[PUBLIC LAW 120—81ST CONGRESS; CHAPTER 237—1ST SESSION]

JOINT RESOLUTION [S.J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

Charts drawn by Graphics Unit, Office of the Secretary, Department of Commerce.

Economic Indicators, published monthly, is available at 20 cents a single copy or by subscription at \$2.00 per year (foreign, \$2.75) from:

SUPERINTENDENT OF DOCUMENTS
GOVERNMENT PRINTING OFFICE
WASHINGTON 25, D.C.

Subscribers who wish to receive it at an earlier date after release may take advantage of provisions for airmail subscriptions. The domestic airmail subscription price is \$4.60 per year.

The 1960 *Supplement to Economic Indicators*, which describes each series and gives annual data for years not shown in the monthly issues, is now available at 60 cents a copy.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

Businessmen planned to spend \$34.8 billion (seasonally adjusted annual rate) on new plant and equipment in the third quarter of 1961 and \$35.9 billion in the fourth quarter, according to the July-August survey. In the first half of this year the spending rate was \$33.7 billion.

¹ Excludes agriculture.

² Commercial and other includes trade, service, finance, communications, and construction.

³ Estimates based on anticipated capital expenditures as reported by business in late July and August 1961. Includes adjustments when necessary for systematic tendencies in anticipatory data.

NOTE.—Beginning 1959 all quarterly data are rounded to nearest \$50 million. Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

Sources: Securities and Exchange Commission and Department of Commerce.

EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

Total employment in September was 67 million, or 1½ million below August. The decline was more than seasonal mainly because the hurricane curtailed farm work during the survey week. Unemployment declined by 400,000, and the seasonally adjusted unemployment rate fell fractionally to 6.8 percent.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 9, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they

are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

² Includes mining; transportation and public utilities; finance, insurance, and real estate; and service and miscellaneous, not shown separately.

³ Preliminary.

WEEKLY HOURS OF WORK

The average workweek of production workers in manufacturing industries, seasonally adjusted, declined to 39.3 hours in September from 40.0 hours in August. This decline reflected abnormally bad weather, religious holidays, and industrial disputes during the survey week.

Period	Average hours per week ¹					Persons at work in nonagricultural industries by hours worked per week ²

¹ Data relate to production workers or nonsupervisory employees.
² Excludes from total nonagricultural employment (p. 9), which includes persons unemployed but not at work for such reasons as vacation, illness, bad weather, and seasonal fluctuations. Beginning January 1960, data include Alaska and Hawaii.
³ Includes persons who worked part-time because of slack work, material shortage, or repair, new job started, or job terminated.

⁴ Primarily includes persons who could find only part-time work.
⁵ Not available.
⁶ Preliminary.
⁷ Average hours worked: usually full-time, 24.1; usually part-time, 19.0.

PRODUCTION OF SELECTED MANUFACTURES

Output of durable manufactures (seasonally adjusted), particularly fabricated metal products and transportation equipment, declined in September. Production of most nondurables was maintained at the August levels.

[1957=100, seasonally adjusted]

WEEKLY INDICATORS OF PRODUCTION

Steel output increased during September. Auto assemblies, on a weekly average basis, were higher in September than in the model changeover month of August; however, September output was interrupted by strikes.

Period	Steel produced		Electric power distributed (millions of kilowatt-hours)	Bituminous coal mined (thousands of short tons) ¹	Freight loaded (thousands of cars)	Paperboard produced (thousands of tons)	Cars and trucks assembled (thousands)		
	Thousands of net tons	Index (1957-59=100)					Total	Cars	Trucks

U.S. BALANCE OF PAYMENTS

Despite a sharp drop in exports and a slight rise in imports, net international payments in the second quarter fell by a further \$2.4 billion (seasonally adjusted annual rate) and the United States ran an over-all balance of payments surplus for the first time since 1957. However, special debt repayments on U.S. Government loans more than accounted for the improvement.

(Millions of dollars)

PRICES

CONSUMER PRICES

The consumer price index declined 0.1 percent in August. A seasonal drop in food prices was offset in part by a slight rise in prices for nonfood commodities and services.

¹ Member banks are all national banks and those State banks which have taken membership in the Federal Reserve System.

² Commercial and industrial loans and prior to 1956 agricultural loans. Series revised beginning January 1952, October 1955, July 1958, July 1959, and April 1961.

³ Debits during period to demand deposit accounts except interbank and U.S. Government. Prior to 1955, relates to 344 centers outside New York City.

⁴ Averages of daily figures. Annual data are for December.

⁵ Preliminary.

NOTE.—Between January and August 1959, series for all commercial banks expanded to include data for all banks in Alaska and Hawaii. Data for all member banks include Alaska and Hawaii for all periods.
