

TO Governor Eccles

FROM Miss Egbert

REMARKS:

8/15/35  
3:30 p.m.

The White House called and said that the President would like someone at the Board to work up an account of the financial and monetary policies of the Administration. He stated that the Board might collaborate with the Treasury, but he would like Governor Eccles to give it his personal attention. Attached to the account should be pertinent reports and speeches.

The President would like the above within a week and it should be sent to the attention of Mr. Early.
