FEDERAL RESERVE statistical release

Z.7 (788)

For immediate release
June 7, 1985

FLOW OF FUNDS SUMMARY STATISTICS

Debt of domestic nonfinancial sectors grew at a seasonally adjusted annual rate of 11.3 percent in the first quarter of 1985, off considerably from the revised fourth quarter 1984 pace of 15.5 percent.1/ Growth of both major components, federal debt and private domestic nonfinancial debt, slowed in the first quarter, to 12.2 percent and 11.1 percent respectively. For 1984, total domestic nonfinancial debt at year-end was 14 percent higher than at the end of 1983. Federal debt grew nearly 17 percent and private nonfinancial debt by 13 percent, boosted by heavy borrowing for mergers, leveraged buyouts and stock repurchases.

Federal debt in the first quarter of 1985 grew at the slowest pace in more than a year. Households continued to take on large amounts of consumer credit in the first quarter while their mortgage needs slackened some from the fourth quarter 1984 pace. Nonfinancial corporate business borrowing in the first quarter was the slowest since the third quarter of 1983, despite continued borrowing for mergers and the like. State and local government borrowing continued at a brisk pace, led by a pickup in refundings, but similarly was slower than the previous quarter.

Net borrowing by domestic nonfinancial sectors fell to a seasonally adjusted annual rate of $678 billion in the first quarter of 1985. At the end of the quarter, outstanding debt of domestic nonfinancial sectors is estimated at $6,147 billion, of which $1,419 billion was federal government debt and $4,728 billion--77 percent of the total--constituted debt of the nonfederal sectors.

Growth Rates of Major Debt Aggregates 1/
(Percent annual rates of change, seasonally adjusted)

	Total domestic nonfinancial debt (1)	U.S. govt. (2)	--Private domestic nonfinancial-- Total (3)	Households (4)	Nonfin. business (5)	State & local govts. (6)

1985-I	11.3	-7.6	17.4	11.5	8.5

1/ Holdings of deposits and credit market claims by households, nonfinancial business and state and local governments.

Explanatory Notes

Growth rates in the summaries above are seasonally adjusted flows from Table 2 divided by seasonally adjusted outstandings from Table 1 on following pages of this release. Seasonally adjusted levels in Table 1 are derived by carrying forward year-end levels by seasonally adjusted flows plus any statistical discontinuities in the data series. Because of these discontinuities, changes in outstandings as printed can give growth rates that differ from those shown above.

The following list gives the lines in Tables 1 and 2 that are used to calculate growth rates shown on page 1 of this release:

	Growth Table (column)	Tables 1 and 2 (row)
Total domestic nonfinancial	1	1
U.S. government	2	2
Private domestic nonfinancial	3	5
Households	4	21
Nonfinancial business	5	22
State & local governments	6	20

Debt of domestic residents includes credit market funds raised from both domestic and foreign sources, while foreign debt represents amounts owed by foreign financial and nonfinancial entities to U.S. sources only. Financial sectors consist of U.S. Government sponsored credit agencies, federally-related mortgage pools, and private financial institutions. Credit market debt excludes trade debt, loans for the purpose of carrying securities, and funds raised from equity sources. It consists of debt securities, mortgages, bank loans, commercial paper, consumer credit, government loans, and other loan forms included in Table 1.

Full statements for sectors and transaction types in flows and in amounts outstanding may be obtained from Flow of Funds Section, Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.
