¹ Excludes agricultural business; real estate operators; medical, legal, educational, and cultural service; and nonprofit organizations. These figures do not agree precisely with the nonresidential fixed investment data in gross national product estimates, mainly because those data include investment by farmers, professionals, institutions, and real estate firms, and certain outlays charged to current account.

² Includes trade, service, construction, finance, and insurance.

³ Starts are estimated by adding changes in carryover to expenditures during

given period.

⁴ Expenditures estimates based on expected capital expenditures as reported by business in late April and May 1976.

NOTE.—Annual total is the sum of unadjusted quarterly totals. Estimates (as noted in footnote 4) include adjustments when necessary for systematic biases in expectations data.

NONAGRICULTURAL EMPLOYMENT

Nonfarm payroll employment (seasonally adjusted) increased by 57,000 in May, the smallest monthly increase since November. Most of the decline in employment in nondurable manufacturing may be attributed to the strike of 60,000 rubber workers.

PRICES RECEIVED AND PAID BY FARMERS

Prices received by farmers rose 1½ percent in the month ended May 15. Contributing most to the increase were higher prices for corn, cotton, and soybeans. Partially offsetting were lower prices for cattle and milk. Prices paid were unchanged. Both the actual and the adjusted parity ratios were up 1 point.

² Averages of daily figures. Annual data are for December.

³ Member bank reserves series reflects actual reserve requirement percentages with no adjustment to eliminate the effect of changes in Regulations D and M.

⁴ Reserves available to support private nonbank deposits are defined as (1) required reserves for (a) private demand deposits, (b) total time and savings deposits, and (c) nondeposit sources subject to reserve requirements and (2)
