T Taxable issues.

1/ When the price of a security is such as to result in a negative yield, the excess of price over zero yield is given in the yield column in thirty-seconds.

2/ Prices represent the mean of closing bid and ask quotations in the over-the-counter market. "When issued" prices are included beginning November 1, 1941. Dates of highs and lows, in case of recurrence, are the latest dates.

3/ Computed on mean price to call date when prices are above par; to maturity date when prices are below par.

4/ Excludes issues completely held by Farm Credit Administration agencies.

5/ Revised to include amounts held by Farm Credit Administration agencies.

6/ Series A is callable on 30 days' notice at 100-1/4 on November 16, 1942. Series B is callable on 30 days' notice at 101 on July 3, 1942; at 100-1/2 on January or July 3, 1943. "Yield" is computed to maturity or that call date which gives the lowest yield.

7/ Change not indicated because yield was computed to different call dates on April 15 and May 15. The option to call on May 16, 1942 was not exercised.

YIELDS OF TREASURY BONDS AND NOTES, MAY 15, 1942

Based on Mean of Closing Bid and Asked Quotations

Explanation: The points represent yields to call date when prices are above par, and to maturity date when prices are at par or below. The smooth curves are fitted by eye. The dollar amounts in descriptions of issues are millions. Issues for which an exchange offer has been made are excluded.

Basis of Computation: (1) Treasury bond yields are computed on the basis of the mean of bid and ask quotations in the over-the-counter market, beginning September 2, 1941; previously, closing prices on the New York Stock Exchange were used on days when sales took place on the Exchange in a particular issue and the mean of closing bid and ask quotations on the New York Stock Exchange on days when no sales took place. (2) Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.
