[PUBLIC LAW 120—81ST CONGRESS; CHAPTER 237—1ST SESSION]

JOINT RESOLUTION [S.J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required numbers of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

Charts drawn by Art Production Branch, Office of the Secretary, Department of Commerce.

Economic Indicators, **published monthly, is available at $2.25 a single copy ($2.81 foreign), or by subscription at $24.00 per year ($30.00 for foreign mailing) from:**

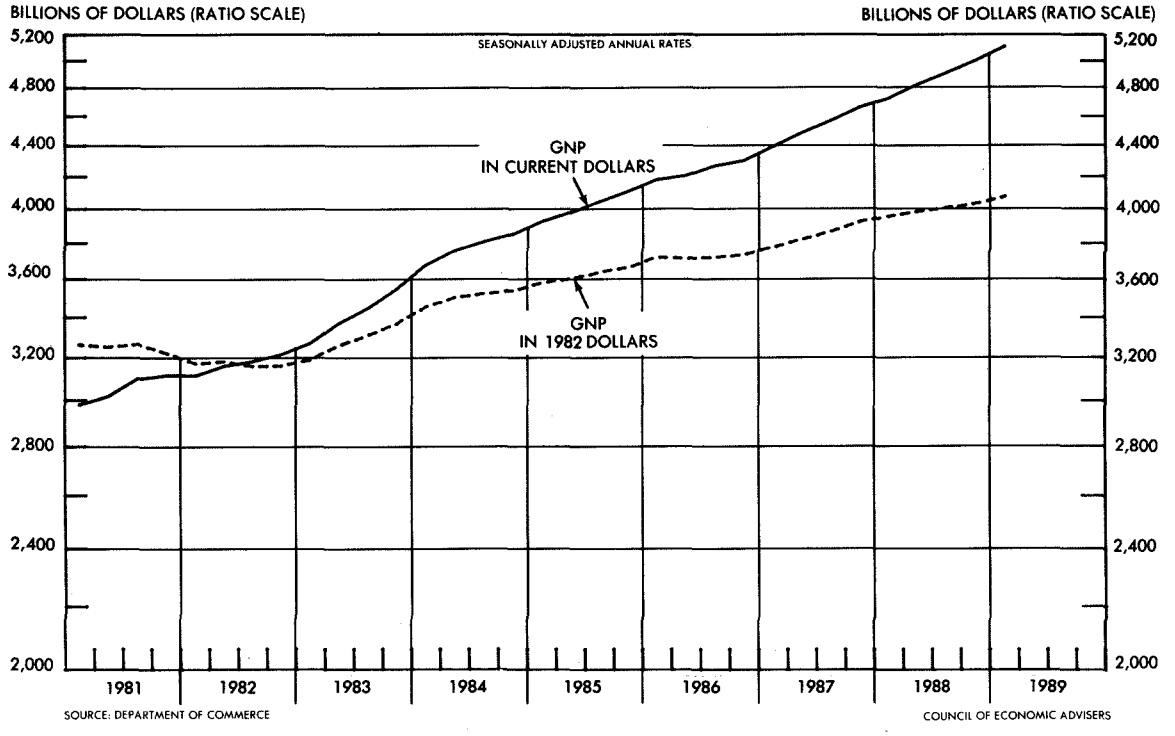
TOTAL OUTPUT, INCOME, AND SPENDING

GROSS NATIONAL PRODUCT

In the first quarter of 1989, according to revised estimates, current-dollar gross national product (GNP) rose 8.2 percent (annual rate) or $99.3 billion. Real GNP (GNP adjusted for price changes) rose 4.4 percent and the implicit price deflator rose 3.6 percent.



[Billions of current dollars; quarterly data at seasonally adjusted annual rates]

[1] *Output is measured by gross domestic product of nonfinancial corporate business in 1982 dollars.*

[2] This is equal to the deflator for gross domestic product of nonfinancial corporate business with the decimal point shifted two places to the left.

[3] Indirect business tax and nontax liability plus business transfer payments less subsidies.

[4] With inventory valuation and capital consumption adjustments.

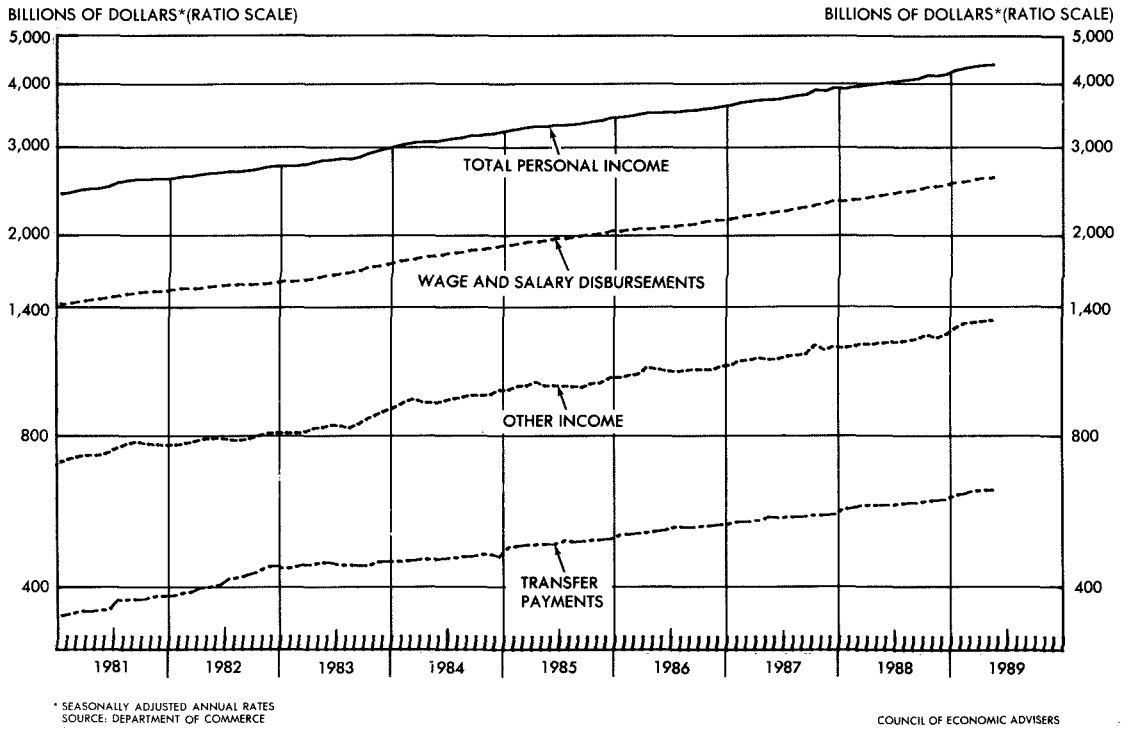
SOURCES OF PERSONAL INCOME

Personal income rose $13.0 billion (annual rate) in May, following an increase of $21.0 billion in April. The increases were affected by three special factors: Profit-sharing payments to employees in the motor vehicle industry and retroactive social security benefit payments—both occurring in March—lowered the April increase, while changes in subsidy payments to farm proprietors lowered the April increase and raised the May increase. Excluding these special factors, personal income increased $10.4 billion in May and $37.6 billion in April.



[Billions of dollars; monthly data at seasonally adjusted annual rates]

[1] The total of wage and salary disbursements and other labor income differs from compensation of employees (see p. 4) in that it excludes employer contributions for social insurance and the excess of wage accruals over wage disbursements.
[2] Consists primarily of employer contributions to private pension and private welfare funds.
[3] With inventory valuation and capital consumption adjustments.
[4] With capital consumption adjustment.
[5] Consists mainly of social insurance benefits, direct relief, and veterans payments.
[6] Personal income exclusive of farm proprietors' income, farm wages, farm other labor income, and agricultural net interest.

[1] Excludes forestry, fisheries, and agricultural services; medical services; professional services; social services and membership organizations; and real estate, which, effective with the April-May 1984 survey, are no longer surveyed quarterly. See last column ("nonmanufacturing surveyed annually") for data for these industries.

[2] "All industries" plus the part of nonmanufacturing that is surveyed annually.

[3] Consists of forestry, fisheries, and agricultural services; medical services; professional services; social services and membership organizations; and real estate.

[4] Planned capital expenditures as reported by business in April-May 1989, corrected for biases.

[1] Persons at work. Economic reasons include slack work, material shortages, inability to find full-time work, etc.

[2] Civilian labor force (or employment) as percent of civilian noninstitutional population.

* Data beginning January 1986 not strictly comparable with earlier data because of change in estimation procedures.

[1] Includes all full- and part-time wage and salary workers in nonagricultural establishments who received pay for any part of the pay period which includes the 12th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the Armed Forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 11, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes, bad weather, etc., even if they are not paid for the time off; and which are based on a sample of the working-age population, whereas the estimates in this table are based on reports from employing establishments.

[2] Includes mining, not shown separately.

Note.—Seasonally adjusted data revised beginning January 1984; unadjusted revised beginning April 1987.

[1] Employer costs for employee benefits.

NOTE.—The employment cost index is a measure of the change in the cost of labor, free from the influence of employment shifts among occupations and industries.

Data exclude farm and household workers.

[1] Output refers to gross domestic product originating in the sector in 1982 dollars.

[2] Hours of all persons engaged in the sector, including hours of proprietors and unpaid family workers. Estimates based primarily on establishment data.

[3] Wages and salaries of employees plus employers' contributions for social insurance and private benefit plans. Also includes an estimate of wages, salaries, and supplemental payments for the self-employed.

[4] Hourly compensation divided by the consumer price index for all urban consumers.

[5] Current dollar gross domestic product divided by constant dollar gross domestic product.

* Data do not reflect GNP revisions of June 22, 1989.

NOTE.—Data relate to all persons engaged in the sector.

Percent changes are from preceding period and are based on original data; they therefore may differ slightly from percent changes based on indexes shown here.

[1] Includes items not shown separately.
[2] Household fuels—gas (piped), electricity, fuel oil, etc.—and motor fuel. Motor oil, coolant, etc. also included through 1982.
[3] Relative importance, December 1988.

NOTE.—Data beginning 1983 incorporate a rental equivalence measure for homeownership costs and therefore are not strictly comparable with figures for earlier periods.
Data beginning 1987 and 1988 calculated on a revised basis.

[1] Data are prorated averages of Wednesday figures for domestically chartered banks and averages of month-end data for foreign-related institutions. Data beginning January 1984 are not strictly comparable with data for earlier periods, largely because beginning January 1984 certain obligations of States and political subdivisions are included in loans rather than in other securities.

[2] Excludes loans to commercial banks in the United States.
