Since September 1, 1909, there has been a net increase in the number of national banks of 196 and in aggregate resources of \$252,227,-075.52. At date of first call during the report year, namely, November 16, 1909, there were 7,006 national banks with aggregate resources of \$9,591,394,662.73. On January 31, 1910, the resources had increased to \$9,730,518,635.37; on March 29, to \$9,841,924,345.97, reaching the maximum during the year on June 30 of \$9,896,624,-696.73. The September 1 call showed a decrease of \$70,443,244.37, or to \$9,826,181,452.36.

The banks' loans and discounts, representing over 55 per cent of their assets, amounting to \$5,128,882,351.18 on September 1, 1909, increased to the extent of \$19,905,243.52 by November 16 and by \$80,715,880.70 January 31, 1910. The greatest increase during the year was between January and March 29, the amount of increase being \$202,589,719.24, when the total amount of loans was \$5,432,-093,194.64. By June 30 the loans had decreased slightly, but only

to the extent of \$1,934,007.89. On September 1, the date of the last report in the year, the loans reached the maximum for the year and for any prior date in the history of the national-banking system, namely, \$5,467,160,637.98.

The net increase in loans and discounts between September 1, 1909, and September 1, 1910, was \$338,278,286.80.

In the reports of condition of national banks, loans and discounts are divided into five classes, namely: On demand, with one or more individual or firm names; paper secured by stocks, bonds, and other personal securities; on time with two or more names, single name without other security; on time, secured by stocks, bonds, and other personal securities, including mortgages or other liens on realty. On September 1, 1910, the single-name demand paper amounted to \$524,306,117; on demand, secured by stocks, etc., \$939,111,340; on time, two or more name paper, \$1,842,517,150; on time, single-name paper, \$1,068,278,898; on time, secured by bonds, etc., \$1,092,947,132.

The demand paper represents 26.8 per cent of the total; on time, two or more names, 33.7 per cent; on time, single name, 19.5 per cent; and all other time loans, 20 per cent.

That the relative proportion of each class of loans is attended with very little change is evident from the accompanying comparative statement taken from the reports of dates September 23, 1908, September 1, 1909, and September 1, 1910:

#### UNITED STATES AND OTHER BONDS OWNED BY NATIONAL BANKS.

The banks' investments in United States bonds have increased from \$731,028,110 on September 1, 1909, to \$740,592,100 on September 1, 1910, a net increase of \$9,563,990. One-third of the

increase, or \$3,018,950, occurred between June 30 and September 1, 1910. Approximately 92 per cent of the government bonds held by the banks is in bonds on deposit as security for circulation and the remainder held by the Treasurer as security for deposits except the amount in the banks' vaults. On September 1, 1910, United States bonds on deposit to secure public deposits amounted to \$40,857,700 and those held in their vaults \$14,042,110. On September 1, 1909, the premium on United States bonds as shown by the banks' reports aggregated \$14,721,196.01, and had been reduced by September 1, 1910, to \$10,891,763.54.

Bonds, securities, etc., other than United States bonds, owned by the banks on September 1, 1910, aggregated \$865,054,855, less by \$51,325,445 than the amount held on September 1, 1909. Included in this class of assets on September 1, 1909, were \$17,991,758.47 bonds on deposit with the Treasurer to secure public deposits. On September 1, 1910, the amount of bonds deposited for this purpose had been reduced to \$10,927,191.01.

In connection with the possible acceptance of bonds other than governments for additional circulation under authority of the act of May 30, 1908, the following comparative statement of the aggregate amount of bonds owned by the national banks on September 1, 1909 and 1910, is of interest:

In the appendix to the report of the Comptroller of the Currency will be found a table containing details relative to investments in assets of this character by national banks located in each of the reserve cities and States.

Exchanges for clearing house, amounting to \$329,725,534.43 on September 1, 1909, increased to \$407,440,258.24 on January 31, 1910, decreased to \$305,632,471.72 on March 29, increased to \$428,654,238.28 on June 30, and decreased to \$284,962,685.13 on September 1, 1910. The net decrease during the year was \$44,762,849.30.

Bills (circulating notes) of other national banks were held to the amount of \$40,204,902 on September 1, 1909, reaching the maximum of \$44,062,832 on March 29, 1910, and declined to \$41,547,840 on September 1, 1910, which was \$1,342,938 greater than on September 1, 1909.

The banks' holdings of legal tenders vary to a comparatively slight extent only. The holdings on September 1, 1909, amounting to \$187,693,960, declined to \$172,400,153, the minimum during the

year, on January 31, 1910. At the close of business on September 1, 1910, legal-tender notes were held amounting to \$179,058,491.

The amount of gold and silver in the vaults of the banks on September 1, 1909, was \$666,397,897.38; on November 16, \$628,834,658.94; on January 31, 1910, \$660,678,716.40; on March 29, \$661,799,771.93; on June 30, \$644,343,854.77; on September 1, 1910, \$672,626,546.13. The average amount of gold held by the banks, as shown by each of the reports, was \$504,694,219, and of silver \$151,086,071 or 76.96 per cent in gold and 23.04 per cent in silver.

#### LIABILITIES OF NATIONAL BANKS.

The aggregate liabilities of national banks reached their maximum prior to the panic of 1907 on May 20 of that year, when they amounted to \$8,476,500,000, a sum not reached until May 14, 1908, when they were reported at \$8,594,600,000. Each report from that date until June 30, 1910, shows a steady and material increase, the maximum being reached on the date last mentioned, when the total was reported as \$9,896,600,000. Between this date and September 1 there was a decrease in the banks' liabilities of \$70,243,000, the decrease being mainly in individual deposits.

The liabilities of banks, exclusive of the amounts due depositors, other creditors, and holders of circulating notes, represent approximately 20 per cent of the aggregate liabilities and consist of capital, surplus, and other undivided profits. On September 1, 1909, the paid-in capital amounted to \$944,642,067, the surplus fund \$597,981,875.93, and other undivided profits \$203,756,438.40.

The capital steadily increased, as shown by each report during the year, to \$1,002,735,123.25 on September 1, 1910. This is the maximum amount of paid-in capital stock of national banks shown by any report during the existence of the system. The increase in capital was attended by approximately a corresponding increase in surplus, rising from \$597,981,725.93 on September 1, 1909, to \$648,268,369.97 on September 1, 1910. The undivided-profit account is more fluctuating and varied during the year from a minimum of \$199,342,048.39 on January 31 to a maximum of \$225,769,399.53 on September 1, 1910. The net increase in capital during the year—that is, between September 1, 1909, and September 1, 1910—was \$58,093,056.25, surplus \$50,286,449.04, and undivided profits \$22,012,961.13.

There has been relatively small fluctuation in the amount of United States deposits and deposits of United States disbursing officers during the year, though a net increase of \$1,455,617.36 is shown. These funds on September 1, 1909, amounted to \$48,704,883.27, and on September 1, 1910, to \$50,160,500.63. Bills payable reached the lowest point during the year on January 31, 1910, amounting at that time to \$27,718,183.71, and reaching the maximum, \$72,847,849.63, on September 1, 1910. The increase on the latter date, as compared with September 1, 1909, was \$36,618,871.34. The volume of notes and bills rediscounted was at its minimum and maximum on the same dates as bills payable, the extremes being \$6,356,123.10 and \$18,867,294.33. Comparing September 1, 1910, with the year prior, there is shown to have been a net increase in rediscounts of

\$4,787,122.72, and a net increase in bills payable and rediscounts of \$41,505,994.06.

The individual deposits steadily increased during the year from \$5,009,893,079.79 on September 1, 1909, to \$5,287,216,312.20 on June 30, 1910, but between the latter date and September 1 there was a decrease of \$141,557,944.55, the amount on deposit at the latter date being \$5,145,658,367.65. Comparing the returns on September, 1909, with those of September, 1910, there is shown to have been a net increase in individual deposits of \$135,765,287.96.

Prior to March 29, 1910, while the individual deposits were classified in the reports made by the banks, the details were not incorporated in the abstracts. The expressed interest in this feature of the report was an inducement to the publication of the information in detail, and there is submitted herewith the amount of each class of individual deposits on March 29, June 30, and September 1, 1910.

Beginning with the call of November 27, 1908, an effort was made to ascertain the extent to which so-called "savings deposits" are held by national banks, in view of the fact that a number of associations conduct savings departments and others carry deposits classed as "savings accounts," although not in a special department. It further appears that in savings deposits are included both time and demand certificates. The question as to what should be reported as savings deposits has been the occasion of considerable correspondence, but the conclusion was reached that it was a question to be determined by the bank upon the advice that "all deposits accepted with the understanding between the officers of the bank and the depositors that they were savings deposits" should be so reported. The same question was raised in connection with the preparation of blanks for use by the National Monetary Commission in obtaining returns from the banks under date of April 28, 1909. The schedule provided for reporting deposits included the item "savings deposits," and the latter were characterized by the commission as—

Deposits (a) which may be withdrawn on presentation of the pass book, or other similar form of receipts which permits successive deposits or withdrawals to be entered thereon; or (b) which at the option of the depository may be withdrawn only at the expiration of a stated period after notice of intention to withdraw has been given; or (c) upon which no interest is allowed until the funds have remained on deposit for at least three months.

Beginning with the call of January 31, 1910, information was submitted with respect to the number of savings depositors, in addition to the amount of savings deposits.

While the following statement, relating to the number of savings depositors from January 31 to September 1, 1910, and amount of savings deposits from September 1, 1909, to September 1, 1910, indicates an increase in the volume of savings deposits in national banks, it is a question as to whether the apparent increase was not due to fuller returns rather than to an actual increase in deposits of this character. The number of banks reporting savings deposits increased from 2,010 on September 1, 1909, to 2,852 on September 1, 1910.

The number of reported savings depositors and amount of savings deposits on the dates indicated are as follows:

#### RESERVE AND DEPOSITS.

The original law required the maintenance of a reserve on deposits in all respects, but an exception was made with respect to United States deposits in the act of May 30, 1908. In determining the amount of deposits on which reserve is required to be held there is first ascertained the net balance due to other banks, to which are added dividends unpaid, individual deposits, and deposits of United States disbursing officers. From this gross amount the following deductions are allowed: Checks on other banks in the same place, exchanges for clearing house, bills of other national banks, and amount due from the Treasurer of the United States. The resultant amount of these deductions represents the sum of the deposits upon which is based the required reserve; that is, 25 per cent for reserve city banks and 15 per cent for all other banks. The amount of the reserve being determined, there is deducted therefrom the 5 per cent redemption fund which the law authorizes to be counted as a part of the reserve. The 25 per cent reserve required by central reserve city banks must consist of lawful money in bank; in other reserve city banks at least  $12\frac{1}{2}$  per cent in bank, with a limit of  $12\frac{1}{2}$  per cent with approved agents in central reserve city banks. Banks located elsewhere than in reserve cities are required to maintain a reserve of 15 per cent, of which at least two-fifths, or 6 per cent, must be in cash in bank and three-fifths, or 9 per cent, may be on deposit with correspondents in central or other reserve city banks.

While occasionally a bank is deficient in the amount of reserve required, the aggregate requirement for all banks is rarely deficient. During the period covered by the six calls ended September 1, 1910, the central reserve city banks, on deposits aggregating \$1,500,000,000, held on four dates reserve in excess of the requirement ranging from \$2,700,000 to \$25,400,000, the maximum amount being held on September 1, 1910. On March 29, 1910, the average reserve in these banks was 24.92 per cent, a deficiency of \$1,245,567, and on

June 30, 1910, 24.96 per cent, a deficiency of \$614,823. The deposits in other reserve city banks during the same period averaged approximately \$1,700,000,000, and the percentage of reserve ranged from a minimum of 27.25 per cent on June 30, 1910, to a maximum of 29.05 per cent on September 1, 1909, the excess on the same dates being \$38,700,000 and \$69,500,000. On deposits averaging for the six calls approximately \$3,000,000,000, the country banks—that is, those located elsewhere than in reserve cities—held a reserve ranging from a minimum of 22.57 per cent on June 30, 1910, to a maximum of 24.58 per cent on September 1, 1909, the amount of reserve in excess of requirement for the same dates being \$227,800,000 and \$270,100,000, respectively, the average deposits slightly exceeding \$6,100,000,000. Based on the several calls from September 1, 1909, to September 1, 1910, for all banks in the country the reserve varied from a minimum of 24.44 per cent on June 30, 1910, to a maximum of 26.05 per cent on September 1, 1909, the excessive amount on the first date named being \$265,900,000 and on the last \$346,900,000. The foregoing percentages and excessive amounts are based on the aggregate amount of the following items: Cash on hand, due from reserve agents, and amounts held in the redemption fund. Confining the statistics with respect to reserve held to cash in bank, redemption fund, and amount available with reserve agents, the latter not exceeding 50 per cent of the net reserve required in reserve city banks and 60 per cent in country banks, the lawful reserve held by other reserve city banks exceeded the requirement on every date, ranging from a minimum of 25.27 per cent on March 29, 1910, to a maximum of 25.65 per cent on September 1, 1909. On the same basis the reserve held by country banks varied from a minimum of 16.88 per cent on September 1, 1910, to a maximum of 17.08 per cent on September 1, 1909. Taking the country as a whole, the lawful money reserve exceeded 21 per cent on the date of each call by a fraction of 1 per cent, the minimum rate being 21.21 per cent on March 29, 1910, and the maximum of 21.67 per cent on September 1, 1909.

The entire reserve required to be held by central reserve city banks is in lawful money with the exception of the redemption fund, which averages approximately one-fourth of 1 per cent. In other reserve city banks the lawful money reserve slightly exceeds 51 per cent, the amount available with reserve agents 47 per cent, and the redemption fund slightly less than 2 per cent. The reserve held in lawful money by country banks averages 45 per cent of the total reserve held, the amount available with reserve agents averaging approximately 50 per cent, and the amount in redemption fund slightly in excess of 4 per cent. Taking the country as a whole, the lawful money in bank is approximately 64 per cent of the total reserve held, amount available with reserve agents 34 per cent, and the redemption fund 2 per cent.

Aggregating the deposits subject to reserve in all national banks and the items of reserve, it appears that the actual cash in bank—that is, specie and legal tenders—averaged 13.4 per cent on the dates of the reports from September 1, 1909, to September 1, 1910. The amounts available with reserve agents averaged 7.04 per cent and the redemption fund fifty-two one-hundredths of 1 per cent.

The percentages of legal and available reserve at date of each report for each class of banks beginning with November 16, 1909, are shown in the accompanying table:

Loans and discounts, United States bonds, and lawful money represent approximately 70 per cent of the aggregate resources of national banks, and a like proportion of liabilities is represented by capital, surplus and profits, and individual deposits. The relation of these items has varied but slightly during the past ten years, as will be observed by reference to the accompanying table:

VIOLATIONS OF THE PROVISIONS OF THE NATIONAL-BANK ACT.

Subsequent to the compilation of statistics based upon reports of condition for each call, the reports are carefully examined for the purpose of ascertaining the extent to which the restrictions and limitations of the national bank act have been violated, and a record made of the number of such violations.

On June 22, 1906, section 5200 of the Revised Statutes, relating to the loan limit, was amended to permit of a loan to a single interest to the extent of 10 per cent of the capital and surplus, the aggregate, however, not to exceed in any case 30 per cent of the paid-in capital. On January 29, 1906, the number of banks reporting loans in excess of the lawful limit represented 56 per cent of the total number of banks reporting. On January 26, 1907, the percentage was reduced to 28.4, and on August 22 of that year to 20.5. Beginning with the call of February 14, 1908, and on the date of each subsequent report during that year, the percentage of violations varied from a maximum of 13.98 on September 23 to a minimum of 13.17 on November 27.

To the record relating to excessive loans has been added the percentage of banks violating the restrictions of law relating to loans on real estate, reserve, and money borrowed, beginning with February 5, 1909, and continuing to September 1, 1910, the details of which are set forth in the following table:

In July last the banks were notified that repetition of failure to forward reports of condition within the time prescribed by law would be followed by an imposition of the authorized fine of \$100 per day. Since the date in question fines have been collected for this offense from the following banks: The First National Bank of Greenwood, Miss., \$100, and the Farmers National Bank of Hamburg, Iowa, \$400.

#### AUTHORIZED AND PAID-IN CAPITAL AND CLASSIFICATION OF NATIONAL BANKS BY CAPITAL.

At the close of business on October 31, 1909, the authorized capital stock of national banking associations, as shown by the books of this bureau was \$964,621,925. Since that date there has been a gross addition of capital, by new organizations and existing banks increasing their capital, of \$82,225,010. During the same period there was a decrease in capital of \$30,949,800 by banks going into voluntary liquidation, those placed in the charge of receivers, and reductions of capital by going banks. These changes resulted in a net increase during the year of \$51,275,210, making the authorized capital of all national banks on October 31, 1910, \$1,015,897,135.

The number of banks and the paid-in capital stock of the associations, grouped by States and geographical divisions, the banks being divided according to capital stock, are shown in detail in the appendix to this report. The banks are divided into seven classes, beginning

with the minimum of \$25,000 and ending with a maximum of \$5,000,000 and over. As will be noted by reference to the following table, approximately 60 per cent of the banks are those with capital ranging from \$50,000 to \$250,000, and further that these banks represent 36.71 per cent of the capital of all banks. While slightly over one-fourth of the banks are those with capital of \$25,000, these banks represent but 4.79 per cent of the total national-bank capital. Banks with capital ranging from \$250,000 to \$25,000,000, while representing only 9.26 per cent of the total number of banks, the capital represented thereby is 57.11 per cent of the total.

This classification of number and per cent of capital of national banks is summarized in the following table:

#### NATIONAL-BANK NOTES IN CIRCULATION.

At the close of business on December 3, 1907, the reported outstanding circulating notes of national banks exceeded for the first time \$600,000,000, the exact amount on that date being \$601,805,985, equaling approximately two-thirds of the paid-in capital stock of the banks. On September 1, 1909, the liabilities of the banks on account of circulation issued reached \$658,040,356, and on June 30, 1910, the reported issues were \$675,632,565, the maximum amount reported outstanding during the existence of the national banking system. By September 1 there was a decrease of \$810,712, the issues on that date being \$674,821,853, a net increase since September 1, 1909, of \$16,781,497.

In the appendix of the report of the Comptroller of the Currency will be found a table showing the amount and percentage of circulation outstanding, the capital stock, and aggregate assets of the banks at date of each report from October, 1863, to September 1, 1910, together with the amount of money in the United States on or about June 30 of each year and the percentage of bank circulation outstanding to the stock of money in the country. From this table it appears that in 1904 for the first time since 1885 the outstanding circulation exceeded 50 per cent of the paid-in capital stock of the banks. The minimum proportion during this period was 18.4 per cent, the date being July 9, 1891. On that date circulating notes formed but 7.3 per cent of the stock of currency in the country. In the fall of 1905 bank notes in circulation exceeded slightly 60 per cent of the banks' capital, but by November, 1909, reached 70 per cent, the highest proportion since April 23, 1880. At the close of business on September 1, 1910, the percentage of circulation to capital was 67.3. From 1867 to 1874 bank notes in circulation averaged approximately 40 per cent of the stock of currency in the country, the maximum, 43.7 per cent, being reached on

June 13, 1873, declining to the minimum in the history of the system in 1891, when it represented but 7.3 per cent of the aggregate stock.

The effect of the act of March 14, 1900, authorizing an increase of circulation to par of the bonds deposited and reducing the tax on circulation is shown in the gradual increase in the percentage of national-bank circulation to the stock of money in the country from 11.3 per cent on June 29, 1900, to 19.8 per cent on September 1, 1910.

The relative amount of circulation, stated in millions of dollars, issued by national banks in New York, Chicago, and St. Louis, and other reserve cities, and elsewhere in the country, at date of each report, from November 16, 1909, is shown in the following table:

NATIONAL-BANK CIRCULATION ISSUED, REDEEMED, AND OUTSTANDING.

Beginning with the first issue of national-bank currency, on December 21, 1863, and running to October 31, 1910, national-bank notes to the amount of \$5,000,244,105 have been issued and \$4,270,992,050 redeemed, leaving outstanding, exclusive of nonpresented fractions and gold notes, \$729,252,055. During the year circulating notes to the amount of \$417,941,890 were issued. Incomplete currency ready for issue to the banks was held in the vaults of the office at the close of business October 31, 1910, to the amount of \$663,290,240. Of the \$3,465,240 of gold bank notes issued all have been redeemed with the exception of \$74,679.50. The act of July 12, 1870, authorized the organization of banks to issue circulation redeemable in gold, but within about ten years from the date of the act all of these banks were closed or converted into currency banks.

On October 31, 1910, there were two national banks in the system, each having capital of \$25,000 and bonds on deposit as security for circulation to the amount of \$6,250, that had not issued circulating notes.

It will be recalled that the act of March 14, 1900, limited the amount of \$5 notes that might be issued by any association to one-third of the total amount issuable on the security of United States bonds. This legislation required all banks issuing fives only to order plates for the printing of notes of other denominations and necessitated the ordering of plates for higher denominations by banks desiring to issue fives. On March 14, 1900, the proportion of \$5 notes outstanding was 31.2 per cent of the total issues of national-bank notes. The proportion decreased to 13.6 per cent in 1904, but reached the maximum since 1900 on October 31, 1909, when it stood at 20.05 per cent. On October 31, 1910, the percentage of fives to total circulation was 18.57 per cent.

In the following table is shown the amount of circulation of each denomination outstanding on March 14, 1900, and on October 31, 1908, 1909, and 1910:

#### REDEMPTION OF CIRCULATION.

In the year ended October 31, 1910, national-bank notes were received for redemption to the amount of \$504,151,186, of which, however, \$104,991,200, being fit for circulation, were returned to the banks of issue, and the remainder delivered by the National Bank Redemption Agency to the Comptroller of the Currency for destruction.

In the following table is shown the amount of circulation received for redemption during each month from November, 1909, to October 31, 1910:

Date.	Amount.	Date.	Amount.
November, 1909.....	\$33,253,015	May, 1910.....	\$46,299,971
December, 1909.....	43,484,347	June, 1910.....	44,894,723

April, 1910.....	45,222,008	October, 1910.....	31,268,843

As will be observed by reference to the following table, of the total receipts for redemption during the year, the sum of \$432,464,500 was received from the eight cities named. This amount represents nearly 86 per cent of the total receipts. From New York alone was received nearly 46 per cent of the total volume of notes received at the department for redemption during the year:

City.	Amount.	City.	Amount.
New York.....	\$230,886,000	St. Louis.....	\$30,285,000

Boston.....	36,900,000	Baltimore.....	11,678,000
Philadelphia.....	35,255,000	New Orleans.....	6,854,500

Expenses incurred in the redemption of national-bank notes during the fiscal year ended June 30, 1910, aggregated \$434,093.10, an average rate per thousand dollars redeemed of \$0.88066.

## PROFIT ON NATIONAL-BANK CIRCULATION.

In computing the profit on the issuance of national-bank circulation it is assumed that the entire amount based on the bond deposit is in circulation and no deduction is made by reason of the fact that a reserve fund of 5 per cent on the issues is required to be maintained in the office of the Treasurer of the United States for the redemption of notes as presented at the department, as the redemption fund is permitted by law to be counted as a part of the bank's lawful reserve. In the calculation appearing in the appendix to this report, the profit is stated, based on the average net price of bonds, monthly, during the year ended October 31, 1910, and is computed separately on deposits of 2 per cent consols of 1930, the 4 per cent loan of 1925, and the 2 per cent Panama Canal loan. Money is assumed to be worth 6 per cent and the measure of profit is the difference between the net receipts from the circulation loaned at 6 per cent and interest that would be obtained on the cost of the bonds loaned at the same rate; in other words, from the interest received on the bonds at the rate provided therein, and the interest on circulation loaned at 6 per cent, are deducted the taxes on circulation, expense incident to the obtaining of circulation, i. e., plates, redemption charges, etc., together with the sinking fund and from the difference is deducted the interest on the cost of the bonds to show the profit.

During the year in question, 2 per cent consols of 1930 ranged in price from a minimum of 100.505 on November, 1909, to a maximum of 101.24 in September, 1910, and on the same dates the profit on circulation in excess of 6 per cent on the investment was 1.387 per cent and 1.313 per cent, respectively; that is to say, on the issue of \$100,000 of circulation on the security of 2 per cent consols of 1930, at a cost of 100.505, the profit on circulation in excess of 6 per cent on the investment, was \$1,349.39, and on bonds at a cost of 101.24 the profit was \$1,329.31.

The highest average net price of 4 per cent bonds was 116.693 in November, 1909, and the rate of profit on circulation secured by bonds of that class was 1.076 per cent. The lowest price on these bonds during the year was 114.875 during May, June, and July, the rate of profit being 1.225 per cent in May, 1.220 per cent in June, and 1.215 per cent in July. The rate of profit, however, reached the maximum of 1.233 per cent when the bonds in February were quoted at 114.932. The profit on circulation secured by the Panama Canal bonds is but nominally in excess of the profit on 2 per cent consols, although in November, 1909, when the Panama Canal bonds were quoted at 100.130, the rate of profit on circulation was greater than on any other class of bonds at any time during the year, being stated at 1.426 per cent.

## UNITED STATES BONDS.

No change has taken place in the interest-bearing bonded debt of the United States since October 31, 1909, when it amounted to \$913,370,490. This debt is evidenced by \$646,250,150 two per cent consols of 1930, \$63,945,460 three per cent loan of 1908, \$118,489,900 four per cent loan of 1925, and \$84,631,980 two per cent Panama Canal loan. At the close of business on October 31, 1910, United States bonds to the amount of \$694,926,070 were on deposit with the Treasurer of the United States as security for national bank circula-

tion and \$38,137,200 as security for public deposits. On September 1, the date of the last report of condition, the banks held in their vaults United States bonds to the additional amount of \$14,042,110, making an aggregate investment by national banks in government securities of \$747,104,380, or nearly 82 per cent of the bonded debt of the Government. Of the \$733,062,270 United States bonds on deposit as security for circulation and public deposits, \$687,735,780, or approximately 94 per cent, are consols of 1930 and Panama Canal bonds bearing interest at the rate of 2 per cent.

The bonded debt, together with the amount of United States bonds on deposit to secure national-bank circulation and government deposits, including other bonds for the latter purpose, on October 31, 1910, are shown by classes and amounts in the following table:

In connection with the bonded debt of the Government, and the investment therein by national banks, the following statement, based upon conditions at the close of each month from November 30, 1909, to October 31, 1910, will be examined with interest. In addition to the statistics in the table relating to capital, bonds, and circulation, there is shown the average monthly price of 2 per cent consols of 1930.

## EARNINGS AND DIVIDENDS OF NATIONAL BANKS.

While the dividend periods of national banks vary, and under the law reports of earnings and dividends are required to be made to the Comptroller within ten days after the declaration of dividends, for statistical purposes the reports are abstracted for semiannual periods ending December 31 and June 30. In the appendix to this report appear the abstracts, by reserve cities and States, for the periods ended December 31, 1909, and June 30, 1910. Combining these two abstracts, for the purpose of showing results for the entire year, it appears that the average capital on which dividends were paid was \$963,457,549. The average surplus was \$630,159,719 and the gross earnings \$402,665,823.44, against which were charged losses and premiums aggregating \$38,714,082.62, or 9.6 per cent, and expenses of \$209,784,251.35, or 52.18 per cent. With these deductions the net earnings are shown to have been \$154,167,489.47, from which dividends were paid to the amount of \$105,898,622, or 10.99 per cent on the capital and 6.65 per cent on the capital and surplus. The net earnings were equivalent to 9.67 per cent of the capital and surplus.

The act requiring the submission of reports of earnings and dividends was not passed until 1869; hence the records begin with the year ended March 1, 1870, continuing to June 30, 1910, a period of forty-one years. The average annual net earnings of banks during this period are shown to have been \$71,956,096 and the average dividends \$54,198,299, or an average rate of 8.98 per cent on the capital stock. The aggregate net earnings for the forty-one years are stated at \$2,950,199,928 and the dividends at \$2,222,130,367.

## EXPENSES OF NATIONAL BANKS.

Exclusive of the tax levied and collected by the Commissioner of Internal Revenue under the corporation tax law of August 5, 1909, statistics relative thereto in respect to national and other banks being unavailable, national banks paid to the Government during the fiscal year ended June 30, 1910, the sum of \$4,494,223.81, of which \$3,463,466.68 was the amount of tax on circulating notes, \$434,093.10 cost of redemption of notes by the Treasurer of the United States, \$524,039.03 examiners' fees, and \$72,625 cost of plates for the printing of circulation for new banks and for those the charters of which have been extended.

The banks were taxed on their capital and deposits up to June 1, 1883, and on capital for the period the war revenue act of 1898 was in force. The aggregate taxes paid on capital, surplus, and deposits were \$75,844,367.90. The tax on circulation from 1863 to June 30, 1910, amounted to \$111,281,797.76, making the aggregate tax paid to the Government by national banks on the items mentioned \$187,126,165.66. The cost of redemption of national-bank notes from 1874, the date of the establishment of the national bank redemption agency, to June 30, 1910, is shown to have been \$6,797,285.79. From 1883 to 1910 examiners' fees aggregated \$6,983,795.02 and the cost of plates for new and extended banks from 1883 to 1910 was \$1,244,155. Combining these various expenditures it appears that the national banks have paid to the Government the sum of \$202,151,401.47, of which 92½ per cent represents the tax paid on capital, and deposits.

From the date of the organization of the Currency Bureau to June 30, 1910, the total expenses of the office are stated at \$13,277,537.34. This amount, however, does not include contingent expenses of the bureau not paid by the Comptroller, but from the general appropriation for contingent expenses of the Treasury Department. No separate account of these contingent expenses has been kept, but assuming that they equaled the amount specifically appropriated for the expenses of the bureau the aggregate would be only approximately \$26,500,000, or about 14 per cent of the receipts from the banks on account of tax on circulation, capital, and deposits.

#### ORGANIZATION OF NATIONAL BANKS.

Under section 5133 of the Revised Statutes the organization of national banking associations by any number of persons, not less than five, is authorized. This section provides that the incorporators shall enter into articles of association specifying in general terms the object for which the association is formed and a copy thereof forwarded to the Comptroller to be filed and preserved in his office. The following section provides for the execution of an organization certificate by those who have entered into articles of association. This certificate is required to be acknowledged before a judge of some court of record or a notary public and transmitted to the Comptroller. When these documents have been filed with the Comptroller the association becomes a body corporate, but with powers limited to transaction of business incidental to organization until the issuance of the Comptroller's certificate authorizing the association to begin the business of banking. The law further requires the collection and certification of payment of at least 50 per cent of the authorized capital stock and the deposit of a specified amount of United States registered interest-bearing bonds, and authorizes an examination for the purpose of determining the amount of money paid in on account of capital stock and whether all requirements of law in relation to organization have been met.

As the law, however, specifically confers upon the Comptroller discretion with respect to approval of the name selected for an association, the course of procedure under the established rules of the office is to require the submission of a formal application for authority to organize an association wherein is stated the title desired, location of the bank, the capital stock, the signatures of the applicants given, accompanied by advice in regard to the business and financial standing of the applicants, number of shares to be subscribed for, and the previous banking experience, if any, of the applicants. Indorsements are required with respect to the character and standing of the applicants, the population of the place at which it is proposed to organize the bank, and an expression of opinion with respect to prospects of success of the association if chartered and conservatively managed.

Prior to the disposition of an application a copy thereof is sent to the national-bank examiner, to the Member in Congress for the district in which the bank is to be located, and to the superintendent of the state banking department, with request for information with respect to the character and standing of the applicants, the exist-

demand for a bank at the locality, and an expression of opinion as to whether success is probable.

Applications for authority to convert state banks into national banking associations are made by the directors, and each case of this character is investigated for the purpose of determining whether the bank has been conducted in conformity with law, its measure of success, and also as to the character of its assets and general business.

In view of the fact that bank stock is generally regarded as a very desirable investment the organization of banks, both national and state, has been very active during recent years, and it has been shown to be evident to both federal and state authorities that many banking institutions are organized, or organization attempted, without giving due consideration to their demand or their prospects of success. As far as possible the state authorities are now acting in harmony with the Comptroller in the upbuilding of banking conditions by preventing the organization of banks where the demand therefor is not apparent or where organization is attempted by those whose character and standing are questionable.

During the year ended October 31, 1910, 425 applications were received for authority to organize national banks, including applications to convert state banking institutions. Approval was granted in 315 cases and there were 74 rejections, the cause of the latter being, first, existence of ample banking facilities at the place; second, population and business too limited to warrant success; third, character of the applicants and of others interested. Rejections of applications to convert were based, primarily, upon information received to the effect that the management had been neither in conformity with law nor successful.

Charters were issued during the year to 311 associations having aggregate authorized capital stock of \$30,760,000, and from the date of the passage of the national-bank act in 1863 to October 31, 1910, charters to the number of 9,883 were granted. At the close of the current year 7,218 banks were in active operation, 2,176 having been placed in voluntary liquidation and 489 in the charge of receivers for liquidation of their business in the interest of depositors and other creditors. Included in the total number of charters granted were 1,571 to institutions which were conversions of state banks. The capital of these converted banks at date of entrance into the national-banking system was \$330,665,928.

Under the provisions of the act of March 14, 1900, national banks to the number of 2,953, with aggregate capital of \$76,930,500, were organized, the average capital being approximately \$26,000. Since the date of the act in question, 1,666 banks were organized under the law of 1864, their aggregate capital being \$214,912,800 and the individual capital \$50,000 or more. It further appears that 652 of the banks chartered in this period were conversions of state banks, their capital being \$51,445,800; 1,403 reorganizations of state or private banks, with aggregate capital of \$93,987,000; and 2,564 primary organizations, the capital represented being \$146,410,500. The total number of banks organized from March 14, 1900, to the end of the current year was 4,619 with aggregate capital of \$291,843,300, exceeding by 1,002 the number of banks in active operation on March 14, 1900. The average number of banks organized monthly from March 14, 1900, to October 31, 1907, was approximately 40; the average in 1908, 27; in 1909, 25; and in 1910, 26.

The classification and distribution, by States and geographical divisions, of national banks organized since the date of the passage of the act of 1900 are shown in the following table:

#### EXTENSION OF CHARTERS.

The act of July 12, 1882, authorizes the extension of corporate existence of a national banking association, upon the written consent of shareholders representing at least two-thirds of the stock. This written consent in the form of an amendment of the articles of association is required to be filed with the Comptroller at any time within two years prior to the expiration of the corporate life of a bank. When the amendment is filed and found to be in conformity with law, a special examination is required for the purpose of ascertaining whether the bank is in a condition warranting extension. In 1902 a large number of banks had reached the end of their extended existence, and on April 12 of that year extension for a further period of twenty years was authorized by Congress, the course of procedure being practically the same as in the case of first extension. Under each act every national bank, the charter of which is extended, is required, if circulation is to be issued, to order and pay for a plate for the printing of notes of a design materially different from that theretofore employed, and within three years from date of extension to deposit lawful money to provide for the redemption of all circulation then outstanding that was issued prior to the extension of the charter. This latter requirement is regarded as placing an unnecessary burden upon the banks and in the Comptroller's recommendation to the National Monetary Commission relating to amendments of the national bank act the repeal of this provision was suggested.

Extensions of charter, under the act of 1882, have been granted to 2,979 banks, and under the act of 1902 to 993 banks. During the year ended October 31 the charters of 184 banks were extended for the first time and 24 for the second. In the year 1911 the charters of 110 banks will expire and may be extended under the act of 1882 and 73 under the act of 1902. In the appendix to this report will be found a list of all banks the charters of which will expire during the year ending October 31, 1911, and which may be extended under the acts in question.

In connection with extensions of charter under the act of 1882 a number of banks the corporate existence of which expired prior thereto were compelled to liquidate and reorganize. Authority was contained in the act of July 12, 1882, to reorganize under the same title on condition that holders of stock in the expiring association should be entitled to preference in the allotment of shares of the new

association in proportion to the number of shares held by them, respectively, in the association the corporate existence of which had expired, but the office held at that time that authority to reorganize under the identical title did not carry with it the right to retain the original charter number. Prior to the passage of the act of 1902 authorizing second extensions of charter a number of banks organized in 1863, the charters of which expired prior to July 12, 1882, applied for and received authority, upon extension, to resume their original charter numbers. The first bank to receive this favorable consideration was The First National Bank of Philadelphia, which was the first national banking association to be chartered. The other banks that have been accorded the same consideration are the following, with their original charter numbers:

No.	Title.	No.	Title.
2	The First National Bank of New Haven, Conn.	17	The First National Bank of Richmond, Ind.
3	The First National Bank of Youngstown, Ohio.	19	The First National Bank of Portsmouth, N. H.
5	The First National Bank of Fremont, Ohio.	43	The First National Bank of Salem, Ohio.
7	The First National Bank of Cleveland, Ohio.	48	The First National Bank of Pittsburg, Pa.
11	The First National Bank of Fort Wayne, Ind.	59	The First National Bank of Troy, Ohio.

## VOLUNTARY LIQUIDATIONS.

Under section 5220 of the Revised Statutes a national banking association may be placed in voluntary liquidation at any time prior to the expiration of its corporate existence, under authority therefor of a resolution adopted by shareholders representing at least two-thirds of the capital stock. During the current year 115 associations, with \$29,123,500 capital stock, were closed voluntarily, of which 15, with capital of \$3,350,000, were absorbed by other national banking associations; 25, with capital of \$18,422,500, were consolidated with other national banking associations; 20, with capital of \$1,355,000, were absorbed by state banks and trust companies; 23, with capital of \$1,230,000, liquidated to reorganize as state institutions; 10, with capital of \$3,350,000, liquidated to reorganize as other national banking associations; 3, with capital of \$175,000, the corporate existence of which expired by limitation, were succeeded by new national banking associations; 1, with capital of \$100,000, the corporate existence of which expired by limitation, was absorbed by another national banking association; and 18, with capital of \$1,141,000, closed to discontinue business. The following is a list of banks placed in voluntary liquidation during the year ended October 31, 1910, the names, where known, of succeeding banks, in cases of succession, being also given.

CLEARING-HOUSE TRANSACTIONS.

From Manager William Sherer of the New York Clearing House returns have been obtained in relation to the exchanges of clearing houses of the United States for the year ended September 30, 1910, compared in each instance with the returns for September 30, 1909. The number of exchanges relative to which data are submitted is 137, the volume of their business as represented by the exchanges for the current year being \$169,025,172,600, as compared with \$158,877,192,100 for 1909. With the exception of Cincinnati, Ohio, Houston, Tex., Greensburg, Pa., Fremont, Nebr., Franklin, Pa., Colorado Springs, Colo., and Vicksburg, Miss., a larger volume of business was transacted than during the prior year. The reduction of business in the cities named aggregated \$58,261,200, resulting in a net increase of all associations during the year of \$10,147,980,500.

The exchanges of New York Clearing House Association represent approximately 60 per cent of the clearings of all associations in the country and in the current year reached \$102,553,959,100, an amount exceeding by \$3,296,296,700 the business for the year 1909, and was within \$1,200,140,901 of the maximum amount during the life of the New York Clearing House Association. The highest point was reached in the year ended September 30, 1906, and amounted to \$103,754,100,091. The membership of the New York association consists of 50 banks with aggregate capital of \$132,350,000.

The amount of balances used in the settlement of exchanges of the New York Clearing House in the last year was \$4,195,293,966.90, or 4.09 per cent of the exchanges. Gold to the extent of 88 per cent and legal tenders amounting to 12 per cent were used in settlement of balances. The clearing-house transactions of the assistant treasurer of the United States at New York for the year ended September 30, 1910, aggregate \$669,854,495.25, of which \$659,698,079.21 were exchanges received from the clearing house and \$10,156,416.04 balances received. During the same period exchanges delivered to the clearing house aggregated \$419,538,712.71, and the balances paid to the clearing house \$250,315,782.54.

## UNITED STATES POSTAL SAVINGS LAW.

The act of Congress, approved June 25, 1910, authorizes the establishment of postal savings depository offices and creates a board of trustees, consisting of the Postmaster-General, the Secretary of the Treasury, and the Attorney-General, severally, acting ex officio, with power to designate such post-offices as it may select to be postal savings depository offices. This board has control, supervision, and administration of all postal savings offices and of the funds deposited therein by virtue of this act, and has authority to make all necessary and proper regulations for the receipt, transmittal, custody, deposit, investment, and repayment of such funds.

Any person, of the age of 10 years or over, may open an account, in his or her own name, in any postal savings depository, but no person can have more than one such account in his or her own right. Deposit accounts may be opened in the following ways: First, by the deposit of \$1 or a larger amount in multiples thereof; second, by purchasing for 10 cents a postal savings card and attaching thereto 10-cent postal savings stamps and depositing the card and stamps in the amount of \$1, or any multiple thereof.

Additional deposits may be made in cash in amounts of \$1 or multiples thereof, or by card and 10-cent stamps in corresponding amounts, but no person is permitted to deposit more than \$100 in any one calendar month, and the balance to the credit of any person can never exceed \$500.

Interest at the rate of 2 per cent per annum will be allowed on all deposits, and any person may withdraw the whole or any part of his or her deposit, with accrued interest, upon demand and under such regulations as the board of trustees may prescribe.

Of the postal savings bank funds, 5 per cent shall be deposited as a reserve with the Treasurer of the United States, who is the treasurer of the board of trustees. The remaining funds may be deposited in national or state banks at a rate of interest of not less than  $2\frac{1}{4}$  per cent, and on the security of such public bonds or other securities supported by the taxing power as the board may approve. Not exceeding 30 per cent of the total funds may be used by the board in the purchase of bonds or other securities of the United States, except that by the direction of the President and only when in his judgment the general welfare and the interests of the United States so require the remaining 65 per cent may be withdrawn from the banks for investment in bonds or other securities of the United States.

Postal savings funds shall be deposited in solvent banks, whether organized under national or state laws, and subject to national or state supervision and examination, in operation at the locality of the postal savings depository office, if they are willing to accept the deposit, but the total deposit in any bank shall not exceed its capital and one-half of its surplus. In the absence of any bank in the locality fulfilling the requirements of the act and willing to accept the deposit, the money shall be deposited in the bank most convenient to such locality, and in the event there is no such bank in the State or Territory willing to receive the funds, then they shall be placed in the reserve fund with the treasurer of the board. Any deposit with a bank may be withdrawn at the pleasure of the board.

Provision is made in the act for the conversion, under certain conditions, of deposits in postal savings depositories in the amount of \$20 or multiple thereof, into bonds of the United States bearing interest at the rate of  $2\frac{1}{2}$  per cent, payable semiannually.

The faith of the United States is pledged to the payment of any deposit made in postal savings depository offices.

The trustees are engaged in the formation of plans in detail for the administration and operation of postal savings depositories and it is expected that the designated offices will be ready for the receipt of deposits by the first of the new year.

The following is a list of post-offices, so far designated, as postal savings depositories:

#### NATIONAL CURRENCY ASSOCIATIONS.

In the annual report of the Comptroller of the Currency for 1908 the salient provisions were published of the act of May 30, 1908, providing for the formation of national currency associations and the issue of additional national-bank currency.

Under this act national currency associations may be formed by any number of national banks, not less than 10, with aggregate capital and surplus of at least \$5,000,000, and located in contiguous territory. No national bank, however, may be a member of a currency association unless it has an unimpaired capital and a surplus amounting to at least 20 per cent of its capital. It is further provided that to be entitled to issue additional currency a national bank, a member of a currency association, shall have circulation outstanding, secured by United States bonds, aggregating not less than 40 per cent of the capital stock. Additional circulation provided by this act may only be issued upon the recommendation of the Comptroller and approval of the Secretary of the Treasury. The maximum circulation issuable by a bank on United States bonds, and under authority of the act of May 30, 1908, is measured by the capital and surplus of the bank.

The officers of a currency association, on behalf of one of the bank members, may apply for authority to issue additional circulation to an amount not exceeding 75 per cent of the cash value of the securities or commercial paper deposited with the association, and upon deposit of state, city, town, county, or other municipal bonds of the character prescribed by the act may obtain for issue circulating notes to the extent of 90 per cent of the market value of the bonds deposited. The issue of additional circulation on commercial paper, however, is limited to 30 per cent of the unimpaired capital and surplus.

The act contemplates that no additional circulation shall be permitted to be issued unless, in the judgment of the Secretary of the Treasury, conditions in the country at large, or in a special locality, warrant such action, and under section 8 of the act it is made the duty of the Secretary of the Treasury to obtain information with reference to the value and character of securities authorized to be accepted, and from time to time to furnish information to national-banking associations as to such securities as would be acceptable under the provisions of the act.

The act further provides for an issue of circulating notes and the incorporation of the statement upon their face that "they are secured by United States bonds or other securities," certified by the written or engraved signatures of the Treasurer and Register and by the imprint of the seal of the Treasury. They shall also express upon their face the promise of the association receiving the same to pay on demand, attested by the signature of the president or vice-president and cashier. Under this requirement, circulation has been prepared for every national banking association, and there is stored in the reserve vault of the bureau a stock of incomplete currency amounting to \$500,000,000. So far, no circulating notes, other than those secured by United States bonds, have been issued, but all incomplete currency shipped to a bank bears the legend quoted.

On June 30, 1910, the number of national banks reporting was 7,145, with paid-in capital of \$989,567,114 and surplus of \$644,857,482.82. Of these banks, 5,699 had circulation secured by United States bonds equal to or exceeding 40 per cent of the capital, and 1,415 circulation less than that proportion.

In less than thirty days after the passage of the emergency-currency act a national currency association was formed in the District of Columbia, of which all of the 11 banks in the District were members. The aggregate capital and surplus of the banks at that time were \$5,202,000 and \$3,942,000, respectively. The president of the association is Mr. William J. Flather of the Riggs National Bank of Washington, and the secretary, Mr. H. H. McKee, of the National Capital Bank of Washington.

On September 1, 1910, there were 12 national banks in the District of Columbia, having capital of \$6,052,000 and surplus of \$4,450,645.

While the formation of other currency associations was undertaken, none was perfected in a manner acceptable to the Secretary of the Treasury until the midsummer of 1910, by reason of what were regarded as insurmountable obstacles on the part of banks interested. These obstacles, however, were in a large measure overcome by a revised construction of the law.

Under date of September 16, 1910, the following rulings of the Treasury Department in regard to certain sections and phrases concerning the issue of additional circulation were approved:

#### I. WITHDRAWAL OF A BANK FROM A CURRENCY ASSOCIATION.

Any member of an association may withdraw therefrom providing—

1. That at the time of such withdrawal there shall be no unredeemed additional circulating notes issued to the association;
2. That the unanimous consent of the executive committee of the board of managers of the association shall be obtained; and
3. That the Secretary of the Treasury of the United States shall approve.

#### II. REDEMPTION FUND FOR ADDITIONAL CIRCULATION.

Section 3 of the act of June 20, 1874, provides that a national bank must keep on deposit in the Treasury of the United States a sum equal to 5 per centum of such circulation as is provided for in that act. Section 6 of the act of May 30, 1908, provides that the banks shall keep on deposit in the Treasury of the United States an additional sum equal to 5 per centum of such *additional* circulation at any time outstanding. The department is of the opinion that the redemption fund to be deposited in the Treasury on account of additional circulation authorized by the act is not required to exceed 5 per centum of such additional circulation, and that Congress intended only to extend to the additional currency the original provisions for a 5 per cent redemption fund hitherto provided for the ordinary bond-secured circulation.

#### III. EXTENT OF TERRITORY TO BE COMPREHENDED BY A CURRENCY ASSOCIATION.

In regard to the extent of territory to be comprehended by a currency association, attention is called to the following provisions of the act of May 30, 1908:

1. That there shall not be more than one such association formed in any city.
2. That the member banks "shall be taken, as nearly as conveniently may be, from a territory composed of a State or part of a State, or contiguous parts of one or more States."

3. "That any national bank in such city or territory, \* \* \* shall, upon its application to and upon the approval of the Secretary of the Treasury, be admitted to membership in a national currency association for that city or territory," \* \* \*

These provisions are construed to mean (1) that the territory to be included in the currency association of a particular city must be at least coextensive with the limits of the city, and (2) that if the territory to be covered by an association has been fixed in the approved by-laws, all banks within that territory must, if properly qualified, be admitted to membership. In other words, if the by-laws stated that the membership in an association shall be composed of banks doing a business within a State, no national bank within the State would be excluded from membership, provided that it was otherwise qualified. On the other hand, if the by-laws limited membership to banks doing a business within a county, then only the national banks in that county would expect to attain membership.

#### IV. SECURITY FOR ADDITIONAL CIRCULATION.

Section 1 provides that the national currency associations may use as a basis for additional circulation "any securities, including commercial paper, held by a national banking association." The term "commercial paper" is thereafter defined to include "only notes representing actual commercial transactions, which when accepted by the association shall bear the names of at least two responsible parties and have not exceeding four months to run." These requirements will be satisfactorily met by single-name paper arising from actual commercial transactions if indorsed by the bank desiring additional currency.

Section 3 permits the issue of additional notes on the security of bonds of a municipality or district in the United States "whose net funded indebtedness does not exceed 10 per centum of the valuation of its taxable property, to be ascertained by the last preceding valuation of property for the assessment of taxes."

(1) The phrase "net funded indebtedness" is held to mean the entire bonded debt of a municipality, less any bonds not yet sold, or any bonds repurchased and not canceled, as for sinking fund account.

(2) The phrase "valuation of its taxable property" is construed to mean the valuation of taxable property as estimated by the assessor. Where the law prescribes that the assessors shall estimate the value of all property subject to taxation at its actual value, and that the taxes shall be assessed at a fraction of such value, the valuation of taxable property is understood to mean the actual valuation as estimated by the assessors. Where, however, the law makes no distinctions between actual and taxable value of property, the "valuation of taxable property" is construed to mean the taxable value upon which the actual taxes are levied.

A. PIATT ANDREW,  
*Acting Secretary.*

Prior to the announcement of these rulings a national currency association was formed in the city of Philadelphia, with a membership of 28 banks; capital stock \$20,825,000 and surplus \$33,075,000. The date of the organization of this association was July 29. The president of the association is Mr. Levi L. Rue, of the Philadelphia National Bank, and the secretary, Mr. H. W. Lewis, of the Farmers and Mechanics National Bank.

The number of national banks in Philadelphia on September 1, 1910, was 33, with a capital of \$22,405,000 and surplus of \$35,515,000.

On the same date of formation of the Philadelphia association 35 of the national banks in the city of New York organized "The National Currency Association of the City of New York," the capital of the banks represented being \$115,252,000 and surplus \$122,295,000.

On September 1 there were 39 national banks in the city of New York, with aggregate capital of \$119,900,000 and surplus of \$125,055,000. The officers of the New York association are: President, A. B. Hepburn, of the Chase National, and secretary, Edward Townsend, of the Importers and Traders National Bank.

On August 4 the National Currency Association of the State of Louisiana was formed, with a membership of 10 and with capital of \$6,100,000 and surplus \$3,840,000. All of the national banks in New Orleans are members of the association, together with 5 located elsewhere in the State. The total number of national banks in New Orleans and elsewhere in Louisiana on September 1 was 31, with capital of \$8,070,000 and surplus of \$4,957,365. The officers of the Louisiana association are: President, Charles Godechaux, of the Whitney Central National Bank of New Orleans, and secretary, A. Breton, of the German American National Bank of New Orleans.

The National Currency Association of the city of Boston was organized August 16, with a membership of 15, representing a capital of \$18,450,000 and surplus of \$15,650,000. The officers of the association are: President, Thomas P. Beall, of the Second National Bank of Boston, and secretary, A. W. Newell, of the Fourth National Bank. The capital and surplus of the 20 national banks in Boston on September 1 were \$22,950,000 and \$18,050,000, respectively.

On August 18 the National Currency Association of Georgia was formed. The membership of this association is 21, representing capital of \$6,356,000 and surplus of \$4,867,000. The officers of the association are: President, Robert J. Lowry, of the Lowry National Bank of Atlanta, and secretary, Joseph A. McCord, of the Third National Bank of Atlanta. The reserve city of Savannah has 1 representative in the association, the remaining members being non-reserve city banks.

On September 1 there were 113 national banks in the State of Georgia, with capital of \$13,253,580 and surplus of \$7,070,736.

The National Currency Association of St. Louis was formed on September 13, with a membership of 11, the capital and surplus of the banks represented being \$19,660,000 and \$12,145,000, respectively. But 7 of the 10 national banks in St. Louis are members of this association, the remaining members being banks located in towns adjacent to that city. The president of this association is C. H. Huttig, of the Third National, and the secretary, Wm. H. Hoxton, of the St. Louis Clearing House Association.

The National Currency Association of the City of Chicago was organized on October 14, with a membership of 11; capital \$41,250,000 and surplus \$22,350,000. The president of the association is George M. Reynolds, of the Continental and Commercial National Bank, and the secretary, William A. Heath, of the Live Stock Exchange National Bank. Every national bank in Chicago is a member of this association.

The capital and surplus of the 11 national banks in Chicago on September 1 were \$41,400,000 and \$22,188,000, respectively.

On October 31, 1910, the National Currency Association of The Twin Cities (St. Paul and Minneapolis, Minn.) was organized, with 14 members, representing \$10,650,000 capital and \$9,005,000 surplus. The membership of this association consists of all the national banks in St. Paul, 3 in Minneapolis, and 5 in other towns of that locality. The president of this association is J. W. Lusk, of the National German American Bank of St. Paul, and secretary, George C. Power, of the Second National Bank of St. Paul.

The National Currency Association of the city of Detroit was organized on September 27 with a membership of sixteen, the capital of the bank members being \$6,725,000 and their surplus \$2,940,000. All of the national banks in Detroit (4 in number), their capital and surplus being \$5,150,000 and \$1,850,000, respectively, are members of this association. The remaining members are banks located in other cities of the State adjacent to Detroit. The president of the association is Mr. John T. Shaw, of the First National Bank of Detroit, and the secretary, Mr. Richard P. Joy, of the National Bank of Commerce, of Detroit.

As of interest to others having in view the formation of national currency associations, there is submitted herewith a copy of the by-laws of the National Currency Association of the City of New York:

#### ARTICLE I.—MEMBERSHIP.

SECTION 1. Membership in this association shall consist of national banks doing a business within the boroughs of Manhattan, the Bronx, Queens, Brooklyn, and Richmond, of the city of New York, and Long Island.

SEC. 2. All applications for membership shall be in the form of a certified copy of a resolution of the directors of the applicant, filed with the secretary of the association. Such applications shall by him be referred at once to the committee on membership. The report of the committee on membership shall be presented to the board and shall be submitted to the Secretary of the Treasury of the United States with the recommendation of the board, and if approved by him the applicant shall thereupon become a member of the association.

SEC. 3. Any member of this association may withdraw therefrom, with the approval of the Secretary of the Treasury of the United States and the consent of the executive committee of the board of managers of the association, providing at the time of such withdrawal there shall be no unredeemed additional circulating notes issued to this association.

## ARTICLE II.—BOARD OF MANAGERS.

SECTION 1. Each member of this association shall file with the secretary of the association and with the Secretary of the Treasury a certified copy of a resolution of its board of directors, authorizing its president or any vice-president to act on the board as its representative, but no bank shall have more than one representative upon such board at any one time.

SEC. 2. (a) The annual meeting of the board shall be held at the office of the association on the second Tuesday of June in each year, for the purpose of receiving reports of officers and committees for the preceding year and for the election of officers and the appointment of committees for the ensuing year.

(b) Special meetings of the board may be called at any time by the executive committee or the president, or vice-president, and shall be called by the president, vice-president, or secretary upon the request of five members of the association.

(c) Notice of each special meeting, stating the time and place, shall be given by the secretary to each member of the association.

SEC. 3. A majority of the members of the board shall be necessary to constitute a quorum, but a less number may adjourn from time to time.

## ARTICLE III.—EXPENSES OF THE ASSOCIATION.

SECTION 1. The expenses of the association shall be defrayed out of a fund to be raised by the board or executive committee from time to time by assessment upon the members in the proportion which their capital and surplus respectively bears to the aggregate capital and surplus of all the members of the association.

SEC. 2. The assessment and collection of such fund and its disbursement shall be regulated and controlled by the board or the executive committee.

## ARTICLE IV.—COMMITTEES.

SECTION 1. There shall be an executive committee, consisting of seven members of the board, of which the president and vice-president of the association shall be two members *ex officio*. The executive committee shall be appointed by the board at its annual meeting, and except in the matter of the election of officers and the making of by-laws, may exercise all the powers of the board when the latter is not in session, and shall, among other duties, pass upon all securities, including commercial paper, offered as a basis for additional circulation. Vacancies in the executive committee may be filled by the board from time to time.

SEC. 2. There shall be a committee on membership, consisting of five members of the board, of which the secretary shall be a member *ex officio*, appointed by the board at its regular annual meeting. Vacancies in this committee shall be filled by the board. The powers and duties of the committee on membership shall be such as are in these by-laws defined, with such additional powers and duties as may be conferred from time to time by the board or the executive committee.

SEC. 3. There shall be a committee on nominations, consisting of five members of the board, to be appointed by the board or executive committee in advance of each annual meeting. It shall be the duty of the committee on nominations to present to the annual meeting of the board names for president, vice-president, secretary, and treasurer, and members of the executive and membership committees. Vacancies in such committees shall be filled by the board or by the executive committee.

## ARTICLE V.—OFFICERS.

SECTION 1. The officers of the association shall be a president, vice-president, secretary, and treasurer, each of whom shall be elected by the board at its annual meeting and each of whom shall be a member of the board and hold office for one year, or until his successor is appointed.

SEC. 2. The officers shall perform the duties usually pertaining to their respective offices, subject to the supervision and direction of the board and executive committee.

## ARTICLE VI.—SEAL.

SECTION 1. The seal of the association shall be circular in form, with the name of the association around the circumference thereof, and the word "Seal" and the figures "1910" in the center thereof.

## ARTICLE VII.—AMENDMENTS.

SECTION 1. These by-laws may be amended by the board at any regular or special meeting, provided written notice of the proposed amendment has been given to each member of the association at least one week in advance of such meeting, subject to the approval of the Secretary of the Treasury of the United States.

## APPLICATIONS FOR ADDITIONAL CIRCULATION.

## BANKS AND BANKING IN THE UNITED STATES.

The act of February 19, 1873, relating to the annual report of the Comptroller of the Currency contained a provision for the incorporation therein of information relative to the resources, liabilities, and condition of banks, banking companies, and savings banks organized under the laws of the several States and Territories, the information to be obtained from reports made by such institutions to the legislature or officers of the different States and where such reports can not be obtained the deficiency to be supplied from such other authentic sources as may be available. In reference to this requirement, the Comptroller in his report for 1873 stated that the deficiency of official reports is shown by the fact that he had been able to obtain information in respect of the condition of banking institutions in only 8 of the 37 States in the Union and the District of Columbia, and none at all from the 9 Territories. The available returns consisted of reports from the New England States, New York, New Jersey, and the District of Columbia. In the statements compiled from the returns the number of reporting institutions is not given, but it appears that the deposits in savings banks were \$669,324,917 and the aggregate assets of these institutions \$701,229,392. The number of depositor accounts was 1,109,995 and the average amount to the credit of each depositor in the savings banks in the New England States was \$315.73. The returns from the state banks, including savings banks having capital stock, stated capital aggregating \$42,705,834, deposits \$110,754,034, and aggregate resources of \$178,881,407.

The report of the Comptroller for 1876 contained what was regarded as the most complete history of the condition of banks in the United States from the foundation of the Government to that date. Included in the general history were statistics based upon information for the year covered by the report. Returns were received from 686 savings banks located in 12 States of the Union, the aggregate deposits amounting to \$892,785,553 and the aggregate assets to \$951,353,544. The number of depositors in institutions of this character was stated at 2,414,952, and the average deposit account \$369.69. Trust companies were in operation in 6 of the States and the capital of the 38 reporting institutions of this character was stated at \$21,535,490, deposits \$87,817,992, and aggregate assets \$127,646,179. Reports were also received from 633 state (commercial) banks having capital of \$80,425,634, deposits \$157,928,658, and aggregate assets of \$278,255,852. The number of all state institutions reporting in 1876 was 1,357, the capital stock \$101,961,124, deposits \$1,138,532,203, the total amount of assets \$1,357,255,575.

Prior to 1887 the office depended for official returns upon the various state banking departments, or other state officials having supervision over state banks and their returns, and to a limited extent upon information from managers of the clearing houses. In 1887, by reason of the fact that from many of the States it was impossible to obtain information in relation to the condition of banks therein the Comptroller inaugurated the plan of making a personal request for a report of condition from every bank located in such States. This plan has been pursued up to the present time, but the inquiries are now con-

fined, with a few exceptions to private banks and bankers doing business in States the laws of which do not require reports to be made by them to any public official.

While the annual reports of the Comptroller have contained statistics relating to the various classes of State banking institutions relative from which reports were obtainable their value has been materially affected by reason of the lack of uniformity in dates of reports and in the classification of items of resources and liabilities.

Some two years since a committee of state bank superintendents formulated a plan for adoption by the state banking authorities generally providing for uniformity of bank reports and at the same time the question was considered of attempting to secure amendments to the state banking laws, where necessary, authorizing the superintendents of state banking departments to arrange for simultaneous reports from all banks in each State. To a limited extent, this authority exists and in a number of States reports are called for to time with one or more calls during each year made upon national banks by the Comptroller of the Currency.

For some years past it has been the custom of the Comptroller, when he issues a call for reports from national banks to telegraph the advice to all state banking superintendents who desire the information, in order, if they deem it expedient, that they may call for reports from banks subject to their supervision for the same date. When these joint calls are made, however, there is no authentic assembling of the returns except when required by the Comptroller for his annual report to Congress. For years prior to 1909 the Comptroller secured information relative to the condition of banks other than national for his annual report from returns on the date of or nearest to that of his midsummer call on national banks and necessarily the returns covered a wide range of time. Frequently the latest obtainable data for banks in certain States related to conditions six to nine months previous to the selected date.

As the banking and other interests look to the Comptroller for statistical and general information relating to banking, and to enable him to satisfactorily comply with the demand, the state banking laws should be so amended as to permit of the cooperation along this line between the federal and state banking departments.

Voluntarily, for the first time during the existence of the national banking system, cooperation with the Comptroller in respect of simultaneous returns by state bank superintendents and state banks and bankers, was effected for April 28, 1909, when practically corresponding reports were secured for the National Monetary Commission and the Comptroller from all national and from nearly 90 per cent of the state and private banks. The nonreporting banks were mainly those that were unincorporated—that is, private banks and bankers. The returns so obtained formed the basis for the most complete and therefore the most valuable statistics in relation to the banks in this country that were ever compiled.

In continuation of the work of 1909 the Comptroller caused to be prepared a special form of report corresponding very generally to that furnished to national banks and sent copies, with letter of request for submission of the information desired, to all banks in the country, either through the various state banking departments or to the banks direct, the request calling for a report at the close of busi-

ness on June 30, 1910, the date upon which returns were subsequently called for from all national banks.

Reports were received on April 28, 1909, from 22,491 banks and banking institutions with total paid in capital of \$1,800,036,368, surplus fund and other undivided profits \$1,834,625,428.93, an amount exceeding by about \$34,500,000 the paid in capital stock. The individual deposits of banks were \$14,035,523,165.04, and their total assets \$21,095,054,420.72. The principal assets were as follows: Loans and discounts \$11,373,217,691.38, bonds, securities, etc., \$4,614,442,216.27, cash on hand \$1,452,014,676.34.

On June 30, 1910, reports were obtained relative to the condition of 23,095 banks, a greater number by 604 than in 1909.

The value of the statistics submitted herewith is in a measure impaired by the refusal or neglect of a large number of incorporated banks in three of the Southern States and private banks in three Western States (Georgia, Alabama, Mississippi, Tennessee, Illinois, Michigan, and Iowa) to comply with the request for reports. In one of the Eastern States (Pennsylvania) the figures relating to a number of banks that failed to report on June 30 were obtained from their official returns to the state banking department in the prior November.

The capital stock of all reporting banks on June 30, 1910, was \$1,879,943,887.99, an increase over 1909 of \$79,907,519.99. The combined surplus and other undivided profits are shown to have been \$1,952,566,187.98, an increase over the prior year of \$117,940,759.05. Individual deposits on June 30, 1910, were \$15,283,396,254.35 or greater than in 1909 by \$1,247,873,089.31. The total assets of the banks increased to \$22,450,320,522.77, or a greater amount by \$1,355,266,102.05 than in 1909.

Statements in detail relating to loans and discounts, bonds, securities, etc., cash in bank, and individual deposits, appear hereinafter, but there is submitted herewith a summary of the consolidated returns for April 28, 1909, and June 30, 1910, the increase or decrease in the various items being shown separately.

#### STATE, SAVINGS, PRIVATE BANKS, AND LOAN AND TRUST COMPANIES.

Summaries of the reports received for the current year from state, savings, private banks, and loan and trust companies show the condition on June 30, 1910, of 15,950 banks other than national. The aggregate resources of the banks were \$12,553,695,826.04, an increase

of \$827,525,248.45 over the aggregate reported in 1909 by 15,598 banks. The returns include 12,166 commercial banks, 1,759 savings banks (of which 638 were of the mutual class; that is, without capital stock), 934 private banks, and 1,091 loan and trust companies. About 600 state and private banks, located chiefly in the Southern and Middle Western States, which furnished reports as of April 28, 1909, did not submit reports for the current year.

The capital of the state (commercial) banks as reported aggregates \$435,822,833.58; individual deposits, \$2,727,926,986.03, and aggregate resources, \$3,694,958,766.81. In 1909 the aggregate resources of this class of banks were \$3,338,669,134.19, thus showing an increase of \$356,289,632.62 over the amount reported in 1909. Savings banks reported to the number of 1,759, showing deposits aggregating \$4,070,486,246.70 and resources of \$4,481,871,444.90. Compared with 1909 the figures show an increase of \$357,080,536.90 in deposits and \$409,161,339.56 in aggregate resources. Only about 17 per cent of deposits in savings banks is held by stock savings banks.

Reports received from 1,091 loan and trust companies show aggregate resources of \$4,216,850,061.52 and individual deposits of \$3,073,-122,706.20 against 1,079 loan and trust companies with aggregate resources of \$4,068,534,982.65 and individual deposits of \$2,835,835,-180.79 in 1909, being an increase for the year of \$148,315,078.87 in resources and \$237,287,525.41 in individual deposits.

Reports were obtained from only 934 private banks, with capital of \$18,899,561.74 and aggregate resources of \$160,015,552.81. In 1909 reports were received from 1,497 private banks and bankers, with capital of \$27,726,922 and aggregate resources of \$246,256,355.41. About 300 private banks and bankers, located chiefly in the Middle Western States, failed to comply with the comptroller's request for a report.

In connection with the general statistics relating to the condition of the banks, the following table showing the number of savings and other depositors in the banks of the country is of interest:

*Number of savings and other individual depositors in reporting banks June 30, 1910.*

The following is a summary of reports received from state banks, savings banks, private banks, and loan and trust companies showing their condition at the close of business on June 30, 1910:

The foregoing statistics indicate that aggregate resources have more than doubled since 1900, the increase since that date amounting to \$6,712,037,006.04. For the current year the increase in resources amounts to \$827,525,248.45. During the decade ended June 30, 1910, capital stock of banks other than national increased by nearly 121 per cent, and surplus and profits appear to have increased in about the same ratio. Loans increased by 134 per cent, bonds by 80 per cent, individual deposits by 109 per cent, and aggregate resources by 115 per cent. The most notable increase is in cash holdings, the amount in banks of this class in 1910 being 153 per cent greater than was reported in 1900.

Combining the returns from national banks as of June 30, 1910, with those obtained from other banks of the same date makes a total of 23,095 reporting banks, with aggregate capital of \$1,879,943,887.99 and aggregate resources of \$22,450,320,522.77.

The increases in the principal items of resources and liabilities of all reporting banks over the amounts shown in 1909 are, in round amounts, as follows: Resources, \$1,355,300,000; individual deposits, \$1,247,900,000; surplus and undivided profits, \$118,000,000; capital, \$30,000,000; bonds and securities, \$109,000,000; loans, \$1,148,600,000.

Cash on hand shows a decrease of \$28,200,000 from the amount reported in 1909.

## STATE BANKS.

Reports from state banks to the number of 12,166, show capital of \$435,822,833.58 and aggregate resources of \$3,694,958,766.81. Geographically the reporting state banks are located as follows: Nineteen in the New England States, 476 in the Eastern States, 3,328 in the Southern States, 3,924 in the Middle Western States, 3,433 in the Western States, 958 in the Pacific States, and 28 in the island possessions.

The returns from Maryland, Arkansas, and South Dakota include stock savings banks, those from California include 147 departmental and 36 branch banks, while private banks are included with the returns from South Dakota and Hawaii.

A summary of the reports submitted shows loans amounting to \$2,406,466,674.48; investments in bonds and other securities, \$303,624,801.49; cash on hand, \$240,580,836.12; capital, \$435,822,833.58; and surplus and undivided profits, \$253,249,947.12. Comparing the figures for 1909 with those for 1910 there has been an increase of \$356,289,632.62 in the aggregate resources, \$19,762,933.58 in capital, and \$260,968,320.27 in deposits.

Missouri has the largest number of state (commercial) banks, namely, 1,038, followed by Kansas, with 827; Oklahoma, 680; Nebraska, 648; and Minnesota, 632. New York has the largest amount of capital invested in this class of banks, namely, \$34,148,000, California being second, with \$32,426,762.83; Missouri third, with \$29,334,010; and Illinois fourth, with \$22,638,300. New York state banks have also the largest volume of aggregate resources, namely, \$617,416,371, those of Missouri being second, with \$237,445,750.15; Michigan third, with \$234,872,109.07; and Pennsylvania fourth, with \$198,734,501.55.

## SAVINGS BANKS OF THE UNITED STATES.

Special interest attaches to the reports of operation and condition of savings banks, their deposits being chiefly the accumulations of wage-earners. The present year's reports from these institutions indicate material increases in savings deposits in the aggregate and in the average account.

Savings-bank reports to the number of 1,759 have been received, of which 638 are from mutual institutions and 1,121 from stock savings banks, the latter being operated for the benefit of both the shareholder and depositor. The principal items of resources and liabilities of savings banks, both mutual and stock, are as follows:

Loans.....	\$2, 294, 417, 426. 79
Bonds, etc.....	1, 797, 111, 826. 05
Deposits.....	4, 070, 486, 246. 70
Aggregate resources.....	4, 481, 871, 444. 90

## MUTUAL SAVINGS BANKS.

All of the mutual savings banks, with the exception of 21, are located in the New England and Eastern States. The exceptions are as follows: One in West Virginia, 3 in Ohio, 5 in Indiana, 3 in Wisconsin, 8 in Minnesota, and 1 in California. The total resources of mutual savings banks on June 30, 1910, was \$3,652,449,198.40. On April 28, 1909, the resources of these institutions aggregated

\$3,394,926,005.39, the gain since that date being \$257,523,193.01. During the year deposits have increased from \$3,144,584,874.66 to \$3,360,563,842.79, or an increase of \$215,978,968.13. The loans and mortgages in 1909 aggregated \$1,590,270,437.31, while on June 30, 1910, the loans, including mortgages, aggregated \$1,727,170,989.56, the increase being \$136,900,552.25. The loans as reported are classified as follows:

On demand, unsecured by collateral.....	\$9,761,253.11
On demand, secured by collateral.....	36,182,096.37
On time, with two or more names, unsecured by collateral.....	47,872,737.31
On time, single-name paper, unsecured by collateral.....	3,336,559.55
On time, secured by collateral.....	97,344,141.23
Secured by real estate mortgages, etc., or other liens on realty.....	550,935,126.64
Mortgages owned.....	976,042,325.30
Not classified.....	5,688,687.07
Overdrafts, secured.....	6,494.04
Overdrafts, unsecured.....	1,568.94
Total.....	1,727,170,989.56

The investments by mutual savings banks in bonds and other securities in 1909 aggregated \$1,599,532,371.94. Investments of this character in 1910 were \$1,676,149,419.80, scheduled as follows:

United States bonds.....	\$23,538,195.00
State, county, and municipal bonds.....	714,821,480.08
Railroad bonds.....	757,494,315.53
Other stocks and bonds, including railroad and bank stocks.....	180,295,429.19
Total.....	1,676,149,419.80

Cash in the 638 reporting mutual savings banks on June 30, 1910, amounted to \$24,463,401.28, against \$14,630,248.47 in 1909, a gain of \$9,833,152.81. Of the \$3,360,000,000 deposits in mutual savings banks approximately \$1,527,000,000 are in banks located in the State of New York and over \$761,000,000, or about 23 per cent of such deposits, are in Massachusetts savings banks. Depositors in the mutual savings banks number 7,481,649, divided geographically as follows: 3,331,135 in the New England States, 3,832,438 in the Eastern States, 5,630 in the Southern States (West Virginia only), 232,864 in the Middle Western States, and 79,582 in the Pacific States (California only). There are 2,886,910 depositors in mutual savings banks of New York State, and 2,078,953 in Massachusetts savings banks. The next largest number of savings depositors is 570,065 in Connecticut.

The average rate of interest paid to depositors in mutual savings banks is 3.92 per cent. The average rate in the New England States is 3.85 per cent, in the Eastern States 3.69 per cent, in the Southern States 4.50 per cent, in the Middle Western States 3.82 per cent, and in the Pacific States 3.75 per cent. The highest rate of interest, 4.50 per cent, is paid by the one mutual savings bank in West Virginia. An average of 4 per cent is paid by the mutual savings banks in Delaware and Wisconsin. The lowest average paid by mutual savings banks is in Pennsylvania, namely, 3.47 per cent.

#### STOCK SAVINGS BANKS.

Stock savings banks to the number of 1,121 furnished reports as of June 30, 1910. These institutions are located as follows: Eight in New Hampshire known as guaranty savings banks, 15 in the Eastern

States, 149 in the Southern States, 734 in the Middle Western States, 59 in the Western States, and 156 in the Pacific States. Reports from Maryland and South Dakota stock savings banks have been included, as officially compiled, with commercial state banks; the few reporting stock savings banks of Arkansas appearing to be commercial concerns have been included with commercial banks of that State. Of the total number of stock savings banks reporting, 663 are located in the State of Iowa. Stock savings bank capital is reported at \$68,320,822.30, against \$59,506,420 in 1909. The loans aggregate \$567,246,437.23; investments in bonds, securities, etc., \$120,962,406.25; cash in bank \$26,416,938.95; and aggregate resources, \$829,422,246.50. All of these items show substantial increases over the amounts reported for 1909. Individual deposits reported at \$568,820,835.14 in 1909 have increased to \$709,922,403.91 for 1910, and resources from \$677,784,099.95 to \$829,422,246.50—gains of \$141,101,568.77 and \$151,638,146.55, respectively.

Depositors in the stock savings banks actual and estimated, as of June 30, 1910, numbered 1,661,259, located as follows: 16,818 in the New England States, 93,024 in the Eastern States, 275,275 in the Southern States, 793,970 in the Middle Western States, 62,965 in the Western States, and 419,207 in the Pacific States. Iowa and California lead in the number of depositors in stock savings banks, namely, 428,777 in the former and 340,590 in the latter State. Ohio is third in number of depositors in this class of institutions, with 228,631, and Michigan fourth with 104,431.

A large number of banks throughout the country which transact a strictly commercial banking business have the word "savings" incorporated in their title. Care has been taken to exclude the reports of such banks from this compilation.

The average rate of interest paid to depositors in stock savings banks is 3.56 per cent. Geographically stated, 3.44 per cent is the average rate paid by such institutions in the New England States, 3.21 per cent in the Eastern States, 3.76 per cent in the Southern States, 3.40 per cent in the Middle Western States, 3.65 per cent in the Western States, and 3.91 per cent in the Pacific States. The highest average rate is 4.50 per cent paid by the stock savings banks of New Mexico, and the lowest rate, 2.93 per cent, is paid by the stock savings banks in the District of Columbia.

#### ALL SAVINGS BANKS.

The number of depositors in all savings banks reporting has increased since 1900 from 6,107,083 to 9,142,908. The average account for the period mentioned has increased from \$401.10 to \$445.20. For the current year the number of depositors has increased over the number reported in 1909 by 311,045 and the deposits by \$357,080,536. The average deposit account has increased from \$420.45 to \$445.20, a gain of \$24.75. The average deposit account in savings banks of the New England States remains practically the same as in 1909, being \$396 against \$395.97 in 1909. The average account in the Eastern States has increased from \$463.99 in 1909 to \$488.96 in 1910. In the Southern States the average account has increased from \$236.14 to \$250.15; in the Middle Western States from \$339.86

to \$366.41. In the Western States the average savings account in 1909 was \$240.19. For the present year it is shown to be only \$206.08. This is due to lack of reports from a number of savings banks in that section. The average savings account in the Pacific States has increased from \$561.63 to \$733.46, by reason of the fact that a greater number of reports were received than in 1909. Over 79 per cent of depositors in savings banks are reported by banks in the New England and Eastern States, there being 3,347,953 savings-bank depositors in the New England States, and 3,925,462 in the Eastern States. Next in order are the Middle Western States with 1,026,834, Pacific States with 498,789, Southern States with 280,905, and Western States with 62,965. There are 2,886,910 savings-bank depositors in New York and 2,078,953 in Massachusetts; the State having the next largest number of savings-bank depositors is Connecticut with 570,065, Iowa following with 428,777.

a Population estimated at 90,363,000, June 30, 1910.

In the figures for 1896 to 1908, inclusive, but not subsequently, are the number of depositors and amount of deposits in the state banks of Illinois, having savings departments, but not the number of such banks, by reason of the fact that general reports from these institutions are incorporated in state bank returns.

## PRIVATE BANKS.

Owing to the fact that many private bankers neglected to furnish a report, the returns from private banks of the country are not as complete as desired. It is estimated that there are over 4,000 private banking concerns in the country.

Of the private banks, reports have been received from 934, as of June 30, 1910. The capital of these reporting banks aggregates \$18,899,561.74, surplus and profits \$9,701,990.61, individual deposits \$124,644,003.22, loans and discounts \$108,449,464.30, investments in bonds, securities, etc., \$10,409,581.40, cash on hand \$6,764,890.90, and aggregate resources of \$160,015,552.81. On April 28, 1909, returns were submitted from 1,497 private banks, with capital of \$27,726,922 and aggregate resources of \$246,256,355.41. There is a large number of private banking concerns in the Middle Western States, many of which failed to comply with the request for a report, notably those in the State of Illinois; 420 private banks of that State made reports as of April 28, 1909, but for the current year only 200 such institutions furnished statements.

## LOAN AND TRUST COMPANIES.

Reports received from 1,091 loan and trust companies show aggregate resources of \$4,216,850,061.52, against 1,079, with aggregate resources of \$4,068,534,982.65, which reported in 1909. Of the institutions of this character, 505 with aggregate resources of \$2,657,262,821.48 are in operation in the Eastern States, 242 with aggregate resources of \$877,839,921.16 in the Middle Western States, and 158 with aggregate resources of \$532,567,450.20 in the New England States. From the Southern States 129 loan and trust companies reported, with aggregate resources of \$80,213,774.49, from the Western States 32 with aggregate resources of \$33,325,798.54, and from the Pacific States 25 with aggregate resources of \$35,640,295.65. Pennsylvania appears to have the largest number of loan and trust companies, 304 such institutions, with aggregate resources of \$716,469,325.97, being in operation in that State; included with these figures, however, are reports of 54 Pennsylvania trust companies as of November 6, 1909, later reports from which were not obtainable. The loans and discounts of the reporting loan and trust companies aggregate \$2,256,572,910.64; investments in bonds, securities, etc., \$1,000,263,549.84; cash on hand, \$260,129,890.91; capital, \$367,333,556.37; surplus and profits, \$498,166,835.50; and individual deposits, \$3,073,122,706.20. Comparing these statistics with those submitted for 1909, loans show an increase of \$191,906,406.50; investments in bonds, securities, etc., \$10,074,239.60; cash on hand, \$5,681,980.75; capital, \$4,570,333.37; surplus and profits, \$4,784,642.38; and individual deposits, \$237,287,525.41. In 1900 reporting loan and trust companies held 14.2 per cent of the individual deposits of all banks; in 1907, 15.7 per cent; in 1908, 14.6 per cent; in 1909, 20.2 per cent; and in 1910, 20.1 per cent.

## BANKS AND BANKING IN THE DISTRICT OF COLUMBIA.

In the District of Columbia there are 51 financial institutions, including 12 national banks, 5 trust companies, 15 state banks stated to be operated as saving banks, and 19 building and loan associations. The aggregate capital of the banks and trust companies on June 30, 1910, was \$15,661,420; the individual deposits \$72,575,118, including \$13,214,546 share capital or deposits in building and loan associations.

The number, capital, individual deposits, and aggregate amount of resources of each class of financial institutions doing business in the District of Columbia on June 30, 1910, are shown in the following table:

## STATE AND PRIVATE BANK FAILURES.

To the statistics heretofore presented in the Comptroller's reports relating to the failures of state and private banks are added those for the year ended June 30, 1910, as reported by the Bradstreet Commercial Agency.

The number of failures of banks of this character during the current year was 28, the total assets amounting to \$14,496,610 and the liabilities to \$18,182,592. Included in the list are 9 state banks with assets of \$8,170,494 and liabilities of \$9,111,326; 1 savings bank, with assets of \$52,000 and liabilities of \$63,000; 6 trust companies, with assets of \$3,072,000 and liabilities of \$2,216,000; 12 private banks, with assets of \$3,202,116 and liabilities of \$6,792,266.

Adding the failures of the current year to those reported for the period running from 1864 to 1909, a total of 2,042 failures is shown, the aggregate assets at date of failure being \$526,291,242.58 and the liabilities \$625,952,597.27.

Subsequent to 1896 statistics are wanting relating to the settlement of the affairs of failed state and private banks, making it impossible to state the amount and rate per cent of dividends paid to creditors. From 1864 to 1896 the dividends averaged approximately 45 per cent of the claims as represented by the reported liabilities.

Information obtained relating to the failures of state and private banks, from 1864 to June 30, 1910, are shown in the accompanying table:

INDIVIDUAL DEPOSITS IN ALL BANKS.

Individual deposits in all reporting banks in 1900, in round amount, aggregated \$7,238,900,000. For the current year deposits aggregate \$15,283,300,000—an increase of \$8,044,400,000, or over 111 per cent. The increase for the current year over the amount reported in 1909

is \$1,247,800,000, or about 9 per cent. The following table shows the amount and per cent of individual deposits held by the several classes of banks in 1900, 1909, and 1910:

Classification.	1900.		1909.		1910.	
	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.
	<i>Millions.</i>		<i>Millions.</i>		<i>Millions.</i>

Total.....	7,238.9	100.0	14,035.5	100.0	15,283.3	100.0

From the foregoing it will be noted that the proportion of deposits held by national banks is 34.6 per cent; by savings banks, 26.6 per cent; by loan and trust companies, 20.1 per cent; by state banks, 17.9 per cent; and by private banks less than 1 per cent. Compared with 1900, national banks have slightly gained in relative percentage of deposits. The proportion held by savings banks has fallen from 33 per cent to 26.6 per cent during the same period. The proportion of deposits held by state banks has increased from 17.5 per cent to 17.9 per cent, and loan and trust companies from 14.2 to 20.1 per cent.

The following table shows the distribution of deposits, by geographical sections, on April 28, 1909, and June 30, 1910, together with the amount and per cent of increase:

Geographical division.	Individual deposits.			
	1909.	1910.	Increase.	Per cent of increase.

Islands.....	28.9	39.2	10.3	26.28
	14,035.5	15,283.3	1,247.8	8.16

From the foregoing table it appears that during the year deposits in the banks of the island possessions increased by 26.28 per cent. The highest percentage of increase in the United States was in the Pacific States, 14.05 per cent being added to the amount reported in 1909. The next highest increase in order is shown in the Middle Western States, 10.40 per cent. The lowest rate of increase appears to be in the Southern States, which is accounted for in a measure by incomplete returns from a number of States in that section.

The following comparative statement shows the increase in population, individual deposits, and money in circulation for 1908, 1909, and 1910:

	1908.	1909.	Increase, 1909.		1910.	Increase, 1910.

<sup>a</sup> Decrease.

From the foregoing it appears that during the year ended June 30, 1910, while the population, as estimated, increased 1.55 per cent, the volume of individual deposits increased by 8.89 per cent; but the figures for money in circulation shows a decrease of 0.13 per cent.

#### CLASSIFICATION OF INDIVIDUAL DEPOSITS.

Information submitted by the banks on June 30, 1910, with respect to deposits has been carefully compiled and the result shows that 42 per cent of the deposits in banks other than national are demand liabilities, while 90 per cent of the deposits in national banks are subject to demand. Including nonclassified deposits with deposits subject to check, it appears that 70 per cent of deposits in private banks are subject to demand, about 70 per cent in loan and trust companies, 64 per cent in state banks, and about 26 per cent in stock savings banks.

The average of deposits subject to demand in all banks is about 59 per cent. In the following table is shown the classification of deposits in banks other than national, in national banks, and in all banks on June 30, 1910:

#### CLASSIFICATION OF LOANS AND DISCOUNTS.

Loans and discounts in the banks of the United States as shown by reports of condition as of June 30, 1910, aggregate roundly \$12,521,000,000. Of this amount \$5,455,000,000 are in national banks and \$7,066,000,000 in banks other than national. Loans in

state banks aggregate \$2,406,000,000; in loan and trust companies, \$2,257,000,000; in mutual savings banks, \$1,727,000,000; in stock savings banks, \$567,000,000, and in private banks, \$108,000,000. About \$6,812,000,000, or nearly 55 per cent of loans, are secured by collateral. In the following table is shown a classification of the loans and discounts in banks other than national, in national banks, and in all banks:

## INVESTMENTS IN BONDS, SECURITIES, ETC.

The special report from the banks obtained by the Comptroller in April, 1909, contained among other interesting data, information in detail as to the character of investments in bonds, securities, etc. The information for the current year in respect to such investments is practically as comprehensive as that for the prior year.

In 1909 the aggregate investments in bonds, stocks, and other securities held by all reporting banks was \$4,614,400,000. From reports for June 30, 1910, it is shown that such investments had increased to \$4,723,400,000, or a gain of \$109,000,000. The classification by amounts and percentages of investments held by the banks in 1909 and 1910 is as follows:

<sup>a</sup> Includes \$683,990,000 United States bonds deposited with the Treasurer of the United States to secure circulation and \$41,191,870 to secure United States deposits.

<sup>b</sup> Includes \$13,230,813.97 other bonds to secure United States deposits.

<sup>c</sup> Premium on United States bonds.

It appears that over 41 per cent of securities held by the banks are in railroad and other public-service corporation bonds; 23 per cent in state, county, and municipal bonds; 16 per cent in United States bonds; 8 per cent in bonds not classified; 6 per cent in stocks, while the remainder, about 5 per cent, is made up of miscellaneous securities, warrants, etc.

Railroad and other public-service corporation bonds appear to predominate in the investments of all banks except in private and national banks. Mutual savings banks have over one-half of their bond investments in railroad and other public-service corporation bonds, or about \$845,000,000, loan and trust companies have about \$472,000,000, or 47 per cent of their investments in this class of bonds, state banks have about \$114,000,000, or 37 per cent of their investments in the same class of bonds, stock savings banks have about \$59,000,000, or nearly one-half of their investments, in this class of securities, while private banks have in this class of investments only about \$1,700,000. There are only about \$35,800,000 United States bonds in banks other than national, while \$737,600,000 are held by national banks. Of the \$1,116,200,000 investments in state, county, and municipal bonds, \$714,800,000 are in mutual savings banks, \$162,000,000 in national banks, \$144,500,000 in loan and trust companies, \$63,900,000 in state banks, \$28,700,000 in stock savings banks, and \$2,300,000 in private banks. Mutual savings banks hold \$23,500,000 United States bonds, stock savings banks \$8,500,000, state banks \$2,100,000, loan and trust companies \$1,300,000, and private banks about \$400,000.

Stocks held to the amount of \$166,100,000 are reported by loan and trust companies, \$39,400,000 by mutual savings banks, \$37,600,000

by national banks, \$29,800,000 by state banks, \$7,700,000 by stock savings banks, \$2,800,000 by private banks, or a total holding of \$283,400,000.

### INTEREST RATES.

<sup>a</sup> Public money in national-bank depositaries to the credit of the Treasurer of the United States not included.

<sup>b</sup> Money in banks of island possessions not included.

<sup>c</sup> Compiled from special reports, April 28, 1909.

The general stock of money in the United States at the close of the fiscal year ended June 30, 1910, stated roundly, was \$3,419,500,000. Of this amount \$317,200,000 was in the Treasury as assets; \$1,414,600,000, or 41.37 per cent, in reporting banks; and \$1,687,700,000, or 49.36 per cent, outside of Treasury and banks; that is to say, in circulation among the people. The amount reported in circulation, exclusive of coin and other money in the Treasury as assets, is \$3,102,300,000, or \$34.33 per capita, being \$3,900,000 less than the amount reported in 1909, and 60 cents less per capita.

#### BUILDING AND LOAN ASSOCIATIONS.

Statistics relating to all local building and loan associations in the United States for the year 1909-10, incorporated in the annual report of the secretary of the United States League, evidence the existence of 5,713 associations of this character, with total assets of \$856,332,719 and a membership of 2,016,651. As compared with the returns for the prior year there is shown to have been an increase in assets of \$72,156,966 and in membership of 96,394. It appears from the statistics compiled by the secretary that the average amount due each member in all of the building and loan associations has increased from \$367.22 in 1901 to \$424.63 in 1909. The average is but \$20.57 less than the average deposit in savings banks of the United States.

In the tables following are shown, by States, the number of building and loan associations, their membership, total assets, and changes in assets and membership during the year, together with a statement of the receipts and disbursements of the associations for the year ended December 31, 1909.

**BUILDING AND LOAN ASSOCIATIONS OF THE DISTRICT OF COLUMBIA.**

In compliance with the requirements of the act of March 4, 1909, the building and loan associations in operation in the District of Columbia submitted reports of their condition, with statements relating to their receipts and disbursements, for the periods ended December 31, 1909, and June 30, 1910. At the close of the first semiannual period there were in operation 22 associations, with assets of \$14,928,176.81, the receipts for that period being stated at \$4,813,399.41.

For the six months ended June 30, 1910, reports were received from but 19 associations, as two of those theretofore in existence were placed in liquidation and one in the charge of a receiver. The assets of the 19 associations on June 30 are shown to have been \$15,250,731.52 and the receipts for the six months \$5,251,731.77. The plan of association of the 19 institutions reporting on June 30 is as follows: Permanent, 10; serial, 8, and terminating, 1.

The total number of shares issued by these associations is stated at 381,083½, and there were in force on July 1, 128,292 shares. The membership of the associations is stated at 29,233, of whom 7,390 are borrowing and 21,843 nonborrowing members. The installment payments of one association are \$2 per month, of one other \$2.50, and of the remaining 17, \$1.

The individual reports and the abstracts for each of the semiannual periods are incorporated in the appendix to this report.

**SCHOOL SAVINGS BANKS.**

The report for the year ended January 1, 1910, compiled by Mr. J. H. Thiry, of Long Island City, N. Y., relating to school savings banks, includes information in relation to these banks in Canada, Porto Rico, South Australia, and Western Australia with those of the United States.

The school savings bank system is stated to be in operation in 1,168 schools, wherein are conducted 8,515 banks. The number of pupils in these schools is stated at 632,665 and the number of depositing pupils 203,458. From the date of the introduction of the system the total amount deposited by these school children aggregated \$5,051,644.60, of which \$4,180,948.59 has been withdrawn, leaving the balance to their credit on January 1, 1910, \$870,696.01.

By deducting the figures for schools located outside of this country the statistics for school savings banks in the United States show 7,065 banks located in 530 houses, and 160,488 depositors with an aggregate balance to their credit on January 1, 1910, of \$721,732.18.

#### SAVINGS BANKS IN FOREIGN COUNTRIES.

The accompanying tables relating to the form of organization and statistics relative to savings banks, including postal savings institutions, in foreign countries were compiled for this report by the Bureau of Statistics, Department of Commerce and Labor, the data being taken from latest official reports of the respective countries. The population of the countries in which these institutions are located is stated at 632,985,000; the number of depositors in savings banks, 101,169,832, and deposits in these institutions \$10,033,989,560.

To the data compiled by the Bureau of Statistics have been added corresponding information relating to savings banks in the United States, for June 30, 1910, shown elsewhere in detail. The aggregate population of all countries relative to which information has been

obtained in respect to savings banks is stated at 730,948,000; the number of depositors in savings banks 110,362,740, the total volume of deposits \$14,105,315,429, and the average deposit account \$127.88. The average deposit account in foreign countries was \$99.18, that in the United States being \$445.20. Approximately one-twelfth of the depositors in all savings banks of the world are depositors in savings banks in the United States. The deposits in savings banks in the United States amount to nearly 30 per cent of the deposits in all savings banks of the world. Based upon the stated population of foreign countries, the average deposit per inhabitant is shown to be \$15.85. In the United States the average deposit is \$45.04 and the average for all countries \$19.29. The table relating to postal savings banks presents conditions existing in 1898 and 1908 with respect to the number of depositors, amount of deposits, and average deposit account. There is not an exact uniformity in dates, but the exceptions are stated in the footnote to the table.

The number of postal-bank depositors increased from 22,130,414 in 1898 to 43,180,903 in 1908, and the deposits from \$1,300,276,860 to \$2,227,927,502. The average postal savings account in 1898 was \$58.75, whereas in 1908 it was but \$51.59, the percentage of increase in depositors being greater than the percentage of increase in deposits.

The tables in question follow.

NOTES.

The figures of population are for the nearest date to which the statistics of savings banks relate.

*Belgium.*—Data for the state-controlled "Caisse Generale d'Epargne," including savings depositories at post-offices. In addition, reports are given for 3 municipal and 5 private savings banks. On December 31, 1908, the former had 16,783 depositors, credited with \$1,939,968 of deposits, and the latter 27,844 depositors, with \$8,486,439 of deposits. The amount of deposits in government savings banks in the Belgian Congo at the end of 1908 is stated officially as \$605,772.

*Denmark.*—Exclusive of 1,688 deposits of \$164,209 in savings banks in Faroe Islands. Exclusive of data for savings departments of ordinary banks, which comprised 145,719 accounts credited with \$28,679,196 on March 31, 1908.

*Germany.*—At the end of the fiscal year 1907-8 the total savings banks deposits in Germany had increased to \$3,305,606,000. This amount includes \$2,170,680,018 to the credit of 11,484,139 depositors in the Prussian savings banks.

*Roumania.*—Figures for the "Case de economie."

*Russia.*—Includes 41,361 depositors in school savings depositories, credited with \$110,200. The above total is exclusive of \$146,338,000 worth of securities held by the savings banks to the credit of depositors.

*Spain.*—The peseta has been converted at the rate of 17.14 cents. Data taken from "España Economica y Financiera," September 25, 1909.

*Switzerland.*—Preliminary statement furnished by the Swiss Federal Statistical Bureau under date of September 30, 1909, for 372 savings banks.

*United Kingdom.*—Figures for trustee savings banks relate to the year ending November 20; figures for post-office savings banks to December 31. Exclusive of government stock held for depositors, which at the end of the year amounted to \$105,311,644 in the post-office savings banks and to \$12,170,795 in the trustees' savings banks.

*British India.*—Exclusive of population of the feudatory States.

*Canada.*—Exclusive of data for special private savings banks, which on June 30, 1910, held deposits amounting to \$32,156,708. This total does not include the savings deposits in chartered banks ("Deposits payable after notice or on a fixed day") which on June 30, 1910, amounted to \$534,432,054.

<sup>a</sup> The earlier figures are for 1898 with the following exceptions: Belgium, Russia, Dutch East Indies, Formosa, Tunis, and Orange River Colony, 1899; Egypt, 1902; Federated Malay States (government savings banks), 1904; Dutch Guiana, 1904; Curacao and Rhodesia, 1905; Philippines, June 30, 1907; Canada, June 30, 1900.

<sup>b</sup> 1908 returns with the following exceptions: Curacao, 1907; Belgium, Netherlands, United Kingdom, Federated Malay States, Dutch East Indies, and Tunis, December 31, 1909; British India and Japan, March 31, 1909; Italy, Victoria, Queensland, and Western Australia, June 30, 1909; Canada and Philippine Islands, June 30, 1910.

<sup>c</sup> It has been thought proper to include among the postal savings banks also those savings banks in the Australian States which prior to the transfer of the state post-offices to the federal government were operated by the respective state post-offices. All these banks continue at present to be operated as government savings banks.

## INSOLVENT NATIONAL BANKS.

<sup>a</sup> Restored to solvency.

<sup>b</sup> Formerly in voluntary liquidation.

As will be observed from the foregoing statement, while 7 banks were placed in charge of receivers during the year, there were in fact but 4 failures, as 1 association was restored to solvency and 2 were banks which had been placed in voluntary liquidation some years since and were placed in the charge of receivers for the purpose of settling matters that could not be satisfactorily adjusted otherwise.

The final settlement of the affairs of 18 insolvent national banks was effected during the year. The capital of the banks in question at the date of failure aggregated \$1,555,000, the assets coming into the custody of the receivers amounting to \$12,494,806. Collections from assets and on account of shareholders' liability aggregated \$8,352,274. The liabilities of the banks to depositors and other creditors as shown by claims proved were \$7,378,095 on which dividends were paid to the amount of \$6,340,582, or at the rate of 85.94 per cent. Including with dividends paid the offsets that were allowed and loans paid, depositors and other creditors received on an average 89.88 per cent. The cost of administration of these trusts is stated at \$438,741, an amount representing 3.5 per cent of the assets and 5.3 per cent of the total collections.

From the date of the first failure in 1865 to October 31, 1910, 514 national banking associations have been placed in the charge of receivers of which, however, 25 were restored to solvency. The nominal value of assets administered upon by the receivers aggregated \$341,805,971, from which was collected \$169,975,721. Collections from assessments upon shareholders to make good in part deficiency in assets were effected to the amount of \$21,588,010, making the total cash receipts by the receivers, \$191,563,731.

The collections were disposed of mainly as follows: Dividends paid \$135,233,169, loans paid and other disbursements \$38,552,673, legal expenses, receivers' salaries and other incidental expenses \$13,721,949.

The capital of all insolvent banks at date of failure was \$84,370,920, and the amount of assessment levied thereon \$45,532,240. The circulation of these banks at the time of closing was \$26,308,672.

The affairs of 434 insolvent banks had been settled up to the close of the year. The assets administered upon aggregated \$296,406,777, and the capital was \$70,105,920. Collections from assets are shown to have been \$147,176,649, and from the assessment upon shareholders \$19,498,142, making total collections \$166,674,791, from which on claims proved of \$154,741,488, dividends were paid to the amount of \$117,905,597. The average rate of dividend paid on claims proved was 76.20 per cent, but including offsets allowed, loans paid, and other disbursements with dividends, creditors received on an average 82.64 per cent. Expenses of administration of these 434 trusts—that is, receivers' salaries, legal and other incidental expenses, amounted to \$12,144,016, a sum equal to 4.10 per cent of the nominal value of the assets and 7.39 per cent of the total collections from assets and shareholders.

The outstanding circulation of these banks at the date of failure aggregated \$22,415,209, for the security of the redemption of which United States bonds of the par value of \$25,078,400 were held by the Treasurer of the United States, which, on being disposed of for \$26,016,133, added \$3,600,924, to the funds available for the payment of dividends.

On the average shareholders were assessed approximately 58 per cent on their holdings, the collections thereon being only about 50 per cent. The amount realized on the assessments was nearly 28 per cent of the par value of the capital stock of these insolvent national banks.

At the close of the year there were still 55 insolvent national banks in the charge of receivers, their capital being \$7,805,000, circulation outstanding \$3,893,463. The assets of these banks aggregated \$45,399,194, from which \$22,799,072 has been collected, and from which dividends have been paid to the amount of \$17,327,572.

During the current year 56 dividends have been paid to the creditors of 39 insolvent banks, the total disbursements being \$3,386,773.38.

In the following table is summarized the condition of all insolvent national banks; the condition of banks closed and still in charge of receivers being shown separately:

<sup>a</sup> Includes 25 banks restored to solvency.

<sup>b</sup> Capital stock of 25 banks restored to solvency.

With the exception of banks that have become insolvent as a result of defalcations or other dishonesty, failures have been almost wholly due to incompetent or reckless management and persistent violations of the banking law and the practices governing conservative banking. As a matter of fact a large percentage of the banks that have failed should have gone into voluntary liquidation before they reached conditions precipitating failure.

It is the present Comptroller's earnest purpose to get out of the national banking system every bank which is managed in such a careless, reckless, speculative, or incompetent manner as to endanger the safety of its depositors. A bank that is the subject of constant criticisms for persistent and flagrant violations of law and is managed in such a reckless, careless, and incompetent manner as to necessitate frequent examinations should go out of business and leave the field to more competent and conservative bankers; that is, the bank should go into voluntary liquidation as soon as it is demonstrated to a reasonable certainty that it can not be continued successfully or the officers and directors can not or will not manage its affairs in accordance with law and safe banking practices.

When an examiner finds a bank in a serious condition, his report and conclusions based thereon are submitted to the officers and the entire board of directors, with advice that one of the following courses of procedure must be adopted:

First. That the bank, in accordance with the suggestion submitted, will be immediately placed in a satisfactory condition by the officers and directors in charge.

Second. That if the officers and directors in charge are unable to place the bank in a satisfactory condition that it will be placed under an entirely new management.

Third. Where neither of the foregoing suggestions can be complied with the officers and directors are urged to place the bank in voluntary liquidation, and if they refuse to recommend that such action be taken by the shareholders, the condition of the bank is brought to the attention of a representative committee of shareholders.

The advantages of voluntary liquidation, as stated to the officers, directors, and committee of shareholders, are that depositors will be paid in full; the shareholders will have an opportunity to save a part of their original investment; the double liability on capital-stock holdings will be averted, and the possibility of failure avoided.

The limited number of receiverships, as compared with the large number of voluntary liquidations during the past year is due, in a measure, to the action of the office through the examiners in securing the liquidation of certain banks, the ultimate failure of which was only avoided by that course of procedure.

NOTE 1.—Specie payments were suspended from Jan. 1, 1862, to Jan. 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878, under the act of Feb. 28, 1878.

NOTE 4.—Specie payments were resumed Jan. 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—The Director of the Mint recently made a revised estimate of the stock of gold coin and, as a consequence of such revision, the estimated stock of gold in the United States and of gold coin in circulation has been reduced \$135,000,000 in the figures for 1907.

NOTE 6.—There was a reduction as of June 30, 1910, of \$9,700,000 of subsidiary silver coin as a result of the revision of stock by Mint Bureau.

TABLE No. 114.—RESOURCES AND LIABILITIES OF THE SECOND BANK OF THE UNITED STATES.

[Chartered by Congress in 1816, for twenty years; renewal of charter denied; in consequence, reorganization was effected by means of authority of the legislature of the State of Pennsylvania. The bank assigned in 1841, the affairs being finally liquidated in 1856, and resulted in the payment in full, interest and principal, of liabilities to depositors and note holders; the shareholders, however, received nothing on their investment in stock of the bank.]

NOTE.—Gold was first quoted at par on December 19, 1878.

The average rates of gold and currency for each month, as given in the above tables, was obtained as follows:

Four daily quotations of the rates of gold at New York, viz, the Opening, Closing, Highest, and Lowest, were recorded, from which a daily average was made, and the average rate for each month was prepared from these daily averages.
