GROSS PRIVATE DOMESTIC INVESTMENT

Gross private domestic investment in the third quarter was practically unchanged (seasonally adjusted) from the second quarter level, according to current estimates. A \$3 billion (annual rate) recovery in business fixed investment was offset by a moderation in the rate of inventory accumulation from its high second quarter level. Residential construction was unchanged.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

According to the latest survey of investment intentions, expenditures for new plant and equipment should accelerate sharply through the first quarter of next year. However, actual third quarter expenditures were a substantial \$1½ billion (seasonally adjusted annual rate) below earlier anticipations.

¹ Excludes agriculture.

² Commercial and other includes trade, service, finance, communications, and construction.

³ Estimates based on anticipated capital expenditures as reported by business in late October and November 1968. Includes adjustments when necessary for systematic tendencies in anticipatory data.

NOTE: Beginning 1959 all quarterly data are rounded to nearest \$50 million.

Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

¹ Man-hours lost by the unemployed and those on part-time for economic reasons as a percent of total man-hours potentially available to the civilian labor force. Beginning 1963, series reflects whether unemployed persons sought full- or part-time jobs.

² Differs from total nonagricultural employment (p. 10), which includes persons with jobs but not at work for such reasons as vacation, illness, bad weather, and industrial disputes.

³ Includes persons who worked part-time because of slack work, material shortages or repairs, new job started, or job terminated.

⁴ Primarily includes persons who could find only part-time work.

⁵ Average hours worked: usually full-time, 23.1; usually part-time, 17.9.

BANK LOANS, INVESTMENTS, DEBITS, AND RESERVES

A decline in commercial bank holdings of U.S. Government securities in November offset a large increase in loans outstanding, so that total bank credit (seasonally adjusted) rose only \$2 billion. Free reserves fell to the largest net borrowed position since June.
