CONCORDANCE OF STATISTICS  
AVAILABLE IN  
SELECTED FEDERAL RESERVE PUBLICATIONS

This publication serves as a guide to the reader who wishes to follow over time the data series published in the Federal Reserve Bulletin and the Annual Statistical Digest.

Unless otherwise noted, the tables in the Federal Reserve Bulletin referred to here are published each month, and they contain the latest annual, quarterly, monthly, or weekly data available as of the date of publication. Changes in the form or content of tables during 1986 have been noted.

Because the frequency of the data shown may vary among the publications listed, the frequencies for each table are shown in parentheses, as are other pertinent differences.

Generally speaking, titles of tables in the Annual Statistical Digest do not indicate the period covered, and no attempt has been made to include such information unless, in the case of the Digest for 1970-79, the period is different from ten years, or, in the case of the Digests for 1981 through 1985, it is different from one year.

Because the sequence is established by the order of the Bulletin tables, the table numbers for the Digests are not necessarily consecutive.

Footnotes appear at the end of the Concordance.
