

PRESS STATEMENT.

April 12, 1919.

Below is given the Federal Reserve Board's regular weekly statement of total debits to deposit account, reported through the Federal Reserve banks by about 150 of the country's more important clearing houses. Transactions cover the weekly periods ending Wednesday April 2 and Wednesday April 9.

Aggregate debits to individual account show a decrease of over 6 per cent from the high total recorded the week before, which marked the end of the first quarter of the year. Particularly heavy declines are shown for the 3 Eastern and the Cleveland districts. For the Federal Reserve district of Atlanta, Chicago, St. Louis and Dallas small increases in total debits are given. Debits to bank account, largely because of the considerable increases shown for the Chicago and St. Louis districts, are in excess of corresponding totals for the week April 2, the debits to bank account for the present week apparently reflecting in part the large increase in debits to individual account shown the week before.

The statement closes with a recapitulation giving comparative data by reserve districts for 150 centers reporting complete data for both weeks. Figures of reporting clearing houses by Federal Reserve districts are as follows:
