New Counterfeit \$10 Federal Reserve Note

*To all Banks, Trust Companies and Savings Banks
in the Second Federal Reserve District:*

The Treasury Department in its circular letter No. 513 describes a new counterfeit \$10 Federal Reserve note as follows:

"On the Federal Reserve Bank of New York; check letter 'B'; face plate No. 639; A. W. Mellon, Secretary of the Treasury; Frank White, Treasurer of the United States; portrait of Jackson.

"This is a very poor note, printed from zinc-etched or electrotypes plates, on two pieces of paper between which silk threads have been distributed to imitate the fiber of the genuine. The coloring of the serial number and seal is poor, and the workmanship throughout is so crude that it should not deceive the ordinarily careful handler. The number of the specimen at hand is B10656262B."

Very truly yours,

BENJ. STRONG
