STATEMENT FOR THE PRESS

Released for publication Monday morning, June 30, 1919; not earlier.

Federal Reserve Board, June 28, 1919.

CONDITION OF MEMBER BANKS.

Liquidation on a large scale of Treasury Certificates, chiefly tax certificates due about June 15 and receivable in payment of income and war profit taxes, and corresponding reductions in Government and other demand deposits are indicated in the Federal Reserve Board's weekly statement of condition on June 20 of 771 member banks in leading cities.

United States bonds other than circulation bonds show a nominal increase, while U. S. Victory notes on hand declined about 36 millions, this decline apparently representing the amount paid by customers on account of Victory notes subscribed on the installment plan.

Holdings of Treasury certificates fell off 382 millions, the decrease for the New York City banks alone being 181.4 millions. Loans secured by U. S. war obligations (so-called war paper) show an increase for the week of 21.6 millions, of which 13 millions are shown for the New York City member banks. Other loans and investments declined about 61 millions, all classes of banks reporting smaller figures under this head than the week before. Aggregate holdings of U. S. war securities and war paper declined from 3,900.3 to 3,506.4 millions, and constitute 24.2 per cent of the loans and investments of all reporting banks, as against 26.1 per cent the week before. For the New York City banks a decline in this ratio from 29.3 to 27.2 per cent is noted.

Government deposits declined 122.5 millions while other demand deposits (net) show an even larger reduction of 265.6 millions, apparently as the result of the large tax payments made about June 15. Time deposits show a slight increase of 6.5 millions, while reserve balances with the Federal Reserve banks went up 11.5 millions, and considerably more in New York City. Cash in vault, on the other hand, declined 15.9 millions, largely outside the Federal Reserve bank cities.
