## COURSE OF WHOLESALE PRICES, 1890 T0 1902.

In order to meet the constant and growing demand for statistics of prices, there were presented in Bulletin No. 39, the issue for March, 1902, data relating to wholesale prices for the period from 1890 to 1901. When the collection and compilation of those prices were undertaken it was the intention of the Department to publish in the second or third Bulletin in each succeeding year the quotations of actual prices for the preceding year and the record of relative or comparative prices for the entire period beginning with 1890. In accordance with this intention, the quotations of actual prices for 1902 and the relative prices for the period from 1890 to 1902 are presented in this Bulletin.

Changes in the actual prices of single commodities may readily be seen by the inspection of a series of quotations covering a number of years, but in order to ascertain the changes in the general price level from year to year the quotations for a number of commodities of a more or less dissimilar character must be examined and in some manner combined. The method quite generally adopted for this purpose by statisticans and economists is the use of what is commonly known as the index number or relative price.

Before proceeding to the discussion of the data which enter into the present record it seems desirable to define the index number or relative price and explain the various methods adopted in securing the same.

Briefly, an index number or relative price of any given article at any given date is the percentage which the price of that article at that date is of the price of the same article at a date or a period which has been selected as a base or standard. This base or standard varies in the different series of index numbers which have been presented to the
public. In the London Economist's index numbers the average price for the years 1845 to 1850 , inclusive, is taken as the base; in those calculated by Mr. Sauerbeck, and published in the Journal of the Royal Statistical Society, the average for the eleven years 1867 to 1877 is taken; in Dr. Soetbeer's index numbers the average for the four years 1847 to 1850 is used, while in the United States Senate Finance Committee's statement of relative prices (Senate Report No. 1394, Fiftysecond Congress, second session) the price for the year 1860 is taken as the base or standard. In order to secure the index number or relative price for any article at any date in the period covered, the price of the article for that date is divided by the price at the date or by the average price for the period selected as the base. The quotient obtained multiplied by 100 is the per cent that the price at that date is of the base or standard price, and is called the index number or relative price. For example, the percentage for flour in 1885 in Mr. Sauerbeck's series of index numbers is 63, meaning that the average price of flour in 1885 was 63 per cent of the average price of the same article during the base period ( 1867 to 1877). This base being always 100 , a fall of 37 per cent is indicated.
These percentages having been made in the case of each separate article included in the particular scheme under consideration, and for each year of the period covered, a series of total index numbers or relative prices for each of the years covered is usually constructed by adding together the index numbers of all the articles for each year and dividing the result by the number of articles considered, thus securing an average of the same. This course has been followed by Sauerbeck, Soetbeer, the United States Senate Finance Committee, and some others. In the case of the London Economist index numbers, however, simply the sum of the index numbers of the individual articles is used. For example, the total of the index numbers for the base period ( 1845 to 1850 ) is 2,200 , or the sum of the base figures (100) for the 22 articles considered, and the total of the percentages for 1873 is 2,947 . These sums, however, may be readily reduced to the average form given in other series of index numbers by dividing each by 22 , the number of articles considered. It will be seen, then, that the index numbers or relative prices for all the commodities combined do not represent averages of the actual prices of such dissimilar commodities as a loaf of bread, a pound of meat, a ton of pig iron, etc., but are averages of the index numbers or relative prices of the articles.

In the Department's Bulletin for March, 1902 (No. 39), a history of the principal price indexes--those published by the London Economist, Palgrave, Sauerbeck, Soetbeer, the United States Senate Finance Committee, Commons, and Dun-was presented and need not be repeated here.

In the record of prices for the thirteen years from 1890 to 1902 pub-
lished by the Department of Labor 250 series of quotations were secured for the entire period and an additional 11 for some portion of the period. No quotations are shown for imported tin plate since 1898, which leaves 260 series of quotations for the years 1899 to 1902 .

Although in the case of commodities of great importance more than one series of quotations have been used, in no case have more than one series of quotations been used for two articles of exactly the same description. For this reason the terms "series of quotations" and "commodities" have been used interchangeably in the pages which follow. The actual prices from which the index numbers or relative prices, 1890 to 1901, were computed were shown in Table I, Bulletin 39 , in detail, and those from which the relative prices for 1902 were computed are shown in detail in Table I in this Bulletin. In securing these prices the effort has been made to include staple commodities only. In a number of instances it was found possible to secure prices for the same commodities that were included in the Report on Wholesale Prices, Wages, and Transportation submitted by Mr. Aldrich from the Senate Committee on Finance March 3, 1893. Many articles which were included in that report are no longer manufactured, or, if still manufactured, have ceased to be important factors in the market. On the other hand, a number of articles not shown in that report have become of such importance as to render necessary their inclusion in any study of the course of prices.

The commodities covered in 1902 by the 260 series of quotations have been classified under 9 general groups, as follows:

Farm products, 16 series of quotations.
Food, etc., 54 series of quotations.
Cloths and clothing, 76 series of quotations.
Fuel and lighting, 13 series of quotations.
Metals and implements, 38 series of quotations.
Lumber and building materials, 27 series of quotations.
Drugs and chemicals, 9 series of quotations.
House furnishing goods, 14 series of quotations.
Miscellaneous, 13 series of quotations.
The further description of the kind of prices quoted, the source of these quotations, the market for which they were secured, their frequency, etc., will be taken up in connection with the discussion of Table I, which follows:

Table I.—Wholesale prices of commodities in 1902, pages 247 to 296.— This table shows in detail the actual prices from which the subsequent tables of index numbers are calculated. As stated previously, the 260 series of quotations have been classified under 9 groups of commodities, and this grouping has been uniformly adhered to in the several tables which are given.
The prices quoted in every instance are wholesale prices. Wholesale prices have invariably been used in compilations which have been
made for the purpose of showing changes in the general price level. They are more sensitive than retail prices and more quickly reflect changes in conditions. Retail prices usually follow the wholesale, but not generally in the same proportion. The margin between them in the case of some commodities is so great that slight changes in the wholesale price do not affect the retail. Changes in the wholesale price which last for a short time only do not usually result in corresponding changes in the retail price.
The net cash prices are shown for textiles and all articles whose list prices are subject to large and varying discounts. In the case of a number of articles, such as white pine, nails, etc., however, whose prices are subject to a small discount for cash no deduction has been made.
The prices have been collected from the best available sources, such as standard trade journals, officials of boards of trade, chambers of commerce, and produce exchanges, and leading manufacturers or their selling agents.
The prices quoted are usually the prices in the New York market, except for such articles as have their primary market in some other locality. For grains, live stock, etc., for example, Chicago prices are quoted; for fish, except salmon, Boston prices; for tar, Wilmington, N. C., prices; for white pine, Buffalo prices; for Elgin creamery butter, Elgin, Ill., prices, etc. The prices for textiles are the prices in the general distributing markets, such as New York, Boston, and Philadelphia; and where no market is mentioned in the prefatory note to Table I, it should be understood that the prices are for the general market.
The following table shows the different markets and the number of articles quoted for each market:

NUMBER OF COMMODITIES OR SERIES OF QUOTATIONS IN 1902, CLASSIFIED BY MARKETS FOR WHICH SECURED.

As regards the description of the commodity, it should be stated that the greatest care has been taken to secure prices throughout the period for a commodity of precisely the same description. Changes in quality are, of course, reflected in prices, and for this reason note has been made of any important changes which have occurred. In the case of certain commodities, such as butter, eggs, etc., prices for the best quality have invariably been taken, in order to avoid frequent changes in grade. It should also be stated in this connection that in the case of commodities for which prices were secured from the Oil, Paint, and Drug Reporter the lowest quotations were invariably taken where a range of prices was found because of the fact that these represent the prices of large lots, while the high quotations represent the prices of smaller lots.

Weekly quotations have been secured in the case of all articles which are subject to frequent fluctuations in price, such as butter, cheese, eggs, grain, live stock, meats, etc. In the case of articles whose prices are more stable, monthly or annual quotations have been taken. The following table shows the number of series of weekly, monthly, and annual price quotations:
NUMBER OF COMMODITIES OR SERIES OF QUOTATIONS, CLASSIFIED AS TO THEIR FREQUENCY OF QUOTATION IN 1902.

| Frequency of quotation. | Farm products. | Food, etc. | Cloths and clothing. | Fuel and lighting. | Metals and implements. | Lumber and building materials. | Drugs and chemicals. | House furnishing goods. | Mis-cellaneous. | Total. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Weekly | 13 | 22 | 1 | 1 |  |  |  |  | 1 | 38 |
| Monthly | 3 | 32 | 64 | 12 | 38 | 27 | 9 | 14 | 12 | 211 |
| Annually |  |  | 11 |  |  |  |  |  |  | 11 |
| Total. | 16 | 54 | 76 | 13 | 38 | 27 | 9 | 14 | 13 | 260 |

The character of each series of quotations as regards frequency is shown in all cases in Table I in a prefatory note which states fully the date of the quotations and, if weekly, whether the quotations are for some particular day of the week, the average for the week, or the range for the week. The majority of the weekly quotations show the price on Tuesday, and if for any reason Tuesday's price was not obtainable, the first price in the week has been taken. The quotations from trade and other journals, when credited to the first of each month, are not in all instances the price for the exact day stated, as it is a common practice of the daily papers which make a specialty of market reports to devote certain days to the review of the market of certain articles. For example, the Boston Herald quotes fish on Saturday only. The prices are, however, the earliest prices quoted in the journal to which the article is credited. It should also be stated that the monthly prices credited to weekly publications are the earliest quotations shown in such publications for each month.
The average price for the year was obtained by dividing the sum of
the quotations for a given commodity by the number of quotations shown. For example, the sum of the Tuesdays' prices of cotton for 1902 (shown in Table I) was $\$ 4.64450$, and the number of quotations 52. The former figure divided by the latter gives $\$ 0.08932$ as the average price for the year. Where a range was shown the mean price for each date was found, and this was used in computing the yearly average. The average yearly price of all articles was computed as above described. The reader will understand that, in order to secure for any commodity a strictly scientific average price for the year, one must know the quantity marketed and the price for which each unit of quantity was sold. It is manifestly impossible to secure such detail, and even were it possible the work of compilation would be much greater than the results would justify. It is believed that the method adopted here, which is also that used in the construction of other index numbers, secures results which are quite as valuable for all practical purposes.

An examination of Table I in the present Bulletin, in connection with Table I in Bulletin No. 39, shows that the prices of some of the commodities included in these index numbers were subject to frequent and decided fluctuations, while the prices of others were almost, and in two cases altogether, uniform throughout the period. The following table shows the lowest and highest quotations and the dates of the same for each' of the commodities during the thirteen-year period:

LOWEST AND HIGHEST 'QUOTATIONS, 1890 TO 1902.

In a number of instances the lowest or highest price, as shown in the foregoing table, lasted for only a short time, in some cases but a
few days or even a part of a day. The groups of farm products and food, etc., show the widest variations. Good to choice steers varied from $\$ 3.00-\$ 3.90$ on the second Tuesday of January, 1890, to $\$ 6.70-$ $\$ 7.60$ on the last three Tuesdays of August and the first two Tuesdays of September, 1902. Corn ranged from 191-20 cents the second Tuesday of September, 1896, to $\$ 0.482 \mathrm{z}-\$ 1.00$ the fifth Tuesday of May, 1892, the high price being due to an attempt to corner corn in the Chicago market. The failure of those interested in the corner to take all corn offered at the high price, however, and the rumor that they had failed, resulted in a drop from $\$ 1.00$ to $48 \frac{1}{2}$ cents within a few hours. Cotton varied from $5^{1^{8}}{ }^{8}$ cents on the first Tuesday of February and the first and second Tuesdays of November, 1898, to $12 \frac{1 t}{8}$ cents on the fourth Tuesday of May, 1890. Heavy hogs on the fourth Tuesday of July, 1896, were $\$ 2.50-\$ 3.15$ and on the second Tuesday of February, 1893, $\$ 8.10-\$ 8.65$. Hops ranged from $6-7$ cents in September, 1895, to $45-47$ cents in November, 1890. Oats ranged from $144^{8}$ cents on the second Tuesday of September, 1896, to $63 \frac{1}{2}-64$ cents on the fourth Tuesday of July, 1902. Native sheep ranged from $\$ 0.75-\$ 3.25$ on the fifth Tuesday of October, 1894, to $\$ 5.25-$ $\$ 6.65$ on the fifth Tuesday of May, 1892. Western sheep show a similar range. Wheat ranged from $48 \frac{7}{8}-49 \frac{5}{8}$ cents the fifth Tuesday of January, 1895 , to $\$ 1.73-\$ 1.85$ the second Tuesday of May, 1898. The high price is said to have been due to an attempt to control the price of that commodity and also, to some extent, to the war with Spain and the fear of other foreign complications. The most marked variations in the food group are in fresh vegetables, onions having varied from $\$ 0.50-\$ 1$ in May, 1896, to $\$ 5-\$ 10$ in February, 1890, and potatoes from 10-15 cents the third week of May and the third and fourth weeks of June, 1896, to $\$ 1.10-\$ 1.35$ the second week of June, 1891. Currants and dried apples show wide variations. Eggs varied from 101-101 cents the first Tuesday of April, 1897, to 42-43 cents the third Tuesday of January, 1893. Lard also shows a wide variation. Almost all the articles in the food group show wide variations, which may be seen by referring to the foregoing table. In the cloths and clothing group the variations are not so marked, as the price of many of the articles in this group depend more largely upon the cost of labor in producing them. Print cloths varied from 1.875 cents the second week of May, 1898, to 4.063 cents the second week of December, 1892. Of the raw materials in this group wool, medium fleece, scoured, varied from 29.03 cents in June, 1895, and June to September, 1896, to 62.10 cents in June, July, August, and November, 1890. In the fuel and lighting group Youghiogheny coal varied from $4 \frac{1}{2} 44^{\frac{8}{4}}$ cents (per bushel) in March and April, 1899, to 11 cents in November, 1891; coke from 92 cents in April and May, 1894, to $\$ 3.25-\$ 4.25$ in March and April, 1900; and petroleum, crude, from 51量 cents in October, 1892, to $\$ 1.79$ in April, 1895. In the group
of metals and implements best refined bar iron from mill varied from 0.95 cent (per pound) in July, 1897, to 2.60 cents in October, 1899; barb wire from $\$ 1.65$ in August, 1897, to $\$ 4.13$ in December, 1899, to March, 1900; pig iron, foundry No. 2, from \$9.40-\$9.50 (per ton) in June, 1897, to $\$ 24-\$ 25$ in November, 1902; while bar silver varied from 48.653 cents in December, 1902, to $\$ 1.16995$ in August, 1890. In lumber and building materials Rosendale cement, doors, linseed oil, plate glass, resin, tar, turpentine, and window glass varied widely. In drugs and chemicals quinine shows the greatest variation-from 15 cents in February to July, 1897, to 40 cents in April, 1899. In house furnishing goods, kitchen chairs were $\$ 3.25$ (per dozen) from January to September, 1898, and $\$ 5.25$ from January to November, 1900. In the miscellaneous group cotton-seed meal, cotton-seed oil, news paper, and rope show wide variations.

Of all the articles considered, 33 reached the highest price of the 13 -year period during 1902; 22 others were at the highest price in 1902, but were equally high in some other year; 4 reached the lowest price in 1902, and 9 others were at the lowest price in 1902, but were equally low in some other year.

Owing to the unusual method of fixing the scale of prices of cut and wire nails and the difficulties encountered in securing satisfactory quotations of prices, it was thought best to enter into a somewhat lengthy explanation in Bulletin No. 39, and the reader is referred to pages 226 to 231 of that number.

A copy of both the cut and wire nail cards now in use follows:
National nail card scale of extras.

a No base size; all nails sold at an advance above base price.
The base prices of nails are the prices quoted by the trade, and while they could not be used, for reasons explained in Bulletin No. 39, in computing relative prices, they form the basis from which are calculated the actual prices for eight-penny nails as given in Table I, and therefore the base prices of both cut and wire nails during 1902 are given in the following table:

NAILS: CUT, BASE SIZES.
[Price per 100-pound keg, f. o. b. Pittsburg, on the first of each month; quotations from the Iron Age.]

| Month. | Price. | Month. | Price. | Month. | Price. | Month. | Price. |

Table II.-Base prices (average for 1890-1899), and monthly actual and relative prices of commodities in 1902, pages 297 to 314. -This table shows for each commodity the base price (average price for the 10 -year period, 1890-1899), either the average price or the price on some one day of each month, and the relative price for each month of 1902. In addition this table also shows for each commodity the average price and the relative price for the year 1902. The monthly prices for such articles as are quoted weekly in Table I were found by dividing the sum of the quotations in each month as shown in Table I by the number of quotations in each month. In Table I single quotations for 1902 are shown for 11 articles. The prices of six of these are maintained throughout the year and the prices of three others represent the bulk of the sales and are maintained generally; therefore for each of these nine articles the annual price has been shown in Table II as the price during each month. The other two articles for which single quotations for 1902 are shown in Table I have a September price which represents the bulk of the sales for the year, and the relative price for 1902 was, therefore, computed from that price, but the price at which sales were made from January to March was the price of September, 1901; from April to August the price of April, 1902, and from September to December the price of September, 1902; consequently these prices were used in this table presenting monthly prices.

It was impossible to secure quotations during all of the months of the year for a few of the 260 articles such, for instance, as anthracite coal, which, owing to the strike of the anthracite miners, was not on sale except in very limited quantities during some months of 1902 ; buckwheat flour, for which there is no demand during the summer months; fish, and a few other articles.

The average price for 1902 was obtained, as has already been explained, by dividing the sum of the quotations for the year as shown in Table I by the number of quotations for the year. The average price for the 10 -year period, 1890 to 1899 , was obtained by dividing the sum of the average prices of the 10 years by 10 . This average price for 10 years has been adopted as the base for all relative prices. For the ten articles which do not show prices for the entire period of 10 years, 1890 to 1899, the base in each case is the average of the years prior to and including 1899. In explanation of the term base or standard as used in connection with relative prices or index numbers, it may be stated that in reducing a series of actual prices to relative prices a base must first be chosen, and this may be either a single quotation, the average price for 1 year, or the average for 2 or more years. If the price for a single year is chosen, it is essential that that year be a normal one, for if prices are high in the year chosen for the base any subsequent fall will be unduly emphasized, while, on the other hand, if prices are low any subsequent rise will be emphasized. Upon examination of the prices since 1890 it was found that all the commodi-
ties did not present a normal condition as regards prices in any one year. For this reason it was decided that an average price for a number of years would better reflect average or approximately normal conditions and form a more satisfactory base than would the price for any single year. The period chosen as this base was that from 1890 to 1899-a period of 10 years. The average price for the base period was found, as previously stated, by adding together the average prices for all of the 10 years and dividing by 10 .

The relative prices as shown in this and succeeding tables have been calculated in the usual manner and represent simply the percentage which each monthly or yearly price is of the base price. The average price for the first 10 years of the period, or the base, always represents 100 , and the percentages for each month or year enable the reader to measure readily the rise and fall from month to month or from year to year of the prices of each single commodity, of any group of commodities, or of all the 260 commodities involved. These commodities are arranged in alphabetical order under each of the nine general groups, as in Table I.

In order that the method pursued may be more readily understood, the reader is referred to the table itself, as given on pages 297 to 314. Taking up the first commodity shown, barley, we find that the average price per bushel for the base period, 1890 to 1899 , inclusive, was 45.34 cents; the average price for January, 1902, was 62.85 cents; that for February was 63.31 cents; that for March 64.56 cents, etc. The relative price for the base period, as heretofore explained, is always placed at 100, and is so given in the table. The relative price for January, 1902 , is shown to be 138.6 , or 38.6 per cent higher than the base or average for the 10 years. In February the relative price was 139.6, or 39.6 per cent above the base; in March the relative price was 142.4, or 42.4 per cent above the base; in April it was 147.8 or 47.8 per cent above the base; in May it rose to 157.4 , or 57.4 per cent above the base; in June it dropped to 152.4 , or 52.4 per cent above the base; in July it reached the highest point shown for the year, 159.7, or 59.7 per cent above the base; from that point it declined until November, when there was a slight advance over October. The relative price for the year 1902 was 139.4 , or 39.4 per cent above the base. The figures in each case were secured according to the method already explained, that for January, 1902, being expressed as follows:

[^0]The remainder of the table may be analyzed in a similar manner.
The value of prices given in this relative form, it will readily be seen, consists in the means afforded for tracing and measuring the changes from month to month, from year to year, or from period to
period, and in the combination of prices of a sufficient number of commodities to show the general price level. It must not be assumed that a system of relative prices of representative commodities will enable one to trace the causes of changes in the general price level or to determine the effect of such changes on any class of consumers or on all consumers. The use of such a system is to show the general course of prices from time to time of one commodity, of a group of commodities, or of all commodities.

No attempt has been made in any way to go into the causes of the rise and fall of prices. The aim has been to give the prices as they actually prevailed in the market. The relative prices or index numbers must be accepted merely as showing the course of prices both of the individual articles and the market in general. The causes are too complex, the relative influence of each too uncertain, in some cases involving too many economic questions, to permit their discussion in connection with the present article. It will be sufficient to enumerate some of the influences that cause changes in prices. Such influences include variations in harvest, which not only restrict or increase the supply and consequently tend to increase or decrease the price of a commodity, but also restrict or increase, to a greater or less degree, the purchasing power of such communities as are dependent in whole or in part upon such commodity; changes in demand due to changes in fashions, seasons, etc.; legislation altering internal-revenue taxes, import duties, or bounties; use of substitutes, as, for instance, an advance in the price of beef will cause an increased consumption of pork and mutton, and, it may be added, a probable increase in the price of both pork and mutton; improvements in methods of production which will tend either to give a better article for the same price or an equal article for a lower price; cheapening of transportation or handling; speculative manipulation of supply; commercial panic or depression; overproduction; unusual demand owing to steady employment of consumers; short supply owing to disputes between labor and capital in industries of limited producing capacity, as in the anthracite coal industry in 1902; organization or combination of mills or producers, thus enabling, on the one hand, a greater or less control of prices or, on the other hand, economies in production or in transportation charges through the ability to supply the article from the point of production or manufacture nearest the purchaser, So far as individual commodities are concerned, no conclusion can safely be formed as to causes without an examination of the possible influence of several-in some cases perhaps all-of these causes. For example, the various internal-revenue and tariff acts have, in à marked degree, no doubt affected the prices of proof spirits, of tobacco, and of sugar. But, on the other hand, they have not been alone in their influences, and it probably would not in all cases be accurate to give the change
of tax or duty as representing the measure of a certain and definite influence on the prices of those commodities.

It is important that the greatest care be exercised in the choice of commodities in order that a simple average of their relative prices shall show a general price level. In the present compilation 260 commodities are shown, and it has been the aim of the Department to select only important and representative articles in each group. The number of articles included is larger than has heretofore been used in similar compilations, but the use of a large number of articles carefully selected minimizes the effect on the general price level of an unusual change in the price of one article or of a few articles. It will be seen that more than one series of prices have been given in the case of articles of great importance. This has been done for the purpose of giving due weight to these important commodities, no other method of accomplishing this having been found satisfactory in this country. The same means have been employed by Mr. Sauerbeck in his English prices, as explained in Bulletin No. 39, and the approximate accuracy of the same, as an indication of the variation of prices, has been proved by various tests based on the amount of production, etc.

Various methods of weighting have been attempted in connection with previous compilations of relative prices. One method employed by European statisticians is to measure the importance of each commodity by its annual consumption by the entire nation, the annual consumption being found by adding to the home production the amount imported and subtracting the amount exported. The impossibility of securing even approximately accurate figures for annual consumption in the United States of the commodities included in this compilation renders this method unavailable here. The method employed in the Aldrich report consisted in giving to the various commodities or groups of commodities an importance based upon their consumption in normal families. There are, of course, many commodities whose importance can not be measured by this method. It has been thought best in the present series of index numbers, after a careful consideration of all methods of weighting, simply to use a large number of representative staple articles, selecting them in such a manner as to make them, to a large extent, weight themselves. Upon a casual examination it may seem that by this method a comparatively unimportant commodity-such, for instance, as cotton-seed meal-has been given the same weight or importance as one of the more important commodities, such as wheat. A closer examination, however, shows that cotton-seed meal enters into no other commodity under consideration, while wheat is not only quoted as the raw material, but enters into the two descriptions of wheat flour, the two descriptions of crackers, and the three descriptions of loaf bread.

Material changes in the description of three articles have been made
for 1902. For two of the articles quoted for 1890 to 1901 the trade journals no longer supply regular quotations, and as to sheetings none of the particular grade "Stark A. A." were manufactured during 1902.

The articles in which changes occur are-"Leather: harness, oak, country middles, 14 pounds and up (except overweights, 20 pounds and up)," for which has been substituted "Leather: harness, oak, packers' hides, heavy No. 1;" "Sheetings: brown, 4-4, Stark A. A.," for which has been substituted "Sheetings: brown, 4-4, Massachusetts Mills, Flying Horse brand;" and "Shingles: white pine, 18 inches long, XXXX," for which has been substituted "Shingles: Michigan white pine, 16 inches long, XXXX."
In making these substitutions articles were supplied corresponding as closely as possible to those which had been previously used.

Some explanation of the method of computing the relative price of these three articles is necessary, and shingles will be used as an illustration. It must be understood that during the years when 18 -inch shingles were quoted they were assumed to represent the several lengths and grades of white pine shingles; that is, that the course of prices of a standard grade of white pine shingles in an index number of prices, fairly represents the course of prices of the various grades of white pine shingles. Therefore when it became necessary to substitute, in 1902 , the 16 -inch shingles for the 18 -inch, prices were secured for 16 -inch shingles for both 1901 and 1902, and it was found that the price for the year 1902 was 9.96 per cent above the price for the year 1901. The relative price of 18 -inch shingles in 1901, as shown in Table IV, was 111.9 (average price for the 10 years, 1890 to 1899 , equals 100 ), and if 18 -inch shingles represented white pine shingles at that time and 16 -inch shingles now represent the class, shingles (shown by the increase in price of 16 -inch shingles) advanced, in 1902, 9.96 per cent above the price in 1901, and the relative price in 1902 was therefore 109.96 per cent of 111.9 , the relative price in 1901, which gives 123 as the relative price in 1902. The same method was followed in computing relative prices for each of the months of 1902.

Table III.- Relative prices of commodities in 1902, pages 314 to 326.This table is taken from Table II and shows the relative prices of each of the commodities included there. In this table similar commodities have been grouped, and the average of the relative prices shown for the commodities in each subgroup and in each of the nine general groups. The averages in all cases were found by dividing the sum of the relative prices by the number of commodities in the group under consideration. It should be borne constantly in mind that the term commodity is used here and elsewhere in a specific sense, "native" and "Western" sheep, for example, being considered different commodities. The method of securing average relative prices in this and
other tables was as follows: The average relative price of cattle was found by adding the relative prices of the two grades of cattle and dividing the sum by 2 . The average for hogs was found in the same manner, and also the average for sheep. The average for live stock was found by dividing the sum of the relative prices of the two grades of cattle, the two grades of hogs, and the two grades of sheep by 6, the total number of different descriptions of commodities or series of quotations in the live-stock group. The average relative price of each of the nine general groups was found by dividing the sum of the relative prices of the different descriptions of commodities for each month by the number of these commodities or series of quotations considered. The sum of the relative prices in January, 1902, of the commodities shown under the general group, "food, etc," for example, is 6,014 , which amount divided by 54 , the number of different descriptions of commodities or series of quotations considered in that group, gives 111.4 the average for the group "food, etc," for January, 1902. As explained in the discussion of Table II, it was impossible to secure quotations during all of the months of the year for 9 of the 260 articles. In order of arrangement these are herring, mackerel, buckwheat flour, dried apples, potatoes, and anthracite coal. In presenting monthly relative prices for these articles a nominal relative price (which is the same as the relative price for the month in which the article was last quoted) has been entered in this table for the months for which no price quotation is shown in Table I. This nominal price enters into the average for the subgroup, the general group, and "all commodities" for that month.
The average relative price of each of the nine general groups for each month of 1902 and for the year 1902, and the average relative price of all commodities for each month and for the year, are shown in the following summary:

SUMMARY OF RELATIVE PRICES OF COMMODITIES IN 1902, BY GROUPS.
[Average price for $1890-1899=100$.]

| Month. | Farm products. | Food, etc. | Cloths and clothing. | Fuel and lighting. | Metals and implements. | $\left\|\begin{array}{c} \text { Lum- } \\ \text { ber and } \\ \text { build- } \\ \text { ing ma- } \\ \text { terials. } \end{array}\right\|$ | Drugs and chemicals. | $\begin{aligned} & \text { House } \\ & \text { fur. } \\ & \text { nishing } \\ & \text { goods. } \end{aligned}$ | Miscel-laneous. | $\begin{aligned} & \text { All } \\ & \text { com- } \\ & \text { modi- } \\ & \text { ties. } \end{aligned}$ |

| June | 137.6 | 109.3 | 101.6 | 125.9 | 119.9 | 121.5 | 114.3 | 112.5 | 116.6 | 113.1 |
| July | 141.1 | 109.3 | 101.8 | 121.0 | 119.9 | 120.1 | 112.6 | 112.5 | 116.7 | 113.0 |
| August | 131.0 | 108.5 | 101.5 | 120.8 | 120.6 | 121.6 | 111.4 | 112.5 | 114.2 | 112.2 |
| September | 129.7 | 107.9 | 102.0 | 127.2 | 120.4 | 121.0 | 110.2 | 112.5 | 113.6 | 112.3 |
| Octobel. | 126.3 | 112.2 | 102.7 | 175.9 | 119.4 | 121.8 | 112.3 | 112.5 | 111.7 | 115.5 |
| November | 123.5 | 112.6 | 102.8 | 158.0 | 118.7 | 1226 | 113.5 | 112.5 | 110.9 | 114.6 |
| December | 122.3 | 114.1 | 103.0 | 171.2 | 117.3 | 122.7 | 1115 | 112.5 | 112.9 | 110.3 |
| 1902 | 130.5 | 111.3 | 102.0 | 134.3 | 117.2 | 118.8 | 114.2 | 1122 | 114.1 | 112.9 |

In this table the average relative prices of farm products are based on 16 articles; of food, etc., on 54 articles; of cloths and clothing, on 76 articles; of fuel and lighting, on 13 articles; of metals and implements, on 38 articles; of lumber and building materials, on 27 articles; of drugs and chemicals, on 9 articles; of house furnishing goods, on 14 articles; and of miscellaneous, on 13 articles. The average relative prices of all commodities are based on 260 articles.

The table shows that the group of farm products reached the lowest average in December and the highest in July; that of food, etc., the lowest in September and the highest in December; that of cloths and clothing, the lowest in January, February, April, May, and August, the relative price for those five months being the same, and the highest in December; that of fuel and lighting, the lowest in April and the highest in October; that of metals and implements, the lowest in January and the highest in August; that of lumber and building materials, the lowest in January and the highest in December; that of drugs and chemicals, the lowest in September and the highest in January; that of house furnishing goods, the lowest in the four months January to April and the highest in the eight months May to December; while in the miscellaneous group the lowest average was reached in November and the highest in July. All commodities combined reached the lowest average of the year in January and the highest in October.

The course of prices during the months of 1902 as represented by the 260 commodities is clearly shown in the graphic table which follows:

Relative Prices of All Commodities in 1902.
(average price for lb90-1899 =100.)

Many students of price statistics desire to distinguish between raw commodities and manufactured commodities, or those which have been prepared for consumption by the application of manufacturing processes and in which manufacturing labor forms a considerable part of the cost. To meet the wishes of this class of readers, therefore, the commodities included in this price series have been divided into the two classes, raw and manufactured, and simple averages made for each class. Of course, hard and fast definitions of these classes can not be made, but the commodities here designated as raw may be said to be such as are marketed in their natural state and such as have been subjected to only a preliminary manufacturing process, thus converting them into a marketable condition, but not to a suitable form for final consumption, while the commodities here designated as manufactured are such as have been subjected to more than a preliminary factory manipulation and in which the manufacturing labor cost constitutes an important element in the price. In the group designated as raw are included all farm products, beans, coffee, eggs, milk, rice, nutmegs, pepper, tea, vegetables, raw silk, wool, coal, crude petroleum, copper ingots, pig lead, pig iron, bar silver, spelter, pig tin, brimstone, jute, and rubber-a total of 50 articles.

All the other articles are classed as manufactured commodities.
The table follows:

RELATIVE PRICES OF RAW COMMODITIES, MANUFACTURED COMMODITIES, AND ALL COMMODITIES, IN 1902.
[Average price for $1890-1899=100$.]

|  | Month. | $\begin{aligned} & \text { Raw } \\ & \text { commod- } \\ & \text { ities. } \end{aligned}$ | Manufactured commodities. | $\begin{gathered} \text { All } \\ \text { commod- } \\ \text { ities. } \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: |
| January |  | 117.0 | 108.7 | 110.3 |
| February |  | 116.2 | 109.0 | 110.4 |
| March. |  | 117.0 | 109.5 | 110.9 |
| April. |  | 117.5 | 110.3 | 111.7 |
| May . |  | 122.8 | 111.0 | 113.3 |
| June |  | 121.1 | 111.2 | 113.1 |
| July. |  | 121.8 | 110.9 | 113.0 |
| August |  | 119.8 | 110.4 | 112.2 |
| September |  | 119.6 | 110.6 | 112.3 |
| October.. |  | 131.3 | 111.7 | 115.5 |
| November. |  | 128.7 | 111.2 | 114.6 |
| December |  | 131.4 | 111.5 | 115.3 |
| 1902. |  | 122.4 | 110.6 | 112.9 |

The raw commodities reached the lowest average of the year in February and the highest in December; manufactured commodities reached the lowest in January and the highest in October. The average for raw commodities ranged from 16.2 per cent to 31.4 per cent above the base price, while the average for manufactured commodities ranged from 8.7 per cent to 11.7 per cent above the base price.

The course of prices of raw and manufactured commodities during 1902 is shown in the graphic table which follows:

Relative Prices of Raw and Manufactured Commodities in 1902.
(average price for 1890-1899 $=100$.)

| Relativeprices. |  |  |  |  |  |  |  |  |  |  |  |

## ----- = Raw Commodities.

## = Mamufactured Commodities

Table IV.-Base prices (average for 1890-1899), and average yearly actual and relative prices of commodities, 1890 to 1902, pages 326 to 344.This table shows for each commodity the base price (average price for the 10 -year period, 1890-1899), the average price for each of the 13
years from 1890 to 1902 , and the relative price for each year. The average price for each year was obtained, as has been explained, by dividing the sum of the quotations for each year as shown in Table I by the number of quotations for each year. The average price for the 10 -year period, 1890 to 1899 , was obtained by dividing the sum of the average prices of the 10 years by 10 . The relative prices for each year were computed in the same way as for each month, as explained in the discussion of Table II.

Table V.-Relative prices of commodities, 1890 to 1902, pages 344 to 356.-This table is taken from Table IV and shows the relative prices of each of the commodities included there. In this table similar commodities have been grouped, and the average of the relative prices shown for the commodities in each subgroup and in each of the nine general groups. The averages in all cases were found by dividing the sum of the relative prices by the number of commodities in the group under consideration, as explained in the discussion of Table III.

The average relative price of each of the nine general groups was found by dividing the sum of the relative prices of the different descriptions of commodities for each year by the number of these commodities or series of quotations considered in that year. The sum of the relative prices in 1890 of the commodities shown under the general group, "food, etc.," for example, is $5,958.2$, which amount divided by 53 , the number of different descriptions of commodities or series of quotations considered that year, gives 112.4 the average for the group "food, etc.," for 1890. For 1893 to 1902, 54 commodities are quoted in this group, and that number is accordingly the divisor for each of those years.
The average relative price of each of the nine general groups for each year of the period, and the average relative price of all commodities for each year, are shown in the following summary:

SUMMARY OF RELATIVE PRICES OF COMMODITIES, 1890 TO 1902, BY GROUPS.
[Average price for 1890-1899=100.]

| Year. | Farm products. | Food, etc. | Cloths and clothing. | Fuel and lighting. | Metals and implements. | $\left\lvert\, \begin{gathered} \text { Lumber } \\ \text { and } \\ \text { building } \\ \text { mate- } \\ \text { rials. } \end{gathered}\right.$ | Drugs and chemicals. | House furnishing goods. | Miscellaneous. | All com-modities. |

| 1896 | 78.3 | 83.8 | 91.3 | 104.3 | 98.7 | 93.4 | 92.6 | 94.0 | 91.4 | 90.4 |
| 1897 | 85.2 | 87.7 | 91.1 | 96.4 | 86.6 | 90.4 | 94.4 | 89.8 | 92.1 | 89.7 |
| 1898 | 96.1 | 94.4 | 93.4 | 95.4 | 86.4 | 95.8 | 106.6 | 92.0 | 92.4 | 93.4 |
| 1899 | 100.0 | 98.3 | 96.7 | 105.0 | 114.7 | 105.8 | 111.3 | 95.1 | 97.7 | 101. 7 |
| 1900 | 109.5 | 104.2 | 106.8 | 120.9 | 120.5 | 115.7 | 115.7 | 106.1 | 109.8 | 110.5 |
| 1901 | 116.9 | 105.9 | 101.0 | 119.5 | 111.9 | 116.7 | 115.2 | 110.9 | 107.4 | 108.5 |
| 1902 | 130.5 | 111.3 | 102.0 | 134.3 | 117.2 | 118.8 | 114.2 | 112.2 | 114.1 | 112.9 |

In this table the average relative prices of farm products are based on 16 articles; of food, etc., on 53 articles from 1890 to 1892, and 54 from 1893 to 1902; of cloths and clothing, on 70 articles in 1890 and 1891, 72 in 1892, 73 in 1893 and 1894, 75 in 1895 and 1896, and 76 from 1897 to 1902; of fuel and lighting, on 13 articles; of metals and implements, on 37 articles from 1890 to 1893, 38 in 1894 and 1895, and from 1899 to 1902 , and 39 from 1896 to 1898; of lumber and building materials, on 26 articles from 1890 to 1894, and 27 from 1895 to 1902; of drugs and chemicals, on 9 articles; of house furnishing goods, on 14 articles; and of miscellaneous, on 13 articles. The average relative prices of all commodities are based on 251 articles in 1890 and 1891, on 253 in 1892, on 255 in 1893, on 256 in 1894, on 259 in 1895, on 260 in 1896 and from 1899 to 1902, and on 261 in 1897 and 1898.

A study of the table shows that the group of farm products reached the lowest average in 1896 and the highest in 1902; that of food, etc., the lowest in 1896 and the highest in 1891; that of cloths and clothing, the lowest in 1897 and the highest in 1890; that of fuel and lighting, the lowest in 1894 and the highest in 1902; that of metals and implements, the lowest in 1898 and the highest in 1900; that of lumber and building materials, the lowest in 1897 and the highest in 1902; that of drugs and chemicals, the lowest in 1895 and the highest in 1900; that of house furnishing goods, the lowest in 1897 and the highest in 1902, while in the miscellaneous group the lowest average was reached in 1896 and the highest in 1902. The average for all commodities combined was the lowest in 1897 and the highest in 1890 and 1902, the relative price for those two years being the same. Of the nine groups it is seen that one reached its lowest point in 1894, one in 1895, three in 1896, three in 1897, and one in 1898. The highest point was reached by one group in 1890, by one in 1891, by two in 1900, and by five in 1902.

The aserage relative prices of the 250 commodities for which quotations were secured for the entire period involved do not differ materially from the average relative prices of all commodities shown in the above table. Eliminating the 11 commodities for which quotations could be secured for only a portion of the period, we find that the average relative price of the 250 commodities remaining was 112.9 in 1890, 111.7 in 1891, 106.0 in 1892, 105.4 in 1893, 95.9 in 1894, 93.5 in 1895, 90.3 in 1896, 89.6 in 1897, 93.2 in 1898, 101.4 in 1899, 110.1 in 1900, 108.3 in 1901, and 112.8 in 1902.

The course of wholesale prices during the 13 years 1890 to 1902, as represented by all commodities considered, is shown in the graphic table which follows:

Relative Prices of All Commodities, 1890 to 1902 (AVERAGE PRIIE FOR 1890-1899-100.)

In the table which follows, all commodities under consideration have been divided into two classes or groups. The 50 articles which are included in the group of raw commodities are shown on page 228. All the other articles are classed as manufactured commodities.

RELATIVE PRICES OF RAW COMMODITIES, MANUFACTURED COMMODITIES, AND ALL COMMODITIES, 1890 TO 1902.
[Average price for $1890-1899=100$.]

|  | Year | $\begin{gathered} \text { Raw } \\ \text { commod } \\ \text { ities. } \end{gathered}$ | Manufactured commodities. | All commodities. |
| :---: | :---: | :---: | :---: | :---: |
| 1890. |  | 115.0 | 112.3 | 112.9 |
| 1891. |  | 116.3 | 110.6 | 111.7 |
| 1892. |  | 107.9 | 105.6 | 106.1 |
| 1898. |  | 104.4 | 105.9 | 105.6 |
| 1894. |  | 93.2 | 96.8 | 96.1 |
| 1895. |  | 91.7 | 94.0 | 98.6 |
| 1896. |  | 84.0 | 91.9 | 90.4 |
| 1897. |  | 87.6 | 90.1 | 89.7 |
| 1898. |  | 94.0 | 93.3 | 93.4 |
| 1899. |  | 105.9 | 100.7 | 101.7 |
| 1900. |  | 111.9 | 110.2 | 110.5 |
| 1901. |  | 111.4 | 107.8 | 108.5 |
| 1902. |  | 122.4 | 110.6 | 112.9 |

In 1890 and 1891, when prices in general were high, the raw commodities were higher than the manufactured, and remained so until 1893, when prices of raw commodities declined and manufactured commodities were slightly above the prices of 1892. From 1893 to 1897 there was a marked decline in both groups, the raw being lower than the manufactured in each of these years. From 1898 to 1900 there was a decided advance in both groups each year, raw advancing to a higher point than manufactured. In 1901 there was a very slight decline in raw and a more marked decline in manufactured. In 1902 raw commodities advanced to a point far beyond the highest point previously reached in the 13 years under consideration, and manufactured commodities advanced until they reached the exact level of their 1891 prices, but were still slightly lower than in 1890.

For the 13 years included in this table, with the single exception of 1893, it will be seen that during the years of high prices raw commodities were higher than manufactured, and during the years of low prices raw were lower than manufactured. This is clearly shown in the graphic table which follows.

Relative Prices of Raw and Manufactured Commodities, 1890 tol902. (AVERAGE PRICE FOR 1890-1899 = 100.)

The following table shows for each of the nine general groups the relative prices of 1902 compared with the average for 1890 to 1899. Only the 250 commodities for which quotations were secured for the whole period of thirteen years have been included. The average price for 1890 to 1899 is in every case the base or 100 per cent. It should be kept in mind in using this table that the comparison is between the prices for 1902 and the average prices for the base period.

RELATIVE PRICES, 1902 COMPARED WITH AVERAGE PRICE FOR 1890-1899.

The farm products group was 30.5 per cent higher in 1902 than the average price for the ten years, 1890 to 1899 , only one of the 16 articles being lower in 1902 than the average price for 1890 to 1899.
The 1902 price compared with the average price for 1890 to 1899 shows heavy hogs, 58 per cent above; corn, 56.9 per cent above; light hogs, 52.4 per cent above; oats, 47.3 per cent above; hides, 42.8 per cent above; choice to extra steers, 40.4 per cent above; barley, 39.4 per cent above; good to choice cattle, 38.5 per cent above, etc. Wheat in 1902 was 1.3 per cent below the average price for 1890 to 1899.
Considering the articles shown in this table, it is seen that the food group was 10.5 per cent higher in 1902 than the average price for 1890 to 1899 . Thirty-five of the 53 articles considered in this table were higher and 18 lower than the average price for 1890 to 1899.

In 1902 pepper was 67.6 per cent above the average price for 1890 to 1899 ; lard, 61.9 per cent above; bacon, short rib sides, 59.5 per cent above; bacon, short clear sides, 59 per cent above; mess pork, 54.2 per cent above; yellow corn meal, 50 per cent ahove; mess beef, 47.1 per cent above; white corn meal, 46.4 per cent above; fresh beef, 25.9. per cent above; eggs, 22.7 per cent above; dairy butter, 14.5 per cent above, etc. Coffee was 55.4 per cent below the average price for 1890 to 1899 ; spring wheat flour, 11.4 per cent below; winter wheat flour, 9.3 per cent below; granulated sugar, 5.8 per cent below, etc.

Of the 70 articles considered in the cloths and clothing group, the price of one article was the same in 1902 as the average price for 1890 to $1899 ; 42$ were above and 27 below the average price for 1890 to 1899.
In 1902 hemlock sole leather was 22.1 per cent above the average price for 1890 to 1899; cotton thread, 20.1 per cent above; oak harness leather, 14.7 per cent above; oak sole leather, 13 per cent above, etc.

Men's hose, 160 needles, were 33.1 per cent below the average price for 1890 to 1899; women's hosiery, 21.1 per cent below; men's hose, 84 needles, 15 per cent below, etc.

Of the 13 articles included in the fuel and lighting group, in 1902 only 1 article was below the average price for 1890 to 1899. The average for the group was 34.3 per cent above the average price for 1890 to 1899.

Georges Creek coal at the mine was 139.1 per cent above the average price for 1890 to 1899. This relative price is based on the open market price of the coal. A large part of the output of the mines was sold under contract at a much lower price than the prevailing "open market" price during the latter months of 1902. The relative price for coke $1 s$ based on the contract price, coke being sold largely under contract. During the latter part of 1902 the trade journals reported prices as high as $\$ 10$ to $\$ 15$ per ton for a few cars of quick delivery coke. That price was approximately three times the contract price. The difficulty, however, was not in securing the coke, but in obtaining immediate transportation. The contract price of coke in 1902 was 58.2 per cent above the average price for 1890 to 1899.

Georges Creek bituminous coal, f. o. b. New York Harbor, was 48 per cent above the average price for 1890 to 1899; crude petroleum, 35.9 per cent above; $150^{\circ}$ refined petroleum, 24.5 per cent above; anthracite coal, chestnut size, was 24 per cent above; egg size, 21.5 per cent above; stove size, 17.6 per cent above, etc. The relative prices of anthracite coal are based on the prices of one of the large coal companies. A number of the coal operators during the latter part of 1902 made no attempt to fix prices, but sold at the highest price obtainable. In some cases extreme prices reported were about twice the price at which sales were made by the operators who sold at a fixed price.

Thirty-six articles are considered in the metals and implements group. Two were the same price in 1902, 28 were above, and 6 were below the average price for 1890 to 1899. Pig iron shows the highest price; foundry No. 2 was 62.7 per cent above the average for 1890 to 1899; gray forge, Southern, 58.8 per cent above; Bessemer, 50 per cent above; foundry No. 1, 49.9 per cent above; pig tin, 44.2 per cent above; steel billets, 42.1 per cent above, etc.

Wood screws were 37 per cent below the average for 1890 to 1899 , bar silver was 29.5 per cent below, copper wire 9.4 per cent below, etc.

Of the 26 articles considered in the lumber and building materials
group, 19 were above and 7 were below the average price for 1890 to 1899. Pine doors were 94.1 per cent above; white pine boards, uppers, 60.7 per cent above; window glass, firsts, 49.6 per cent above, etc. Plate glass, area 3 to 5 square feet, was 29.1 per cent below the average price for 1890 to 1899; plate glass, area 5 to 10 square feet, 20.8 per cent below; carbonate of lead, 6.6 per cent below, etc.
Nine articles are included in the group of drugs and chemicals and only 1 shows the 1902 price lower than the average price for 1890 to 1899.

Of the 14 articles in the group of house furnishing goods, the 1902 price of 13 articles was above the average price for 1890 to 1899 , and the price of 1 article was below that average.
Thirteen articles are included in the miscellaneous group, and prices of only 3 of that number were in 1902 below the average price for 1890 to 1899 .

The facts presented in the foregoing table are summarized in the following, which shows the changes in prices of articles in each group, classified by per cent of change:

CHANGES IN PRICES OF ARTICLES IN EACH GROUP, CLASSIFIED BY PER CENT OF
CHANGE, 1902 COMPARED WITH AVERAGE PRICE FOR 1890-1899.

| Groups. | Number of articles. | Price increased. |  |  |  |  | Price same as base. | Price decreased. |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Lumber and building materials $\qquad$ | 26 |  | 2 | 8 | 7 | 2 |  | 5 | 1 | 1 |  |
| Drugs and chemicals........... | 9 |  | 1 | 1 | 2 | 4 |  |  | 1 | 1 |  |
| House furnishing goods....... | 14 |  |  | 2 | 6 | 5 |  | 1 |  |  |  |
| Miscellaneous................... | 13 |  |  | 3 | 6 | 1 |  | 1 | 2 |  |  |
| Total | 250 | 1 | 16 | 39 | 63 | 63 | 3 | 46 | 11 | 6 | 2 |

It is seen in the above comparison of the prices of 1902 with the average for 1890 to 1899 , that of the 16 articles in the farm products group, 15 show an increase and 1 a decrease; of the 53 in the food, etc., group, 35 show an increase and 18 a decrease; of the 70 in the cloths and clothing group, 42 show an increase, 1 shows the same price as the average for the base period, and 27 show a decrease; of the 13 in the fuel and lighting group, 12 show an increase and 1 a decrease; of the 36 in the metals and implements group, 28 show an increase, 2 show the same price as the average for the base period, and 6 show a decrease; of the 26 in the lumber and building materials group, 19 show an increase and 7 a decrease; of the 9 in the drugs and chemicals group,

8 show an increase and 1 a decrease; of the 14 in the house furnishing goods group, 13 show an increase and 1 a decrease; of the 13 in the miscellaneous group, 10 show an increase and 3 a decrease. Of the 250 commodities, for which prices were secured for the whole period from 1890 to 1902, 182 show an increase, 3 show the same price as the average for the base period, and 65 show a decrease.

The number of articles according to classitied per cents of increase and decrease is also shown in this table. Of the 182 commodities that showed an increase in 1902 over the average for 1890 to 1899, 63 advanced less than 10 per cent, 63 advanced from 10 to 25 per cent, 39 advanced from 25 to 50 per cent, 16 advanced from 50 to 100 per cent, and 1 advanced 100 per cent or more. Of the 65 commodities which showed a decrease, 46 decreased less than 10 per cent, 11 decreased from 10 to 25 per cent, 6 decreased from 25 to 50 per cent, and 2 decreased 50 per cent or more.

The number and per cent of articles which showed each specified increase or decrease are given in the following table:

NUMBER AND PER CENT OF ARTICLES, BY CLASSIFIED PER CENT OF INCREASE OR DECREASE, 1902 COMPARED WITH AVERAGE PRICE FOR 1890-1899.

|  | $\begin{aligned} & \text { Number } \\ & \text { articles. } \end{aligned}$ | $\begin{gathered} \text { Per cent } \\ \text { articles. } \end{gathered}$ |  | $\begin{aligned} & \text { Number } \\ & \text { ofticles. } \end{aligned}$ | $\begin{aligned} & \text { Per cent } \\ & \text { orticles. } \end{aligned}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Price increased: |  |  |  |  |  |
| (100 per cent or more... |  | 0.4 | Less than 10 per cent... |  | 18.4 |
| 25 to 50 per cent..... | ${ }_{39}^{16}$ | ${ }^{15.6}$ | 25 to 50 per cent.......... |  | $\stackrel{4.4}{4.4}$ |
| 10 to 25 per cent .......... | ${ }_{63}^{63}$ | ${ }_{25.2}^{25}$ | 50 per cent or more...... |  |  |
| Total | 182 | 72.8 | Total. | 65 | 26.0 |
| Price same as base. | 3 | 1.2 | Grand total. | 250 | 100.0 |

Of the 250 articles for which prices were secured for the whole period from 1890 to 1902 , it is seen that 182 , or 72.8 per cent, show an increase in price; 3 articles, or 1.2 per cent, show the same price as the average for the base period, and 65 articles, or 26 per cent, show a decrease in price in 1902 as compared with the average price for the base period.

Of the 260 commodities considered in this compilation of prices, the average price of 149 commodities was higher in 1902 than in 1901, the average price of 45 was the same in 1902 as in 1901, and the average price of 66 was lower in 1902 than in 1901.

The following table shows the relative prices of certain related articles, so grouped as to render easy a comparison of the course of their prices during the year 1902:

RELATIVE PRICES OF CERTAIN GROUPS OF RELATED ARTICLES IN 1902.

## RELATIVE PRICES OF CERTAIN GROUPS OF RELATED ARTICLES IN 1902-Conciuded.

[Average price for $1890-1899=100$.]

A study of this table shows that of the 6 articles grouped under cattle and cattle products (cattle, fresh beef, beef hams, mess beef, tallow, and hides) cattle and hides were lower in February than in January, tallow was the same in February as in January, and fresh beef, beef hams, and mess beef were higher in February than in January; March compared with February shows hides lower, hams
the same priçe, and cattle, fresh beef, mess beef, and tallow higher; April compared with March shows hides lower and cattle, fresh beef, beef hams, mess beef, and tallow higher; May compared with April shows all 6 articles higher; mess beef, however, advanced much more than any other article; June compared. with May shows tallow lower and the other 5 articles higher; July compared with June shows mess beef lower and the other 5 articles higher; August compared with July shows fresh beef, mess beef, and tallow lower, and cattle, beef hams, and hides higher; September compared with August shows cattle, fresh beef, mess beef, and tallow lower, beef hams the same price, and hides higher; October compared with September shows caćtle, beef hams, mess beef, and hides lower, fresh beef the same price, and tallow higher; November compared with October shows all the articles lower except beef hams, which were the same price; December compared with November shows cattle, fresh beef, tallow, and hides lower, and beef hams and mess beef higher.
The lowest monthly relative price during 1902 for cattle was 119.6 in December, the highest 153 in August; the lowest for fresh beef was 107.8 in January, the highest 138.8 in July; the lowest for beef hams 109.9 in January, the highest 124.4 in August and September, the relative price being the same for the two months; the lowest for mess beef 121.6 in January, the highest 171.5 in June; the lowest for tallow 135.2 in December, the highest 155.9 in May; the lowest for hides 126.9 in April, the highest 159.1 in September. The facts for the other groups may be seen by reference to the table.
In the following table a similar comparison of the course of prices for the 13 -year period, 1890 to 1902 , is shown by years:

## RECENT REPORTS OF STATE BUREAUS OF LABOR STATISTICS.

## MASSACHUSETTS.

## Thirty-first Annual Report of the Massachusetts Bureau of Statistics of Labor. March, 1901. Horace G. Wadlin, Chief. xvi, 792 pp.

This report presents the following subjects: Population of Massachusetts, 1900,64 pages; the insurance of workingmen, 183 pages; graded prices, 544 pages.

The Insurance of Woringmen.-This part of the report was prepared in accordance with a resolve of the legislature instructing the bureau to investigate "the subject of labor and cooperative insurance," etc. The investigation was restricted to those schemes or methods by which it is sought io protect workingmen and their families against the results of the sickness, accidental injury or death, invalidity, or old age of the wage worker. The material was secured largely from secondary sources, including monographs and official reports or compilations on various phases of the subject, and is presented under four sections: General review of workingmen's insurance, summary of provisions relating to workingmen's insurance in Europe, employers' insurance schemes in England, and employers' accident and annuity schemes in France.
Legislation, statistics, individual undertakings, and general results are presented in the various sections, the third section being chiefly taken up with detailed accounts of the methods in use in different English establishments, either in accordance with the employers' liability act of 1880 , or independently of its provisions. The fourth section treats of France in a somewhat similar manner.

In the concluding pages is given an account of the relief department of the Baltimore and Ohio Railroad.
Graded Prices.-This is a compilation from the official documents of various States and countries, giving prices of board, rent, fuel, food, clothing, etc., under 15 general heads, embracing 50,883 quotations, of which 45,017 were from the United States and 5,866 from foreign countries. These quotations cover the period 1816 to 1891.

During the four years, 1895 to 1898 , the bureau was engaged in publishing statistics of graded weekly wages, taken from sources similar to the above, and including 588 branches of occupations or forms of
employment for the period 1810 to 1891 . The two series of quotations are similarly graded, as follows: High, medium high, medium, medium low, and low. In this report the following brief tables present a summary comparison of wages and prices, showing for each grade the number of articles and of occupations considered and the per cent of each, as furnished by Massachusetts, by other States, and by foreign countries:

GRADED PRICES AND WAGES.
[In these tables each article is counted as one only. If the same quotation as to any article appeared in more than one State or country, each is credited in the table with equal fractional representation as to such article. Thus, in the first table it appears that there were 151 articles in the grade marked "high," and Massachusetts is credited with 34.58 of these articles. In fact, Massachusetts furnished "high" quotations for 41 separate articles, 29 of which were found in that State only. For 10 other articles identical quotations were furnished by some other State or cour try, and Massachusetts is credited with one-half in each of these instances. For 1 article 2 other and for 1 article 3 other States or countries in addition to Massachusetts furnished "high" quotations, and in these cases Massachusetts is credited with one-third and one-fourth, respectively. The sum of these quan-tities-29 plus 10 halves (5.00), plus one-third ( 0.83 ), plus one-fourth ( 0.25 ) -equals 84.58 , the total number of high quotations with which Massachusetts can be fairly credited. The same method is followed throughout.]

PRICES, 1816-1891.

| States and countries. | High. |  | Medium high. |  | Medium. |  | Medium low. |  | . Low. |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of articles. | Per cent. | Number of articles. | Per cent. | Number of articles. | Per cent. | Number of articles. | Per cent. | Number of articles. | $\begin{aligned} & \text { Per } \\ & \text { cent. } \end{aligned}$ |
| Massachusetts | 34.58 | 22.90 | 35.44 | 25.81 | 42.11 | 27.89 | 48.89 | 32.59 | 45.81 | 30.34 |
| Other States | 54.43 | 36.05 | 63.11 | 45.08 | 78.50 | 51.98 | 77.53 | 61. 69 | 67.45 | 44.67 |
| Foreign countries.. | 61.99 | 41.05 | 41.45 | 29.61 | 30.39 | 20.13 | 23.58 | 15. 72 | 37.74 | 24.99 |
| Total | 151.00 | 100.00 | 140.00 | 100.00 | 151.00 | 100.00 | 150.00 | 100.00 | 151.00 | 100.00 |

WAGES, 1810-1891.

| States and countries. | High. |  | Medium high. |  | Medium. |  | Medium low. |  | Low. |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Num- ber of occupa- tions. | Per cent. | Number of occupa tions. tions. | Per cent. | Number of occupa- tions. tions. | Per cent. |  | $\begin{aligned} & \text { Per } \\ & \text { cent. } \end{aligned}$ | Num-occupations. | $\begin{gathered} \text { Per } \\ \text { cent. } \end{gathered}$ |
| Massachusetts ..... | 198.76 389.24 | 33.80 66.20 | 187.06 388.69 | 32.25 67.02 | 158.54 415.00 | 26.96 70.58 | 134.23 358.38 | 22.87 61.05 | $\begin{array}{r}55.37 \\ 137.54 \\ \hline\end{array}$ | 9.42 23.39 |
| Foreign countries. |  |  | 4.25 | . 73 | 14.46 | 2.46 | 94.39 | 16.08 | 395.09 | 67.19 |
| Total. | 588.00 | 100.00 | 580.00 | 100.00 | 588.00 | 100.00 | 587.00 | 100.00 | 588.00 | 100.00 |

The full list of articles and of occupations is covered only in the grades high, medium, and low. It is noticeable that no "high" wage quotation was furnished by foreign countries, while they furnished 41.05 per cent of the quotations of "high" prices. Of "low" prices foreign countries furnished 24.99 per cent of the quotations and 67.19 per cent of "low" wage rates.

## NEW HAMPSHIRE.

## Fourth Biennial Report of the Bureau of Labor of the State of New Hampshire. 1901-1902. L. H. Carroll, Commissioner. 265 pp.

A variety of subjects is presented in this report, and they may be outlined as follows: Manufacturing industries, 52 pages; creameries, 9 pages; industrial chronology, 18 pages; unoccupied manufacturing plants and water-power privileges, 25 pages; fire chronology, 23 pages; highway statistics, 19 pages; manual training, 26 pages; factory inspection, 22 pages; strikes, 11 pages; labor legislation, 12 pages; labor organizations, 17 pages; census statistics, 15 pages.

Manufacturing Industries.-Under this title is presented a text account of the leading industries of the State, with figures, chiefly for 1900 and 1901, giving production, number of employees, wages paid, capital invested, etc. Other parts are devoted to a table showing for 49 industries in 1901 the capital invested, value of product, wageearners and wages paid, clerks and officials and salaries paid, amount invested in repairs, enlargements, etc.; tables comparing certain of the foregoing items for 1901 with the corresponding items for 1900; a table of average daily wages, and tables presenting the manufacturing statistics by counties and by cities.

From the first of the foregoing enumerated tables the following summarized statement is taken, the figures being for the year ending June 30, 1901:
Establishments considered ............................................................. 1,454
Capital invested.................................................................... $\$ 88,943,235$
Value of product . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . \$111, 933, 030
Wage-earners:
Males ............................................................................... 51,492
Females . ..................................................................... 23,391
Wages paid:
Males ..................................................................... \$21, 330,026
Females ........................................... .......... ......... $6,923,278$
Salaried employees................................................................ 1,784
Salaries paid..................................................................... $\$ 1,907,142$
Amount invested in permanent repairs, enlargements, etc............. $\$ 1,720,063$
Of the 1,454 establishments, 417 reported an increase and 133 a decrease in production as compared with the preceding year; 196 reported increased and 12 reported decreased wages.

Creameries.-Statistics are given of the creameries in operation in the State for the year ending July 1, 1901, and their location. Fifty creameries reported an invested capital of $\$ 259,956$, and a product for the year valued at $\$ 1,059,381$. Employment was given to 117 wageearners and 33 salaried persons, who were paid a total of $\$ 58,407$ in wages and $\$ 9,958$ in salaries.

$$
\text { 13362-No. } 45-03-11
$$

Unoccupied Manufacturing Plants and Water-Power Privi-leges.-This is a list of the manufacturing plants in the State unoccupied in March, 1902, as well as the water-power privileges, developed and undeveloped, then available. The amount of power, dimensions, and condition of plants, and other information pertaining thereto, is given for 77 towns in the State.

Manual Training.-This section of the report is devoted to papers by prominent authorities on this important phase of education.

Strikes.-Brief accounts are given of the strikes that occurred in the State from July 1, 1900, to July 1, 1902. During this period 22 strikes were reported, 15 of which were due chiefly to disputes respecting wages and hours of labor, 3 to questions of trade-unionism, and 4 to other causes. Most of the strikes were of short duration and resulted in failure. Of strikers and those thrown out of employment in consequence of strikes the number approximated 1,320 .

Labor Legislation.-This section presents the laws affecting labor passed by the State legislature at its session of 1901.

Labor Organizations.-A list of the labor organizations of the State, by cities, gives the date of organization, number of members, and officers. Including 5 federations of labor organizations, 93 unions were reported to the bureau, having an approximate membership of 6,450.

## PENNSYLVANIA.

Annual Report of the Seoretary of Internal Affairs of the Commonwealth of Pennsylvania. Vol. XXIX, 1901. Part III, Industrial Statistics. James M. Clark, Chief of Bureau. 708 pp.

The contents of this report are: An bistorical and descriptivearticle on the shoe industry, 51 pages; an historical and descriptive article on the cement industry, 24 pages; statistics of manufactures, 581 pages; analysis, 41 pages.

Statistics of Manufactures. - The greater part of this presentation consists of two series of tables, the first series giving comparative data for 354 identical establishments, representing 44 industries, for a period of 10 years ( 1892 to 1901 ), and the other series, 801 identical establishments, represcnting 88 industries, for a period of 6 years ( 1896 to 1901).

The first series shows the average days in operation, persons employed, aggregate wages paid, average yearly earnings and daily wages, and value of product, total and per employee. A summary of the more important data is presented in the following table.

COMPARATIVE STATISTICS OF 354 IDENTICAL MANUFACTURING ESTABLISHMENTS, 1892 TO 1901.

| Year. | Average persons employed. |  | Aggregate wages paid. |  | Average yearly earnings. |  | Value of product. |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number. | Percent of in. crease. | Amount. | Percent of increase. | Amount. | Percent of increase. | Amount. | Per cent of increase. |
| 1892 | 136,882 |  | \$67,331, 876 |  | \$491.90 |  | \$269, 452, 465 |  |
| 1893 | 122,278 | $a 10.67$ | 66,818, 289 | a 15.61 | 464.66 | a 5.54 | 226,017, 762 | a 16.12 |
| 1894 | 109,383 | a 10.55 | 45, 229, 667 | a 20.40 | 413.50 | $a 11.01$ | 185, 626, 971 | a 17.87 |
| 1895 | 127, 361 | 16.44 | 56, 704,511 | 25.37 | 445.78 | 7.81 | 222, 730, 980 | 19.99 |
| 1896 | 118,092 | a 7.28 | 52, 102, 365 | a 8.12 | 441.29 | $a 1.01$ | 211, 252, 732 | a 5.15 |
| 1897 | 121,281 | 2.70 | 52,138, 941 | . 07 | 429.90 | $a 2.58$ | 222,995, 654 | 5.56 |
| 1898 | 137,985 | 13.77 | 62, 676,615 | 20.21 | 454.52 | 5.73 | 266, 044, 530 | 19.30 |
| 1899 | 154, 422 | 11.91 | 78, 179, 333 | 24.73 | 506.27 | 11.38 | 377,934, 411 | 42.06 |
| 1900 | 136,814 | a 11.40 | 69,697,485 | $a 10.85$ | 509.43 | . 62 | 418, 790, 239 | 10.81 |
| 1901 | 156,424 | 14.33 | 85, 219, 969 | 22.27 | 544.80 | 6.94 | 432, 994, 653 | 3.39 |

a Decrease.
In the above table each item for 1901 shows a considerable increase over that for the preceding year; and, further, each item for 1901 surpasses the corresponding item for each of the preceding years in the series. Comparing the figures for 1901 with those for 1892 , the average number of persons employed shows a gain of 19,542 , or 14.28 per cent, during the 10 -year period; the aggregate wages paid a gain of $\$ 17,888,093$, or 26.57 per cent; the average yearly earnings a gain of $\$ 52.90$, or 10.75 per cent; and the value of product a gain of $\$ 163,542,188$, or 60.69 per cent.

The second series of tables not only presents a wider range of industries ( 88 in number), but gives more details, as appears from the following table, which is a summary statement for the years covered:

COMPARATIVE STATISTICS OF 801 IDENTICAL MANUFACTURING ESTABLISHMENTS, 1896 TO 1901.

| Year. | Capital invested in plants, and working capital. |  | Cost of basic material. (a) |  | Market value of product. |  | Per cent of cost of basic material of value of product. | Average days in operation. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1896. | \$200, 109, | 865 | $b$ ¢92, 612 | 2, 814 | \$188 | 8, 038, 106 | c 49.3 | 270 |
| 1897 | 201,889, | 872 | b 102, 239 | , 370 |  | $5,232,150$ | 049.8 | 286 |
| 1898. | 207, 219, | 841 | $b 115,605$ | , 138 |  | 0, 813,543 | 048.0 | 286 |

| 1901 | 253, 190, |  | 188, 207 | 7,662 |  | 0, 625, 709 | 50.8 | 293 |
| Year. | Persons employed. |  | gregate wages paid. | Aver yea earni | $\begin{aligned} & \text { age } \\ & \text { rly } \\ & \text { ngs. } \end{aligned}$ | $\begin{aligned} & \text { Average } \\ & \text { daily } \\ & \text { earnings. } \end{aligned}$ | Value of product per employee. | Per cent of wages of value of product. |
| 1896. | 131,260 | \$50, | 084, 767 | \$381 | . 57 | \$1.41 | \$1,432.56 | 26.6 |
| 1897. | 137, 027 |  | 504,050 |  | . 17 | 1.34 | 1,497.75 | 25.6 |
| 1898 | 153, 096 |  | 377,592 |  | . 38 | 1.38 | 1,572.96 | 25.1 |
| 1899. | 175, 641 |  | 669,979 |  | . 52 | 1.52 | 1, 848880 | 23.6 |
| 1900 | 186, 936 |  | 828,899 |  | . 74 | 1.52 | 1,903.43 | 23.0 |
| 1901. | 192,972 |  | 828,341 |  | . 95 | 1.54 | 1,920.62 | 23.4 |

[^11]A general increase is apparent in the volume of manufacturing business done in the period covered by this table, as indicated by each item considered. A slight increase, however, is shown in the per cent of cost of basic material of the value of the product, and a decrease in the per cent of wages of the value of the product.

Specified manufacturing industries of which data are presented in more or less detail are pig iron, steel, rolled iron and steel, tin plate, cement, tanning, and boots and shoes.

Pigiron. In 1901 the capital invested in this industry amounted to $\$ 152,075,575$, an increase over 1900 of $\$ 79,886,791$, or 110.7 per cent. There were produced during the year $7,364,295$ gross tons of pig iron, an increase over 1900 of 992,607 tons, or 15.6 per cent. The aggregate cost of basic material in 1901 was $\$ 53,511,173$, or 4.7 per cent greater than in 1900, while the cost of basic material per ton was less by 9.4 per cent. The market or realized value of product amounted to $\$ 106,883,000$, an increase of $\$ 1,433,077$, or 1.4 per cent, over 1900 , while the realized value per ton was $\$ 14.52$, a decrease of $\$ 2.03$, or 12.3 per cent, from 1900. There were employed in 1901 an average of 14,749 wage-earners, a decrease from 1900 of 1,036 , or 6.6 per cent. These workmen received an aggregate of $\$ 8,646,479$ in wages, an increase of $\$ 146,285$, or 1.7 per cent, over the aggregate wages paid in 1900. The average yearly earnings, for skilled and unskilled labor, was $\$ 586.24$, an increase over 1900 of $\$ 47.74$, or 8.9 per cent, while the average daily wage was $\$ 1.85$, an increase over 1900 of $\$ 0.18$, or 10.8 per cent.

Steel. For the production of steel in 1901 the amounts, in gross tons, were: Bessemer, $4,319,144$; open hearth, $3,554,828$; crucible and other processes, 85,748 . The total of $7,959,720$ tons was an increase of $1,702,945$ tons, or 27.2 per cent, over the year 1900 .

Rolled iron and steel. Of rolled iron and steel products in 1901 there were $8,668,337$ gross tons, classified as follows: Rails, $1,406,532$ tons; iron and steel structural shapes, 916,013 tons; cut nails and cut spikes, 37,349 tons; plates and sheets (including 218,432 tons of black plate for tinning), $1,590,502$ tons; other rolled products, $4,717,941$ tons. In this production a capital of $\$ 232,108,715$ was invested. Excluding the black plate for tinning, the value of product aggregated $\$ 298,284,259$. There were 86,086 workmen employed, who received $\$ 53,334,787$ in wages, the average yearly earnings being $\$ 619.55$ and the average daily wage $\$ 2.21$. Works were in operation during the year an average of 280 days. The average yearly earnings in 1901 exceeded those of 1900 by $\$ 45.58$, or 7.9 per cent. Considering the item of rails, the production in 1901 exceeded that of 1900 by 208,434 tons, or 17.4 per cent.

Tin plate. In 1901 the 22 black plate works of the State produced $435,628,000$ pounds, of which $377,430,000$ pounds were tinned. The
value of the tinned production was $\$ 15,084,852$, while that of the $58,198,000$ pounds not tinned was $\$ 1,940,486$. During the year there were employed an average of 8,188 working people for 228 days. The total wages amounted to $\$ 4,593,561$, being an average of $\$ 561.01$ per employee for the year, or $\$ 2.46$ per day. Compared with 1900 , the production in 1901 was greater by 39.6 per cent and the value greater by 35.2 per cent. In the number of working people there was an increase of 10.8 per cent; in aggregate wages paid an increase of 30.2 per cent; in average yearly earnings an increase of 17.6 per cent; in average daily wages an increase of 2.5 per cent. The number of days in operation was 14.6 per cent greater than in 1900 .

Five tin dipping works, buying all their black plate, produced $44,210,000$ pounds of tin and terne, of a value of $\$ 2,527,178$. These works employed 372 people for 283 days during the year, paying an aggregate of $\$ 157,262$ in wages, the average yearly earnings per employee being $\$ 422.75$, or $\$ 1.49$ per day.

The combined production of tin and terne plate by the black plate works and the dipping works in 1901 amounted to $421,640,000$ pounds, of the value of $\$ 17,612,030$. Compared with 1900 , this was an increase of 41.6 per cent in production and 35 per cent in value.

Cement. In 1901 there were 14 plants engaged in the manufacture of cement, having an invested capital of $\$ 19,271,981$. These plants turned out 7,955,669 barrels, the realized or market value of which was $\$ 7,334,891$. An average of 5,080 workmen, employed for 326 days, were paid an aggregate of $\$ 2,212,457$ in wages, being a yearly earning per employee of $\$ 435.52$, or $\$ 1.34$ per day.

Tanning industry. In this industry in 1901 there were 200 plants engaged, representing a capital of $\$ 64,582,517$. The plants were in operation during the year 299 days and employed a total of 15,565 wage-earners, of whom 14,307 were men, 545 women, and 713 children. The aggregate wages paid to these wage-earners was $\$ 6,580,552$, of which the men received $\$ 6,304,408$, the women $\$ 141,224$, and the children $\$ 134,920$. The average yearly earnings of the men were $\$ 440.65$, the women $\$ 259.13$, and the children $\$ 189.23$. The average daily wages were $\$ 1.47$ for men, $\$ 0.87$ for women, and $\$ 0.63$ for children. Notincluding by-products, the value of production amounted to $\$ 69,202,533$.

Boots and shoes. There were 120 factories for the manufacture of boots and shoes in operation during 1901, which represented an invested capital of $\$ 5,336,077$. The factories were in operation during the year an average of 280 days and employed anaverage of 9,342 persons, of whom 5,438 were men, 3,269 women, and 635 children. To these wage-earners was paid $\$ 3,059,579$, the men receiving $\$ 2,192,090$, the women $\$ 789,270$, and the children $\$ 78,219$. In yearly earnings the men averaged $\$ 403.11$, the women $\$ 241.44$, and the children $\$ 123.18$.

The average daily wages were $\$ 1.44$ for men, $\$ 0 \_86$ for women, and $\$ 0.44$ for children. A total production of $12,387,168$ pairs had a market or realized value of $\$ 13,602,712$. A directory of the boot and shoe factories of the State is presented.

Rubber boots and shoes. For the manufacture of rubber boots and shoes 2 factories were in operation during 1901, representing a capital investment of $\$ 800,000$. During the year, $2,658,730$ pairs were turned out, having a market value of $\$ 1,697,817$. The factories were in operation an average of 285 days, and employed 1,063 wage-earners, of whom 621 were men, 412 women, and 30 children. To these wageearners was paid $\$ 328,247$, of which the men received $\$ 234,303$, the women $\$ 90,784$, and the children $\$ 3,160$. The average yearly earnings of the men were $\$ 377.30$, the women $\$ 220.35$, and the children $\$ 105.33$. The men received an average daily wage of $\$ 1.32$, the women $\$ 0.77$, and the children $\$ 0.37$.

## RHODE ISLAND.

Fifteenth Annual Report of the Commissioner of Industrial Statistics, made to the General Assembly at its January session, 1902. Henry E. Tiepke, Commissioner. vii, 417 pp.

The subjects presented in this report are the following: Statistics of textile manufactures, 98 pages; imports and exports of merchandise, 13 pages; strikes, lockouts, and shut-downs, 15 pages; official valuations of property, 16 pages; banking institutions, 81 pages; free public employment offices, 19 pages; decisions of courts affecting labor, 164 pages.
Textile Manufactures.-Comparative statistics are given for years 1899 and 1900 for 186 identical establishments, of which 90 were engaged in the manufacture of cotton goods, 11 in the manufacture of hosiery and knit goods, 19 were bleacheries and dye and print works, 4 were in the manufacture of silk goods, and 62 in the manufacture of woolen goods. The statistics are summarized in the table following:

STATISTICS OF 186 TEXTILE MANUFACTURING ESTABLISHMENTS, 1899 AND 1900.

| Items. | 1899. | 1900. | Increase. |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Amount. | Per cent. |

$a$ Derrease.

For 1900 alone statistics are given for 206 establishments, of which 96 were engaged in the manufacture of cotton goods, 13 in the manufacture of hosiery and knit goods, 19 were bleacheries and dye and print works, 4 were in the manufacture of silk goods, and 74 in the manufacture of woolen goods. A summary of the statistics of the 206 establishments follows:
Single proprietors ..... 38
Firms ..... 35
Corporations ..... 133
Partners in firms ..... 86
Stockholders in corporations ..... 3, 847
Aggregate wages paid ..... $\$ 18,463,059$
Employees:
Average number ..... 49, 008
Greatest number ..... 53, 090
Smallest number ..... 41, 963
Average yearly earnings ..... \$376. 74

Strikes, Lockouts, and Shutdowns.-This is a chronological record of the various labor troubles occurring within the State during 1901, derived from reports given in the newspapers. No statistics are presented that can be summarized.

Free Public Employment Offices.-Under this title are presented statistics of the free public employment offices as now maintained by the State of Illinois, with recommendations that similar offices be established in the industrial centers of Rhode Island.

Decisions of Courts Affecting Labór.-In this chapter, which concludes the report, are reproduced the decisions published in the Bulletin of the United States Department of Labor during the year 1901.

## WEST VIRGINIA.

Seventh Biennial Report of the Bureau of Labor. 1901-1902. I. V. Barton, Commissioner. 178 pp .
The six chapters of this report treat of the following subjects: Industrial conditions, 27 pages; new industrial establishments, 28 pages; economic conditions of organized labor, 25 pages; free public employment bureau, 5 pages; factory inspection, 15 pages; labor legislation, etc., 60 pages.

Industrial Conditrons.-This subject is presented in a series of tables showing, by industries, the number of persons employed January 1, 1901, and January 1, 1902, with per cent of increase or decrease, number of weeks in operation during 1901, daily hours of labor and amount paid in wages in the different industries, with per cent of increase or decrease in wage rates. In the presentation statistics are given for 355 establishments, representing 57 industries and
located in 141 towns and cities. The following table summarizes the facts shown for the various industries:

CONDITIONS IN 355 INDUSTRIAL ESTABLISHMENTS DURING 1901.

| Industries. | Estab-lishments. | Number of employees January 1. |  |  | $\begin{gathered} \text { Aver- } \\ \text { age } \\ \text { weeks } \\ \text { in oper- } \\ \text { aton } \\ \text { during } \\ \text { 1901. } \end{gathered}$ | $\left\lvert\, \begin{gathered} \text { Aver- } \\ \text { ager } \\ \text { dally } \\ \text { hours } \\ \text { of labor } \\ \text { during } \\ \text { 1901. } \end{gathered}\right.$ | Amount paid in wages during 1901. | $\underset{\text { ploy-es }}{\text { Em- }}$ by increase in during 1901. |

$a$ Decrease. $\quad b$ Not including 1 establishment reporting a decrease affecting 48 employees.
New Industrial Establishments.-This chapter enumerates the industrial establishments opened in the State during 1900 and 1901, giving name, location, capital invested, wages paid monthly, and number employed, by sex. There were 362 such establishments, with an invested capital of $\$ 39,839,228$. The establishments employed 16,956 persons, to whom were paid monthly an aggregate of $\$ 780,527$ in wages. This is a considerable increase over the new establishments opened during the period 1897 to 1899.

Economic Conditions of Organized Labor.-A directory of the labor organizations of the State is presented under this caption, together with tables showing the number of unions, location, date of organization, membership, daily hours of labor, and maximum and minimum daily rates of wages in different occupations. The organizations also report as to sick, death, and strike benefits, attitude toward arbitration, conditions resulting from organization, and strikes during 1901.

The number of unions and membership of labor organizations, classified by occupations, is shown in the following table.

NUMBER AND MEMBERSHIP OF LABOR ORGANIZATIONS, 1901.

Free Public Employment Bureau.-By an act of the State legislature in $1901{ }^{( }{ }^{a}$ ) a free public employment bureau was established. The following statement shows the work of the bureau from the date of its organization, May 15, 1901, to May 15, 1902: Of 896 applications for employment by males 790 , or 88.1 per cent, secured situations; of 312 applications by females 254 , or 81.4 per cent, secured situations. Of 836 applications for male help 790 , or 94.4 per cent, were supplied; of 468 applications for female help 254 , or 54.2 per cent, were supplied.

Labor Legiblation, etc.-This chapter is devoted to the following subjects: Laws relating to labor enacted by the State legislature during its session of 1901; the enforcement of labor laws; labor conditions, as embodied in the second message of Governor Atkinson; the reproduction of an article by Carroll D. Wright, United States Commissioner of Labor, on the Value and Influence of Labor Statistics; a list of the States in which Labor Day is now a legal holiday, and a chronology of the State bureaus of labor statistics.

[^12]
## RECENT FOREIGN STATISTICAL PUBLICATIONS.

## BELGIUM.

Annuaire de la Législation du Travail. 4e année, 1900; 5e année, 1901. Office du Travail, Ministère de l'Industrie et du Travail. 1901 and 1902. xv, $905 \mathrm{pp} . ; \mathrm{xv}, 632 \mathrm{pp}$.

The present reports are the fourth and fifth of a series of annual reports on labor legislation published by the Belgian labor bureau. They contain the text of laws enacted and of important decrees, ordinances, and regulations relative to labor issued during 1900 and 1901, respectively.

The report for 1900 contains laws, etc., enacted during that year in Austria, Belgium, Denmark, France, Germany, Great Britain and colonies, Hungary, Italy, the Netherlands, Norway, Russia, Spain, Sweden, Switzerland, the United States, and in four States of the Union. An appendix contains laws and extracts enacted during 1899 in Germany, Hungary, and eight States of the Union.

The report for 1901 contains laws, etc., enacted during that year in Austria, Denmark, France, Great Britain and colonies, Greece, Italy, Luxemburg, the Netherlands, Peru, Sweden, Switzerland, and in eight States of the Union and the District of Columbia. An appendix contains certain laws and extracts from laws enacted during 1900 in Tasmania, Servia, New Jersey, and Ohio.

## GREAT BRITAIN.

Third Report of Proceedings under the Conciliation (Trade Disputes) Act, 1896. 1901. 129 pp . (Published by the British Board of Trade.)

The present report deals with the proceedings under the conciliation act for a period of two years, viz, from July 1 , 1899, to June 30, 1901. During the two years 46 cases arose as against 32 in the preceding two years and 35 in the period of ten months covered by the first report, making a total of 113 cases since the passing of the act.

Of the source of applications for conciliation and arbitration in the

46 cases covered by the present report 16 applications were from workmen only, 3 were from employers only, 24 were from both employers and workmen, and 3 cases of action were taken by the board of trade without application from either side. Considering the trades affected, 24 cases arose in the building, 7 in the metal, engineer. ing, and shipbuilding, 6 in transportation, 3 in mining and quarrying, 2 in the clothing, and 4 in other trades.

Of the 46 cases in which action by the board of trade was taken or invited during the two years covered by the report, 29 were settled under the act ( 23 by appointment of arbitrators, 3 by appointment of conciliators, and 3 by negotiations between the parties conducted by officials of the board of trade). Of the remaining cases, 3 were settled directly between the parties during the negotiations, and in the other 14 cases either no settlement was effected or the application was refused by the board of trade.

The table following gives particulars of the action taken by the board of trade and its results in the periods covered by the present and the two previous reports:

DISPUTES ACTED UPON BY THE BOARD OF TRADE UNDER THE CONCILIATION ACT, AUGUST, 1896, TO JUNE, 1901.

| Items. | $\begin{aligned} & \text { August, } \\ & \text { 1896, to } \\ & \text { June, } \\ & 1897 . \end{aligned}$ | $\begin{gathered} \text { July, } \\ \text { 1897, to } \\ \text { June, } \\ 1899 . \end{gathered}$ | $\begin{gathered} \text { July, } \\ \text { 1899, to } \\ \text { June, } \\ \text { t901. } \end{gathered}$ | Total. |
| :---: | :---: | :---: | :---: | :---: |
| Disputes settled under the act: |  |  |  |  |
| By appointment of conciliator or chairman. | 2 | 4 | 3 | 9 |
| By negotiations by board of trade officials .. | 12 | 8 | 3 | 23 |
| By appointment of arbitrator.................................. | 5 | 10 | 23 | 38 |
| Total......................................................... | 19 | 22 | 29 | 70 |
| Disputes settled between the parties during negotiations ..... | 4 | 3 | 3 | 10 |
| No settlement (including cases of applications refused by the board of trade) | 12 | 7 | 14 | 33 |
| Total. | 35 | 32 | 46 | 113 |

From the above it is seen that of the 113 cases that have arisen since the act came into operation, 70 have been settled under its provisions and 10 others settled between the parties during the negotiations. Of the 70 disputes settled under the provisions of the act, 28 arose in the building trades, 13 in the metal, engineering, and shipbuilding, 11 in mining and quarrying, and 18 in other trades.

The more important of the 23 disputes settled by arbitration in the two years embraced by the present report were a general dispute in the brass trades, affecting about 8,500 brass workers; a dispute in the printing trade in London, affecting 9,900 compositors, and a dispute in the boot and shoe trade at Northampton, affecting 1,500 workers.

Appendixes to the report give detailed particulars of the cases deait with from July 1, 1899, to June 30, 1901; text of awards and agree-
ments settling disputes dealt with under the conciliation act since its passage in 1896; list of arbitrators and conciliators appointed by the board of trade since the passage of the act; rules of conciliation boards and other agreements containing clauses which provide for the reference of disputes to the board of trade, failing their settlement by other agencies; list of conciliation boards registered under the act, and a reproduction of the text of the act.

Thirteenth and Fourteenth Reports on Trade Unions in Great Britain and Ireland, 1900 and 1901. lxxix, 251 pp.; lix, 178 pp. (Published by the Labor Department of the British Board of Trade.)

The present reports cover ground similar to that of the report for 1899. The information relates to all trade unions in the United Kingdom, to 100 principal trade unions, to trades councils, and to federations of trade unions.

At the end of 1900 there were reported 1,252 trade unions with an aggregate membership of $1,910,614$. During the year 1901, 13 unions with 3,305 members were amalgamated with other societies, 36 with 4,791 members were dissolved, and 33 with 11,184 members were formed. Therefore, at the end of 1901 the number of existing unions was 1,236 , or 16 less than at the end of 1900 . On the other hand, the total membership had slightly increased, it being $1,922,780$ at the end of 1901 , an increase of 12,166 , or 0.6 per cent. Of the 1,203 unions which were in existence at the end of 1900 and remained in existence at the end of 1901, 529 increased in membership, 572 decreased, and 102 remained stationary. Comparing number of members at end of 1901 with number at end of 1900 , the greatest increase in the membership of any union is found in the mining and quarrying industry, 1 union showing an increase of 5,525 members, and 3 others an aggregate increase of 9,619 members. Decreases are found in the membership of unions pertaining to the building trades, engineering and metal trades, textiles, boots and shoes, chemicals, and railway employees.

At the end of 1901 there were 144 unions which included women and girls as members, compared with 145 unions in 1900. The female membership of unions decreased from 123,510 in 1900 to 120,078 in 1901 , a falling off of 3,432 , or 2.8 per cent. Women and girls formed 6.2 per cent of the total membership of trade unions in 1901, compared with 6.5 per cent of the total membership in 1900 . Of the female trade unionists 89.9 per cent were found in the textile industries in 1901.

The following tables show the number and membership of trade unions, by groups of industries, for the 10 years 1892 to 1901:

NUMBER OF TRADE UNIONS, BY GROUPS OF INDUSTRIES, 1892 TO 1901.
[In this tabulation only those trade unions are considered which furnished returns for all of the ten years included in this period.]

| 1901... | 125 | 59 | 263 | 243 | 48 | 64 | 50 | 108 | 281 | 1,236 |

MEMBERSHIP OF TRADE UNIONS, BY GROUPS OF INDUSTRIES, 1892 TO 1901.
[In this tabulation only those trade unions are considered which furnished returns for all of the ten years included in this period.]

| Year. | Building. | $\begin{aligned} & \text { Mining } \\ & \text { and } \\ & \text { quarry- } \\ & \text { ing. } \end{aligned}$ |  | Textile. | Clothing. | Trans. portation (land and sea). | Printing, paper, etc. | Woodworking and furnishing. | Miscellaneous. | Total. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1892. | 157,971 | 315, 272 | 279, 392 | 204, 172 | 83,270 | 154, 658 | 45,291 | 32,096 | 231, 176 | 1,503,298 |
| 1893. | 172,870 | 318, 112 | 266, 634 | 205,647 | 80,738 | 141, 731 | 46,725 | 82, 197 | 215, 637 | 1,480, 291 |
| 1894. | 178,721 | 307,546 | 263,628 | 214,425 | 81, 737 | 123, 103 | 47,797 | 30,768 | 189, 300 | 1,437,025 |
| 1895. | 179,283 | 280, 215 | 269,019 | 218,878 | 78,510 | 119,741 | 49,060 | 31, 969 | 181,811 | 1, 408, 486 |
| 1896. | 193, 341 | 279,977 | 303, 368 | 218,016 | 76,983 | 134, 397 | 50,988 | 36,812 | 201, 644 | 1,495,476 |
| 1897. | 214,929 | 283, 054 | 319,523 | 218, 722 | 75,780 | 183, 057 | 52, 664 | 38,798 | 227, 226 | 1, 613,753 |
| 1898. | 232,126 | 354, 640 | 309, 120 | 214,562 | 71, 124 | 146,933 | 54,064 | 38,086 | 228, 806 | 1,649,461 |
| 1899. | 249,965 | 426,565 | 331,875 | 220,721 | 67, 317 | 163,151 | 56,452 | 39,682 | 248, 169 | 1,803,897 |
| 1900. | 253,270 | 505, 056 | 338,205 | 220,939 | 67,701 | 169, 272 | 57, 256 | 39,706 | 259, 209 | 1,910,614 |
| 1901.... | 248,648 | 514, 536 | 334, 913 | 219,256 | 66,291 | 166, 434 | 58,214 | 39,761 | 274, 727 | 1,922,780 |

The largest membership in 1900 and in 1901 was reported by the mining and quarrying group, it being 505,056 and 514,536 , respectively. Next in order of membership were the groups of metal, engineering, and shipbuilding, with 338,205 and 334,913 ; the building trades, with 253,270 and 248,648 , and the textile trades, with 220,939 and 219,256 members.

The present reports, as previous ones, bring out the fact that the great bulk of trade-union membership is embraced by a comparatively small number of societies. In 1901, as in 1900, four groups of industries (building trades; mining and quarrying; metal, engineering, and shipbuilding; and textiles) included over 68 per cent of all union members. Further, the 100 principal trade unions included 1,161,226 members, or 60.4 per cent of all union members, the same percentage as in 1900 .

The financial operations and benefit features of trade unions are shown for only the 100 principal organizations. In the following table the financial operations are shown for the ten years 1892 to 1901:

FINANCLAL OPERATIONS OF 100 PRINCIPAL TRADE UNIONS, 1892 TO 1901.

| Year. | Members at end of year. | Income. |  | Expenditures. |  | Funds atend of year. |  |

| 1897. | 1,055, 951 | 9, 624,487 | 9.115 | 9,206,265 | 8.719 | 10, 982, 420 | 10.402 |
| 1898. | 1,034, 790 | 9,305, 098 | 8.993 | 7,247, 406 | 7.006 | 13,040, 113 | 12.602 |
| 1899. | 1,108,587 | 9,040,731 | 8.157 | 6,213,494 | 5.607 | 15, 867, 350 | 14.316 |
| 1900. | 1,153, 642 | 9,587, 662 | 8.309 | 7,176,194 | 6.220 | 18,278,817 | 15.847 |
| 1901. | 1,161, 226 | 10,032, 295 | 8.638 | 8,057,148 | 6.940 | 20,253,964 | 17.443 |

Comparing the figures for 1901 with those for 1900 , each item shows an increase. Of the income of $£ 2,061,501$ ( $\$ 10,032,295$ ) in 1901 , $£ 1,855,072$ ( $\$ 9,027,708$ ) was derived from weekly contributions of members and $£ 206,429(\$ 1,004,587)$ from other sources. Of the income of $£ 1,970,135(\$ 9,587,662)$ in $1900, £ 1,788,717(\$ 8,704,791)$ was derived from weekly contributions of members and $£ 181,418(\$ 882,871)$ from other sources.
The total expenditure of the 100 trade unions in 1901 was $£ 1,655,635$ ( $\$ 8,057,148$ ), or 28 s .64 d . ( $\$ 6.94$ ) per member; in 1900 the total expenditure was $£ 1,474,611$ ( $\$ 7,176,194$ ), or 25 s. $6 \frac{1}{4}$ d. ( $\$ 6.22$ ) per member. This sum was expended mostly in various kinds of benefits, the nature and amount of which varied considerably in the different unions. In 1901 all but 17 of the 100 unions paid dispute benefits, 77 unions paid unemployed or traveling benefits, 77 unions paid sick or accident benefits, 38 unions paid superannuation benefits, and 89 unions paid funeral benefits. There were 35 unions which paid all these classes of benefits. In 1900 all but 18 of the 100 unions paid dispute benefits, 78 unions paid unemployed or traveling benefits, 75 unions paid sick or accident benefits, 39 unions paid superannuation benefits, and 89 unions paid funeral benefits. There were 29 unions which made payments under all these classes of benefits.

The tables which follow show the total expenditures and the expenditures per member on each of the various benefits for each of the years 1892 to 1901.

TOTAL EXPENDITURES OF 100 PRINCIPAL TRADE UNIONS ON VARIOUS BENEFITS, ETC., 1892 TO 1901

| Year. | Unemployed, traveling, and emigration benefit. (a) | Dispute benefit. (a) | Sick and accident benefit. | Superannuation benefit. | Funeral benefit. | Other benefits and grants to members. <br> (b) | Working and other expenses. | Total. |

| 1901.... | 1.363 | . 857 | 1.445 | . 852 | . 415 | . 421 | 1.587 | 6.940 |

$a$ In a few cases it was not possible to separate a certain amount of unemployed benefit from dispute benefit.
bIncludes grants to members, grants from one union to another, payments to federations, trades councils, congresses, etc.

A comparison of the items of expenditure during the 10 -year period shows a steady growth of expenditures per member on superannuation benefits, marked variations in the expenditures for dispute and unemployed benefits, and a comparatively uniform expenditure per member for sickness, accident, and funeral benefits. The large expenditure per member on dispute benefits in 1893 and in 1897 was due in the former year to a great dispute in the coal industry, and in the latter year to a dispute in the engineering trade.

At the end of 1901 the funds on hand amounted to $£ 4,161,916$ ( $\$ 20,253,964$ ), an increase during the year of $£ 405,866(\$ 1,975,147)$. The amount per member in 1901 was 71s. $8 \frac{4}{4}$ d. (\$17.44) and in 1900 65 s . $1 \frac{1}{2}$ d. (\$15.85).
Other forms of labor organizations considered in the present report are trade councils and federations of trade unions. These institutions have been defined in the digests of earlier reports. The table which
follows shows the distribution of federations according to groups of industries, and the trade councils, for the years 1897 to 1901:

FEDERATIONS OF TRADE UNIONS AND TRADE COUNCILS, 1897 TO 1901.

| Other trades... | 8 | 21,595 | 9 | 17,140 | 9 | 16,144 | 9 | 17, 264 | 9 | 21,075 |
| Total. | 117 | 1,066,676 | 111 | 988, 135 | 112 | 1, 514,091 | 109 | 1,710,032 | 107 | 1,778,444 |
| Trade councils. | 166 | 712,523 | 170 | 717, 702 | 175 | 707, 103 | 177 | 762, 475 | 181 | 785, 618 |

The general federation of trade unions with its 420,606 members was composed of 75 constituent unions. During 1901 there were two new federations formed while four were dissolved, leaving 107 in existence at the end of the year compared with 109 at the end of 1900. While the number of federations slightly decreased the aggregate membership of the federations was greater by 68,412 in 1901 than in 1900. This increase, however, is mainly due to the increased membership of the constituent trade unions, and not to an increase in the number of trade unions federated. In the building trades appears the largest number of federations, while in the mining industry appears the largest federation membership.

The number of trade councils at the end of 1901 was 181, and the total number of trade unionists represented on them 785,618. This is an increase over 1900, the number of trades councils at the end of that year being 177 and the unionists represented on them 762,475 .

The reports contain a list of the trade-union congresses which have been held in the United Kingdom since the year 1866, giving number of delegates, number and membership of organizations represented, and the income of the congresses.

## ITALY.

Statistica degli Scioperi avvenuti nell' Industria e nell' Agricoltura durante l'anno 1900. Ministero di Agricoltura, Industria e Commercio, Direzione Generale della Statistica. 1902. xlii, 154 pp .
This is the ninth of a series of annual reports on strikes and lockouts published by the bureau of statistics of the Italian department of agriculture, industry, and commerce. The report presents in detailed
tables and text statements the most important facts in reference to each strike or lockout that occurred during the year 1900, the strikes being separated into two categories--(1) those occurring in the group of agricultural industries, and (2) those occurring in industries other than agriculture. The report also contains summary tables of strikes for 1900 and for periods of years. The agricultural strikes and the lockouts are not, however, included in these summaries and are not represented in any of the tables following.

Strikes and Lockouts in 1900.-During the year 1900 there were 410 strikes, of which 27 were agricultural and 383 occurred in other industries. There were 14 shut downs, of which $\check{5}$ were lockouts.

The 383 strikes considered in the summaries involved a total of 80,858 strikers and caused a loss of time amounting to 493,093 working days. In addition, 9,348 non-striking employees were thrown out of work on account of strikes and lost 72,482 days. Of the strikers, $59 ; 750$ were men, 16,292 were women, and 4,816 were children of both sexes, 15 years of age or under.

Women participated in 149 of the 383 strikes. In 88 cases they united with men in striking, and in 61 they initiated strikes which they conducted either alone or with the aid of children or a few men.

Most of the strikes were small and of short duration. Of the 383 strikes only 9 involved over 1,000 strikers, and but 15 lasted over 30 days.

The largest strike, as regards the number of strikers, occurred in the province of Genoa, and involved 20,000 persons. It lasted 4 days, and caused an aggregate loss of 45,000 working days. The strikes during the year greatly exceed in number those of any other year for which the Italian Government has collected statistics. The number of strikers involved, however, has been exceeded once, namely, in 1896, and the time lost has been exceeded twice, in 1896 and 1897.

The following table shows, for the year 1900, the number of strikes, strikers, and working days lost, by occupations:

STRIKES, STTRIKERS, AND WORKING DAYS LOST, BY OCCUPATIONS, 1900.

| Occupations. | Strikes. | Strikers. |  |  |  | Workingdays lost. |

| For increase of wages. | 45 | 25 | 7,670 | 29 | 84 | 46 | 11,148 | 42 | 52 | 29 | 7,552 | 29 |
| Against reduction of wages.. | 10 | $34 t$ | 865 | 29 | 10 | 34 | 1,449 | 48 | 9 | 31 | 684 | 23 |
| For reduction of hours $\qquad$ | 16 | 52 | 1,404 | 41 | 7 | 22 | 792 | 23 | 8 | 26 | 1,270 | 36 |
| Against increase of hours. Other causes..... | 47 | 67 27 | $\begin{array}{r} 599 \\ 24,011 \end{array}$ | 86 51 51 | 42 | 31 | 16,638 | 35 | 2 57 | 33 42 | r <br> 95 <br> 6,631 | 14 14 |
| Total. | 112 | 29 | 34,599 | 43 | 143 | 37 | 30,027 | 37 | 128 | 34 | 16,232 | 20 |

Of the 383 strikes reported for all industries other than agriculture, 210 , or 55 per cent, were due to wage disputes; 37 , or 10 per cent, were in reference to hours of labor, and 136 , or 35 per cent, arose from other causes. Of the 80,858 strikers, 29,368 , or 37 per cent, were involved in strikes regarding wages, 4,210 , or 5 per cent, in strikes in reference to hours of labor, and 47,280 , or 58 per cent, in strikes arising from other causes.

Twenty-nine per cent of the strikes were successful, 37 per cent were partly successful, and 34 per cent failed. Forty-three per cent of the total strikers were involved in strikes which succeeded, 37 per cent in strikes which succeeded partly, and 20 per cent in strikes which failed.

Of the 27 agricultural strikes, 8 were successful, 11 were partly successful, and 8 resulted in failure. For 26 of these strikes 12,517
strikers and a loss of 72,057 working days were reported. Of the strikers reported, 5,368 were men, 5,915 were women, and 1,234 were children of both sexes 15 years of age or under. The largest agricultural strike occurred in the province of Emilia and involved 6,300 men, women, and children.

In 14 instances in 1900 employers closed their establishments for the purpose of accomplishing certain objects, but of these shut downs only 5 were directed against employees, and can be properly classed as lockouts. These 5 lockouts affected 1,146 employees, of whom 1,079 were men, 44 were women, and 23 were children 15 years of age or under. In 3 cases the lockouts were for the purpose of punishing employees for certain offenses or of maintaining discipline, hence results were not reported for them. Of the other 2 lockouts 1 was partly successful and 1 failed.

Councils of Prudhommes.-These councils, instituted according to the provisions of law, are intended for the conciliation and arbitration of labor disputes. In 1900 four cases were reported in which they had occasion to intervene.

Strikes During Twenty-two Years.-'The following table contains a summary of the more important facts in relation to strikes in all but the agricultural industries for each of the years 1879 to 1900:

STRIKES, BY YEARS, 1879 TO 1900.

| Year. | $\begin{array}{\|c\|} \text { Total } \\ \text { strikes. } \end{array}$ | Strikes which- |  |  | Strikesforwhichstrikerswerere-ported. | Strikers. |  |  |  | Strikes for days lost were re-ported. ported | Aggregate days of work lost. |

[^13]The causes were reported for 2,787 of the 2,866 strikes that occurred during the period. The details are given, however, only for those strikes which resulted from disputes in reference to wages or hours of labor. In 1,327 instances the strike was due to demands for an increase of wages; in 343 instances it was for the purpose of resisting a reduction of wages. There were 188 strikes undertaken to secure a reduction of hours of labor and 48 for the purpose of resisting an increase of hours of labor, leaving 881 strikes which were due to all other causes. Hence 59.9 per cent of all strikes for which causes were reported were on account of wage disputes, 8.5 per cent were due to disputes in reference to hours of labor, and 31.6 per cent arose from all other causes.

The proportionate results of strikes for the period 1879-1891 to 1900 are shown in the following table:

RESULTS OF STRIKES, 1879-1891 TO 1900.

| Year. | Per cent of strikes. |  |  | Per cent of strikers. |  |  |

| Woodworkers ........................ | 141 | 8 | 11 | 9 |  | 28 | 2, 161 |
| Other occupations. | 141 | 35 | 35 | 63 | 8 | 140 | 42,618 |
| Total | 1,810 | 545 | 538 | 706 | 21 | 1,798 | 442,189 |

Nearly one-half of all the strikes during this 9 -year period occurred among textile workers, miners and quarrymen, and masons and stonecutters, these three occupation groups reporting 897 of the 1,810 strikes. Of the 442,189 strikers reported, the textile industry furnished 99,274 ; the hat-making industry 84,834 , and mining and quarrying 83,851 , making for the three industries a total of 267,959 , or over three-fifths of all strikers for the period.

The two following tables show the strikes for the period 1879 to 1891, and for each year 1892 to 1900, classified according to their duration and the number of strikers involved, respectively:

STRIKES, BY DURATION, 1879-1891 TO 1900.

| Days of duration. | 1879-1891. | 1892. | 1893. | 1894. | 1895. | 1896. | 1897. | 1898. | 1899. | 1900. | Total. |

$a$ Not including 39 strikes the duration of which was not reported.
$b$ Not including 3 strikes the duration of which was not reported. c Not including 6 strikes the duration of which was not reported. $d$ Not including 5 strikes the duration of which was not reported. e Not including 1 strike the duration of which was not reported. $f$ Not including 54 strikes the duration of which was not reported.

STRIKES, BY NUMBER OF STRIKERS INVOLVED, 1879-1891 TO 1900.

| Strikers involved. | 1879-1891. | 1892. | 1893. | 1894. | 1895. | 1896. | 1897. | 1898. | 1899. | 1900. | Total. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1 to 49. | 272 | 27 | 28 | 40 | 39 | 54 | 70 | 92 | 98 | 116 | 836 |
| 50 to 99 | 206 | 18 | 24 | 16 | 34 | 35 | 52 | 55 | 51 | 95 | 586 |
| 100 to 199 | 199 | 26 | 22 | 18 | 21 | 46 | 44 | 63 | 48 | 88 | 575 |
| 200 to 499 | 220 | 27 | 41 | 18 | 27 | 52 | 31 | 35 | 39 | 62 | 552 |
| 500 to 999 | 89 | 11 | 6 | 5 | 3 | 14 | 14 | 6 | 15 | 13 | 176 |
| 1,000 or over | 53 | 8 | 6 | 7 | 2 | 9 | 6 | 5 | 8 | 9 | 113 |
| Total | a 1,089 | 117 | 127 | a 104 | 126 | 210 | 217 | 256 | 259 | 383 | a 2, 838 |

a This total does not agree with the figures given in the general table of strikes, page 377; the figures are reproduced, however, as shown in the original report.

Over one-half the total number of strikes lasted 3 days or less each, and in slightly over one-half of them the number of strikers in each strike was less than 100.

## DECISIONS OF COURTS AFFECTING LABOR.

[This subject, begun in Bulletin No. 2, has been continued in successive issues. All material parts of the decisions are reproduced in the words of the courts, indicated when short by quotation marks, and when long by being printed solid. In order to save space, matter needed simply by way of explanation is given in the words of the editorial reviser.]

## DECISIONS UNDER STATUTORY LAW.

Employers' Liability - Railroad Companies - Contributory Negligence-Line of Duty-What is Locomotive Engine-Jarvis v. Hitch, Appellate Court of Indiana, 65 Northeastern Reporter, page 608.-In this case Oscar Hitch brought action to recover damages for injuries received while in the service of one Jarvis, receiver for a railroad corporation. Hitch was a member of a bridge gang engaged in the repair of a certain trestle. This trestle was about 15 feet above the surface of the ground. Hitch was at work underneath the trestle, but at the time of receiving his injury he had climbed up to the track and gone to the tank of the engine for a drink of water. This had been the custom of all the men, as no other water was supplied for their use. On his return to his place of duty he had to climb down a ladder and while on this ladder the engineer, without warning, ran the locomotive and pile driver, which were in use in repairing the trestle, against the ladder and threw Hitch to the ground. He was injured and brought action under section 7083, Burns's Revised Statutes, 1901, which reads as follows: "That every railroad or other corporation, except municipal, operating in this State shall be liable in damages for any personal injury suffered by an employee while in its service, the employee so injured being in the exercise of due care and diligence in the following cases: * * * Fourth. Where such injury was caused by the negligence of any person in the service of such corporation, who has charge of * * * any locomotive engine or train upon a railway."

The circuit court of Gibson County allowed damages, from which an appeal was taken. It was contended by Jarvis's counsel that Hitch in going upon the tank for water was going for his personal convenience only and that the defendant was not liable for what should occur during his absence from his place of wor' On this point Judge Comstock, speaking for the court, said:

There is evidence that the men in the employ of the appellant, including appellee, were in the habit of getting their drinking water from the tank on the engine. There is evidence from which the jury
might reasonably conclude that the engineer had knowledge of this fact. Appellee did not cease to be a servant of the appellant, nor was he out of the line of his duty, when, for a few minutes, he quit actual work to satisfy a natural desire for a drink of water. He was not a trespasser, nor a mere licensee. He was not upon the premises merely for his own pleasure or convenience. The contract between him and the appellant corporation made it the duty of the latter to exercise reasonable care for his safety. But if the habit of procuring water from the tank for drinking purposes was founded upon a mere permission or license, yet, if the engineer knew, or had reason to believe, that appellee would avail himself of that license, he would be at fault if he augmented the danger of the situation without giving warning, [Cases cited.] There is evidence that it had been the custom of the engineer to give warning of the movement of the engine; that upon the occurrence of the accident this warning was not given. There was evidence from which the jury might fairly have concluded that the omission of this warning resulted in appellee's injury. Whether the engineer was guilty of negligence or the appellee guilty of contributory negligence was for the jury to decide under all the circumstances proven.

There was a further contention that the statute quoted provided no recovery because the engine was not a locomotive engine within the meaning of the law. As to this the court said:

A locomotive engine has been defined as one that moves cars by its own backward and forward motion. (Stranahan $v$. Railway Co., 84 N. Y., 314.) The Century Dictionary gives this definition: "A steam engine, which travels on wheels turned by its own power; specially, an engine designed and adapted to travel on a railway." The machine in question possessed, by the evidence, all the characteristics of a locomotive engine. It moved forward and backward, by its own steam, along the track of a railroad. It had not the weight, size, power, nor speed of the locomotive engine ordinarily used in the drawing and operating of railroad trains, but it was capable of and did the same work to a less extent. In addition to moving itself and cars, it was used for the purpose of driving piles. The solution of the question must depend largely upon the construction given the statute. The purpose of the legislature in enacting the law was to remove what was regarded as an evil. The purpose was to protect employees from the negligent movement of engines along the tracks of railways. Prior to its passage the injured parties were without legal remedy because those in charge of the engines were fellow-servants. The legislature will be presumed to have had in mind not details in the construction of the engine, but a machine of the same general character, effecting practically the same results, used in the same way, and subjecting the employees to the same dangers.

We find no error for which the judgment should be reversed. Judgment affirmed.

[^14]\& Co. for wages earned between April 1 and April 14, 1900, the claims being made under section 29 , chapter 624 of the New York laws of 1897. This statute provides that in the "distribution of assets under all assignments made in pursuance of this act, the wages or salaries actually owing to the employees of the assignor or assignors at the time of the execution of the assignment for services rendered within one year prior to the execution of such assignment shall be preferred before any other debt.

The above-named firm had made an assignment on the 14th day of April, and duly itemized and verified statements of the claims for wages were submitted to the assignee and by him allowed under the provisions of the statute above quoted. On the 16th day of July, 1900, a petition in involuntary bankruptcy was filed against the firm and its individual members, and on October 4 the firm and its members were adjudged bankrupt. A trustee was appointed, and the assignee turned over to him the assets in hand, the wage claims not yet having been paid. The employees submitted their account to the referee in bankruptcy, who considered that, under the bankruptcy laws of the United States, the claims had no standing as preferred claims, but must be taken pro rata with the claims of other creditors. Section 64 b (4) of the bankruptcy act provides for the priority of claims for "wages due to workmen, clerks, or servants, which have been earned within three months before the date of the commencement of the proceedings, not to exceed three hundred dollars to each claimant." More than three months had intervened between the earning of the wages in question and the filing of the petition, and this clause of the law was held to prevail over the provisions of section 64b (5), which allows priority to "debts owing to any person who by the laws of the States or the United States is entitled to priority."

On an appeal from this ruling the claimants brought their case before the district court and Judge Adams announced the decision, reversing the ruling of the referee. Judge Adams cited with approval the findings of the circuit court of appeals in the case In re Kerby-Dennis Company 95 Fed., 116 (see Bulletin of the Department of Labor, No. 25, p. 885), where it was held that labor liens created under a Michigan statute would be sustained in the bankruptcy court and given a preference over equally meritorious labor claims, which had not been established in the State court, notwithstanding the claims were all covered by section 64b (4) of the bankruptcy act. Continuing, the court said:

In the absence of liens under the State laws, paragraph 4 would afford a just and equal remedy for the prior allowances of wages claims under the bankruptcy law, but I find nothing therein which contemplates the disallowances of wages claims which have become liens by virtue of the State laws and impressed upon the funds when turned over to the bankruptcy court. It will be noted that in the construction
of the law adopted in Re Kerby-Dennis Company the statutory liens under paragraph 5 were preferred to allowances under paragraph 4, evidently because they were established as liens under the State law, though the other claims were in time to be established as wages claims under paragraph 4 of the bankruptcy law. This seems to me to be entirely consistent with the general purpose of the bankruptcy law. A lien for wages is based upon a present consideration, and there is no equitable consideration in favor of general creditors which should defeat such a lien.

The question remains, Were these claims liens? It is contended by the trustee that the law of the State of New York does not create a lien in such a case, but only provides for one as long as the artisan has the article he improved in his possession. This, however, is not a claim of lien upon the article but upon the fund. The claims are made charges upon the fund and I see no practical difference between sustaining the right of wage-earners to resort to a fund in preference to other creditors and allowing mechanics to assert a lien upon real estate, which they have benefited, in preference to other creditors. The presumption is, under the statute, that the wage-earners were instrumental in producing the fund and should be entitled to payment out of it. The claims should be deemed as equivalent to and in fact liens, so as to entitle them to priority in this court upon a fund which was received subject to the charges impressed upon it by the law of the State.

## DECISIONS UNDER COMMON LAW.

Injunotion-Rights of Employers and Employees--Interference by Third Persons-Jersey City Printing Co. v. Cassidy et al., Court of Chancery of New Jersey, 53 Atlantic Reporter, page 230.-In this case the Jersey City Printing Company had filed a bill asking for an injunction restraining James Cassidy and others, former employees, from unlawful interference with the business of the company. The order was issued restraining the defendants "from in any manner knowingly and intentionally causing or attempting to cause, by threats, offers of money, payment of money, offering to pay or the payment of transportation expenses, inducements or persuasions to, any employee of the complainant under contract to render service to it to break such contract by quitting such service; from any and all personal molestation of persons willing to be employed by complainant with intent to coerce such persons to refrain from entering such employment; from addressing persons willing to be employed by complainant against their will, and thereby causing them personal annoyance, with a view to persuade them to refrain from such employment; from loitering or picketing in the streets near the premises of complainant, Nos. 68 and 70 York street, and No. 37 Montgomery street, Jersey City, with intent to procure the personal molestation and annoyance of persons employed or willing to be employed by complainant, and with a view to cause persons so employed to quit their employment, or persons willing to be employed by complainant to refrain from such employment," etc.

The persons enjoined came before the chancellor, bringing affidavits in which they maintained that they had not been doing nor were they then threatening to do any of the forbidden acts, and asked that the order might be dissolved. This the court refused to do, and continued the order:until final hearing. Vice-Chancellor Stevenson used, in part, the following language in announcing the conclusion of the court:
The order does not interfere with the right of the workman to cease his employment for any reasons that he sees fit. It does not undertake to say that workmen may not refuse to be employed if certain other classes of workmen are retained in employment. It leaves the workman absolutely free to abstain from work,-for good reasons, for bad reasons, for no reasons. His absolute freedom to work, or not to work, is not in any way impaired. The restraining order is based upon the theory that the right of the workman to cease his employment, to refuse to be employed, and to do that in conjunction with his fellow-workmen, is just as absolute as is the right of the employer to refuse further to employ one man, or ten men, or twenty men who have theretofore been in his employment. From an examination of the cases and a very careful consideration of the subject, I am unable to discover any right in the courts, as the law now stands, to interfere with this absolute freedom, on the part of the employer, to employ whom he will, and to cease to employ whom he will, and the corresponding freedom on the part of the workman, for any reason or no reason, to say that he will no longer be employed, and the further right of the workmen of their own free will to combine, and meet as one party-as a unit-the employer, who, on the other side of the transaction, appears as a unit before them. Any discussion of the motives, purposes, or intentions of the employer in exercising his absolute right to employ or not to employ as he sees fit, or of the free combination of employees in exercising the corresponding absolute right to be employed or not as they see fit, seems to me to be in the air.
It is only very recently, I think, that one of the most important rights which now are vindicated by the injunction in a strike case has been differentiated; in many cases it has been apparently half recognized, or indirectly enforced. That the interest of an employer or an employee in a contract for services is property is conceded. Where defendants in combination or individually undertake to interfere with and disrupt existing contract relations between the employer and the employee, it is plain that a property right is directly invaded. The effect is the same whether the means employed to cause the workman to break his contract and thus injure the employer are violence or threats of violence against the employee, or mere molestation, annoyance, or persuasions. In all these cases, whatever the means may be, they constitute the cause of the breaking of a contract, and consequently they constitute the natural and proximate cause of damage. The intentional doing of anything by a third party which is the natural and proximate cause of the disruption of a contract relation, to the injury of one of the contracting parties, is now very generally recognized as actionable, in the absence of a sufficient justification; and the question in every case seems to turn upon justification alone. Where the tangible property of an employer is seized or directly injured by violence, with intent to interfere with the carrying on of his husiness, the case also is free from embarrassment.

But the difficult case presents itself when the workmen in combination undertake to interfere with the freedom of action on the part of other workmen who naturally would seek employment where they, the workmen in combination, desire and intend that no man shall be employed excepting upon their terms. The difficulty is in perceiving how molestation and annoyance, not of the employees of a complainant, but of persons who are merely looking for work, and may become employees of the complainant, can be erected into a legal or equitable grievance on the part of the complainant. But the difficulty is still further increased where the possible employees make no complaint to any court for protection, and the conduct of the molesting party does not afford a basis which the ancient common law recognized as sufficient to support an action of tort on their behalf, such as for an assault and battery, or a slander.
The underlying right in this particular case under consideration, which seems to be coming into general recognition as the subject of protection by courts of equity through the instrumentality of an injunction, appears to be the right to enjoy a certain free and natural condition of the labor market, which in a recent case in the House of Lords was referred to, in the language of Lord Ellenborough, as a "probable expectancy." This underlying right has otherwise been broadly defined or described as the right which every man has to earn his living, or to pursue his trade or business, without undue interference, and might otherwise be described as the right which every man has, whether employer or employee, of absolute freedom to employ or to be employed. The peculiar element of this perhaps newly recognized right is that it is an interest which one man has in the freedom of another. In the case before this court, the Jersey City Printing Company claims the right not only to be free in employing labor, but also the right that labor shall be free to be employed by it, the Jersey City Printing Company. A large part of what is most valuable in modern life seems to depend more or less directly upon "probable expectancies." When they fail, civilization as at present organized may go down. As social and industrial life develops and grows more complex, these "probable expectancies" are bound to increase. It would seem to be inevitable that courts of law, as our system of jurisprudence is evolved to meet the growing wants of an increasingly complex social order, will discover, define, and protect from undue interference more of these "probable expectancies." In undertaking to ascertain and define the rights and remedies of employers and employees in respect of their "probable expectancies" in relation to the labor market, it is well not to lose sight altogether of any other analogous rights and remedies which are based upon similar "probable expectancies." It will probably be found in the end, I think, that the natural expectancy of employers in relation to the labor market, and the natural expectancies of merchants in respect to the merchandise market, must be recognized to the same extent by courts of law and courts of equity, and protected by substantially the same rules. It is freedom in the market, freedom in the purchase and sale of all things, including both goods and labor, that our modern law is endeavoring to insure to every dealer on either side of the market. The valuable thing to merchant and to customer, to employer and to employee, manifestly, is freedom on both sides of the market. The merchant with his fortune invested in goods, and with perfect freedom to sell, might
be ruined if his customers were deprived of their freedom to buy; the purchaser, a householder, seeking supplies for his family, with money in his pocket and free to buy, might find his liberty of no value, and might suffer from lack of food and clothing, if the shopmen who deal in these articles were so terrorized by a powerful combination as to be coerced into refusing to sell either food or clothing to him. It is, however, the right of the employer and employee to a free labor market that is the particular thing under consideration in this case.

What is the measure or test by which the conduct of a combination of persons must be judged in order to determine whether or not it is an unlawful interference with freedom of employment in the labor market, and as such injurious to an employer of labor in respect of his "probable expectancies," has not as yet been clearly defined. A man may not be liable to an action for slander for calling a workman a "scab" in the street, but if 100 men combine to have this workman denounced as a "scab" in the street, or followed in the streets to and from his home, so as to attract public attention to him, and place him in an annoyingly conspicuous position, such conduct-the result of such combination-is held to be an invasion of the "probable expectancy" of his emplover or contemplated employer, an invasion of this employer's right to have the labor flow freely to him. Without any regard to the rights and remedies which the molested workman may have, the injunction goes, at the suit of the employer, to protect his "probable expectancy,"-to secure freedom in the labor market to employ and to be employed, upon which the continuance of his entire industry may depend.

I think it is safe to say that, all through this development of strike law during the last decade, no principle becomes established which does not operate equally upon both employer and employee. The rights of both classes are absolutely equal in respect of all these "probable expectancies." The doctrine which supports that portion of the restraining order in this case which undertakes to inderdict the defendants from molesting applicants for employment as an invasion of a right of the complainant is applicable to a situation presenting either an employer or an employee as complainant, and containing the following elements: First. Some person or persons desiring to exercise the right of employing labor or the right of being employed to labor. Second. A combination of persons to interfere with that right by molestation or annoyance of the employers who would employ, or of the coemployees who would be employed, in the absence of such molestation. How far the element of combination of a number of persons will finally be found necessary in order to make out the invasion of a legal or equitable right in this class of cases, need not be discussed. We are dealing with cases where powerful combinations of large numbers in fact exist. Third. Such a degree of molestation as might constrain a person having reasonable fortitude, and not being unreasonably sensitive, to abandon his intention to employ or to be employed in order to escape such molestation. Fourth. As the result of the foregoing conditions, an actual pecuniary loss to the complaining party by the interference with his enjoyment of his "probable expectancies" in respect of the labor market. I do not think that the constraining force, brought to bear upon the employer or employee, which the law can interdict, can ever include the power of public opinion or even of class opinion. Every man, whether an
employer or an employee, constitutes a part of a great industrial system, and his conduct is open to the criticism of the members of his own class. While, therefore, a combination of union men have no right to cry "scab" in the streets to nonunion employees, or follow them in the street in a body to and from their homes, or do many other things in combination which, if done once by a single individual, would not found an action of tort, such combinations, I think, have left a fairly wide field of effort toward the creation and application of public opinion as a constraining force upon conduct of any kind which they wish to discourage.

Injunction - Violation - Parties not in Original Bill as Defendants to Rules-Collateral Attack-Sufficient NoticeEx parte Richards, United States Circuit Court, Southern District of West Virginia, 117 Federal Reporter, page 658. -In this case an injunction had been allowed against certain named citizens of Pennsylvania, Indiana, and Ohio, officers and organizers of the United Mine Workers of America, restraining them, "their confederates, and all others associated with them" from interfering with the complainant's employees, or from interfering with any person in or upon its premises who may desire to enter its employment, by the use of threats, personal violence, or intimidation, or by any other means calculated to intimidate, terrorize, or place in fear any of said employees at or upon the premises of the complainant. Going upon the premises named for the purpose of inducing employees to quit their work, or congregating in and about the premises for such purpose, was also forbidden. A further clause forbade the conducting or leading of bodies of men up to or upon the complainant's premises for the purpose of inducing or causing the employees to leave their work, or of interfering in any manner with the business of the plaintiff upon its land or premises.

The complainant in the case was the Collins Colliery Company, and the injunction was issued the latter part of June, 1902. Hearing on a motion to make the injunction permanent was to be had at the September term of court. In the meantime the company presented information that the terms of the injunction were being violated by persons not specifically named in the bill, but alleged to be their agents and confederates. These persons were citizens of West Virginia, John Richards being president of district No. 17 of the United Mine Workers, and the others were members of various local unions within said district. It appeared that these persons received advice and directions as well as financial support from the national organization, and that they urged the colliery employees to join the union.

Rules were issued directing the appearance of Richards and his associates to show why they should not be adjudged in contempt of court for disobedience of its orders. These defendants denied the jurisdiction of the Federal court, since they and the complainant company were
all citizens of the State of West Virginia, so that they could not have been made parties to the original bill, and claimed that for the same reason the court could not issue a rule against them for violation of the original injunction. It was further urged that the court acquired jurisdiction of the original suit only by service of process, and that process had not been served on any of the defendants to the bill until after the alleged violations of the preliminary injunction. On these grounds a motion was made to quash the rules and attachments under which the present defendants were held. On this point Judge Keller, for the court, spoke as follows:

If, as is conceded, the court has power to issue a temporary and preliminary restraining order, it is not perceived upon what theory it is denied the power to punish violations thereof merely because process has not yet been served in the suit. This motion is overruled on the authority of the following cases: Ex parte Lennon, 166 U. S., 548; 17 Sup. Ct., 658; 41 L. Ed., 1110; * * * Conkey Co. v. Russell (C. C.), 111 Fed., 417 . In the Lennon case the Supreme Court of the United States said:
"To render a person amenable to an injunction, it is neither necessary that he should have been a party to the suit in which the injunction was issued, nor to have been actually served with a copy of it, so long as he appears to have had actual notice." [See Bulletin of the Department of Labor, No. 11, p. 532.]

In the case of Conkey Co. v. Russell it was held that "**** jurisdiction exists by reason of the conspiracy to defeat the process of the court, and although such person is a stranger to the suit, and, by reason of his citizenship, could not have been made a defendant therein."

Upon the authority of these and the other cases above cited, I have overruled the motion to quash the rules and attachments.

## Continuing, Judge Keller said:

Answers were filed by the several defendants to the rules. In each of these answers there was a statement that the defendant in the rule is advised that by the bill and process issued thereon he is a party to the original suit of Collins Colliery Company $v$. Joe Crisco and others, and therefore insists that upon the face of the bill the court has not jurisdiction of the said cause. To these allegations in the answers the Government, by its counsel, excepted, and said exceptions are sustained. I can not hold that these defendants, or any of them, were, or were attempted to be, made parties to the original suit. The only language in the original bill that could give color to any such claim is the statement contained therein that it brings its suit against the defendants named, and against their "confederates, associates, agents, and promoters, whose citizenship and places of residence are to your orator unknown." In the prayer the bill asks for the process of subpœena against the defendants named in the bill, and "against their confederates and associates, when their names shall have been discovered." The court is bound to treat this allegation in the bill and this prayer for process as referring to defendants who could properly be made parties, and therefore that allegation in the bill could not
have referred to any resident of West Virginia. Moreover, no defendant can be made a defendant to a bill except by name, and before any of these parties could have been made a party to this bill a proper order of the court, upon petition of the plaintiff, would have to be entered. Holding as I do, that these persons are not parties to the bill, I must further hold that the question of jurisdiction to entertain the original bill can not be raised by persons not parties to it, upon a collateral proceeding. (Ex parte Lennon; Conkey Co. v. Russell.)
The court then discussed the two questions, "Does the defendant in the rule stand in the relation of a confederate and associate of the defendants to the bill, or any of them? If so, has he violated the restraining order of the court?" On the first point testimony as to support, advice, and common objects was reviewed, and the following conclusion was reached:

It is clear to my mind that this strike, and the method of its conduct, had the approval and support of the national organization of United Mine Workers of America, and that it was the work of the order at large, of which the defendants in the bill are officers and organizers, and, under the facts shown as to support, assistance, and direction by members of the national executive board, it is not at all too much to say that the statement made by John Richards, the district president, that he had a list of the nonunion men at Glen Jean, and that when the union was recognized they would be unable to get work anywhere in the United States, was authorized by the defendants, and that in making it he was ajding and abetting them in their purposes,-purposes declared by the means and agencies employed, and emphasized by the actions and words of the local members of the order of which the original defendants are leaders.

On the second question the court said:
The sworn answers of the defendants, supplemented by their oral testimony, deny that they ever intentionally violated the injunctional order issued herein. It is in evidence that some of them were not served with the restraining order, but it is also in evidence that the order was posted in many conspicuous places; that it was freely and largely talked about, and that the United Mine Workers had several retained counsel, who were appealed to for information and advice respecting the court's order; and that they gave it as counsel for the order, etc. (It is not necessary that a person be served with an injunction in order to render him amenable to its provisions, if it appears that he had reasonable notice of it. (Ex parte Lennon.) A very few of the defendants do not appear to have been served with or to have had knowledge of the restraining order. Some of them can not read, and the court is loath to attribute a knowledge of the contents of the restraining order to them, in the face of their denial that they knew of it, although the great weight of the testimony is to the effect that it was constantly talked about, and that the leaders, John Kichards and others, in their speeches, cautioned all these people not to violate the terms of the injunction.

Discharge was accordingly ordered as to certain defendants. The remainder were found to be cognizant of the order, the question then
being as to its violation. The terms of the injunction were recited and a number of cases referred to in which intimidation, interference, etc., were discussed. It was in evidence that the employees were so alarmed and uneasy that they habitually quit work at about the time when the striking miners gathered, and if armed guards had not been present they would not have thought it safe to work at all; that at several times small bodies of men drew off from the body of the meeting and called for volunteers to go into the mines and bring the workmen out, and that individual strikers were heard to curse and abuse those at work and to use contemptuous language regarding the court and its injunctions. On the other hand, it appeared that the leaders counseled obedience to the law and believed that they were themselves keeping within the injunction in their meetings and marchings. The court then concluded:

Upon the whole, the court is of opinion that, considering the exculpatory oaths of the defendants themselves, and their solemn asseverations that they intended no violation of the order of the court, this is a case calling for justice tempered with mercy. The court does not find that all of these men have been equally guilty of violating its injunction, but is impressed with the idea that, although technically guilty, perhaps none of the men have intended to put themselves in the attitude of disobedience to the court's orders, and will therefore not attempt to draw any fine distinctions between those who have been adjudged guilty, and will inflict as mild a penalty as, in its judgment, could be done, with the hope and in the belief that both those so held guilty and others who may know of this proceeding will in the future endeavor to keep themselves within lines of safety in regard to these orders.

# Laws of various states relating to labor rnacted since JANUARY 1, 1896. 

[The second Special Report of the Department contains all laws of the various States and Territories and of the United States relating to labor in force January 1, 1896. Later enactments are reproduced in successive issues of the Bulletin from time to time as published.]

## IOWA.

## ACTS OF 1902.

Chapter 97.-Commissioner of labor statistics-Duties, etc.
Section 1. Section twenty-four hundred and seventy (2470) of the code is hereby amended by inserting after the words "laboring classes" in the fifth line thereof, the words "the means of escape from, and the protection of life and health in factories, the employment of children, the number of hours of labor exacted from them and from women."

SEc. 2. Section twenty-four hundred and seventy-one (2471) of the code [relating to witness fees] is hereby amended by striking out in the seventh line thereof the words "contingent fund of the bureau in advance" and insert in lieu thereof the words "general funds of the State on voucher by the commissioner."

SEc. 3. Section twenty-four hundred and seventy-two (2472) of the code is hereby amended, by striking out the "semicolon" after the word "thereof" in the tenth line thereof and insert a "period," and the words:
"If the commissioner shall learn of any violation of, or neglect to comply with the law in respect to the employment of children, or in respect to fire escapes, or the safety of employees, or for the preservation of health, he shall give written notice to the owner or person in charge of such factory or building, of such offense or neglect, and if the same is not remedied within sixty days after service of such notice, such officer shall give the county attorney of the county in which such factory or building is situated, written notice of the facts, whereupon that officer shall immediately institute the proper proceedings against the person guilty of such offense or neglect."

Approved April 11, 1902.

## Chapter 98.-Mine regulations-Examination and licensing of mine inspectors.

Smotron 1. Chapter nine (9) title twelve (12) of the code is hereby amended by striking out section twenty-four hundred and seventy-nine (2479) and inserting in lieu thereof the following:
"The executive council shall appoint a board of five examiners consisting of two practical miners and two mine operators, all holding certificates of competency as mine foremen, at least one of whom shall also hold a certificate of competency as hoisting engineer, and one mining engineer, each of whom shall have had at least five years' actual experience in his profession immediately preceding his appointment, who shall hold office for a term of two years. The members of said board shall' qualify by taking oath to perform the duties devolving upon them fairly, faithfully and impartially, without fear or favor, uninfluenced by personal or political considerations. No member of said board shall be interested in or connected with any school, scheme, plan or device having for its object the preparation, education or instruction of persons in the knowledge required of applicants for certificates of competency. Any member of said board shall be summarily removed from office by the executive council, upon due notice and hearing, for violation of the law, misfeasance or malfeasance in the performance of his duties, or for other sufficient cause, and his successor shall thereupon be appointed by the said executive council for the unexpired term."
Approved March 25, 1902.

$$
\begin{equation*}
13362-\text { No. } 45-03-13 \tag{391}
\end{equation*}
$$

Chapter 99.-Mine regulations-Inspection.
Section 1. Section twenty-four hundred and eighty-two (2482) of the code is hereby amended by inserting after the comma following the word "permit," and before the word "keep" in the ninth line thereof, the following:
"Which examination shall be made at least once in every six (6) months of all mines having an average output of fifty tons or more of coal per day."

Approved March 25, 1902.
Chapter 100.-Mine regulations-Shot examiners.
Section 1. In all mines, where the coal is blasted from the solid, competent persons shall be employed to examine all shots, before they are charged. Said examiners to have the power to prokibit the charging and firing of any shot which, in their judgment, is unsafe. Before entering upon the discharge of their duties, said examiners shall give proof of their competency to the State mine inspector of the district in which the mine, where they are employed, is located, and said inspector shall certify to the operator of each mine the persons who have given proof of their competency to act in the capacity of shot examiners. The state mine inspector to have the power to refuse to give permission to any person to act as shot examiner who, in his judgment, is not sufficiently competent; or he may revoke the permission granted, should it appear that a shot examiner is negligent, or careless in the performance of his work.

Approved April 11, 1902.
Chapter 149.-Factories, workshops, etc.-Safety appliances, inspection, etc.
Section 1. Every manufacturing establishment, workshop or hotel in which five or more persons are employed, shall be provided with a sufficient number of waterclosets, earth closets or privies, for the reasonable use of the persons employed therein, which shall be properly screened and ventilated and kept at all times in a clean condition; and if women or girls are employed in such establishment, the water-closets, earth closets or privies used by them shall have separate approaches and be separate and apart from those used by the men.

Sec. 2. It shall be the duty of the owner, agent, superintendent or other person having charge of any manufacturing or other establishment where machinery is used, to furnish and supply or cause to be furnished and supplied therein, belt shifters or other safe mechanical contrivances for the purpose of throwing belts on and off pulleys, and, wherever possible, machinery therein shall be provided with loose pulleys; all saws, planers, cogs, gearing, belting, shaiting, set-screws and machinery of every description therein shall be properly guarded. No person under sixteen years of age, and no female under eighteen years of age shall be permitted or directed to clean machinery while in motion. Children under sixteen years of age shall not be permitted to operate or assist in operating dangerous machinery, of any kind.

Sec. 3. All persons, companies or corporations operating any factory or workshop where emery wheels or emery belts of any description, or tumbling barrels used for rumbling or polishing castings, are used, shall provide the same with blowers and pipes of sufficient capacity, placed in such manner as to protect the person or persons using same from the particles of dust produced or caused thereby, and to carry away said particles of dust arising from or thrown off such wheels, belts or tumbling barrels while in operation, directly to the outside of the building, or to some receptacle placed so as to receive or confine such particles or dust: Provided, however, That grinding machines upon which water is used at the point of grinding contact, and small emery wheels which are used temporarily for tool grinding, are not included within the provisions of this section, and the shops employing not more than one man at such work may, in the discretion of the commissioner of the bureau of labor of the State, be exempt from the provisions hereof.

Sec. 4. It shall be the duty of the commissioner of the bureau of labor of the State, and the mayor, and chief of police of every city or town, to enforce the provisions of the foregoing sections. Any person, whether acting for himself or for another or for a copartnership, joint stock company or corporation, having charge or management of any manufacturing establishment, workshop or hotel, who shall fail to comply with the provisions of said sections, within ninety days after being notified in writing to do so, by any one of said officers whose duty it may be to enforce the provisions of said sections, shall be punished by a fine not exceeding one hundred dollars or by imprisonment in the county jail not exceeding thirty days.

Approved April 11, 1902.

Chapter 150.-Fire escapes on factories, etc.
Section 1. The owners, proprietors or lessees of all buildings, structures or inclosures of three or more stories in height, now constructed or hereafter to be erected, shall provide for and equip said buildings and structures with such protection against fire and means of escape from such buildings as shall hereafter be set forth in this bill.

SEC. 2. The buildings, structures and inclosures contemplated in this act shall be classified as follows:

First. Hotels or lodging rooms of three or more stories in height.
Second. Tenements or boarding houses, of three or more stories in height, occupied by one or more families or aggregating twenty (20) persons or more; Provided, That a mansard roof or attic, when used for sleeping rooms, shall be counted as one story.

Sixth. Manufactories, warehouses and buildings of all character[s] of three or more stories in height, not specified in the foregoing sections.

Sec. 3. Each twenty-five hundred ( 2,500 ) superficial feet of area, or fractional part thereof, covered by buildings or structures specified under classification one, of section 2, of this act, shall be provided with one ladder fire escape of steel or wroughtiron construction, attached to the outer wall thereof, and provided with platforms of steel or wrought-iron construction of such size and dimensions and such proximity to one or more windows of each story above the first as to render access to such ladder from each story easy and safe, said ladder to start about five feet from the ground and extend above the roof, or a drop ladder may be hung at the second story in such a manner that it can be easily lowered in case of necessity: Provided, however, That where such buildings shall be occupied by more than twenty (20) persons, the said building shall be provided with one stairway of steel or wrought-iron construction with above-described platforms, accessible from each story with a drop or counterbalance stairway from the second-story balcony to the ground, or a stationary stairway may be carried down to within five feet from the ground. Buildings under classification 2 of section 2 of this act shall be provided for in the same manner as those under the head of classification 1. * * * Each five thousand $(5,000)$ superficial feet of area, or fractional part thereof covered by buildings under classification 6, section 2 of this act, shall be provided with at least one abovedescribed ladder, and platiorms at each story, if not more than twenty (20) persons be employed in the same. If more than twenty (20) persons be employed, then there shall be at least two of the above-described ladders, and platforms attached, or one such stairway, and platforms of sufficient size at each story, and if more than forty (40) persons be employed in said building, then there shall be at least twc, or such number of the above described outside stairways as the chief of fire department, or the mayor of any city or town where no such chief of fire department exists, may from time to time determine.

Sec. 4. It is hereby made the duty of the chief of fire department, or the mayor of each city or town where no such chief of fire department exists, or the chairman of the board of supervisors, in case such building is not within the corporate limits of any city or town, to adopt uniform specifications tor fire escapes hereinbefore provided, and keep such specifications on file in their respective offices, and to serve or cause to be seryed a written notice in behalf of the State of Iowa upon the owner or owners, or their agents or lessees, of buildings within this State not provided with fire escapes in accordance with the provisions of this act, commanding such owner, owners, or agents or either of them, to place or cause to be placed upon said buildings, such fire escape or fire escapes as are provided in this act within sixty days after service of such notice, pursuant to the specifications established. Any such owner, owners or agents, trustees or either of them so served with notice as aforesaid, who shall not within sixty days after the service of said notice upon him or them, place or cause to be placed such fire escape or fire escapes upon such buildings as required by this act and the terms of said notice, shall be subject to a fine not less than fifty ( $\$ 50$ ) dollars, and not more than one hundred ( $\$ 100$ ) dollars, and shall be subject to a further fine of twenty-five ( $\$ 25$ ) dollars for each additional week of neglect to comply with such notice.

Sec. 5. All fire escapes erected under the provisions of this act shall be subject to inspection and approval or rejection in writing, by the person named in section 4 of this act who has caused such written notice to be served.

Approved April 8, 1902.

## KENTUCKY.

## ACTS OF 1902.

## Chapter 16.-Employment of children-Age limit.

Section 1. It shall be unlawful for a proprietor, foreman, owner or other person to employ any child less than fourteen years of age in any workshop, factory, or mine, in this State; unless said proprietor, foreman or owner shall know the age of the child, it shall be his or their duty to require the parent or guardian to furnish a sworn statement of its age, and any swearing falsely to such by the parent or guardian shall be perjury and punishable as such.

Provided, That if the parent or guardian and the county judge of any county may consent in writing for such employment, then in that event such employment may be made, subject to the approval of the county attorney of said county, in the event of any complaint, and if he thinks after investigation of such complaint, that it is against the best interests or moral welfare of such infant child he may so notify said employer and then this act applies as if no consent was given.

Sec. 2. Any proprietor, foreman or owner employing a child less than fourteen years of age in conflict with the provisions of this act, except where such proprietor, foreman or owner has been furnished with a sworn statement of guardian or parent that the child is more than fourteen years of age, shall be guilty of a misdemeanor, and upon conviction, shall be fined not less than twenty-five dollars and not more than two hundred and fifty dollars.

Sec. 4. This act shall take effect ninety days after the adjournment of this general assembly.
Approved March 12, 1902.

> Chapter 19.-Labor Day.

The first Monday in September known as Labor Day shall be a legal holiday, and no person shall be compelled to labor on said day by any person or corporation.

Approved March 17, 1902.
Chapter 23.-Exemption from garnishment, etc.-Wages.
Section 1. Wages earned out of this State and payable out of this State shall be exempt from attachment or garnishment in all cases, where the cause of action arose out of this State, and it shall be the duty of garnishees in such cases to plead such exemption unless the defendant is actually served with process.

Approved March 17, 1902.
Chapter 24.-Bureau of agriculture, labor, and statistics-Labor inspector.
Section 1. In the bureau of agriculture, labor and statistics there shall be appointed by the commissioner, with the approval of the governor, a labor inspector, and one assistant labor inspector, who shall be men having practical knowledge of factories, machine or work shops, and who shall be under the supervision of the commissioner.

Sec. 2. It shall be the duty of the labor inspector to visit and inspect the various factories, machine and work shops in this State, and under the direction of the commissioner, to report to the Commonwealth's attorney and county attorney of the county or district, where such factory, machine or work shop is located, any violation or infraction of laws enacted for the protection of women, children and other persons laboring in such places.

Sec. 2 [3]. It shall be the duty of every owner, manager and agent of any factory, machine or work shop where laborers are employed, to admit the labor inspectors during reasonable hours and while the same is open, for the purpose of making an inspection of same, and any person who shall refuse to admit such inspectors in violation of the provisions of this section shall be fined not to exceed one hundred dollars, or to be imprisoned in jail not more than six months, or both be so fined and imprisoned in the discretion of the juy.

Sec. 4. It shall further be the duty of the labor inspector to collect statistics concerning labor wherever and however employed in this State, and report the same to the commissioner at such times as he may direct. It shall be the duty of the owner, officers, manager, or agent of any factory, machine or work shop where laborers are employed, to furnish upon demand of the labor inspectors statistical information concerning the number and sex of laborers employed, the compensation of each, the
amount and kind of labor performed by such laborers, and such other reasonable information as may be required by the commissioner: Provided, That no person shall be required to furnish the labor inspectors information concerning the private conduct or condition of his affairs, or the affairs of the firm or concern he represents, touching matters not contemplated in the provisions of this act; And, provided, further, That no labor inspector, for the purpose of gathering statistics, shall interfere or detain from work any laborer while on duty during working hours.

SEC. 5. The commissioner shall make a separate report biennially to the legislature on or before the second Monday in January, on the subject of labor, and include such recommendations as may be deemed proper, together with an account of the work done by the labor inspectors, and the expenses incurred in by them. The number of copies of such reports shall not be less than one thousand nor more than three thousand, in the discretion of the commissioner.

SEC. 7. Neither the labor inspector nor assistant labor inspector shall take any part, interfere, or become involved in any strike or similar labor difficulty, other than the performance of his duty as prescribed by law, upon penalty of forfeiting his office.

SEC. 8. The labor inspector and assistant labor inspector shall receive annual salaries of twelve hundred dollars and one thousand dollars, respectively, and their actual necessary traveling expenses while in the performance of their duties to be paid out of the fund appropriated for the bureau. Said labor inspectors shall make reports of expenses as directed by the commissioner, who shall approve the same when proper and certify same for payment as other expenses of said bureau are now allowed and paid.

SEc. 9. Nothing in this act shall be construed to conflict with the powers and duties of the State mine inspectors as now prescribed by law. The words, factory, machine and work shop, shall not be construed to mean a newspaper or printing office.

Sec. 10. All laws in conflict with this act, are, to the extent of such conflict, hereby repealed.
Approved March 17, 1902.
Chapter 51.-Examination, licensing, etc., of barbers.
SECTION 1. It shall be unlawful for any person to follow the occupation of barber in all cities of the first, second and third class of this State unless he shall have first obtained a certificate of registration as provided in this act: Provided, however, That nothing in this act contained shall apply to or affect any person who is now and for the past three years has been actually engaged in such occupation. A person so engaged less than three years shall be considered an apprentice, and at the expiration of three years of such employment shall be subject to the provisions of this act as hereinafter provided.

SEC. 2. A board of examiners, to consist of three persons is hereby created to carry ont the purposes and enforce the provisions of this act. The governor shall on or before July first, nineteen hundred and two, appoint one barber to serve for one year, one barber to serve for two years and one barber to serve for three years, who, with their respective successors, to be appointed annually thereafter, and to serve for a term of three years, shall constitute a board of examiners of barbers, all of whom shall be practical barbers who have been actually engaged in the business of barbering for at least five years. Each member of said board shall give a bond in the sum of one thousand dollars, with sureties to be approved by the secretary of state, conditioned for the faithful performance of his duties, and shall take the oath provided by law for public officers. Vacancies in said board shall be filled by the governor for the unexpired portion of the term.

SEC. 3. Such board shall have power to adopt reasonable rules and regulations prescribing the sanitary requirements of a barber shop in cities of the first, second and third class, subject to the approval of the State board of health, and to cause the rules and regulations so approved to be printed in suitable form, and to transmit a copy thereof to the proprietor of each barber shop in cities of the first, second and third class. It shall be the duty of every proprietor, or person operating a barber shop in cities of the first, second and third class to keep posted in a conspicuous place in his shop, so as to be easily read by his customers, a copy of such rules and regulations. A failure of any such proprietor to keep such rules so posted, or to observe the requirements thereof, shall be sufficient grounds for the revocation of his license, but no license shall be revoked without a reasonable opportunity being offered to such proprietor to be heard in his defense. Any member of said board shall have power to enter and make reasonable examination of any barber shop in cities of the first, second and third class during business hours for the purpose of ascertaining the sanitary conditions thereof. Any barber shop in cities of the first,
second and third class in which tools, appliances and furnishings in use therein are kept in an unclean and unsanitary condition, so as to endanger health, is hereby declared to be a public nuisance, and the proprietor thereof shall be subject to prosecution and punishment therefor.

Sec. 4. Each member of said board shall receive a compensation of three dollars per day for actual service, and ten cents per mile for each mile actually traveled in attending the meetings of the board, which compensation shall be paid out of any moneys in the hands of the treasurer of said board, after an allowance thereof by the board upon an itemized and verified claim therefor being filed with the secretary by the member claiming the same; but in no event shall any part of the expenses of the board or any member thereof be paid out of the State treasury.

Sec. 5. Said board shall report annually to the governor a full statement of the receipts and disbursements of the board during the preceding year, a full statement of its doings and proceedings, and such recommendations as it may deem proper looking to the better carrying out of the intents and purposes of this act. Any moneys in the hands of the treasurer of said board at the time of making such report, in excess of five hundred dollars, shall be paid over to the State treasurer to be kept by him for the future maintenance of the board, and to be disbursed by him upon warrants signed by the president and treasurer of said board.

Sec. 6. Said board shall hold each year throughout the State, at such times and places as it shall designate, at least four public examinations, notice whereof shall be given by publication at least ten days before the holding of any such meeting, in at least one newspaper printed and published in the city of Louisville, and in at least one newspaper printed and published in the county in which said meeting shall be held. Said board is authorized to incur all necessary expenses for the proper discharge of their duties, and pay the same out of any moneys in the hands of the treasurer of the board, or of the funds in the hands of the State treasurer as aforesaid.

Sac. 7. Every person now engaged in the occupation of barber in cities of the first, second and third class shall within ninety days after the approval of this act file with the secretary of said board an affidavit setting forth his name, residence and the length of time during which and the place where he has practiced such occupation, and shall pay to the treasurer of said board one dollar, and a certificate of registration entitling him to practice said occupation thereupon shall be issued to him.

Sec. 8. Any person desiring to obtain a certificate of registration under this act shall make application to said board therefor, and shall pay to the treasurer of said board an examination fee of five dollars, and shall present himself at the next regular meeting of the board for the examination of applicants, whereupon said board shall proceed to examine such person, and being satisfied that he is above the age of nineteen years, of good moral character, free from contagious or infectious diseases, that he had either studied the trade for at least three years as an apprentice under a qualified and practicing barber; or that he has studied the trade in a barber school or schools, as defined by this act, for at least three years, or had practiced the trade in another State for at least three years, and is possessed of the requisite skill in said trade to properly perform all the duties thereof, including his ability in the preparation of tools, shaving, hair cutting, and all the duties and services incident thereto, and is possessed of sufficient knowledge concerning the common diseases of the face and skin to avoid the aggravation and spreading thereof in the practice of said trade; his name shall be entered by the board in the register hereinafter provided for, and a certificate of registration shall be issued to him, authorizing him to practice said trade in cities of the first, second and third class: Provided, That whenever it appears that the applicant has acquired his knowledge of said trade in a barber school, the board may subject him to an examination and withhold from him a certificate if it shall thus appear that he is not qualified to practice the said trade.

- A barber school is hereby declared to be a school conducted by a suitable person who is authorized to practice the trade of a barber in this State, and in which all instruction is given by competent persons so authorized, and in which the course and period of training shall comply with the rules and regulations of the said board adopted for the government of barber schools.

Sec. 9. Nothing in this act shall prohibit any person from serving as an apprentice in said trade under a barber authorized to practice the same under this act, nor from serving as a student in any school for the teaching of such trade under the instruction of a qualified barber.
Sec. 10. Said board shall furnish to each person to whom a certificate of registration is issued, a card or insignia bearing the seal of the board and the signature of its president and secretary, certifying that the holder thereof is entitled to practice the occupation of barber in this State, and it shall be the duty of the holder of such card or insignia to post the same in a conspicuous place in front of his working chair, where it may readily be seen by all persons whom he may serve. Said card or
insignia shall be renewed on or before the first day of July of each year, and the holder of said certificate of registration shall pay to the secretary of said board the sum of one dollar for said renewal card or insignia. Upon the failure of any holder of a certificate of registration to apply for a renewal of his card or insignia on or before the first day of July in each year, his said certificate may be revoked by said board, subject to the provisions of section twelve of this act.

SEC. 11. Said board shall keep a register in which shall be entered the names of all persons to whom certificates are issued under this act, and said register shall be at all times open to public inspection.

SEC. 12. Said board shall have power to revoke any certificate of registration granted by it under this act for: (a) Conviction of crime; (b) habitual drunkenness for six months immediately preceding the filing of a charge with it therefor; (c) gross incompetency; (d) the keeping of a shop or the tools, appliances or furnishings thereof in an unclean and unsanitary condition; (e) failure to comply with the requirements of section ten of this act: Provided, That before any certificate shall be so revoked the holder thereof shall have notice in writing of the change or charges against him, and shall have a reasonable opportunity to be heard in his defense. Any person whose certificate has been so revoked may, at the expiration of ninety days, apply to have the same regranted, and the same shall be regranted to him upon a satisfactory showing that the disqualification has ceased. The said board shall have power to summon any person to appear as a witness and testify at any hearing appointed by it touching any such charge preferred against any barber of cities of the first, second and third class, and to examine such witness relating thereto, and shall have the right to administer oaths.

Sec. 13. Any person practicing the occupation of barber without having obtained a certificate of registration, as provided by this act, or willfully employing a barber who has not such a certificate, or falsely pretending to be qualified to practice such occupation under this act, or violating any of the provisions of this act, is guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than ten dollars, or more than one hundred dollars, or by imprisonment in the county jail not less than ten days or more than ninety days.

Sec. 14. This act shall take effect and be in force from and after July first, one thousand nine hundred and two.

Approved March 21, 1902.

> Chapter 60.-Payment of wages of miners in casĭ-Semimonthly per day.

SEcTion 1. Section one of an act entitled, "An act concerning the employees and servants in mining work or industry in this Commonwealth," $* * *$ is hereby, repealed, and the following is enacted in lieu thereof:

Section 1. All persons, associations, companies and corporations employing the services of ten or more persons in any mining work or mining industry in this Commonwealth, shall, on or before the fifteenth and thirtieth days of each month, pay to within fifteen days of the aforesaid fifteenth and thirtieth days, respectively, each servant or employee, in lawful money of the Tnited States, the full amount of wages due each such servant or employee rendering such service, unless prevented by an! unavoidable casualty: Provided, however, That if at any time of payment any servant or employee shall be absent from his place of labor, he shall be entitled to such payment at any time thereafter on demand.

Approved March 21, 1902.

## LOUISIANA.

## ACTS OF 1902.

> Act No. 49.-Employment of women and children-Hours of labor.

Section 1. Section 4 of Act No. 43 of the General Assembly of the State of Louisiana, approved July 1, 1886, *** [shall] be amended and reenacted so as to read as follows:

Section 4. No child, or young person under the age of eighteen years, and no woman, shall be employed in any factory, warehouse, workshop, telephone or telegraph office, clothing, dressmaking or millinery establishment, or in any place where the manufacture of any kinds of goods is carried on, or where any goods are prepared for manufacture, for a longer period than an average of ten hours in any day, or sixty hours in any week, and at least one hour shall be allowed in the labor period of each day for dinner.

Approved July 24, A. D. 1902.

Act No. 122.-Hours of labor on street railways.
Section 1. Act No. 95 of the session of 1886, approved July 8th, 1886, * * * [shall] be amended and reenacted as follows:
Ten hours labor in twenty-four shall constitute a day's labor in the operation of all street railroads owned or operated by corporations incorporated under the laws of this State, whatever motive power may be used in the operation of such railroads; the said ten hours to be embraced within twelve consecutive hours.
Sec. 2. It shall be a misdemeanor for any officer or agent of any street railroad company to exact from any of its employees more than ten hours' labor in the twentyfour, constituting a day and embraced within twelve consecutive hours: Provided, however, That in cases of accident, unavoidable delay, or emergency extra labor may Le permitted for extra compensation, with the consent of the employee.
Sec. 3. Any officer or agent of any of the said street railroads, who shall have been convicted of violating the provisions of this act, shall be fined not more than fifty dollars, or suffer imprisonment in the parish prison or jail, as the case may be, for not more than two months, or both, at the discretion of the court; said fine to go to the benefit of the public schools as other fines and forfeitures.
Approved July 8, A. D. 1902.

> Acr No. 194.-Examination, licensing, etc., of plumbers.

Section 1. In all cities having a population of $(30,000)$ thirty thousand or more people, the mayor of each city shall appoint, with the consent of the common council of the city, for a term of four years, five plumbers at least two of whom shall be journeyman plumbers, who together with the president of the board of health and city engineer, shall constitute and act as a board of examiners of plumbers, and whose duty it shall be to examine all plumbers as to their practical knowledge and all other requirements of the business of plumbing; and shall submit the applicant to some satisfactory forms of practical tests; and if satisfied with the competency of the said applicant, shall thereupon issue a permit to such applicant authorizing him to engage in the business of plumbing either as a master plumber or as a journeyman plumber; which permit shall be renewed from year to year without reexamination: Provided, That all persons actively engaged in the business of plumbing in the State of Louisiana, either as a master plumber or journeyman plumber, for twelve months previous to the passage of this act, shall be entitled to receive a permit without passing an examination.

Sec. 2. The said board of examiners in said cities shall have power to adopt rules and regulations for the sanitary construction, alteration and repairing of all plumbing placed within or connected with any building in such cities, and no plumbing work shall be performed without a permit first obtained from said board: Provided, That the plumbing work of all buildings in course of construction or hereafter to be constructed in said cities after the passage of this act, shall be done in such manner as to conform to the sanitary rules of the sewerage authorities of said cities.

SEc. 4. Any person engaged or any person hereafter engaging in the business either as a master plumber or a journeyman plumber, shall within thirty days from the organization of said board of examiners, or from engaging in the business of plumbing, apply to the said board and after undergoing an examination as to his qualifications, or show that he has been twelve months in business, as provided in section 1, if he shows his competency, shall be granted a permit to ply his trade.

Sec. 5. No license shall be granted or issued by the municipal authorities to a master plumber except upon production of a permit from the board of examiners, and no master plumber shall employ a journeyman plumber who has not secured the permit above provided for.

Sec. 7. The board of examiners shall have the power and are hereby authorized to charge moderate fees to defray the necessary expenses of the carrying out of the purposes of this law provided the said fees and all fees herein mentioned shall be approved by the city councils of said cities, and to hire and fix the salaries of their employees, which they shall pay out of the fees above provided for.

SEc. 8. Any person violating any of the provisions of this act shall be deemed guilty of a misdemeanor and shall upon conviction be subject to a fine of not more than twenty-five dollars or imprisoned for a period not exceeding thirty days.

Received in the office of the secretary of state July 3, 1902.
[Became a law by limitation without the governor's signature.]

## MARYLAND.

## ACTS OF 1902.

Chapter 101.-Factories and workshops-Sweating system.
Section 1. Article 27 of the Code of Public General Laws, * * * is hereby amended by the addition of four new sections to be added thereto, to be known respectively as sections $149 \mathrm{Ee}, 149 \mathrm{FF}, 149_{\mathrm{Gg}}$ and 149 Hf , and to come in immediately after 149D of said article, and to read as follows:

Section 149 EE . No room or apartment in any tenement or dwelling. house shall be used except by the immediate members of the family living therein, which shall be limited to a husband and wife, their children, or the children of either, for the manufacture of coats, vests, trousers, kneepants, overalls, cloaks, hats, caps, suspenders, jerseys, blouses, waists, waistbands, underwear, neckwear, furs, fur trimmings, fur garments, shirts, purses, feathers, artificial flowers, cigarettes, or cigars. No room or apartment in any tenement or dwelling-house shall be used by any family or part of family until a permit shall first have been obtained from the chief of the burean of industrial statistics, stating the maximum number of persons allowed to be employed therein. Such permit shall not be granted until an inspection of such premises has been made by the inspector or his assistant, named by the chief of the bureau of industrial statistics, and such permit may be revoked by the said chief of the bureau of industrial statistics at any time the health of the community or those employed or living therein may require it. No person, firm or corporation shall work in, or hire or employ any person to work in any room or apartment in any building, rear building, or building in the rear of a tenement or dwelling-house, at making in whole or in part, any of the articles mentioned in this section, without first obtaining a written permit from the chief of the bureau of industrial statistics stating the maximum number of persons allowed to be employed therein. Such permit shall not be granted until an inspection of such premises has been made by the factory inspector or his assistant, named by the chief of the bureau of industrial statistics, and such permit may be revoked by the said chief of the bureau of industrial statistics at any time the health of the community or of those so employed may require it. All families, persons, firms or corporations now engaged in such manufacture in such tenement or dwelling house or other building, shall apply for said permit on or before July 1, 1902, and annually thereafter at the same date. The said permit shall be posted in a conspicuous place in the room, or one of the rooms to which it relates. Every person, firm or corporation contracting for the manufacture of any of the articles mentioned in this section, or giving out the incomplete material from which they or any of them are to be made, or to be wholly or partially finished, or employing persons in any tenement or dwelling-house, or other building to make, wholly or partly finish, the articles mentioned in this section, shall keep a written register of the names and addresses of all persons to whom such work is given to be made, or with whom they may have contracted to do the same. Such register shall be produced for inspection, and a copy thereof shall be furnished on demand made by the chief of the bureau of industrial statistics or one of his deputies.
Section 149FF. The chief of the bureau of industrial statistics, or his assistant, or any inspector, shall have authority to enter any room in any tenement or dwelling house, workshop, manufacturing establishment, mill, factory or place where any goods are manufactured for the purpose of inspection. The person, firm or corporation owning or controlling or managing such places shall furnish access to and information in regard to such places to the said chief of the bureau of industrial statistics, or his deputies, at any and all reasonable times while work is being carried on.
Section 149Ga. The chief of the bureau of industrial statistics shall appoint two deputies as assistants, whose duty it shall be to make such inspections of the tenements, dwelling houses, factories, workshops, mills and such other places as he may designate, and to do such other work as the said chief of the bureau of industrial statistics shall designate.
Section 149Hn. Any person, firm or corporation who shall in any manner violate the provisions of the preceding sections, numbered respectively i49Ee, 149FF and 149 gG , or who shall refuse to give such information and access to the chief of the bureau of industrial statistics, or his deputies, or secure such permit as provided, shall, upon conviction in any court of competent jurisdiction, be fined not less than five dollars nor more than one hundred dollars, or imprisoned not less than ten days nor more than one year, or both, in the discretion of the court; such fines to be collected as all other fines are collected by law.

Approved March 27, 1902.

## Chapter 124.-Mine regulations and inspection.

Section 1. Sections 196 [to] 209d of article number one of the Public Local Laws, as the same were enacted by chapter 34 of the acts of 1898, and sections 150 [to] 164 c of article twelve of the Public Local Laws, as the same were enacted by chapter 34 of the acts of 1898, are hereby repealed, and sections 196 [to] 209Q are hereby enacted and added to article number one of the Code of Public Local Laws, and sections 150 [to] 164 P are hereby enacted and added to article number twelve of the Public Local Laws, to read as hereinafter set forth, respectively, to wit:

Section 196 of article 1 and section 150 of article 12. The governor shall, by and with the advice and consent of the senate, appoint one mine inspector for the counties of Allegany and Garrett, who shall hold his office for two years from the date of his appointment. No person shall be eligible to the office of mine inspector until he shall have obtained [attained] the age of thirty years. He shall possess a competent and a practical knowledge of the different systems of mining and properly ventilating coal mines in said counties, and the nature and constituent parts of the various gases found in coal mines, and of the various ways of expelling the same from said mines, and shall have had five years' practical experience as a miner in one or both counties combined next immediately preceding his appointment, and shall receive an annual salary of fifteen hundred dollars, payable quarterly, by warrant of the comptroller of the State treasury for the same. Before entering upon the discharge of the duties of his office the said mine inspector shall take the oath provided in the constitution of the State, and shall give bond in the sum of two thousand dollars with sureties to be approved by the chief judge of the fourth judicial circuit of Maryland. Said mine inspector while in office shall not be interested in the operation of any mine or act as land agent, superintendent or manager of any mine; and it shall be his duty to make a report to the governor of his proceedings in office and to set forth in such reports all such information that may be proper or beneficial, and also to make such recommendations and suggestions as he may consider important as to legislation on the subject of mining.

Section 197 of article 1 and section 151 of article 12. Said mine inspector shall devote the whole of his time to the duties cf his office. It shall be his duty to examine each mine in said counties as often as possible, but a longer period of time than two months shall not elapse between said examination, to see that all the provisions of this act are observed and strictly carried out, and he shall make a record of all examinations of mines, showing the condition in which he finds them, especially with reference to ventilation and drainage, the number of persons employed in each mine, the extent to which the law is obeyed and progress made in the improvement of mines, the number of serious accidents and the nature thereof, the number of deaths resulting from injuries received in or about the mines, with the cause of such accident or death; which record completed to the first day of May of each and every year shall be filed with the governor of the State; and one thousand copies of said report shall be printed for distribution at once by the inspector, and the cost thereof shall be paid by the treasurer upon the warrant of the comptroller.
Section 198 of article 1 and section 152 of article 12. It shall be the duty of the mine inspector, on examination of any mine, to make out a written or partly written and partly printed report of the condition in which he finds such mine and post the same at the mouth of the mine properly protected from the weather. The said report shall give the date of the visit, the number of cubic feet of air in circulation and where measured, and that he has measured the air at the cut-through of one or more rooms in each heading or entry, and such other information as he shall deem necessary, and the said reportshall remain posted in the office or conspicuous place, and may be examined by any person employed in or about the mine.
Section 200 of article 1 and section 154 of article 12. That the mine inspector may be enabled to perform the duties herein imposed upon him, he shall have the right at all times to enter any coal mine to make examinations or obtain information; and upon the discovery of any violation of this act, it shall be the duty of said mine inspector to report the same to the grand jury for the proper county; and the grand juries for each of the said counties are hereby directed to summon said mine inspector before them at each term of court, and the respective courts of Allegany and Garrett counties shall call this section to the attention of each grand jury.
Section 201 of article 1 and section 155 of article 12. Whenever loss of life or serious personal injury shall occur by reason of any accident whatsoever, in or connected with any coal mine, it shall be the duty of the person having charge of said mine to report that fact, without delay, to the inspector, and the said inspector shall, if he deem necessary from the facts reported, and in all cases of loss of life, immediately go to the scene of said accident and render every possible assistance to those in need.
Section 202 of article 1 and section 156 of article 12. The mine inspector shall also be an inspector of weights and measures at all mines now or hereafter opened in said
counties, and shall weigh several cars of coal mined therein once every two months on the scales of the different mines, (or when requested to do so, especially by any miner or operator), in order to test the accuracy of said scales, and the State shall supply said mine inspector with the required weights and apparatus for testing scales, and to do any other act he may deem necessary to ascertain whether the coal be justly weighed at said mine; and it shall be the duty of every person acting as weighmaster for the owner, lessee or agent of said mines, before entering upon the performance of his duty as weighmaster or check-weighman, or before making any report, to make oath before some justice of the peace, in the proper county, that he will perform the duty of weighmaster or check-weighman as prescribed by this act, at such mine, with honesty and fidelity, and will keep a true and accurate account of all the coal so weighed by him, and will credit and allow the full weight, and no more, of coal in each mining car, to the party or parties who mined the same at the rate of two thousand two hundred and forty pounds per ton, and all fractions thereof to be counted in hundred weights; a copy of which oath shall be posted up in said weigh-office where such coal is weighed. But the said oath of weighmaster or checkweighman shall be understood and construed as only requiring said weighmaster or check-weighman to allow and credit said fractions of tons in whole hundredweights (cwts.) in manner following, namely: Where the odd pounds in any mining cars in excess of the whole handredweight therein shall equal or exceed fifty-six pounds, the said weighmaster or check-weighman shall credit such miner with a whole hundredweight for such odd pounds, but where such odd pounds, less than a whole hundredweight (cwt.) shall be less than fifty-six pounds, then such weighmaster or check-weighman shall give such miner no credit whatever for such odd pounds; and it shall be the duty of said weighmaster and of any check-weighman to perform the several acts and matters prescribed in said affidavit: Provided, That every car when weighed shall be uncoupled and stopped on the scales; but the mine inspector may make special regulations as to the stopping of cars when necessary.

Section 203 of article 1 and section 157 of article 12. The mine inspector shall have power to examine the weighing sheets on which the weight of the miners' cars are registered, and the monthly aggrege te of coal weighed on such scales, and shall compare such aggregate monthly weighings with the "manifest" or "shipping", reports of the operators, and thus determine from time to time whether the coal is accurately weighed.

Section 204 of article 1 and section 158 of article 12. It shall be lawful, however, notwithstanding the provisions of this act, in relation to weighmaster and the weighing of coal, for any lessee, owner, individual or agent of any mine in said counties of Allegany and Garrett to contract with the miners to mine coal therein or therefrom by measurement, and it shall also be lawful for any owner, lessee or agent of any mine in said counties, at or in which not more than ten miners are employed at any one time, to contract with the miner or miners employed therein by the day, week or month, instead of by weight, and in all such cases when the compensation of the miners by their contract or agreement fixed by the day, week or month, be ascertained by the cubic yard or other measurement, as hereinbefore provided; it shall not be obligatory upon such owner, lessee or agent of such mine to provide any weighmaster or weigh the coal mined in such shaft or mine, or taken therefrom, but the mine cars used in any such mine worked by shaft shall be measured by a sworn measurer, and said owner, lessee or agent shall cause the capacity of each of said mining cars to be plainly stamped or branded thereon.

Section 205 of article 1 and section 159 of article 12. At any time upon the request of a majority of the miners then employed in any coal mine in said counties of Allegany or Garrett, the agent, lessee or operator of such coal mine shall permit said miners (but at their own expense) to provide and keep in the said weigh-house at said mine, at the scales kept thereat, for such length of time as such miners may require, a check-weighmaster, who shall have the right at all times to be present when the coal mined at each mine is being weighed by the weighmaster of said mine, and to examine the scales thereof, and to take and keep a full statement of the weight of each mining car load of coal, as shown by the said scales when the coal is being weighed thereon by said weighmaster, and upon the discovery by such checkweighmaster of any willful violation of any of the provisions of this act by the weighmaster employed at such mine, it shall be the duty of such check-weighmaster to immediately lay all such information before the state's attorney of the county in which such weigh-house is situated, or the mine inspector, for their action upon the same.

Section 206 of article 1 and section 160 of article 12. It shall be the duty of every person acting as weighmaster in any of the said mines, to keep in ink or indelible pencil a list or statement of the number of mining cars, and the weight of coal in car mined each day, and the person mining the same, and place and keep said list at
the weigh-house, where said coal is weighed, where the parties interested therein may inspect it, which lists shall be kept for reference and inspection by all persons interested therein for at least thirty days' time. And it shall be the duty of every operator to provide correct and accurate scales, upon which all coal mined in said mine shall be weighed in the state in which it is mined, before the same shall be dumped or taken from the mine cars, in which the miners have loaded the same; and no operator shall dock any miner in excess of five hundred pounds (ewts.) on any one car; and it shall be the duty of the operator to cause the average weight of each empty car used in any such mine to be plainly stamped on the outside of each car.

Section 207 of article 1 and section 161 of article 12. The owner, lessee or agent of every mine in operation in the counties of Allegany and Garrett shall furnish at their own expense all props and all requisite timber required to be used in the working of said mines, and as the miners employed to work therein proceed with the working of their excavations it shall be the duty of the owner, lessee or agent of said mines, to furnish a sufficient quantity of props and timber of suitable character at the place in the heading, room, crosscut or other excavation in the mines where the miners are at work, and the owners, lessee or agent operating any such mine shall, at their own expense, properly timber any headings, rooms, pillars or other excavations, not recently worked, and lay uproads, by contract or otherwise, to and in the same, previous to the miners starting new or farther work or excavations therein; and said owner, lessee or agent shall construct each heading hereinafter driven in every mine of sufficient width and height, with at least two feet and a half of room on the break side of such heading, or if no breaks be used, then upon some given side of such heading, so as to admit of the passage of the drivers who may be engaged in driving along said heading; and it shall be the duty of every agent, lessee, owner, operator, weighmaster, mining boss, overseer, roadsman, driver, miner or any other person working or engaged in any employment whatever, in or about the said mines in said Allegany and Garrett counties, or tram roads or incline planes leading therefrom, to observe all practical care, caution and prudence in the work in which they may be engaged so that all lives, health and safety of themselves and their colaborers, and the property of the owners in and about said mines, may be protected so far as practicable, consistent with the dangerous character of the work, from loss and injury; and it shall be the duty of all miners engaged in any of the said mines to carefully prop and timber all rooms, headings and other excavations wherein they may be working, as close up to their work as may be reasonably practicable, so as to guard, as far as practicable, against all accidents from fall of roof, side or breast, coal or slate, earth or other surrounding matter; and any minor [miner] or other person employed or working in or about said mines who shall be guilty of any willful negligence in respect of any of the matters specified in this section whereby the lives, health or safety of any colaborers in and about any of said mines or any of the property of the owners in or about said mines may be lost, destroyed or injured, or unnecessarily jeopardized, shall be liable to indictment, and upon conviction to be fined as hereinafter provided; and whenever in any case it shall be brought to the notice of the mine inspector that any person is violating any of the provisions of this section, he shall at once order such person to take immediate steps to secure the safety of the person or property so jeopardized, and in case [of] the refusal of any person to comply with such order, it shall be the duty of said inspector to proceed at once to have such offender arrested and punished in accordance with the provisions of this act.
Section 208 of article 1 and section 162 of article 12. The operator or superintendent of every coal mine shall make, or cause to be made, by a competent engineer or surveyor, an accurate map or plan of such coal mine not smaller than a scale of two hundred feet to an inch, which map shall show as follows: First. All measurements of said mine in feet or decimal parts thereof. Second. All the openings, excavations, shafts, tunnels, slopes, planes, main entries, cross entries, and rooms in said mines. Third. By darts or arrows made thereon by a pen or pencil the direction of air currents in the said mine. Fourth. An accurate delineation of the boundary lines so far as possible between said coal mine and all adjoining mines or coal lands, whether owned or operated by the same operator or other operator, and the relation and proximity of the workings of said mine to every other adjoining mine or coal lands. Fifth. The bearings and lengths of each tunnel or entry and boundary or property lines. The said map or plan, or a true copy thereof, shall be kept in the general mine office by the said operator or superintendent for the use of the mine inspector and for the inspection of any person or persons working in said mine whenever said person or persons shall have cause to fear that any working place is becoming dangerous by reason of its proximity to other workings that may contain water or dangerous gas.

Section 209 of article 1 and section 163 of article 12. At least once in every six months, or oftener if necessary, the operator or superintendent of each mine shall
cause to be shown accurately on the map or plan of said coal mine, all the excavations made therein during the time elapsing since such excavations were last shown upon said map or plan; and all parts of said mine which were worked out or abandoned during said elapsed period of time shall be clearly indicated by coloring on said map or plan; and whenever any of the workings or excavations of said coal mine have been driven to their destination, a correct measurement of all such workings or excavations shall be made promptly and recorded in a survey book prior to the removal of the pillars or any part of the same from such workings or excavations.

Section 209a of article 1 and section 164 of article 12. It shall not be lawful for the operator, superintendent or mine foreman of any coal mine to employ more than twenty persons within said coal mine, or permit more than twenty persons to be employed therein at any one time, unless they are in communication with at least two available openings to the surface from each seam or stratum of coal worked in such mine exclusive of the furnace upcast: But provided, That in any mine operated by a shaft or slope and ventilated by fan, if the air shaft shall be divided into two compartments, one of them may be used for an airway and the other for the purpose of egress and ingress from and into said mine by the persons therein employed, and the same shall be considered a compliance with the provisions of this section hereinbefore set forth. And there shall be cut out or around the side of every hoisting shaft, or driven through the solid strata at the bottom thereof, a traveling way not less than five feet high and three feet wide, to enable persons to pass the shaft in going from one side of it to the other without passing over or under the cage or other hoisting apparatus. The mine inspector may, upon application, if he deem it necessary, grant a period of time not exceeding eighteen months in which the operator shall provide the second opening, under such terms as the inspector shall prescribe, and the second opening required may be through an adjoining mine if the way thereto and the opening itself be kept and maintained in proper condition.

Section 209B of article 1 and section 164A of article 12. The shaft or outlet, other than the main shaft or outlet, shall be separated from the main outlet and from the furnace shaft by a natural stratum at all points by a distance of not less than one hundred and fifty feet (except in all mines opened prior to June 30, 1901, where such distance may be less, if, in the judgment of the inspector one hundred and fifty feet is impracticable). If the mine be worked by drift two openings, exclusive of the furnace upcast shaft, and not less than thirty feet apart shall be required. Where the two openings shall not have been provided as required hereinbefore by this act, the mine inspector shall cause the second to be made without delay; and in no case shall furnace ventilation be used where there is only one opening into the mine.

Section 209c of article 1 and section 164 s of article 12. Unless the mine inspector shall deem it impracticabie, all mines shall have at least two entries or other passageways, one of which shall lead from the main entrance and the other from the other opening into the body of the mine, and said two passageways shall be kept well drained and in a safe condition for persons to travel therein throughout the whole length, so as to obtain in cases of emergency a second way for egress from the workings. No part of said workings shall at any time be driven more than three hundred feet in advance of the aforesaid passageways, exceptentries, airways, or other narrow work, but should an opening to the surface be provided from the interior of the mine, the passageways aforesaid may be made and maintained therefrom into the working part of the mine, and this shall be deemed sufficient compliance with the provisions of this act relative thereto; said two passageways shall be separated by pillars of coal or other strata of sufficient strength and width.

Section 209D of article 1 and section 164c of article 12. Where necessary to secure access to the two passageways required in any slope mine where the coal seam inclines and has workings on both sides of said slope, there shall be provided an overcast for the use of persons working therein, the dimensions of which shall not be less than four feet wide and five feet high. Said overcast shall connect the workings on both sides of said slope, and the intervening strata between the slope and overcast shall be of sufficient strength and thickness at all points for its purpose: Provided, That if said overcast be substantially constructed it shall be deemed sufficient.
Section 209e of article 1 and section 164d of article 12. The machinery used for lowering or raising the employees into and out of the mines and the stairs used for ingress and egress shall be kept in a safe condition, and inspected once each twentyfour hours, by a competent person employed for the purpose; and such machinery and method of its inspection shall be approved by the mine inspector.
Section 209F of article 1 and section 164E of article 12. No greater number of persons shall be lowered or hoisted at any one time than may be permitted by the mine inspector, and notice of the number so allowed to be lowered or hoisted at any one time shall be kept posted up by the operator or superintendent in conspicuous places at the top and bottom of the shaft, and the aforesaid notice shall be signed by the mine inspector.

Section $20 \mathrm{~g}_{\mathrm{G}}$ of article 1 and section 164 F of article 12. The operator or superintendent of every coal mine, whether shaft, slope or drift, shall provide and hereafter maintain ample means of ventilation for the circulation of air through the main entries, cross entries and all other working places to an extent that will dilute, carry off and render harmless all noxious or dangerous gases generated in the mine, affording not less than one hundred cubic feet per minute for each and every person employed therein: Provided, That in the case of old workings when the mine inspector shall deem it impracticable to secure one hundred cubic feet of air per minute for each man, then he may reduce it to eighty feet per man per minute for such old working.
Section 209 H of article 1 and section 164g of article 12. It shall be the duty of the mine foreman to see that proper cut-throughs are made in all the rooms and pillarsat such distances apart as the mine inspector may deem requisite, not more than thirtyfive yards in any instance for the purpose of ventilation, and the ventilation shall be conducted through said cut-throughs into the rooms by means of check doors made of canvass or other suitable material, placed in the entries or other suitable places, and heshall not permit any room to be opened in advance of the ventilating current. Should the mine inspector discover any room, entry or other working places being driven in advance of the air current, or shall discover any crosscut or cut-through not properly closed or bratticed contrary to the requirements of this section, he shall order the workingmen working in such places to cease work at once until the law is complied with.
Section 209I of article 1 and section 164H of article 12. One year after the passage of this act, every mine employing more than seventy-five persons must be divided into two or more districts, and each district shall be provided with a separate split of pure air and the ventilation shall be so arranged that not more than seventy-five persons shall be employed at the same time in any one current or split of air: Provided, That a larger number, not exceeding one hundred and thirty may be allowed by the mine inspector when, in his judgment, it is impracticable to comply with the foregoing requirements.
Section 2095 of article 1 and section 1641 of article 12. In all mines the doors used in guiding and directing the ventilation of the mine shall be so hung and adjusted that they will close themselves, or be supplied with springs or pulleys, so that they can not be left standing open, and an attendant shall be employed at all principal doors through which cars are hauled, for the purpose of opening and closing said doors when trips of cars are passing to and from the workings, unless an approved selfacting door is used, which principal doors shall be determined by the mine inspector or mine foreman. A hole for shelter shall be provided at each door, so as to protect said attendant from being run over by the cars while attending to his duties, and persons employed for this purpose shall at all times remain at their post of duty during working hours; on every incline plane or road in any mine where hauling is done by machinery, and where a door is used, an extra door shall be provided, to be used in case of necessity.
Section 209 k of article 1 and section 164 J of article 12. The mine foremen shall measure the air current at least once a week and the mine inspector at each visit at the inlet and outlet and at or near the faces of the entries, and shall keep a record of such measurements. An anemometer shall be provided for this purpose by the operator of the mine to the foreman, and the same shall be supplied to the mine inspector by the State.
Section 209L of article 1 and section 164k of article 12. All ventilating fans used at mines shall be provided with recording instruments, by which the number of revolutions of the effective ventilating pressure of the fan shall be registered and the registration with its date for each and every day shall be kept in the office of the mine for future reference for one year from its date.
Section 209 m of article 1 and section 164L of article 12 . In any place that is being driven toward or in dangerous proximity to an abandoned mine or part of a mine suspected of containing gases, or which may be inundated with water, bore holes shall be kept not less than twenty feet in advance of the face, and in the sides of such working places, said side holes to be drilled diagonally not more than eight feet apart, and any place driven to tap water or gas shall not be more than ten feet wide, and no water or gas from an abandoned mine, or part of mine, and no more holes from the surface shall be tapped until the employees, except those engaged at such work, are out of the mine, and such work to be done under the immediate instructions of the mine foreman.
Section 209n of article 1 and section 164m of article 12. For any injury to person or property occasioned by any violation of this act, or any failure to comply with its provisions by any owner, operator or superintendent of any coal mine or colliery, a right of action shall accrue to the party injured against said owner or operator for any direct damages he may have sustained thereby, and in case of loss of life by
reason of such neglect or failure aforesaid a right of action shall accrue to the widow and lineal heirs of the person whose life shall be lost for like recovery for damages for the injury they shall have sustained.
Subsection A. If any person shall receive any injury in or about the mine, and the same shall come within the knowledge of the mine foreman, and if he shall be of the opinion that the injured person requires medical or surgical treatment, he shall see that said injured person receive the same; the mine foreman shall report monthly to the mine inspector on blanks furnished by said inspector for that purpose all accidents resulting in personal injury.
Subsection B. No unauthorized person shall enter the mine without permission from the superintendent or mine foremen.
Subsection C. No person in a state of intoxication shall be allowed to go into or loiter about the mine.
Subsection D. All employees shall inform the mine foreman, or his assistant, of the unsafe condition of any working place, hauling roads or traveling ways, or of damages to doors, brattices or stoppings, or of obstructions in the air passages when known to them.
Subsection E. No person shall be allowed to travel on foot to or from his work on any incline plane, dilly or locomotive roads, when other good roads are provided for that purpose.
Subsection F. It shall be the duty of operators or superintendents to keep at the mouth of the drift, shaft or slope, or at such other place about the mine as shall be designated by the mine inspector, a stretcher properly constructed and a woolen and a waterproof blanket in good condition for use in carrying away any person who may be injured at themine: Provided, That where more than two hundred are employed, two stretchers and two woolen blankets and two waterproof blankets shall be kept.
Subsection G. Noperson shall ride upon or against any loaded car or cage in any shaft or slope in or about any coal mine; no person other than the trip runner shall be permitted to ride on empty trips on any slope or incline plane when the speed of the cars exceeds six miles per hour. The transportation of tools in and out of the mine shall be under the direction of the mine foreman.
Subsection H . No person under the age of twelve years, or female of any age, shall be permitted to enter any mine to work therein; nor shall any boy under the age of fourteen years, unless he can read and write, be allowed to work in any mine. And the mine boss shall see that this requirement is fully met.
Section 2090 of article 1 and section 164 N of article 12. He shall examine his working place before beginning work and see that it is made safe before commencing to dig or load coal.
Subsection A. It shall be the duty of every miner to mine his coal properly, and after each blast he shall exercise great care in examining the roof and coal, and shall secure them safely before beginning work.

Subsection B. When a driver has occasion to leave his trip he must be careful to see that it is left, when possible, in a safe place secure from the cars and other danger, or from endangering drivers on trips following.
Subsection C. The driver must take great care while taking his trips down grades to have the brakes or sprags so adjusted that he can keep the cars under control and prevent them running into himself or others.
Subsection D. He shall not leave any cars standing where they may materially obstruct the ventilation current, except in case of accident to the trip.
Subsection E. No employee shall burn any oil in the mines, composed wholly or in part of petroleum or its products, but such oil must be at least seventy-five per cent pure lard: Provided, This section shall not prevent the use of "Sunshine" as an illuminant.
Subsection F. Any person or persons whomsoever, who shall intentionally or carelessly injure any shaft, instrument, air course or brattice, or obstruct or throw open air ways, or injure any part of the machinery, or open any door in the mine and not close it again immediately, or open any door which opening is forbidden, or disobey any order given in carrying out the provisions of this act, or do any other act whatsoever whereby the lives or the health of persons or the security of the miners or the machinery is endangered, shall be deemed guilty of a misdemeanor and may be punished in a manner provided for in this act.
Section 209p of article 1 and section 1640 of article 12. The neglect or refusal to perform the duties required to be performed by any section of this act by the parties Sherein required to perform them, or the violation of any of the provisions or requirements hereof, shall be deemed a misdemeanor and shall, upon conviction thereof in the circuit court of the county wherein the misdemeanor was committed, be punshed by a fine not exceeding five hundred dollars or imprisonment in the county jail for a period not exceeding six months, or both, at the discretion of the court.

Section 209a of article 1 and section 164p of article 12. In this act the term "coal mine" includes the shafts, slopes, adits, drifts or inclined planes connected with excavations penetrating coal stratum or strata, which excavations are ventilated by one general air current or divisions thereof, and connected by one general system of mine railroads over which coal may be delivered to one or more common points outside the mine when such is operated by one operator.

Subsection A. The term "excavations and workings" includes all the excavated parts of a mine, those abandoned as well as the places actually being worked, also all underground workings and shafts, tunnels and other ways and openings, all such shafts, slopes, tunnels and other openings in the course of being sunk or driven, together with all roads, appliances, machinery and material connected with the same below the surface.

Subsection B. The term "shaft" means a vertical opening through the strata, and which is or may be used for the purpose of ventilation or drainage, or for hoisting men or material, or both, in connection with the mining of coal.

Subsection C. The term "slope" means an incline way or opening used for the same purpose as a shaft.

Subsection D. The term "operator" means any firm, corporation or individual operating any coal mine or part thereof.
Subsection E. The term "superintendent" means the person who shall have, on behalf of the operator, immediate supervision of one or more mines.
Subsection $\bar{F}$. The provision of this act shall not apply to any mine employing less than ten persons in any one period of twenty-four hours.
Subsection G. It shall be the duty of the mine inspector to make as to the clay or fire-clay mines in Allegany or Garrett counties, the examinations and reports required as to coal mines under section 197 of article 1 and section 151 of article 12 of this act, and to make recommendationsto the governor as to the legislation requisite to protect life and health in such clay mines.

Approved March 24, 1902.

## Chapter 139.-Liability of employers for injuries to employees-Cooperative insurance fund.

Section 2. Any corporation, partnership, association, individual or individuals engaged in the business of operating any coal or clay mine, quarry, steam or street railroad in the State of Maryland, and any incorporated town, city or county in the State engaged in the work of constructing any sewer, excavation or other physical structure, or the contractors for any such town, city or county, shall be liable in law to any employee engaged in the above-named occupations, or in case of death to his wife, her busband, if the deceased be a married woman, or to his or her parent or children, in accordance with section two of article sixty-seven of the Code of Public General Laws, for the damages flowing from an injury to said employee or from the death of such employee, when such death or injury is caused by the negligence of the employer or by the negligence of any servant or employee of such employer; and if it appears that such injury or death was caused by the joint negligence of such employer, his servants or employees, on the one hand, and the negligence of the injured or deceased on the other hand, then the employer shall be liable for one-half of the damages sustained by such injury or death.

Sec. 3 Provided, however, That no employer, town, city or county (or contractor or contractors therefor) shall be liable under the preceding section of this act, if the said employer, city, town or county (or contractor or contractors therefor) shall pay the following annual sums in advance into the hands of the insurance commissioner of the State of Maryland, in monthly installments: First. Every employer engaged in coal or clay mining or quarrying shall pay the annual sum of one dollar and eighty cents for every person employed and working in the State of Maryland. Second. Every employer engaged in operating any steam railroad shall pay the annual sum of three dollars for every person employed by it residing in the State of Maryland. Third. Every employer engaged in the business of operating any street railway or trolley road shall pay the annual sum of sixty cents for each person employed by it within the State of Maryland. Fourth. Every town, city or county (or the contractor or contractors therefor) shall pay such annual sum of money for each person employed in the work of constructing any sewer, excavation or other physical structure, as the said insurance commissioner shall adjudge to be necessary to insure such employees in the sum of one thousand dollars in the event of death in such employment, considering the occupation of [or] trade risk involved: Provided, however, That any employer, town, city or county (or contractor therefor) may deduct from the wages of their respective employees a sum not exceeding one-half of the amount payable to said insurance commissioner under this act, and make such deduction by weekly, monthly or other periodic installments, such employers to
inform their employees of this provision at the time of their employment or of the continuance of their employment under this act as a condition of such employment: Provided, further, That no party liable under the preceding section of this act shall be entitled to take advantage of the provisions of this section, unless the said party shall on the first Monday of each month make a report under oath to the insurance commissioner aforesaid, stating the number of persons employed in this State in the respective occupations covered by this act, during the preceding month (even if only employed for a fraction of said month), and the estimated number to be employed during the month of such report, and shall pay to the said insurance commissioner the proper monthly installment for each person employed during such month making up for any shortage in the payment for the preceding month. And it shall be unlawful for any person, employer, employee, corporation or partnership to make any contract waiving or avoiding or affecting the full legal effect of this act.

SEc. 4. It is hereby made the duty of the insurance commissioner of the State to receive and safe custody keep of all such sums of money or insurance premiums, and to keep a distinct fund therefor, to be known as the Employers' and Employees' Cooperative Insurance Fund, and to invest his monthly balances or surplus in safe and convertible securities of any State, county or city of the United States or the bonds of the United States, and the bond of such insurance commrssioner shall be liable for such fund, and it shall be his duty to keep accurate accounts of the receipts and disbursements of such money, and full statistics of the operation of this function of this department. In the event of the death of an employee insured under the preceding section of this act, who shall have come to his or her death in the course of the employment and by causes arising therein (provided such death shall not have occurred at a period longer than one year from the date of the injury), then the insurance commissioner upon being satisfied by adequate evidence of such death shall pay to the administrator or executor of the deceased, or unto the widow or husband or children of the deceased, as the said insurance commissioner shall deem wisest for the dependents, if there be any, the sum of one thousand dollars, and shall pay such indemnification for no other reason or cause whatsoever.

Sec. 5. The insurance commissioner shall report in January of each year to the governor the experience of this function of his department, and shall have plenary power to determine all disputed cases which may arise in its adminrstration, and to regulate from year to year the rates of premiums payable in order to preserve such fund and pay the death indemnification herein provided. He shall receive in compensation for the extra services imposed by this act one per centum of the receipts of such fund, and shall have power to define the insurance provisions of this act by regulations not inconsistent therewith, and shall prescribe the character of the monthly or other reports required of the parties liable hereunder and the character of the proofs of death, and shall have power to make all other orders and rules necessary to carry out the true intent and purpose of this act.

Sec. 6. If any party, subject to the provisions of this act, shall consider that he, they or it is or are making better provisions on the whole for the workman employed, either by way of payments in case of death, injury, sickness or old age, or all combined, and are contributing more in such manner to the said workman than he, they or it would be obliged to do under the insurance provision hereof, then said party may make application to the said insurance commissioner to be absolutely released and exonerated from all liability imposed upon the applicant by virtue of this act, such application to be in writing, under oath, whereupon the insurance commissioner shall cause such application to be pnblished in some newspaper published in the city or county, when the applicant has its principal office in the State, at the expense of the applicant, fixing a date for a hearing to be given to all persons concerned, not less than one month fron the day of the filing of such application; and the said insurance commissioner shall thereupon hear all parties concerned and shall have power to summon witnesses and administer oaths, and if upon full investigation he shall be satisfied that the application of such applicant ought to be granted, and that such applicant does and will make better provisions on the whole for the workman concerned than is made by this act, then the said insurance commissioner is hereby empowered to release said applicant from all liability under this act, by appropriate order to be signed by him, a certified copy whereof of the insurance commissioner shall be admissible in evidence as proof of its contents in any county of this State: Provided, That the said insurance commissioner shall insert in said order of release adequate provision for the reviving of the full legal effect of this act, in case such applicant should fail to continue the scheme or system of benefits maintained by such applicant, through which said order of release is granted.
Sec. 7. The words party, applicant and employer, as used in this act, shall be construed to mean the corporation, association, partnership, individual or individuals, town, city, county (or contractor therefor) liable to be sued under section two

$$
13362-\text { No. } 45-03-14
$$

of this act, unless a contrary sense appears. The word employee, as used in the second section of this act, shall be construed to mean any person employed in the State and residing therein, and under section four of this act the word employee shall be construed to mean any employee for whom the insurance premiums herein provided for have been paid.

Scc. 8. The insurance commissioner shall have power to extend the benefits of all the sections of this act, except the second section deferring the liability of employers, to other industrial or manual occupations in this State, fixing such rates, terms, conditions, qualifications and limitations as he may adjudge prudent.

Approved April 1, 1902.
Chapter 365.-Pree public employment offices.
Semon 1. An addifional subsection is hereby added to section 1 of article 89 of the Code of Public General Laws, to follow subsection 6, to be designated as suhsection 6A, and subsection 7 of said section one of said article is repealed and reenacted, so as to read as to said new subsection, and the section repealed and reenacted, as follows:
64. The chief of the bureau of industrial statistics shall cause to be organized and operated a free State employment agency for the free use of the citizens of the State of Maryland, for the purpose of securing employment for unemployed persons who may register in said bureau or agency, and for the purpose of securing help or labor for persons registering as applicants for help or labor, and to advertise and maintain such office.
7. The sum of ten thousand dollars, or so much thereof as may be necessary, is hereby annually appropriated to pay the salary of the chief of the bureau of industrial statistics, and the expenses incident to the execution of the duties of his office; but no part of said expenses shall be paid until the same shall have been approved by the governor, and the said official shall annually return to the comptroller of the treasury the detailed statement of said expenses, and shall also print the same in the book of statistics.

Approved April 8, 1902.
Chapter 412.-Miners' cooperative insurance fund.
Sixwion 1. Four new sections are hereby enacted and added to article number 1 of the Code of Public Local Laws, said sections to follow after section 195 of said article number 1, and to be designated as sections 195A, 195B, 195C and 195D, respectively; and four new sections are hereby added to article 12 of the Code of Public Local Laws, sail sections to follow after section 149 of said article number 12, and to be designated as sections $149 \mathrm{~A}, 149 \mathrm{~B}, 149 \mathrm{C}$, 149D, respectively; said sections, as to both Allegany and Garrett counties, to read as follows:
Section 195A of article 1 and section 149A of article 12: Any corporation, partnership, association, individual, individuals, engaged in the business of owning or conducting any coal mines, clay mines in Allegany or Garrett counties, whether such owner or owners, operator or operators be residents of the State of Maryland or not, employing persons in the operation of mining coal or clay, shall be liable in law to any employee engaged in such occupation or to his legal representatives, in case of death, for the damage arising and flowing from any injury received by said employee through the negligence of said owner or operator or from the negligence of any agent or agents, employee or employees, and if the negligence causing such injury be found to consist of the joint or collective negligence of both the employer his agent or agents, employee or employees, on the one hand, and of the negligence of the injured employee on the other hand, then it shall be the duty of the jury, or of the court sitting as a jury, to determine and ascertain as near as may be the proportion of such negligence of which each has been guilty, and having ascertained and determined such proportions of negligence causing the injury, it shall be the duty of the jury, or of the court sitting as a jury, to apportion the damages arising from said injury in like proportion or degree and award to the plaintiff or plaintiffs the proportion of damages suffered which it shall have been determined was the proportion of the defendant or defendants' negligence contributing to the injury complained of.
Section 195B of article 1 and section 149B of article 12: Provided, That no employer, owner or operator shall be liable under the aforegoing section of this act if the said employer, owner or operator shall pay annually in advance in monthly installments, to the insurance commissioner of the State of Maryland, on the first Monday in each month, the followng sums of money, respectively, one-half of which sums may be deducted by such owner, employer or operator from the wages of their employees, and the employer shall inform their [his] employees of the provisions of this section, and make the same a condition of their employment, to wit, as follows: Any coal
mine or clay mine employer or employers shall pay said insurance commissioner the annual sum of one dollar and eighty cents for each and every person employed on its pay roll in the State of Maryland: Provided, however, That no employer liable under the preceding section of this act shall be entitled to take advantage of this section of this act and its provisions, unless the said party shall on the first Monday of each month make a report under oath to the insurance commissioner aforesaid, stating the number of persons actually employed in Maryland, and on its pay roll during the preceding month, and the estimated number to be employed during the month of the report, and shall pay the monthly installment above required.

Section 195c of article 1 and section 149c of article 12. It is hereby made the duty of the insurance commissioner of Maryland to receive and safe custody keep of all such sums of money or insurance premium as may be paid to him under the provisions of this act, and to keep such moneys in a distinct fund free from all other moneys which may come to him, and the bond of said insurance commissioner shall be liable for all moneys which come into his hands, under the provisions of this act, and to keep accurate account of such moneys and the number of accidents in each occupation giving rise to any claims against the same, and in the event of the death of any employee insured under the second section of this act who shall have come to his or her death in the course of his or her employment and from cases arising out of such employment covered by this act: Proided, That such death shall not have occurred at a period longer than one year from the date of the injury, then the State insurance commissioner, upon being satisfied by adequate evidence of such death, shall pay to the legal representative or unto the widow or children or husband of the deceased as the said insurance commissioner shall deem wisest for the defendants, if there be any, the full sum of one thousand dollars, and shall pay such indemnification for no other reason or cause whatsoever.

Section 195D of article 1 and section 149D of article 12: The said insurance commissioner shall report in January of each year to the governor the experience of this function of this department and keep proper statistics of the operation of the same, and shall have power to regulate from year to year the amount per capita required from each employer for each employee engaged in the occupation above described, and said insurance commissioner shall have plenary power to prescribe the notice of accident, the character of proof thereof and the proof of death, and the character and specific requirements of the monthly report herein provided for, and to make full regulations for the government of this function of this department, and shall receive from the annual receipts of such insurance premiums one per centum for the payment of such extra services as $m$ - e required in the administration of the duties imposed by this act. The word empooyee as used in this act shall be construed to mean every person employed by the employer in such employment working in the State of Maryland.

Approved April 8, 1902.
Chayter 418.-Manual training.
Section 1. Two new sections, to be numbered 118A and 118b, respectively, are hereby added to chapter 20 of article 77 of the Code of Public General Laws, as enacted by chapter 273 of the acts of 1898, said new sections to follow immediately after section 118 of said article, as arranged in the supplement to said code, so as to read as follows:
$\qquad$

*     * 

118s. The several boards of county school commissioners are hereby authorized to establish manual training schools and departments of manual training in connection with such number of graded or high schools in their respective counties as they shall deem expedient, and to distribute the money appropriated by this article equitably among the manual training schools and departments of manual training so established, to theend thatinstruction in such branch may not berestricted toone locality in such county, but extended, as far as practicable, to the whole of such county: Provided, That the instruction to begiven in such schools or departments shall in all cases conform to the course or outline of such work prescribed or to be prescribed by the State board of education: And provided, That no part of the money appropriated by this article for manual training shall be used for any other purpose.

Approved April 8, 1902.

## Chapter 506.-Employment of children.

Section 1. The following sections are hereby added to article 27 of the Code of Public General Laws, to read as follows:
Section 141A. No person shall employ a minor under sixteen years of age in handling intoxicating liquors, or in handling packages containing intoxicating liquors, in
any brewery or bottling establishment where intoxicating liquors are prepared for sale or offered for sale.

Sectron 141b. Whoever violates the provisions of this act shall be guilty of a misdemeanor, and on conviction thereof shall, in the discretion of the court, be fined a sum not less than ten dollars nor more than one hundred dollars, or be imprisoned in jail for not less than five nor more than thirty days, in default of payment of said fine.

Approved April 8, 1902.

## Chapter 566.-Employment of children-Age limit.

Section 1. Section 4 of article 100 of the Code of Public General Laws is hereby repealed and reenacted, to read as follows:

Section 4. No proprietor or owner of any mill or factory in this State, other than establishments for manufacturing canned goods, or manager, agent or foreman, or other person in charge thereof shall, after the first day of October, in the year eighteen hundred and ninety-four, employ or retain in employment in any such mill or factory, any person or persons under fourteen years of age, unless said child is the only support of a widowed mother, invalid father, or is solely dependent upon such employment for self-support; and if any such proprietor or owner of any such mill or factory, or manager, agent, foreman or other person in charge thereof shall willfully violate the provisions of this section, he shall be guilty of a misdemeanor, and on conviction thereof shall be fined not less than one hundred dollars for each and every offense so committed, and pay the cost of prosecution, one-half to go to the informer and the other half to the school fund of the county or city in which the offense shall have been committed: Provided, That nothing in this section shall apply to Frederick, Washington, Queen Anne's, Carroll, Wicomico, Caroline, Kent, Somerset, Cecil, Calvert, St. Mary's, Prince George's, Howard, Baltimore, Worcester, Garrett, Talbot, Montgomery and Harford counties.

Approved April 11, 1902.

## Chapter 589.-Payment of wages-Monthly pay day.

Section 1. From and after a period of one month, subsequent to the first day of April, in the year nineteen hundred and two, every association or corporation doing business in the State of Maryland employing wage-workers, whether skilled or ordinary laborers, engaged in manual or clerical work, in the business of mining, manufacturing, operating a steam or electric railroad, street railway, telegraph, telephone or express company, shall make payment in lawful money of the United States, to said employees, laborers and wage-workers, or to their authorized agents, not later than the tenth day of each and every month, the full amount of wages or earnings due the said employees, laborers and wage-workers for the previous month's services, at their respective places of employment or at any intervals or periods less than the time named in this act.

SEc. 2. In case any of said corporations or associations mentioned in section 1 of this act, and doing business as aforesaid, or any of their officers shall refuse to make payment at the times set forth in section 1 of this act, to their wage-workers, laborers or other employees the wages due them, or any of them, said association, corporation or officer so refusing shall be guilty of a misdemeanor, and be liable to indictment therefor, and upon conviction, shall be fined a sum not exceeding two hundred dollars for each offense: Provided, Nothing in this act shall interfere with the local law providing for two weeks' pay in Allegany County.

Approved April 11, 1902.

## MASSACHUSETTIS.

## ACTS OF 1902.

Chapter 183.-Employment of children.
Section 1. Section thirty-five of chapter one hundred and six of the Revised Laws is hereby amended * ${ }^{*} *$ so as to read as follows:

Section 35. While a public evening school is maintained in the city or town in which any minor who is over fourteen years of age and who does not have a certificate signed by the superintendent of schools, or by the school committee, or by some person acting under authority thereof, certifying to the minor's ability to read at sight and write legibly simple sentences in the English language resides, no person shall employ him and no parent, guardian or custodian shall permit him to be employed
unless he is a regular attendant at such evening school or at a day school; but, upon presentation by such minor of a certificate signed by a registered practicing physician and satisfactory to the superintendent of schools, or, if there isnosuch superintendent, to the school committee, showing that his physical condition would render such attendance in addition to daily labor prejudicial to his health, said superintendent or school committee shall issue a permit authorizing the employment of such minor for such period as said superintendent or school committee may determine. Said superintendent or school committee, or teachers acting under authority thereof, may excuse any absence from such evening school which arises from justifiable cause. Any minor not holding the certificate described above shall furnish to his employer a record of his school attendance each week while the evening school isin session, and when this record shows unexcused absences from the sessions his attendance shall be deemed irregular according to this act. Whoever employs a minor in violation of the provisions of this section shall forfeit not more than one hundred dollars for each offense to the use of the evening schools of such city or town. A parent, guardian or custodian who permits a minor under his control to be employed in violation of the provisions of this section shall forfeit not more than twenty dollars to the use of the evening schools of such city or town.

Sec. 2. This act shall take effect upon its passage.
Approved March 13, 1902.
Chapter 322.-Pure drinking water to be supplied employees during working hours.
Section 1, All manufacturing establishments in this Commonwealth shall provide fresh and pure drinking water, to which their employees shall have access during working hours.

SEc. 2. Any corporation, association, firm or person owning, in whole or in part, managing, controlling or superintendin ${ }_{5}$ any manufacturing establishment in which the provision of this act is violated shall, upon complaint of the board of health of the city or town, or of the selectmen of the town in which the establishment is located, be liable to a fine of one huadred dollars for each offense.

Approved April 18, 1902.

## Chapter 350.-Employment of children-Elevators.

Section 1. All elevators for the carriage of freight or passengers, running at a speed of more than one hundred feet a minute, shall be operated by competent persons not less than eighteen years of age, and no other person shall operate or have the care or charge of such an elevator.

SEc. 2. No elevator for the carriage of freight or passengers shall be operated by or laced in charge of any person under sixteen years of age.
Sec. 3. Any person, firm or corporation violating any provision of this act by operating or causing an elevator to be operated or to be taken care or charge of in any manner contrary to the provisions of this act shall be punished by a fine of not less than twenty-five nor more than one hundred dollars for each offense.

SEC. 4. So much of any act as is inconsistent herewith is hereby repealed.
Approved April 29, 1902.

## Chapter 384.-Time to vote to be allowed employees.

Section 1. Section five of chapter eleven of the Revised Laws is hereby amended * * * so as to read as follows:

Section 5. No person entitled to vote at an election shall, upon the day of any such election, be employed in any manufacturing, mechanical or mercantile establishment, except such as may lawfully conduct its business on Sunday, during the period of two hours after the opening of the polls in the voting precinct or town in which he is entitled to vote.

Sec. 2. This act shall take effect upon its passage.
Approved May 8, 1902.

> Chapter 403.-Regulation, inspection, etc., of bakeries.

Section 1. Uhapter seventy-five of the Revised Laws is hereby amended by striking out section thirty-four and inserting in place thereof the following new section:
Section 34. The board of health of a city or town may make such further regulations as the public health may require, and shall cause such regulations, together with the six preceding sections, to be printed and posted in all such bakeries and places of business.

Sec. 2. This act shall take effect upon its passage.
Approved May 21, 1902.

## Chapter 430.-Unauthorized wearing of badges, etc., of labor organizations.

Whoever, not being a member of a labor union, willfully wears or uses the insignia, distinctive ribbons, or membership rosette or button thereof, for the purpose of representing that he is a member thereof, if such insignia, distinctive ribbons or membership rosette or button have been registered in the office of the secretary of the Commonwealth, shall be punished by a fine of not more than twenty dollars or by imprisonment for not more than thirty days, or by both such fine and imprisonment.
Approved June 3, 1902.

## Chapter 435.-Employment of women and children-Hours of labor.

SEction 1. Section twenty-four of chapter one hundred and six of the Revised Laws is hereby amended * * * so as to read as follows:
Section 24. No child under eighteen years of age and no woman shall be employed in laboring in a manufacturing or mechanical establishment more than ten hours in any one day, except as hereinafter provided in this section, unless a different apportionment of the hours of labor is made for the sole purpose of making a shorter day's work for one day of the week; and in no case shall the hours of labor exceed fiftyeight in a week. Every employer shall post in a conspicuous place in every room in which such persons are employed a printed notice stating the number of hours' work required of them on each day of the week, the hours of commencing and stopping work, and the hours when the time allowed for meals begins and ends or, in the case of establishments exempted from the provisions of sections thirty-six and thirty-seven, the time, if any, allowed for meals. The printed forms of such notices shall be provided by the chief of the district police, after approval by the attorney-general. The employment of such person at any time other than as stated in said printed notice shall be deemed a violation of the provisions of this section unless it appears that such employment was to make up time lost on a previous day of the same week in consequence of the stopping of machinery upon which he was employed or dependent for employment; but no stopping of machinery for less than thirty consecutive minutes shall justify such overtime employment, nor shall such overtime employment be authorized until a written report of the day and hour of its occurrence and its duration is sent to the chief of the district police or to an inspector of factories and public buildings.

Sec. 2. This act shall take effect upon its passage.
Approved June 3, 1902.
Chapter 446.-Boards of conciliation and arbitration.
Section 1. Section two of chapter one hundred and six of the Revised Laws is hereby amended * * * so as to read as follows:

Section 2. If it appears to the mayor of a city or to the selectmen of a town that a strike or lockout described in this section is seriously threatened or actually occurs, he or they shall at once notify the State board; and such notification may be given by the employer or by the employees concerned in the strike or lockout. If, when the State board has knowledge that a strike or lockout, which involves an employer and his present or former employees, is seriously threatened or has actually occurred, such employer, at that time, is employing, or upon the occurrence of the strike or lockout, was employing, not less than twenty-five persons in the same general line of business in any city or town in the Commonwealth, the State board shall, as soon as may be, communicate with such employer and employees and endeavor by mediation to obtain an amicable settlement or endeavor to persuade them, if a strike or lockout has not actually occurred or is not then continuing, to submit the controversy to a local board of conciliation and arbitration or to the State board. Said State board shall investigate the cause of the controversy and ascertain which party thereto is mainly responsible or blameworthy for the existence or continuance of the same, and may make and publish a report finding such cause and assigning such responsibility or blame. The board shall have the same powers for the foregoing purposes as are given to it by the provisions of the following section.

Sec. 2. This act shall take effect upon its passage.
Approved June 5, 1902.

## Chapter 450.-Payment of wages.

Section 1. Section sixty-two of chapter one hundred and six of the Revised Laws is hereby amended *** so as to read as follows:

Section 62. Every manufacturing, mining or quarrying, mercantile, railroad, street railway, telegraph or telephone corporation, every incorporated express company or
water company, aur every contractor, person or partnership engaged in any manufacturing business, in any of the building trades, in quarries or mines, upon public: works or in the construction or repair of railroads, street railways, roads, bridges or sewers or of gas, water or electric light works, pipes or lines, shall pay weekly each employee engaged in his or its business the wages earned by him to within six days of the date of said payment, but any employee leaving his or her employment, or being discharged from such employment, shall be paid in full on the following regular pay day; and the Commonwealth, its officers, boards and commissions shall so pay every mechanic, workman and laborer who is employed by it or them, and every city shall so pay every employee who is engaged in its business, unless such mechanic, workman, laborer or employee requests in writing to be paid in a different manner; and every town and county shall so pay each employee in its businews if so required by him; but an employee who is absent from his regular place of labur at a time fixed for payment shall be paid thereafter on demand. The provisions of this section shall not apply to an employee of a cooperative corporation or association if he is a stockholder therein unless he requests such corporation to pay him weekly. The board of railroad commissioners, after a hearing, may exempt any railroad corporation from paying weekly any of its employees if it appears to the board that such employees prefer less frequent payments, and that their interests and the interests of the public will not suffer thereby. No corporation, contractor, person or partnership shail by a special contract with an employee or by any other means exempt himself or itself from the provisions of this and the following section. Whoever violates the provisions of this section shall be punished by a fine of not less than ten nor more than fifty dollars.

Sfe. 2. This act shall take effect upon its passage.
Approved June 5, 1902.

## Chapter 494.-Eight-hour laws-Commission to promote uniformity of legislatiom.

Section 1. The governor shall, with the advice of the council, appoint within thirty days after the passage of this act, two persons, one representing the interests of the working classes, and one representing the interests of manufacturers, as additional members of the commission appointed under the provisions of chapter four hundren and five of the acts of the year eighteen hundred and ninety-one and of chapter three hundred and eleven of the acts of the year eighteen hundred and ninety-three and of chapter two hundr ${ }^{-3}$ and thirty-two of the acts of the year eighteen hundred and ninety-seven. The said commissioners shall examine the subjects and promote the objects specified in said acts, and shall also endeavor to promote miformity of legislation making eight hours a legal day's labor throughout the United States.

SEC. 3. This act shall take effect upon its passage.
Approved June 19, 1902.

## NEW YORK.

## ACTS OF 1902.

> Chapter 81.-Leave with pay to be granted veterans on Memorial Day.

Section 1. Section one of chapter two hundred and twenty of the laws of eighteen hundred and ninety-five ${ }^{*}{ }_{*}$ is hereby amended to read as follows:

Section 1. It shall be the duty of the head of every public department and of every court of the State of New York, of every superintendent or foreman on the public: works of said State, of the county officers of the several counties of said State, and of the head of every department, burean and office in the government of the various cities and villages in this State, to give leave of absence with pay for the twenty-four hours of the thirtieth day of May, or such other day as may, according to law, be observed as Memorial Day, to every person in the service of the State, the county, the city or village, as the case may be, who served in the Army or the Navy of the United States in the war of the rebellion, or who served in the Regular or Volunteer Army or the Navy or the Marine Corps of the United States during the war with Spain or during the insurrection in the Philippine Islands, and who was honorably discharged from such service. A refusal to give such leave of absence to one entitled thereto shall be neglect of duty.

Sec. 2. This act shall take effect immediately.
Berame a law, March 5, 1902.

## Chapter 88.-Trade-marks of trade unions.

Section 1. Section sixteen of chapter four hundred and fifteen of the laws of eighteen hundred and ninety-seven ${ }^{*}{ }^{*}{ }^{*}$ is hereby amended to read as follows:

Section 16. A person manufacturing, using, displaying or keeping for sale a counterfeit or colorable imitation of a device so adopted and filed, or goods bearing the same, or who shall use or display a genuine device, so adopted and filed, without authority from or in a manner not authorized by the owner thereof, shall be subject to a penalty of two hundred dollars, to be recovered in an action brought in a court of competent jurisdiction by the person, union or association aggrieved; onehalf of which penalty, when recovered shall be paid to the plaintiff and one-half to the overseer of the poor of the town or to an officer having like power of the city, wherein the person aggrieved resides, or union or association is located, for the benefit of the poor of such town or city. After filing copies of such device, such union or association may also maintain an action to enjoin the manufacture, use, display or sale of counterfeit or colorable imitations of such device, or of goods bearing the same, or the unauthorized use or display of such device, or of goods bearing the same, and the court may restrain such wrongful manufacture, use, display or sale, and every unauthorized use or display by others of the genuine devices so registered and filed, if such use or display is not authorized by the owner thereof, and may award to the plaintiff such damages resulting from such wrongful manufacture, use, display or sale as may be proved, together with the profits derived therefrom.
Sec. 2. This act shall take effect immediately.
Became a law, March 5, 1902.

## Chapter 270.-Civil service law-Preference of veterans.

Section 1. Sections * * * twenty and twenty-one of chapter three hundred and seventy of the laws of eighteen hundred and ninety-nine *** are hereby amended to read as follows:

Section 20. In every public department and upon all public works of the State of New York and of the cities, counties, towns and villages thereof, honorably discharged soldiers, sailors and marines from the Army and Navy of the United States in the late civil war who are citizens and residents of this State, shall be entitled to preference in appointment and promotion without regard to their standing on any list from which such appointment or promotion may be made to all competitive and noncompetitive positions provided their qualifications and fitness shall have been ascertained as provided in this act and the rules and regulations in pursuance thereof; and the persons thus preferred shall not be disqualified from holding any position in the civil service on account of his age or by reason of any physical disability provided such age or disability does not render him incompetent to perform the duties of the position applied for. Whenever any list of eligible persons, prepared under authority of this act, shall contain the names of honorably discharged soldiers, sailors and marines entitled to preference as aforesaid any reference in this act or in the rules and regulations in pursuance thereof to the persons standing highest on such list shall be deemed to indicate those standing highest of those entitled to preference by the provisions of this section and such person shall be given preference on any list of registered applicants for employment in the labor service, in accordance with the dates of their several applications as though such applications had been filed prior to those of any persons on such lists not entitled to the preference provided by this section. A refusal to allow the preference provided for in this and the next succeeding section to any honorably discharged soldier, sailor or marine or a reduction of his compensation (intended to bring about his resignation) shall be deemed a misdemeanor, and such honorably discharged soldier, sailor or marine shall have a right of action therefor in any court of competent jurisdiction for damages, and also a remedy by mandamus for righting the wrong.

Section 21. Every person whose rights may be in any way prejudiced contrary to any of the provisions of this section shall be entitled to a writ of mandamus to remedy the wrong. No person holding a position by appointment or employment in the State of New York or in the several cities, counties, towns or villages thereof, who is an honorably discharged soldier, sailor or marine, having served as such in the Union Army or Navy during the war of the rebellion and who is an honorably discharged soldier, sailor or marine, having served as such in the Volunteer Army or Navy of the United States during the Spanish war, or who shall have served the term required by law in the volunteer fire department of any city, town or village in the State, or who shall have been a member thereof at the time of disbandment of such volunteer fire department, shall be removed from such position or employment except for incompetency or misconduct shown after a hearing upon due notice, upon
stated charges and with the right to such employee or appointee to a review by a writ of certiorari. If the position so held by any such honorably discharged soldier, sailor or marine, or volunteer fireman shall become unnecessary or be abolished for reason of economy or otherwise, the said honorably discharged soldier, sailor or marine, or volunteer fireman holding the same shall not be discharged from the public service, but shall be transferred to any branch of the said service for duty in such position as he may be fitted to fill receiving the same compensation therefor, and it is hereby made the duty of all persons clothed with power of appointment to make such transfer effective. The burden of proving incompetency or misconduct shall be upon the person alleging the same. Nothing in this section shall be construed to apply to the position of private secretary, cashier or deputy of any official or department.
Scc. 2. This act shall take effect immediately.
Became a law, March 29, 1902.
Chapter 289.—Earnings of married women.
Section 1. Chapter two hundred and seventy-two of the laws of eighteen hundred and ninety-six * * is hereby amended by adding the following section to article three:

Section 30. A married woman shall have a cause of action in her own sole and separate right for all wages, salary, profits, compensation or other remuneration for which she may render work, labor or services, or which may be derived from any trade, business or occupation carried on by her, and her husband shall have no right or action therefor, unless she, or he, with her knowledge or consent, has otherwise expressly agreed with the person obligated to pay such wages, profits, compensation or other remuneration. In any action or proceeding in which a married woman or her husband shall seek to recover wages, salary, profits, compensation or other remuneration for which such married woman has rendered work, labor, or services, or whick was derived from any trade, business or occupation carried on by her or in which the loss of such wages, salary, profits, compensation or other remuneration shall be an item of damage claimed by a married woman or her husband, the presumption of law in all such cases shall be that such married woman is alone entitled thereto, unless the contrary expressly appears.

Sec. 2. The foregoing section shall not affect any right, cause of action or defense existing before the date when this act shall take effect.

Sec. 3. This act shall take effect immediately.
Became a law, April 2, 1902.
Chapter 390.-Joint corporations of labor and other organizations for building halls, etc.
Section 2. Section seven of chapter three hundred and seventy-seven of the laws of eighteen hundred and ninety-six $* * *$ is hereby amended so as to read as follows:

Section 7. * * * Any number of trades unions, trades assemblies, trades associations or labor organizations, * * * may unite in forming a corporation for the purpose of acquiring, constituting, maintaining and managing a hall, temple or other building and creating, collecting and maintaining, a library for the use of the bodies uniting to form such corporation. * * *
Sec. 3. This act shall take effect immediately.
Became a law, April 7, 1902.
Chapter 454.-Employment of labor on public works-Only citizens to be employed.
SEction 1. Section thirteen of chapter four hundred and fifteen of the laws of eighteen hundred and ninety-seven ${ }^{*}{ }^{*}{ }^{*}$ is hereby amended to read as follows:
Section 13. In the construction of public works by the State or a municipality, or by persons contracting with the State or such municipality, only citizens of the United States shall be employed; and in all cases where laborers are employed on any such public works, preference shall be given citizens of the State of New York. In each contract for the construction of public works a provision shall be inserted, to the effect that if the provisions of this section are not complied with, the contract shall be void. On and after May first, nineteen hundred and two, all boards, officers, agents or employees of cities of the first class of the State, having the power to enter into contracts which provide for the expenditure of public money on public works shall file in the office of the commissioner of labor the names and addresses of
all contractors holding contracts with said cities of the State. Upon the letting of new contracts the names and addresses of such new contractors shall likewise be filed. Upon the demand of the commissioner of labor a contractor shall furnish a list of the names and addresses of all subcontractors in his employ. Each contractor performing work for any city of the first class, shall keep a list of his employees, in which it shall be set forth whether they are naturalized or native born citizens of the United States, together with, in case of naturalizaton, the date of naturalization and the name of the court where such naturalization was granted. Such lists and records shall be open to the inspection of the commissioner of labor. A violation of this section shall constitute a misdemeanor and shall be punishable by a fine of not less than fifty dollars nor more than five hundred dollars, or by imprisonment for not less than thirty nor more than ninety days, or by both such fine and imprisonment.
SEc. 2. This act shall take effect immediately.
Became a law, April 10, 1902.
Chapter 580.-Municipal court of New York City-Suits for wages due employees-Free summons in certain cases.

Section 44. When an action is brought by an employee against an employer for services performed by such employee, male or female, the clerk of the said municipal court in the district in which the action is brought, shall issue, a free summons when the plaintiff's demand is less than fifty dollars and the plaintiff is a resident of the city of New York, and proof by the plaintiff's own affidavit that he has a good and meritorious cause of action and of the nature of such action and of said plaintiff's residence, and whether previous application therefor has been made, shall be duly presented to and filed with the clerk of the municipal court where such action shall be brought and he shall not demand or receive any fee whatsoever from the plaintiff or his agents or attorneys in such action, unless the plaintiff shall demand a trial jury, in which case the plaintiff must pay to the clerk of the municipal court where such action shall be pending the sum of four dollars and fifty cents.
Became a law, April 14, 1902.
Cfapter 580.-Municipal court of New York City—Judgment for wages-Execution.
Section 274. In an action, brought in the municipal court, by a journeyman, laborer, or other employee whose employment answered to the general description of wage-earner, for services rendered or wages earned in such capacity, if the plaintiff recovers a judgment for a sum not exceeding fifty dollars, exclusive of costs, and the action shall have been brought within one month after the cause of action accrued, (ic) property of the defendant is exempt from levy and sale by virtue of an execution :çainst property, issued thereupon; and, if such an execution is returned wholly or partly unsatisfied, the clerk must, upon the application of the plaintiff, issue an 'xecution against the person of the defendant for the sum remaining uncollected, if the indorsement required by this act to the effect that defendant was liable to arrest was complied with. A defendant arrested by virtue of an execution so issued against his person, must be actually confined in the jail, and is not entitled to the liberties thereof; but he must be discharged after having been so confined for fifteen days. After his discharge another execution against his person can not be issued upon the judgment, but the judgment creditor may enforce the judgment against property as if the execution, from which the judgment debtor is discharged, has been returned, without his being taken.
Became a law, April 14, 1902.

## Chapter 580.-Municipal court of New York City-Judgment for wages due female employees-Costs.

Section 340. In an action brought to recover a sum of money for wages earned by a female employee, other than a domestic servant; or for material furnished by such an employee, in the course of her employment, or in or about the subject-matter thereof, or for both, the plaintiff, if entitled to costs, recovers the sum of ten dollars as costs, in addition to the costs allowed in this court, unless the amount of damages recovered is less than ten dollars; in which case, the plaintiff recovers the sum of five dollars as such additional costs. When the employee is the plaintiff in such an action, she is entitled upon a settlement thereof, to the full amount of costs, which she would have recovered, if judgment had been rendered in her favor, for the sum received by her upon the settlement.

Became a law, April 14, 1902.

Chapter 580.-Municipal court of New York City—Suits for wages due employeesClerks' fees remitted in certain cases.

Section 348. When the action is brought by an employee against an employer for services performed by such employee, male or female, the clerks of this court shall not demand or receive any fees whatsoever from the plaintiff or his agents or attorneys in such action, if the plaintiff shall present proof by his own affidavit that his demand is less than fifty dollars, that he is a resident of the city of New York, that he has a good and meritorious cause of action against the defendant, and the nature thereof; that he has made either a written or a personal demand upon the defendant or his agent or representative, for payment thereof, and that payment was refused. Except that if the plaintiff shall demand a trial by jury, he must pay to the clerk the fees therefor prescribed in this act.

Became a law, April 14, 1902.
Chapter 588.-Hours of labor-New York City reservoir.
Section 1. The aqueduct commissioners, provided for and holding office under and pursuant to the provisions of an act of the legislature of the State of New York, * * * said act being chapter four hundred and ninety of the laws of eighteen hundred and eighty-three, and its amendments, are hereby authorized and empowered to agree with any person, firm or corporation with whom they have contracted or may hereafter contract, upon such terms and conditions as shall in their judgment and discretion, be for the best interests of the city of New York, that eight hours shall constitute a day's work for all laborers employed by said person, firm or corporation in the performance of his or its contract and that no laborer employed in the performance of any such contract shall be required, permitted, or allowed to work more than eight hours. No agreement made under the provisions of this act shall be valid or binding until the same has been approved by the board of eatimate and apportionment of the city of New York.

Sec. 2. This act shall take effect immediately.
Became a law, April 14, 1902.

## Chapter 600.-Liability of employers for injuries to employees.

Section 1. Where, after this act takes effect, personal injury is caused to an employee who is himself in the exercise of due care and diligence at the time:

1. By reason of any defect in the condition of the ways, works or machinery connected with or used in the business of the employer which arose from or had not been discovered or remedied owing to the negligence of the employer or of any person in the service of the employer and entrusted by him with the duty of seeing that the ways, works or machinery were in proper condition;
2. By reason of the negligence of any person in the service of the employer entrusted with and exercising superintendence whose sole or principal duty is that of superintendence, or in the absence of such superintendent, of any person acting as superintendent with the authority or consent of such employer; the employee, or in case the injury results in death, the executor or administrator of a deceased employee who has left him surviving a husband, wife or next of kin, shall have the same right of compensation and remedies against the employer as if the employee had not been an employee of nor in the service of the employer nor engaged in his work. The provisions of law relating to actions for causing death by negligence, so far as the same are consistent with this act, shall apply to an action brought by an executor or administrator of a deceased employee suing under the provisions of this act.

Sec. 2. No action for recovery of compensation for injury or death under this act shall be maintained unless notice of the time, place and cause of the injury is given to the employer within one hundred and twenty days and the action is commenced within one year after the occurrence of the accident causing the injury or death. The notice required by this section shall be in writing and signed by the person injured or by some one in his behalf, but if from physical or mental incapacity it is impossible for the person injured to give notice within the time provided in said section, he may give the same within ten days after such incapacity is removed. In case of his death without having given such notice, his executor or administrator may give such notice within sixty days after his appointment, but no notice under the provisions of this section shall be deemed to be invalid or insufficient solely by reason of any inaccuracy in stating the time, place or cause of the injury if it be shown that there was no intention to mislead and that the party entitled to notice was not in fact misled thereby. The notice required by this section shall be served on the
employer or if there is more than one employer, upon one of such employers, and may be served by delivering the same to or at the residence or place of business of the person on whom it is to be served. The notice may be served by post by letter addressed to the person on whom it is to be served, at his last known place of residence or place of business and if served by post shall be deemed to have been served at the time when the letter containing the same would be delivered in the ordinary course of the post. When the employer is a corporation, notice shall be served by delivering the same or by sending it by post addressed to the office or principal place of business of such corporation.

Sec. 3. An employee by entering upon or continuing in the service of the employer shall be presumed to have assented to the necessary risks of the occupation or employment and no others. The necessary risks of the occupation or employment sball, in all cases arising after this act takes effect be considered as including those risks, and those only, inherent in the nature of the business which remain after the employer has exercised due care in providing for the safety of his employees, and has complied with the laws affecting or regulating such business or occupation for the greater safety of such employees. In an action maintained for the recovery of damages for personal injuries to an employee received after this act takes effect, owing to any cause for which the emplover would otherwise be liable, the fact that the employee continued in the service of the employer in the same place and course of employment after the discovery by such employee, or after he had been informed of, the danger of personal injury therefrom, shall not, as a matter of law, be considered as an assent by such employee to the existence or continuance of such risks of personal injury therefrom, or as negligence contributing to such injury. The question whether the employee understood and assumed the risk of such injury, or was guilty of contributory negligence, by his continuance in the same place and course of employment with knowledge of the risk of injury shall be one of fact, subject to the usual powers of the court in a proper case to set aside a verdict rendered contrary to the evidence. An employee, or his legal representative, shall not be entitled under this act to any right of compensation or remedy against the employer in any case where such employee knew of the defect or negligence which caused the injury and failed, within a reasonable time, to give, or cause to be given, information thereof to the employer, or to some person superior to himself in the service of the employer who had intrusted to him some general superintendence, unless it shall appear on the trial that such defect or negligence was known to such employer, or superior person, prior to such injuries to the employee.
SEC. 4. An employer who shall have contributed to an insurance fund created and maintained for the mutual purpose of indemnifying an employee for personal injuries, for which compensation may be recovered under this act, or to any relief society or benefit fund created under the laws of this State, may prove in mitigation of damages recoverable by an employee under this act such proportion of the pecuniary benefit which has been received by such employee from such fund or society on account of such contribution of employer, as the contribution of such employer to such fund or society bears to the whole contribution thereto.
Sec. 5. Every existing right of action for negligence or to recover damages for injuries resulting in death is continued and nothing in this act contained shall be construed as limiting any such right of action, nor shall the failure to give the notice provided for in section two of this act be a bar to the maintenance of a suit upon any such existing right of action.
Sec. 6. This act shall take effect July first, nineteen hundred and two.
Became a law, April 15, 1902.

## OHIO.

## ACTS OF 1902.

Page 48.-Examination and licensing of stationary engineers.
Section 1. Sections 4364-89l [to] 4364-89w of the Revised Statutes of Ohio [shall] be amended so as to read as follows:
(4364-89l) Section 1. It shall be unlawful for any person to operate a stationary steam boiler or engine in the State of Ohio, of more than thirty (30) horsepower, except boilers and engines under the jurisdiction of the United States, and locomotive boilers and engines, without having been duly licensed so to do as herein provided. And it shall be unlawful for any owner or user of any steam boiler or engine, other than those excepted, to operate or cause to be operated such steam boiler or engine without a duly licensed engineer in charge.
(4364-89m) Section 2. For the purpose of facilitating an efficient and thorough examination of engineers throughout the State of Ohio, and to provide for a more adequate protection of life and property, the State is hereby divided into eight (8) districts, to be designated by the chief examiner.
(4364-89n) Section 3. The governor of the State of Ohio, with and by the advice and consent of the senate, shall appoint one chief examiner of steam engineers, and said chief examiner of steam engineers, with the approval of the governor, shall appoint eight (8) district examiners of steam engineers: Provided, however, That not more than four (4) of said examiners so appointed shall be members of any one of the political parties. The chief examiner and district examiners shall be competent and practical steam engineers, and shall hold their offices for a term of three (3) years from the first day of May, 1902, after their respective appointments, and until their successors are appointed and qualified. The first appointment hereunder shall be made within sixty days from the passage of this act. In case of the resignation, removal or death of the chief examiner, or any district examiner, the vacancy shall be filled in the manner as provided for the original appointment, for the unexpired term only, of the position so made vacant.
(4364-89o) Section 4. Each candidate for chief examiner shall have had not less than ten (10) years' experience as a practical steam engineer, previous to his appointment, and each candidate for district examiner shall have had not less than seven (7) years' experience as a practical steam engineer, previous to his appointment.
(4364-89p) Section 5. The chief examiner and district examiners shall give their whole time and attention to the duties of their offices respectively. The chief examiner shall be located in Columbus, and shall have his office in the statehouse, where shall be kept the records of his office, and for the purpose of keeping such records shall be allowed one clerk at a salary not to exceed $\$ 1,000$ per annum, said clerk to be appointed by the chief examiner, with the approval of the governor, and to give a bond in the sum of $\$ 1,500$. The chief examiner shall issue such instructions, make such rules and regulations for the government of the district examiners, not inconsistent with powers and duties vested in them by law, as shall secure a uniformity of action and proceedings throughout the different districts. The chief examiner shall receive a salary of $\$ 1,800$ per annum, and the district examiners shall each receive a salary of $\$ 1,200$ per annum, which salary and all necessary traveling and office expenses incurred by said examiners in the discharge of their duties, shall be paid out of the treasury of the State from any fund therein not otherwise appropriated, on the warrant of the auditor, on the presentation to him of the proper vouchers. The chief examiner shall give a bond in the sum of $\$ 3,000$, and the said district examiners shall each give a bond in the sum of $\$ 2,000$. All bonds required by this act to be given shall be approved by the governor.
(4364-89q) Section 6 (as amended by act approved April 30, 1902, 95 Ohio Laws, page 333). Any person who desires to act as steam engineer shall make application to the district examiner of steam engineers for a license so to act upon a blank furnished by the examiner; Provided, however, That said applicant shall have had not less than one year's practical experience as a fireman or oiler, and shall successfully pass an examination upon the following subjects: The construction and operation of steam boilers, steam engines and steam pumps, and also hydraulics, under such rules and regulations as may be adopted by the chief examiner. If, upon such examination, the applicant is found proficient in each of said subjects a license shall be granted to him to have charge of and operate stationary steam boilers and engines of the horsepower named in this act. Such license shall continue in force for one year from the date the same is issued, unless after a proper hearing and for sufficient cause it is sooner revoked.
(4364-89r) Section 7. Any person to whom a license is issued under the provisions of this act shall at the expiration of one year from the date thereof be entitled to a renewal thereof for one year, unless, in the opinion of the district examiner of his district such renewal should be refused, in which event such person shall have the right to appeal to the chief examiner provided for in section 9.
(4364-89s) Section 8. The fee for license and examination shall be $\$ 2$ and the fee for renewal of license shall be \$1. All fees collected and received by the district examiners from the issue of licenses and the renewal of the same shall be, on or before the 5th day of each month, remitted to the chief examiner at Columbus, together with a monthly report of the business of their offices. Said chief examiner shall pay into the treasury, to the credit of the general revenue fund, all moneys and fees by him received from the district examiners, and on or before the 10th day of each month, said chief examiner shall file a monthly report with the governor of the business of his office and the amount of money received by him and paid into the State treasury.
(4364-89t) Section 9. Any person dissatisfied with the action of any district examiner in refusing or revoking a license may appeal to the chief examiner, who shall
investigate the action of said district examiner; if, upon such investigation, said chief examiner finds that the district examiner was justified in refusing or revoking such license, he shall sustain the district examiner in his action, but should said chief examiner find that the district examiner was not justified in refusing or revoking such license, he shall order said district examiner to issue a license to the person making the appeal.
(4364-89u) Section 10. It shall be the duty of each district examiner to notify every person operating a boiler or engine in his district mentioned in section 1, and not included in the exceptions therein specified, to apply for a license under this act, and to give such person a reasonable opportunity to take the examination therefor: Provided, That all persons holding license issued to them under the act of the gen(ral assembly of the State of Ohio, passed March 1st, 1900 (94 O. L., 33-36), shall not be required to submit to a further examination during the period covered by such license first issued. But such former license shall evidence the qualifications of such person to operate the kind of steam plant, and for the period as therein designated, unless such license is sooner revoked for cause.
(4364-89v) Section 11. Any owner, user or engineer; who after being notified, as provided in section 10 of this act, violates any of the provisions of this act, shall be fined not more than $\$ 100$ nor less than $\$ 10$. The examiners shall have the authority and are hereby empowered to visit any and all engine rooms or boiler rooms in the State, at all reasonable hours.
(4364-89w) Section 12. It shall be the duty of every engineer to exhibit his license under glass in a conspicuous place in his engine room. Any violation of this section shall be punishable by a fine not exceeding $\$ 5$.
Sec. 3. This act shall take effect and be in force from and after May 1st, 1902.
Passed March 13, 1902.
Page 91.-Protection of miners-Caning and sealing gers or wil wells petssing lhrough mines.
Secrion 1. Section * * * 306-3 * * * of the revised statutes of Ohio [shall] be amended so as to read as follows:
Section 306-3. Whenever any person, firm or corporation sinks any well for gas or oil on lands upon which coal or other mineral is being mined, and which well passes through any mine, it shall be the duty of the person drilling such well to drill the hole to a depth of at least ten feet below the vein of coal or other mineral being mined, when such hole shall be cased and sealed upon the outside of the casing, with suitable material to the level of the coal floor; and each vein of mineral coal being mined, pierced by such well shall be sealed in same manner.

Scc. 2. * * * This act shall take effect and be in force irom and after its passage.

Passed April 3, 1902.
Page 114.-Liability of cmployers for injuries to employpes.
Section 1. An employer shall be responsible in damages for personal injury caused to an employee, who is himself in the exercise of due care and diligence at the time, by reason of any defect in the condition of the machinery or appliances connected with or used in the business of the employer, which arose from, or had not been discovered or remedied owing to the negligence of the employer, or of any person in the service of the employer, intrusted by him with the duty of inspection, repair, or of seeing that the machinery or appliances were in proper condition.

Sec. 2. This act shall take effect and be in force from and after its passage.
Passed April 4, 1902.
Page 209.--Mechanies' liens.
Section 1. Sections 3184, 3185, [3188], 3194, 3195, 3197 and 3200 of the Revised Statutes of the State of Ohio [shali] be amended so as to read as follows:

Section 3184. Every person who shall do or perform any work or labor upon or furnishes machinery or material for constructing, altering, or repairing a boat, or vessel, or other water craft, or for erecting, altering, repairing or removing a house, mill, manufactory, or any furnace or furnace material therein, or other building, appurtenance, fixture, bridge, or other structure, or for digging, drilling, boring, operating, completing or repairing of any gas well, oil well, or any other well, or performs labor in altering, repairing, or constructing any oil derrick, oil tank, oil or gas pipe line, or furnishes tile for the drainage of any lot or land by virtue of a contract, expressed or implied, with the owner, part owner or lessee, of any interest in
real estate or the authorized agent of the owner, part owner, or lessee of any interest in real estate, shall have a lien to secure payments of the same upon such boat, vessel, or other water craft, or upon such house, mill, manufactory, furnace, or other building, or appurtenance, fixture, bridge, or other structure, or upon such gas well, oil well, or any other well, or upon such oil derrick, oil tank, oil or gas pipe line, and upon the material or machinery so furnished, and upon the interest, leasehold or otherwise, of the owner, part owner, or lessee in the lot or land upon which the same may stand, or to which the same may be removed.

Procided, That any person, firm, or corporation furnishing material or performing labor of any kind, entering into the construction of such building, or structure, or appurtenance, boat, vessel, or other water craft, furnace, fixture, bridge, or other structure or upon such gas well, oil well, or any other well, or upon such oil derrick, oil tank, oil or gas pipe line, or tile, may before beginning to perform such labor or furnishing such material or machinery, or at any time thereafter, not to exceed ninety (90) days from the completion of such labor or delivery of such material or machinery, serve upon the owner, part owner, or lessee of the premises, or his agent, a written notice containing an itemized statement of the amount and value of such labor performed, or to be performed, or material or machinery furnished, or to be furnished, containing a description of any promissory notes that have been given by the principal contractor or subcontractor, on account of any such labor, material or machinery, or any part thereof, with all credits and set-offs thereon. The owner, part owner, or lessee shall not be liable to the subcontractor, or material mais, or laborer for any greater amount than he contracted to pay the original contractor, but the risk of all payments made to the original contractor, after such owner, part owner, or lessee, shall have received the notice before mentioned, shall be upon such owner, part owner, or lessee, and no payments made to any contractor after receiving said aforesaid noticeshall defeat any lien of any subcontractor, material men, or laborers.

Section 3185. Such persons, in order to obtain such lien, shall within four months from the time of completion of such labor, or furnishing such machinery, or material, file with the recorder of the county whers the labor was performed, or the machinery or the material furnished, an affidavit couraining an itemized statement of the value and amount of such labor, machinery, or material, and a description of any promissory note or notes given for such labor, machinery or material, or any part thereof, with all credits or offsets thereon, a copy of the contract, if it is in writing, a statement of the amount and times of payments to be made thereunder and a description of the land on which the gas well, oil well, or other wells, are situated, or the land on which the house, mill, furnace, manufactory, or other buildings or appurtenance, fixture, bridge, or other structure may stand, or to which it may be removed, or on which such tile for drainage purposes may have been used; and the same shall be recorded in a separate book to be kept therefor, and shall operate as lien from the date of the first item of the labor performed, or the machinery or material furnished, upon or toward the property designated in section 3184 and the interest of the owner in the lot, or land on which the same may stand, or to which it may be removed, for six years from and after the date and [sic] of the filing of such attested statement. If any action be brought to enforce such lien within that time, the same shall continue in force until the final adjudication thereof; and thereshall be no homestead or other exemption against any lien under the provisions of this chapter.
Section 3188. If several liens be obtained by several persons, upon the same job, in the manner prescribed in the foregoing sections, they shall have no priority among themselves, and a lien of a promissory note described in any statement filed as provided in said sections shall take effect from the date of the first of theitems, included in it; all payments on said liens shall be made pro rata.

Section 3194. The owner, officers, board, agent, or attorney of such owner, board, or officer, upon the receipt of the statement as provided for in section 3184, shall furnish the principal contractor or subcontractor with a copy thereof, within five days after receiving the same, and if such principal or subcontractor fail within five days thereafter to notify, in writing such owner, board, officer, clerk, agent, or attorney, of his intent to dispute such claim, he shall be considered as assenting to the correctness thereof; and thereupon subsequent payments under the contract shall be applied by such owner, his agent or attorney pro rata among the lien holders, and all such payments made by the owner, agent, or attorney, shall be considered as part payment on said contract between the owner or [and] contractor.
Section 3195. Such subcontractor, material men, mechanic, laborer or person so filing his statement with the owner, board, or officer, or authorized clerk, agent or the attorney of such owner, board, officer, a sworn copy thereof, with the county rerorder as provided in sections 3185 and 3187 , shall to the extent of any balance remaining unpaid upon the contract of the owner, board, or officers, with whom
the same was made, have a lien to secure payment of the same, upon the boat, vessel, or other water craft, or upon the house, mill, manufactory, or other building, appurtenance, bridge, or other structure, or of any gas well, oil well or any other well, or upon the oil tank, oil derrick or gas pipe line, in or upon which the same was done or furnished, in the lot or land on which the same may stand, or to which it may be removed, which lien shall date back from the date of the furnishing of the first item of such labor, material, or machinery, and to be subject to the same obligations, with respect to the owner, or his authorized agent, as the lien of a head contractor, in similar cases; and for fling and making any copy of such statement or certificate of the date of such filing, the recorder shall be entitled to the same fees as are provided by law for like services in regard to chattel mortgages.
Section 3197. The owner of property on which a lien has been taken under the foregoing sections may notify in writing the owner of a lien or his agent, or attorney to commence suit thereon; and if he fails to commence the suit within sixty days after receiving such a written notice, the lien shall be null and void; but nothing herein contained shall prevent the claim from being collected as other claims are collected by law.
Section 3200 . If the head contractor disputes any such statement, or estimate of his said subcontractor, or material man, or a subcontractor disputes the statement of any laborer, mechanic, or person furnishing him material so filed and it can not be adjusted between themselves, it shall be submitted to the arbitration of three disinterested persons, one (1) to be chosen by each of the parties, and one (1) by the two thus chosen, and their decision or that of any two of themselves, in the absence of fraud or collusion, be final and conclusive upon the parties.
Sec. 3. This act shall take effect and be in force from and after its passage.
Passed April 18, 1902.

## Page 308.-Commissioner of statistics of labor-Duties-Free public employment offices.

Section 1. Section 308 of the Revised Statutes [shall] be amended so as to read as follows:
Section 308. The commissioner shall have an office in the statehouse which shall be a bureau of labor statistics, and he shall collect, arrange and systematize all statistics relating to the industrial, social, educational and sanitary conditions of the laboring classes, and to the productive industries of the State, including the names of firms, companies, or corporations, where located, capital invested in grounds, buildings and machinery; class and value of goods produced or manufactured; number of days in operation; amount paid yearly for rent, taxes and insurance; amount paid in wages; number of employees, male and female; number engaged in clerical work and manual labor, with detailed classification of the number and sex engaged in each class or occupation, and the average daily wages paid to each. Said commissioner is authorized to appoint special agents to represent the bureau with authority to visit the delinquent firms and collect such statistics, and perform such other duties as may be required, with like power as is conferred by law upon said commissioner; Provided, That the compensation of such agents is paid from the contingent fund of the bureau. Said commissioner is hereby authorized and directed, immediately after the passage of this act, to organize and establish in all cities of the first class, and cities of the first and second grade of the second class in the State of Ohio, a free public employment office, and shall appoint one superintendent for each of said offices to discharge the duties hereinafter set forth. Said superintendents shall cause to be posted in front of their said offices on a sign board, or in a suitable place on the building where such offices are located, the words, "Free public employment office." It shall be the duty of such superintendents to receive all applications for labor of those desiring employment and those desiring to employ labor, and record their names in a book kept for that purpose; designating opposite the name of each applicant the character of employment of labor desired, and the address of such applicant. Each of said superintendents shall be provided with such clerical assistance as in the judgment of the commissioner may appear necessary for properly conducting the duties of their several offices.
No compensation or fee shall, directly or indirectly, be charged to or received from any person or persons seeking employment, or any person or persons desiring to employ labor through any of said offices. Said superintendent shall make a weekly report on Thursday of each week to said commissioner of all persons desiring to employ labor, and the class thereof, and all persons applying for employment through their respective offices, and the character of employment desired by each applicant; also, of all persons securing employment through their respective offices, and the character thereof, and a semiannual report of the expense of maintaining such offices. Said commissioner shall cause to be printed weekly a list of all applicants and the character of employment desired by them, and of those desiring to employ labor, and
the class thereof, received by him from the respective offices aforesaid, and cause a true copy of such list on Monday of each week to be mailed to the superintendent of each of said offices in the State, which said list by the superintendent shall be posted immediately, on receipt thereof, in a conspicuous place in his office, subject to the inspection of all persons desiring employment. Said superintendents shall perform such other duties in the collection of labor statistics as said commissioner shall determine. Any superintendent or clerk, as herein provided, who directly or indirectly charges or receives any compensation from any person whomsoever in securing employment or labor for any other person, or persons, as provided in this act, shall be deemed guilty of a misdemeanor, and be fined in any sum not exceerling fifty dollars and imprisoned in the county jail or workhouse not exceeding thirty days. Said superintendent of each of such offices shall receive a salary of twelve hundred dollars per annum, and said clerk shall receive a salary of six hundred dollars per annum, payable monthly. Said salaries shall be paid upon warrant of the auditor of state on the treasurer of state from the State funds through the bureau of labor statistics.

Sec. 3. This act shall take effect and be in force from and after its passage.
Passed April 29, 1902.

## Page 311.-Low-water alarms to be placed on steam boilers.

Smction 1. Sections 4364-89h, 4364-89i, 4364-89j * * * of the Revised Statutes of Ohio [shall] be amended so as to read as follows:

Section 4364-89h. All stationary steam boilers operated or used, or caused to be operated or used, by any person, firm or corporation, within the State of Ohio, shall have upon them a low-pressure safety alarm column, which shall sound an alarm for the purpose of calling the attention of the engineer, fireman or person in charge of such boiler to the depth of water in the boiler before the same reaches the danger point. The said low-water safety alarm column shall be a type capable of being tested easily by the chief examiner of steam engineers, or any of his district examiners, and shall be so connected with the boiler that the low-water alarm will be sounded when there is not less than two inches of water over the highest point of the tubes or crown sheets. The chief examiner of steam engineers, or any of his district examiners, shall be authorized to enter upon the premises of any person, firm or corporation within this State for the purpose of inspecting any stationary steam boiler to ascertain as to whether it is equipped as herein provided.

Section 4364-89i. It shall be unlawful for any person, firm or corporation to operate any stationary steam boiler unless it is equipped with a low-water alarm column after the date herein specified.

Section 4364-89j. Any person, the member of any firm, or the member of any board of directors of any corporation who shall violate any of the provisions of this act, or shall refuse or neglect to comply with any of its provisions, shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be punished by a fine of not less than twenty-five (25) dollars nor more than fifty (50) dollars and costs, or by imprisonment in the county jail of the county where conviction was had for a period of not less than thirty (30) days nor more than ninety (90) days, or both, such fine and imprisonment at the discretion of the court, for each and every offense.

Skc. 3. This act shall take effect and be in force from and after its passage.
Passed April 29, 1902.
Page 338.-Factories and workshops-Inspectors.
Section 1. Section 3 of section $2573 a$ of the Revised Statutes of Ohio [shall] be amended so as to read as follows:

Section $2573 a$, section 3 . The chief inspector and district inspectors shall give their whole time and attention to the duties of their offices respectively; they shall have the power of notary, to administer oaths and to take affidavits in matters connected with the enforcement of the provisions of all laws coming under the jurisdiction of the department of the inspection of workshops, factories and public buildings. It shall be their duty to visit all shops and factories in their respective districts as often as possible, to see that all the provisions and requirements of this act are strictly observed and carried out; they shall carefully inspect the sanitary condition of the same, and it shall be their duty to examine the system of sewerage in connection with said shops and factories, the situations and conditions of water-closets or urinals in and about such shops and factories and also the system of heating, lighting and ventilating all rooms in such shops and factories where persons are employed at daily labor; also as to the means of exit from all such places in case of fire or other disaster; and also all belting, shafting, gearing, elevators, drums and machinery of

$$

every kind and description in and about such shops and factories, and see that the same are not located so as to be dangerous to employees when engaged in their ordinary duties, and that the same so far as practicable, are securely guarded, and that every vat, pan or structure filled with molten metal or hot liquid shall be surrounded with proper safeguards for preventing accident or injury to those employed at or near them; and that all such are in proper sanitary condition, and are adequately provided with means of escape in case of fire or other disaster.

Sec. 2. * * * This act shall take effect and be in force from and after its passage.
Passed May 2, 1902.

## Page 343.-Railroads-Passenger trains not to be run without a full crew.

Section 1. It shall be unlawful for any railroad company doing business in the State of Ohio, to run over its road, or part of its road, outside of the yard limits, any passenger train with five cars or less, carrying passengers, with less than a full passenger crew, consisting of one engineer, one fireman, one conductor and one brakeman; for more than five cars, two brakemen; and on trains of more than two cars the said brakeman shall not be required to perform the duties of the baggage master or express agent while on the road. Provided, That nothing in thissection shall apply to trains picking up a car or cars between terminals in this State, or to trains propelled by electricity.

Sec. 2. Any superintendent, or train master, or their assistants, or other employee of any railroad company doing business in the State of Ohio, who shall send out on the road, or cause to be sent out on the road, outside of yard limits, any passenger train, whose crew consists of a less train crew than that stated in section one of this act, shall be guilty of a misdemeanor, and on conviction before any police judge, mayor or justice of the peace having jurisdiction, shall be fined not less than twenty-five dollars for each offense.

Sec. 3. It shall be the duty of the commissioner of railroads and telegraphs to have this law enforced.
Sec. 4. This act shall take effect and be in force from and after its passage.
Passed May 2, 1902.

Section 1. Section 6134a of the Revised Statutes of Ohio [shall] be amended so as to read as follows:
Section 6134a. Whenever the death of a citizen of this State has been or may be caused by a wrongful act, neglect or default in another State, Territory or foreign country, for which a right to maintain an action and recover damages in respect thereof is given by a statute of such other State, Territory or foreign country, such right of action may be enforced in this State within the time prescribed for the commencement of such action by the statute of such other State, Territory or foreign country.

Sec. 3. This act shall take effect and be in force from and after its passage and shall not apply to pending actions.

Passed May 6, 1902.

> Page 450.-Examination, licensing, etc., of horseshoers.

[^15]Sec. 3. Said board shall organize by choosing one of its members as president, one as secretary, and one as treasurer thereof, who shall give bond in such sum as the board may determine, and said board shall meet at least three times a year and as much oftener and at such times and places as it may deem necessary. The board shall keep a complete record of all its proceedings; and a copy from its records certified by the secretary shall be competent evidence in all courts. A majority of said board shall constitute a quorum, and the proceedings thereof shall at all times be open to public inspection. A special meeting shall be called upon the written request of two members of said board, one being a master horseshoer and the other a journeyman horseshoer, signed by the president and secretary of the said board.

Sec. 4. It shall be the duty of every person who is now exclusively engaged in the business of horseshoeing in the State of Ohio to file a written application stating his or her name and residence with said board of examiners within six months after the passage of this act. Upon receipt of such application it shall be the duty of said board to investigate the facts stated therein, and if said board be satisfied that the facts so stated are true, it shall be the duty of the said board to record the facts stated in the application in a register kept for that purpose; and every person who shall be so registered by the said board as a horseshoer may continue practicing such vocation without incurring the penalties herein provided for, and shall be entitled to be licensed for one year in accordance with the provisions of this act.

SEc. 5. No person whose name is not registered upon the books of said board within the time prescribed in the preceding section shall be permitted to engage in the business of horseshoeing within this State until such person shall have been duly examined by said board and regularly licensed in accordance with the provisions of this act.
Sec. 6. The necessary qualifications for all persons not registered in accordance with the preceding section, within six months after the passage of this act to engage in the exclusive business of horseshoeing, in this State, shall be that the applicant has served a three years' apprenticeship or worked for four years at the business of horseshoeing exclusively and shall pass an examination before the said board of examiners. Said examination shall test the knowledge of the applicant on physiology and workmanship. The examination on physiology shall consist in naming the bones of the hoof and leg of a horse from the shoulder down; also the hind leg, from the hip down, and in pointing out the various divisions of the hoof and leg, and naming them; also the articulation, ligaments, tendons, and muscles attached to the bones; also the circulatory apparatus[,] veins, and arteries, of the hoof and leg and the nerve supply to the same. The examination on workmanship shall include a statement of the causes of the different defects of the foot, and their remedy; also the competency of the applicant to shoe a horse completely, viz: to make the four shoes and to heel and toe the shoes; to dress the hoof, fit the shoes, and to properly nail them on.
Sec. 7. All persons who shall so desire may appear before said board at any of its meetings and be examined with reference to their knowledge of the anatomy of the horse's foot and the mechanical skill necessary in shoeing the same; and if, upon such examination, any such person shall prove himself competent to the satisfaction of said board, said board shall issue to such person a license to practice for one year in this State as a horseshoer, and after the expiration of such year, and from year to year thereafter, any person so licensed, or licensed in accordance with section four (4) of this act, shall be relicensed without examination upon application to said board.
Sxc. 8. The secretary of said board shall issue a temporary license on the recommendation of two members of said board, one of whom shall be a master and the other a journeyman, to any applicant upon the presentation by such applicant of the evidence of the necessary qualifications to practice as horseshoer, and said board may .provide such method of temporary examination as it may deem wise, and such temporary license shall remain in force until the next meeting of said board occurring after the date of such temporary license, and no longer. All licenses issued under this act shall be signed by the secretary and countersigned by the president of said board.
SEC. 9. Any person who shall violate this act by engaging in horseshoeing contrary to the provisions hereof shall be guilty of a misdemeanor and shall be liable to prosecution before any court of competent jurisdiction, and, upon conviction, shall be fined not less than twenty-five dollars (\$25) nor more than two hundred dollars ( $\$ 200$ ) for each and every offense. All fines recovered under this act shall be paid into the common school fund of the county in which said conviction takes place. It shall be the duty of the said board to secure the prosecution of all persons violating the provisions of this act.
Sec. 10. In order to carry out the provisions of this act, and to provide a fund for the maintenance of the said board of examiners, each person, applying to or appearing before said board for examination for license to practice as a horseshoer shall pay
into the treasury of said board a fee of five dollars (\$5), and for registration and license without examination within six months from the passage of this act, in accordance with the provisions of section four (4), one dollar (\$1), and for each yearly renewal of a license fifty cents ( $\$ 0.50$ ); and out of the funds coming into the possession of the said board from fees so charged, the members of said board shall receive as compensation the sum of five dollars (\$5) per diem for each and every day that they are necessarily engaged in the discharge of the duties of their office, and all necessary expenses incurred by said board, but no part of the salary of the said board or other expense shall be paid out of the State treasury. The said secretary of this board to receive the same per diem as the other members when in actual service, and in addition thereto, an annual salary not to exceed two hundred and fifty dollars ( $\$ 250$ ) per year; said sum to be determined by a majority of said board. All moneys received in excess of said per diem allowance and other expenses above provided for, shall be held by the treasurer of said board, and shall not be paid out, used or expended by him except in accordance with a resolution duly passed by said board, and said board shall make an annual report of its proceedings to the governor by the 15th of December of each year showing the names of all horseshoers licensed, their place of business and the moneys received and disbursed by them pursuant to this act. All moneys over five hundred dollars ( $\$ 500$ ) in the hands of the treasurer of the board on making his annual report to the governor, shall be turned over into the State treasury to the credit of the common school fund.
SEc. 11. No person shall present himself for examination as above provided as an applicant for a license until he shall have served a three years' apprenticeship at horseshoeing, nor unless he has attended a course of lectures devoted to the anatomy of horses' feet for one school year in some institution of learning: Provided, however, If no institution affording such instruction shall have been convenient to the applicant's place of residence, the board may, upon finding that the applicant has by other means acquired a satisfactory knowledge of such subject, dispense with said qualification. Applicants who are not found qualified by said board may present themselves again for examination after the expiration of six months.
Sec. 12. It shall be the duty of the secretary of said board to notify all practicing horseshoers in the State after said board has been appointed by the provisions of this act within thirty (30) days after said board shall have been appointed: Provided, That the failure of said secretary to so notify any horseshoer, or the failure of any horseshoer to receive said notice, shall not be a defense to any prosecution begun in accordance with the provisions of this act.
Sec. 13. This act shall take effect and be in force from and after its passage.
Passed May 9, 1902.

## Page 454.—Trade-marks of trade unions.

Section 1. Section 4364-53 of the Revised Statutes of Ohio [shall] be further supplemented by the enactment of section 4364-53c to read as follows:
Section $4364-53 c$. Every such association or union adopting or using a label, trade-mark, term, design, device or form of advertisement, as aforesaid, may proceed by suit to enjoin every unauthorized use, display, or sale of the genuine label, trade-mark, term, design, device or form of advertisement, and all courts of competent jurisdiction shall grant injunctions to restrain such unauthorized use, display or sale, and may award the complainant in any such suit damages resulting from such unauthorized use, display or sale as may be by the said court deemed just and reasonable, and shall require defendants to pay to such association or union, all profits derived from such unauthorized use, display or sale, and such courts shall also order that all such labels, trade-marks, terms, designs, devices or forms of advertisement, in possession or under the control of any defendants not authorized to have same, be delivered to any officer of the court or to the complainant to be destroyed.
Sec. 2. This act shall take effect and be in force from and after its passage.
Passed May 9, 1902.
Page 522.-Railroads—Through freight trains not to be run without a full crew.
Section 1. It shall be unlawful for any railroad company in the State of Ohio, that runs more than four freight trains in every twenty-four hours, to run over their road, or any part thereof, outside of yard limits, any through freight train with less than a full train crew, consisting of five persons; one engineer, one fireman, one conductor, and two brakemen except that a light engine without cars shall have the following crew: One engineer, one fireman, and one conductor or flagman when running a distance of more than twenty-five miles from starting point.

Sec. 2. Any superintendent or his assistants or other officer, or employee of any railroad company doing business in the State of Ohio, who shall send out on the road, or cause to be sent out on any road, that runs more than four freight trains in twenty-four hours, any through freight train whose crew consists of less than those named in section one of this act, shall be guilty of a misdemeanor, and shall be fined not less than twenty-five dollars for each offense, the probate courts of the several counties of this State shall have final jurisdiction of offenses under this act.

Sec. 3. It shall be the duty of the commissioners of railroads and telegraphs to enforce this act.

Sec. 5. This act shall take effect and be in force from and after its passage.
Passed May 10, 1902.

## Page 598.-Employment of children-Age limit-Night work.

Section 1. Sections 4364-66, 6986-7, and 6986-8 of the Revised Statutes of Ohio [shall] be amended so as to read as follows:

Section 4364-66. No person, company or corporation, as aforesaid, shall give employment to any minor, without agreeing with said minor what wages or compensation he or she shall be entitled to receive per day, week, month or year or per piece for work performed; and written evidence of such agreement shall be furnished to such minor, and on or before each pay day a statement of earnings due, and the amount thereof to be paid to him or her on such pay day shall be given to such minor, and no subsequent change shall be made in the wages or compensation of such minor without notice of the same being given to him or her at least twenty-four hours previous to its going into effect, and when such change is effected written agreement shall be given as in the first instance to said minor employee.

Section 6986-7. No child under the age of fourteen years shall be employed in any factory, workshop, mercantile or other establishment, directly or indirectly at any time; and no such child under said age shall be employed in any other manner, whether it be for compensation or otherwise, when the public schools in which district such child resides are in session. It shall be the duty of every person employing minors under the age of eighteen years to keep a register in which shall be recorded the name, birthplace, age and place of residence of every minor employed by him under the age of eighteen years.
Section 6986-8. No boy under sixteen years of age and no girl under eighteen years of age, shall be employed at any work at night time later than seven o'clock in the evening nor earlier than six o'clock in the morning, and no minor under eighteen years of age shall be employed in any of the places named in section 6986-7 of the Revised Statutes of Ohio for a longer period than ten hours in one day, nor more than fifty-five hours in one week; and every such minor under eighteen years of age shall be entitled to no less than thirty minutes for meal time at noon, but such meal time shall not be included as part of the work hours of the day; and every employer shall post in a conspicuous place in every room where such minors are employed a printed notice stating the maximum number of work hours required in one week, and in each day of the week from such minors, such printed notice to be furnished by the chief inspector of workshops and factories, and approved by the attorney general.

Sec. 2. * * * This act shall take effect and be in force from and after its passage.

Passed May 12, 1902.

> Page 608.-Laborers', etc., liens on railroads.

Section 1. Section 3231-1 of the Revised Statutes of Ohio [shall] be amended so as to read as follows:
Section 3231-1. Any person who shall have performed common or mechanical labor upon, or furnished supplies to any railroad, street railroad, or railroad operated wholly or in part by electric motor power, turnpike, plank road, canal or.on any public structure being erected, or on any abutment, pier, culvert or foundation for same, or for any side track, embankment, excavation, or any public work, protection, ballasting, delivering or placing ties, or track-laying, whether the labor is performed for, or the supplies or material is furnished to any company, corporation, contractor, or subcontractor, construction company, or any individual, shall have a first immediate and absolute lien on the whole of the property on which said work is done, and to which said supplies have been contributed, and on any fund arising from the sale thereof or any part thereof under an order of any court, and shall hold the railroad, street railroad or railroad operated wholly or in part by electric motor power, canal, turnpike, plank road, or structure, to the creation or construction of which the said labor or sup-
plies has been contributed, or so much thereof as may have been in whole or in part created by said labor or supplies, to the exclusion of any such railroads, canal, turnpike, plank road, public work or structure, as to operation, occupation or use, until the claim for such labor or supplies is properly adjusted and paid in full. This act shall apply to all work now being constructed, or material now being furnished, and to all work hereafter constructed and material hereafter furnished.
Sic. 3. This act shall take effect and be in force on and after its passage.
Passed May 12, 1902.
Page 615.-Employment of children during session of school-Working children to be enabled to attend school.

Section 1. Sections 4022-1, [4022-2, 4022-3, and 4022-9] of the Revised Statutes of Ohio [shall] be amended so as to read as follows:
Section 4022-1. All parents, guardians and other personswho havecare of children, shall instruct them, or cause them to be instructed in reading, spelling, writing, English grammar, geography and arithmetic. Every parent, guardian or other person having charge of any child between the ages of eight and fourteen years shall send such child to a public, private or parochial school, for the full time that the school attended is in session, which shall in no case be for less than twenty-four weeks, and said attendance shall begin within the first week of the school term, unless the child is excused from such attendance by the superintendent of the public schools, in city or other districts having such superintendent, or by the clerk of the board of education in village, special and township districts not having such superintendent, or by the principal of the private or parochial school, upon satisfactory showing, either that the bodily or mental condition of the child does not permit of its attendance at school, or that the child is being instructed at home by a person qualified

*     *         * to teach the branches named in this section.

Section 4022-2. No child under fourteen years of age shall be employed or be in the employment of any person, company or corporation, during the school term and while the public schools are in session, unless such child shall present to such person, company or corporation an age and schooling certificate herein provided for. An age and schooling certificate shall be approved only by the superintendent of schools, or by a person authorized by him, in city or other districts having such superintendent, or by the clerk of the board of education in village, special and township districts not having such superintendent upon a satisfactory proof of the age of such minor and that he has successfully completed the studies enumerated in section 4022-1 of the Revised Statutes of Ohio; or if between the ages of fourteen and sixteen years, a knowledge of his or herability to read and write legibly the English language.
Every person, company or corporation employing any child under sixteen years of age, shall exact the age and schooling certificate preecribed in this section, as a condition of employment and shall keep the same on file, and shall upon request of the truant officer hereinafter provided for, permit him to examine such age and schooling certificate. Any person, company or corporation, employing any minor contrary to the provisions of this section shall be fined not less than twenty-five nor more than fifty dollars.
Section 4022-3. All minors over the age of fourteen and under the age of sixteen years, who can not read and write the English language shall be required to attend school as provided in section 4022-1 of the Revised Statutes of Ohio and all the provisions of said section shall apply to said minors: Provided, That such attendance shall not be required of such minors after they have secured a certificate from the superintendent of schools, in districts having superintendents or the clerk of the board of education in districts not having superintendents, that they can read and write the English language. No person, company or corporation shall employ any such minor during the time schools are in session, or having such minor in their employ shall immediately cease such employment, upon notice from the truant officer who is hereinafter provided for. Every person, company or corporation violating the provisions of this section shall be fined not less than twenty-five nor more than fifty dollars.
Section 4022-9. When any truant officer is satisfied that any child, compelled to attend school by the provisions of this act, is unable to attend school because absolutely required to work, at home or elsewhere, in order to support itself or help support or care for others legally entitled to its services, who are unable to support or care for themselves, the truant officer shall report the case to the authorities charged with the relief of the poor, and it shall be the duty of said officers to afford such relief as will enable the child to attend school the time each year required under this act. Such child shall not be considered or declared a pauper by reason of the acceptance of the relief herein provided for. * * * In all cases where relief is
necessary it shall be the duty of the board of education to furnish text books free of charge and said board may furnish any further relief it may deem necessary, the expenses incident to furnishing said books and relief to be paid from the contingent funds of the school district.

Sec. 2. * * * This act shall take effect and be in force from and after its passage.

Passed May 12, 1902.

## Page 658.-Safety appliances on railroads-Inspector.

Section 1. Section 3365-23a of the Revised Statutes of Ohio [shall] be supplemented by the enactment of supplemental sections to read as follows:

Section 3365-23b. An inspector of automatic couplers, air brakes and automatic power brakes on railroad cars, tenders and engines shall be appointed by the commissioner of railroads and telegraphs within thirty days after this act goes into effect, who shall hold office for two years, unless sooner removed for cause, and until his successor is appointed and qualified. At any time a vacancy occurs in the office, the commissioner of railroads and telegraphs shall immediately fill the vacancy by appointment.

No person is eligible to the office who is an officer or employee of a railroad company or owns or is interested, directly or indirectly, in the stocks or bonds of any railroad company, or who has not had at least seven years' experience in the transportation department on some line of railroad of more than thirty miles in length, operated in the State of Ohio.

Section 3365-23c. Before entering on his duties, the inspector shall give bond to the State of Ohio in the sum of three thousand dollars, with two or more sureties, or a bond and security company, acceptable to the commissioner of railroads and telegraphs, conditioned for the faithful performance of his duties, and shall also take the usual oath of office, which oath and bond with the approval of the commissioner endorsed thereon, shall be deposited with the secretary of state.
Section 3365-23d. Said inspector shall be paid a salary of fifteen hundred dollars per year, and all necessary expenses, not to exceed one thousand dollars in any one year, which shall be paid in the manner now provided by section $250-2$ for the salary and expenses of the department of railroads and telegraphs. * * *
He shall have his office in the statehouse in the office of the commissioner of railroads and telegraphs, and shall be under the supervision of said commissioner.
Such inspector shall have the right of passing in the performance of his duties upon all the railroads within the State, and upon all trains, and any part thereof free of charge.

Section 3565 [3365]-23e. It shall be the duty of the inspector to inspect the couplers, air brakes and automatic power brakes found on any road in Ohio, and make weekly reports of his inspection to the commissioner of railroads and telegraphs, reporting all cars, tenders and engines, giving number of same, road on which they are found, and the road owning same, if known, which is found to have a defective coupler or brake, describing the defect. He shall also on discovering a defective coupler or brake, immediately report the same to the superintendent of the road on which it is found and to the agent thereof at the nearest station, describing the defect.
Section 3565 [3365]-23f. Any road whose superintendent or station agent shall receive such notice of a defective coupler or brake shall cause the same to be immediately repaired; and shall be liable in damages to any person injured by reason of such defective coupler or brake, for any injury received after the expiration of twenty-four hours after receiving the notice; and any such company shall be liable in damages by reason of any such defective appliance, for any injury received. But nothing herein shall be construed to diminish the existing legal liability of railroads for injuries to persons or property.

Section 3565 [3365]-23g. Said inspector may, on the discovery of a defective coupler or brake on any car, tender or engine, condemn said car, tender or engine, and order the same out of service until repaired and put in good working order. On receiving from the inspector an order condemning any car, tender or engine, the employees of the road in charge of said car, tender or engine shall put the same out of service at the first freight division terminal.
Section 3565 [3365]-23h. Any railroad which fails to comply with any of the provisions of this act shall forfeit and pay to the State of Ohio, the sum of twenty-five (\$25) dollars for each day such defective coupler or brake is kept in use contrary to the provisions hereof, to be collected in a civil suit in any county in the State where service of process can be had on said road. It is hereby made the duty of the attorney general or the prosecuting attorney of any county in which such company has a line of railroad, and such officer shall, on request from the inspector, immediately com-
mence and prosecute, without unnecessary delay, proceedings to collect said sum, and the sum so collected, less 10 per cent fees for collecting fame, due such officer, shall be paid to the general revenue fund of the State.
Section 3365-23i. Any superintendent[,] conductor or other officer or employee of any road who shall willfully refuse or neglect to comply with any of the provisions of this act shall be guilty of a misdemeanor, and on conviction thereof fined any sum not less than twenty-five or more than five hundred dollars, and be personally liable for any injuries resulting to any employees therefrom.
SEc. 2. This act shall take effect and be in force from and after its passage.
Passed May 12, 1902.

## Page 668.-Civil service law.

Section 1. An act entitled "An act to regulate and improve the civil service in certain departments in cities of the first grade of the second class," passed April 14th, 1900, [shall] be so amended as to read as follows:
In cities of the first grade, of the second class, the mayor shall appoint four persons to constitute a civil service commission. * * *

Sec. 2. The commission shall classify all of the employees of the departments of public improvements, and public safety, in the service of said cities. Said commission shall also at any time classify any other offices or places of employment in any other department of the city service upon proper authorization from the council of said cities. * * *
SEC. 4. All applicants for admission into the classified service of such city shall be subject to examination, which shall be competitive, public and open to all citizens of Ohio who shall have been residents in such city at least one year prior thereto, with special limitations as to age, health, habits and moral character (said examination as to health being under the supervision of physicians), and shall relate to those matters which shall fairly test the relative capacity of the persons examined to discharge the duties of the position which they seek, and may include tests of physical qualifications and health, and, when appropriate, of manual skill. The examinations of applicants for employment as laborers classified shall relate to their capacity for labor, their habits as to industry and sobriety, and their experience in and knowledge of the kind of work for which they apply. No question in any examination shall relate to political or religious opinions or affiliations. The rules to be made by the commission shall provide, so far as the conditions of good administration may warrant, for filling vacancies in any grade above the lowest, by promotion, on a basis of ascertained merit and seniority in service and examination; and, to that end, shall hold public competitive examination for promotion, open to members of the next lower grade, and for giving due credit, in the marking of competitors, for length of service and for ascertained merit in service.

Sec. 5. In case of any vacancy in the classified service of said city, notice shall be given the commission by the appointing power of said vacancy, and thereupon the commission shall certify in writing to the appointing power, the names, addresses and grades of the candidates, not exceeding three in number for any such vacancy, whose names shall stand highest on the appropriate register, and it shall then be the duty of the appointing power to appoint on probation, to fill such vacancy, one of the said candidates whose name shall have been so certified. Provided, however, That if the appointing power satisfies the commission that there is reasonable ground for the belief that any candidate so certified is morally unfit, his name shall be stricken from the register and another name shall be certified in its place in like manner. No appointment, promotion or removal in the classified service shall be influenced in any manner by the political or religious affiliation or opinions of any such candidate.

Sec. 6. No officer or employee within the classified service of any such city shall be removed, reduced in rank or suspended except from some cause relating to his moral character or his suitableness to perform the duties of his position. Provided, however, That if the head of any department does remove, reduce in rank, suspend or discharge any officer or employee of such department, it shall be by written order giving the reasons therefor, and such written order shall be recorded in the records of the department, and a copy thereof filed with the mayor; And provided, however, That any officer or employee removed, reduced in rank or suspended, may appeal from such order of removal, reduction in rank or suspension or other punishment to the civil service commission for trial, upon which appeal said commission shall require the causes of such removal, reduction in rank or suspension to be certified to it in writing, with specifications signed for such removal, reduction in rank or suspension, which specifications shall be signed by the person preferring the charge. A copy of said charges as specified shall be thereupon served on the accused at least five days before the hearing thereon, and the accused shall have the right to meet
the witnesses face to face and to have compulsory process to procure the attendance of witnesses in his behalf, and to require a speedy trial and the production in evidence of books, papers and records in his behalf. Said commission shall forthwith, and within ten days sit as a tribunal for the trial of the accused and shall have full power to pass upon the same and fix the punishment of the accused, and the action of the commission shall not be subject to reversal by any appellate tribunal or court, in holding any such investigation or inquiry, or any other investigation or inquiry under this act; the commission shall have power to subpoena, on behalf of the city, the attendance and testimony of witnesses, and the production of books and papers pertinent to the subject matter of such investigations or inquiry, and to administer oaths and affirmations; and witnesses, and officers to subpeena and secure the attendance of witnesses, shall be entitled to like fees and mileage as are allowed by law for like services in proceedings before the courts of common pleas.
Passed February 13, 1902.

## RHODE ISLAND.

## ACTS OF 1902.

## Chapter 973.-Factories and workshops-Elevators.

Section 1. Section 15 of chapter 108 of the General Laws is hereby amended so as to read as follows:

Section 15. Every elevator used for conveying persons or goods from one story to another of any building, the well of which elevator is not so protected as to be inaccessible from without while the elevator is moving, shall have attached to it some suitable appliance which shall give automatically, at all times, on every floor of said building which it approaches, a distinct, audible warning signal that said elevator is in motion.

Sec. 2. Section 16 of chapter 108 of the General Laws * * * is hereby amended so as to read as follows:

Section 16. All hoistway and elevator openings through floors where there is no ;haft shall be protected by sufficient railings, gates, trapdoors, or other mechanical devices equivalent thereto, and the same shall be kept closed in the nighttime or when not in use. Every passenger elevator, except plunger elevators, shall be provided with some safety arrangement to prevent falling, and every passenger elevator shall be fitted with some suitable device to prevent the elevator car from being started until the door or doors opening into the elevator shaft are closed; and no person under the age of eighteen years shall take charge of or operate any passenger elevator.

It shall be the duty of every inspector of buildings elected or empowered under the provisions of this chapter to inspect all elevators in every building within his jurisdiction; and it shall be the duty of the factory inspectors appointed or empowered under the provisions of chapter 68 of the General Laws to inspect all elevators in every building within their jurisdiction in any city or town where there is no inspector of building[s]; and it shall be the duty of said inspectors of buildings and said factory inspectors to notify the lessee and owner or some one of the owners of every building in which an elevator shall be used or operated contrary to the provisions of this and the preceding section, of such violation and require the lessee and owner or some one of the owners of said building, within thirty days after the receipt of such notice, to comply with the provisions of said sections, and it shall be the duty of said lessee and owner or owners to comply with such requirement.

The owner or owners of any building or premises under lease, and their servants and agents, may enter upon such leased building or premises for the public welfare, with the purpose of making said building comply with the provisions of this and the preceding section, and may remain thereon during such time as may reasonably be required for the performance of such work as may be necessary to effect said purpose, interfering with the lessee no more than may be necessary.
In all cases in which any person shall suffer injury or in which the death of any person shall ensue in consequence of the failure of the lessee or owner or owners of any building to comply with the provisions of this and the preceding section, or in consequence of the failure of said lessee or owner or owners to comply with the written notice and requirement of any inspector of buildings or factory inspector, when made in conformity to the provisions of this and the preceding section, such lessee and owner or owners shall be jointly and severally liable to any person so injured in an action of trespass on the case for damages for such injury; and in case
of death such lessee and owner or owners shall be jointly and severally liable in damages for the injury caused by the death of such person, to be recovered by action of trespass on the case, in the same manner and for the benefit of the same persons as is provided in sections fourteen and fifteen of chapter two hundred thirty-three; which action, when the lessee and the owner are nonresidents, may be commenced by attachment. It shall be no defense to said action that the person injured, or whose death ensues as aforesaid, had knowledge that any elevator was being operated in said building contrary to the provisions of this and the preceding section, or that such person continued to ride in said elevator with said knowledge.
The lessee or owner or owners of any building, or in case such lessee or owner, or any of them, be non compos mentis or a minor, the guardian of any such lessee or owner, or in case such lessee or owner, or any of them, be a nonresident, the agent of any such lessee or owner having charge of such property, who shall neglect or fail to comply with the provisions of this and the preceding section shall be fined not less than five dollars nor more than ten dollars for each day that an elevator shall be used or operated in said building contrary to the provisions of this and the preceding section. In case there shall be several such lessees or owners or agents in charge of any building in which an elevator shall be used or operated contrary to the provisions of this and the preceding section, proceedings may be had against any or all of them jointly, or against any one of them, for the recovery of such fine.

SEc. 3. This act shall take effect from and after the first day of October, A. D. 1902, and all acts and parts of acts inconsistent herewith are hereby repealed.

Passed April 3, 1902.

> Chapter 994.-Employment of women and children-Hours of labor.

Section 1. Section 22 of chapter 198 of the General Laws is hereby amended so as to read as follows:
Section 22. No minor under sixteen years of age, and no woman, shall be employed in laboring in any manufacturing or mechanical establishment more than fifty-eight hours in any one week; and in no case shall the hours of labor exceed ten hours in any one day, excepting when it is necessary to make repairs to prevent the interruption of the ordinary running of the machinery, or when a different apportionment of the hours of labor is made for the sole purpose of making a shorter day's work for one day of the week.

Every employer shall post in a conspicuous place in every room where such persons are employed a printed notice stating the number of hours' work required of them on each day of the week; and the employment of any such person for a longer time in any day than so stated shall be deemed a violation of this section, unless it appears that such employment is to make up for time lost on some previous day of the same week in consequence of the stopping of the machinery upon which such person was employed or dependent for employment: Provided, That the provisions of this section shall not be construed to enlarge or impair any restriction placed upon the employment of any minor mentioned in chapter 64.

Secrion 2. All acts and parts of acts inconsistent herewith are hereby repealed, and this act shall take effect immediately upon its passage.

Passed April 4, 1902.

## Chapter 1004.-Hours of labor of employees on street railways.

Section 1. A day's work for all conductors, gripmen, and motormen now employed or who may hereafter be employed in the operation of all street railways, of whatever motive power, in this State shall not exceed ten hours' work, to be performed within twelve consecutive hours. No officer or agent of any corporation operating street cars, of whatever motive power, in this State shall on any day exact from any of its said employees more than the said ten hours' work within the twenty-four hours of the natural day, and within twelve consecutive hours: Provided, however, That on all legal holidays, and on occasions when an unexpected contingency arises demanding more than the usual service by such street railway corporation to the public, or from such employees to the corporation, and in case of accident or unavoidable delay, extra labor may be performed for extra compensation; and that nothing herein contained shall affect existing written contracts.

Skc. 2 (as amended by chapter 1045). The true intent and purpose of this act is hereby declared to be to limit the usual hours of labor of the above-mentioned employees of street railway corporations, in the absence of agreement as to such hours between such employees and their employer, to ten hours' actual work a day,
to be performed within a period of twelve consecutive hours, whether such employees be employed by the trip or trips, the job, the hour, the day, the week, the month, or in any other manner. But nothing in this act contained shall be construed to forbid or prevent any such employee, being of the age of twenty-one years or upwards, from laboring a greater or lesser number of hours a day, in accordance with his contract so to do; nor to impose any penalty upon any person or corporation for permitting such employees to labor such greater or lesser number of hours in the performance of such contract.
SEC. 3. Any street railway corporation violating any of the provisions of the preceding sections of this act shall be fined not less than one hundred dollars nor more than five hundred dollars, one-half thereof to the use of the complainant and the other half to the use of the State.

SEC. 4. This act shall take effect on the first day of June, A. D. 1902.
Passed April 4, 1902.

> Chapter 1009.-Employment of children during session of school.

Section 1. Chapter 64 of the General Laws is hereby amended so as to read as follows:

Section 4. No minor child who has not completed thirteen years of life shall be employed to labor or at service, or engaged in business, except during the vacations of the public schools of the city or town wherein such child resides, or as provided for by section one of this chapter.

Section 5. No minor child who has not completed fifteen years of life shall be employed to labor or at service unless he shall present to his employer a certificate made by or under the direction of the school committee of the city or town wherein such child resides; said certificate shall be made on a blank and in a form furnished by the secretary of the State board of education and shall state the name, place and date of birth of said child, the name and residence of the person having control of said child.

Section 6. Every person, whether principal or agent, who shall employ or permit to be employed or shall aid or abet the employment to labor or at service of any minor child above described in section 4, who has not complied with the provisions above recited in section five, shall for every such offense or neglect of such duty be fined not exceeding twenty dollars.

Passed April 4, 1902.

## VIRGINIA.

## CONSTITUTION OF 1902.

Article 4.-Special laws regulating labor, etc., not to be passed.
Simetion 63. * * * The general assembly shall not enact any local, special, or private law in the following cases:
12. Regulating labor, trade, mining or manufacturing, or the rate of interest on money.

Article 5.-Bureau of labor and statistics.
Sih fion 86. The general assembly shall have power to establish and maintain a bureau of labor and statistics, under such regulations as may be prescribed by law.

Article 12.-Liability of railroad companies for injuries to employees.
Siction 162. The doctrine of fellow-servant, so far as it affects the liability of the master for injuries to his servant resulting from the acts or omissions of any other servant or servants of the common master, is, to the extent hereinafter stated, abolished as to every employee of a railroad company, engaged in the physical construction, repair or maintenance of its roadway, track or any of the structures connected therewith, or in any work in or upon a car or engine standing upon a track, or in the physical operation of a train, car, engine, or switch, or in any service requiring his presence upon a train, car or engine; and every such employee shall have the same right to recover for every injury suffered by him from the acts or omissions of any other employee or employees of the common master, that a servant would have (at the time when this constitution goes into effect), if such acts or omissions were those
of the master himself in the performance of a nonassignable duty: Provided, That the injury, so suffered by such railroad employee, result from the negligence of an officer, or agent, of the company of a higher grade of service than himself, or from that of a person, employed by the company, having the right, or charged with the duty, to control or direct the general services or the immediate work of the party injured, or the general services or the immediate work of the coemployee through, or by, whose act or omission he is injured; or that it result from the negligence of a coemployee engaged in another department of labor, or engaged upon, or in charge of, any car upon which, or upon the train of which it is a part,the injured employee is not at the time of receiving the injury, or who is in charge of any switch, signal point, or locomotive engine, or is charged with dispatching trains or transmitting telegraphic or telephonic orders therefor; and whether such negligence be in the performance of an assignable or nonassignable duty. The physical construction, repair or maintenance of the roadway, track or any of the structures connected therewith, and the physical construction, repair, maintenance, cleaning or operation of trains, cars or engines, shall be regarded as different departments of labor within the meaning of this section. Knowledge, by any such railroad employee injured, of the defective or unsafe character or condition of any machinery, ways, appliances or structures, shall be no defense to an action for injury caused thereby. When death, whether instantaneous or not, results to such an employee from any injury for which he could have recovered, under the above provisions, had death not occurred, then his legal or personal representative, surviving consort, and relatives (and any trustee, curator, committee or guardian of such consort or relatives) shall, respectively, have the same rights and remedies with respect thereto as if his death had been caused by the negligence of a coemployee while in the performance, as vice-principal, of a nonassignable duty of the master. Every contract or agreement, express or implied, made by an employee, to waive the benefit of this section, shall be null and void. This section shall not be construed to deprive any employee, or his legal or personal representative, surviving consort or relatives (or any trustee, curator, committee or guardian of such consort or relatives), of any rights or remedies that he or they may have by the law of the land, at the time this constitution goes into effect. Nothing contained in this section shall restrict the power of the general assembly to further enlarge, for the above-named class of employees, the rights and remedies hereinbefore provided for, or to extend such rights and remedies to, or otherwise enlarge the present rights and remedies of, any other class of employees of railroads or of employees of any person, firm or corporation.

## Article 14̀.-Exemption from execution.

Section 190. Every householder or head of a family shall be entitled, in addition to the articles now exempt from levy or distress for rent, to hold exempt from levy, seizure, garnishment, or sale under any execution, order, or other process issued on any demand for a debt hereafter contracted, his real and personal property, or either, including money and debts due him, to the value of not exceeding two thousand dollars, to be selected by him: Provided, That such exemption shall not extend to any execution, order, or other process issued on any demand in the following cases:
First. For the purchase price of said property, or any part thereof. If the property purchased, and not paid for, be exchanged for, or converted into, other property by the debtor, such last-named property shall not be exempted from the payment of such unpaid purchase money under the provisions of this article;
Second. For services rendered by a laboring person or mechanic;
Third. For liabilities incurred by any public officer, or officer of a court, or any fiduciary, or any attorney at law for money collected;
Fourth. For a lawful claim for any taxes, levies, or assessmente accruing after the first day of June, eighteen hundred and sixty-six;
Fifth. For rent;
Sixth. For the legal or taxable fees of any public officer or officer of a court.
SEc. 191. The said exemption shall not be claimed or held in a shifting stock of merchandise, or in any property, the conveyance of which by the homestead claimant has been set aside on the ground of fraud or want of consideration.

Skc. 192. The general assembly shall prescribe the manner and the conditions on which a householder or head of a family shall set apart and hold for humself and family a homestead in any of the property hereinbetore mentioned. But this section shall not be construed as authorizing the general assembly to defeat or impair the benefits intended to be conferred by the provisions of this article.

## ACTS OF 1901-1902.

Chapter 54.-Exemption from execution, etc.-Personal property.

1. Section thirty-six hundred and fifty in chapter one hundred and seventy-eight of the Code of Virginia of eighteen hundred and eighty-seven, as amended by an act approved February twenty-eight, eighteen hundred and ninety, [shall] be amended and reenacted so as to read as follows:

Section 3650. In addition to the estate, not exceeding in value two thousand dollars, which every householder residing in this State shall be entitled to hold exempt, as provided in the preceding sections of this chapter, he shall also be entitled to hold exempt from levy or distress the following articles, or so much or so many thereof as he may have, to be selected by him or his agents, except that the live stock so exempted under this and the following sections of this chapter shall not be exempt from any levy or distress made under the provisions of chapter ninety-three of this Code:

First. The family Bible.
Second. Family pictures, schoolbooks, and library for the use of the family, not exceeding in all one hundred dollars in value.

Third. A seat or pew in any house or place of public worship.
Fourth. A lot in a burial ground.
Fifth. All necessary wearing apparel of the debtor and his family; all beds, bedsteads, and bedding necessary for the use of such family; and all stoves and appendages put up and kept for the necessary use of the family, not exceeding three.

Sixth. One cow and her calf till one year old, one horse, six chairs, six plates, one table, six knives, six forks, one dozen spoons, two dishes, two basins, one pot, one oven, six pieces of wooden or earthen ware, one loom and its appurtexances, one safe or press, one spinning wheel, one pair of cards, one axe, two hoes; ten barrels of corn, or, in lieu thereof, twenty-five bushels of rye or buckwheat; five bushels of wheat, or one barrel of flour; twenty bushels of potatoes, two hundred pounds of bacon or pork, three hogs, fowls not exceeding in value ten dollars, ten dollars in value of forage or hay, one cooking stove and utensils for cooking therewith, one sewing machine, and in the case of a mechanic, the tools and utensils of his trade, not exceeding one hundred dollars in value, and in case of an oysterman or fisherman, his boat and tackle, not exceeding two hundred dollars in value; if the boat and tackle exceed two hundred dollars in value the same shall be sold, and out of the proceeds the oysterman or fisherman shall first receive two hundred dollars in lieu of such boat and tackle.

Approved December 23, 1901.

## Chapter 322.-Liability of railroad companies for injuries to employees.

1. Every corporation operating a railroad in this State, whether such corporation be created under the laws of this State or otherwise, shall be liable in damages for any and all injury sustained by any employee of such corporation as follows: When such injury results from the wrongful act, neglect, or default of an agent or officer of such corporation superior to the employee injured, or of a person employed by such corporation having the right to control or direct the services of such employee injured, or the services of the employee by whom he is injured; and also when such injury results from the wrongful act, neglect, or default of a coemployee engaged in another department of labor from that of the employee injured, or of a coemployee on another train of cars, or of a coemployee who has charge of any switch, signal point, or locomotive engine, or who is charged with dispatching trains or transmitting telegraphic or telephonic orders. Knowledge by any employee injured of the defective or unsafe character or condition of any machinery, ways, appliances, or structures of such corporation shall not of itself be a bar to recovery for any injury or death caused thereby. When death, whether instantaneous or otherwise, results from any injury to any employee of such corporation received as aforesaid, the personal representative of such employee shall have a right of action therefor against such corporation, and may recover damages in respect thereof. Any contract or agreement, express or implied, made by any such employee to waive the benefit of this section or any part thereof shall be null and void, and this section shall not be construed to deprive any such employee, or his personal representative, of any right or remedy to which he is now entitled under the laws of this State.
2. The rules and principles of law as to contributory negligence, which apply to other cases, shall apply to cases arising under this act, except in so far as the same are herein modified or changed.

Approved March 27, 1902.

1. In all cities in the State of Virginia having a population of more than eight thousand inhabitants there shall be a board for the examination of plumbers of four members, consisting of one member, to be known as the chief health officer of the city, and one member, to be known as the plumbing inspector of the city; one journeyman plumber, and one master plumber, all of whom shall be residents of the city in which their duties are to be performed, and the plumbing inspector, journeyman, and master plumbers shall be licensed plumbers. The members of said board shall be selected as the councils of the respective cities may determine, and said councils shall also prescribe the terms of office of the several members of such board, and the method of their removal from office. The terms of office of such chief health officers and plumbing inspectors as may be in office when this act shall go into effect shall not be affected hereby, and they shall be constituted members of their respective boards for the term for which they may have been elected.
2. The persons who compose the first plumbing board under this act shall, within ten days after their appointment, meet in their respective city building, or place designated by the city council, and organize by the selection of one of their number as chairman, and the plumbing inspector shall be secretary of said board. It shall be the duty of the secretary to keep full, true, and correct minutes and records of all licenses issued by it, together with their kinds and dates and the names of persons to whom issued, in books to be provided by such city for that purpose, which books and records shall be in all business hours open for free inspection by all persons.
3. The board shall fix stated times and places of meeting, which times shall not be less than once in every two weeks, and may be held oftener upon written call of the chairman of the board, and the board shall adopt rules for the examination, at such times and places, of all persons who desire a license to work at the construction or repairing of plumbing within the said city.
4. Any person not already licensed as herein provided desiring to work at the business of plumbing in any such city shall make written application to the said board for examination for a license, which examination shall be made at the next meeting of the board, or as soon thereafter as practicable, and said board shall examine said applicant as to his practical knowledge of plumbing, house drainage and plumbing, ventilation and sanitation, which examination shall be practical as well as theoretical, and if the applicant has shown himself competent, the plumbing board shall cause its chairman and secretary to execute and deliver to the applicant a license authorizing him to do plumbing in such city.
5. All licenses may be renewed by the board at the dates of their expiration. Such renewal licenses shall be granted, without a reexamination, upon a written application of the licensee filed with the board and showing that his purposes and conditions remain unchanged, unless it is made to appear by affidavit before the board that the applicant is no longer competent or entitled to such renewal license, in which event the renewal license shall not be granted until the applicant has undergone the examination hereinbefore required.
6. All licenses shall be good for one year from their dates, provided that any license may be revoked by the board at any time upon a hearing upon sufficient written, sworn charges filed with the board, showing the holder of the license to be then incompetent or guilty of a willful breach of the rules, regulations, or requirements of the board, or of the laws or ordinances relating thereto, or of other causes sufficient for the revoking of his license, of which charges and hearing the holder of such license shall have written notice.
7. It shall be unlawful for any person to do any plumbing in any such city of this State unless he be licensed as herein provided.
8. The fee for the original license of a journeyman plumber shall be one dollar. All renewal fees shall be fifty cents. All license fees shail be paid, prior to the execution and delivery of the license, to the treasurer of the city for which the license was issued.
9. Any person violating any provision of this act or of any lawful ordinances, or rules and regulations, authorized by this act shall be deemed guilty of a misdemeanor, and shall be fined not exceeding fifty nor less than five dollars for each and every violation thereof, and if such person hold a plumber's license, it may, in the discretion of the board, be forfeited, and he shall not be entitled to another plumber's license for the space of one year after such forfeiture is declared against him by the board.

Approved March 28, 1902.
