[2] Consists of employer contributions to private pension, health, and welfare funds; compensation for injuries; directors' fees; military reserve pay; and a few other minor items.

[3] Personal income exclusive of net income of unincorporated farm enterprises, farm wages, agricultural net interest, and net dividends paid by agricultural corporations.

DISPOSITION OF PERSONAL INCOME

Despite a large increase in personal consumption expenditures (seasonally adjusted) in the fourth quarter, disposable income rose even more partly as a result of a big increase in social security benefits, and the saving rate jumped.

CORPORATE PROFITS

Corporate profits before taxes (seasonally adjusted) rose 5 percent in the third quarter and were 14 percent above a year earlier. The 16 percent rise in after-tax profits over a year earlier was reflected in a 4 percent rise in dividends and a 30 percent gain in undistributed profits.

[1] Excludes agricultural business; real estate operators; medical, legal, educational, and cultural service; and nonprofit organizations.

[2] Includes trade, service, construction, finance, and insurance.

[3] Estimates based on expected capital expenditures as reported by business October–December 1972. Includes adjustments when necessary for systematic tendencies in expectations data.

NOTE.—Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

PRODUCTION OF SELECTED MANUFACTURES

Production increases of manufactures (seasonally adjusted) were widespread among the major durable and nondurable groups in December. Increases of 1–2 percent occurred in transportation equipment, primary metals, the textile-apparel group, and the chemicals, petroleum, and rubber group. Paper and printing was the only group to decline.

U.S. OVERALL BALANCES ON INTERNATIONAL TRANSACTIONS

The balance on current account and long-term capital was in deficit by $2.2 billion (seasonally adjusted) in the third quarter, compared to a deficit of $1.9 billion in the second quarter. The official reserve transactions balance deteriorated from a deficit of $0.8 billion in the second quarter to a deficit of $4.6 billion in the third quarter. This large increase in the deficit was due to speculative outflows in July.

WHOLESALE PRICES

The wholesale price index for December rose 1.8 percent (1.6 percent after seasonal adjustment) almost entirely because of extremely sharp increases in agricultural prices. The increase was the sharpest monthly rise in more than 20 years and brought the December WPI to a level 6.5 percent higher than 12 months earlier. Prices of farm products and processed foods and feeds rose 5.8 percent (5.2 percent adjusted) during December; industrial commodities were up 0.3 percent (0.1 percent adjusted).
