	Nonmanufacturing industries	3.839	3.843				

¹ Comprehensive relative importance figures are computed once each year in December. See note on page 207. The "Revised" column shows relative importance figures for December 1984 based on 1972 shipment values from the Census of Manufactures and other sources, after the sample revision effective January 1985; the "Former" relative importance figures are for the same month before the revision of the index sample. Except for recodes, a dash in the "Former" column indicates the series was introduced in January 1985, and a dash

in the "Revised" column indicates that the series was discontinued as of January 1985.

² The relative importance data for the three major SOR groupings—Finished Goods, Intermediate Materials, and Crude Materials—do not add up to 100.000 because they exclude the portion of goods which are allocated to government purchases and exports.

Table 13. Relative Importance of commodities included in the Producer Price Index, all levels, December 1985¹

Table 13. Continued—Relative Importance of commodities included in the Producer Price Index, all levels, December 1985¹

Code	Commodity	Relative Importance (1972 weights)		Code	Commodity	Relative Importance (1972 weights)	
		Revised	Former			Revised	Former
	Crude fuel	1.467	1.313		Finished consumer foods	8.621	8.542
	Manufacturing industries	0.792	0.706		Finished consumer foods, crude	0.649	0.717
	Nonmanufacturing industries	0.675	0.612		Finished consumer foods, processed	7.972	7.826
	Intermediate materials, supplies, and components	45.929	46.532		Consumer nondurable goods less food	12.107	12.329
	Materials and components for manufacturing	21.329	22.432		Consumer durable goods	6.410	7.143
	Food manufacturing	1.574	1.570		Capital equipment	7.992	7.414
	Nondurable manufacturing	6.213	6.483		Manufacturing industries	2.387	2.361
	Durable manufacturing	5.891	6.292		Nonmanufacturing industries	5.605	5.053
	Components for manufacturing	7.646	8.087				
	Materials and components for construction	6.752	6.780		BY DURABILITY OF PRODUCT		
	Processed fuels and lubricants	7.116	6.784		Total durable goods	43.314	43.864
	Manufacturing industries	2.691	2.588		Total nondurable goods	56.686	56.136
	Nonmanufacturing industries	4.425	4.196				
	Containers	2.005	1.948		Total manufactures	84.759	85.006
	Supplies	8.728	8.587		Durable manufactures	42.566	43.106
	Manufacturing industries	3.194	3.146		Nondurable manufactures	42.193	41.900
	Nonmanufacturing industries	5.534	5.541				
	Feeds	0.600	0.573		Total raw or slightly processed goods	15.241	14.994
	Other supplies	4.934	4.968		Durable raw or slightly processed goods	0.748	0.758
	Finished goods	35.131	35.428		Nondurable raw or slightly processed goods	14.493	14.236
	Finished consumer goods	27.139	28.014				

¹ Comprehensive relative importance figures are computed once each year in December. See note on page 241. The "Revised" column shows relative importance figures for December 1985 based on 1972 shipment values from the Census of Manufactures and other sources, after the sample revision effective January 1986; the "Former" relative importance figures are for the same month before the revision of the index sample. Except for recodes, a dash in the "Former" column indicates the series was introduced in January 1986, and a dash in the "Revised" column indicates that the

series was discontinued as of January 1986.

² The relative importance data for the three major sop groupings—Finished Goods, Intermediate Materials, and Crude Materials—do not add up to 100.000 because they exclude the portion of goods allocated to government purchases and exports.
