Business acceleration and the law of demand:
a technical factor in economic cycles, JOURNAL
OF POLITICAL ECONOMY,

March, 1917. Pp. 19.

A study of the way in which variations in the demand for finished product are reflected back to (more extreme and sudden) variations in demand for 'equipment' or 'means of production.' In the mechanics of this latter demand Clark finds a significant part of the explanation of crises. Abstract by W.M. Adriance and A.N. Young, A.E.R. June, 1917, p. 451.
