November 23, 1955

CAPITAL MARKET DEVELOPMENTS

State and local governments offered 187 million dollars of large issues during the week ending November 18, and proceeds from large corporate offerings totaled 137 million dollars. This was a substantially greater volume than was offered the preceding week and more than is anticipated for the current week. The volume of large issues expected this week is 70 million dollars for three offerings by State and local governments and 45 million for two corporate common stock issues.

Bond yields - U. S. Government long-term bond yields rose three basis points during the week ending November 18; yields on corporate and State and local government bonds did not change. According to daily figures, corporate yields increased slightly on Monday of this week; Treasury obligation yields rose on Monday and decreased on Tuesday.

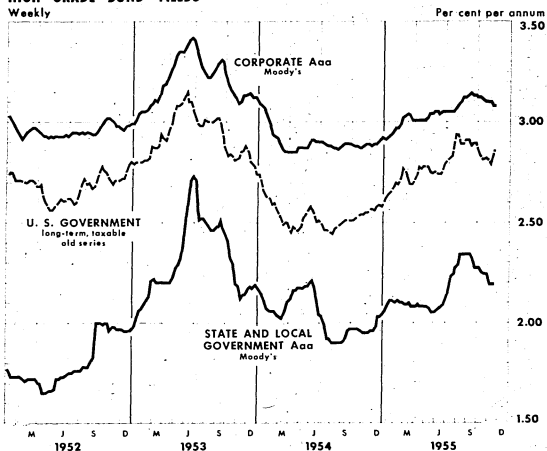

Stock prices - The SEC index of 265 common stocks increased slightly to total 267.2 last week in moderately heavy trading. Daily indexes indicated a price rise on Tuesday and Wednesday of this week which more than offset Monday's decline.

More detailed information concerning recent capital market developments will be found in the attached exhibits.
