Mr. Marriner S. Eccles
Chairman, Federal Reserve Board
Washington, D. C.

Dear Mr. Eccles:

I wish to thank you and commend you for your statement before the House Banking Committee on September twenty-ninth. I am not interested in banking, but am in the cattle business and am interested in the welfare of our country.

I am sure that your ideas are correct. Collecting too much tax will stop all incentive of Management to produce; strikes are slowing down all defense production to a great extent; and forty hours a week is not sufficient time to keep any man interested in the work that he is doing; so I thank you for your recommendations.

Yours very truly,

Ewing Halsell
