¹ Excludes agricultural business; real estate operators; medical, legal, educational, and cultural service; and nonprofit organizations. These figures do not agree precisely with the nonresidential fixed investment data in gross national product estimates, mainly because these data include investment by farmers, professionals, nonprofit institutions, and real estate firms, and certain outlays charged to current account.

² Includes trade, service, construction, finance, and insurance.

³ Starts are estimated by adding changes in carryover to expenditures during given period.

⁴ Planned capital expenditures as reported by business in late April and May 1977. Plans are adjusted when necessary for systematic bias.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period which includes the 12th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the Armed Forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 11, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they

are not at work because of industrial disputes; and which are based on a sample of the working-age population, whereas the estimates in this table are based on reports from employing establishments.

² Includes mining, not shown separately.

PRICES RECEIVED AND PAID BY FARMERS

Prices received by farmers rose 1½ percent in June. Contributing to the increase were higher prices for cattle, apples, broilers, and potatoes. Partially offsetting were lower prices for eggs and soybeans. Prices paid by farmers were up ½ percent in the month ended June 15.
