DEBITS TO DEPOSIT ACCOUNTS EXCEPT INTERBANK ACCOUNTS

Summary Figures by Weeks
Summary Figures, by Districts, by Months
Individual Centers by Months

These figures represent total debits or charges to all depositors' demand and time accounts, both government and private, except accounts of other banks and certified and officers' check accounts.

The figures are derived from reports submitted to the Federal Reserve Banks covering each week ending on Wednesday. The reports are made usually by the local clearing house, which in general collects the figures from all of its affiliated banks, whether or not they are members of the Federal Reserve System. Monthly figures were derived from the weekly reports, the figures for a week that begins in one month and ends in another having been prorated to the respective months on the basis of the number of business days of the week that were in each month.

BANK DEBITS TO DEPOSIT ACCOUNTS EXCEPT INTERBANK ACCOUNTS - 1942

Summary Figures, by Districts, by Months
Individual Centers, by Months

These figures include debits or charges to deposit accounts of individuals, partnerships, corporations, the United States Government, and State and local governments. They include debits to time or savings accounts, payments from trust funds on deposit in the banking department, and the payment of certificates of deposit. The figures exclude payments of certified and officers' checks, payments in settlement of clearing house balances, charges to expense and miscellaneous accounts, corrections and similar charges, and debits to the accounts of other banks, that is, to interbank accounts.

For the first four months of 1942, the figures were derived from reports submitted to the Federal Reserve Banks covering each week ending on Wednesday; the figures for a week that began in one month and ended in another were prorated to the respective months on the basis of the number of business days of the week that were in each month. Beginning with May, 1942, the reporting banks have submitted monthly figures.

In the district schedules showing individual centers, the centers marked thus (*) are included in the national series covering 141 centers available beginning with 1919. These 141 centers and the centers marked thus (**) are included in the national series available on a roughly comparable basis beginning with 1923. From 1923 to 1935 the number of centers in that series ranged from 249 to 272; beginning with 1936 it has covered 274 centers. The centers marked thus ($\frac{7}{4}$) were added to the list of reporting centers in May, 1942, when the weekly reports were replaced by monthly reports. Back figures beginning with January, 1942, were obtained at that time for some of the new reporting centers and are shown where available.

Form F. R. 344

BANK DEBITS TO DEPOSIT ACCOUNTS EXCEPT INTERBANK ACCOUNTS -- 1943

Summary Figures, by Districts, by Months
Individual Centers by Months.

These figures include debits or charges to deposit accounts of individuals, partnerships, corporations, the United States Government, and State and local governments. They include debits to time or savings accounts, payments from trust funds on deposit in the banking department, and payments of certificates of deposit. The figures exclude payments of certified and officers' checks, payments in settlement of clearing house balances, charges to expense and miscellaneous accounts, corrections and similar charges, and debits to the accounts of other banks, that is, to interbank accounts.

These figures include the 60 newly reporting centers which were added in May 1942, when the collection of bank debits statistics was put on a monthly basis, together with the banks which were added at the same time in 21 previously reporting centers. These figures for 1943 are not, therefore, entirely comparable with those shown in previous annual compilations. A description of the revised series appeared on page 717 of the August 1943 Federal Reserve Bulletin. In the Board's statement of bank debits for the month of July 1943, back figures on the revised basis, by districts and centers, were furnished beginning with May 1942.
