FISK & НАТСН,

BANKERS AND DEALERS IN GOVERNMENT AND OTHER DESIRABLE SECURITIES,

No. 5 Nassau Street, New York, RECOMMEND TO INVESTORS THE FIRST MORTGAGE BONDS OF THE

THE CENTRAL Pacific Railroad Co.,

This Company is constructing, under the patron-age of the UNITED STATES GOVERNMENT THE WESTERN END OF THE

GREAT NATIONAL RAILWAY ACROSS THE CONTANENT.

Their line will extend from Sacramento, California, across the Sierra Nevadas to the California State line, travelsing the RICHEST AND MOST POPUL LOUS SECTION OF CALIFORNIA, and thence through the GREAT MINING REGIONS OF THE TERRITORIES, to the vicinity of Salt Lake City.

It forms the sole Western link of the only route to the Pacific which is adopted by Congress and aided by the issue of United States Bonds.

Their road is already completed, equipped, and running for 94 miles from Sacramento to within 12 miles of the summit of the Sierras, and a large amount of the work of Grading, Tunnelling, &c., beyond that point has been accomplished.

The First Mortgage Bonds of this Com-pany afford unusual inducements of Safety and Proat to Investors, for the following among other reasons, VIZ :

FIRST -The rate of Interest is Six per Cent. in Gold, payable semi-annually in the City of New York.

SECOND.-The Principal is payable in Gold at matur.tv.

THIRD.—The cost of the Bonds, Ninety-five Per Cent. and accrued interest, is Ten Per Cent. less than that of the cheapest Six Per Cent. Gold Bearing Bonds of the Government.

Fourth.—The United States Government provides nearly haif the amount ne-cessary to build the entire road, and looks mainly to a small per-centage on the future traffic for re-payment.

FIFTH.—Owing to this liberal provision, accompa-nied with Extensive Grants of Public Lands, by which the Government fosters this great national enterprise. its success is ren-dered certain, and its financial sta-bility is altogether independent of the contingencies which attend ordi-nary Railroad enterprises. nary Railroad enterprises.

SIXTH. - The Security of its First Mortgage Bonds is therefore ample, and their character for safety and reliability is equalled only by that of the obligations of the Government itself.

SEVENTH.—The net earnings of the completed portion are already largely in excess of the interest obligations which the Company will incur on twice the dis-tance, and are steadily increasing, rendering the uninterrupted payment of the Inte-rest absolutely certain.

EIGHTH.—At the present rate of Gold they pay near-ly S% Per Cent. per annum, on the amount in-vested.

The Bonds are issued in denominations of \$1,000 with semi-annual Gold Coupons attached, payable in New York, and are offered for the present at 95 per cent. and accrued interest (in currency) from nuary 1st.

BUSINESS ENTERPRISE AND THE MONEY MARKET.

Among the topics for discussion the condition of the money

to excess, seem to have rushed into the opposite extreme of "low pressure," as is shown by the recent low aggregate of manufacturing and other productive industries. There are however, some symptoms of a reaction. We have a prospect of ample crops. The earnings of the railroads show an Many other circumstances contribute to improvement. foretoken that the depression of several months past with its enforced quietude will give place to a more gratifying activity. The Luxemburg question being settled in a pacific manner, almost the only cloud of uncertainty which hangs over the favorable vaticinations comes from the direction of the money market. If we have stringency there, the other conditions of resuscitated business will be present in vain. What then is the prospect? Will money be easy for the 5 or 6 months which must elapse before the usual activity sets in in the fall, or will there be during that interval a series of interrupting embarrassing spasms of temporary stringency?

C.

To answer this inquiry we may look first, at the supply of floating capital seeking employment in the loan market. And no one can doubt who is conversant with the facts that the accumulation is unusually large. It is true that a good deal of this capital is investing itself in Government securities, and that from this movement the proportion between the floating and fixed capital of this country has undergone some changes since the addition of 2,000 millions of United States bonds to the mass of pre-existing investments for the savings of the people. But, by a singular and beneficent law, the multiplication of safe investments in any rich, thriving country increases the rapidity with which the capital of that country augments. Thus the reservoirs of floating capital are now fuller than formerly, besides being more capacious and more rapidly supplied. Hence it happens that notwithstanding the prodigious aggregate of fixed capital which has gone into Government bonds, the floating capital of the country is as large or larger than ever. And not only our banks, trust companies, and other lending institutions have abundant means to meet large demands for accommodation; but in consequence of the obstruction of the outlets for employing capital in business, many of our large merchants and importers are large lenders of surplus funds. So far then as the supply of idle capital is concerned, we may expect an easy money market. Secondly, as to the abundance of currency, there is never at this time of the year any difficulty, for the flow of greenbacks sets strongly towards this city, and the tendency is for bank notes to accumulate to an extent even beyond what is salutary or convenient. It is true that the movements of the currency may, during this Summer, suffer a little disturbance from the heavy business of the Treasury. Next month the income tax is payable, and, with the o her internal taxes, will withdraw some 40 millions out of the channels of the circula-

market claims just now an unusually prominent place. The long continued lull in commercial enterprise, the general dullness of business, and the fact that in 1837, 1847, and 1857 this country was ravaged by financial panics, have led a few persons to anticipate that the current year will not close without a serious revulsion. And though it would be easy to show that the existing state of our monetary machinery is unfavorable to the fulfilment of these predictions of disaster, still as the laws of funds are imperfectly understood, and by most people are much misunderstood, it is no wonder that distrust is generated, and that an anxiety pervades all classes of our people, not to venture out of their depth, or risk monetary engagements beyond their assured means.

When, a few months ago, the credit machinery of the country was working at "high pressure," we warned our readers against the dangerous results to be apprehended from over expansion. Now the people, with the usual tendency tion. But these payments will be widely distributed, and the disbursements will be rapid on account of the heavy amounts of Seven-thirties that are being purchased by the Treasury for cash, and of the compound notes, of which 8 millions mature in June, and 12 millions in July, all of which the Secretary has announced his willingness to pay off on demand. From these and other causes the disbursements from the Treasury will probably equal the receipts, and no serious hindrance to business or perturbation of the markets is to be apprehended from the locking up of currency in the Treasury.

Exempt, as we shall thus be, in all probability, from two of the chief causes of financial stringency-deficiency of available capital seeking investment, and derangement of the currency by the movements of the Treasury-we may fairly anticipate an easy money market except, indeed, the general confidence should be impaired by further failures in the South or elsewhere. So far, however, these failures have only served to show on how firm a basis the credit machinery of the country reposes. Outside of a narrow circuit the suspension of Watts, Crane & Co. for six millions, and that of Fraser, Tranholm & Co. for four millions, scarcely produced a perceptible tremor, although these failures were so suddenly announced, so wide in their influence and so vast in the amounts involved. The fact appears to be that our commercial classes generally have prepared for financial reverses, and have strengthened themselves in all possible ways. But it must be remembered that, though a ship under bare poles may scud through a storm, yet in fairer weather, for purposes of navigation and commerce, risks must be taken, and as much sail carried as wise seamanship will justify. To err from timidity or ignorance in the one case is almost as fatal as to err from rashness and incapacity in the other.

THE FATE OF MEXICO.

It is rarely that war results in any real amelioration of the condition of a people. The cases are few indeed in which its costs do not largely exceed its compensations. Civilization owes much more of its interruptions than of its progress to this cause. Indeed, being the carnival of passion and the revelry of ambition, its results could scarcely be otherwise than detrimental to humanity and progress.

The struggle in Mexico affords poor promise of an issue exceptional to this rule. The contest was started for the os tensible purpose of substituting chronic anarchy by stable and effective government; it appears likely to end in the perpetuation of social confusion. Accounts from the seat of war are so contradictory that little can be definitely affirmed as to the situation of affairs; it may, however, be safely concluded, from the general tenor of accounts, that the final overthrow of the imperial government is but a question of weeks. The disregard for the laws of civilized warfare which characterises the operations of the liberals shows how far passion is gaining the ascendancy in the contest, and foreshadows the lawless condition of affairs which may be expected to succeed. The factions and the bloodthirsty propensities of the Mexican people have been thoroughly aroused, and the circumstances admit of little hope that social order will follow the extinction of imperialism. Maximilian represents a faction which, though in a minority, will never long cease to oppose a liberal form of government. His adherents are now fighting less for their Emperor than for the ascendancy of the church party and the upper classes; and though their cause under its present leadership may fail, their submission will be made with a sullen resolution to seize the first occasion for recovering their ascendancy. Besides the hatred between the factions of even the liberal party are too bitter and fundamental, and are too little under the check of civil- present, it takes all our resources of statesmanship to take

ized sentiment to admit of the political parties of the country co-operating harmoniously under a free form of government; and, after five years of fierce warfare, the possibility of harmony is more than ever remote. Few of those who have been drawn into the armies will return to the pursuits of industry, and the country will be harrassed by a large accession to the ranks of the lawless and plundering population.

It will scarcely be questioned that this is a fair representation of what will be, in the event of the final success of the liberals. Is it improper to ask what would have been in the event of France continuing her support of the imperial cause? Without entering upon the abstract question of forms of government, it may be safely affirmed that the continuance of the French troops in Mexico would have given the country a government capable of controlling the lawless habits of the people. If political rights had been subjected to the dictation of the government, the rights of property would have been secured; the safety of the person would have been secured; capital would have found employment in developing the splendid resources of the country, and society would have been arrested in its rapid reaction toward barbarism. It would be a poor objection against these vital advantages to say that they would have been conferred by the strong hand of power. Surely civilization under a despotism is to be preferred to a semi-barbarism under a demoralized republic.

It is not very gratifying to reflect that we are chiefly responsible for the unfortunate course into which affairs are drifting. The departure of France from Mexico is due to the energy of our protest; and if the Mexicans relapse into a condition of anarchy it will be for no other reason than that we refused to allow them to be coerced into order. It was doubtless very undesirable that we should have the representative of a European dynasty enthroned upon our borders; but were we justified in objecting to France establishing order in Mexico without being prepared to contribute that result ourselves? Our policy has been wholly selfish. We have cared nothing for neighbors so long as we could keep a foreign prince from our door. It is futile to urge that we have protected Mexico against having her freedom trodden down by an invader, so long as the Mexicans are incapable of governing themselves. To say that we saved their liber ties means that we have perpetuated their anarchy. To liberate them from restraint is to enable them to commit suicide. Mexicans may thank us for this questionable boon, but history will hold us responsible for a grievous political wrong. It may be said with much truth, that the mode and time of the French intervention was so offensive to us that any other course than that taken by the government was scarcely admissible; and we think that if it be granted that the end we sought was desirable or necessary, the Secretary of State is entitled to great gredit for the course he pursued to accomplish it. Still the result is that so far as Mexico is concerned, anarchy is about to be substituted for what was fast becoming a stable government, and we must, in a great measure, be held responsible for the event. There appears to be a partial awakening of the public conscience upon this question. Indications are apparent of a disposition to ask whether we are not bound to do something toward mitigating the misfortunes which our policy has brought upon Mexico. Whether this question is likely to be raised by the Government or in Congress we are not prepared to say; we presume, however, that it will be ultimately decided rather upon grounds of ability and of expediency that upon considerations of moral obligation. Clearly it would be only adding folly to wrong to attempt to identify ourselves with Mexican interests. At

THE CHRONICLE.

care of ourselves. We have nothing to spare for Mexico, either in the shape of money or men. Our taxation has reached the limit of endurance, and yet the extravagant schemes of our legislators render an increase of our burthens inevitable. We cannot afford to undertake a protectorate, however informal, over Mexico; for the result would be to entangle us in the affairs of our neighbors without any compensating advantage. The Mexicans are sadly impoverished, and are not likely to reimburse us for any expenditures we might incur on their account. As yet, we have kept ourselves clear of foreign incumbrances, and it will be fatal to our tranquility when we depart from that wise policy; for any interference in behalf of government and order in Mexico must be undertaken with a distinct understanding that the end of our intervention would probably be the annexation of the country to the United States. The incessant outbreaks incident to Mexican politics would ultimately throw the whole onus of government upon ourselves, and we should find no other way out of our complications than by taking absolute possession of the country, with all the cost and annovance of keeping eight millions of half civilized lawless population in order, and with the dangerous necessity of governing them by the sword, to say nothing of the liability for foreign claims. Intervention, therefore, by the United States alone is not to be thought of, nor are we prepared to indicate what course should be pursued. For the present, however, we must await further developments, and event ually it is possible that, if anarchy continues to reign, and no better remedy be suggested, a joint intervention on the part of the United States and other powers interested for the simple purpose of enforcing order, may be thought desirable.

TRADE OF GREAT BRITAIN AND THE UNITED STATES.

COTTON, BREADSTUFFS, PROVISIONS, ETC.

The British Board of Trade returns for the first quarter of the present year indicate that notwithstanding the apparent slackness which has existed in Great Britain for the last few months, the export trade of the country is still quite satisfactory. In comparing these figures, however, with those for 1866, it should be remembered that the trade of the United Kingdom last year was more than usually animated. Very large purchases were then being made by ourselves, the declared value of the exports to United States ports, in the first three months being as much as £8,000,000, against only £3,000,000 in 1865. This year, in the same period, the shipments have reached a total value of $\pounds 6,113,600$, so that, as compared with 1866, there is a dimunition of nearly $\pounds 2,000,$ -000, but as compared with 1865, an increase of rather more than £3,000,000. Neither of these comparisons, however, can be considered fair, for during 1865 our purchases were much below the average, while last year our merchants were taking more than an average supply. If therefore, we extend the comparison to the year of 1864, we shall find that the declared value of the exports of British and Irish produce and manufactures to the United States was £6,500,000, showing a dimunition this year of £400,000 only. This country still ranks as the best customer that England possesses for her manufactures, nearly one-fifth of the total shipments being on United States account. The principal decline in the exports to this country in the first three months of the present year is in cotton piece goods, which show a falling off to the value of $\pounds410,000$, in linen piece goods £463,0 0, and in woolen and worsted manufactures £789,000. Haberdashery and millinery, cutlery, linen thread, bar iron, wrought iron, iron hoops and boiler plates, tin plates, silk manufactures, and alkali, also exhibit a considerable reduction; but, on the other hand, there is an import-

ant augmentation in the shipments of railroad iron, the increase in the export of this article being nearly £233,000. In the annexed statement will be found all the leading articles of export to the United States, together with the aggregate value of these shipments hence during the first three months of each of the last three years :

The import of cotton in March was 883,840 cwt., of which 512,988 cwt., were from this country, 228,871 from Egypt, and only 50,521 cwt. from the East Indies. The total supply received last year was 872,827 cwts., and in 1865, 621,673 cwt. For the first three months of the present year the imports were 1,815,219 cwts., against 2,026,409 cwt. in 1866,

and 1,433,274 cwt. in 1865. Annexed are the particulars of these imports:

BREADSTUFFS.

At the date of our latest advices, the wheat trade in England was very quiet, but very firm. This arose out of the circumstance that a considerable inroad had been made into the stocks of old wheat, which had been held over from the fine harvests of 1863 and 1864, but as the weather was fine, and as the harvest prospects were good, while the imports from foreign countries were on such a scale that supply and demand were pretty equally balanced, millers exhibited great caution in making purchases, and hence the quietness of the trade. So long as the state of the weather justifies millers in believing that a good crop of wheat may be anticipated, there seems to be no doubt but that they will continue to pursue their present cautious policy. It may therefore be expected that, with the prevalence of fine weather, the wheat trade in England will assume a position for several weeks quite devoid of interest, but if unfavorable weather intervene, between now and harvest, there seems to be room for a considerable rise in prices. In the Board of Trade returns, this country still continues to exhibit a very inferior position with regard to our shipments of cereals. In the first three months of the present year, out of a total import of wheat of 6,061,852 cwts., 2,789,245 cwts were received from Russia, 901,117 from Prussia, and only 508,244 cwts. from this country. The total import of flour was only 885,183 cwts., being nearly 1,000,000 cwts. less than in 1866, and of this quantity only 59,560 cwts. were received from the United States. The annexed statement shows the imports of cereals into the United Kingdom from January 1 to March 31, 1865, 1866 and 1867:

[From our own Correspondent.]

LONDON, Saturday, May 11, 1867.

The closing days of the present week exhibit a very favorable contrast with those of the corresponding week last year. Twelve months have now elapsed since Overend, Gurney & Co., limited, failed, and although it cannot, even at this date, be said that we have wholly recovered from the crisis, still a perceptible improvement has recently taken place, the various Stock Exchange markets being characterised by considerable activity, with an important rise in the quotations. That caution, however, which has been so prominent a characteristic in com mercial circles for a long period is still an existing fact, and although business shows a disposition to extend itself into legitimate channels, the transactions in produce and manufactures continue to be chiefly of a hand-to mouth character. Still without doubt confidence is being gradually restored though very slowly, as would naturally be the case after so great a collapse as took place in so many quarters of the globe in 1866. At certain periods, many of our markets suddenly become quite animated, and without making due consideration, we are led away with the idea that all difficulties have been overcome, and that we are now on the way to a speedy return to active and remunerative trade. Such, however, is the sensitiveness prevailing here, that this recovery receives a check as rapidly as it was obtained, and then the respective 33,184 markets subside into a state of comparative gloom, to be, in their turn, changed into buoyancy and activity on the return of favorable rumors, 111,685 7,335 however slight. Such has been the case this week in regard to the Liverpool and Manchester markets. In the early part of the week, these markets, and more especially the former, were characterised by considerable animation, and rather an important amount of business was transacted. The suspension of Messrs. Given, Watts & Co., of New Orleans, Messrs. Watts, Crane & Co., of New York, and Messrs. W. C. 1867. 1,208,080 5,608,507 Watte & Co., of Liverpool, caused these markets to assume a less satis-910,476

(May 25, 1867.

A decline has taken place in the value of these articles during the present year, and although prices are still high, a gradual downward movement in the quotations is perceptible. The imports in the three months had been :

The imports, exports and consumption in the three months ending March 31, were as under:

IMP	ORT.	
Stemmedlbs. Unstemmed Manufactured and snuff	1865. 660,181 9,685,443 567,829	1866. 2,864,640 7,838,232 502,777

itized for FRASER

factory position, but the effect has been more apparent at Manchester than at Liverpool. At the latter the dulness of tone, and slight depreciation in prices were merely temporary, and only lasted during the earlier hours of business; but at Manchester, the announcement has led to much more caution and circumspection being observed. So that the actual amount of business transacted during the present week is only moderate. Several weeks since I observed that the great depression which then existed in the cotton trade could not last much longer. I inferred this from the fact that the stocks of goods abroad were getting low, and, therefore, that a larger export trade might be anticipated with the natural recovery of the fall in prices which had taken place. Those anticpations have required a longer period to be realised than anticipated. It would seem, however, that such a result would have been obtained before this had it not been for the Luxemburg difficulty, which had so disastrous an effect upon many of our markets. The efforts of the Members of the Conference having proved successful, and the hope somewhat generally entertained that an enduring peace in Continental Europe will be secured, have produced a most salutary effect, the result being that there are manifest signs, not only of increasing confidence, but of more extensive trade. At the same time, it may be observed, that our colonial advices are, on the whole, much more encouraging. In Australia, indeed, business is still very sluggish, and it will probably be a long period before we witness a renewal of confidence at Sydney, Melbourne, and Adelaide ; but, as regards the East Indies, the future is not only looked forward to with the greatest hope, but the present condition of affairs there is calculated to have an important influence in tending to restore animation here. Our latest advices from Bombay state that the commercial aspect at that point is most favorable; confidence has very materially increased, and the profits in commercial transactions are larger and more certain than for many months past. The supplies of East Indian cotton afloat are considerable, but much below last year. Nevertheless, cotton is arriving at Bombay somewhat freely from the interior, and shipments are progressing at a somewhat rapid rate.

Respecting the crop of cotton in the East Indies, a report has recently been published relating to the Northern division of the Bombay Presidency, written by Mr. W. Walton, the acting cotton commissioner From this report, we learn that in the Northern Division the increase in area for 1866-7 is, for exotic cotton 981 per cent., subject to a decrease in native growth of eight per cent. Then as to out-turn : the increase in the Southern Division was, for indigenous cotton 211 per cent, and for exotic 271; but in the northern portion of the presidency the increased yield this year in 1865-6 is, in exotic cotton 370 per cent., subject to a decrease in the native variety of 12 per cent. This enormous increase in the better variety is due nearly as much to improved yield as to increased breadth under cultivation. In the Southern Division the increase of land under cotton cultivation in 1866-7 is, in exotic cotton 17 per cent, and in native 7 per cent. There are now under cotton cultivation in Bombay, 1,978,128 acres of land, of which 751,814 acres are planted with exotic cotton. These figures show an increase of 54 per cent as compared with last year.

Our agricultural prospects this year appear, so far, very favorable and an abundant harvest is anticipated. There can be no doubt that the quantity of land under wheat cultivation has increased. This would naturally be the result of the high prices current at the completion of last harvest, and the large inroad made into the farmers stocks of old wheat. But besides this the appearance of the country shows that the cultivation has actually increased. During the last few days, owing to the brilliant weather, there has been much less activity in the trade, and millers have operated with extreme caution. This is, indeed the policy they have pursued during the whole of the year, and one which they are likely to follow so long as our harvest prospects continue good. Under a fair importation, there can be no doubt that the tendency of prices will be downwards. But the stock of wheat in this country is below the average, and with a fair importation, which is all that we can expect, supply and demand seem pretty equally balanced There appears, therefore, to be no room for any material fall in prices On the other hand, should our crop prospects be of such a nature that rather less than an average crop can only be looked forward to, a higher range of prices is not unlikely to be established. We are now enabled to ascertain the extent of our importation of Wheat into the United Kingdom in April, and during the four months ending April 30. I may observe that the return for the month embraces a period of four weeks, and not of thirty days, so that the figures given are somewhat approximate, and are not likely to correspond ex. actly with those of the Board of Trade returns, which will not be published for about three weeks. They show, however, that our imports of wheat in April were large, and considerably in excess of last year. The import for the four months is about 9,000,000 cwt., being nearly 2,000,000 cwts, in excess of the corresponding period of 1866. Of flour,

however, owing to the great dimunition in our receipts from France and America, there is a decline of 1,200,000 cwts. The statement is as follows:

Imports of grain, &c., into the United Kingdom in April:

Wheat	1864. 1,428,452 451,379	1865. 659,907 516,525	1866. 1,511,460 862,874	1867. 2,919,073 627,226 629,336

Peas Beans Indian Corn	202,014 340,058	70,491 246,319 1,316,017 985,376	209,867 119,635 4,074,576 2,344,408	381,470 619,262 2,162,056 1,109,055

It was thought by many in London that not only had the lowest price of money been reached, but that there was a tendency to higher quotations. This opinion had been formed in consequence of an active demand having existed for a period of about two weeks. It was supposed that the supply had been diminished, and that a steady upward movement was about to take place. Three circumstances contributed to this increased demand, viz., revenue payments, the " fourth" of the month, and the arrival at maturity of a large amount of Indian paper These demands upon the market, therefore, were but temporary, and now that they have been all met, there is less animation, and a return to continued ease. With regard to the supply, it would seem that in consequence of the war rumors, and of several unfavorable reports respecting Liverpool houses, the banks and discount houses were exhibiting more caution, and greater difficulty was therefore being experienced in obtaining advances on second-rate paper. The falling off in the supply was apparent and not real, for the market is still well supplied. Many are disposed to look upon an increasing demand for accommodation as indicating a less favorable state of affairs, and Consols generally become weaker when such is the case. Annexed are the que tations for discount, so far as the best descriptions of paper are concerned :

On the Continent, the principal changes in the rate during the week have been at Madrid and Hamburg, at both of which cities there has been a decline in the quotations. The supply of bullion in the Bank of France is now \pounds 31,640,000; and as the requirements of the commercial body in France are likely to be comparatively small for some time to come, there is no immediate prospect of permanent stringency in the money market. Annexed are the quotations at the leading cities at this date and at the corresponding period last year:

Very little of importance has transpired in the bullion market. Gold is in fair demand for export, and further supplies have been withdrawn from the Bank of England. Several gold ships are now due from Australia, and at present it seems probable the supplies they convey will be sent to the Continent. Exchange from Bombay comes low, and there is no heavy demand for remittance to the East. As regards silver, the principal purchases are on Continental account.

The Conference having arrived at a peaceful solution of the Luxemburg difficulty, the rates of foreign exchange are more favorable to this country. The tone of the consol market has been firm. The public continue to make investments, which, coupled with the more favorable political aspect with regard to the Continent, and the approaching settlement o the question of reform have tended strongly to enhance the quotation s A fair amount of business has been transacted. Yesterday the market was very firm ; but to-day there is a slight reaction. Annexed are the highest and lowest prices each day during the week :

At the commencement of the week the market for American securities was very quiet; but with the more favorable 'political aspect, a better tone has been apparent during the last two days, and the quotations have experienced a considerable rise. United States Five-twenty bonds are much less freely pressed for sale on German account, and prices have improved to the extent of about one per cent. United States Five-twenty bonds close this evening at 72 to 72¹/₂; Erie Railway shares, 42 to 43; Illinois Centrale, 76 to 76¹/₂, and Atlantic and Great Western consolidated mortgage bonds, 21 to 22. The highest and lowest prices of American securities on the days enumerated are subjoined :

HIGHEST AND LOWEST PRICES OF PRINCIPAL AMERICAN SECURITIES.

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a considerable decline both in dry goods and in general merchandise, the total being only \$3,933,315, against \$5,152,677 last week, and \$4,292,967 the previous week. The exports are \$3,982,664 this week, against \$3,235,734 last week, and \$4,198,819 the previous week. The exports of cotton the past week were 9,637 bales, against 8,438 bales last week. The following are the imports at New York for week

-The following is the explanation of the Secretary of the Treasury of the recent exchanges made of registered United States bonds:

TREASURY DEPARTMENT, OFFICE OF COMPTROLLEE OF THE CURRENCY, WASHINGTON, MRY 20, 1867.

SIR--In response to your verbal inquiry, I have to state that under the National Currency act of February 25, 1863, national banking associations were authorized to deposit with the Treasurer of the United States any certificates of the funded debt of the United States, whether coupon or registered, as security for the redemption of circulating notes. Under this act about \$17,500,000 of coupon Five twenties of 1862 were so deposited.

The act of June 3d, 1864, provided that registered bonds only should be received and held as security for such notes. After the passage of this act, all banks having coupon bonds on deposit with the Treasurer were notified that they would be expected to have such bonds converted into registered bonds: and this was done to a very general extent. Subsequently, those banks which had neglected to comply with these requirements, were notified that the Department objected to having the custody of coupon bonds as security for circulation : that it was the the object and intention of the law that registered bonds only should be held by the Treasury for that purpose, and they were requested to take immediate steps for the conversion of their coupon bonds, under the penalty of having the payment of interest suspended until it was done. Within a few months past a number of these banks made application to have their Five-twenties of 1862 returned to them in coupons bonds. In consideration of the fact that they were converted into registered bonds under compulsion, and that the banks should not be compelled to suffer pecuniary loss by the action of the department, I recommended, as ant act of justice, that they should be permitted to withdraw their Five- wenties of 1862, and that clean coupon bonds should be issued to them in lieu of the registered bonds into which their c upons had been conve^Tte d. Upon the representation of the facts in the case, and also upon the statement of the Register of the Treasury that he had a limited a mount of coupon Five-twenties of 1862 on hand that had never been issued, you consented that the exchange should be made, upon condition that the bank should furnish Seven thirties of the first series for conversion into consolidated Five twenties at the Treasury Departm = t, without the agency of brokers or the payment of any commissions e the government for such conversion.

by The total amount of coupons of 1862 thus issued to the present date

\$2,872,500. I am informed by the Register of the Treasury that he isas but \$2,447,100 remaining, and as you stated at the time the arhrangement was made that you would have no additional bonds printed for that purpose, I presume these exchanges will be limited to the amount now on hand. Very respectfully,

H. R. HULBURD, Comptroller. Hon. HUGH McCulloch, Secretary of the Treasury.

Below we give the section of the National Currency Act under which this exchange is made :

this exchange is made: SEC. 7. And be it further enacted. That the Secretary of the Treasury is hereby authorized to issue, upon such terms and under such regulations as he may from time to time prescribe, registered bonds in exchange for, and in lieu of, any coupon bonds which have been or may hereafter be lawfully issued; such registered bonds to be similar in all respects to the registered bonds issued under the acts authorizing the issue of the coupon bonds offered for exchange. And for all mutilated, defaced, or indorsed coupon or other bonds presented to the department, the Secretary of the Treasury is outhorized to issue, upon terms and under regulations as aforesaid, and in substitution thereof, other bonds of like or equivalent issues.—Act of June 30, 1864.

The Bankers' Gazette.

DIVIDENDS.

We give in our BULLETIN from day to day lists of bonds, &c., lost, and dividends declared. These tables will be continued daily, and on Saturday morning such as have been published through the week in the BULLETIN will be collected and published in the CHRONICLE. Below will be found those published the last week in the BULLETIN.

FRIDAY, May 23, 1867, P. M.

THE MONEY MARKET .- The advance in the rate of interest noted at the close of last week, has proved to be but temporary. The demand for loans has been strictly moderate, and since Monday the rate on call loans has ruled at 5 per cent on stock collaterals, and 4 per cent. on Governments. The Sub Treasury, however, has again largely increased its balances, the balance this afternoon being \$132,700,000, against \$125,000,000 on Thursday of last week, and \$110,000,000 on the 6th of May. As yet this withdrawal of currency from the banks has produced no perceptible effect upon the market; but unless the current be reversed, it is quite probable that the rate of interest may show more firmness; especially as the receipts of money from the interior exhibit a slight decline. This probability would be increased should the present downward movement in the stock market be continued ; as the banks would be apt to call up margins upon stock loans, thereby increasing the demand for money.

The accumulations of idle money cause an active demand for the new Sixty-fives at the Treasury, and the large current sales are rapidly absorbing surplus funds. This movement cannot be much longer continued without causing a partial reaction from the present ease of the market. Shortly, however, the Treasury will have to disburse several millions in the way of interest upon Seven-Thirty Notes.

Discounts are easier. There is a great scarcity of really prime paper, the more conservative merchants being indisposed to put out notes. The best class of paper at present upon the market ranges at $6\frac{1}{2}@7\frac{1}{2}$ per cent., for 3 to 6 months dates; very choice names, however, would pass at rather lower figures. Dry goods auction and other single name notes are current at about $7\frac{1}{2}@9$ per cent.

The following are the quotations for loans of various classes :

UNITED STATES SECURITIES .- The activity in Government Securities has been maintained throughout the week. Some moderate purchases have been made for shipment, and toward the close of the week there has been a very active speculative demand for Sixty twos, apparently based upon the scarcity of the bonds, and upon an anticipation of higher prices in Europe. Recent inquiries have elicited an official statement to the effect that the Treasury has exchanged Registered Sixty-twos deposited at Washington by the banks, as security for their circulation, coupon bonds of the same character; but as the amount of bonds remaining on hand available for that purpose is quite limited, being below three millions, this fact cannot have any important bearing upon the value of coupon Sixty-twos. The sales of new Sixty-fives at the Sub-Treasury are still on a very large scale, and exceed its purchases of Seven-thirty notes materially, the holders of the 1st series of Seven-thirties being ap parently disposed to hold out for the conversion of their notes into a bond bearing date from the maturity of the notes.

The Assistant Treasurer is prepared to receive Compound Interest notes of June and July dates either in the way of direct redemption, or in payment for new Sixty fives, allowing for them par and compound interest to the date of presentation. As yet, however, no very considerable amount of the notes is being presented.

The foreign market appears to be moderately supplied with bonds ; but an opinion prevails in some quarters that, notwithstanding the low rate of money at London will induce an increased demand for them. The closing quotation for Five-twenties at London to-day was 72¹/₂.

The following are the closing prices of leading securities, compared with preceding weeks :

1

RAILROAD AND MISCELLANEOUS STOCKS.-The stock market has exhibited a continuance of the weakness noted last week. Transactions have been limited; but toward the close of the week there was a marked disposition to sell, and to day business closes with a very unsettled feeling, and at a material decline from the opening figures of the day. The clique which for some time has been manipulating Erie for higher prices is understood to have realized upon a large portion of its stock. The advance in the price has drawn from London a large amount of shares (stated at 10,000) within the present month; and this unexpected supply has probably been one of the principal causes of the breaking up of the "pool." This evening, after regular hours, the stock sold down to 58¹. The whole market is weak in sympathy with the fall in this controlling stock, especially North Western common and preferred, in both of which there is a considerable "long" interest. Compared with our last quotations the fall in Erie is 4; Northwestern 22, and preferred do. $3\frac{1}{2}$; on other shares the decline ranges from 1 to 2 per cent.

The miscellaneous list is exceedingly weak. The outside public have become very distrustful of such stocks, and cannot be drawn into speculations connected with them. Cumberland is offered at 30, Quicksilver 25, and Canton 414.

The following were the closing quotations at the regular board, compared with those of the six preceding weeks:

	Apl. 12.	Apr. 18.	Apr. 26.	May 3.	May 10.	May 17.	May 24.

THE GOLD MARKET.—Gold has been, upon the whole firm, under the export movement in specie; but at the close of the week the dulness in the exchange market and the tendency of rates among the leading drawers to fall below the specie shipping figure, have caused holders to somewhat relax their firmness. The export movement this week has been much less than was expected, and it is now thought possible that the shipments may at once fall off to very moderate figures. The total shipments of specie and bullion from this port from May 4th to 22d was a little over \$7,000,000, and the amount to be sent out by to morrow's steamer is expected to be somewhat over \$1.000,000.

The fluctuations in the gold market during the week closing with Friday are shown in the following table :

	Open-		High-		Clos-	Tone of
		owest,				Market.
Saturday, May 18	137%	136%	1371	0%	136%	Dull.

FOREIGN EXCHANGE.--For both Wednesday's and Saturday's mails the demand for bills has been quite limited, and rates have been with difficulty maintained at the specie shipping point. The late active demand was chiefly for the remittance of balances, and has been very much caused by the amounts due on May coupons. The failure of of Fraser, Trenholm & Co., Liverpool, had a temporary effect upon rates.

The following are the closing quotations for the several classes of foreign bills, compared with those of the three last weeks :

the 18th as securities for circulating notes, \$340,641,450 and as security for deposits of public moneys, \$38,902,950; total, \$379,-544,400. The amount of National Bank currency issued during last week was \$11,250; total to May 18, \$302,822,206. From this is to be deducted the currency returned, including worn-out notes amounting to \$3,865,732; leaving in actual circulation at that date, \$298,956,474.

The Second National Bank of Chicago has voluntarily ceased to be a depository of public moneys, and has applied to withdraw the securities deposited with the Treasurer of the United States.

The \$12,000 in fifty and one hundred dollar notes of the First National Bank of Jersey City, stolen from the office of the Comptroller of the currency, were numbered, on the upper right hand corner. No. 19,600 to 19,689, on the lower left hand corner Nos. 671 to 750. Numbers the same on both denominations.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, May 24.

The volume of trade has been generally good the past week, and there is less complaint that the returns of business are unsatisfactory. Many of the leading staples are relatively quite low, and dealers are enabled to realize moderate profits.

Cotton has declined, closing steady. Breadstuffs declined early in the week, but prices have recovered in most cases during the past day or two. Tobacco has been less active. Groceries have been variable. Coffee is rather lower in gold for common qualities. Sugar has advanced but closes with free sellers. Molasses has been fairly active.

Provisions have been in good demand, and prices are in most cases rather better. The trade and shipping demand for Pork is not large, but some speculative demand in new Mess has been developed the past day or two, and prices have recovered most of the decline that took place early in the week. Cut Meats and Bacon are in but moderate supply, and as holders are under no apprehension of the return of large quantities from England, as happened last summer, they are very firm. Lard has been in better demand for export, but closes rather tame; the fluctuations for the week have been unimportant. Beef is more active and firm, and we notice a movement to-day to the extent of 800 tcs. for the British markets. Cheese has been taken to some extent on English orders.

Hides have remained dull, and the only business in Dry Hides has been at $\frac{1}{2}$ c., gold, decline. Montevideo selling at 19c., gold. Leather is also somewhat lower.

Petroleum has further declined, but closed active. The business includes 20,000 bbls. Crude for June and July delivery at 10c. in bulk, and standard white refined closes at $25\frac{3}{4}$ c., in bond.

Naval Stores have been firmer but close quiet. Spirits Turpentine 64c., free, per gallon, and common Rosin \$4 per bbl. Oils have been quiet and unchauged.

In Metals, there has been but little demand except for Ingot Copper, of which sales foot up a million pounds at $23\frac{1}{2}@23\frac{3}{4}c$.

East India Goods show a good demand for Calcutta Linseed, with sales at \$2 62½@2 66, gold, duty paid, per bush.; Gunny Cloth 11 cents gold, to arrive, in bond, and Gunny Bags 20⅔c., currency.

Tallow has been active and firm. Fish have advanced, and Fruits are rather firmer. Whiskey firm at 35c. in bond.

Wool continues quiet, but prices rule very firm, with an upward tendency.

Freights have become very dull. The shipments of Grain and Cotton to Great Britain have nearly ceased, and the little done has been at nearly nominal rates. The shipments of Petroleum have also been less liberal. Considerable quantities of Naval Stores and Provisions have been shipped at low rates. Several deal charters have been made mostly from St. Johns, N. B., to Liverpool at 61s.@62s. 6d.

Receipts of Domestic Produce for the Week, and since

January 1.

The following table, compiled from Custom House returns, shows the exports of leading articles of commerce from the port of New York since January 1, 1867. The export of each article to the several ports for the past week can be obtained by deducting the amount in the last number of the CHRONICLE from that here given :

Exports of Leading Articles from New York.

COTTON.

FRIDAY, P. M., May, 24 1867.

The receipts of Cotton this week from all the ports show a further material falling off, the total reaching only 14,854 bales (against 18,650 bales last week, 19,661 bales the previous week, and 18,008 bales three weeks since), making the aggregate receipts since September 1, this year, 1,712,851 bales, against 1,857,686 bales for the same period in 1865-6. The details of the week's receipts are as follows:

		· · · · ·	
New Orleansbales	eceipts. Received this week at— 4,800 Floridabale 1.557 North Carolina	Receipts. s 242 290	
Mobile	1,007 North Carolina	1.228	
Charleston	1,582 Virginia	. 1,420	
Savannah	1.835 1.736 Total receipts for week	14 954	
Terss		. 14,004	
Tennessee, Kentucky, &c	1,587	1	

In the exports this week there is a considerable increase, total reaching 38,800 bales, against 27,264 bales last week. From the Southern ports the shipments for the week have been 29,163 bales, against 18,399 bales in our last report. Below we give the particulars of the week's shipments from all the ports :

The market this week has been dull, declining steadily all the week, the closing quotations being 2c. lower than last Friday, Liverpool having also declined from 113 to 11d. for Middling Uplands. The suspension of Messrs. Fraser, Trenholm & Co. has unfavorably affected the market, disturbing confidence, and materially adding to the difficulty of negotiating cotton bills, and thus checking shipments. At the same time spinners buy very sparingly, although the decline in goods may be said to be, for the moment at least, checked, and speculators appear also to have withdrawn, leaving the market in a very stagnant condition. The sales for the week are only about 7,500 bales, and the following are the closing quotations: N. Orleans

The exports of Cotton this week from New York show a small increase, the total shipments amounting to 9,637 bales against 8,438 bales last week. The particulars of these shipments are as follows :

6,955 1,450 152

Below we give our table showing the exports of Cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1866; and in the last column the total for the same period of the previous year :

The total foreign exports from the United States since Sept. 1 now amount to 1,297,484 bales, against 1,380,066 bales for the same period last year, and the present stocks are 355,213 bales, against 403,208 bales at the same time in 1866. Below we give our usual table of the movement of Cotton at all the ports since Sept. 1, showing at a glance the total receipts, exports, stocks, &c.:

* In this table, as well as in our general table of receipts, &c., we deduct from the receipts at each port for the week all received at such port from other Southern ports. For instance, each week there is a certain amount shipped from Florida to Savannah, which in estimating the total receipts must be deducted as the same shipment appears in the Florida return. We are thus particular in the statement of this fact, as some of our readers fail to understand it.

* The receipts given for these ports are only the shipments from Tennessee Kentucky, &c., not otherwise enumerated.

+ These are the receipts at all the ports of Florida to May 17, except Apalachicola, which are only to May 10.

‡ Estimated. The stock at New York is also estimated.

MOBILE, May 18By mail we have received one week's	later dates
Mobile, may to by minte for the mask unding May 17	Wores1 557

from Mobile. The receipts for the week ending May 17 were 1,557 bales, against 1,927 bales last week, and the shipments were 1,487 bales, all of which were to New Orleans, leaving the stock on hand and on shipboard, not cleared, of 33,245 bales. The following are the weekly receipts, sales and exports for a series of weeks, and the stock, price of middling, rates of freight to Liverpool and New York, and price of gold at the close of each week:

" 17		3,750	1,487	33,245	25 @-	9-16	-@ %	136 @137			

The market has been rather quiet this week but prices are better. Factors have shown ltttle inclination to sell, but prices are rather in favor of the buyer. We quote good ordinary at 23c., low middling 24c.. and middling at 25c. at the close. Freights show no change. Livepool 9-16d., and coastwise 3c. Exchange on New York closes at 1@8c, discount. Sterling Exchange 144@146.

SAVANNAH, May 18 .- The receipts for the week ending May 17 were 1,872 bales (of which 37 were from Florida), against 3,112 bales last week. The shipments this week were 5,046 bales, of which 3,322 bales were to Liverpool, 327 to Philadelphia, 61 to Baltimore, 211 to Charleston, and 1,115 bales were to New York. Below we give the receipts, shipments, prices, &c., for a series of weeks :

			-

			•	

The market this week has been quite active and prices better. The suspension of the First National Bank caused a feverish excited feeling in financial circles, which checked transactions somewhat on account of the increased difficulty of negotiating exchange. Middling closes at 27@28c., and ordinary at 21@22c. Domestic Exchange has ruled more decidedly in favor of buyers, bankers checking on New York at par. The rate for commercial has been selling at 1@1 discount for New York sight. Sterling Exchange closed at 1491 for bankers.

EUROPEAN AND INDIAN COTTON MARKETS .- In reference to these markets our correspondent in London writing under the date of May 11, states : *

LONDON, May 11.-The demand for cotton has ruled active during nearly the whole of the week, yet a steady fall in prices has taken place. The amount of business done is considerable, viz., 73,150 bales of which speculators have taken 2,300 bales, exporters 19,250 bales, and the trade 51,600 bales. To day, as compared with Saturday last, the following changes are indicated: American a decline of $\frac{1}{2}d$. to $\frac{2}{3}d$.; Brazilian, 1d.; and East Indian 1d. per lb.; but in other descriptions, there is no material change to notice. The following are the prices current, so far as regards American cotton :

Total export for the week	2,070	3,185	.59	99	153	58,278

* The exports in this table to European ports are made up from manifests, verified and corrected by an inspection of the cargo.

The direction of the exports for the week, from the other ports, have been as follows:

From Baltimore-To Bremen, 700 hhds....To Demerara, 5 hhds....To St.

From Batthiore 10, Brenen, too indecriftee To Turks Island, 4 boxes....To Lucia, 6 hds.
From Boston--To Valparaizo, 10 cases....To Turks Island, 4 boxes....To Hayti, 128 bales....To British Provinces, 1 hhd., 11 cases, and 9 boxes.
From Philadelph a--To Port Spain, 11 case4....To Hayana, 42 bales.
From Norfolk--To Liverpool, 94 hhds., 21 tierces, and 1 box.

KENTUCKY.—At Louisville the market has been rather weak for inferior grades, of which the supply has been large; but other grades have been firm, and the close generally active. Sales for the week 1,200 hhds. We quote per lo: Common lugs. \$2 50@3; fair to good 3 50@5; common leaf, 5@7; medium, 8@10; fair to good, 11@16; good to fiue, 16@20; fancy cutting, 25@40; fancy wrapping, 20@50.

VIEGINIA.—At Richmond, yesterday, the breaks were full, market firm, and prices unchanged. Below we give the transactions. 200 hhds., tierces and boxes were offered and sold as follows;

Manufacturing Tobacco.—Lugs, common to medium dark working, \$4@7; good dark working, \$6@8; sun-cured, common, \$8@10; suncured, good, \$10@15; coal-cured, con mon, \$8@10; coal cured, bright $\pounds12@18$; coal-cured, fancy, \$20@45.

Leaf-Common dark working, \$6@9; medium dark working, \$10@ 12; good dark working, \$11@14; fine and wrapping, \$15@20: suncured, \$15, \$25@39; yellow wrappers, common, \$20@25; yellow wrappers, medium to extra, \$35, \$100@128.

Shipping Tobacco-Lugs, very common and heavy weights, \$3 50@ 4 50; medium, \$4 50@5 50; good, \$6@8

Leaf-English shipping, medium to good, \$16, \$18@22; continental shipping, \$12, \$18@20.

Stemming Tobacco-Leaf, common, \$10@13; good, \$12@15; fine \$16@20.

At Petersburg the market has been unusually active, at an advance on all desirable grades. For soft and inferior tobacco there is no demand, and sell very low. We quote good lugs from 4@, good leaf, 11@, soft increase, the larger portions of which are o inferior grades. Receipts this week, 354. hhds; last week, 179 hhds. total since October 1, 3212 hhds.

NEW ORLEANS.—With more liberal supplies a better demand has sprung up, but the bids have not been fully up to the views of holders. However the sales of the week foot up about 570 hhds., embracing the following lots: 11 hhds. leaf at $8\frac{4}{5}c$, 9 Clarksville leaf at 9c, 26 do at 10c, 4 light old leaf at $9\frac{1}{2}$, 12 light leaf at $11\frac{1}{2}c$, 6 choice leaf at 18c, 24 low leaf and lugs at 7c, 13 old low leaf at 7c, 1 Western district at 14c, 1 Clarksville at 15c, 31 ard 38 lugs and leaf and 30 fine leaf at —, 30 low leaf at 7c, 1 do at 7c, 19 lugs and leaf at 7c, 1 lugs at $5\frac{1}{2}c$, 1 admitted at 9c, 2 old admitted at 9c, 2 lugs and 3 leaf Clarksville at $10\frac{1}{2}c$, 16 Western district and Clarksville at $10\frac{1}{2}c$ per lb: the balance on private terms—quotations ranging from $3\frac{1}{2}$ to 20c for light, and 4 to 21c for heavy. Receipts for the week 526 hhds. Exports for the week, 35 hhds to New York and 3 to Galveston. Stock in warehouses and on shipboard 2,808 hhds.

The market has been generally less active this week. The large business of last week seems to have supplied for the present the wants of buyers.

In leaf tobacco, Kentucky, Virginia, &c., the sales thus far for May foot up 5,200 hhds., but for the last few days the de mand has been less active. Nothing further has been done on account of the French contract, and it is reported that the party holding the contract has already secured nearly or quite sufficient to fill it. There has been a steady demand for export to the Mediterranean and the north of Europe, at full prices.

In Seed Leaf the business has been much less brisk, prices remaining about as before. Sales embrace 19 cases Connecticut, crop of 1866, 14c.; 35 cases Connecticut, crop of 1864, 20@35c.; 28 cases Connecticut, 7@8c.; 61 cases Connecticut, crop of 1865, $11\frac{1}{2}c.$; 250 cases Connecticut, various lots, 11@14c.; 47 cases Ohio, private terms; 65 cases Connecticut, crop of 1865, and 130 do., crops of 1865–'66, on private terms. Manufactured Tobacco has been quiet, and we hear of no transactions of moment.

Foreign Tobacco has been more active. The sales embrace 100 bales Havana at $87\frac{1}{2}$ c., and 180 bales do. at 102c.

MARYLAND.—At Baltimore receipts are larger both of Maryland and Ohio. The market opened very brisk for Maryland, and for the first two days there was much competition among buyers. On Wednesday and Thursday there was some abatement, though the market closed very strong and active. Of Ohio, we notice sales of 220 hhds., mostly new receipts, within our range. Kentucky is still inactive. Inspec tions this week 1,662 hhds. Maryland, (10 re-inspected) 577 Ohio, 37 Kentucky, and 16 Virginia—total 2,291 hhds. Cleared same time 700 hhds. to Bremen and 11 to West Indies. Stock on hand 18,272 hhds. We quote:

BREADSTUFFS.

FRIDAY, May 24, 1867, P. M.

The market has been depressed all the week, but closes with more steadiness, owing to the fact that expected supplies have not come forward.

Flour has further declined 50c. per bbl. on the average. But receipts continue light, and yesterday and to-day the trade have purchased more freely. The arrivals at the Western markets have been more liberal, but the shipments Eastward are still on a very small scale, and prices in Chicago, Milwaukee, Buffalo and Oswego are on a par with this market, with no account for transportation, but for some days have ruled extremely dull.

Wheat has been in very limited demand. The unfavorable course of the flour market has caused millers to withdraw; but holders have been very firm, and the prices show very little change from last week, except that for Prime No. 2 Club, which then sold at \$2 75 only \$2 70 is now paid. The receipts at Milwaukee and Chicago continue liberal, and we learn that at Richmond, Baltimore and Philadelphia the receipts for some days have been larger than was expected, so much so that Richmond has a surplus of flour that she sends to New York. This market is still waiting supplies of California Wheat, which are now overdue to the extent of about 120,000 bushels.

Corn declined early in the week to \$1 15 for prime new mixed, \$1 25 for prime old do. The break in the canal at Schenectady has been repaired, but we have as yet no arrivals from it. The local trade has been compelled to enter the market, and prices have advanced 7@10c. per bushel from the lowest point. A material decline in freights to Great Britain has favored shipments, but supplies have been so deficient that the shipments of the week do not exceed 65,000 to all Great Britain. The receipts of corn at the lake ports have, for the current week, been less than half as large as the corresponding period of last year. But the Ohio Valley is sending forward liberal supplies to Beltimore and other markets, from which our supplies are partially derived.

Oats have been firm with an active speculation. Rye has been steady. Barley has been more active, part for export; prime Canada being taken at \$1 05 in bond. Canada Peas have been held at \$1 30 in bond, but are now held firm at \$1 35.

LIVEBPOOL, 10th May .- We have had a week of glorious growing weather and are rapidly making up for lost time. Turnip sowing too has had a better chance than at one time appeared likely. The mar-kets, however, maintain their firm appearance; in France they have slightly retrograded. Tuesday—There were again New York orders in the market for Californian Wheat, which consequently advanced ld @2d per cental. No change in Flour. Indian Corn dull and 3d@6d lower. To-day we had a very poor attendance and little animation. White Wheats, especially Chilian, were quite 2d cheaper. Flour too was dull and 6d@ls per sack lower. Indian Corn was offered at 42s 9d for mixed American, with a small demand only.

GROCERIES,

FRIDAY, May 24, 1867-P. M.

The grocery trade has been quite active and encouraging during the week, especially to holders of goods. The leading articles are firmer, while some are decidedly higher. Stocks in first hands are not large in any article, but in nearly all are much reduced. Unfavorable advices from some crops and a firmer gold market tends to higher prices. The trade demand has been fair for consumption, although in most instances a rigid economy is practiced, purchases being made only for the supply of immediate wants. The imports of all the leading articles continue to be about on an average scale, and are generally above rather than below the imports of last year for the period from Jan. 1st to date. The fact that stocks in first hands are steadily decreasing, while jobbers are not accumulating any excessive quantities, would show that thedemand for consumption has been fully equal to the imports for the past five months.

TEA.

TEA has been less active than last week, no large lots having changed hands; but the market is steady for home use, especially for fine green and black teas. The demand at the close is fairly active. The sales for the week include 1,710 half chests green, 1,750 do Japans, and 1,714

do Oolongs from first hands. The movement in breadstuffs at this market has been as follows: The weeks import includes only the cargo of the "Lord Clyde" from

COFFEE is fairly active and with light stocks of all kinds in first hands, prices continue firm. The advices from Rio, however, indicate liberal shipments, probably quite sufficient for the wants of trade at this port. The sales for the week include 15,250 bags Rio, 650 do Luguayra, an l The market closes quiet but steady at ou 800 do Maracaibo. quotations.

zed for FRASER

Imports of the week include 4,500 bags Rio per "Uller," 3,500 do per "Elise," 4,000 do per "West Indian," 8,364 do per "Merrimac," total, 20,364 bags. There were also 2,351 bags received from Laguayra, and 458 of sundries. At Baltimore, imports amount to 11,856 bags Rio, and at New Orleans, 3,057 bags of Rio.

The imports since January 1, and stock in first hands May 21, are

SUGAR.

SUGAR has been quite active for speculation and home trade during the week. The advices from Cuba are of a lighter crop, while gold is firmer and the demand for refined sugars more liberal, causing an advance of $\frac{1}{4}@\frac{1}{2}$ cent on all grades during the week. The sales are 8,500 hhds. Cuba and Porto Rico, and 3,200 boxes Havana.

The imports for the week at the several ports have not been very large, with the exception of Cuba sugar at this port, the details are as follows:

THE DRY GOODS TRADE.

FRIDAY, P. M., May 24, 1867.

The dry goods trade has continued dull, unsettled and declining during the entire week. Prices of domestic goods are not so decidedly lower, but without stability or demand to give tone to the market. This applies especially to domestic cotton goods, the demand for which seems to be light, and confined to a few special and prime brands. These are steady in price, as the supply has been kept down to the actual wants of the country. In lower grades of goods the market has been over supplied, and until the manufacturers diminish production to actual wants the market will remain depressed and unsettled. Woolen goods are still quiet, the present production is not large, but the stocks of low grades and old styles S e

Since Jan. 1...... 4,134 017,500 Same time 1866... 1,430 207,162 1,684 '' 1860.... 39,273 BROWN SHEETINGS AND SHIRTINGS are still inactive, and show a declining tendency, although there is but little decided change from last week. Agents quote at last week's prices but jobbers are offering in small quantities at the following prices, two per cent off for cash. Atlantic N 3-4 11, Indian Orchard L do 13, Commonwealth O do 9, Union do 11, Boott H do 13, Pepperell N do 14, Indian Head do 151, Atlantic V 7-8 141, Atlantic E do 151, Pacific E do 151, Tremont E do 12, Bedford R do 111, Boott O do 14, Indian Orchard W do 14, Lawrence G do 14, Pepperell O do 14, Indian Head 4-4 18, Princeton A do 171, Pacific extra do 171, do H do 171, do L do 16, Atlantic H do 171, do L do 16¹/₄, Lawrence E do 15¹/₄, do L do 17, do F do 15, Stark A do 17¹/₄, Amoskeag A do 17¹/₄, do B do 17, Medford do 16¹/₄, Pittsfield A do 14¹/₄, Kenebeck do 10¹/₄, Roxbury A do 16, Indian Orchard E B do 15, Nashua D do 14¹/₄, Pepperell E do 19, Great Falls M do

Prices show but little variation. The offerings of foreign green fruits are less and of poorer quality. Domestic dried are in fair request at essentially unchanged rates.

Tea.

CAMBRIOS AND SILESIAS are also steady in prices. Washington cambrics sell at 13 cents, Victory 11, do A 13, do high colors 14, Fox Hill 101, Superior 10, Pequot 121, Waverly 121, S. S. & Sons paper cambrics at 161, do high colors 181, White Rock 151, Masonville 161, and Indian Orchard Silesias 19, Ward do at 19.

MUSLIN DELAINES are less changed in price but the business is very small. Lowell 20, Hamilton Co. 20, Manchester dark 20, Pacific dark 20, Armures dark 23, High colors 28, Pacific Merinos 40, Mourning 23, Shepherd checks 20, Spragues 19, Skirtings 30.

LINSEYS are inactive at this time. Westerly, 321, Park 45 inch 321, do 60 do 371, do 65 do 421, Miners' Flannel 35 and 40, Rob Roy 24, White Rock 311, Black Rock 321.

COTTONADES are also in very small demand, but without change in price. Farmer's and Mechanics' Cassimeres 45, Pemberton d&t 424 Rodman's Kentucky Jean 474, Plow, L & Anvil 138, York 25 to 324, New York Mills 571, Whittenden d&t 271.

LADIES SACKINGS are in fair demand, and prices are unchanged. Leicester 1 55, Middlesex 1 55, Garibaldi rep 1 07¹/₂, Excelsior 1 50, Raritan rep 1 37¹/₂, Glenham 1 50.

CARPETS are inactive at previous prices. Velvets, J. Crossley's best \$3 60, do A1 qual. 3 35, do patent 2 85; body Brussels, Roxbury 2 75, do Bigelow 2 60; Tapestry. Brussels, G. Crossley 1 80, Lowell, ex. 3 p 2 00, do super 1 55, do med sup 1 40, Hartford Carp. Co, ex. 3-ply 2 05, do Imp. 3-ply 1 95, do superfine 1 55, Med. and low pri. Ingrain 1@1 30. AMERICAN LINEN is in fair demand at steady rates.

The Railway Monitor.

GREAT WESTERN (CAN.) RAILWAY.—The total receipts of this company for the last five years have amounted to £3,134,190, while the expenditures, including renewals, reached to £2,330,620. leaving a net revenue of £803,570, indicating an average of £100,714 per annum. The following table shows the gross earnings and operating expenses half yearly and yearly during this period :

Gr	oss earning	8	-Opera	ating expen	nses.	Nett
RebJuly.	AugJan.	Year.	FebJuly.	AugJan.	Year.	income.
1862-3. £246,238	£309.804	£555,542		£309,304	£438,355	£117,187
1863-4. 293,067	301.634	594,701		301.634	437,904	156,797

100. 0.		671.604		387,039	519,525	152.079
1865-6. 284,565 1866-7. 343,162		674,675		331,513	481,919	192,756
1000-1. 010,100	001,010	011,010	200,200.			1

The amount of loss on American currency has been very heavy. In the last half year it was $\pounds 61,828$, and for the five years $\pounds 290,384$, a larger sum than the nett income of any of the years in which it was made.

The percentage of working expenses, not including cost of renewals, has been as follows: In the first half of the year: 77.23; 63.59; 59.62; 64.57, and 63.29, and—in the last half of the year: 59.68; 57.11; 59.68; 55.25, and 57.49.

"The Reciprocity Treaty with the United States ended in March, 1866. The full result of its repeal has, however, been more apparent in the last half year, and while the local traffic has kept up in a very satisfactory manner, the interchange of traffic between Canada and the United States has suffered. Much of the traffic of Canada which used to pass into the United States, is now turned to the maritime provinces, and this diversion will largely increase now that confederation makes all the provinces one country. In the process of transition a less profit on the work done has, however, been earned : the traffic obtained having for the time been of less valuable character. So vast a change must necessarily bring temporary loss and disturbance, which time only can remedy and repay."

MOBILE AND OHIO RAILROAD.—The 19th annual report of this company gives the following results of operating their road for the year 1866, which we compare with those of 1860:

1860.	1866.		
	(486 m.)		Increase.
\$392.247	23 \$902,719	04	\$510,471 81
	91 1,433,491	15	475,460 24
		00	868 25
		90	59,627 40
\$1,402,858	30 \$2,449,286	09	\$1,046,427 79

\$695,370 1	13 \$1.058.887	63	\$363,517 50
3,379 (00 5.037	00	1,658 00
1,704 (1,157 00
			0 64
	958,030 41,925 10,654 \$1,402,858 707,488 \$695,370 3,379 1,704	$\begin{array}{ccccccc} (415 \text{ m.}) & (486 \text{ m.}) \\ \$ 392,247 & 23 & \$902,719 \\ 958,030 & 91 & 1,433,491 \\ 41,925 & 75 & 42,794 \\ 10,654 & 50 & 70,281 \\ \hline \$1,402,858 & 30 & \$2,449,286 \\ 707,488 & 17 & 1,390,398 \\ \hline \$695,370 & 13 & \$1,058,887 \\ 3,379 & 00 & 5,037 \\ 1,704 & 00 & 2,861 \end{array}$	$\begin{array}{cccccccccccccccccccccccccccccccccccc$

9

The road commenced running on federal currency May 15, 1865. The earnings for the seven and a half remaining months of that year amounted to \$1,418,976 30. The earnings for the same months in 1866 amounted to \$1,496,517 86. The increase of total earnings has thus been very small, while the receipts from freight fell from \$894,541 38 in 1865 to \$833,494 29 in 1866, the cotton crop along the road having signally failed, and disappointed the natural anticipations of a largely increased business, expressed by the President in his report for 1865. The cotton transported on the road in 1866 was only about one half the quantity reported for 1860.

The financial condition of the company has not been materially changed since the previous report; on Dec. 31, 1865, the amount of indebtedness, except bonds, was \$1,492,757.53, and on Dec. 31, 1866, \$1,621,611.13. The changes in the bonded debt are as follows:

	-Am't out	standing-	-Differ	ence
	Dec. 31,	Dec. 31,	In-	De-
	1865	1866.	crease.	crease.
Income bonds of 1861	\$146,200	\$85,000	\$	\$61,200
do do 1862	91,000	46,000		45,000
do do 1865	305,800	96,000		209,800
do do 1867	228,900	228,900		
do do (Ten years)	75,343	81,685	6,342	
First mortgage sterling	4,187,000	4,503,000	316,000	
Tenn. State bonds	1,099,000	1,275,000	176,000	
do do do (interest funded)		388,800	388,800	•••••
Interest bonds		526,300	526,300	
Total	\$6,133,243	\$7,230,685	\$1.097.442	\$

This shows that some progress has been made in funding; but owing to the unfavorable course of business during the past year the resumption of the payment of interest has been put off to May 1, 1868, the foreign creditors having acceded to this arrangement, with the condition that simple interest at 6 per cent. be allowed on the coupons matured, and that will mature up to Nov. 1, 1867, the company to issue for the amount, coupon bonds the same in form as the original bonds, the coupons in the meanwhile to remain in trust as collateral security. Regarding the home bonds, the President says—" As the assurance has always been given that bondholders on both sides of the Atlantic should fare as nearly alike as possible, it only remains for those on this side to enter into a similar agreement in order to close this arrangement."

A full abstract of the report for 1865 will be found in this volume of the CHRONICLE, p. 105.

UNION PACIFIC RAILROAD.—Track-laying on this road was resumed after the winter suspension on the 29th ult. About 200 miles of rail will be laid during the serson, bringing the road up to the 517th milestone.

NEW YORK FIRE DEPARTMENT .- The new Fire Commissioners ho were installed into office on the 1st inst. are making a thorough vestigation into the condition and working of the institution with view to its modification or reform as necessity may call for. That ey have not found all things in the best of order, or under the best of gulations was scarcely to be expected, so brief has been the period nce its establishment. Discipline among the men was found to be ose nor was the apparatus in the most tidy order. The old commissioners, however, are credited with many improvements over the system formerly in vogue. The present commissioners intend to separate the duties of fireman and politician effectually which is a good symptom in their doctorial intentions. But it is not their intention to make any radical changes until they have completed their inspections; except in this, that what is good in the present regulations will be strictly enforced. The rules are to be strictly enforced, and hereafter men will be punished for visiting bar-rooms or becoming intoxicated while in uniform.

[May 25, 1867.

ed for FRASER sèr.stlouisfed.org

PRICES CURRENT.

In addition to the duties noted below, a discriminating duty of 10 per cent. ad val. is levied on all imports under flags that have no reciprocal treaties with the United States.

chandise, of the growth or produce of Countries East of the Cape of Good Countries East of the Cape of Good Hope, when imported from places this side of the Cape of Good Hope, a duty of 10 per cent. ad val. is levied in ad-dition to the duties imposed on any such dition to the duties imposed on any such articles when imported directly from the place or places of their growth or produc-tion; Raw Cotton and Raw Silk excepted. The tor in all eases to be 2,240 B.

IMPORTANT

MERCHANTS. BANKERS &

This Company offer for the consideration of Bank ers, Merchants and those desiring the best burglar proof security the following certificates:

OFFICE OF THE NOVELTY IRON WORKS, New York. 18th December, 1866.

Messrs. LEWIS LILLIE & SON,

MCSSTS. LEWIS LILLIE & SON, Gentlemen, — We have subjected the sample of double-chilled iron you furnished us to the most se-vere tests (as regards drilling through it) we could bring to bear upon it, and w thout success. It is our opinion that it can only be penetrated by the use of a large number of drills, and the expen-diture of much power with days of time, and we think it impossible for a burglar with his time and power to penetrate it at all. Yours truly.

Yours truly,

ISAAC V. HOLMES, Supt. LYMAN G. HALL, Foreman.

HINKLEY AND WILLIAMS WORKS, Boston, Mass', January 22, 1867.

We having made an attempt to drill a sample o double chilled iron furnished us by Messre. Lillie & Son, and failed to penetrate it more than five-eighths (%) of an inch, after hours of labor, feel that we can endorse the above Nove ty Iron Works' certificate in all particulars.

JARVIS WILLIAMS, Treasurer.

PHILADELPHIA, PA., February 25, 1867.

Meisrs. LEWIS LILLIE & SON, Metsrs. LEWIS LILLE & SON, Gentlemen,—We have tried a sample of double-chilled iron similar to that sent to the Novelty Works, New York, and our experience with it is about the same, viz: that it can only be penetrated by a long continued operation of the most skillful me having and the best tools me hanics and the best tools. Very truly,

W. H. BECHIELL, W. H. STRAHAN,

Foremen in Messrs, Merrick & Son's Southworth Foundry, Philadelphia, Pa.

OFFICE UNION FOUNDRY WORKS, Chicago, Ill., March 13, 1867.

Messrs. MURRAY & WINNE,

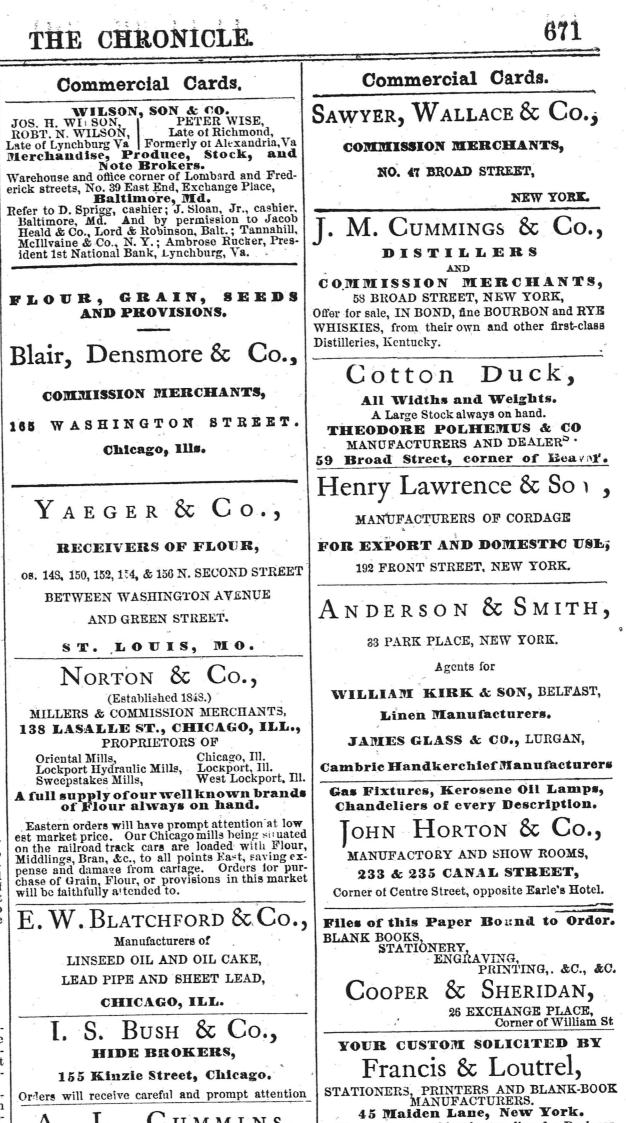

Messrs. MURRAY & WINNE, Agents Lillie Safe and Iron Co., Gentlemen,—We subjected the sample of new combination of metals for safes sent us by you to as thorough tests of the drill as we could, and fail-ed to penstrate the metal at all. We think it wou'd be impossible for burglars to enter the safes made of this metal by means of the drill during the longest this metal by means of the drill during the longest time in ordinary business they could have access to them—in fact, that the metal is proof against the drill. Truly yours,

N. S. BOUTON & CO.

OFFICE OF NORTHWESTERN MAN's 'G Co., } Chicago, March 11, 1867.

Messrs. MURRAY & WINNE, Agents Lillie Safe and Iron Co., Gentlemen,—We subjected the sample you fur-nished us (of a new combination of metals to be used in the manufacture of Lillie's Safes) to the se-verest tests of our Power Drill, and with the best tempered drills our skill and experience could pro-duce. duce

duce. After operating upon it with different drills seve-ral hours without penetrating it more than half an inch and at that point unable to make further pro-gress, we became satisfied that if not utterly im-penetrable, it would at least require days of time, a large number of drills and machine power to penetrate through it; and that it was entirely out of the 1 ower of even the most skilful burglar to penetrate a safe made of this material.

We supply everything in our line for Business, Professional and Private use, at Low Prices. Orders receive prompt attention. **BOUBLEDAY** & DWIGHT, MANUFACTURERS OF Umbrellas & Parasols, 49 MURRAY ST., NEW YORK. Linen Threads, SHOE THREADS, SEWING-MACHINE THREADS, ETC.
