**FEDERAL RESERVE BANK  
OF NEW YORK**

[Circular No. 303]  
[September 17, 1920]

*Superseding  
Circular No. 200.*

**Organization Manual**

*To all Member Banks in the Second Federal Reserve District:*

An organization manual has recently been published by us for the purpose of giving a concise and comprehensive description of the work of the Federal Reserve Bank of New York. The manual contains a series of charts originally issued over a year ago, and now brought up to date with necessary additions and changes, showing in graphic form the functional and operating divisions of the bank and the relations of departments and their respective activities as well as the lines of responsibility and the names of those in authority.

This manual is now ready for distribution to those member banks interested in securing copies. The enclosed return card may be used to indicate the number of copies desired.

Very truly yours,

J. H. CASE,  
*Acting Governor*
