Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, the Act of May 8, 1914 (7 U. S. C. 341–348), permanently appropriated $480,000 for each year, $10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the Act. It also appropriated an additional sum of $600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven a sum exceeding by $500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of $4,100,000 in addition to the sum of $480,000. The additional sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (7 U. S. C. 386–386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of $10,000 plus an additional sum of $12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to $4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by $3,160, thereby automatically raising the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931 (7 U. S. C. 386d–386f), provides that the Smith-Lever Act and Acts supplementary thereto be increased without diminishing the amount now received by any State or other Territory, to carry out the provisions of this Act in the Territory of Puerto Rico and specifies that the appropriation for 1933 and subsequent years shall be $50,000, this amount to be increased by $10,000 annually, or such part thereof as may be necessary, until the total to which Puerto Rico is entitled under the provisions of this Act is reached. The maximum for Puerto Rico ($95,069) was reached during the fiscal year 1938, bringing the total permanent annual appropriation to $4,701,165 *(7 U. S. C. 341–348)*.

Estimate 1941, **$4,701,165** Appropriated 1940, **$4,701,165**

Commodity Credit Corporation, Corn Moisture Content Tests (Agricultural Adjustment Administration)—

NOTE.—This contributed fund is derived from fees collected by the Commodity Credit Corporation, through local Agricultural Conservation Associations, for making grade tests on corn sealed in farm storage under commodity loan programs. The funds so collected are promptly deposited to the credit of the Agricultural Adjustment Administration, which has in its field offices in the various States equipment and facilities for making the moisture tests which are final factors in determining grades, and therefore loan eligibility, of the harvested crop offered as collateral security for loans. This fund is used for the payment of expenses in connection with such tests.

Special Deposits (12-0662.400), Agricultural Adjustment Administration (Cotton)—

This fund operates to take care of financial transactions in connection with the acquisition and disposition of spot cotton and cotton futures contracts by the Secretary of Agriculture as provided for by part 1, title I, of the Agricultural Adjustment Act, approved May 12, 1933, as amended, and the disposition of the proceeds from the sale of such cotton holdings in the following manner:

(a) The excess of the price at which cotton is sold over 6 cents per pound (price at which the Secretary of Agriculture options cotton to producers) is paid to producers when the sale results from the exercise of an option by producers or is paid to the 1933 Cotton Producers' Pool when the sale is of cotton transferred to the pool by cotton option holders.

(b) The 1 cent excess of the price at which the Secretary sells cotton to producers by option (6 cents) over the purchase price of cotton from the Farm Credit Administration (5 cents basis price) is used to cover the carrying charges on cotton holdings.

(1) The repayment of all advances from United States Treasury.
(2) Carrying charges and expenses of handling the cotton.
(3) Payments to producers by virtue of their option contracts.
(4) Administrative expenses.

Receipts and disbursements for this fund henceforth will practically consist of—

(1) Minor receipts of moneys in course of collection.
(2) Payments to producers on account of options exercised.
(3) Final settlement of participation trust certificates purchased.
(4) Administrative expense.
(5) Final settlement of claims by General Accounting Office, Claims Division.

All loans from commercial banks were paid on or before July 31, 1935; all advances from U. S. Treasury have been repaid, and are included in repayment of loans from banks and others.
