(Filed with Secretary's Report)

Showing the result of the official canvass of sentiment of banks which have signified their intention of becoming members of the Federal Reserve system as to the proper location of Federal Reserve Cities to serve the districts in which such banks will be located.

\*NOTE: It will be observed that these maps have been colored so as to indicate the preference of the banks located in the several counties in the matter of what city will best serve the interest of such banks as a Federal Reserve City.

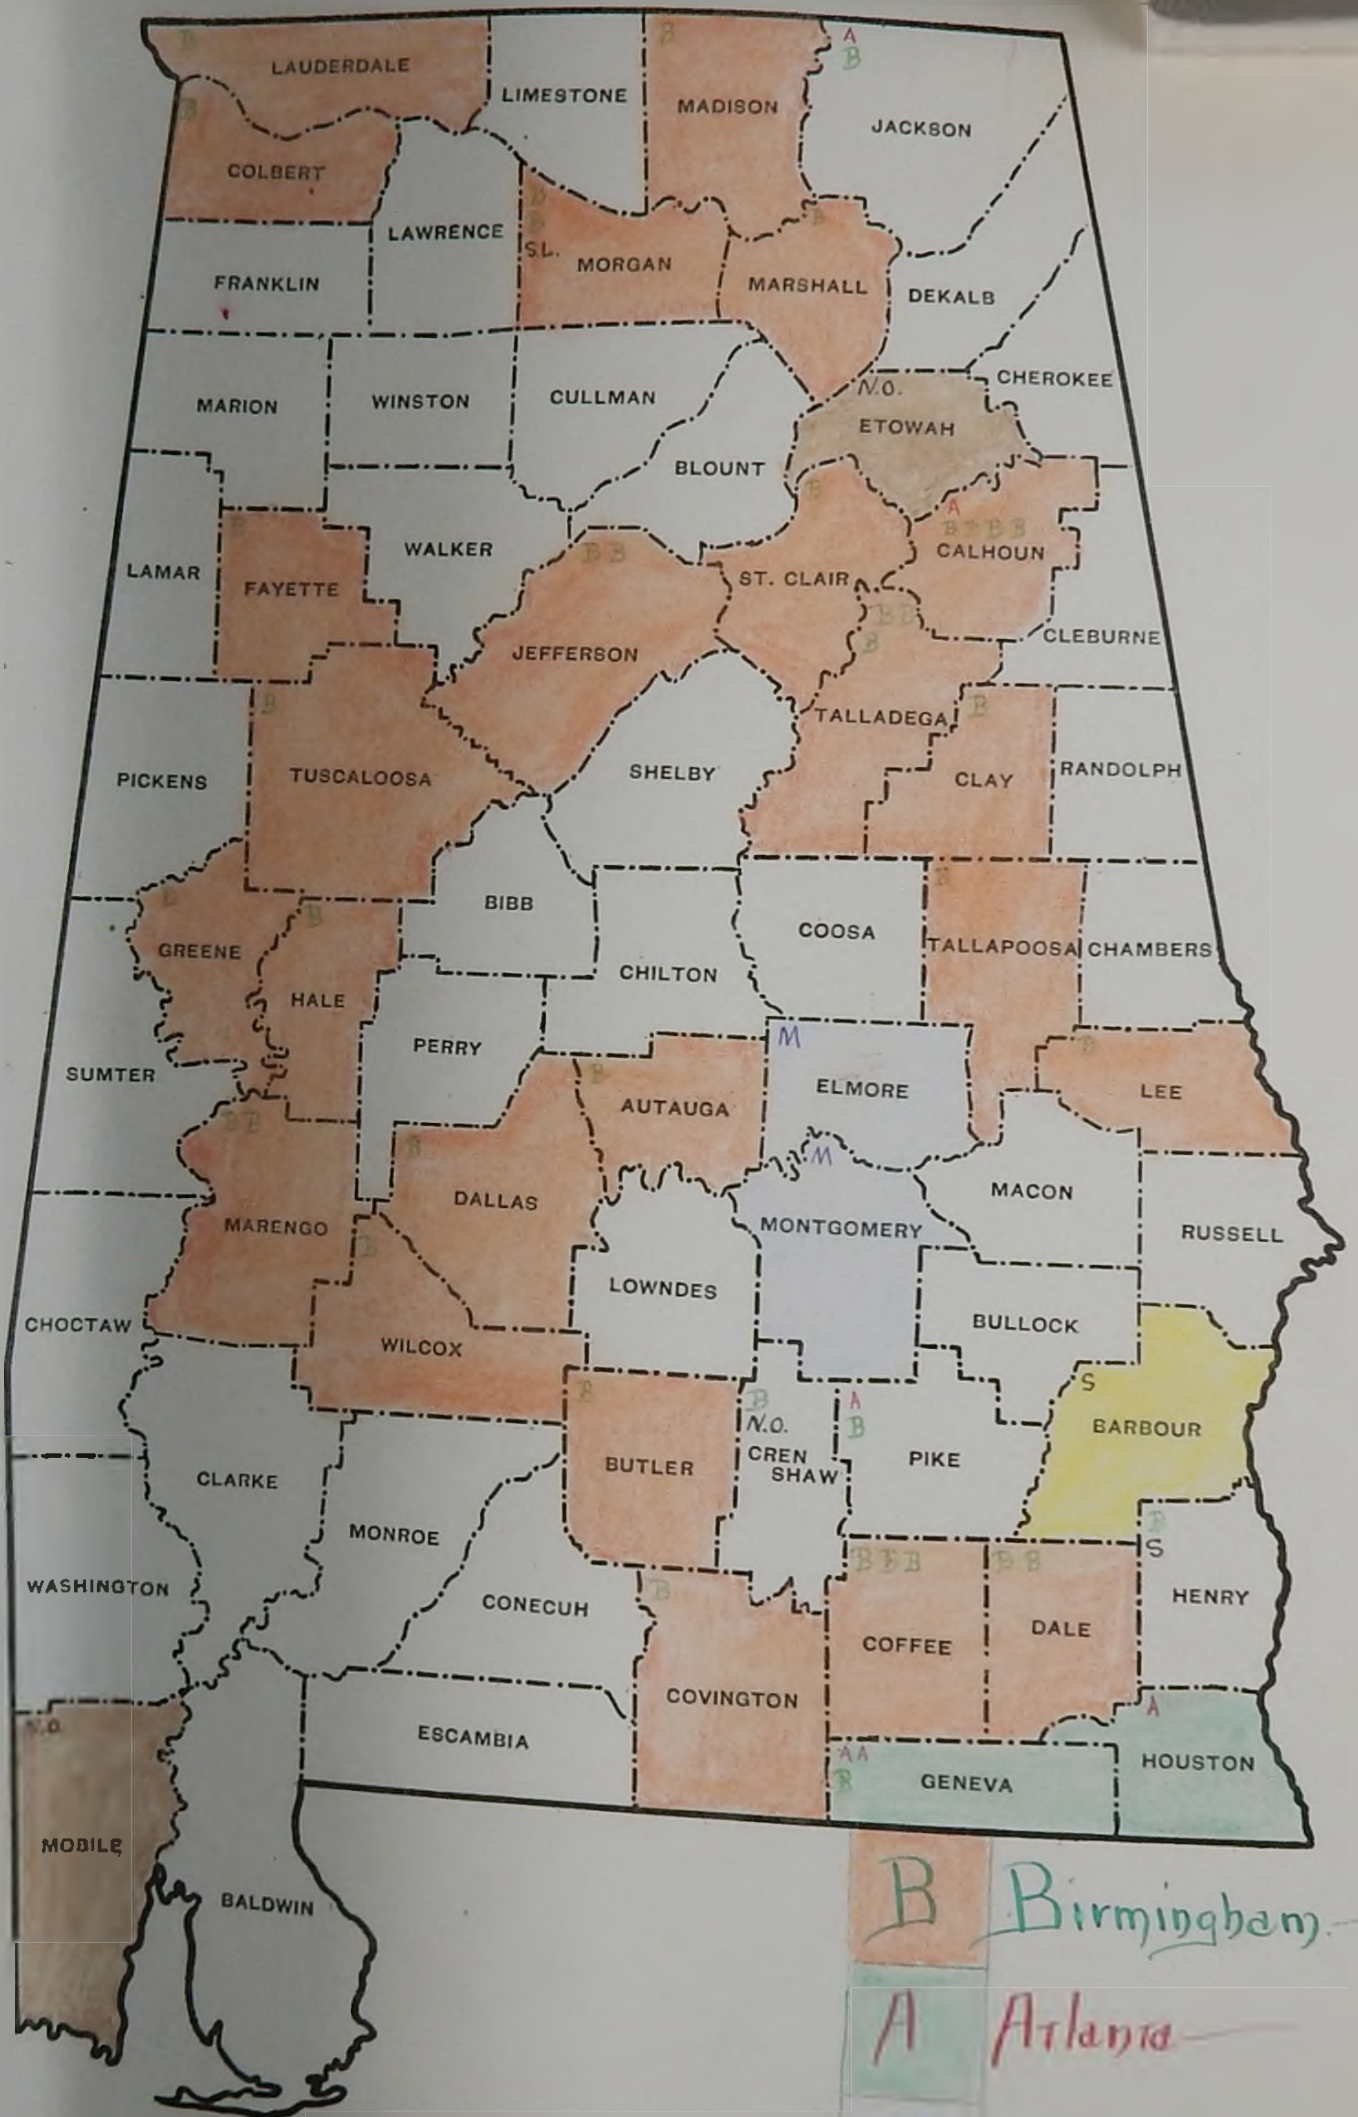

In determining this, counties have been awarded to those cities which received the largest number of votes by banks located in such counties. In case of a tie or where no vote is received, the counties are not colored.
