None of the funds appropriated elsewhere in this Act, except for printing and binding, field exercises, and for pay and allowances of officers and enlisted men of the Regular Army, and for mileage, reimbursement of actual traveling expenses, or per-diem allowances in lieu thereof, as authorized by law, to Air Corps Reserve officers on extended active duty, shall be used for expenses in connection with the Organized Reserves, but available supplies and existing facilities at military posts shall be utilized to the fullest extent practicable.

No appropriation made in this Act shall be available for pay, allowances, or traveling or other expenses of any officer of the Organized Reserves who may be drawing a pension, disability allowance, disability compensation, or retired pay from the Government of the United States: *Provided*, That nothing in this provision shall be so construed as to prevent the application of funds herein contained to the pay, allowances, or traveling expenses of any officer or enlisted man of the Reserve Corps who may surrender said pension, disability allowance, disability compensation, or retired pay for the period of his active duty in the Reserve Corps.

No appropriation made in this Act shall be expended for the pay of a Reserve officer on active duty for a longer period than fifteen days, except such as may be detailed for duty with the War Department General Staff under section 3a and section 5 (b) of the National Defense Act, as amended (10 U. S. C. 26, 37), or who may be detailed for courses of instruction at the general or special service schools of the Army, or to Corps Area staff schools, or for duty as instructors at civilian military training camps, appropriated for in this Act, [or for duty with the Air Corps, under the provisions of section 1 of the Act of June 16, 1936 (49 Stat. 1524),] or who may be detailed to active duty with the Regular Army under the provisions of the Act of [August 30, 1935 (10 U. S. C. 369a)] *April 3, 1939, or whose fifteen-day training period may be increased by not to exceed fifteen additional days*: *Provided*, That the pay and allowances of such additional officers and nurses of the Medical Reserve Corps as are required to supplement the like officers and nurses of the Regular Army in the care of beneficiaries of the United States Veterans' Administration treated in Army hospitals may be paid from the funds allotted to the War Department by that Administration under existing law (*53 Stat. 614–615*).

RESERVE OFFICERS' TRAINING CORPS

Reserve Officers' Training Corps—

For the procurement, maintenance, and issue, under such regulations as may be prescribed by the Secretary of War, to institutions at which one or more units of the Reserve Officers' Training Corps are maintained, of such public animals, means of transportation, supplies, tentage, equipment, and uniforms as he may deem necessary, including cleaning and laundering of uniforms and clothing at camps; and to forage, at the expense of the United States, public animals so issued, and to pay commutation in lieu of uniforms at a rate to be fixed annually by the Secretary of War; for transporting said animals and other authorized supplies and equipment from place of issue to the several institutions and training camps and return of same to place of issue when necessary; for purchase of training manuals, including Government publications and blank forms; for the establishment and maintenance of camps for the further practical instruction of the members of the Reserve Officers' Training Corps, and for transporting members of such corps to and from such camps, and to subsist them while traveling to and from such camps and while remaining therein so far as appropriations will permit, or, in lieu of transporting them to and from such camps and subsisting them while en route, to pay them travel allowance at the rate of 5 cents per mile for the distance by the shortest usually traveled route from the places from which they are authorized to proceed to the camp and for the return travel thereto, and to pay the return travel pay in advance of the actual performance of the travel; for expenses incident to the use, including upkeep and depreciation costs, of supplies, equipment, and matériel furnished in accordance with law from stocks under the control of the War Department; for pay for students attending advanced camps at the rate prescribed for soldiers of the seventh grade of the Regular Army; for the payment of commutation of subsistence to members of the senior division of the Reserve Officers' Training Corps, at a rate not exceeding the cost of the garrison ration prescribed for the Army, as authorized in the Act approved June 3, 1916, as amended by the Act approved June 4, 1920 (10 U. S. C. 387); for the medical and hospital treatment of members of the Reserve Officers' Training Corps, who suffer personal injury or contract disease in line of duty, and for other expenses in connection therewith, including pay and allowances, subsistence, transportation, and burial expenses, as authorized by the Act of June 15, 1936 (49 Stat. 1507); for mileage, traveling expenses, or transportation, for transportation of dependents, and for packing and transportation of baggage, as authorized by law, for officers, warrant officers, and enlisted men of the Regular Army traveling on duty pertaining to or on detail to or relief from duty with the Reserve Officers' Training Corps; for the purchase, maintenance, repair, and operation of motor vehicles, including station wagons, [$4,964,544] *$4,966,430*, of which amount $400,000 shall be available immediately: *Provided*, That the Secretary of War is authorized to issue, without charge, in lieu of purchase, for the use of the Reserve Officers' Training Corps, so many horses now belonging to the Regular Army as he may consider desirable: *Provided*, That uniforms and other equipment or material issued to the Reserve Officers' Training Corps in accordance with law shall be furnished from surplus stocks of the War Department without payment from this appropriation, except for actual expense incurred in the manufacture or issue: *Provided further*, That in no case shall the amount paid from this appropriation for uniforms, equipment, or material furnished to the Reserve Officers' Training Corps from stocks under the control of the War Department be in excess of the price current at the time the issue is made: *Provided further*, That none of the funds appropriated in this Act shall be used for the organization or maintenance of an additional number of mounted, motor transport, or tank units in the Reserve Officers' Training Corps in excess of the number in existence on January 1, 1928: *Provided further*, That none of the funds appropriated in this Act shall be available for any expense on account of any student in Air Corps, Dental Corps, or Veterinary units not a member of such units on May 5, 1932, but such stoppage of further enrollments shall not interfere with the maintenance of existing units: *Provided further*, That none of the funds appropriated elsewhere in this Act, except for printing and binding and pay and allowances of officers and enlisted men of the Regular Army, shall be used for expenses in connection with the Reserve Officers' Training Corps (*10 U. S. C. 381–385, 387–390, 441, 443, 444, 455a, 455c, 455d; 53 Stat. 615–616*).

GENERAL PROVISIONS

The appropriations made [in this Act] *for the Navy* for the purchase or manufacture of equipment or material or of a particular class of equipment or material shall be available for the purchase of letters patent, applications for letters patent, licenses under letters patent, and applications for letters patent that pertain to such equipment or material for which the appropriations are made.

No part of any appropriation made for the Navy shall be expended for any of the purposes herein provided for on account of the Navy Department in the District of Columbia, including personal services of civilians and of enlisted men of the Navy, except as herein expressly authorized: *Provided*, That enlisted men detailed to the Naval Dispensary and the Radio Communication Service shall not be regarded as detailed to the Navy Department in the District of Columbia.

No part of the appropriations made [in this Act] *for the Navy* shall be available for the salary or pay of any officer, manager, superintendent, foreman, or other person or persons having charge of the work of any employee of the United States Government while making or causing to be made with a stop watch or other time-measuring device a time study of any job of any such employee between the starting and completion thereof, or of the movements of any such employee while engaged upon such work; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant; and no part of the moneys herein appropriated for the Naval Establishment or herein made available therefor shall be used or expended under contracts hereafter made for the repair, purchase, or acquirement, by or from any private contractor, of any naval vessel, machinery, article, or articles that at the time of the proposed repair, purchase, or acquirement can be repaired, manufactured, or produced in each or any of the Government navy yards or arsenals of the United States, when time and facilities permit, and when, in the judgment of the Secretary of the Navy, such repair, purchase, acquirement, or production would not involve an appreciable increase in cost to the Government, except when the repair, purchase, or acquirement, by or from any private contractor, would, in the opinion of the Secretary of the Navy, be advantageous to the national defense: *Provided*, That nothing herein shall be construed as altering or repealing the provisos contained in the Acts to authorize the construction of certain naval vessels, approved February 13, 1929, and March 27, 1934, which provide that the first and succeeding alternate vessels in each category, except the fifteen-thousand-ton aircraft carrier, upon which work is undertaken, together with the main engines, armor, and armament, shall be constructed or manufactured in the Government navy yards, naval gun factories, naval ordnance plants, or arsenals of the United States, except such material or parts as are not customarily manufactured in such Government plants.

No part of the funds herein appropriated shall be available to pay a contractor upon any contract for a naval vessel entered into under authority of this Act unless, at the time of filing his bid, he shall also file the estimates upon which such bid was based (*53 Stat. 778–779*).

None of the funds appropriated elsewhere in this Act, except for printing and binding, field exercises, and for pay and allowances of officers and enlisted men of the Regular Army, and for mileage, reimbursement of actual traveling expenses, or per diem allowances in lieu thereof, as authorized by law, to Air Corps Reserve officers on extended active duty, shall be used for expenses in connection with the Organized Reserves, but available supplies and existing facilities at military posts shall be utilized to the fullest extent practicable.

No appropriation [made in this Act] *for the War Department* shall be available for pay, allowances, or traveling or other expenses of any officer of the Organized Reserves who may be drawing a pension, disability allowance, disability compensation, or retired pay from the Government of the United States: *Provided*, That nothing in this provision shall be so construed as to prevent the application of funds herein contained to the pay, allowances, or traveling expenses of any officer or enlisted man of the Reserve Corps who may surrender said pension, disability allowance, disability compensation, or retired pay for the period of his active duty in the Reserve Corps.

No appropriation [made in this Act] *for the War Department* shall be expended for the pay of a Reserve officer on active duty for a longer period than fifteen days, except such as may be detailed for duty with the War Department General Staff under section 3a and section 5 (b) of the National Defense Act, as amended (10 U. S. C. 26, 37), or who may be detailed for courses of instruction at the general or special service schools of the Army, or to Corps Area staff schools, or for duty as instructors at civilian military training camps, appropriated for in this Act, [or for duty with the Air Corps, under the provisions of section 1 of the Act of June 16, 1936 (49 Stat. 1524),] or who may be detailed to active duty with the Regular Army under the provisions of the Act of [August 30, 1935 (10 U. S. C. 369a),] *April 3, 1939, or whose fifteen-day training period may be increased by not to exceed fifteen additional days*: *Provided*, That the pay and allowances of such additional officers and nurses of the Medical Reserve Corps as are required to supplement the like officers and nurses of the Regular Army in the care of beneficiaries of the United States Veterans' Administration treated in Army hospitals may be paid from the funds allotted to the War Department by that Administration under existing law (*53 Stat. 614–615*).

EXPLANATORY STATEMENT

The appropriations for the Post Office Department authorize expenditures for particular purposes not to exceed the amount appropriated for each separate appropriation item. The postal revenues are used to meet these expenditures and any excess of authorized expenditures over the revenues is paid from the general fund of the Treasury.

The postal revenues for a particular fiscal year reflect the trend in postal operations for that year compared with other years. Also, a material increase in revenues indicates an increase in postal business, which in turn involves an increase in postal expenditures. During the fiscal year 1934 a low point was reached when the revenue dropped to $586,700,000 and expenditures to $630,700,000. Since that time both the revenues and expenditures have increased year by year.

For 1939 the revenues are stated at $745,955,075 and the expenditures at $786,782,170, resulting in expenditures in excess of receipts in the amount of $40,827,095.

For 1940 the receipts are now estimated at $755,000,000 as against the estimate of $740,000,000 set forth in the Budget for 1940. The appropriations for 1940 total $794,019,964, which exceed the estimated revenues by $39,019,964. If the up-trend in postal business continues and $15,000,000 more in revenue is realized than the estimate of $740,000,000 upon which the appropriations for 1940 were predicated, it appears that supplemental appropriations will be required to provide for the increased cost of handling and transporting the mails during the current fiscal year.

For the fiscal year 1941, it is estimated that postal revenue will amount to $760,000,000. The estimates of appropriations contained in this Budget aggregate $816,897,832, and exceed the estimated revenue by $56,897,832. The estimates of appropriations for 1941 exceed the appropriations for 1940 by $22,877,868. This difference will, of course, be reduced by such amount as may be provided as supplemental appropriations for 1940. The amount of $22,877,868 represents the difference between aggregate increases of $24,192,239 under certain items and total decreases of $1,314,371 under other items.

The net differences between the estimates for 1941 and the appropriations for 1940 under the respective offices or bureaus are set forth as follows: Departmental salaries and expenses from $3,945,144 for 1940 to $4,026,512 for 1941, an increase of $81,368; under the Office of the Postmaster General (field) from $268,000 to $138,000, a reduction of $130,000; under the Office of the Chief Inspector (field) from $3,501,000 for 1940 to $3,626,400 for 1941, an increase of $125,400; under the Office of the First Assistant Postmaster General from $450,039,180 for 1940 to $465,460,959 for 1941, an increase of $15,421,779; under the Office of the Second Assistant Postmaster General from $270,926,000 for 1940 to $277,308,500 for 1941, an increase of $6,382,500; under the Office of the Third Assistant Postmaster General

from $5,349,000 for 1940 to $5,250,000 for 1941, a reduction of $99,000; and under the Office of the Fourth Assistant Postmaster General from $59,991,640 for 1940 to $61,087,461 for 1941, an increase of $1,095,821.

The estimates provide funds under departmental salaries and expenses for the establishment of a Division of Personnel Supervision and Management to enable the Department to comply with the provisions of Executive Order No. 7916, dated June 24, 1938; funds to enable the Department to comply with the act of July 18, 1939 (Public, No. 194, 76th Cong.), which provides for sick and annual leave with pay for substitute employees in the Postal Service; and funds to enable the Department to comply with the act of August 9, 1939 (Public, No. 350, 76th Cong.), which provides that employees of the Railway Mail Service shall be granted credit in their pay schedule for the holiday known as Armistice Day. The estimates also provide additional funds for equipment and supplies and for increases in numbers of post-office clerks, carriers, and other personnel handling the mails, due to expansion of postal activities. Additional funds are required for maintenance and operation of public buildings administered by the Post Office Department, due to the additional number of public buildings that will be in commission during 1941.

The foreign air-mail service is gradually being extended to provide additional service as circumstances justify, and the estimate for this service is $15,674,149, or $3,154,629 over the 1940 appropriation. The estimate for domestic air-mail service is $737,150 over the 1940 appropriation. The estimates for both the foreign and domestic air-mail services include additional amounts necessary to meet increased rates of compensation to aircraft carriers fixed by the Interstate Commerce Commission and the Civil Aeronautics Authority since the transmission of the Budget for 1940.

The estimates show a substantial increase over the 1940 appropriation for transportation of mail by railroads. For several years prior to the calendar year 1939, a number of short-line railroads were being abandoned, and the larger railroad systems were curtailing service on main and branch lines. Improved conditions during the past year have made it possible in numerous instances for the railroad companies to restore service. This change in railway service, together with the increased volume of mail to be transported, is responsible for this increased transportation cost. It now appears that the amount appropriated for this purpose for 1940 will not be sufficient and that a supplemental appropriation will be required.

SEC. 2. Appropriations for the fiscal year [1940] *1941* available for expenses of travel of civilian officers and employees of the executive departments and establishments shall be available also for expenses of travel performed by them on transfer from one official station to another when authorized by the head of the department or establishment concerned in the order directing such transfer: *Provided*, That such expenses shall not be allowed for any transfer effected for the convenience of any officer or employee.

SEC. 3. No appropriation available for the executive departments and independent establishments of the Government for the fiscal year ending June 30, [1940] *1941*, whether contained in this Act or any other Act, shall be expended—

(a) To purchase any motor-propelled passenger-carrying vehicle (exclusive of busses, ambulances, and station wagons), at a cost, completely equipped for operation, and including the value of any vehicle exchanged, in excess of $750, unless otherwise specifically provided for in the appropriation.

(b) For the maintenance, operation, and repair of any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment, except in cases of medical officers on out-patient medical services and except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only as to such latter cases when the same is approved by the head of the department or

establishment concerned. The limitations of this subsection (b) shall not apply to any motor vehicles for official use of the President, or of the heads of the executive departments, *establishments, and agencies, or ministers, ambassadors and charges d' affaires.*

(c) For the maintenance, upkeep, and repair (exclusive of garage rent, pay of operators, tires, fuel, and lubricants) on any one motor-propelled passenger-carrying vehicle, except busses and ambulances, in excess of one-third of the market price of a new vehicle of the same make and class and in no case in excess of $400.

SEC. 4. No part of the money appropriated under this Act shall be paid to any person for the filling of any position for which he or she has been nominated after the Senate upon vote has failed to confirm the nomination of such person.

SEC. 5. No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of any agency the majority of the stock of which is owned by the Government of the United States, whose post of duty is in continental United States unless such officer or employee is a citizen of the United States or a person in the service of the United States on the date of the approval of this Act who being eligible for citizenship has filed a declaration of intention to become a citizen or who owes allegiance to the United States: *Provided*, That this section shall not apply to enlisted men of the United States Coast Guard who are on active duty in that service on the effective date of this Act, until the expiration of the period required for such enlisted men to complete their naturalization, nor shall it apply to personnel of the Coast Guard on the retired list, and enlisted men on active duty with over twelve years' honorable service who are ineligible for United States citizenship.

[SEC. 6. On and after July 1, 1939, no executive department or independent establishment of the Government shall transmit through the mail, free of postage, any book, report, periodical, bulletin, pamphlet, list, or other article or document (except official letter correspondence, including such enclosures as are reasonably related to the subject matter of the correspondence; informational releases in connection with the decennial census of the United States, mail concerning the sale of Government securities, and all forms and blanks and copies of statutes, rules, regulations, and instructions and administrative orders and interpretations necessary in the administration of such departments and establishments), unless a request therefor has been previously received by such department or independent establishment; or such transmission is required by law; or such document is transmitted to inform the recipient thereof of the adoption, amendment, or interpretation of a statute, rule, regulation, or order to which he is subject. For each quarter, beginning with the quarter commencing July 1, 1939, the head of each independent establishment and executive department (other than the Post Office Department) shall submit to the Postmaster General, within thirty days after the close of the quarter, a statement of the weight of the mail matter by classes of mail that the independent establishment or department has transmitted free of postage during such quarter, and he shall also certify to the Postmaster General at the end of each such quarter that nothing was transmitted through the mail free of postage by the independent establishment or department in violation of the provisions of this section: *Provided*, That nothing herein shall be construed to prohibit the mailing free of postage of lists of agricultural bulletins, lists of public documents which are offered for sale by the Superintendent of Documents, or of announcements of publications of maps, atlases, statistical, and other reports offered for sale by the Federal Power Commission as authorized by section 312 of the Federal Power Act: *Provided further*, That this prohibition shall not apply to the transmission of such books, reports, periodicals, bulletins, pamphlets, lists, articles, or documents to educational institutions or public libraries, or to Federal, State, or other public authorities"] (*53 Stat. 989–990*).

EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order No. 6340, dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. The act of March 4, 1939, continued the Corporation as an agency of the United States to June 30, 1941, or such earlier date as may be determined by the President.

The Corporation was transferred to the Department of Agriculture by Reorganization Plan No. I, effective July 1, 1939.

The Corporation has a capital stock of $100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of $900,000,000.

In addition to its general discretionary powers to make loans, the Corporation is directed by section 302 of the Agricultural Adjustment Act of 1938, as amended, to make loans upon cotton, wheat, and corn where the market price drops below a certain minimum or the crop estimates exceed normal domestic consumption and exports.

The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of the 31st of March in each year for the purpose of determining its net worth. In the event, the net worth of the Corporation is determined to be less than $100,000,000, the Secretary of the Treasury, subject to appropriation of funds therefor, is required to restore such capital impairment. In the event the net worth exceeds $100,000,000, such excess shall be deposited by the Corporation in the Treasury of the United States to the credit of miscellaneous receipts.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Export-Import Bank of Washington was organized under the laws of the District of Columbia, pursuant to Executive Order No. 6581, dated February 2, 1934, to aid in financing and facilitating exports and imports and the exchange of commodities between the United States and other nations or the agencies or nationals thereof.

The capital stock of the bank consists of $1,000,000 of common stock held by the United States and $45,000,000 of preferred stock held by the Reconstruction Finance Corporation.

The act of March 4, 1939, continues the bank as an agency of the United States until June 30, 1941, or such earlier date as the President may fix by Executive order. The Act further provides "that the Export-Import Bank of Washington shall not have outstanding at any one time loans or other obligations to it in excess of $100,000,000, the capital for which the Reconstruction Finance Corporation, when requested by the Secretary of the Treasury with the approval of the President, may continue to supply from time to time through loans or by subscription to preferred stock."

The bank was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Housing Administration was created by the National Housing Act approved June 27, 1934 (48 Stat. 1246), to insure lending institutions against loss incurred on two general types of loans: Those for financing repairs, alterations, and improvements upon or in connection with existing structures and the building of new structures upon urban, suburban, or rural real property and those secured by mortgages on structures designed primarily for residential use. As to the first type of loan the total liability which may be outstanding at any time plus the amount of insurance claims paid under title I of said act, as amended, less the amount collected from insurance premiums and deposited in the Treasury of the United States under the provisions of section 2 (f), title I, shall not exceed in the aggregate $100,000,000 and under the present law the authority to insure such loans expires on June 30, 1941. The total insurance liability under the second type of loan is $3,000,000,000, which amount may be increased by the President to $4,000,000,000.

The Administration was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts, expenditures, and means of financing of the Administration are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Savings and Loan Insurance Corporation was created by title IV of the National Housing Act approved June 27, 1934 (12 U. S. C. 1725–1732), to insure the safety of savings in thrift and home financing institutions. The Corporation protects investors and depositors up to $5,000 against loss in the event of default of an insured institution.

The Corporation is an instrumentality of the United States and operates under a board of trustees composed of the members of the Federal Home Loan Bank Board. Its capital stock of $100,000,000 was purchased and is held by the Home Owners' Loan Corporation.

The Corporation was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts and expenditures and means of financing of the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Home Owners' Loan Corporation was created by the act of June 13, 1933, to grant long-term mortgage loans at low interest rates in order that distressed home owners might refinance their homes and, wherever possible, save them from foreclosure. The Corporation has a capital stock of $200,000,000 owned by the United States and has authority to issue $4,750,000,000 in bonds unconditionally guaranteed by the United States Government. In accordance with the Home Owners' Loan Act of 1933 the Corporation terminated its lending activities on June 12, 1936, and is now principally engaged in servicing the loans outstanding and in managing and disposing of real estate acquired as a result of foreclosure proceedings.

The Corporation was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Reconstruction Finance Corporation, organized under the act of January 22, 1932 (47 Stat. 5), was created for the purpose of providing emergency loaning facilities for banking and other financial institutions, and for agricultural, commercial, and industrial purposes. The general scope of the Corporation's functions, as authorized by that act, has been extended by subsequent legislation. The act of March 4, 1939, extended the obligating authority of the Corporation to June 30, 1941.

The capital stock of the Corporation, $500,000,000, was subscribed by the Secretary of the Treasury from an appropriation made by Congress in accordance with the terms of the original law. Additional funds are provided by an authorization to issue notes, debentures, bonds, and other obligations within limits prescribed by law. The Secretary of the Treasury may purchase the obligations of the Corporation whenever additional funds are needed.

The Corporation operates by two general methods in carrying out its corporate purposes and functions. It renders financial aid directly to eligible applicants by making loans or by purchases of preferred stock. Such transactions are referred to as "direct operations." The Corporation also furnishes funds to other governmental agencies or corporations, such transfers of funds being referred to as "allocations." These financial operations are indicated in the Corporation's annexed budget shown above.

The direct operations of the Corporation include loans made to banks, railroads, and business enterprises; loans made for financing the marketing of agricultural products; purchases of stock in banks, insurance companies, and mortgage corporations; and for all administrative expenses incurred in connection with such transactions. Direct receipts include repayment of principal and interest.

Allocations make funds available for advances to other Government agencies and corporations, or for subscriptions to capital stock. These funds have been employed to purchase the capital stock of the Disaster Loan Corporation, regional agricultural credit corporations, Home Owners' Loan Corporation, Federal home-loan banks, Export-Import Banks, Federal Farm Mortgage Corporation, The RFC Mortgage Company, and Federal National Mortgage Association. Funds have also been supplied to the Federal Emergency Relief Administration, Farm Credit Administration, Federal Housing Administration, Commodity Credit Corporation, Rural Electrification Administration, and for the purchase of securities from the Federal Emergency Administration of Public Works and for transfer to the appropriation under the Emergency Relief Appropriation Act of 1935.

By the act of February 24, 1938, the Secretary of the Treasury was authorized and directed to cancel obligations of the Reconstruction Finance Corporation representing outstanding amounts invested in, or advanced to, various Government agencies, including advances for relief. The limit of obligations which the Reconstruction Finance Corporation is authorized to have outstanding was reduced by a similar amount. Provision was also made that future expenditures falling within the purposes covered by the above act should be handled in a like manner. Under the authority contained in this act, the Secretary of the Treasury had canceled, up to June 30, 1939, approximately $2,709,450,000 of the obligations of the Corporation. Of this amount about $18,145,000 was canceled during the fiscal year 1939.

The Corporation was placed under the supervision of the Federal Loan Administrator by Reorganization Plan No. I, effective July 1, 1939.

The receipts and expenditures and means of financing of the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The United States Housing Authority was originally created as a body corporate of perpetual duration in the Department of the Interior by the United States Housing Act of 1937, approved September 1, 1937 (50 Stat. 888), to "provide financial assistance to the States and political subdivisions thereof for the elimination of unsafe and insanitary housing conditions, for the eradication of slums, for the provision of decent, safe, and sanitary dwellings for families of low income, for the reduction of unemployment and the stimulation of business activity . . ." This act was further amended by the United States Housing Act amendment of 1938, approved June 21, 1938 (52 Stat. 820). The United States Housing Authority, under Reorganization Plan No. I, effective July 1, 1939, was transferred from the Department of the Interior to the newly created Federal Works Agency.

The Authority has a capital stock of $1,000,000 subscribed by the United States and is authorized to issue obligations guaranteed by the United States in an amount not to exceed $800,000,000 and to make contributions in an amount not to exceed $28,000,000 per annum.

The receipts, expenditures, and means of financing of the Authority (other than expenditures incurred in connection with the completion of the transferred P. W. A. Housing Division projects) are shown in detail in the foregoing statement.

The items in the foregoing statement, "Loans to public housing agencies," do not reflect the total disbursements for the development cost of the projects upon which the loans are made. There is a tendency for the progressive entry of larger amounts of private capital into the United States Housing Authority's program. Based upon reasonable forecasts of the amount of private lending for the fiscal years 1940 and 1941, the disbursements for the development cost of the projects for those years will amount to approximately $200,000,000 and $400,000,000, respectively. These disbursements rather than the amounts loaned by the Authority reflect the over-all size of the program and is the true measure of the administrative work and scope of the Authority's operations which will remain practically the same regardless of the proportion of Federal and local private financing entering into the development cost of housing projects.

EXPLANATORY STATEMENT

As is shown on the summary statement presented herewith, the appropriation request for 1941 is $40,000,000, which combined with $3,300,000 expected to be expended from the proceeds of bond issues in that year, will finance the net estimated obligations of $43,300,000. By June 30 of that year the Authority will have expended a net total of $413,741,878, of which $310,069,270, or 75 percent, will have been from appropriated funds; $70,072,500, or 17 percent, from bond proceeds; and $33,600,108, or 8 percent, from transfers of property from other agencies. Supporting statements present the details of the 1941 estimates, compared with the estimates for 1940, and actual expenditures for 1939.

Before discussing the detailed estimates, however, a general statement concerning the major objectives and activities of the Authority is in order. The largest portion of the expenditures is now being devoted to the construction of a unified system of dams and reservoirs on the Tennessee River and its tributaries, which system is designed to secure joint navigation, flood control, and power benefits. The first of these types of benefits will be secured through the construction of a 9-foot channel from the Ohio River to Knoxville. The second will be realized through the utilization of over 10,000,000 acre-feet of storage capacity for regulation of stream flow in flood seasons. The third of these types of benefits, power production, will produce revenues sufficient to meet all the direct operating expenses for all three of them, including depreciation which has been excluded from this Budget. These revenues cannot be realized, however, unless the Authority's construction schedule providing for the installation of additional generating capacity to meet increased demand for power is adhered to. Although the Authority attempts to maintain its expenditures at as even a rate as possible, this construction program creates some inevitable fluctuations of which the increased estimate for 1941 over that for 1940 is an example.

As authorized by the provisions of section 5 of the Tennessee Valley Authority Act, the fertilizer program is being conducted through laboratory investigations and experiments, the manufacture of fertilizer, and demonstrations in cooperation with experiment stations, farm organizations, and individual farmers, all designed to cheapen the cost of fertilizer to the farmers and promote the prevention of soil erosion. New manufacturing processes have been developed and the product has been tested under practical farm conditions, as well as in college experiment stations. The farm tests include determination of the value, effects, and best methods of use so as to achieve the greatest soil fertility, promote crop rotation, improve the quality of pastures and the vigor and health of farm animals, and generally better the economy of the farm as an operating unit. The results are being closely watched by farmers and agricultural leaders, and the information gained thereby is being utilized in the development of county and other area agricultural programs. The improved fertilization is being supplemented by other conservation measures, such as terracing and contour plowing. How to stabilize the productive enterprises of the farm through lesser dependence on the erratic production of cash crops which burdens the market, lowers income, exhausts fertility, and fills the streams with silt, is the lesson being learned by tens of thousands of farm operators. Through cooperation with the established governmental agencies in this field, the Authority has, in this activity, as in many others, avoided duplication, made the greatest possible use of existing facilities, and reduced the cost of the program.

The next major section of the Budget, Related Property Operations, covers activities on public lands in the custody of the Authority which are not assigned to the major objectives of the act. In connection with the purchase of land for flowage purposes, the Authority is acquiring considerable acreage on the margin of the various reservoirs, which is being administered so as to achieve the greatest possible promotion of the public interest.

This program also includes the operation of permanent villages at some of the major projects, and the maintenance for national defense of the idle portions of the Muscle Shoals nitrate plants and steam generating plant. The actual and estimated costs of this program are shown in Supporting Statements Nos. 5 and 6.

The Related Development Activities program encompasses activities which are related to the general development of the area, as well as to the other programs of the Authority. These activities have primary objectives of their own, besides, which in themselves would be of sufficient importance to the Nation to justify the expense even though they made no specific contribution to the other programs. They have been developed in close cooperation with the other agencies concerned with the same objectives, and this has resulted in a coordinated approach to the problems and large savings in expense through the elimination of duplication of effort.

The following paragraphs and Supporting Statements Nos. 1 to 8, inclusive, present a more detailed analysis of the estimates.

NAVIGATION, FLOOD-CONTROL, AND POWER PROGRAM

Most of the decrease in the estimate for the asset accounts under this program in 1941 under 1940, shown in Supporting Statement No. 1, is accounted for by the inclusion in the earlier year of about $59,000,000 for the purchase, rehabilitation, and interconnection of properties acquired from private utilities. The first section relates to the costs of construction of the unified river system projects, exclusive of hydrogenerating plants purchased from private utilities. The increase in the construction costs in 1941 over 1940 and 1939 is required to maintain the construction schedule, as mentioned in a preceding paragraph, so that use of the navigation facilities already provided may be increased, the present inadequate flood protection for the Tennessee and Mississippi Valleys may be supplemented, and increased power facilities may be provided so that the rapidly increasing demand may be met. The total estimated cost of these projects, of which seven will be completed by the end of 1941, is $421,000,000, exclusive of generator installations not yet definitely scheduled. It is noted under "Method of financing" on the Summary, that $3,982,392 of the 1940 appropriation will be used to liquidate contracts authorized by the 1939 appropriation. Most of this authorization was employed by the letting of contracts for turbines, governors, generators, and exciters to be installed at the Guntersville, Chickamauga, and Hiwassee projects.

A brief statement concerning each of these projects follows:

The Kentucky Dam and Reservoir, located near the mouth of the river, will provide sufficient flood storage to reduce flood flows by 2 to 3 feet on the lower Ohio and Mississippi Rivers. Its section of the 9-foot channel

must obviously be completed before maximum use of the completed sections upstream will be possible. Furthermore, although not scheduled at the present time, this project will be able to supply, in the future, 160,000 kilowatts of power capacity which can be utilized to meet additional load expansion. The amount requested for 1941 is essential if efficient construction is to be maintained, and the project completed in 1945. In 1941 the lock will be completed and the dredging of its approaches begun and excavation for the powerhouse and spillways, highway and railway relocation, and reservoir clearing will be continued.

The 1941 estimate for the Pickwick project provides for dredging a portion of the channel below the dam which will form part of the 9-foot navigation facilities ultimately, and immediately provide a depth of 7.5 feet from the mouth of the Tennessee to Chattanooga.

The Wilson project was completed by the Corps of Engineers in 1923 and turned over to the Authority in 1933. The 1941 estimate provides for coolers on four main generators, required by the necessity of running this plant at or above rated capacity at times.

The 1940 and 1941 estimates for the Wheeler project provide for installation of the third and fourth generating units which will be required to meet the demand for power which is expected to materialize in 1941.

The Guntersville project will be substantially completed in 1940, but $80,000 will be needed in 1941 to complete a few condemnation suits, close the construction offices, complete land records, and study channel improvements necessary to perfect this section of the navigable channel.

The Hales Bar project was purchased from the Tennessee Electric Power Co. In 1941 a short section of the 9-foot channel below the dam will be dredged to improve navigation to Chattanooga. Preliminary studies will also be made in this year of the possibility of reconstructing the dam, lock, and powerhouse, and installing an additional generator.

The first generator at the Chickamauga project will go into service next May, but $183,000 will be required in 1941 to complete final details.

The Watts Bar project, with the Chickamauga and Coulter Shoals projects will provide slack water navigation between Chattanooga and Knoxville, the principal commercial centers of east Tennessee. The completion of the project in 1943 is also essential in order that an acute power shortage may be avoided in that year. In 1941 the lock will be completed, one-third of the dam and spillway constructed, most of the necessary highway relocation effected, and contracts will be let for the manufacture of three generating units.

The Coulter Shoals project, for which construction funds are requested for the first time in 1941, will permit the maximum utilization of the navigation facilities provided by the Chickamauga and Watts Bar projects, as these three extend the 9-foot channel from Chattanooga to Knoxville. This project will also contribute to the protection of Chattanooga and lower points from flooding. The generating capacity of this project will also be needed by 1944 to provide adequate reserve over the demand for power estimated for that year. The schedule for 1941 provides for construction of the access road, and beginning of work on the construction plant and employee housing facilities.

The amount estimated for completion of the Hiwassee project in 1941 is composed primarily of an allowance of $200,000 for a possible court award in a suit filed to condemn a large portion of the necessary land.

The additions to the Norris project required in 1941 consist principally of an office building for the power plant supervisors, and the grouting of contraction joints.

Transmission lines and substations are required to interconnect the various generating plants and to carry the power generated by the system to the markets. The $7,656,000 requested for this purpose for 1941 represents a very large decrease from the estimate for 1940 which includes $52,500,000 for the purchase of facilities from private utilities. Of the 1941 amount, $3,300,000 will be secured from the proceeds of bond sales authorized by section 15c of the Tennessee Valley Authority Act, and will be used for the rehabilitation and interconnection of purchased properties. The amount from general funds will be used for (1) installation of additional substation capacity at Columbia, Tenn., (2) installation of condensers at Memphis, (3) reinforcement of the Authority's system in Mississippi, (4) extension of facilities serving the area north of Nashville, (5) construction of additional facilities in the southern portion of the region served, (6) establishing a connection with the Kentucky Utilities Co., (7) adding to the substation facilities at Wheeler Dam, and (8) installing additional transformers at numerous points in the system. In addition, studies are being made at this time of a number of other projects which will be necessary in the near future.

The Authority has transferred certain distribution properties purchased from private utilities to municipalities and cooperatives, and has also financed improvements and extensions to these systems. By June 30, 1941, the estimated balance outstanding in this account is approximately $5,200,000. Only a few miscellaneous extensions and connections will require financing in 1941, and the amount advanced for them will be exceeded by repayments on previous loans.

Supporting Statement No. 2 shows that power revenues will in 1941 meet all navigation, flood-control, and power expenses, and leave a balance more than adequate to meet depreciation, not included in the Budget. The increases in 1940 and 1941 over 1939 are primarily attributable to revenues from municipalities and cooperatives which acquired their distribution systems from the Tennessee Electric Power Co. in August 1939.

The activities under navigation and flood-control operations are essential if the maximum benefits are to be derived from the large capital investment being made for these purposes.

The $73,000 requested for river transportation studies in 1941 provides for studies of the proper establishment of incidental aids to navigation, review of channel-dredging plans, and preparation of navigation charts for the use of craft operating on the river. Data in regard to the potentialities of river-borne commerce will be assembled and made available to operators and shippers. Traffic studies will be concentrated on the problem of planning adequate terminal facilities, in order to guide this development in the future.

The $7,000 estimate for the item, "Expense of operating locks," represents the cost of power furnished the Corps of Engineers for this purpose, and the $1,000 for maintenance of facilities is to provide auxiliary safety facilities, such as booms and warning signs, to prevent small craft from being washed over the spillways. An increase in general and administrative expense is estimated because more attention is expected to be paid to this phase of the program by administrative personnel in 1941.

The estimated net income from power operations for 1940 and 1941 will be adequate to provide for deprecia-

tion, a fair share of common expense, and interest on the investment in power facilities from appropriations. The Authority's sales are now equal to its dependable energy supply, and the additional generating units scheduled for installation in 1940 and 1941 will all be needed to meet the forecasts of increased demand.

Most of the increase in revenues in 1940 and 1941 will be derived from sales to municipalities and cooperatives, which will account for more than half of the total in 1941. Sales to private electric utilities are estimated at $2,450,000 in 1941, over four times the actual amount realized in 1939. Commercial and industrial sales in 1941 are estimated at $3,811,000, an increase of 31 percent over 1940, and of 52 percent over 1939. Total power sales for 1941 are estimated at $15,758,000, an increase of 18 percent over 1940, and nearly three times the actual 1939 receipts. The allowance for unrealized sales has been made to leave a margin of safety against the possible failure of some customers to take certain blocks of power now optional under the contracts, or against the possible failure of load growths to meet the estimates for other reasons such as a curtailment of business activity.

The increase in direct expenses in 1940 and 1941 over 1939 is primarily accounted for by the purchase in August of this year of the generating and transmission properties of the Tennessee Electric Power Co. This increase is particularly large for production expense because the operation of purchased steam plants is vastly more expensive than that of the hydro plants constructed by the Authority. Over half of the transmission expense in 1941 will be incurred on facilities recently purchased. Operation and maintenance of the retail distribution properties acquired in connection with purchases and for which municipal or cooperative buyers were not available will require $40,000 in 1941. The amount of general and administrative expense allocated to this section of the program for 1941 is about 16 percent of the total of such cost to be incurred by the Authority in that year.

Interest income represents amounts paid by the muncipalities and cooperatives which have received advances from the Authority for acquisition or expansion of their distribution systems. Interest expense is paid by the Authority on bond issues, the proceeds of which are used for the purchase, rehabilitation, and interconnection of electric properties previously owned by private utilities.

The preceding expenses are directly allocable to individual operations, but certain others are incurred which contribute to or are necessitated by all of them jointly. The increases in these joint or common expenses in 1941 over 1939 and 1940 are accounted for by the additional number of projects on which construction will be completed, and operations will begin, in the later years.

Malaria prevention activities must be conducted on the reservoirs located in the southern portion of the valley, which is in a section of the country in which this disease is prevalent to a high degree. The major portion of the 1941 estimate will be expended in the Guntersville and Wheeler Reservoirs. Most of the expense for policing and service to visitors will be incurred at the Norris and Chickamauga projects in 1941, as they are the closest to large population centers and consequently receive the most visits. Increases in these items, and in the cost of operation of joint facilities and upkeep of roads and grounds, are accounted for by a full year's operation, for the first time in 1941 of the Guntersville and Chickamauga projects.

The cost of system expense, including the collection and compilation of basic hydrographic data, is prorated to construction and operations on the basis of the number of projects in each status. The $64,000 estimated for 1941 for maintenance of structures and equipment is to provide for the care of spillways, embankments, water gates, and other multiple-use facilities.

FERTILIZER PROGRAM

The 1941 estimate for the asset accounts under this program, $1,014,000, provides for substantial completion of a completely integrated plant which will enable the Authority to independently conduct the entire manufacturing process, from the mining of raw materials to bagging. A small estimate for phosphate reserves and rights will be used to round out the present holdings, which now amount to an estimated total of 19,100,000 tons of matrix. At its ultimate capacity, the Authority's requirements will be close to 400,000 tons annually. The estimate of $1,040,000 for plant and equipment will be used primarily for the completion of an agglomerating and washing plant. This is being designed to provide facilities to meet the entire raw material requirements of the manufacturing program. Minor plant improvements cover the changes required after experimental production is started.

The increase in fertilizer operations in 1941 of $285,000 is accounted for by $59,000 for research, $189,000 for large-scale tests, and $37,000 for general and administrative expense. The increase under research will permit an expansion of laboratory work on basic problems.

Total fertilizer production in 1941 is estimated to be approximately 49,000 tons of available plant food, of which 40,000 tons will be sold to the Agricultural Adjustment Administration, and the remainder used in the test and demonstrations program. Of the total of $472,000 for farm tests and demonstrations, $417,000 is for contractual payments to the agricultural extension services in various States for the actual direction of this work. Likewise, $80,500 of the estimate for soil inventory is also for payments to other cooperating agencies.

RELATED PROPERTY OPERATIONS PROGRAM

A comprehensive survey is now being made of the need for additional facilities at the Muscle Shoals properties, for which table 5 shows an estimate of $105,000 for 1941, and it is apparent that construction should be started by then on such items as replacement of the garage building, built as a temporary structure about 20 years ago. The other major item on this table, "Unassigned to specific areas," is so designated because the need for improvements to village and reservoir properties cannot be precisely determined a year or more in advance. The estimates for the Norris, Pickwick, and Wheeler properties include only such items as can be definitely predicted at this time, and it is planned that the unassigned amount will be drawn on at these locations if other needs should develop.

Table 6 shows that the 1941 estimate for the income and expense section of this program is $28,000 less than the estimate for 1940, and $76,000 less than the actual expense in 1939. The $88,000 for operation of reservoir lands is the net expense involved in administering and planning land-use programs on the marginal lands around the reservoirs in such a way as to derive the greatest possible public benefit therefrom. The $38,000 for development of recreational facilities is primarily for cooperation with the National Park Service, and State and local agencies in planning and promoting the fullest possible

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

recreational use of these areas. The $5,000 is the net operating cost of such recreational facilities as Norris and Big Ridge Parks, which practically pay their own way. Tree planting and erosion control involves the annual planting of about 8,000,000 trees, the construction of check dams, the fencing of planted areas, and similar work, in cooperation with the Civilian Conservation Corps. Fish and game preservation facilities are being provided for operation by the Bureau of Fisheries as a result of studies showing that without them the fish population of the region will be greatly reduced as a result of the biologic change brought about by the creation of deep, slack-water reservoirs. The next item includes the cost of the continuation of these studies to insure that the Authority's operations will not adversely affect the wildlife of the area.

The estimate of $66,000 for operation of the Muscle Shoals villages represents the net expense of operating and maintaining 309 dwellings, related school facilities, roads and grounds, public-safety services, sewers, electric and water facilities, service buildings, and garbage and trash removal. The $59,000 estimate for Norris Town represents the net expense of operating and maintaining 345 dwelling units and related facilities. There are 34 residence units in the Wheeler Village and 65 in the Pickwick Village.

The estimates for maintenance of national-defense properties are subject to adjustment occasioned by the preparation of the Muscle Shoals steam plant for national-defense stand-by and its operation to supply power to customers during the secondary power interruption period. The fact that the idle portion of Nitrate Plant No. 2 is not in complete readiness for the production of explosives was brought to the attention of the War Department and Congress several years ago, but no funds have been made available to place it in such status.

RELATED DEVELOPMENT ACTIVITIES PROGRAM

Most of these activities contribute to two or more of the other programs and also to the general development of the region, as authorized by the Tennessee Valley Authority Act. As shown by Supporting Statement No. 7, a stable level of expenditures is anticipated for this program. The individual activities included are discussed in the following paragraphs.

General mapping consists of the preparation of topographic, land use, and other maps of the area, which are essential for the planning of nearly all phases of the Authority's programs. Had time and funds been available to permit this mapping to proceed more rapidly in the past, many economies might have been achieved in dam construction and the necessity of compiling special maps for various purposes could have been avoided. These maps are comparable to those being made for other parts of the country, and they thus contribute to the ultimate coverage of most of the Nation. By the end of 1941, maps will be in process or completed for 13,000 square miles of the watershed.

The item "Valley-wide forestry development and erosion control" is closely coordinated with, and serves to supplement, the work of the Forest Service and State agencies. It includes investigations and comparisons of various methods of erosion control. Tree planting and erosion control on private lands is carried out in cooperation with the Forest Service, Civilian Conservation Corps, and State extension services. Through 1939 nearly 55,000,000 trees had been planted. Cooperation in forest-fire control is alleviating the serious condition prevalent due to the fact that over 80 percent of the half of the valley which is forested is not adequately protected. Tree and tree crop research consists of aiding watershed protection through the development of improved plants, methods, and techniques adapted to the area, and their demonstration to land-use agencies, landowners, and nurserymen. Most of the labor for the development and operation of the nursery operated under this activity has been furnished by the Civilian Conservation Corps, and the work is carried on in close cooperation with other Federal and State agencies.

The development of mineral resources of the area not only serves to foster its economic progress, but also encourages the use of electric power in local industries as authorized by the Tennessee Valley Authority Act. Laboratory research is complemented by field investigations and office analyses. The estimate of $3,000 for ceramics research provides for the maintenance of a building at Norris for the use of the Bureau of Mines. The next item represents investigations made in the chemical engineering laboratory at Muscle Shoals which are producing information of considerable value for national-defense purposes, developing many possible large-scale uses for electric power in local industries, and otherwise contributing to the general development of the region. The reduction in the 1940 and 1941 estimates for mineral-resources development under the 1939 cost is accounted for primarily by the Bureau of Mines assuming all expense in connection with ceramics research other than building maintenance.

Public-health work includes a related group of activities contributing to the solution of the major health problems of the area, all conducted in close cooperation with Federal, State, and local health agencies and private institutions operating in this field. Cooperative health work and public-health studies aid in providing public-health facilities in areas contiguous to the Authority's river-control developments, and for cooperation in the training of personnel in health education and in the support of preventive medicine research. This item also includes studies of the incidence of tuberculosis, of the causes of malaria infestation, and of the correlation between methods of public-health administration and the prevalence of disease with general social and economic conditions. Additional studies designed to assist in the eradication of the South's No. 1 health problem, malaria, are included in the next item. The stream-pollution studies are closely coordinated with the pollution survey of the Ohio Basin being made by the Public Health Service.

Cooperative agricultural industries developments supplement the fertilizer program through developing equipment for the planting, cultivating, harvesting, and processing of soil-conserving and fertility-restoring crops.

The principal activity under the estimate for study and development of cooperatives consists of investigation of general farmer's cooperatives in the area and their effectiveness in improving its economy. The principal activity under research and development of processing methods and equipment is concerned with methods of processing flax fiber. The major activity under development of uses of electricity on farms concerns the stimulation of rural electrification education in its farm and home management phases. Also included under this item are investigations of new equipment needs on farms and encouraging private enterprise to take over the problem of meeting them.

The estimate of $9,000 for coordination of river, rail, and motor transportation provides for continuation of

Federal Reserve Bank of St. Louis

studies relating to the interterritorial freight rate problem, and to joint rail and water rates, and special investigations of specific transportation problems as they arise.

General activities for the development of the Valley will include, in 1941, the continuation of studies, surveys, and reports concerned with the broad aspects of the use, conservation, and development of the natural and social resources of the region, and with the over-all coordination and direction of the general planning activities of the Authority. A report on the basic economic factors in the life of the region will be completed in 1941, which has as its major emphases (1) the part different occupations play in supporting the economy, (2) changes in the supporting capacity of different income sources, (3) weaknesses or lack of balance offering fruitful points for the application of remedial measures, (4) indication of fields warranting special study, or justifying special operating policies in connection with TVA programs, and (5) indication of localities in which new sources of livelihood are needed. Also in 1941, a study of urban problems will be completed which should assist in directing urban growth along desirable lines. Studies of local government in the region will result in reports (1) of a general nature published in cooperation with State universities, (2) on problems of county government and administration, and (3) on the use of contracts as administrative devices covering the joint activities of different governmental units. These reports are designed to stimulate local interest in better government and be of value to other programs of the Authority involving contacts with local governments, such as the relationships with locally operated distribution systems. Other activities under this heading include the development of recreational potentialities, and studies of tax problems growing out of the navigation, flood control, and power program.

The increase shown for general and administrative expense in 1941 is based on studies of the amount of supervision required for this program compared with the others.

GENERAL ASSET ACCOUNTS

Supporting Statement No. 8 shows $208,000 as the amount estimated for general equipment replacements in 1941. This is $181,000 less than the estimated depreciation on these assets in that year. The continuing fund authorized for emergency purposes by section 26 of the act accounts for $1,000,000 of the $1,112,227 shown as the last item on Supporting Statement No. 8.

DEPRECIATION ON MINOR PLANT AND EQUIPMENT

The amounts shown on the summary for depreciation of minor plant and equipment represent depreciation reserve accruals on minor plant and equipment, for which the offsetting charges are distributed throughout the other programs in such detail that it would be difficult, if not impossible, to eliminate them for budgetary purposes.

EXPLANATORY STATEMENT

The financial requirements of the District of Columbia for the fiscal year 1941 are summarized in the preceding statements. It will be noted from the Annexed Budget summary that the estimated revenues (general, special, and trust accounts) of the District for 1941 are expected to total $48,417,946 which, together with the Federal contribution of $6,000,000 and the total of the estimated unobligated balances (general, special, and trust accounts) of $1,559,155 carried over from the fiscal year 1940, will total $55,977,101. The obligations (general, special, and trust accounts) for 1941 are estimated at $54,700,442. It is expected that there will be a net surplus of $1,276,659 at the close of the fiscal year 1941, made up as follows: General revenue account, $1,104; special accounts, $140,238 (highway fund, etc., account) and $152,431 (water account); and trust accounts, $982,886.

Revenues of the District of Columbia

Supporting Statement No. 1 shows the revenues of the District estimated for 1941, as allocated to the general, special, and trust accounts. The general account revenues are discussed in detail immediately below. The revenue estimates under special and trust accounts for 1941 approximate those for 1940, excluding of course in the trust accounts the Public Works Administration allocations under the 1939 grant of $18,150,000.

It will be observed that, under the general revenue account, by far the largest source of revenue for the District is the tax on real estate, estimated to yield $21,495,000 for 1941. This yield includes both current and back taxes, the levy being based on an assessed valuation of $1,228,000,000 at $1.75 per hundred. This valuation is an increase of $14,550,000 over the estimated valuation for 1940.

The tax on tangible personal property is estimated to yield $1,525,000, including delinquency payments. This estimate is based on an assessment of $86,000,000 at $1.75 per hundred. The assessment is $1,000,000 in excess of the estimated assessment for 1940.

It will be noted that the intangible personal property tax is now superseded by the tax on individual and corporation net incomes. The tax on individual incomes is estimated at $1,200,000 while the tax on corporate incomes is estimated at $2,400,000.

Other large items in the revenue estimates of the District for 1941 are the tax on public utilities, banks, etc., amounting to $2,250,000; personal-property tax on motor vehicles, $770,000; inheritance and estate taxes, $500,000; penalties and interest on taxes, $320,000; alcoholic beverage taxes and license fees, $2,175,000; miscellaneous revenue items, $3,475,000; highway fund, gasoline tax and motor-vehicle fees, $4,950,125; and water rates, $2,526,000.

Appropriations for the District of Columbia

The appropriations recommended for the District in the fiscal year 1941 under the general and special accounts amount to $49,435,008, excluding trust-account appropriations which amount to $3,873,821. The amounts under the headings of general and special accounts exceed the corresponding 1940 District appropriations by $1,365,801. The increases and decreases which make up this net increase and which are explained below, include $50,000 for administrative promotions.

GENERAL EXPENSES

Appropriations are made under this heading for the salaries, and in some instances for the expenses, of the principal administrative offices of the District government, and certain other municipal agencies, such as the Public Utilities Commission, Minimum Wage Board, Register of Wills, and Recorder of Deeds. The net increase under general expenses, amounting to $19,350 is made up of increases totaling $129,060 less decreases totaling $109,710. The principal increases under this head include $7,180 for the Department of Inspections; $114,190 for the maintenance of new District buildings (Municipal and Juvenile Court Buildings, east wing of the Municipal Center, Southwest Health Center, and Fire Alarm Headquarters); and $3,780 for the Public Utilities Commission. The principal decreases are as follows: $37,060, Assessor's Office; $2,060, Collector's Office; $2,060, Auditor's Office; $14,700, Office of Weights, Measures, and Markets; $4,800, Commission on Mental Health; and $1,900, office of Recorder of Deeds; all due principally to nonrecurring 1940 items; and $8,500 in the employees' compensation fund and $37,650 in the civil-service retirement fund to accord with the 1941 requirements of said funds.

CONTINGENT AND MISCELLANEOUS EXPENSES

Under this head are included office expenses, postage, printing and advertising, automobile services, and refunding of taxes. The net decrease of $31,330 consists primarily of the following items: $6,943, District office expenses; $2,000, general advertising; $1,000, advertising delinquent taxes; $8,575, printing and binding; $12,500, study of surveys of the District government; $2,840, central garage; and $1,000, wharves; less increases in car allowances, $528, and $3,000, refund of erroneous collections.

REPAYMENT OF LOAN FROM THE PUBLIC WORKS ADMINISTRATION

Under this head there is an increase in the reimbursement item of $337,500. The 1940 payment of $462,500 liquidated the original 1934 loan by the Public Works Administration. The 1941 estimate of appropriation, in the amount of $800,000, constitutes the initial payment in connection with the reimbursement of the 1939 Public Works Administration loan.

FREE PUBLIC LIBRARY

Under this head there is a net increase of $245,000 made up as follows: $24,755 for personal services; $15,000 for books and periodicals, and $5,325 for expenses, all primarily for the operation and maintenance of the new Southwest Branch Library. In addition there is $200,000 for continuing the construction of the new main building which will ultimately cost $1,118,000.

SEWERS

The net increase of $121,110 includes increases of $1,260 for salaries, $1,750 for mosquito control, $50,000 for construction of sewers and catch basins, and $75,000 for assessment and permit work, the two latter items being offsets to contemplated reductions in Work Projects

Administration contributions. There are also decreases of $1,300 for repair of sewers and basins and $5,600 in the maintenance cost of the sewage-treatment plant.

REFUSE

The Refuse Department is responsible for the cleaning of streets and the collection and disposal of trash and garbage. Under this head there is an additional $111,250 on account of the substantial increases in street areas to be cleaned and in the number of family dwellings to be served.

PUBLIC SCHOOLS

The net increase of $471,244 for operation and maintenance of public schools is composed principally of the following items: Administrative and supervisory personnel, $17,947; clerks, $3,600; teachers and librarians, $142,164; vocational education, $1,500; school custodian personnel, $22,900; contingent expenses, $23,905; replacement of equipment in senior high schools, $7,346; equipping new schools, $222,043 (chiefly for the Calvin Coolidge Senior High School and the Thomas Jefferson Memorial Junior High School); textbooks, $7,470; teachers' retirement fund, $59,000. There are nonrecurring items in the amount of $38,539.

The net decrease of $581,000 for buildings and grounds results from a 1941 construction and land-purchase program totaling $1,247,000 and a 1940 nonrecurring program of $1,828,000. The 1941 program consists of the following items: To add 8 rooms and an assembly-gymnasium to the Syphax School, $190,000; to replace the Abbott Vocational School, $500,000; to begin construction of the Anacostia Junior High School, $490, 000 (total authorization, $881,850); to prepare plans and specifications for a new senior high school at Twenty-fourth Street and Benning Road, NE., $20,000; and to acquire additional land for elementary school purposes, $47,000. This reduction of nearly $600,000 in the annual school construction program comes about because of the necessity of providing construction funds for the National Guard Armory and the new main library building.

POLICE

The net decrease of $81,155 includes decreases of $19,665 for personal services and $68,600 in nonrecurring items, less miscellaneous increases of $7,110 in maintenance and operation items.

POLICEMEN'S AND FIREMEN'S RELIEF

The increase of $120,000 under this head is in line with the past 16 months' experience as to the requirements of this fund.

FIRE

The net decrease of $17,985 is composed of decreases of $19,125 in salaries and expenses, less increases of $140 for clerk hire and $1,000 for fire hose.

HEALTH

The increase of $65,340 is made up of the following increases and decreases: Increases—$37,528 for the protective work of the Health Department, principally for operation and maintenance of the new Southwest Health Center; $15,512 for the tuberculosis sanatoria; $97,300 for Gallinger Municipal Hospital; decreases—Providence Hospital, $50,000; Columbia Hospital, $35,000; both nonrecurring construction items.

COURTS

Under this head provision is made for the Juvenile Court, the Police Court, the Municipal Court, and the probation system under the District Court of the United States for the District of Columbia.

There is an increase of $420 for the Juvenile Court; a net decrease of $3,700 for the Police Court; an increase of $850 for the Municipal Court; and an increase of $240 for the probation system.

Estimates for the United States Marshal's Office, the District Court of the United States for the District of Columbia, and the United States Court of Appeals for the District of Columbia are carried in the appropriation acts for the Department of Justice and the Judiciary.

Sixty per centum of the expenditures for the United States Marshal's Office and the District Court of the United States and thirty per centum of the expenditures for the conduct of the United States Court of Appeals for the District of Columbia, amounting to $600,000, will be payable out of District of Columbia revenues.

PUBLIC WELFARE

The Board of Public Welfare has general supervision of dependents, defectives, and delinquents in the District of Columbia. For the executive offices of the Board, including the Division of Child Welfare, there is a decrease of $1,790, primarily because of a reduction in contractual investigation services. There is an increase of $25,000 for the board and care of children. For the jail there is a net increase of $10,040 for staffing the new building and a nonrecurring construction item of $125,000. There is a net decrease of $21,740 for the Workhouse and Reformatory made up as follows: Increases—personal services, $54,180 (primarily for staffing the new penitentiary); maintenance, $2,350; construction, $50,000; and support of convicts, $20,730; decreases—$149,000 in nonrecurring construction items. There is an increase of $16,250 for the National Training School for Boys, and an increase of $3,720 for the National Training School for Girls. The latter has a nonrecurring item of $10,000.

For the District Training School there is a net increase of $20,230 which is made up of increases for maintenance and operation amounting to $31,730 and decreases of $11,500 in nonrecurring construction items. There is a net decrease of $3,790 for the Industrial Home School for Colored Children. The Industrial Home School for White Children has an increase of $1,600. The Home for the Aged and Infirm has a net decrease of $2,840, consisting of a $17,840 increase for maintenance and operation less a nonrecurring construction item of $15,000.

The estimates of appropriations for emergency relief, home care for indigent children, pensions for the needy blind, and transportation of indigent nonresidents remain unchanged, while that for old-age pensions is reduced $22,000 in line with experience. The amount of $177,500 appropriated in 1940 as sponsor's contributions to Work Projects Administration projects is repeated in the 1941 Budget.

There is an increase of $189,990 to care for the District's indigent insane at Saint Elizabeths Hospital due to the constantly increasing number of admissions.

MILITIA

In addition to a minor increase of $120 for salaries and expenses, $950,000 additional is estimated for continuing the construction of the National Guard Armory, the total authorization of which is $2,750,000. One more appropriation totaling $950,000 will be required in 1942 before this structure is completed.

NATIONAL CAPITAL PARKS

Under this head there is a decrease of $20,671 because of nonrecurring items.

NATIONAL CAPITAL PARK AND PLANNING COMMISSION

The estimate of $300,000 for reimbursement to the United States of land purchases by this agency under the Capper-Cramton Act, together with the 1941 reimbursement item of $800,000 for initial payment on the 1939 Public Works Administration loan previously referred to, provides for total repayments on loans in the amount of $1,100,000.

NATIONAL ZOOLOGICAL PARK

There is an increase of $4,290 under this head.

HIGHWAY FUNDS, GASOLINE TAX AND MOTOR-VEHICLE FEES

There is a decrease of $27,010 for the Department of Vehicles and Traffic, due primarily to a nonrecurring inspection stations construction item. There is a net decrease in the amounts for the Highway Department of $283,760 due primarily to nonrecurring special items.

WATER ACCOUNT

There is an increase of $33,650 in the Washington Aqueduct amounts because of necessary additional costs of operation and to develop plans for insuring the future water supply of the District of Columbia. Under the Water Department there is a net increase of $69,930, representing additional maintenance costs amounting to $60,780 and a new main to cost $130,000, less nonrecurring items in the amount of $120,850.

06 Travel expenses: Obligations—1941, $10,824; 1940, $10,296; 1939, $10,296.

All motor-propelled passenger-carrying vehicles owned by the District of Columbia shall be used exclusively for "official purposes" directly pertaining to the public services of said District, and shall be under the direction and control of the Commissioners, who may from time to time alter or change the assignment for use thereof or direct the joint or interchangeable use of any of the same by officials and employees of the District, except as otherwise provided in this Act; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment, except as to the Commissioners of the District of Columbia and in cases of officers and employees the character of whose duties makes such transportation necessary, and then only as to such latter cases when the same is approved by the Commissioners: *Provided*, That no passenger-carrying automobile, except busses, station wagons, patrol wagons, and ambulances, and except as otherwise specifically authorized in this Act, shall be acquired under any provision of this Act, by purchase or exchange, at a cost, including the value of a vehicle exchanged, exceeding $650. No motor vehicles shall be transferred from the police or fire departments to any other branch of the government of the District of Columbia.

Appropriations in this Act shall not be used for the payment of premiums or other cost of fire insurance (*53 Stat. 1009–1010*).

The Commissioners are authorized, in their discretion, to furnish necessary transportation in connection with strictly official business of the District of Columbia by the purchase of streetcar and bus fares from appropriations contained in this Act: *Provided*, That the expenditures herein authorized shall be so apportioned as not to exceed a total of $11,100: *Provided further*, That the provisions of this paragraph shall not include the appropriations herein made for the fire and police departments (*53 Stat. 1010*).

1938 (Public, Numbered 584, Seventy-fifth Congress), [$560,000] *$635,000, to remain available until June 30, 1942*: *Provided*, That in connection with the highway-planning survey, involving surveys, plans, engineering, and economic investigations of projects for future construction in the District of Columbia, as provided for under section 10 of the Federal Aid Highway Act of 1938, this fund shall be available to the extent authorized in said section for the employment of engineering or other professional services by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), the Classification Act of 1923, as amended, and civil-service requirements, and for engineering and incidental expenses;

For grading streets, alleys, and roads, including construction of necessary culverts and retaining walls, $50,000;

For paving the unpaved center strips of paved roadways, $5,000;

For minor changes in roadway and sidewalks on plans to be approved by the Commissioners of the District of Columbia to facilitate vehicular and pedestrian traffic, $5,000;

For construction of curbs and gutters, or concrete shoulders in connection with all forms of macadam roadways and adjustment of roadways thereto, together with resurfacing and replacing of base of such roadways where necessary, $200,000;

For the surfacing and resurfacing or replacement of asphalt, granite block, or concrete pavements with the same or other approved material, $350,000;

For construction, maintenance, operation, and repair of bridges, $50,000;

For current work of repairs to streets, avenues, roads, and alleys, including the reconditioning of existing gravel streets and roads; for cleaning snow and ice from streets, sidewalks, cross walks, and gutters in the discretion of the Commissioners; and including the purchase, exchange, maintenance, and operation of non-passenger-carrying motor vehicles used in this work, $850,000, of which amount $25,000 shall be available exclusively for snow removal: *Provided*, That appropriations contained in this Act for highways, sewers, city refuse, and the water department shall be available for snow removal when specifically and in writing ordered by the Commissioners: *Provided further*, That the Commissioners of the District of Columbia, should they deem such action to be to the advantage of the District of Columbia, are hereby authorized to purchase a municipal asphalt plant at a cost not to exceed $30,000;

This appropriation shall be available for the construction and repair of pavements of street railways in accordance with the provisions of the Merger Act, approved January 14, 1933 (47 Stat. 752). The proportion of the amount thus expended which under the terms of the said Act is required to be paid by the street-railway company shall be collected, upon the neglect or the refusal of such street-railway company to pay, from the said street-railway company in the manner provided by section 5 of "An Act providing a permanent form of government for the District of Columbia", approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which it is collected;

[For the preparation of studies, plans and surveys, estimates and investigation of foundation conditions for a grade separation structure in the vicinity of Fourteenth Street and Maine Avenue southwest, including the necessary changes in outlet bridge, curbing, roadways and walkways in streets, parks, and other public areas, street railway tracks and underground structures, and including the employment of engineering or other professional services by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), the Classification Act of 1923, as amended, or the civil-service requirements, and engineering and incidental expenses, $25,000;]

[For the preparation of a report for additional highway and parkway facilities in the vicinity of, into and through Rock Creek Park, Rock Creek and Potomac connecting Parkway and National Zoological Park, $10,000, said report to include such preliminary plans, surveys, and estimates as may be necessary and to be prepared jointly by the National Capital Park Service and the Commissioners of the District of Columbia in cooperation with the National Capital Park and Planning Commission, and including employment of engineering and other professional services by contract or otherwise, without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), or the Classification Act of 1923, as amended, or the civil-service requirements, and including engineering and incidental expenses;]

[For the preparation of a report by the Commissioners of the District of Columbia in cooperation with such other agencies as may be deemed advisable, for a through highway, parkway or by-pass road including a combination thereof in the District of Columbia to connect with the main routes north and south of adjoining States, $5,000, said report to include preliminary surveys and estimates for all necessary bridges, grade-separation structures, and highway improvements, and including employment of engineering and other professional services by contract or otherwise, without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), or the Classification Act of 1923, as amended, or the civil-service requirements, and including engineering and incidental expenses;]

For [continuing] *completing* the construction of a bridge to replace the bridge in line of Pennsylvania Avenue over the Anacostia River in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including construction of and changes in sewer and water mains, traveling expenses in connection with the inspection of material at the point of manufacture, employment of engineering and other professional services, by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. The Commissioners of the District of Columbia are authorized and empowered, in their discretion, to fix or alter the respective widths of sidewalks and roadways (including tree spaces and parking) of all highways that may be improved under appropriations contained in this Act.

No part of any appropriation contained in this Act shall be available for repairing, resurfacing, or paving any street, avenue, or roadway by private contract unless the specifications for such work shall be so prepared as to permit of fair and open competition in paving material as well as in price.

In addition to the provision of existing law requiring contractors to keep new pavements in repair for a period of one year from the date of the completion of the work, the Commissioners of the District of Columbia shall further require that where repairs are necessary during the four years following the said one-year period, due to inferior work or defective materials, such repairs shall be made at the expense of the contractor, and the bond furnished by the contractor shall be liable for such expense.

No part of the appropriations contained in this Act shall be used for the operation of a testing laboratory of the highways department for making tests of materials in connection with any activity of the District government.

pursuance of the authority contained in this paragraph for a longer period than nine months in the aggregate during the fiscal year.

Appropriations in this Act shall be available for payment by the District of Columbia of its contributions as an employer, in accordance with the provisions of the District of Columbia Unemployment Compensation Act (49 Stat. 946).

The Commissioners, or their duly designated representatives, are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, water, street, and road work, and street cleaning, or the construction and repair of buildings, and bridges, furniture and equipments, and any general or special engineering or construction or repair work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, drivers, hostlers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.

SEC. 3. That all horses, harness, horse-drawn vehicles necessary for use in connection with construction and supervision of sewer, street, street lighting, road work, and street-cleaning work, including maintenance of said horses and harness, and maintenance and repair of said vehicles, and purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained, and motortrucks may be hired exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners; and all such expenditures necessary for the proper execution of said work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in the Budget estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation; and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: *Provided*, That such horses, horse-drawn vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section 2 of this Act in relation to the employment of laborers, skilled laborers, and mechanics.

SEC. 4. That the Commissioners are authorized to employ in the execution of work, the cost of which is payable from the appropriation account created in the District of Columbia Appropriation Act, approved April 27, 1904, and known as the miscellaneous trust-fund deposits, District of Columbia, necessary personal services, horses, carts, and wagons, and to hire therefor motortrucks when specifically and in writing authorized by the Commissioners, and to incur all necessary expenses incidental to carrying on such work and necessary for the proper execution thereof, including the purchase, exchange, maintenance, and operation of motor vehicles for inspection and transportation purposes, such services and expenses to be paid from said appropriation account: *Provided*, That the Commissioners may delegate to their duly authorized representatives the employment under this section of laborers, mechanics, and artisans.

SEC. 5. That the Commissioners and other responsible officials, in expending appropriations contained in this Act, so far as possible, shall purchase material, supplies, including food supplies and equipment, when needed and funds are available, in accordance with the regulations and schedules of the procurement Division of the Treasury Department or from various services of the Government of the United States possessing materials, supplies, passenger-carrying and other motor vehicles, and equipment no longer required. Surplus articles purchased from the Government, if the same have not been used, shall be paid for at a reasonable price, not to exceed actual cost, and if the same have been used, at a reasonable price based upon length of usage. The various services of the Government of the United States are authorized to sell such surplus articles to the municipal government under the conditions specified, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts: *Provided*, That this section shall not be construed to amend, alter, or repeal the Executive order of December 3, 1918, concerning the transfer of office materials, supplies, and equipment in the District of Columbia falling into disuse because of the cessation of war activities.

SEC. 6. No part of the funds appropriated in this Act shall be available for the payment of rental of quarters for any activity at a rate in excess of 90 per centum of the per annum rate paid by the District of Columbia for such quarters on June 30, 1933: *Provided*, That the provisions of this paragraph shall not apply to leases made prior to the passage of this Act, except when renewals thereof are made hereafter: *Provided further*, That the appropriations or portions of appropriations unexpended by reason of the operation of this paragraph shall not be used for any purpose, but shall be impounded and deposited in the Treasury to the credit of the District of Columbia.

SEC. 7. Appropriations contained in this Act shall be used to pay increases in the salaries of officers and employees by reason of the reallocation of the position of any officer or employee by the Civil Service Commission, and administrative promotions within the several grades: *Provided*, That the total reallocation increases under such appropriations shall not exceed $35,000 and administrative promotions shall not exceed $50,000: *Provided further*, That such reallocation increases and administrative promotions shall be subject to the approval of the Commissioners of the District of Columbia.

SEC. 8. Section 3709 of the Revised Statutes of the United States shall not be construed to apply to any purchase made or service rendered under the appropriations contained in this Act when the aggregate amount does not exceed the sum of $50.

SEC. 9. No part of this appropriation shall be available for any expense for or incident to the issuance of congressional tags except to those persons set out in the Act of December 19, 1932 (47 Stat. 750), including the Speaker and the Vice President.

[13] The 1938 and 1939 expenditures have been adjusted to the basis of the 1940 appropriations which involve numerous transfers and consolidations of appropriations. For this reason the expenditures for these 2 years under the Department of Agriculture are not strictly comparable with those shown for prior years.

[14] Includes $17,739,448.73 in 1937 and $965,044.32 in 1936 for elimination of diseased cattle, formerly carried under "Miscellaneous."

TABLE NO. 9

Statement of balances of appropriations of June 30, 1939 (exclusive of trust accounts), and of appropriations for the fiscal year 1940 (including permanent and indefinite appropriations), as of Nov. 1, 1939, reported by the Secretary of the Treasury

This statement is included in the Budget only because of the requirements of the Budget and Accounting Act, 1921 (31 U. S. C. 11e). As budgetary information, the statement has little if any value, as it simply shows the balances of appropriations on the books of the Treasury, June 30, 1939, classified as between 1940 appropriations and those of prior years according to whether the funds were appropriated as "immediately available"]
