation with respect to the issue of $250,000,000 new bonds, of which $200,000,000 is to retire a corresponding amount of preferred stock, and the other $50,000,000 to provide cash, also came out during the month. The new British loan for £32,000,000 was issued ,and proved a decided success. A further drop occurred in the price of silver to the lowest point ever reached—the price touching 23 5-16 pence on the 21st.

Railroad consolidations or absorptions were quite conspicuous. Aside from the contest involving control of the Louisville & Nashville, the latter itself arranged to take over the Atlanta Knoxville & Northern, that being one of the purposes of the issue of the new stock. The Rock Island concluded negotiations for the control of the Choctaw Oklahoma & Gulf Railroad, while the Atlantic Coast Line acquired possession of the Savannah Florida & Western or Plant System of roads.

The money market worked rather stiffly the early part of the month. The bank statement issued April 5 showed surplus reserves of the Clearing House banks down to $2,649,525, the lowest figure since November 1899. On Monday the 7th the call loan rate on the Stock Exchange touched 7 per cent. The engagement that day of 2½ million dollars gold for shipment to Europe the next day played its part in bringing about this high figure, which was again reached on the 9th. Surplus reserves steadily increased the rest of the month, rising to $4,571,750 April 12, to $6,578,650 April 19 and to $9,461,050 April 26; but 5@6 per cent was frequently obtained on call loans at the Stock Exchange. The range on the 30th was 3¾@6. The Secretary of the Treasury increased the amount of Government deposits in the banks, and announced that it was his purpose to add 5 millions further in May and also in June, distributing the sums mainly among Western banks.

Foreign exchange rates ruled high in the early part of the month, and on the 7th, $2,518,689 gold was engaged for export the next day to France. The stiffness of the local money market thereafter caused some decline, stopping the gold outflow. Later in the month the urgent demand for bills, partly to remit for Louisville & Nashville stock purchased in Europe for American account, and partly also on account of American subscriptions to the new British loan, brought about an upward reaction again, but no further gold shipments were made.

NEW YORK STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1901. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. As to prices the form is our own, and we think it will be found to contain just the facts desired by our readers and to present them in the most convenient way for study and reference. All quotations in the column headed "*Prices about January 2, 1902*," were made on that date except those in italics, which are the nearest in January, 1902 The black-faced letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

☞ *For foot notes to tables see last page of Bonds and last page of Stocks.*

§ Less than 100 shares. *a* Ex-rights. *b* Ex-dividend and rights. *c* Trust Co. certificates *d* Anaconda Mining now quoted per cent.

NOTE.—On March 31 the Stock Exchange began quoting mining shares having a par value of over $10 on a per cent basis instead of dollars per share. Mining shares with a par value of less than $10 are still quoted in the old way, that is, per share.

BOSTON STOCK EXCHANGE.

MONTHLY AND YEARLY RECORD.

The railroad securities which are active on the New York Stock Exchange are omitted from this list.

☞ *In comparing New York and Boston prices, it should be noted that bond prices in New York are flat prices—that is, the price includes the accrued interest, while in Boston accrued interest must be paid in addition to price. It should also be remembered that New York stock prices are per cent while those in Boston are dollars per share.*

† Ex-rights. § Less than 100 shares. *a* Including assessm't paid this month. *b* Before payment of assessm'ts called for during 1902.

GENERAL QUOTATIONS

—OF—

BONDS AND STOCKS.

1. In the following twenty-seven pages of tables quotations are given for all securities listed on any Stock Exchange in the United States; also for all leading unlisted and inactive securities for which we have been able to obtain reliable prices.

2. Quotations from all Stock Exchanges are as near as possible for the *last day of April.* Of course the coupon if there be one, maturing between the date of quotation and the date of this publication, is not deducted from the price.

3. Bond prices marked thus (§) indicate that the purchaser must pay accrued interest *in addition to the price given* The method of quoting on the New York Stock Exchange is to quote the prices flat (that is to include the accrued interest in the price), and hence in the tables below no mark is now affixed where this method of quoting is followed.

4. Stock prices marked thus (†) are per share. All others are per cent except bank stock prices.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.; "M.," for mortgage; "g.," for gold; "g'd.," for guaranteed; "end.," for endorsed; "cons.," for consolidated; "conv.," for convertible; "s. f.," for sinking fund; "l. g.," for land grant: "op." for optional.

7. The black-faced type in the letters showing the interest periods indicates in each case the *month* when the bonds mature.

☞ We no longer affix a mark to prices quoted flat, but only to those which require payment of accrued interest in addition to the price. Designating mark in this instance is (§).

† Prices per share not per cent. x Ex-dividend. ‡ Sale price.

STATE AND MUNICIPAL BONDS.

Prices marked (*) are flat prices—that is, the purchaser does not pay accrued interest in addition. *In all other cases accrued interest must be added to the price.*

The figures in the column "*to net*" indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

It should be borne in mind that municipal bonds are not subject to such decided fluctuations in value as are securities which form a basis for speculation.

QUOTATIONS OF BANK AND TRUST COMPANY STOCKS.

Prices are per share, not per cent, with the exception of New York City, Brooklyn and Canadian bank stocks.
Prices marked thus (*) indicate sales.
The dagger (†) prefixed to a price indicates that the figures show the book value.
☞ **Notice Change.**—We now report surplus and undivided profits together (in the column designated Surplus and Profits) except where otherwise indicated.
Where names of the banks are printed in italics, fuller returns may be found in the advertising columns in the front part of the paper.
