EXPLANATORY NOTE

In the absence of page numbers, a system of numbering has been used to identify the tables on employment and pay rolls for each major industry or combination of major industries. The tables on employment are numbered from 1 to 77; those on wages, from 101 to 177. Thus, tables 1 and 101 relate to "totals, all industries" for employment and pay rolls respectively. Similarly, tables 4 and 104 relate respectively to employment and pay rolls in major industry group 10--metalliferous mining. There are no tables between the numbers of 77 and 101.

1/ Monthly data not reported.
 2/ Does not include approximately 10,850 workers reported under temporary numbers each month. Includes from 15,202 to 24,212 workers engaged in domestic service and covered by State law.
 3/ Adjusted for 8,204 workers unallocated by months.
 4/ Adjusted for 12,649 workers unallocated by months.
 5/ Based on data submitted for 4 months (March, June, September, and December).

** Liability for unemployment compensation purposes is determined by the number of workers engaged in covered employment by an employer. The size-of-firm figures shown indicate the minimum number of workers which employers must have over a specified time period before becoming subject for contributions.
 * Effective Oct. 1, 1938, the minimum size-of-firm inclusion in Louisiana was changed from employers of 8 or more workers within 20 weeks of the current or preceding calendar year to 4 or more in 20 weeks or 12 or more in 10 weeks in 1938 or any subsequent year.
 ** Monthly data not reported. Figures shown for February, May, August, and November represent the average monthly employment during the quarter.
 # Average monthly employment is based on data submitted for 8 months (March and June to December).
 ## Data represent the sum of all employees on the monthly pay rolls, plus the highest number on the semi-monthly, weekly, and any other pay rolls; hence are not strictly comparable with other data shown. Also, because of the limitation of taxable wages to the first \$3,000 earned by a worker, some employers did not include workers in the count of employment when their earnings were no longer taxable.
 † Data for first quarter are not strictly comparable with those for subsequent quarters.
 ‡ Average monthly employment is based on the data submitted for 9 months (April - December).

- 1/ Includes major industry groups 40-46 inclusive, 48 and 49.
- 2/ Includes major industry groups 50-57 inclusive, 71 (eating and drinking places), and 75 (automobile repair services, garages, and filling stations).
- 3/ Includes major industry groups 60-66 inclusive.
- 4/ Includes major industry groups 70, 72, 73, 74, 76-83 inclusive, 86 and 88 (governmental agencies other than Federal).
- 5/ Includes major industry groups 67, 68, 85, and any others not elsewhere classified.
- 6/ Excludes major industry group 40 (interstate railroads) not covered by State Law.
- 7/ Average monthly employment for the "miscellaneous" industry division was less than 100 and has been included with the "service" industry division.
- 8/ Does not include approximately 10,850 workers reported under temporary numbers each month.
- 9/ Includes approximately 18,000 workers in domestic service, covered by the State.
- 10/ Based on data for four months (March, June, September, and December).
- 11/ Data not available.
- 12/ Data adjusted to conform with Social Security Board industrial classifications.
- 13/ Includes approximately 13,000 government employees (other than Federal) covered by State Law.

Note: For explanation of symbols, see general footnotes to Table 1.

1/ Alaska reported no employment; North Carolina and South Carolina included this industry with major industry group 48 (utilities); the following States reported average monthly employment of less than 100: Arizona, Georgia, Idaho, Mississippi, Nevada, New Hampshire, New Mexico, North Dakota, South Dakota, and Wyoming.

2/ Some employment for this major industry group may be included with major industry group 48 (utilities), where street railways, local bus lines, etc., are operated by electric light and power companies. Municipal corporations are not included when exempt from coverage by State law.

3/ Monthly data not reported.

1/ Does not include approximately \$12,000,000 reported for employees under temporary numbers; includes \$30,139,000 reported for domestic service, covered by State law.

2/ Includes \$750,000 unallocated by quarters.

3/ Includes \$22,000 unallocated by quarters.

4/ Includes \$2,571,000 unallocated by quarters.

5/ Includes \$232,000 unallocated by quarters; includes \$12,980,000 paid to government employees (other than Federal), covered by State law.

*** Liability for unemployment compensation purposes is determined by the number of workers engaged in covered employment by an employer. The size-of-firm figures shown indicate the minimum number of workers which employers must have over a specified time period before becoming subject for contributions.

* Effective October 1, 1938, the minimum size-of-firm inclusion in Louisiana was changed from employers of 8 or more workers within 20 weeks of the current or preceding calendar year to 4 or more in 20 weeks or 12 or more in 10 weeks in 1938 or any subsequent year.

** Includes that part of any worker's annual wage in excess of \$3,000, although not taxable under State law.

Excludes that part of any worker's annual wage in excess of \$3,000.

Data for first quarter are not strictly comparable with those for subsequent quarters.
