

November 18, 1946.

Dear Arthur:

On noting the Elmo Roper statistics showing that you out-distanced every other candidate for election by getting 67.5 per cent of the vote, I could not refrain from sending you this note of gratification and congratulation.

I want to believe and do believe that it reflects public endorsement of standing for something. Too often negative candidates win because the voters are voting against something. Your great victory can only be accounted for, it seems to me, because the people of Michigan were voting overwhelmingly for your positive and constructive leadership in world affairs.

Sincerely yours,

The Honorable Arthur H. Vandenberg,
United States Senate,
