Treasury Financing Operations

December Certificate and Bond Maturities

On November 19, 1947, the Secretary of the Treasury announced the plans to refund the \$3,982 million of securities maturing in December. The maturing securities consisted of a one-year $7/8$ percent certificate of indebtedness maturing December 1 in the amount of \$3,281 million and the 2 percent bonds of 1947 maturing December 15, 1947, in the amount of \$701 million.

In exchange for the two maturing issues, there was offered an issue of 13-month Treasury notes, dated December 1, 1947, and bearing interest from that date at the rate of $1-1/8$ percent per annum, payable with the principal at maturity on January 1, 1949. In the case of the maturing certificates, exchanges were made par for par, and in the case of the maturing bonds, exchanges were made at par with an adjustment of interest as of December 15, 1947. The notes were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

Reports to the Treasury on the ownership of Government securities indicate that on October 31, 1947, about 29 percent of the \$3,281 million of certificates maturing December 1, and about 74 percent of the \$701 million of 2 percent bonds maturing December 15 were owned by reporting commercial banks and Federal Reserve Banks. The ownership figures for October 31 are the latest which are available for holdings of both commercial banks and Federal Reserve Banks.

Subscription books were opened on November 19 and closed at the close of business November 21. Holdings of the certificates of indebtedness by the Federal Reserve Banks, which amounted to \$139 million, were redeemed in full for cash. Certificates of indebtedness subscribed in exchange for the new notes amounted to \$2,908 million, leaving

\$234 million to be paid in cash to holders other than Federal Reserve Banks. Bonds subscribed in exchange for the new notes amounted to \$627 million, leaving \$74 million to be paid in cash.

Treasury Bill Retirement in November

A further redemption in outstanding Treasury bills was made by the Treasury Department in November. The four issues maturing during the month totaled \$4.8 billion and the total refunded was \$4.4 billion. Each weekly maturing issue was reduced by \$100 million. The first maturity was for \$1.1 billion, the second and third for \$1.2 billion each, and the fourth for \$1.3 billion. Bill retirements from April 17, when the first bill reduction took place, through November 28, 1947, have totaled \$1.7 billion. The average rates of discount for the four offerings, beginning with that dated November 6, were 0.895 percent, 0.912 percent, 0.931 percent, and 0.940 percent, respectively.

Call of Two Issues of Treasury Bonds

On November 14, 1947, the Secretary of the Treasury announced that two issues of Treasury bonds were called for redemption on March 15, 1948. These issues are the 2 percent Treasury bonds of 1948-50, dated March 15, 1941, and the 2-3/4 percent Treasury bonds of 1948-51, dated March 16, 1936. There are outstanding \$1,115 million of the 2 percent bonds and \$1,223 million of the 2-3/4 percent bonds. The interest on the 2 percent issue is taxable and on the 2-3/4 percent issue is partially tax exempt. The announcement stated that the holders of the bond issues may, in advance of the redemption date, be offered the privilege of exchanging all or any part of the called bonds for other interest-bearing obligations of the United States, in which event public notice would be given and an official circular governing the exchange offering would be issued.

Note: Historical details of Treasury market financing operations are shown in the tables on "Offerings" and "Disposition", respectively, of marketable issues of

bonds, notes, and certificates of indebtedness, and the tables on "Offerings and Maturities of Treasury Bills", in this issue of the "Treasury Bulletin".

• Less than \$500,000.

^{1/} General expenditures now include expenditures for revolving funds; back figures have been revised accordingly.^{2/} Includes public works undertaken by the Veterans' Administration.^{3/} Does not include transfers to trust accounts, etc. These are shown in Table 5.^{4/} "Refunds of taxes" include amounts transferred to public debt accounts to cover issuance of excess profits tax refund bonds and exclude refunds of taxes under the Social Security program. Excess profits tax refund bonds were formerly issued to corporations entitling them to a postwar credit equal to 10% of the excess profits tax paid. The Tax Adjustment Act of 1945 reduced by 10% the amount of excess profits tax to be paid and abolished the postwar credit. For amounts of excess profits tax refund bonds issued, see table entitled "Analysis of Issuance and Retirement of Public Debt". Outstanding excess profits tax refund bonds may be redeemed at the option of the holder commencing January 1, 1946; when such redemptions occur, they will appear as retirement of public debt.^{5/} Consists of Department of Agriculture expenditures, except forest roads and trails which are included in "Public works." Amounts for restoration of capital impairment of Commodity Credit Corporation are as follows: Fiscal year 1945, \$257 million; July 1946, \$921 million; and May 1947, \$642 million.^{6/} Includes railroad retirement and railroad unemployment activities

and excludes expenditures made by Department of Labor, U. S. Employment Service (formerly Office for Emergency Management, War Manpower Commission, U. S. Employment Service), under authority of Social Security Act. For further details, see tables which follow on the Social Security program.

^{1/} Includes public buildings, public highways (including forest roads and trails), river and harbor work and flood control, Tennessee Valley Authority, Public Housing Administration (formerly Federal Public Housing Authority), reclamation projects and the Public Works Administration. Excludes certain expenditures for public works in connection with national defense and related activities by the Federal Works Agency, beginning July 1941.^{8/} Consists of payments under Bretton Woods Agreements Act - International Bank and International Monetary Fund; credit to United Kingdom; Export-Import Bank of Washington - capital stock; assistance to Greece and Turkey; relief to people of countries devastated by war; and relief to civilians in occupied countries.^{9/} Classified as "Other" expenditures commencing July 1, 1945. For additional information on Direct and work relief, see "Treasury Bulletin" for August 1945, page 6.^{10/} Gross expenditures have been reduced \$315 million representing the repayment of capital funds by certain United States Government agencies. For further details see "Treasury Bulletin" for June 1943, page 9, footnote 12.^{11/} Includes \$500 million for Commodity Credit Corporation - postwar price support of agriculture.

* Less than \$50,000.

1/ Formerly Title VIII of the Social Security Act.

2/ Formerly Title IX of the Social Security Act. Includes amounts equal to appropriations to Railroad Unemployment Insurance Administration Fund equivalent to amounts of taxes collected with respect to the period from January 1936 to June 1939, inclusive, from employers subject to the Railroad Unemployment Insurance Act (See Table 3 of Section I).

3/ Prior to January 1, 1940, figures represent amounts transferred to the Old-Age Reserve Account. From January 1 to July 1, 1940 "Transfers" were made to the Federal Old-Age and Survivors Insurance Trust Fund. Subsequently receipts have been deposited in the General Fund of the Treasury and "appropriated" directly to the Federal Old-Age and Survivors Insurance Trust Fund. Amounts shown as transfers reflect deductions made for reimbursement to the General Fund amount to cover administrative expenses, which are shown as expenditures in Section II, Table I.

4/ Includes only expenditures from appropriations made specifically for administrative expenses relating to the Social Security Act; namely,

Social Security Administration, Department of Commerce, and Department of Labor; and administrative expenses reimbursed to the General Fund of the Treasury under Section 201 (f) of the Social Security Act, as amended. Beginning July 1, 1940, includes also administrative expenses under the Wagner-Peyser Act. Excludes administrative expenses payable from other appropriations, principally for the following agencies: Bureau of Internal Revenue of the Treasury Department, and Public Health Service and Office of Education of the Federal Security Agency.

5/ Beginning July 1, 1945, payments previously made under the Social Security Act were discontinued, and thereafter were made under provisions of the Public Health Service Act of 1944.

6/ Includes expenditures under Social Security Act by the Department of Labor through July 31, 1946.

7/ Classified as "Executive Office, Office for Emergency Management, War Manpower Commission" through July 31, 1946.

8/ Covered by appropriations by Congress.

9/ Second Deficiency Appropriation Act, fiscal year 1938, appropriated \$41 million for refunding to certain States portions of Federal employers' tax for 1936 collected under the Social Security Act.

* Less than \$500,000.

^{1/} Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.

^{2/} Interest payments to wholly owned Government corporations are not deducted because they are treated as negative expenditures when

received by corporations; hence payment and receipt offset each other in the expenditure series.

^{3/} For detail, see Table 5 under "Budget Receipts and Expenditures".

^{4/} Budget expenditures involving the issuance of U. S. securities are treated as noncash at the time of original payment and as cash expenditures at the time of redemption. The figures shown are net issuances, or net redemptions (-).

• Less than \$500,000.

- 1/ Issuance of U. S. securities resulting from budget expenditures are treated as noncash at the time of issuance and as cash budget expenditures at the time of redemption. The figures shown are net issuances, or net redemptions (-).
- 2/ Expenditures for U. S. subscriptions to the capital of the International Monetary Fund and the International Bank for Reconstruction and Development require special explanation. United States payments to the Fund in fiscal 1947, for example, consisted of \$1,800 million paid from the Exchange Stabilization Fund (Table 1) and \$950 million paid as budget expenditures. Of this total, \$1,724 million (net) was invested in noninterest-bearing U. S. notes thereby making this amount noncash expenditures during the fiscal year. Of the \$1,026 million cash portion of the expenditures, \$968 million

came from the initial Exchange Stabilization Fund Payment and the remaining \$58 million represented redemption later in the fiscal year of notes assumed to have been acquired through the Stabilization Fund payment. Accordingly, the noncash payments to the Fund are made up of \$774 million for the Exchange Stabilization Fund payment and \$950 million from the budget payment. In the case of the International Bank, a total of \$476 million was paid during fiscal 1947 - all in the form of budget expenditures. On net balance, \$416 million occurred as a noncash expenditure because of the issuance of noninterest-bearing U. S. notes. Table 5 thus shows a total of \$2,140 million (net) of such notes issued to the two institutions in the fiscal year 1947. Budget estimates show that \$916 million of these notes will be redeemed in the fiscal year 1948, thereby increasing cash expenditures.

1/ Accrued discount on savings bonds and bills less interest paid on savings bond and bills redeemed.

2/ Includes borrowing through Postal Savings System.

• Less than \$500,000.

1/ Includes amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law.

2/ Comprises Federal Old-Age and Survivors Insurance Trust Fund, National Service Life Insurance Fund, Unemployment Trust Fund, Railroad Retirement Account, Government Insurance and Retirement Funds and other trust accounts. (See footnote 4.)

3/ Changes for retirement of national bank notes are reflected in this statement directly against increment on gold, in the years during which the retirements were actually made. (See footnote 7.)

4/ Comprises Public Works Administration revolving fund, special de-

posits (net), and, during the fiscal years 1940 through 1945, transactions in commodity food stamps by the Department of Agriculture. Commencing July 1, 1945, such transactions are classified in the column "Trust accounts".

5/ Net receipts in this column constitute net sales, and net expenditures constitute net redemptions of obligations.

6/ For outstanding checks and telegraphic reports from Federal Reserve Banks.

7/ Expenditures for the retirement of national bank notes from increment on gold for the fiscal years 1938 and 1939 (as shown below) are not reflected herein, but are reflected under increment on gold as follows: 1938, \$51 million; and 1939, \$5 million. The increase in the public debt shown in the table "Means of Financing Cash Requirements" for the above fiscal years will not agree for the reason stated above.

^{1/} Treasury bills are included in interest-bearing debt figures at face amount, but for purposes of calculating the computed annual interest charge and the computed rate of interest, the discount value is used. For the purposes of computing the annual interest charge and rate of

interest on United States savings bonds, Series A-E are considered to yield 2.90% per annum and Series F is considered to yield 2.53%. Guaranteed securities held by the Treasury, and securities guaranteed as to interest only, are not included in this table.

• Less than \$500,000.

^{1/} The obligations shown in this table were issued to the Treasury to finance Government corporations and certain other business-type activities, with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding

as shown in preceding tables.

^{2/} Name changed from Federal Public Housing Authority (originally U. S. Housing Authority) pursuant to Reorganization Plan No. 3 of 1947.

^{3/} Total includes obligations of the Virgin Islands Company in the amount of \$250,000.

^{1/} Excludes postal savings bonds.^{2/} It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For date of issue of each security, see chapter on "Prices and Yields

of Government Securities"; for tax status, see chapter on "Ownership of Government Securities".

^{3/} Bank restricted issues may not be acquired by commercial banks (with minor exceptions) prior to a specified date. See footnote to tables on "Public Debt and Guaranteed Obligations of the United States Government Outstanding".

1/ Original call and maturity dates are used.

2/ Prior to the refunding operation of March 1, 1946, maturing issues were either paid off in full or the holders were given the privilege

of exchange into another security in full. Beginning with that operation, some maturities have been split by the Treasury into a stated portion for cash retirement with the remainder covered by an offering of an exchange security.

Sales and Redemptions of United States Savings Bonds

United States savings bonds were first offered for sale in March 1935. Series A-D were sold from March 1935 to April 1941. Series E, F, and G bonds have been on sale since May 1, 1941. For information on the terms and conditions of these bonds, see "Treasury Bulletin" issues for December 1947, page 31, and October 1935, pages A-4 and A-5. Sales and redemptions data by States are published at the end of each calendar and each fiscal year after June 30, 1947. Sales by denominations are published quarterly after September 30, 1947. In

the following tables sales figures are quoted at issue price, and redemptions and amounts outstanding at current redemption values. Amounts of Series G outstanding are quoted at par. Matured bonds which have been redeemed are included in the figures on redemptions. Matured bonds outstanding are reflected in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Beginning with June 1947, Series E sales include small amounts of unclassified sales consisting of Series E, F, and G. These amounts are substantially less than the sales reported as unclassified in the Daily Treasury Statement. The greater part of that item consists of sales for which information is available as to the series but not the year of issue. On the basis of that information such sales are included in this table according to series. Prior to

June 1947, it was possible to distribute by series all sales reported as unclassified in the Daily Treasury Statement.

2/ Series E redemptions include small amounts of unclassified Series A-D redemptions beginning with October 1944, and small amounts also of unclassified F and G redemptions, beginning with June 1947.

3/ Not calculated for matured series.

Sales and Redemptions of Treasury Savings Notes

Treasury savings notes have been issued in three series: series A from August 1, 1941, through June 22, 1943; series B from August 1, 1941 through September 12, 1942; and series C on continuous sale since September 14, 1942. For details concerning terms and conditions, investment yields, and tax payment or redemption values of series C notes, see "Treasury Bulletin" for October 1945, pages A-4 and A-5. For similar information regarding series A and B notes, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220. For sales and redemptions of series A and B notes by fiscal years

and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

p Preliminary.
• Less than \$500,000.

1/ Excludes obligations held by the Treasury.

2/ Holdings by Federal land banks are included under "Private investors" instead of "U. S. Government agencies and trust funds" beginning with June 30, 1947, since the proprietary interest of the United States in these banks was ended June 26, 1947, with

the repayment of the last of its investment. On May 31, 1947, the Federal land banks held \$134 million of securities issued or guaranteed by the United States.

3/ The total amount of securities held by private investors is calculated by deducting from the total amount of securities outstanding, the securities held by U. S. Government agencies and trust funds and by Federal Reserve Banks.

4/ Includes United States savings bonds, Series A-F at maturity value.
5/ Consists of Commodity Credit Corporation demand obligations stated as of the close of the previous month, in accordance with the Daily Treasury Statement.

1/ Consists of purchases or sales made by the Treasury. Treasury investment accounts comprise (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain

U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. This table also includes purchases under Section 19 of the Second Liberty Bond Act, as amended, and excludes the Exchange Stabilization Fund.

**Treasury Survey of Ownership of Securities Issued by the United States
and by Federal Agencies, October 31, 1947**

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States.

Information on the distribution of ownership by types of banks and insurance companies is published each month. Additional information showing the holdings of commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks has been published at less frequent intervals. Currently,

this information is published for June 30 and December 31.

The Survey began with data for March 31, 1941, which appeared in the "Treasury Bulletin" for May of that year. Revisions of data on insurance companies for May 31, 1943, and prior months appeared in the November 1943 issue; reclassification of data on banks for the period November 30, 1943, through February 29, 1944, appeared in the May 1944 issue; and revisions of data for September 30, 1944, appeared in the February 1945 issue.

^{1/} Excludes trust departments.^{2/} Includes trust companies.^{3/} Includes those banks and insurance companies not reporting in the Treasury Survey.^{4/} U.S. demand obligations in the amount of \$45 million, all held by commercial banks, are shown only in the total amount outstanding; data for reporting banks are not available.^{5/} Excludes guaranteed securities held by the Treasury.^{6/} Issues which commercial banks may not acquire prior to a specified date (with minor exceptions); see footnotes to tables on "Public Debt and Guaranteed Obligations Outstanding".^{7/} Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in

the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to both normal tax and surtax.

^{8/} Includes F. H. A. debentures; see footnote 9.^{9/} A small indeterminate amount of these debentures is partially tax-exempt.^{10/} United States savings bonds, Series C, D, E, and F, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.^{11/} Savings bonds sold prior to March 1, 1941, are partially tax-exempt; those sold on and after that date are taxable.^{12/} The proprietary interest of the United States in these bonds ended on June 26, 1947, with the repayment of the last of its investment.

1/ Excludes the following securities not regularly quoted in the market: (1) postal savings bonds and (2) Federal Housing Administration debentures (the only public marketable interest-bearing guaranteed securities outstanding).

2/ Quoted on a price basis beginning November 21, 1947.

3/ Not issued until December 1, 1947; for amount, see table entitled "Offerings of Marketable Issues of Treasury Bonds, Notes, and Certificate of Indebtedness" in the chapter on the "General Fund Position and Debt Outstanding".

4/ Prices represent the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, represent closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939, for all securities except Federal Intermediate Credit Bank debentures. Dates of highs and lows, in case of recurrence, are the latest dates.

5/ Called on November 14, 1947, for redemption on March 15, 1948.

6/ Included in the average yield of long-term taxable Treasury bonds as shown

in the table "Average Yields of Long-Term Treasury and Corporate Bonds".

7/ Issues which commercial banks may not acquire prior to a specified date (with minor exceptions).

8/ All partially tax-exempt except Panama Canal bonds, which are wholly tax-exempt.

9/ Quoted on a yield basis beginning October 14, 1947; prior thereto quoted on a price basis. Price history ends October 10, 1947.

10/ Prices quoted are subject to a dealer's commission. These securities are not shown until date of issue.

11/ Not quoted on November 28, 1947.

12/ Excludes issues completely held by Farm Credit Administration agencies. The proprietary interest of the United States in these banks ceased on June 26, 1947, with the repayment of the last of its investment.

13/ Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.

YIELDS OF TREASURY SECURITIES NOV. 28, 1947

Based on Mean of Closing Bid and Asked Quotations

Explanation The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Note: Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market, beginning September 2, 1941; previously, closing prices on the New York Stock Exchange were used on days when sales took place on the Exchange in a particular issue and the mean of closing bid and ask quotations on the New York Stock Exchange on days when no sales took place. Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used. Monthly and weekly (old series) data for the period January 1933 through March 1944 appeared in the "Treasury Bulletin" for April 1944, pages 57-61.

1/ Average of Treasury bonds neither due nor callable for fifteen years. For discussion of composition of average see "Treasury Bulletin" for March 1944, page 58. The partially tax-exempt series was discontinued on December 15, 1945 because there were no longer any bonds of this classification due or callable in 15 or more years. Partially tax-exempt bonds are those the interest on which is exempt from the normal

rates of the Federal income tax, except that in the case of partially tax-exempt Treasury and United States savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax rates of the Federal income tax. Taxable bonds are those the interest on which is subject to both the normal and surtax rates of the Federal income tax.

2/ For discussion of present composition of high-grade corporate bond average, see "Treasury Bulletin" for July 1947, page 59; for discussion of its previous composition, see "Treasury Bulletin" for January 1945, page 56.

3/ Average revised beginning July 1, 1941. Old average for July 1941 was also 2.66%.

4/ Average revised beginning November 1, 1944. Old average for November 1944 was 2.56%.

5/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%. See footnote 2.

CAPITAL MOVEMENTS BETWEEN THE UNITED STATES
AND FOREIGN COUNTRIES AND NET POSITION
IN FOREIGN CURRENCIES

Capital Movements Between the United States and Foreign Countries, and Net Position in Foreign Currencies

This chapter on Capital Movements between the United States and Foreign Countries and Position in Foreign Currencies is divided into four main groups. Section I of Capital Movements, the Historical Summary, contains data regarding capital movements by the principal types of data, and by years from 1935, and currently by months. Each type of data is then broken down into its chief components in the same chronological detail.

Section II supplies a geographic breakdown by principal countries on a monthly basis. The total capital movements are given first and then the principal categories are shown separately. In addition, at this point, the total outstanding claims on and liabilities to foreign countries are each presented.

Details with respect to capital movements and short-term claims and liabilities are presented in Section III as of the latest month for which the data are available.

The last group contains monthly data regarding the

net position in foreign currencies of United States banks and brokers, their outstanding foreign exchange contracts, and purchases and sales of foreign exchange, both spot and forward.

These data are based on reports filed each month by banks, bankers, and brokers throughout the United States. The reports are collected, checked, and tabulated by the twelve Federal Reserve Banks. The totals are then forwarded to the Treasury Department for consolidation and publication.

Figures for previous periods may be obtained from the following sources:

Supplement to the "Treasury Bulletin" on "Capital Movements between the United States and Foreign Countries, January 1942 through April 1945", for details during that period.

"Treasury Bulletin", November 1945, for capital movements, and position in foreign currencies by months, 1942-1945.

"Treasury Bulletin", March 1942 and earlier, for details covering years back to January 2, 1935.

Corporations and Certain Other Business-Type Activities of the United States Government

Data relating to corporations in which the United States has a proprietary interest, direct or indirect, and certain other business-type activities of the Government are presented in three sections. Section I contains balance sheet data; Section II, data on income and expense; and Section III, data on sources and application of funds.

The data in Section I are compiled from the midmonth "Daily Treasury Statement". Tables 1 and 2, giving an

analysis of loans outstanding by type of loan as of June 30, 1947, were published in the December issue of the "Treasury Bulletin". Tables 3, 4, and 5, giving an analysis of balance sheet items as a whole for the same date, appear in this issue. Sections II and III will appear in subsequent issues. After the figures for June 30, 1947, data on corporations and certain other business-type activities of the United States Government will be published semiannually instead of quarterly in the "Treasury Bulletin".

Section I - Balance Sheets as of June 30, 1947
