BANK AND QUOTATION

SECTION

OF THE

COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1926, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

VOL. 123. NEW YORK SEPTEMBER 4 1926. NO. 3193.

BANK AND QUOTATION SECTION

The Bank and Quotation Section, issued monthly, is furnished *without extra charge* to every annual subscriber of the Chronicle.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is likewise furnished *without extra charge* to every annual Chronicle subscriber.

The Bankers Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers Association, is also furnished *without extra charge* to Chronicle subscribers.

The Public Utility Compendium, issued twice a year, in April and October, is also furnished *without extra charge* to every annual subscriber to the Chronicle.

The Railway and Industrial Compendium, issued twice a year on the last Saturday in May and November, is also furnished *without extra charge* to every annual Chronicle subscriber.

The State and Municipal Compendium, issued semi-annually on the last Saturday of June and December, is likewise furnished *without extra charge* to every annual subscriber to the Commercial & Financial Chronicle.

Terms for the Chronicle, including the six supplements above named, are $10 per annum within Continental United States, except Alaska, $11.50 in Canada and $13.50 in other foreign countries and United States Possessions and Territories.

File covers for the Chronicle are sold at $1.00 each (postage 15 cents additional). File covers for Supplements can be had at same price.

REVIEW OF AUGUST—COMMERCIAL AND FINANCIAL EVENTS.

The quickening of activity in certain important domestic industries, noted the previous month, continued throughout August, and constituted the chief feature in domestic affairs during the month. In foreign affairs the further progress made by the Poincare Ministry in rehabilitating French finances, with the coincident sharp recovery in the value of the French franc, was a favorable development of a highly important character. M. Poincare succeeded in getting the approval of the French Parliament for all of his taxation, economic and financial measures, and the result was to strengthen immensely confidence both at home and abroad in his ability to cope successfully with the critical and acute problems confronting the French nation. The recovery of the French franc in such circumstances followed as a matter of course. The extent of the recovery with the natural reaction that came subsequently is outlined in our review of the foreign exchange market at the end of this article.

The progress made by the Poincare Coalition Ministry in dealing with the French Parliament was really very notable, all the more so because in striking contrast with the lack of success in the French Parliament attending the efforts of recent preceding French Ministries. In the previous number of this publication, in narrating the events of the month of July, we noted the approval on July 31 by the French Chamber of Deputies of the new Government's taxation scheme by which it was estimated 2,458,000,000 francs would be added to revenues in 1926 and 9,192,000,000 francs in 1927 and also that on the following Tuesday night (Aug. 3) the bill passed the French Senate by overwhelming vote. The expeditious way in which the bill was rushed through the French Parliament, with a recital of its principal provisions, were outlined in a Paris cablegram to the New York "Herald Tribune" on Aug. 3 as follows: "Twenty-nine articles, approved in rapid succession under high pressure legislation in the phenomenally short time of five hours, facilitated the Premier's insistence that each be treated as a question of confidence in the Government without alteration or obstructive discussion. The way is now paved, following the passage of the tax measure, for the introduction in the Chamber to-morrow afternoon and debate within 24 hours of the plan for a special sinking fund for the amortization of the national defense and the short-term Treasury bonds. The principal revenue for this fund will come from the proceeds of the French tobacco monopoly, which will be administered as a civil corporation under strict Government supervision. The Premier believes the sinking fund bill will be voted both in the Chamber and Senate before Sunday, thus enabling the constituent assembly at Versailles to be held probably on Monday. By thus writing the law into the Constitution all danger of Parliamentary interference will be removed, at least for the immediate future. By passing the Poincare tax bill vast levies which make France the world's heaviest tax-paying nation will be inaugurated at once and will result in a considerable jump in the cost of living—an increase, some experts estimate, at 25%. The new legislation includes higher taxes on sugar, vanilla, salts, candles, billiards, bicycles, automobiles, railroad and all transport fares, telephone and telegraph communications, postage, matches and tobacco. Property transfer taxes will be increased and identity cards for foreigners will be raised from 68 to 375 francs. In short, the measure puts the entire nation on a stricter economic basis in a drastic effort to save the currency."

The Premier's confidence, as here expressed, proved well founded and he was entirely successful in the presentation of the sinking fund provision of his rehabilitation measures to the French Chamber of Deputies on Thursday, Aug. 5. The Paris representative of the New York "Times" cabled that evening that "with steam-roller regularity and with an even greater majority than ever, Premier Poincare this afternoon carried through the Chamber of Deputies the second item of his program of financial reform—the creation of a sinking fund for dealing with short-term bonds, fed from receipts of the tobacco monopoly, and certain taxes, such as succession taxes." He added that "there was, as anticipated, criticism of the actual worth of the provisions which the Government is making for meeting the situation, which depends for its real stability more on the psychological element of confidence than on actual monetary provisions; but despite that criticism the Chamber in a mood of complete self-abnegation voted the Government's proposals by the great majority of 420 to 140. On Tuesday next, if the schedule which M. Poincare has laid down works out, as it most probably will, the Chamber with the Senate will go to Versailles to incorporate in the Constitution this measure of guarantee for all French bond-holders that they will be paid, and fully paid."

On Aug. 7 the Senate also approved the sinking fund provision. The Paris representative of the New York "Times" cabled in the evening of that day that "to-day by an almost unanimous vote the Senate approved this latter measure and its various provisions for alimentation of the fund with an income of 3,500,000,000 a year from succession and other taxes and out of budget surplus, apart from receipts from the sale of tobacco." He added that "the third measure proposed by the Government permitting the Bank of France to strengthen its gold reserve by the purchase of foreign currencies and at the same time meet commercial needs by the issue of bank notes against the amount of purchase

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

was almost unanimously approved on Tuesday. The sinking fund plan, with all solemnity, will be incorporated in the Constitution by the two houses of Parliament at Versailles next Tuesday and the first stage of the Government's program will be complete."

On Aug. 10 the French Senate and Chamber of Deputies sitting at Versailles as a National Assembly adopted, amid what were described as "tumultuous scenes," the bill of Premier Poincare creating a sinking fund for the floating debt and transferring the tobacco monopoly to corporate control. As already indicated, the action at Versailles was for the purpose of giving greater permanence to the step than would attach to a mere legislative measure by making it a part of the Constitution itself. In other words, the meeting at Versailles was to amend the Constitution. The amendment was offered by Premier Poincare as part of his plans to rehabilitate French finances. Another measure. adopted on Aug. 5 by the Chamber by a vote of 365 to 181, and by the Senate on Aug. 7, authorizes the Bank of France, with the object of increasing its gold and basic currencies, to purchase gold bullion and stable foreign currency with French francs at the current exchange. In order to do this the bank is permitted to increase its bank note issue. The Associated Press accounts of the action of the National Assembly at Versailles on Aug. 10 said (we quote from the New York "Journal of Commerce"):

Amid tumultuous scenes, the National Assembly, made up of the Chamber of Deputies and the Senate in joint session, late this evening endowed France with a sinking fund having a sound constitutional basis. The vote was 671 to 144.

The Premier was roundly applauded by a great majority of the Assembly when he declared that he was resolutely opposed to a capital levy. Leon Blum, the Socialist leader, in talking against the Government's bill, insisted upon such a levy.

The sinking fund will be used to effect amortization of the country's floating debt, and is one of the schemes with which the Government hopes to relieve the tangled financial situation.

The triumph of the Poincare Government in the National Assembly, by a vote of 671 to 144, came after three suspensions of the Assembly because of the obstreperous tactics of the Communists. At one time there were fist fights between the Extreme Right and Extreme Left members. The one-armed General Pelletier, acting as Sergeant-at-Arms, mounted the rostrum to drag down the Communist Deputy Doriot, while other Communists sang the Internationale.

After the obstruction of the Communists was quelled one fact stood out—that France's supreme legislative body had decided that the commission which will have at its disposal the income from the tobacco monopoly and part of the proceeds of the inheritance tax shall be removed from all political conflict. It made it a part of the Constitution, thus guaranteeing it against the changing fortunes of parliamentary politics. The Government and the majority which voted for the measure say it assures the sinking fund against leakage, against going astray.

On Aug. 5, in defending the bill permitting the Bank of France to purchase reserves of foreign currency, Premier Poincare denied that it involved inflation, and assured the Deputies that the Government would only resort to foreign credits when the value of the franc had improved. The Associated Press advices of Aug. 5 in stating this added:

As outlined in a Government statement yesterday, the ultimate aim of the measure approved to-night is to make it possible for the Bank of France to mobilize a supply of foreign currencies so as to be in a position to manoeuvre in defense of the franc. The measure was one of the recommendations made to M. Caillaux, while Finance Minister, by the committee of financial experts.

Previously in to-day's same session the Premier scored victories by obtaining two sizable votes of confidence. The Chamber rejected, 250 to 172, a proposal by the Socialists that the Government continue control of the tobacco monopoly, instead of placing it in the hands of a private company as desired by the Premier. Then the Chamber rejected an amendment to the Government's financial bills, calling for the fixing of the price of ordinary tobacco by decree. This vote was 360 to 190.

The previous day (Aug. 4) the cablegrams from Paris (Associated Press) said with reference to the new powers given the Bank of France:

The Government's bill authorizing the Bank of France to issue notes for the purchase of foreign currencies caused a stiff fight in the Finance Committee between Leon Blum, the Socialist leader, and Premier Poincare, the former characterizing the bill as "inflation, pure and simple."

The bill, as presented by Premier Poincare, authorizes the Bank of France to purchase gold bullion and stable foreign currency with French francs at the current exchange. This has hitherto been forbidden by law in France except when the buying was done at the pre-war rate of exchange.

The measure is intended to increase the bank's reserve of gold and gold basic currencies, as explained by the Government statement. In order to buy gold bullion and stable currencies the bank would be allowed to increase its bank note issue, guaranteed by its purchases of gold and gold basic currency. This additional circulation would not be included in the bank's weekly statement, thus making it unnecessary to pass a special law raising the maximum limit of circulation.

The ultimate aim of the bill is to enable the Bank of France to mobilize a mass of foreign currencies with which it can be in a position to manoeuvre in defense of the franc.

Premier Poincare, replying to M. Blum's criticism, insisted that since the additional circulation of the Bank of France would be guaranteed by the foreign gold basic currencies purchased, the transaction would not amount to inflation.

Action by the French Parliament on the question of ratification of the war debt agreement with the United States was deferred until the autumn. The only step that was taken before the adjournment of Parliament, which occurred on Aug. 11, with regard to the agreements arrived at in Washington and London was their reference to two sub-committees of the Foreign and Financial committees of the Chamber, with instructions to study all the documents so as to be able to make a complete exposition of the facts when Parliament reassembles in the autumn. The Associated Press accounts from London on Aug. 10 observed that the sub-committees had not been asked to make a report with recommendations, but simply to get together the papers and marshal the facts.

Another important event of the month was the report of the Indian Currency Commission on plans for the stabilization of the rupee. This Commission had been appointed the previous year to examine into the questions of Indian currency and exchange and on Aug. 3 issued a report advocating a true gold standard by linking the existing silver currency with gold in a conspicuously visible manner, but without putting gold into circulation. An Associated Press cablegram from London on Aug. 3, in indicating this, said:

It is claimed by the Commission that its proposals open the door for the introduction of gold currency some time in the future, but it foresees that when the time comes, India may no longer wish for a gold currency.

The report recommends the retention of the currency note and silver rupee as the ordinary medium of circulation, and that stability of the currency in terms of gold should be secured by making the currency directly convertible into gold.

It is further recommended that a new central banking institution should be created with sole rights to issue notes, that the stability ratio of the rupee to gold at 18 pence gold should be secured by obligations on the part of this bank to buy and sell gold without limits at rates determined with reference to the fixed gold parity of the rupee and in quantities not less than 400 fine ounces.

Another recommendation is that paper currency cease to be convertible by law into silver coin, but that no change be made in the legal tender character of the silver rupee. Gold and gold securities, it is stipulated, should form not less than 40% of the central bank reserve.

The Indian Government, with the approval of the Imperial Government, has decided that while the other recommendations require further consideration, the recommendation for the maintenance of the rupee at 18 pence and linking it with gold will be submitted for legislative sanction at the forthcoming session at Simla.

A summary of the recommendations of the Indian Currency Commission was contained in an announcement issued as follows by the United States Department of Commerce on Aug. 11:

The report of the Indian Currency Commission which has just been made public makes the following recommendation,, as summarized in a cable from Assistant Trade Commissioner E. G. Sabine at Bombay:

1. The establishment of an absolute gold bullion standard, effective 1931; gold not to circulate as money, and sovereigns not to be legal tender; the present currency note and rupee circulation to remain and be convertible into standard gold bars.

2. Creation of a new Central Reserve banking institution to become operative not later than January 1929.

3. The rupee to be stabilized in relation with gold at 18 pence.

4. The Reserve bank to be legally obligated to buy and sell gold at gold points, not later than January 1931 and during the transition period the Government to be legally obligated to perform this function.

The Government approves at once the recommendation regarding exchange and views the other items favorably. It is proposed to present to the next Legislature, which convenes in September, items 3 and 4, and meantime will maintain exchange at a range between three-sixteenths pence above 18 pence and one-quarter below it per rupee.

As the immediate effect of this report of the Indian Currency Commission, the price of silver suffered a severe break to the lowest figure reached in 10 years. The New York "Times," in discussing the break in its issue of Aug. 6, had the following to say:

As a result of the report of the Indian Currency Commission relative to the stabilization of the rupee on a gold basis, made public in London, the price of silver metal both here and in London broke sharply yesterday. In London the bullion sold down to 29 1-16d., an overnight loss of 3-16d., displacing the previous low established on April 22, and unequaled in nearly fifteen years. Here the price sagged ⅝ of a cent, to 62¾c., the lowest in more than two years.

Trading was on a very heavy scale throughout the day, the weakness in prices marking the climax of more than a fortnight's selling by the Chinese operators who were getting out of a long position which had its origin earlier in the year. Quotations for the Eastern currencies were also at new low levels for this movement, coincident with the reaction in the London and New York markets for the metal.

Recommendations of the Currency Commission, which has been in session during most of this year, provides that paper money in India shall cease to be convertible into silver just as soon as confidence in paper money issued against a gold reserve shall be established. As this faith is assured, there will be a gradual cut in the Government's huge reserve of silver, which dealers estimate to amount to about 530,000,000 ounces. Other provisions of the report call for a reduction in this stock to 140,000,000 ounces, so that approximately 400,000,000 ounces will be thrown into the open market. The sale of this surplus will be spread over ten years.

Bullion dealers were depressed over the outlook for the metal in the face of the Commission's recommendations, and expressed the opinion that present levels would be shaded as the metal was forced for sale. In one quarter it was held that a cessation of silver mining by a number of the smaller companies was likely not alone in the United States but in other countries. Where these companies are producers of both silver and copper the rising trend of the latter metal will more than make up for the loss sustained in silver.

The price of silver in London on Saturday, Aug. 7, touched 28½d. per ounce, which was the lowest figure reached since

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

March 1916. This was a decline from 29⅜d. on Saturday, Aug. 2, and from 30 5-16d. early in July. The close Aug. 31 was at 28⅝d.

THE COURSE OF TRADE IN THE UNITED STATES.

As regards domestic trade, the advices concerning the steel trade were favorable all through the month. The "Iron Age" in its issue of Aug. 26 said that current activities of manufacturing consumers, and the continued high rate of rolling mill operations, confirmed the general expectation of early August that the month would depart but little from the remarkable performance of July. Shipments from the mills had been well distributed over the full range of ultimate consumption, and the fact that meanwhile there had been no building up of mill stocks in the lighter lines in which such stocks are carried, led some producers to plan for several weeks more of the present scale of output. The United States Steel Corporation's ingot output was again somewhat below 85% and there was some reduction in its blast furnace schedules in view of a recent accumulation of steel making pig iron. In the Chicago district as a whole ingot production had fallen off slightly and was now 84%. For the entire industry the ingot rate for August was likely to be somewhat less than 80%. It should be stated that in its report on Aug. 19 the "Age" had noted some curtailment of finishing mill output due to the hot weather. The "Iron Trade Review" of Cleveland in its issue of Aug. 26 spoke in even more optimistic fashion than the "Iron Age," saying that August bookings and production had served to round out a sustained record of heavy business for the summer period that was without parallel in the steel industry. During the past three months the mills had produced and shipped well over 1,000,000 tons more than during the corresponding period in 1925. Activities of the three months had averaged approximately 80% of capacity, or on the basis of an ingot year of 44,000,000 tons. This was fully 5,000,000 to 6,000,000 tons per annum ahead of that shown in the June-August period in 1925, when production averaged slightly over 70%. In its issue of Sept. 1 the "Iron Age" spoke along the same lines, saying:

> September opens with substantial indications of a continuance of activity in the steel trade on the scale that had made two midsummer months stand out far above the July-August average for the five preceding years. Several developments of the last week in respect to mill operations, as well as prospective demand, have been more definitely favorable.
>
> Leading steel producers are counting on larger operations in the next 60 days than they were willing to predict in the lull that came in mid-August. Buying of sheets in the last week has been on a large scale.
>
> Railroad demand—largely for track-laying, as the car situation has not yet developed—is coming earlier than in 1925. Fall consumption of steel for automobiles will exceed last year's, and structural mills see more fall business ahead than was indicated 30 days ago.
>
> Chicago district steel mills report shipments in June, July and August 50% greater than for any like period in their history, while production averages 85%.

The "Iron Age" made the composite price of finished steel Aug. 31 2.431c. per lb., the same as the month previous, and comparing with 2.396c. at the corresponding date in 1925. The "Age" made the composite price of pig iron $19 46 per gross ton, also the same as the month before, and comparing with $19 13 at the same date in 1925.

In the case of the minor metals, prices tended somewhat lower after the sharp advances during June and July. Lake copper at New York, after advancing somewhat higher at the beginning of the month—that is, from 14½c. to 14⅝c. —fell back later to 14½c., which was the quotation Aug. 31. Electrolytic copper, after selling up from 14.20c. July 31 to 14.25c. Aug. 2, on Aug. 18 declined to 14⅛c., and so ruled at the close. London prices were easier the latter part of the month and this of course influenced New York quotations, besides which, demand seemed to be somewhat less active. Lead at New York declined from 9.15c. on Monday, Aug. 2, to 8.90c. Aug. 11, and after recovering to 8.95c. on Aug. 16, fell back again to 8.90c. on Aug. 18, which remained the price Aug. 31. Tin at New York moved irregularly; from 64.12½c. Aug. 2 the price rose to 66.00c. Aug. 10, then fell back to 64.50c. Aug. 13, but recovered to 65.87½c. Aug. 31. Petroleum and gasoline prices were well maintained with occasional variations downward, but with kerosene prices distinctly higher again after the downward reaction of the previous month. United States Motor grade gasoline was reduced somewhat, but kerosene prices were marked up all along the line. Thus, on Aug. 12 the Standard Oil Co. of Indiana announced an increase of 1c. a gallon throughout its territory, effective Aug. 13, making the price at Chicago 15.5c. On Aug. 20 the Standard Oil Co. of New York also advanced the price of kerosene 1c. a gallon to 18c. throughout its territory. On Aug. 19 the Standard Oil Co. of New Jersey likewise made an advance of 1c. per gallon in its entire territory, the new tank wagon price becoming 17c. per gallon. At New York the price at the end of Aug. was 10c. for water white in tank cars at local refineries, against 10c. at the end of July, 11c. at the end of June, 11½ @12c. at the end of May, 10¼@10½c. at the end of April, and 8½c. on Jan. 2. In tank cars delivered to the trade the quotation at the end of Aug. was 11c., against 10½c. at end of July, 12c. at the end of June. 12½@13c. at the end of May, 11¼@11½c. at the end of April and 9¼c. on Jan. 2.

The change for the better in the textile trades continued, especially in the case of cotton goods. About the middle of the month, when the price of raw cotton had sharply declined as a result of the first semi-monthly report of the Agricultural Bureau at Washington, which was issued on Aug. 9 and indicated a cotton crop of 15,621,000 bales, more or less hesitation in the demand for cotton goods was noted, because of the fear of still further decline in the price of the staple, but later in the month, when the price of the staple again advanced on unfavorable weather reports and the appearance of the second semi-monthly report of the Agricultural Department on Monday, Aug. 23. indicating a cotton crop of only 15.248,000 bales, the tone of the goods market was completely restored. Middling upland spot cotton in New York dropped steadily from 19.20c. Aug. 2 to 17.70c. Aug. 12, a decline, it will be noted, of fully 1½c. per lb., but was back to 19.20c. Aug. 25, with the price Aug. 31 19.05c. Print cloths at Fall River for 28-in., 64 x 64, were on Aug. 24 marked up from 5⅝c. per yard to 5¾c. General sentiment in the textile market became quite optimistic after the appearance of the second Government report regarding cotton. A number of agents withdrew offerings, while others raised their asking prices, and buyers were more willing to pay advances for various goods. This was notwithstanding the strike of the New York garment workers which had been in progress for nine weeks and which adversely affected business in the cloak and suit trade. Many garment manufacturers were not running a machine and others confined their activities to making up samples with the assistance of a few workers. At the same time firmness in the Yokohama raw silk markets caused a better feeling in the local silk trade, though business remained more or less quiet nevertheless. As concerns prices of raw silk, Kansai double extra cracks were quoted Aug. 31 at $6 35@$6 40, against $6 17½@$6 22½ July 31, $6 30@$6 35 on June 30, $6 20@$6 25 May 29, and $5 85@$5 90 April 30, but comparing with $7 10@$7 15 Dec. 31 1925. The tone in the wool trade also seemed to be growing better, especially the latter part of the month. The first series of Australian wool sales in the new wool year which began July 1, commenced in Sydney on Aug. 30, and reports regarding the results were quite encouraging, prices generally showing an advance of 5% over the closing rates of the last June series. This confirmed the views of local wool men that the new wool season would open higher than the last closing and that a strong undertone would be reflected in the new trading because of the good statistical position of the market. The view was also expressed that a steady to firm trend in the foreign markets between now and Christmas would serve as a prop for the finished goods market and enable the domestic wool trade to maintain values which, generally speaking, it was claimed are somewhat lower than those of other important wool centres. At its opening on Aug. 11 reductions ranging from 7½ to 12%, or from 15 to 50c. a yard, were made by the American Woolen Co. on men's fancy and semi-staple worsted and woolen suitings for the spring of 1927. At its opening of women's wear for the spring trade the next day the reductions from the previous year averaged about 8½%. The price of crude rubber was somewhat firmer, notwithstanding large imports and an increase in London stocks. Conservation in the use of rubber and the reclaiming of old material seemed to be playing an important part in reducing the demand for rubber. Ribbed smoked sheets for spot delivery at New York were quoted Aug. 31 at 41¼c. asked, against 39c. bid July 31 and 42@42½c. June 30; the previous Dec. 31 1925 the quotation was 90@91c. First latex crepe for spot delivery Aug. 31 was 41½c. asked, against 39¾c. asked on July 31, and 43@43½c. June 30; the previous Dec. 31 1925 the quotation in this instance was 91@92½c.

Grain prices declined all around in August after the sharp rise in July. The principal considerations in this were, in the case of wheat, increased estimates relative to the size of the Canadian wheat crop, private advices being to the

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

effect that the reduction from the large crop of 1925 would be considerably less than indicated in the official statement of the previous month, and, in the case of corn, the better prospects for the growing crop in the United States, while oats seemed to weaken in sympathy with other grain. The decline in prices during the first two weeks of August was quite moderate, but the latter part of the month the decline proceeded with great precipitancy. The fall altogether was of large proportions, and in virtually all cases the lowest prices of the month were recorded on Aug. 31. September wheat in Chicago dropped from $1 43 Aug. 2 to $1 31¼ Aug. 31 and December wheat from $1 47¼ to 1 34⅞. Corn at Chicago the first few days of the month advanced sharply on poor crop advices, but thereafter tumbled rapidly. September corn at Chicago sold up from 83½c. Aug. 2 to 86⅜c. Aug. 3, then declined to 83c. Aug. 7, rose to 86¾c. Aug. 11, and finally fell to 74½c. Aug. 31. December corn at Chicago rose from 86½c. Aug. 2 to 90¼c., declined to 87½c. Aug. 7, shot up to 91½c. Aug. 11, and then fell to 81⅛c. Aug. 31. September oats were at their highest Aug. 2 at 43c., and at the lowest on Aug. 31 at 36c., while December oats dropped from 46c. Aug. 2 to 40c. Aug. 31. Sugar prices were not greatly changed, Cuban raw sugar ranging throughout the whole month between 2 7-16c. and 2½c., with the latter the quotation on Aug. 31, against 2 7-16c. July 31. The wholesale price of refined sugar in this market at the leading refineries on Aug. 31, ranged between 5.55c. and 5.80c., against 5.70@5.80c. on July 31. Coffee prices were somewhat firmer the early part of the month, but eased off again the latter part. No. 7 Rio was quoted at 18⅞c. Aug. 31, against 19¼c. July 31; 19⅞c. June 30; 20¼c. May 29; 19¼c. April 30, 17⅞c. March 31 and 18⅞@19c. Feb. 27.

NEW SECURITY ISSUES AND DIVIDENDS

Offerings of new securities, domestic and foreign, during August were on a reduced scale. Among the domestic issues which came upon the market during the month, the largest single piece of financing was the $30,000,000 Westinghouse Electric & Manufacturing Co. 20-year 5% bonds, due 1946, sold by Kuhn, Loeb & Co. at 99% and accrued int. E. H. Rollins & Sons, Marshall Field, Glore, Ward & Co., Spencer Trask & Co. and Blyth, Witter & Co. disposed of $15,000,000 North American Light & Power Co. (Del.) 30-year 5½% sink. fund gold debs., of series "A" at 94½% and int., with an approx. yield of 5.90%. $10,500,000 Interstate Natural Gas Co., Inc. (Del.) 1st mtge. 10-year 6% bonds, due 1936, were placed by Jesup & Lamont at 105 and int. P. W. Chapman & Co., Inc., Blyth, Witter & Co. and E. H. Rollins & Sons, offered at 100 and int., $9,500,000 Benenson Building Corp. (N. Y.) 1st mtge. 5½% gold loan, due 1951. $9,500,000 6% deb. of "A" series of National Power & Light Co. were brought out by a syndicate headed by the Old Colony Corp. and W. C. Langley & Co. at 98 and int., yielding over 6.10%. Halsey, Stuart & Co., Inc., disposed of $5,000,000 Midland Utilities Co. 5% serial gold notes, 1929-31, at prices ranging from 99⅝ to 99½ plus accrued int., and yielding between 5.17% and 5.30%.

Foreign offerings in August, as already indicated, were also smaller in number than previously. The most conspicuous undertaking was the offering of $16,000,000 7½% bonds, series of 1926, due 1956, of Republic of Peru by a banking group headed by Blyth, Witter & Co., White, Weld & Co. and J. Henry Schroder Banking Corp. at 100 and accrued int. Dillon, Read & Co. privately sold $10,815,000 United Steel Works Corp. (Germany) 25-year 6½% sink. fund. 1st mtge. bonds of "C" series. $10,000,000 Republic of Chile 6-months 5% Treasury notes were placed upon the market by a syndicate headed by Blair & Co., Inc., Brown Bros. and The Equitable Trust Co. of N. Y. at 99⅞ and int., with an approx. yield of 5¼%. A banking group consisting of Harris, Forbes & Co. and Lee, Higginson & Co. disposed of, at 98 and int., yielding about 7.20%, $8,000,000 German Consolidated Municipal Loan of German Savings Banks and Clearing Assn. 7% secured bonds, series of 1926, due 1947. $6,000,000 Anticosti Corp. 15-year 1st mtge. 6½% bonds of "A" series were brought out by Wood, Gundy & Co., Ltd., at 100 and int. Speyer & Co., J. & W. Seligman & Co., Hemphill, Noyes & Co. and Otis & Co. sold $5,500,000 Havana Electric Ry. Co., 25-year 5½% deb., with 25-year subscription warrants for com: stock at 92% plus accrued int., and to yield 6⅛%. Dominick & Dominick, Brown Bros. and Chas. D. Barney & Co. offered $5,000,000 Compania Cubana 3-year 6% notes maturing Sept. 1 1929 at 100 and accrued int. White, Weld & Co. and Blyth, Witter & Co. placed $3,000,000 Montreal Rail & Water Terminals, Ltd., 1st mtge. 6½% bonds, due 1951, at 100 and accrued int.

Announcements of changes in dividend declarations during August were mostly of a favorable character. Companies making extra distributions were: Douglas-Pectin Corp. decl. an extra of 50c. besides raising the quar. div. from 25c. to 50c. Special div. of $25 was decl. by Draper Corp. Philadelphia Electric Co. made an extra distribution of 2% on com. in addition to the usual quar. div. of 2%. Ohio Oil Co. decl. 50c. extra and 50c. quar. on stock. Extra div. of 1% in addition to quar. div. of 63c. was reported by Standard Oil of Neb. Hare & Chase, Inc., decl. a semi-annual div. of 75c. on com., compared with previous div. of 50c. National Surety Co. decl. 2½% quar., thereby placing the stock on a 10% div. basis; previously the rate was 9%. An increase in quar. div. on com. from 2½% to 3½% was made by E. I. du Pont de Nemours & Co. Quaker Oats Co. (Chicago) reported an increase in the quar. div. from 75c. to $1. Standard Oil of N. Y. decl. 40c. quar., as compared with previous distribution of 35c. General Motors Corp. decl. stock div. of 50% on com. in addition to the usual quar. div. of $1 75, this latter applying also to the stock to be received as a dividend. Stock div. of 300% on com. was reported by J. J. Newberry Co. J. I. Case Threshing Machine Co. decl. 7% div. on pref., clearing up all accumulations, in addition to the reg. pref. div. of 1¾%. An increase in quar. div. from $2 50 to $3 was reported by Texas Gulf Sulphur Co. Federal Motor Truck Co. decl. a 2½% stock div. Initial div. of 2% was decl. by Indiana Bell Telephone Co. Shubert Theatre Corp. announced an initial quar. com. div. of $1 25 per share. Accumulated divs. of 5¼% in addition to reg. quar. div. of 1¾% were decl. by Valley Mould & Iron Corp. Vulcan Detinning Co. decl. div. of 2% on pref. account of accumulations in addition to reg. quar. div. of 1¾% on pref. Back div. of 60c. and the reg. quar. div. of $2 was reported by Wheeling Steel Corp.

In contradistinction to these favorable dividend declarations, announcements of the oposite kind included: American Rayon Product Corp. omitted payment of the current quar. div. of 50c. on capital stock. California Packing Corp. decl. a quar. div. of $1, which compares with previous rate of $2. Cuban-American Sugar Co. reduced the quar. div. on com. from 50c. to 25c. Quar. div. of $1 50 was deferred by Grinnell Mfg. Co. of New Bedford, Mass. Holmes Mfg. Co. (New Bedford) decl. a quar. div. of 1% on com., as against the previous 1½%. The quar. div. of $1 25 was omitted by New York Transit Co. Union Mills, Inc., reduced the quar. div. on com. from $1 to 50c. Wamsutta Mills (New Bedford) decl. quar. div. of 1%; previously 1½% was paid. Whitman Mills of New Bedford omitted payment of quar. div. of 1½%.

THE STOCK MARKET DURING THE MONTH.

The activity and strength of the stock market were fully maintained during August, with speculation gradually converging on the railroad stocks, where new high records for the year were reached nearly all through the list. The industrial stocks and the specialties were still very prominent in the upward movement the early part of the month and further phenomenal advances were established among such prime leaders and such prime favorites in the upward movement as U. S. Steel Corp. com., General Motors Corp. com., Allied Chemical & Dye com., American Smelting & Refining com., E. I. du Pont de Nemours com., General Asphalt com., Gen. Ry. Signal com. (new stock), U. S. Cast Iron Pipe & Foundry com., and a few other specialties of the same type, all high grade and high priced specialties. Two incidents, however, served to disturb somewhat the speculation in these stocks. The first of these was the publication of a statement on Aug. 2 with reference to the Gen. Motors Corp. attributed to Thomas Cochran, a partner in the firm of J. P. Morgan & Co. Mr. Cochran was alleged to have stated that the stock "should and will sell at least 100 points higher." This statement made its appearance a little before noon on Monday, Aug. 2. The stock had the previous month been rising by leaps and bounds, and it now shot upward in a most spectacular and sensational fashion. Mr. Cochran was on the ocean at the time, having taken passage on the S. S. "Olympic" en route to London and could not readily be reached. It seemed improbable from the first that a member of the firm of J. P. Morgan & Co. should give currency to a statement of this type, bearing resemblance to a stock market tip, and a denial came on Aug. 4, but not before the alleged statement had had its intended effect.

Federal Reserve Bank of St. Louis

Mr. Cochran in his denial, issued through J. P. Morgan & Co. after they had managed to get in touch with him by radio, was as follows: "In response to inquiries made of me by a ship news reporter upon my sailing from New York on a holiday, I spoke with enthusiasm of the earnings, management and prospects of the Gen. Motors Corp. I authorized no statement of any kind as to the future price of the stock, which obviously no one can foretell." Under the influence of the erroneous statement referred to, Gen. Motors stock advanced from 190 to 201 on Monday, Aug. 2, and further advanced to 213¾ on Tuesday, Aug. 3, and touched 214½ in the morning of Aug. 4, before the appearance of Mr. Cochran's denial, but broke sharply when the denial was given out. Still, great efforts were made to prevent any permanent or large decline in market values, and on Aug. 9 the stock sold up to 225¾. This proved the high figure of the month, notwithstanding that on Aug. 12 the directors of the company declared a 50% stock dividend and in addition a regular quarterly dividend of $1 75 per share, including the stock to be issued as a dividend. The remainder of the month the stock fluctuated widely and wildly. It closed Aug. 31 at 210.

The second event mentioned was the action of the Federal Reserve Bank of New York in raising its rediscount rate after the close of busniess on Thursday, Aug. 12, from 3½ to 4%, the increase becoming effective the next day, Friday, Aug. 13. This caused a general break in prices in the morning of the latter day. Precisely what effect the advance in the discount rate by itself may have had it is difficult to say, but it will be noted that the General Motors episode had occurred only the previous week and had left the market unusually sensitive; liquidation on a tremendous scale was already in progress and the higher discount rate, coming at that particular time, may have served to increase the liquidation for the time being, but the market sharply recovered before the end of the day and it cannot be said that the event had any permanent influence, since money rates continued to stiffen the rest of the month and call loans on the Stock Exchange the last few days of August commanded full 5%, and the money market stiffened all around without the speculative fraternity being in the least disturbed thereby.

During the second half of the month a sort of tussle between the bulls and the bears appeared to be in progress, with the bulls finally getting the upper hand, the railroad stocks becoming prime favorites in place of the industrial stocks and the numerous specialties already referred to. Liquidation in these latter unquestionably proceeded on a tremendous scale, in part to realize profits, but in part also induced by a shifting of interest to the railroad list on the idea that a better chance for profit now existed in the "rails" inasmuch as the "rails" had as yet had a comparatively light rise alongside the prodigious advances in the industrial list and the specialties. This selling of one or two groups of stocks and buying of another had the effect of causing a decidedly irregular market after the time of the General Motors incident, with wide fluctuations from day to day, the stocks in which selling was proceeding being often weak, and yet invariably making quick recovery under the strengthening influence of the rise in the railroad list. In this state of things there was quick response to even casual developments, often of little consequence and merely transient in nature. Thus a break in prices was caused on Aug. 24 by the circulation of advance information regarding an article which was to appear in the Sept. number of the "Atlantic Monthly," written by Prof. Wm. Z. Ripley of Harvard University bearing the sensational title, "Stop, Look, Listen," and dealing with an alleged lack of information in the income accounts and financial statements of industrial corporations. The article was given wholly exaggerated importance, its main object apparently (aside from the publicity naturally sought for it) being to advocate that the Federal Trade Commission require the filing of comprehensive and uniform reports on the part of industrial corporations in accordance with definitely prescribed rules and regulations and to urge that the Trade Commission possessed ample powers for compelling compliance with such a requirement. As the industrial list was already weak, for the reasons stated, this really inconsequential matter served well enough as the basis for a new attack on the industrial shares and operated momentarily to cause renewed depression in them. The latter part of the month, however, the buying of the railroad stocks proceeded with so much fervor, and such striking advances in this group were established, that the whole market was carried along in a new upward movement.

There was undoubtedly a strong speculative interest behind the railroad stocks, and much the same tactics were employed in moving these stocks upward as had previously been so successfully employed in advancing the industrial shares—that is, the high-priced shares and high-grade properties were used as leaders in the movement and, of course, there was a very substantial basis for regarding railroad stocks with great favor, because of the excellent income statements and satisfactory current reports of earnings which virtually all the railroads of the country have been able to present.

Many large and sensational advances resulted and new high records for the year were established nearly all through the railroad list. Thus Atchison com. jumped from 137½ Aug. 5 to 160¾ Aug. 31; Del. & Hudson rose from 164½ Aug. 12 to 180¼ Aug. 31; Atlantic Coast Line from 217½ Aug. 12 to 236 Aug. 31 (this last, however, not being the high of the year); Balt. & Ohio com. from 99½ Aug. 3 to 106½ Aug. 31; Canadian Pacific from 163 Aug. 4 to 168⅛ Aug. 31; Ches. & Ohio com. from 141½ Aug. 11 to 156 Aug. 31; Chicago & North West com. from 71¾ Aug. 4 to 79⅝ Aug. 26; Rock Island com. from 57⅛ Au.g 3 to 64¼ Aug. 31; Great Northern pref. from 73⅛ Aug. 2 to 80¼ Aug. 27; Hocking Valley from 184½ Aug. 7 to 210 Aug. 24; Illinois Central from 120½ Aug. 10 to 125⅞ Aug. 31; Louisv. & Nashv. from 133 Aug. 4 to 141⅞ Aug. 31 (not quite the high for the year); Missouri Pacific com. from 37⅝ Aug. 13 to 43 Aug. 31; New York Central from 134 Aug. 5 to 140⅜ Aug. 16; Norfolk & Western com. from 155¼ Aug. 4 to 168 Aug. 31; Northern Pacific from 72⅝ Aug. 5 to 82½ Aug. 26; Southern Pacific from 105 Aug. 11 to 109¼ Aug. 31 (a trifle below the high of the year); Southern Railroad com. from 118¾ Aug. 5 to 128½ Aug. 31, and Union Pacific from 154 Aug. 5 to 164½ Aug. 31. All the stocks mentioned, with the three exceptions noted, made new high records for the year as well as many others. It should be noted, too, that in nearly all the cases the high for the month and for the year was made on the closing day, namely Aug. 31. Not so in the case of the industrial list. Here, also, not a few attained their best figures of the month on the final day, but these are rather in the nature of exceptions than being the rule. The course of the prices of the leaders among the industrial shares will furnish an indication of the course of the industrial list as a whole. General Motors com., as already noted, advanced from 190 Aug. 2 to 225¾ Aug. 9, but closed Aug. 31 at 210; U. S. Steel com. advanced from 146⅝ Aug. 2 to 159⅝ Aug. 17, but closed at 150½; Allied Chemical & Dye com., opening at 136⅞ Aug. 1, advanced to 144½ Aug. 16, then dropped to 132⅝ Aug. 25 and closed Aug. 31 at 137⅞; American Smelting & Refining com. jumped from 133½ Aug. 2 to 152 Aug. 17, but closed Aug. 31 at 144; E. I. du Pont de Nemours com. spurted up from 280½ Aug. 2 to 314½ Aug. 14, but closed Aug. 31 at 305; General Asphalt com. bounded from 67½ Aug. 2 to 94¼ Aug. 28 and closed Aug. 31 at 91¾; General Railway Signal (new) advanced from 85 Aug. 2 to 93⅞ Aug. 23 and closed Aug. 31 at 91, and U. S. Cast Iron Pipe & Foundry, opening at 242 Aug. 2, reached 248½ Aug. 3, then declined to 209 Aug. 25 and closed Aug. 31 at 213½. Bond prices were very little changed during the month.

THE MONEY MARKET.

There was a further stiffening of the money market during August and rates moved to still higher levels, both for call loans on the Stock Exchange and for time accommodation, while rates for commercial paper and for bankers' acceptances were likewise marked up. In fact, money was dearer all around. The main reasons for this were that brokers' loans on the Stock Exchange increased, and that the usual seasonal call for money, with which to move the crops, began. The distinctive feature of the month was the advance from 3½% to 4% in the rediscount rate of the Federal Reserve Bank of New York. This occurred after the close of business on Thursday, Aug. 12, the higher rate becoming effective the next day, Aug. 13. The action of the Reserve Bank naturally had an important influence on all branches of the money market, and while previously continued firmness had characterized the course of money, the upward trend now became quite pronounced. Call loans on

Federal Reserve Bank of St. Louis

the Stock Exchange at no time got below 4%, and then only for a few days at the beginning of the month, and the high rate was 5%. No transactions below 4½% were reported after Aug. 10, and in fact 4½% was the single and only rate for Stock Exchange call money from Aug. 11 to Aug. 24, both days inclusive. On Aug. 25, and again on Aug. 26, some loans were made at 5%, but the renewal rate even then was not changed from 4½%, which had been the renewal charge continuously day by day since the morning of Aug. 11. On Aug. 27, however, the renewal rate was raised to 5% and all other loans on that day were at the same figure; and the single rate of 5% also prevailed on Aug. 30 and 31. The advance represented preparations for the end-of-the-month requirements and the Sept. 1 payments. On the first business day of the month, that is on Monday, Aug. 2, some money was also loaned as high as 5%, the range for that day being 4½@5%, but this was before the first-of-the-month payments had been distributed and found their way back into the customary channels. The renewal rate on that day was 4½% and the next day, Aug. 3, all loans, including renewals, were at that figure; on Aug. 4 the renewal rate dropped to 4¼% and on Aug. 5 it was lowered to 4%, but on Aug. 6 it was advanced again to 4¼%, at which figure it stood until the advance to 4½% on Aug. 11, which latter, as already noted, remained the renewal charge until the advance to 5% on Aug. 27, the last-mentioned figure then continuing until the close of the month.

Rates for time money on the Stock Exchange may be said to have risen steadily after the advance in the rediscount rate of the Federal Reserve Bank of New York. At the beginning of August the quotation was still 4½% for 60 and 90-day loans, 4½@4⅝% for loans running from four to five months and 4½@4¾% for loans having a maturity of six months. Following the advance in the rediscount rate of the New York Federal Reserve Bank the rate for 60 and 90-day loans rose from 4½ to 4¾%; the rate for four and five months' loans went from 4½@4⅝ to 4¾@5%, and the rate for six months' maturities from 4½@4¾ to 4¾@5. By the close of the month all maturities from 60 days to six months were quoted at 4¾@5%, and it deserves to be noted that this was the first time since March that 60-day money was quoted at 5%. Rates for commercial paper shared in the general upward movement of rates, though the advances here were a little more tardy than in other branches of the money market. During the first half of the month paper continued to be quoted at 4@4¼% for four to six months' names of choice character, while the range for rates not so well known remained at 4¼@4½%, with New England mill paper and the shorter choice names going at 4%. After the middle of August quotations were marked up and at the close of the month the range was 4¼@4½% for four to six months' names of choice character, with 4½@4¾% required for names not so well known. New England mill paper and the shorter choice names were now dealt in at 4¼%. Trading at the higher figures was fairly active. Offerings were freer, and a good demand was reported, especially from country banks.

Rates for banks' and bankers' acceptances responded immediately to the advance in the rediscount rate of the New York Federal Reserve Bank. Quotations previously had remained unchanged at 3¼% bid and 3⅛% asked for bills running 30 days, 3⅜% bid and 3¼% asked for 60 days, 3½% bid and 3⅜% asked for 90 days, 3⅝% bid and 3½% asked for 120 and 150 days, and 3¾% bid and 3⅝% asked for 180 days. An immediate advance followed the rise in the rate of the Federal Reserve Bank and successive further advances occurred in the two succeeding weeks, with the result that at the close of the month the American Acceptance Council made the discount rate on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 3¾% bid and 3⅝% asked for 30 days, 3⅞% bid and 3¾% asked for 60 days, 4% bid and 3⅞% asked for 90 days and 120 days, and 4¼% bid and 4⅛% asked for 150 and 180 days. It will be seen that this is an advance of fully ½%. For call loans against bankers' acceptances the posted rate of the American Acceptance Council ranged during the month between 3½% and 4%, with the rate at the close of August 4%.

The advance at New York from 3½ to 4% was the only change during the month in the rediscount rate of any of the twelve Federal Reserve banks. The advance here brought the New York rate up to the level of the other Reserve banks, making the rate uniform at 4% on all classes of paper and for all maturities. The advance by the Federal Reserve Bank of New York came rather as a surprise to the banking and financial community. The possibility of such an event had been mooted in some previous weeks, but was not looked for at the moment when it did come. In their action the Federal Reserve authorities were probably influenced by the large increase in brokers' loans on the New York Stock Exchange. The reduction from 4% to 3½% made the previous April 23 had come just as unexpectedly, and some doubted the wisdom of the step at that time. No one questioned the action on the present occasion. The previous January—that is on Jan. 8—the rate had been suddenly advanced to 4% after having been left unchanged at 3½% since Feb. 27 1925 during all of which latter period a frenzied speculation had been in progress on the Stock Exchange and the action then was considered very much belated.

The Federal Reserve banks received preliminary notice on Aug. 16 of a proposed offering by the Treasury Department of an issue of Government obligations on Sept. 15. The amount of the offering, however, was not disclosed.

RATES FOR MONEY AT NEW YORK, WEEKLY.

Week Ending—	*Aug. 6.*	*Aug. 13.*	*Aug. 20.*	*Aug. 27.*
Call Loans on Stock Exchange—				
Range for week (mixed & indus. collat.)	4-5	4¼-5	4½	4½-5
Week's average (mixed & indus. collat.)	4¼	4½	4½	4½

Prime 4 to 6 months	4-4¼	4-4¼	4-4½	4¼-4½
Good 4 to 6 months	4¼-4½	4¼-4½	4¼-4¾	4½-4¾

FEDERAL RESERVE AND CLEARING HOUSE BANKS—BROKERS' LOANS.

As already intimated, further expansion occurred during the month in brokers' loans on the Stock Exchange. The expansion, too, was of large proportions and reflected the growing volume of speculation on the Stock Exchange. This speculation was maintained at full volume with rapidly rising prices the first half of the month, but tapered off the latter part of the month, when apparently extensive liquidation occurred in order to realize profits. From the weekly statement of the Federal Reserve Board at Washington it appeared that the grand aggregate of loans to brokers and dealers (secured by stocks and bonds) by the 58 reporting member banks in New York City increased from $2,602,042,000 July 28 to $2,688,717,000 Aug. 4, to $2,720,332,000 Aug. 11, then to $2,742,388,000 Aug. 18, and was $2,731,210,000 Aug. 25. It was rather noteworthy that the portion of these loans made by the banks for their own account, after running up from $933,881,000 July 28 to $994,572,000 Aug. 4, fell to $936,741,000 Aug. 11, then to $918,775,000 Aug. 18 and was $941,544,000 on Aug. 25, while on the other hand the loans made by these member banks for account of out-of-town banks kept steadily rising week by week; from $1,014,859,000 July 28 there was an increase to $1,024,766,000 Aug. 4, to $1,089,093,000 Aug. 11 and $1,104,676,000 Aug. 18, with a decrease to $1,072,654,000 Aug. 25. In like manner the loans made for account of others also kept steadily rising except the last week, being $653,302,000 July 28; $669,379,000 Aug. 4; $694,498,000 Aug. 11; $718,937,000 Aug. 18, and $717,012,000 Aug. 28.

Borrowing at the Federal Reserve banks substantially increased during the month and the volume of discounted bills for the twelve banks combined aggregated $570,638,000 Aug. 25, against $521,390,000 July 28, and $495,429,000 July 21, while the holdings of acceptances stood at $254,616,000 Aug. 25, against $211,173,000 July 28 and $217,439,000 July 21. The twelve banks, however, reduced their holdings of United States Government securities. These amounted to only $321,217,000 Aug. 25, against $369,239,000 July 28 and $383,097,000 July 21. This served to moderate the increase in the total of bill and security holdings of all kinds, which accordingly stood at $1,150,171,000 Aug. 25, against $1,106,302,000 July 28 and $1,102,165,000 July 21. The amount of Federal Reserve notes in actual circulation Aug. 25 was $1,692,637,000, against $1,671,336,000 July 28 and $1,680,920,000 July 21. Gold reserves were $2,840,606,000 Aug. 25, against $2,850,921,000 July 28 and $2,842,186,000 July 21.

The Federal Reserve Bank of New York by itself showed changes not in all cases identical with those for the twelve Reserve banks combined, including New York. Its discounts first ran up from $150,838,000 July 28 to $190,253,000 Aug. 11 and then declined to $140,059,000 Aug. 25. The holdings of open market acceptances kept slowly but steadily increasing and were $43,849,000 Aug. 25, against $33,443,000 July 28. Holdings of United States Government securities were only $60,266,000 Aug. 25, against $73,869,000 July 28, $84,219,000 July 21 and $91,369,000 July 14. Total bill and security holdings, after increasing from $258,506,000 July 28 to $299,921,000 Aug. 11, were only $244,174,000 Aug. 25. The amount of Federal Reserve notes in actual circulation for this Reserve bank increased from $390,959,000 July 28 to $394,101,000 Aug. 4, and then fell to $384,433,000 Aug. 25.

The New York Clearing House banks during August showed a reduction in their loan item with a concurrent reduction in deposits. From $5,436,422,000 July 31 the total of the loan item fell to $5,351,527,000 Aug. 21 and then increased to $5,397,621,000 Aug. 28. The total of the deposits declined from $5,018,342,000 July 31 to $4,934,212,000 Aug. 21 and recovered to $4,978,473,000 Aug. 28. Excess reserves were reported at low figures in the return of Aug. 14 and again in that for Aug. 28, the first probably in connection with the mid-month requirements and the last in connection with preparations for the 1st of Sept. payments. At all events, legal reserve of the member banks with the Federal Reserve Bank were allowed to drop heavily at those dates and it is this reserve at the Federal Reserve Bank that constitutes the main factor in determining surplus reserve. On July 31 excess reserve was $22,113,820. From this there was an increase to $45,476,010 Aug. 7, as a result of a big addition to the reserves held with the Federal Reserve Bank, said reserve having risen from $594,971,000 July 31 to $612,297,000 Aug. 7. On

Federal Reserve Bank of St. Louis

Aug. 14, with this reserve reduced to $567,346,000, the surplus reserve fell to $6,282,820. On Aug. 21, with said reserve again up to $586,596,000, surplus reserves were raised to $25,425,800, only to fall again to $7,343,570 on Aug. 28, with the reserve at the Federal Reserve Bank reduced from $586,596,000 to $574,812,000 contemporaneously with a rise in the deposits, which, as already stated, after declining from $5,018,342,000 July 31 to $4,934,212,000 Aug. 21, recovered in this last week of the month to $4,978,473,000. The item of "bills payable, rediscounts, acceptances and other liabilities," after increasing from $598,495,000 July 31 to $647,299,000 Aug. 7, declined each week thereafter and was $572,363,000 Aug. 28.

COURSE OF STERLING EXCHANGE DURING AUGUST.

For the first time in many months rates of sterling exchange during August sharply declined. The decline amounted to a full cent to the pound sterling. During the first three weeks of the month rates held up remarkably well, in face of quite a number of depressing influences. The continuance of the coal miners' strike in Great Britain was doubly disturbing. In the first place it unfavorably affected British home trade owing to the lack of sufficient supplies of fuel with which to continue manufacturing. In the second place the strike made it incumbent to import coal in considerable quantities from abroad in order in part at least to offset the absence of the customary home supplies. The importations, of course, constituted a new element in Great Britain's foreign trade movement, adding in a corresponding amount to the country's adverse balance on the merchandise movement. The advance in the rediscount rate of the Federal Reserve Bank of New York was also an unfavorable development, since though it still left the Bank of England rate of discount (which remained unchanged at 5%) a full 1% higher than the new rate of the New York Reserve Bank, it nevertheless diminished the inducement to keep American bankers' balances abroad or to add to them. The further rise in money rates at New York was an even more potent influence in the same direction. It happened that during the early part of the month commercial bills were in light supply and this made it easier to that extent to maintain exchange rates on London. In the last week of the month, however, these commercial bills appeared in much greater profusion and then rates for sterling sharply declined. Bills against shipments of cotton were particularly in evidence and were regarded as the forerunner of the autumnal selling movement customary at this season of the year in connection with the large outflow of cotton and wheat to Great Britain. While the supply of cotton bills at no time could be called excessive, it was of sufficient volume to cause a gradual but steady decline in the rates for sterling. Sight bills on London, which on Aug. 2 were quoted at 4 85⅞, on Aug. 28 sold as low as 4 84 11-16; the range Aug. 31 was 4 84¾@4 84 13-16. This was the first time since the second week in May that demand bills on London had sold below the level of 4 85.

The drop came after news that approximately $30,000,000 of gold had arrived at San Francisco for account of the Bank of England destined to the Federal Reserve Bank of New York. The announcement came on Aug. 18 and said that the shipments had been made "in settlement of international balances." The New York "Times" the following day remarked that while no official statement had been made concerning the shipment, the financial district assumed that it was made to obviate the necessity of gold shipments from London to New York at a time of heavy seasonal commodity purchases in this market by British interests, or at least to reduce such shipments to a minimum. The seasonal drain on sterling exchange was beginning, it was pointed out, due to British purchase of cotton, grain and other products, and bankers had expected that this would result in a movement of gold from London to New York in the next few months, as the usual purchases were being augmented by British purchases of large amounts of American coal owing to the British coal miners' strike. The Australian gold to be held as a reserve here, it was said, could be used if exchange conditions called for it without shipments from London. It was not desired to send gold here from London in view of the Bank of England's policy of building up its reserves under the gold standard, resumed in 1925, and the drain caused by the prolonged coal strike. It should be added that the Bank of England further greatly enlarged its gold holdings during the month, the return for Aug. 4 showing an addition of £717,431, that for Aug. 11 an addition of no less than £1,023,577, that for Aug. 18 a further gain of £276,407 and the return for Aug. 25 still another addition of £661,286, making the gain for the four weeks £2,678,701.

THE CONTINENTAL AND OTHER FOREIGN EXCHANGES.

A spectacular recovery ensued in French francs the early part of August and the franc for a couple of days was quoted above 3.00 cents. This was in sharp contrast with the extreme weakness experienced in July. The rise seemed to be due entirely to the growing confidence in the Poincare Coalition Ministry. Certainly M. Poincare had remarkable success with his various reform measures, including his new tax measures and other legislation deemed essential in the carrying out of his policy for saving the French franc. The fact that the Bank of France had on Saturday, July 31, advanced its discount rate from 6% to 7½% was also considered a favorable factor in the situation at that juncture. Altogether there was a sharp veering around from the attitude of acute pessimism which had prevailed during July to one of relative optimism, and comment was general on the business-like way in which France's financial affairs were now being handled. As a consequence, active buying of French francs occurred all around. At the same time those who had so aggressively been selling the franc short —and their name was evidently legion—got badly scared and added to the general buying movement in their endeavor to cover their short commitments. Previously the fluctuations in French francs in this market had reflected simply changes in Paris. It was now noted that the local market had become very active, considerable quantities of francs changing hands. This led to rumors that the remainder of the Morgan credit was now being used in one way or another, though no confirmation of these rumors was received. Indications were not lacking that with the change in sentiment French capitalists and investors were once more inclining to francs and converting their holdings of dollars, sterling and guilders back into French currency. On July 31 checks on Paris, after some recovery from the extreme low figures of that month, were quoted at 2.42¼@2.43. On Monday, Aug. 2, the range was from 2.59 to 2.66¼. Further rapid advances followed, and on Aug. 6 the quotation got up to 3.08. From this there was a reaction to 2.67½ Aug. 12, owing to the unfavorable impression caused by the letter of M. Clemenceau to President Coolidge regarding France's war debt to this country, but recovery quickly followed and on Aug. 19 the quotation was back to 2.89½, and on Aug. 31 it reached 2.95¼.

After recovering, French exchange showed relative steadiness alongside the wide fluctuations previously experienced. It was evident that the French franc was finding its normal level under a return of normal conditions. Evidence that covering of shorts had played a part in the sensational rise in the early days of the month was claimed to be seen in the narrowing of the discounts on futures. Thirty-day francs, which for a time had been twelve points under the rate for spot bills, dropped to a discount of less than six points, while the quotation for 90-day bills dropped to a discount of less than 13 points, as compared with 25 points the last week in July. The Bank of France statement showed steady improvement in the position of that institution, but it was a question how far the figures could be relied upon as showing the actual position of the bank under the new powers conferred upon the bank. The return for Aug. 4 was still unfavorable, showing a further increase of 123,695,000 francs in note circulation and a further increase in the advances to the State of 400,000,000 francs, but the next week note circulation was reduced no less than 987,231,000 francs, and this was followed by further decreases of 612,629,000 francs and 511,833,000 francs in the returns for Aug. 18 and Aug. 25. As noted, however, at the beginning of this article, a new law was enacted by the French Parliament before adjournment, which authorizes the Bank of France to issue notes for the purchase of gold bullion and stable foreign currency at current rates of exchange, and notes thus put out are not reported, it is understood, in the weekly returns. Previously such purchases were forbidden by law except when the buying was done at the pre-war rate of exchange. It has already been stated that the return for Aug. 4 showed a further increase of 400,000,000 francs in the advances to the State, but in succeeding weeks this situation was also reversed and the return for Aug. 11 showed that the State had repaid the Bank 550,000,000 francs, and the statements for Aug. 18 and Aug. 25 showed further repayments of 350,000,000 francs and 500,000,000 francs, respectively.

Belgian francs most of the month moved in sympathy with French francs. At all events there was a sharp rise in the early days of the month with a moderate reaction and greatly diminished trading the latter part. At the same time the Belgian franc resumed its former position of always ruling a little lower than the French franc. Checks on Antwerp, which on July 31 ranged between 2.52 and 2.54⅛, after a substantial recovery from the low figure of that month, ruled Monday, Aug. 2, at 2.62@2.69¼ and then made successive further advances to 2.94 Aug. 6. A downward reaction carried the rate back to 2.62½ Aug. 13, but the range Aug. 31 was 2.77@2.79½. Italian lire fluctuated within narrow limits, though occasionally displaying weakness, when, however, Government support always appeared. As indicating the attitude of the Italian Govt. in the matter, Associated Press cablegrams on Aug. 19 reported Premier Mussolini as having expressed himself very emphatically on the subject. The Premier was quoted as saying: "The lira, which is the symbol of our economy, of our great sacrifices and our tenacious work, must be defended, and will be defended strongly and at all cost. I speak to all Italians, and my voice without doubt will be heard beyond the Alps, beyond the ocean. I shall defend the lira to the last breath and to the last drop of blood. I shall never punish the marvelous Italian people who for the last four years have worked with ascetic discipline and are ready to make still other serious sacrifices. The Fascist Government will resist with all means at its command the

Digitized for FRASER

Federal Reserve Bank of St. Louis

financial forces who by their manoeuvres aim to bring about disgrace and an economic catastrophe and the bankruptcy of the lira. The Government is determined to break them." Sight bills on Rome moved up from 3.24 Aug. 3 to 3.38 Aug. 4, but later in the month weakness developed and on Aug. 23 the price got down to 3.20½. Then support appeared. Heavy buying of spot lire by a prominent Italian banking concern, with official connections, in conjunction with sales of futures, led to the belief that this movement had the approval of the Italian Government. In fact, later on it was claimed that the movement was little more than an effort on the part of Government operators to squeeze out the large short interest existing. The spread between the rate for spot bills and that for futures greatly widened while the selling movement was under way; for instance, lire for 30 days' delivery sold at a discount of 16 points, against only 5 points two weeks before, while in the case of 90-day futures the discount increased to 25 points against the previous 14 points. It was claimed on one hand that the shorts in their covering operations had been buying spot bills and simultaneously selling futures, and on the other hand that semi-official interests close to the Italian Government had been supporting spot rates while at the same time depressing futures, making it thus expensive to extend short positions. Under these operations recovery in rates ensued and the range Aug. 31 was 3.24@3.28. It should be stated that the French Government, the Belgian Government and the Italian all adopted special measures for improving their economic position, such as restricting imports and curtailing food consumption—resorting, some of them, to the use of black bread and other war-time practices.

In the case of exchange rates on Berlin the month was marked by what was considered as the inauguration of actual trading in German reichsmark. The German mark had for a long time been quoted at what were looked upon as purely nominal figures, usually in the vicinity of 23.81c., with only very slight deviations from that figure, and often not any at all for several months, but with a complete absence of any trading. Now, however, business in exchange on Berlin seemed to be actually taking place. As a preliminary step in that direction some large shipments of gold from this side to Germany were reported. On Aug. 9 the Federal Reserve Bank of New York made announcement that it was authorized by the German Reichsbank to state that the shipments of gold being made to Germany were a part of the reserve of ear-marked gold long held by the Federal Reserve Bank of New York for account of the Reichsbank. The announcement added: "These shipments are made exactly, as in former cases, out of gold accumulated in our hands and set aside as the ear-marked gold reserve held abroad by the Reichsbank." Newspaper comment was to the effect that no special significance attached to the movement, and yet the belief grew up that withdrawals of this ear-marked gold from the Federal Reserve Bank of New York had some connection with the beginning of actual trading in the mark at this point. The step followed, moreover, shortly after the lifting of official supervision and the removal of the ban on free trading in marks. Cable advices from London said further that the Reichsbank was contemplating the removal of restrictions, so that mark rates could fluctuate between actual gold points. The Bank of Germany in its weekly returns showed the customary contraction in note circulation during the first three weeks of the month, with an increase again in the final week in connection with the end-of-the-month requirements. The reduction was 134,794,000 marks the first week, 110,186,000 marks the second week and 105,475,000 marks the third week. The rate on Austria and Hungary ruled in each case close to .0014½ throughout the whole month. The Hungarian National Bank on Aug. 26 reduced its discount rate from 7% to 6%. Up to and including Aug. 23 checks on Berlin ruled unchanged at 23.79; after that, with the beginning of actual business in the mark, the rate ranged between 23.79 and 23.82, with the rates Aug. 31, however, again 23.79. Greek exchange recovered as the first result of the new revolution in that country, but later reacted again. On the first 21 days of the month the range of checks on Greece was from 1.09½ to 1.11¼; on Aug. 25 the quotation got up to 1.17½, and the quotation Aug. 31 was 1.12½. Polish

RATES OF EXCHANGE ON CONTINENTAL CENTRES.

NOTE.—Method of quoting French, Swiss and Belgian francs and Italian lire changed on Dec. 1 1920 to show the value of all these different units in cents per unit. The previous method of quoting was to give the number of francs or lire to the dollar.

Federal Reserve Bank of St. Louis

zloties moved rather irregularly, though being on the whole well maintained, considering the political situation in that country. From 11.50 there was first a decline to 11.00 and then the latter part of the month an advance on Aug. 27 to 11.70, apparently on the putting into effect of Dr. Kemmerer's recommendations of financial reform. On Aug. 31 the quotation was 11.50.

There were only small changes in exchange rates on the centres of the countries which remained neutral during the war with the drift slightly downward. Swiss francs for checks were 19.29½ Aug. 31, against 19.34 Aug. 2. Sight bills on Amsterdam were 40.04 Aug. 31, against 40.15 Aug. 2. In the case of Scandinavian exchanges the Danish crown on checks was 26.52 Aug. 31, against 26.50 Aug. 2, the Swedish crown 26.71 Aug. 31, against 26.73 Aug. 2, and the Norwegian crown on checks 21.86@21.89 Aug. 31, against 21.88½ Aug. 2.

Rates on leading South American points also moved within moderate limits, in some cases being slightly lower and in other cases slightly higher. Argentine exchange was lower and the peso for checks was 40.37@40.45 Aug. 31, against 40.61@40.65 Aug. 2; the Brazilian milreis Aug. 31 was 15.33, against 15.35@15.40 Aug. 2 and the Chilean peso 12.10@12.20 Aug. 31, against 12.07@12.15 Aug. 2. $10,000,000 6 mos. 5% Treasury gold notes of the Republic of Chile were floated in the United States during the month. The Uruguayan peso moved sharply upward from 99.50 Aug. 2 to 101.01 Aug. 17 and was 100.00@101.01 Aug. 31. The Peruvian libra was 3 88@3 91 Aug. 31, against 3 84@3 87 Aug. 2. The Republic of Peru floated $16,000,000 7½% bonds in this country. In exchanges on the Far East rates on the silver-using countries dropped sharply with the decline in the price of silver, while the Japanese yen further improved. The dollar on Hong Kong dropped from 54.55 Aug. 2 to 53.00 Aug. 20 and was 53.50@53.70 Aug. 31. The tael on Shanghai fell from 70⅞ Aug. 2 to 68⅜ Aug. 14 and was 68 9-16@69 Aug. 31. The Japanese yen moved up from 47½ Aug. 2 to 48½ Aug. 16, but reacted and was 48.10@48.25 Aug. 31. The rupees on Bombay changed scarcely at all. The price of silver, which had been increasingly weak during July, suffered sharp collapse the early part of August on the recommendations of the Indian Currency Commission, but recovered somewhat the latter part of the month. The price in London dropped from 29⅜d. Aug. 2 to 28½d. Aug. 7 and was 28⅝d. Aug. 31.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1926 to date. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The black-faced letters in the column headed "*Interest Period*" indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. A few other bonds, like the Holland-American Line 6s and the Anton Jurgens Works 6s, for special reasons, are also quoted "flat," but where this is the case the notation "*flat*" will be found against the name of the issue. This method of quoting bonds became effective January 2 1909.

For footnotes to tables see last page of bonds and last page of stocks

STOCKS—PRICES AND SALES FOR AUGUST AND THE YEAR TO DATE.

In accordance with a rule of the Stock Exchange, effective Oct. 13 1915, all stocks are now quoted dollars per share.

Prices are on basis of 100-share lots. Exceptions of stocks which sell only in a small way are noted by the letter *a*. Option sales are disregarded.

GENERAL QUOTATIONS
OF
BONDS AND STOCKS

1. In the following thirty-four pages of tables quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "*f*" is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter "*f*" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gu" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv", for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

INDUSTRIAL AND MISCELLANEOUS SECURITIES

Under the heading "Industrial and Miscellaneous Securities" we include all issued which *do not* appear under the previous two headings, namely "Railroad (Steam)" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

UNITED STATES AND MUNICIPAL BONDS

In reporting below prices for State and municipal securities, we give bid and asked quotations wherever they can be obtained. The custom, however, is to quote municipal securities on the basis of the return they yield per annum. Therefore in most cases it will be found that instead of actual prices we have inserted in the column headed "To Net" certain figures to indicate the interest rate at which business in the bonds is being done. Thus 3.95% means that the particular security can be bought or sold at a price that will yield the purchaser or seller 3.95% per annum to the maturity of the issue. Where two figures appear, as for instance "3.95 to 4.00," the rate of return varies according to the maturity—the shorter maturities yielding the lowest rate, and the longer maturities yielding the highest return.

In State and municipal bonds the custom has always been to quote them "and interest." That is, the accrued interest must in all cases be added, on. There are a very few which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (f).

Federal Reserve Bank of St. Louis

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of Canadian institutions, and are as near as possible for the *closing day of the month preceding date of issue*, though often are nominal. An asterisk (*) denotes sales.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

ALABAMA—*National banks June 30; State institutions June 30.*
