[PUBLIC LAW 120—81ST CONGRESS; CHAPTER 237—1ST SESSION]

JOINT RESOLUTION [S.J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

Charts drawn by Graphics Unit, Office of the Secretary, Department of Commerce.

Economic Indicators, published monthly, is available at 25 cents a single copy or by subscription at \$2.50 per year (foreign, \$3.50) from:

SUPERINTENDENT OF DOCUMENTS
GOVERNMENT PRINTING OFFICE
WASHINGTON, D.C. 20402

Subscribers who wish to receive it at an earlier date after release may take advantage of provisions for airmail subscriptions. The domestic airmail subscription price is \$5.40 per year.

The 1964 *Supplement to Economic Indicators*, which describes each series and gives annual data for years not shown in the monthly issues, is available at 65 cents a copy.

TOTAL OUTPUT, INCOME, AND SPENDING

THE NATION'S INCOME, EXPENDITURE, AND SAVING

According to current estimates, gross national product rose \$11.6 billion to a seasonally adjusted annual rate of \$677.5 billion in the third quarter. Consumer spending accounted for two-thirds of the rise.

SOURCES OF PERSONAL INCOME

In October, personal income dropped \$5½ billion to a seasonally adjusted annual rate of \$540 billion. The drop resulted from a nonrecurring payment for retroactive social security benefits in September. Excluding this special payment, there was a rise of about \$5 billion. Wage and salary disbursements rose \$3.2 billion.

FARM INCOME

Following a sharp rise in the second quarter, net farm income fell somewhat in the third quarter on a seasonally adjusted basis. However, the over-the-year gain was at an annual rate of about \$1 billion excluding inventory change and more than \$2 billion including inventory change.

GROSS PRIVATE DOMESTIC INVESTMENT

The increase in gross private domestic investment of almost \$1 billion (seasonally adjusted annual rate) in the third quarter was made up of an increase in fixed investment of \$1.5 billion partially offset by a decrease in inventory investment of \$0.6 billion. Inventory investment is still markedly above the 1964 average.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

Business expenditures for new plant and equipment in 1965 are expected to total \$50.9 billion, almost 13½ percent above the 1964 total, according to the August survey. This represents the second upward revision in 1965 spending plans since the initial survey earlier this year—capital spending plans for 1965 of \$50.2 billion in February were increased to \$50.4 billion in May.

¹ Excludes agriculture.

² Commercial and other includes trade, service, finance, communications, and construction.

³ Estimates based on anticipated capital expenditures as reported by business in late July and August 1965. Includes adjustments when necessary for systematic tendencies in anticipatory data.

NOTE.—Beginning 1959 all quarterly data are rounded to nearest \$50 million.

Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

¹ Man-hours lost by the unemployed and those on part-time for economic reasons as a percent of total man-hours potentially available to the civilian labor force. Beginning 1963, series reflects whether unemployed persons sought full- or part-time jobs.

² Differs from total nonagricultural employment (p. 13), which includes persons with jobs but not at work for such reasons as vacation, illness, bad weather, and industrial disputes.

³ Includes persons who worked part-time because of slack work, material shortages or repairs, new job started, or job terminated.

⁴ Primarily includes persons who could find only part-time work.

⁵ Average hours worked: usually full-time, 23.6; usually part-time, 17.8.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period which includes the 12th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 10, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they

are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

MANUFACTURERS' SHIPMENTS, INVENTORIES, AND NEW ORDERS

Manufacturers' seasonally adjusted shipments in September declined by 1 percent. This second straight month of decline coupled with the 1 percent rise in inventories had the inventory-shipments ratio rising to 1.65, its highest level since November 1964. All these categories were affected by the prior anticipation and settlement of the steel negotiations.

MERCHANDISE EXPORTS AND IMPORTS

The trade surplus in September dropped somewhat to \$511 million (seasonally adjusted) as exports were off slightly while imports rose. The surplus for the third quarter reached an average rate that approximately matched the high 1964 rate. Total foreign trade was at a level 8 percent higher than a year earlier.

U.S. EXPORTS AND IMPORTS OF GOODS AND SERVICES

The U.S. surplus on goods and services increased in the third quarter to \$8.6 billion (seasonally adjusted annual rate), slightly exceeding the high average recorded in 1964. This improvement is attributable to the surplus on merchandise trade which rose to \$6.2 billion from \$5.2 billion in the second quarter as exports increased and imports declined.

U.S. BALANCE OF INTERNATIONAL PAYMENTS

The United States recorded a deficit on regular transactions of \$2.5 billion (seasonally adjusted annual rate) in the third quarter, but had a surplus of \$1.0 billion in the "official" settlements balance. The regular transactions deficit is primarily attributable to the fact that the second quarter surplus contained many favorable but nonrecurrent private capital inflows. The "official" settlements surplus was slightly higher than that of the second quarter.

PRICES

CONSUMER PRICES

The over-all index of consumer prices increased by 0.2 percent in September, reversing the August decline. Food prices fell by 0.4 percent but other nondurable goods prices increased by 0.6 percent, and service prices rose sharply. The prices of durable goods declined for the eighth straight month.

WHOLESALE PRICES

The wholesale price index inched upward by 0.1 percent in October. Farm product prices were stable, but the prices of processed foods increased by 0.3 percent. Industrial prices increased slightly, mainly because of a very sharp rise in the prices of crude materials.

BANK LOANS, INVESTMENTS, DEBITS, AND RESERVES

Total commercial bank credit (seasonally adjusted) rose by \$2.7 billion in October. Total loans accounted for most of the increase but there was also a rise in banks' holdings of U.S. Government securities that was associated with Treasury financings.

CONSUMER AND REAL ESTATE CREDIT

Total consumer credit rose by \$470 million in September, approximately in line with the \$426 million increase last September 1964 but substantially larger than the September increases in the three preceding years. Automobile credit accounted for an unusually small part of the increase owing to the model changeover period.
