¹ The total of wage and salary disbursements and other labor income differs from compensation of employees (see p. 3) in that it excludes employer contributions for social insurance and the excess of wage accruals over wage disbursements.

² Consists of employer contributions to private pension, health, and welfare

funds; compensation for injuries; directors' fees; military reserve pay; and a few other minor items.

³ Personal income exclusive of net income of unincorporated farm enterprises, farm wages, agricultural net interest, and net dividends paid by agricultural corporations.

NOTE.—Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures. These figures do not agree with the totals included in the gross national product estimates, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

¹ Man-hours lost by the unemployed and persons on part-time for economic reasons as a percent of potentially available labor force man-hours.

² Differs from total nonagricultural employment (p. 10), which includes part-time jobs but not at work for such reasons as vacation, illness, bad weather, industrial disputes, includes persons who worked part-time because of slack work, material shortages or repairs, new job started, or job terminated.

³ Primarily includes persons who could find only part-time work.

⁴ Average hours worked: usually full-time, 23.1; usually part-time, 18.9.

U.S. BALANCES ON GOODS, SERVICES, AND TRANSFERS

The U.S. current account was in deficit on a seasonally adjusted basis by \$2.0 billion in the second quarter, following a near balance position in the first quarter. An increased trade deficit, due to higher cost of petroleum imports, and lower net investment income, due to increased petroleum-related payments to foreign participants in U.S. companies, were the major causes of the deepening of the current account deficit.

PRICES RECEIVED AND PAID BY FARMERS

Prices received by farmers decreased 2 percent in September. Contributing most to the decline were lower prices for cattle, hogs, calves, potatoes, dry beans, lambs, soybeans, and corn. Prices paid were up 1 percent, largely because of higher prices for farm machinery and fertilizer.

¹ Debits during period to demand deposit accounts except interbank and U.S. Government.

² Averages of daily figures. Annual data are for December.

³ Beginning June 1969, data include all bank-premises subsidiaries and other significant majority-owned domestic subsidiaries; earlier data include commercial banks only.

As of June 1971, Farmers Home Administration notes totaling about \$0.7 billion are classified as other securities rather than as loans.

⁵ Beginning November 9, 1972 adjusted to include certain reserve deficiencies on which penalties can be waived for a transition period in connection with adaptation to Regulation J.

⁶ Beginning April 1973, includes seasonal borrowings.
