¹ Excludes agricultural business; real estate operators; medical, legal, educational, and cultural service; and nonprofit organizations. These figures do not agree precisely with the nonresidential fixed investment data in gross national product estimates, mainly because those data include investment by farmers, professionals, nonprofit institutions, and real estate firms, and certain outlays charged to current account.

² Includes trade, service, construction, finance, and insurance.
³ Starts are estimated by adding changes in carryover to expenditures during given period.

⁴ Planned capital expenditures as reported by business in late April and May 1979. Plans are adjusted when necessary for systematic bias.

U.S. INTERNATIONAL TRANSACTIONS—Continued

In the first quarter of 1979, the gross outflow of private capital—which was almost \$30 billion in the fourth quarter of 1978—fell to less than \$1.5 billion. Private capital inflows rose slightly from \$10.5 to \$12.8 billion. The counterpart to this net capital inflow was a decumulation of foreign official assets in the United States of \$8.5 billion and a rise in the gross income position of the U.S. Government of over \$3.5 billion.
