MESSAGE TRANSMITTING THE BUDGET

To the Congress of the United States:

I have the honor to transmit herewith the Budget of the United States for the fiscal year ending June 30, 1933. The receipts and expenditures shown in detail in the Budget are summarized in the following statement:

Summary of receipts and expenditures (exclusive of postal revenues and postal expenditures paid from postal revenues)

	1933	1932	1931
General fund receipts	$2,473,515,772.00	$2,204,257,200.00	$3,103,336,105.16
Special fund receipts	103,014,430.00	34,621,600.00	86,303,975.14
Total, general and special fund receipts	2,576,530,202.00	2,238,878,800.00	3,189,640,080.30
General fund expenditures	3,889,223,050.00	4,284,411,800.00	3,987,148,133.52
Special fund expenditures	107,449,400.00	77,428,000.00	104,515,774.89
Total, general and special fund expenditures	3,996,672,450.00	4,361,839,800.00	4,091,663,908.41
Excess of general and special fund expenditures over general and special fund receipts	1,420,142,248.00	2,122,961,000.00	902,023,828.11
Excess of trust fund receipts over trust fund expenditures	3,192,800.00	277,315.00	
Excess of trust fund expenditures over trust fund receipts			693,016.96
Total, excess of expenditures	1,416,949,448.00	2,122,683,685.00	902,716,845.07

From this statement it will be seen that, in spite of an estimated increase of over $337,000,000 in receipts for next year and an estimated reduction in expenditures of more than $365,000,000, a large excess of expenditures is still indicated for the fiscal year 1933 under present laws. This condition requires that I make, in accordance with section 202 of the Budget and Accounting Act, recommendations to Congress for new taxes, loans, or other appropriate action to meet the estimated deficiency. My recommendations appear later in this message.

1932

For the fiscal year ending June 30, 1932, the receipts, originally estimated at $3,956,000,000, are now expected to fail of realization because of the severity of the depression and will fall below the estimates by $1,717,000,000. The principal elements entering into this decline in revenues are income-tax receipts, $1,140,000,000; customs receipts, $202,000,000; miscellaneous internal-revenue receipts, $132,000,000, and postponement of payments of principal and interest on the foreign debt, $247,000,000.

Federal Reserve Bank of St. Louis

Expenditures are expected to increase over the original estimates by $437,000,000. This is the net difference between many items of increase and decrease. The principal increases, in part due to subsequent legislation, include added benefits to veterans, $135,000,000; speeding up of public works to aid unemployment, $160,000,000; Federal Farm Board revolving loan fund, $80,000,000; interest on the public debt, $24,000,000; postal deficit, $81,000,000; and settlements under the war claims act, $37,000,000. There are many other individual items of increase over the expenditures estimated a year ago which would materially swell the total of increases. Rigid reduction of expenses elsewhere supplemented by decreases in public-debt expenditures on account of the moratorium and smaller tax refunds than were originally estimated serve to offset the total increases. These changes in receipts and expenditures indicate a deficit of $2,123,000,000 which includes statutory debt retirement or a probable net debt increase of $1,711,000,000.

1931

For the fiscal year ending June 30, 1931, the actual receipts fell short of those estimated a year ago by $516,000,000. The principal elements in this falling off were internal revenue and customs receipts which, together, account for $506,000,000. The actual expenditures exceeded those estimated for the year by $207,000,000, and may be attributed to the special legislation calling for emergency drought relief and increased public works to relieve unemployment, coupled with the advance payment of $112,000,000 to the adjusted-service certificate fund, offset in part by reductions and economies in other directions. The net result was a deficit of $902,000,000, which included $440,000,000 for statutory debt retirement, or a net increase in the debt of $462,000,000, plus additional cash in the Treasury of $153,000,000, or a total debt increase of $615,000,000.

TAXES

We are now face to face with a situation where for a time the current revenues of the Government under our existing laws have fallen below the amounts required to meet the absolutely necessary expenses. This brings the question directly before us of the course that shall be pursued. As already stated the deficit for the fiscal year 1931 is $902,000,000 and the estimated deficits for 1932, $2,123,000,000, and 1933, $1,417,000,000, or a total of $4,442,000,000, which, after deducting statutory debt redemptions and increased cash in the Treasury, show for these three fiscal years a total probable net increase in the national debt of $3,247,000,000. Rightly or wrongly our tax system is very largely based upon business profits and in consequence is subject to great variables.

We can not maintain public confidence nor stability of the Federal Government without undertaking some temporary tax increases.

It is obviously impossible to impose a degree of taxation which will balance the Budget for the current fiscal year. We should endeavor by increase of taxes and rigid curtailment of expenditures to balance the Budget for the next fiscal year except to the extent of the amount required for statutory debt retirements. We should assure its balance, including statutory debt retirements, for the fiscal year following.

I recommend that Congress provide for an increase in taxation for a definite limited period and upon the general plan of taxation which existed under the revenue act of 1924 with such changes as may be appropriate in the light of altered conditions. The Secretary of the Treasury has prepared recommendations along these lines which he will present at the proper time. It is proposed that this increase shall be definitely terminated in two years from next July. This plan, it is estimated, will realize $920,000,000 next year and thus meet the above conditions of balancing the Budget for the fiscal year 1933 except for the statutory debt retirement. It would balance the Budget including debt retirement in the fiscal year beginning July 1, 1933. It would provide about $390,000,000 for the current year, leaving us with the necessity of borrowing an amount which will represent a net increase in the public debt by about $1,320,000,000.

The plan of approximately reenacting the revenue act of 1924 has the great advantage that the Government is equipped by experience with similar legislation for its systematic and economical collection. The public has paid such taxes in the past and has found them not intolerable and has found that they do not prevent increased prosperity. By providing a definite date for termination of the temporary increase it will allow taxpayers to look forward to definite relief.

I further recommend that Congress inquire into the economic effect of the provisions of the present law relating to capital gains and losses.

APPROPRIATIONS

The estimates of appropriations recommended in this Budget for the fiscal year 1933, to carry out the financial program recommended above, are summarized in the following statement showing increases or decreases as compared with actual appropriations for the current fiscal year.

The bare comparison between appropriations proposed for the next fiscal year and those made for the current fiscal year, as shown in the above statement, fails to present a true picture of Government operations to the extent that in neither year do these appropriations represent the full amount available for expenditure, due largely to continuing appropriations from previous years. It is necessary to consider total expenditures in order to arrive at a true comparison between the two years. That comparison is given in the opening paragraph of this message and shows that the expenditures for 1933 are estimated at $365,000,000 less than those for the current fiscal year.

In framing this Budget, I have proceeded on the basis that the estimates for 1933 should ask for only the minimum amounts which are absolutely essential for the operation of the Government under existing law, after making due allowance for continuing appropriations. The appropriation estimates for 1933 reflect a drastic curtailment of the expenses of Federal activities in all directions where a consideration of the public welfare would permit it. Even with such reductions in the estimates of appropriations, the anticipated receipts under existing law, as stated above will be $1,417,000,000 short of the amount needed to meet Federal expenditures, including statutory debt retirement.

In viewing our financial requirements for 1933 the fact should not be overlooked that of the total of $3,942,000,000 of the estimates of appropriations payable from the Treasury contained in this Budget, $1,285,000,000 is represented by permanent definite and indefinite appropriations which by law are automatically made each year without further action by the Congress. Taking into consideration that in addition to this sum of $1,285,000,000 of permanent definite and

indefinite appropriations there are other expenditures of the nature of fixed charges amounting to approximately $1,000,000,000 for which annual estimates of appropriations must be submitted, there is in reality an area of only about $1,700,000,000 of the total of $3,942,000,000 presented in this Budget which is available for consideration in seeking means to curtail our expenditures.

SHIPPING BOARD

The estimates for the Shipping Board for 1933 show a decrease from the appropriations for 1932 of $36,972,000. This is due mainly to the fact that no further appropriation is needed at this time for the construction loan fund for which $35,000,000 was appropriated in 1932, it being contemplated that the unexpended balance of that appropriation, together with repayments of loans and sales receipts transferred to the fund, will be sufficient to meet expenditures from the fund during 1933. For the shipping fund for which $1,970,000 was appropriated in 1932, no estimate for a further appropriation is being presented, as it is expected that the operating loss for 1933, which is estimated at about $5,250,000, can be met by utilizing cash balances and reserves.

VETERANS' ADMINISTRATION

There is requested in this Budget a total of slightly more than $1,072,000,000 for the Veterans' Administration, compared with a total appropriation for 1932 of approximately $947,000,000. About $21,000,000 of each of these amounts pertains to the civil service retirement and disability fund and is not properly chargeable to the annual cost of caring for our veterans, which thus becomes $926,000,000 for 1932 and $1,051,000,000 for 1933. Comparison of these amounts indicates on its face a net increase of $125,000,000 for 1933. However, it is now known that additional appropriations will be required for the fiscal year 1932 to the approximate amount of $260,000,000, of which $200,000,000 is to meet obligations due to the increase in the loan value of adjusted-service certificates and $60,000,000 to meet the requirements for military and naval compensation, Army and Navy pensions, and aid to State and Territorial homes for disabled veterans.

Taking these supplemental requirements for 1932 into consideration, the above indicated net increase of $125,000,000 becomes a net decrease of approximately $135,000,000. This net decrease, however, is due largely to the adjusted-service certificate fund requirements, which are $162,000,000 less for 1933. If the adjusted-service certificate fund be excluded from both 1932 and 1933, the estimates for 1933 represent an ultimate net increase over 1932 of $27,000,000. This amount is the net difference between several items of increase and decrease. The principal item of increase is found in military and naval compensation, which is up $42,000,000. Resulting from the

increase in hospital and domiciliary facilities, the cost of administration, medical, hospital, and domiciliary services hows an increase of $4,460,000, and there is a further increase of $1,527,000 in the item for hospital and domiciliary facilities. Offsetting these increases is a decrease of $9,000,000 in Army and Navy pensions, $4,500,000 in military and naval insurance, and $7,762,000 in the Government life-insurance fund.

AGRICULTURE

The estimates for the Department of Agriculture for 1933 carry approximately $49,800,000 less than the appropriations for 1932. This decrease is accounted for in part by the fact that the 1932 appropriations contained $22,000,000 for seed loans and agricultural relief for which no estimate is required for 1933. There is a further reduction of $20,000,000 in the 1933 estimates from the 1932 appropriations for Federal-aid roads and forest roads and trails, as the regular programs for these works under existing authorizations were advanced to that extent in 1931 and 1932 by the funds made available in the emergency construction appropriations. The balance of the decrease is reflected in a reduction of $1,750,000 in the estimate for the acquisition of additional forest lands and $4,800,000 for other activities of the department.

TREASURY DEPARTMENT

The estimates for practically all of the organization units in the Treasury Department for the fiscal year 1933 are less than the appropriations for 1932, the notable exception being an increase of $57,400,000 in the items for the construction of new Federal buildings authorized and now in some stage of development and for the operation and maintenance of completed buildings. The principal items of decrease are $26,000,000 for refunding internal-revenue taxes illegally collected, funds now available for this purpose being considered sufficient for the fiscal year 1933, $3,200,000 for the Coast Guard, due principally to the completion of its programs for the construction of buildings and vessels; $934,000 for customs administration, as a result of falling receipts; and $512,000 for the Public Health Service, due principally to nonrecurring expenditures for equipping new hospitals and quarantine stations.

The prospective operations under permanent indefinite appropriation items in the fiscal year 1933 will be largely in excess of the current year. To provide for interest on our enlarged public debt, $35,000,000 additional will be required. Public-debt retirements required to be made from ordinary receipts will require $85,000,000 additional for the purposes of the cumulative sinking fund, receipts from foreign governments to be applied to debt retirements, and retirements from franchise-tax receipts from Federal reserve banks.

BUILDINGS

The Federal public building program authorized by the act of May 25, 1926, as amended, is being advanced in a marked degree in furtherance of the movement for the relief of the unemployed. The total authorizations now amount to $620,000,000 in addition to the amounts authorized for certain old projects specifically brought into the program by the original act and amounting to upwards of $9,000,000. Of the total amount authorized $190,000,000 is for land and buildings in the District of Columbia. Moreover, at places where abandoned sites and buildings are sold the proceeds are to be applied against the cost of the new project. The estimated sale value of sites and buildings to be so replaced amounts to approximately $69,000,000 and about $6,700,000 has been realized from such sales up to the present time.

In accordance with the provisions of the legislation above referred to specific authorizations have been made for 817 projects at limits of cost aggregating $466,800,000. Under authority of these authorizations obligations have been incurred, up to June 30, 1931, amounting to $175,560,000, of which $73,633,000 were incurred in the fiscal year 1931. It is expected that obligations to be incurred in the fiscal year 1932 will amount to $155,000,000, and if this is brought about there will be a balance of over $136,000,000 available for obligation in the fiscal year 1933. It is apparent, therefore, that specific authorizations for individual projects already made are sufficient to carry the construction program through the fiscal year 1933.

To finance the projects which have been specifically authorized, on the basis of providing for maturing obligations, appropriations aggregating $207,030,000 have been made. The total expenditures thereunder to the close of the fiscal year 1931 amounted to $117,890,000, leaving an unexpended balance of $89,140,000, and it is estimated that $140,000,000 additional will be required to meet payments which will become due up to the close of the fiscal year 1933. To provide the additional funds which will be necessary to meet payments to the close of the fiscal year 1932 a supplemental estimate for $20,000,000 will be transmitted to Congress for consideration in connection with the first deficiency bill, and $120,000,000 is included in this Budget for payments to be made in the fiscal year 1933.

In addition to the building program referred to above, additional appropriations aggregating $28,680,000 have been made for the purchase of land in the District of Columbia. The expenditures thereunder to the close of the fiscal year 1931 amounted to $22,569,000, leaving an unexpended balance of $6,111,000 available for subsequent purchases. Additional appropriations under this authorization are not required at this time.

The War Department is also carrying forward a building program for the housing of military personnel, for hospitals, utilities, and administration activities, and for technical buildings for the Air Corps

made necessary by the need for replacing World War temporary construction and to provide generally for the increase in the pre-war strength of the Regular Army, including the expansion of the Air Corps. There has already been appropriated $89,311,000 which, with the contract authorization of not to exceed $3,000,000 contained in the War Department appropriation act for 1932, practically exhausts the authorizations so far granted by law for continuing the program. The estimates for 1933 carry $2,250,000 to meet obligations under the contract authorization of $3,000,000. For the Panama Canal the estimates for 1933 provide $700,000 for new buildings and structures.

For the Veterans' Administration this Budget provides $12,877,000 for additional hospital and domiciliary facilities. Of this amount $10,877,000 is covered by the authorization of $20,877,000 provided by the act approved March 4, 1931, leaving $5,000,000 yet to be appropriated thereunder, and $2,000,000 is for completing the authorizations contained in the acts approved June 21, 1930, and July 3, 1930, for the erection of two national soldiers' homes, one in the South and one in the Northwest.

For the Navy Department, estimates aggregating $4,337,000 are included in the Budget to provide for hospitals, barracks, shop buildings, hangars, storehouses, etc.

For the Interior Department, a total of $1,815,200 is provided for new buildings, of which $642,510 is for the Indian Service, $312,700 for the National Park Service, and $860,000 for Howard University.

The estimates for the District of Columbia provide $3,818,500 for various buildings, including $1,600,000 for continuing the construction of the municipal center, $1,491,000 for school buildings, $490,000 for hospitals, and $237,500 for other purposes.

The estimates for the Department of Justice provide $962,000 for construction at the various penitentiaries and the industrial reformatory; for completion of the United States Southwestern Reformatory at El Reno, Okla., and the United States Hospital for Defective Delinquents at Springfield, Mo., $1,850,000 and $1,250,000, respectively; for Federal jails, $100,000; and for the National Training School for Boys, Washington, D. C., $124,000; a total of $4,286,000.

For the Department of State, $450,000 is provided to continue the acquisition of sites and buildings and the initial furnishing of buildings for the use of diplomatic and consular establishments and other agencies of the United States in foreign countries.

The total amount provided in this Budget for the procurement of sites and the construction of buildings is, therefore, $150,534,000—a very large increase over normal activities in this direction.

NATIONAL DEFENSE

The estimates for national defense under the War and Navy Departments for 1933 aggregate $644,650,000 as compared with the

appropriations for 1932 for this purpose totaling $695,691,000, a decrease of $51,041,000. These amounts exclude all items of a non-military nature.

The net decrease for the War Department amounts to $33,952,000. This is due mainly to the fact that owing to lowered commodity costs there will be carried forward into 1933 large stocks of subsistence, clothing, and other supplies, and to a decrease in the present estimates from the appropriations for 1932 of funds to carry forward the Army building program. The postponement of other projects where practicable without serious detriment to the maintenance, operation, and training of the Army has also been a material factor in effecting reductions in the estimates for 1933.

Provision is made in these estimates for average active strengths of 12,000 commissioned officers, 924 warrant officers, and 118,750 enlisted men of the Regular Army, and 6,500 enlisted men of the Philippine Scouts; for an actual average strength of 185,000 officers and men of the National Guard; for the training of 20,722 members of the Organized Reserves for varying periods; for the enrollment and instruction of 127,565 students in Reserve Officers' Training Corps units in schools and colleges and the training of 7,200 of this number in 42 camps; and for 30 days' attendance at citizens' military training camps of 37,500 trainees. With one or two very minor exceptions these strengths are the same as those provided for 1932.

For the Navy Department the items contained in the estimates for purposes of national defense for 1933 amount to $342,606,000. The comparable amount appropriated for 1932 is $359,694,000. This indicates a decrease under 1932 of $17,088,000. This decrease includes $15,000,000 for ordinary maintenance and operating expenses of the fleet and the shore establishment, $8,000,000 for shore projects, and $7,150,000 for construction of new ships. It provides an increase of $15,000,000 for modernization of battleships. The items for ordinary maintenance and operation of the fleet and shore establishments provide for maintaining during 1933 an average of 79,700 enlisted men of the Navy, the same as provided for 1932, and an average of 15,343 enlisted men of the Marine Corps as against 17,500 men provided for 1932. Under these estimates no fighting vessels will be decommissioned and no navy yards or training stations will be closed. Other decreases in requirements are due in part to the continuation of the so-called "rotation plan" for the employment of vessels, recently adopted by the Navy Department, which lends itself to both economy and efficiency in fleet operations, and in part to reduced costs of supplies and materials.

The estimates of $31,400,000 for the construction of new vessels, compared with the appropriation of $38,550,000 for 1932, indicates a decrease of $7,150,000. This, however, is a facial decrease only. When the cash balances to be carried forward from prior years, and the amount to be made available by transfer from the naval supply

account fund, are taken into consideration, the total that will be available for ship construction in 1933 is estimated at $57,000,000. The availability for 1933 exceeds in amount the expenditures for ship construction in any one of the last 10 years. The expenditures in 1923 were $46,682,000; 1924, $41,697,000; 1925, $34,022,000; 1926, $25,250,000; 1927, $27,430,000; 1928, $36,935,000; 1929, $46,760,000; 1930, $49,872,000; 1931, $37,944,000; and for 1932 are estimated at $53,000,000. The amount available for 1933 will provide for normal progress in construction of every vessel now authorized by law and permitted under treaty restrictions except six destroyers the laying down of which has been postponed and, in addition, for beginning construction of one more 8-inch-gun cruiser in January, 1933, which is the earliest date permitted under the terms of the London treaty.

RIVERS AND HARBORS AND FLOOD CONTROL

The estimate for the annual appropriation for the maintenance and improvement of existing river and harbor works contained in this Budget is in the same amount as was appropriated for 1932, namely, $60,000,000. The emergency appropriations made last December for public works with a view to increasing employment contained $22,500,000 for rivers and harbors, which is in addition to the annual appropriations of $55,000,000 for 1931 and $60,000,000 for 1932. Viewed alone this advance in the program would indicate that some reduction from $60,000,000 would be justified in the estimate for 1933. This, however, is not the case, as the Government has given tentative assurances as to early dates of fulfillment which will require the full amount of the appropriation requested for 1933.

For flood control the 1933 estimates of annual appropriations are $3,000,000 less than the appropriations for 1932, this difference being the amount of the emergency appropriation made last December.

The total of the estimates contained in this Budget for rivers and harbors (including maintenance and operation of Dam No. 2, Muscle Shoals) and flood control is $104,182,000, of which $70,142,000 is for rivers and harbors and $34,040,000 for flood control. The total of $104,182,000 includes $10,537,000 to meet the requirements under authorizations of law covering permanent specific and indefinite appropriations, advances and contributions, for rivers and harbors and flood control work.

RETIREMENT FUNDS

Pending a revaluation of the civil service retirement and disability fund, the estimate contained in this Budget for the financing of the Government's liability to the fund calls for the same amount as was appropriated for 1932, $20,850,000. For the Foreign Service retirement and disability fund, however, the estimate contained in this Budget is $416,000, as against an estimate and appropriation of $215,000 for 1932. This increase is based upon an actuarial valua-

tion recently made by the Bureau of Efficiency and clearly indicates that the Government's liability to the fund was substantially increased by the act approved February 23, 1931. That act, however, continues without change the provision contained in the act of May 24, 1924, that the aggregate appropriations to meet the Government's liability under the retirement fund should at no time exceed the aggregate total of the contributions of the Foreign Service officers theretofore made, and accumulated interest thereon. While the estimate of $416,000 for 1933 may be made without exceeding the limitation contained in this provision, the restrictions thereof will preclude appropriations for 1934 in excess of about $322,000, and for subsequent fiscal years in excess of about $178,000 based on the present pay roll of the Foreign Service officers. Federal contributions of these amounts will be totally inadequate to maintain the solvency of the retirement fund.

The continuation in the act of February 23, 1931, of this restrictive provision indicates clearly that it was not the intention of Congress in the enactment of that law to confer additional retirement benefits upon Foreign Service officers which would prevent the solvency of the retirement fund being maintained by Federal contributions equal to, but not exceeding in the aggregate, the total of the contributions of the Foreign Service officers and accumulated interest on such contributions. The recent actuarial valuation, however, shows conclusively that some further legislative action will be necessary if we are to maintain the solvency of the Foreign Service retirement and disability fund. The Secretary of State is aware of this situation and will make appropriate recommendation to the Congress during the present session.

UNEXPENDED BALANCES

Last year in submitting the Budget for 1932 I called attention to the fact that in the preparation of the estimates of appropriations I had refrained from recommending that the requirements for 1932 be met in part by a reappropriation or extension of the availability of unexpended balances of appropriations for the then current or prior fiscal years. In making appropriations for the fiscal year 1932 Congress concurred in this change in policy, and I am therefore submitting the estimates of appropriations for 1933 on the same basis. I mention this because efforts for such economy as would be consistent with the public welfare have resulted in unexpended balances, both actual for last year and estimated for this year, which would have made it possible substantially to reduce the amount of direct appropriations requested in many of the estimates contained in this Budget had the old practice been continued. This reduction would have totaled about $70,000,000.

CONCLUSION

We have recently closed one fiscal year and are now advanced into another year where the depression in business has resulted, on the one hand, in a heavy falling off in receipts and, on the other hand, in large Federal expenditures to provide work to assist in the relief of unemployment.

The welfare of the country demands that the financial integrity of the Federal Government be maintained. This is a necessary factor in the rebuilding of a sound national prosperity. This Budget, with its recommended reductions in appropriations and increases in revenues, presents a definite program to this end involving three steps—first, a material reduction in the anticipated deficit for the current fiscal year; second, a relation between receipts and expenditures for the fiscal year 1933 which will avoid a further increase in the public debt during that year; and third, a balanced Budget for 1934.

To carry out this program it is important to emphasize the fact that we are now in a period where Federal finances will not permit of the assumption of any obligations which will enlarge the expenditures to be met from the ordinary receipts of the Government.

I am confident that the Congress realizes this situation and will give it full consideration in passing upon matters which may contemplate any such additions to our spending program. To those individuals or groups who normally would importune the Congress to enact measures in which they are interested, I wish to say that the most patriotic duty which they can perform at this time is to themselves refrain and to discourage others from seeking any increase in the drain upon public finances.

HERBERT HOOVER.

Annual appropriations:

UNITED STATES SENATE

The decrease of $7,728 is occasioned by a reduction in the amount for per diem pay of 21 pages due to the decreased number of days of the session during the fiscal year 1933.

HOUSE OF REPRESENTATIVES

The net decrease of $6,238 is accounted for by decreases of $15,088 in the amount for per diem pay of 41 pages at $4 per day due to the decreased number of days of the session during the fiscal year 1933, $1,000 for a nonrecurring item for purchase of a motor truck, $3,000 for an assistant official reporter, $1,000 for medical supplies, etc., for the emergency room, and $2,150 for a temporary assistant clerk for the Committee on Invalid Pensions; and by increases of $12,000 for folding speeches, and $4,000 for certain expenses incurred in connection with the contested election cases of the Seventy-second Congress.

LEGISLATIVE MISCELLANEOUS

The decrease of $3,000 is due to the nonrecurring item in that amount for a marble bust of the late Chief Justice William Howard Taft.

ARCHITECT OF THE CAPITOL

The net decrease of $5,401,007 results from decreases of $6,984,857 and increases of $1,583,850. The principal items of decrease are: $3,079,350 for completion of the Senate Office Building, $2,994,000 for continuing construction of the House Office Building, and $576,398 for completing construction of buildings for the Botanic Garden. The increases are: $600 for salary reallocations in the office of the Architect of the Capitol, $10,000 for plans and estimates of cost for extension of the Capitol, $48,250 for the Capitol power plant, $25,000 for furniture, etc., for the Library Building, and $1,500,000 (making a 1933 estimate of $2,500,000) for continuing construction of the Library Annex.

BOTANIC GARDEN

The total increase of $57,140 is composed of $12,140 for additional personnel and $45,000 for maintenance and operation expenses.

LIBRARY OF CONGRESS

The net increase of $51,900 is accounted for by the nonrecurring 1932 items of $50,000 for an index to the Federal Statutes, and $35,000 for publication of material for use in connection with the bicentenary of the birth of George Washington, and by the following increases: $57,760 for salary reallocations and for additional personnel, $9,440 for the index to State legislation, $24,000 for the Union Catalogues, $43,000 for printing and binding, and $2,700 for personal services and expenses in the care and operation of the Library Building.

GOVERNMENT PRINTING OFFICE

The decrease of $20,000 is in the item for catalogues and indexes in the office of the Superintendent of Documents.

Permanent appropriations:

LIBRARY OF CONGRESS

The estimate of expenditures from permanent appropriations for 1933 shows an increase of $8,095 in the income from investment account and a decrease of $132,300 in the gift fund account.

Annual appropriation:

The appropriations made for the commission are available until expended. The total authorization is $5,003,578.62, of which amount $4,500,000 is for construction and $503,578.62 for nonconstruction operations. The total amount thus far appropriated is $4,600,000. The total expenditures to June 30, 1931, were $3,402,176.10. It is expected that the amount approved for 1933 ($400,000), which is $95,750 more than the appropriation for 1932, will enable the commission to complete its construction work and provide a small amount for the care and protection of the memorials. The commission is required to maintain the memorials "until the Secretary of War is advised of their completion and assumes their maintenance."

Annual appropriations:

There are two decreases for 1933, namely, personnel, $14,500; and travel expenses, $3,820. No estimate for 1933 is approved for the appropriation items "Salaries and expenses, arbitration boards," and "Arbitration boards," these being provided for by a recommendation for the reappropriation for 1933 of unexpended balances of prior years. Provision for these items was similarly made for 1932 in the independent offices act of that year.

Annual appropriations:

Due largely to a reorganization of its work and a simplification of procedure it was possible to make reductions totaling $115,622. The reductions occur in the following items: Personnel, $86,560; travel expenses, $9,000; contingent expenses, $3,000; rental of office quarters, taken over by the Office of Public Buildings and Public Parks of the National Capital, $24,592; and printing and binding, $4,000. There is an increase of $11,530 under the item of salaries and expenses, presidential postmaster examinations, but this increase is offset by reductions made in various other appropriation items. Excluding the reduction noted on account of rental, which is an increase for the office taking it over, the net reduction for 1933 is $91,030.

Annual appropriations:

There is an increase of $250,000 in the compensation fund to enable the commission to take care of increases in the number of claims filed and to provide for the increased cumulative cost of death and permanent disability claims and a decrease of $24,054 in various items of administrative expenses, making the net increase of $225,946 in the estimates for annual appropriations for 1933.

Permanent appropriations:

There is an increase of $30,000 due to an estimate of appropriation under the commission's trust fund, which it is anticipated will be received and invested during the fiscal year 1933.

Total	319,270		319,270	318,470		318,470	362,020	+43,550

Annual appropriations:

The total increase over 1932 annual appropriations is $29,075, made up of the following increases: For salaries and expenses, $28,075; printing and binding, $1,000. The increase in "salaries and expenses" does not represent in fact any increase over 1932 availability, since the commission had available for that year, in addition to its regular annual appropriation, unexpended balances from prior years amounting to $30,575, making the total availability for 1932, $286,270. The increase for printing and binding is principally for the purpose of publishing a special report on the McCloud River.

Permanent appropriation:

The increase of $14,475 in the permanent appropriation "Payments to States," is the difference between the Budget estimate for 1932 and the amount carried in the Budget for 1933. However, the commission will pay to the States in 1932, $70,567 instead of the estimated amount of $58,275 shown in the 1932 Budget. Therefore, the increase for 1933 in this item over the amount actually to be paid to the States in 1932 is only $2,183. The increases since 1931 in amounts to be paid the States under section 17 of the Federal water power act was brought about by decisions of the Comptroller General dated, respectively, February 3 and May 7, 1930. Previous to 1930 those fees assessed under authority of section 10 (e) of the act in the case of licenses involving the use of public lands, for the express purpose of reimbursing the Federal Government for the cost of administering the act, had not in any part been credited to the States. Their participation was limited to those moneys collected primarily for the actual use of the public land areas occupied by water power developments.

Annual appropriation:

This commission was created by the act of February 25, 1929, to carry on to completion the carving of a memorial on Rushmore Mountain in the Black Hills of South Dakota, to commemorate the foundation, expansion, preservation, and unification of the United States. The authorization for the purpose was $250,000, of which amount $160,000 has been appropriated. All unexpended balances for the fiscal years 1929, 1930, and 1931 were made available for 1932, hence no appropriation was made specifically for that year.

Annual appropriations:

The estimate for 1933, compared with the items upon which the appropriation for 1932 was predicated, indicates decreases of $15,000 for special investigations, $10,000 for repairs and alterations to buildings and equipment, $13,960 for personnel and $800 for travel expenses, and an increase of $1,000 for printing and binding, resulting in a net decrease of $38,760. However, by a revision of the expenditure program for 1932, due, in part, to the need for stringent economy and, in part, to changes in the program for utilization of new facilities recently completed, it is estimated that only $977,570 of the appropriation for 1932 will be obligated, resulting in an estimated saving of $73,500 for the current year. Thus, the estimates for 1933 contemplate an increase of $34,740 over the estimated expenditures for 1932. This increase is proposed for the purpose of enabling the committee to increase research and development work and to take up additional important investigations made possible by the new facilities which recently became available.

No estimate is approved for 1933, as it is believed that work planned for 1933 should be slowed down or postponed. The amount available for 1932, under a continuing appropriation, was $3,810,411. The work of the commission will be curtailed sufficiently in 1932 to enable it to carry over into 1933, $525,828, with which to take care of reduced administrative expenses for that year and meet certain commitments already made.

Public Resolution No. 74, approved December 21, 1928, authorized the appropriation of $8,150,000, of which the last $1,000,000 was appropriated for expenditure in the fiscal year 1931. Public Resolution No. 33, approved January 22, 1930, authorized the additional appropriation of $3,000,000, of which $1,000,000 was appropriated for the fiscal year 1931 by the second deficiency act of 1930, approved July 3, 1930. The Budget for 1932 included an estimate of the remaining $2,000,000 authorized to be applied—$1,000,000 for loans to agriculturists and $1,000,000 for rebuilding and repairing schoolhouses and roads. The appropriation for 1932 provided only $1,000,000 for the latter project with the proviso that so much as may be necessary shall be immediately available for examination of estimates and appropriations in the field.

Annual appropriations:

The increases for 1933 are: $126,750 for salaries of employees required to maintain the new Commerce Building, the new public warehouse authorized by the act of February 27, 1929, and the Mount Vernon Boulevard; $176,733 for rentals, maintenance, and care (exclusive of salaries) of public buildings in the District of Columbia taken over from certain of the departments and establishments during 1932, and for the demolition of temporary structures; $13,975 for personnel and supplies for the Mount Vernon Highway police, the appropriation therefor having provided for these items for only five months of 1932, and $500 for increased printing on account of additional projects. There are decreases due to the elimination of the nonrecurring items of $1,310,000 appropriated in 1932 for the construction of the public warehouse, and an item of $100,000 for the development of the Mall, the omission of the last-mentioned amount from the 1933 Budget being regarded in the nature of a postponement. Annual appropriations:

ADMINISTRATION, MEDICAL, HOSPITAL, AND DOMICILIARY SERVICES

The estimate for this purpose for 1933 is $116,690,527. This appropriation covers the expenses of operation of all hospitals, homes, and regional offices and other administrative expenses of the Veterans' Administration, including the travel of beneficiaries and patients, the reimbursement for and payment of burial claims, and the furnishing of clothing to patients in hospitals and members of homes who are financially unable to procure such clothing for themselves.

The basis for determining the amount of the estimate is the operation of 65 hospitals and 12 homes, involving the operation of an average of 41,043 Veterans' Administration hospital beds and 17,298 Veterans' Administration domiciliary beds during the fiscal year 1933. In addition to these beds provision is made for the use and payment for an average of 7,018 beds in hospitals operated by the Army, Navy, Public Health Service, and the Interior Department, as well as 2,258 beds in State and civil hospitals. This is a total average of 67,617 hospital beds for the fiscal year 1933, and involves an expected expenditure of $77,921,736.

For the operation of the other activities of the Veterans' Administration, involving the administration of benefits for compensation, pension, disability allowance, insurance, employees' retirement, and other miscellaneous matters, a total of $38,768,791 is estimated. This administrative estimate includes an amount of $3,626,033 to cover the travel of beneficiaries and patients for the purpose of bringing the veterans from their homes to various points where medical examinations are made to determine their degree of disability, need for hospitalization, and to send those in need of treatment to the hospitals and return them to their homes. For the purchase of clothing the estimate contains an item of $640,761, and for payment of or reimbursement for burial expenses an amount of $4,446,915 is included. These various expenses cover veterans of all wars and in some instances, such as domiciliary care and pensions, persons who were members of the Military Establishment in times of peace.

The total amount included in the estimate for the payment of salaries is $60,199,270, which is subdivided or classified specifically as follows:

Hospitals, homes, and combined facilities	$37, 110, 699
Regional offices	12, 124, 865
Central office	10, 435, 062
Supply depots	176, 914
Employees' retirement	83, 500
Miscellaneous	268, 230
Total	60, 199, 270

No provision is made for promotions during the fiscal year 1933. The increase in personnel is required for operation of the additional hospitals and homes under construction or to be constructed and placed in operation prior to June 30, 1933.

The net increase under this total appropriation item is $4,461,820 and is entirely for the operation of additional hospitals and homes. This increase is less than 4 per cent over the appropriation for 1932. It is expected that 25,155,173 days of hospital and domiciliary relief will be rendered in 1933, which is 2,046,301 days in excess o 1932, or an increase of approximately 9 per cent.

PRINTING AND BINDING

The estimate of $160,000 for this purpose is an increase of $3,000 over the appropriation for 1932. The increased hospital and home facilities, and the continued rising load of compensation and disability allowance claims necessitates a greater use of blank forms and letterheads.

MILITARY AND NAVAL COMPENSATION

This estimate of $356,250,000 is $88,922,975 in excess of the appropriation for 1932. However, it is estimated that a supplemental appropriation of $46,872,975 will be required for 1932, which makes a probable increase for 1933 of $42,050,000. This appropriation covers payment of disability compensation, disability allowance, death compensation, and emergency officers' retirement pay. All of these benefits are payments resulting from service during the World War and are still in the ascendancy. Based upon experienced trends to date, it is expected that these various payments will increase in the following numbers and amounts between the dates of June 30, 1932, and June 30, 1933:

Type of benefit	Number of additional awards	Net increased expenditures
Disability compensation	23, 703	$11, 990, 273
Disability allowance	136, 517	29, 114, 866
Death compensation	2, 888	1, 052, 661
Emergency officers' retirement (decrease)	−77	−107, 800
Total, net increase	163, 031	42, 050, 000

ARMY AND NAVY PENSIONS

The amount estimated under this heading, $225,850,000, is $3,850,000 in excess of the appropriation for 1932. However, a supplemental appropriation will be necessary for the fiscal year 1932 of approximately $12,958,765, which will bring a reduction of about $9,108,765 in 1933 as compared with 1932.

This appropriation covers payment of pensions to veterans of all wars and members of the peace-time military establishment, including dependents, under the general pension laws. Prior to the passage of the acts of June 2 and June 9, 1930, increasing, respectively, the pensions paid in Spanish War and Civil War cases, the experience for some time had been a gradual annual decrease, brought about principally by the advancing age and constantly increasing death rate among the Civil War veterans and their dependents. The increased rates of pensions authorized by these acts were partially adjusted during the fiscal year 1931 and will be completed during the fiscal year 1932, with the result that the decreased annual expenditure will be again asserted during 1933.

MILITARY AND NAVAL INSURANCE

The estimate of $117,000,000 for 1933 for this purpose is $4,500,000 less than the appropriation for 1932. This appropriation covers payments arising from what were known as war-risk insurance contracts. Payments are made under these contracts for death or permanent total disability incurred as the result of World War service or from other causes subsequent to the war and prior to July 2, 1927, this latter date being the limitation

provided by law after which all insurance in this form was automatically terminated unless the insurance had matured by reason of death or permanent total disability.

The only other expenditures from this appropriation are transfers to the United States Government life insurance trust fund to meet obligations borne by that fund incident to the extra hazards of military service of persons so engaged while protected by Government life policies. Although expenditures for 1932 are estimated at $118,000,000 it is believed that the appropriation of $117,000,000 for 1933 will be adequate as no decided change in the experienced payments which may result from litigation of war risk insurance policies is anticipated.

HOSPITAL AND DOMICILIARY FACILITIES AND SERVICES

This appropriation covers the procurement of additional hospital and home facilities either by purchase of sites and construction of the necessary facilities, the extension of existing facilities, or the outright purchase of such properties as may be suited to these purposes. In all cases the Veterans' Administration is limited in its action to the prior recommendation of the Federal Board of Hospitalization and the approval of such recommendation by the President.

The amount of $12,877,000 estimated for 1933 is $1,527,000 in excess of the appropriation for 1932. The estimate for 1933 is composed of the balance of $1,000,000 of the authorization of $2,000,000 for the erection of a home in one of the Southern States, contained in the act approved June 21, 1930, and the balance of $1,000,000 of the authorization of $2,000,000 for the erection of a home in one of the northwestern Pacific States, contained in the act approved July 3, 1930. Under each of these authorizations $1,000,000 was appropriated for 1932. The remaining $10,877,000 is a part of the amount of $20,877,000 authorized by the act approved March 4, 1931, providing for the erection of additional hospital and domiciliary facilities.

STATE AND TERRITORIAL HOMES FOR DISABLED SOLDIERS AND SAILORS

The estimate of $722,000 for 1933 for this purpose is $122,000 in excess of the appropriation for 1932. However, the appropriation for 1932 was based upon an expected average of 5,000 members and during July, 1931, the membership averaged 5,204. In consideration of the fact that July is normally the period of lowest membership it can be reasonably expected that the appropriation for 1932 will be insufficient. It is now estimated that the membership will average 5,757 during 1932 and 6,017 during 1933.

The law provides for reimbursement to the States on the basis of $120 per person annually for veterans eligible to admission in the Veterans' Administration homes but who are cared for in State homes maintained for similar purposes. Certain States have increased the capacities of their homes and as the World War veterans advance in age an increased membership in State homes can naturally be expected.

A supplemental appropriation of $90,840 is indicated as being necessary for 1932, which makes the net increase for 1933 amount to $31,160.

ADJUSTED SERVICE CERTIFICATE FUND

The estimate of $150,000,000 under this heading for 1933 is $38,000,000 in excess of the appropriation for 1932. Prior to the passage of the act of February 27, 1931, amending the World War adjusted compensation act, appropriations for the adjusted service certificate fund were based upon an actuarial determination of the amount necessary to amortize the face value of adjusted service certificates in 20 years from the date of issue or on the prior death of the veteran. This amendatory act, however, authorized loans amounting to 50 per cent of the face value of each certificate and the payment of such loans from the adjusted service certificate fund. Prior to that time loans made upon the certificates were equivalent, at maximum, to 90 per cent of the paid-up reserve value and payable from the United States Government life insurance trust fund. The United States Government life insurance trust fund being inadequate to meet the increased loan value of the certificates, and the adjusted service certificate fund having been made available as a source from which loans could be made, the appropriation for 1932 was made immediately available for this purpose in the provisions of the second deficiency act for 1931.

It is now estimated that loans will have exhausted the balance in the adjusted service certificate fund by December 31, 1931, and a supplemental appropriation of $200,000,000 will be required for 1932 to meet expected disbursements on account of loans and losses during the balance of the fiscal year 1932.

The estimate for 1933 is based upon the anticipated loans and losses during that fiscal period and, considering the proposed supplemental estimate for 1932, the estimate for 1933 becomes, in comparison, a net decrease of $162,000,000.

CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The estimate of $20,850,000 is for the financing of the Government's contribution to the fund in accordance with law.

Although the act of May 29, 1930, changed the basis upon which the contribution is made, the actuarial valuation and survey of the fund, to determine the proper amount now due as an annual contribution, has not as yet been completed. Pending an accurate determination of this question the estimate for 1933 is submitted in the same amount as the appropriation for 1932.

Permanent appropriation:

UNITED STATES GOVERNMENT LIFE INSURANCE TRUST FUND

This estimate of $71,665,000 for 1933 is $7,762,146 less than the amount included in the 1932 Budget for similar purposes. This item is merely an estimate of withdrawals from the Treasury to meet losses, loans, and investment of premium receipts from Government life insurance policyholders. This fund is self-supporting from such sources and requires no Federal appropriation.

[1] Includes $20,000,000 for drought-stricken areas transferred from Interior Department act and expended by the Department of Agriculture.

The estimates of the Department of Agriculture for the fiscal year 1933, show net decreases below the appropriations for the fiscal year 1932 of $49,828,154. The total reductions, however, amount to $50,087,698, while increases in working funds of the various bureaus of the department amount to $259,544, leaving a net decrease of $49,828,154. Of this amount $23,000,000 represents the omission of estimates for the principal nonrecurring items, $20,229,200 represents reductions in Federal-aid road and in forest road and trail appropriations as the regular programs therefor were advanced during the fiscal years 1931 and 1932 by expenditures from the emergency construction appropriations and $1,754,060 is a reduction in the appropriation for the acquisition of additional forest lands, leaving a reduction of only $4,844,894 in the estimates for other activities of the department. The principal increases and decreases by bureaus and offices are as follows:

Annual appropriations:

OFFICE OF THE SECRETARY

The estimates for the Office of the Secretary, for the fiscal year 1933, show a decrease of $96,468 below the amount appropriated for the fiscal year 1932. This decrease, however, is only apparent. The actual decrease is $139,200. The item, salaries, Office of the Secretary, for 1933, shows an increase of $42,732. This increase represents the transfer of employees now detailed from various bureaus to the Office of the Secretary, with corresponding decreases in bureau rolls. The actual decreases are $89,200 for miscellaneous expenses, Department of Agriculture, and $50,000 for rent of buildings, District of Columbia.

OFFICE OF INFORMATION

The principal decrease in the 1933 estimate of the Office of Information is $50,000 for printing and binding.

LIBRARY

The 1933 estimate for the Library shows a decrease of $2,820.

OFFICE OF EXPERIMENT STATIONS

The estimates of the Office of Experiment Stations for the fiscal year 1933 show a net decrease of $74,470. The total of the decreases, however, is $126,470. The estimates show two increases due to existing legislation; $2,000 for the experiment station of the Territory of Hawaii and $15,000 for the experiment station of the Territory of Porto Rico. The other increases are $5,000 for administration of the various acts making appropriations for maintenance of State and Territory experiment stations and a new item of $30,000 for care and disposal of the governmental insular experiment stations located in Alaska, Guam, and the Virgin Islands, which the department proposes to close about July 1, 1932. The decrease due to the closing of these stations is $126,470.

OFFICE OF EXTENSION SERVICE

The estimates of the Office of Extension Service show a net decrease of $91,590. The total of the decreases is $93,590. The item, cooperative agricultural extension work, Alaska, shows an increase of $2,000. Principal decreases are $83,810 for farmers' cooperative demonstrations, $5,370 for exhibits at fairs, and $4,150 for cooperative farm forestry. A statement regarding an increase in the appropriation for cooperative agricultural extension work will be found under the heading "Permanent annual appropriations, Extension Service."

WEATHER BUREAU

The decrease shown for the Weather Bureau for the fiscal year 1933 is actual. The principal decreases are $71,482 for general weather service and research and $225,000 for supplying information regarding weather conditions to aviation.

BUREAU OF ANIMAL INDUSTRY

The estimates for the Bureau of Animal Industry for 1933 show an actual decrease of $722,568. The principal decreases are $58,690 for inspection and quarantine of animals, $444,023 for eradication of tuberculosis in cattle and poultry, $47,500 for the eradication of cattle ticks, $29,495 for conducting animal husbandry investigations, $31,050 for the study of animal diseases, $33,100 for the eradication of hog cholera, $24,580 for enforcement of the packers and stockyards act, and $50,580 for meat inspection. Under the heading, "Permanent annual appropriations" will be found an item of $3,000,000 for meat inspection. The decrease just referred to relates to the annual appropriation and does not affect the permanent appropriation for meat inspection.

BUREAU OF DAIRY INDUSTRY

The estimates for the Bureau of Dairy Industry for the fiscal year 1933 show an actual decrease of $69,442. This decrease is in the item for conducting investigations, experiments, and demonstrations in dairy industry.

BUREAU OF PLANT INDUSTRY

The estimates for the Bureau of Plant Industry for the fiscal year 1933 show a net decrease of $434,880. The total of the decreases is $448,877. There is an increase of $13,997 in the item for control of the white-pine blister rust. The principal decreases are $13,768 for investigations of diseases affecting trees and shrubs, $12,100 for conducting investigations relating to cotton, including cotton diseases, $25,031 for conducting investigations relating to rubber and hard fibers, $20,000 for investigations relating to drug and related plants, $19,575 for investigation and improvement of cereals, $177,140 for eradication of barberry, $23,438 for sugar-plant investigations, $19,780 for investigations relating to dry-land agriculture, $52,700 for horticultural crops and diseases, $23,215 for foreign seed and plant introduction, $14,170 for forage crops and diseases, and $25,000 for operation of the national arboretum.

FOREST SERVICE

The estimates of the Forest Service for the fiscal year 1933 show a net decrease of $4,427,891. The total of the decreases is $4,445,226. The principal decreases are $16,460 for general administrative expenses, $119,746 for maintenance, improvement, protection, and general administration of the national forests, $25,000 for airplane patrol, $90,000 for planting the national forests, $52,300 for reconnaissance, $1,313,360 for improvements on the national forests, of this amount $1,229,200 represents a decrease in the construction of roads and trails of primary importance in the administration of the national forests, due to advancement of the regular program during the fiscal years 1931 and 1932, by expenditures from emergency construction appropriations, $26,920 for investigations in forest management, $25,460 for investigations at the forest products laboratory, $27,920 for forest surveys, $163,420 for forest-fire cooperation, $15,040 for cooperative distribution of forest planting stock, and $1,754,060 for acquisition of additional forest lands and $800,000 for a new building for the forest products laboratory. The item sanitation and fire prevention shows an increase of $17,335. A statement regarding the special funds administered by the Forest Service will be found under the heading "Permanent appropriations."

BUREAU OF CHEMISTRY AND SOILS

The estimates for the Bureau of Chemistry and Soils for 1933 show an actual decrease of $87,361. The principal decreases are $41,776 for agricultural chemical investigations, $10,000 for insecticide and fungicide investigations, $10,000 for fertilizer investigations, $10,000 for soil surveys, and $10,000 for soil-fertility investigations.

BUREAU OF ENTOMOLOGY

For the purpose of better administration and also to bring together those activities which involve related control methods, the estimates of the Bureau of Entomology for 1933, propose a minor reorganization of some of its activities and a more logical arrangement of appropriations to conform to the existing grouping of functions. The reorganization would discontinue the appropriations heretofore known as deciduous fruit insects, subtropical plant insects, truck-crop insects, and stored products insects. In place of these four appropriations the estimates for 1933 propose three new items, fruit and shade tree insects, made up by transfers from the appropriations for deciduous fruit insects, subtropical plant insects, and forest insects; truck-crop insects, made up by transfers from the appropriations subtropical plant insects and truck-crop insects and household and stored products insects by transfers from the appropriations subtropical plant insects, forest insects, and stored products insects. Other reorganization changes contemplate transfers to the item for general administration and for taxonomy and interrelations of insects. The estimates show an actual decrease in 1933 of $207,345. The principal decreases are $96,745 for fruit and shade tree insects, $25,000 for truck and garden crop insects, $13,000 for forest insects, $32,500 for cereal and forage crop insects, and $22,000 for cotton insects.

BUREAU OF BIOLOGICAL SURVEY

The estimates for the Bureau of Biological Survey for the fiscal year 1933 show a net decrease of $434,460. The total of the decreases is $446,660. The estimates show an increase of $12,200 for the Bear River Bird Refuge. The principal decreases are $17,917 for maintenance of mammal and bird reservations, $16,700 for the control of predatory animals and injurious rodents,

$117,202 for purchase of land for the Upper Mississippi River Refuge, and $80,000 for enforcement of the migratory bird conservation act. There is also a decrease of $200,000 due to the omission from the 1933 estimates of a nonrecurring item for the Cheyenne Bottoms Migratory Bird Refuge.

BUREAU OF PUBLIC ROADS

For the fiscal year 1933 the estimates for the Bureau of Public Roads propose to omit the appropriation items, salaries and expenses, general administration, $41,266, and highway investigations, $138,680, as the functions now paid for from these two appropriations will be administered under the appropriation made for administration of the Federal-aid highway system. The estimates show a decrease of $16,000,000 in the item for cooperation with the States in the construction of roads in the Federal-aid highway system. This decrease has been made in accordance with the provisions of the act making appropriation of $80,000,000 as a temporary advance to the States for emergency construction with a view to increasing employment. The act provided that the amount advanced was to be reimbursed to the Government over a period of five years by making deductions from regular apportionments made from future authorizations for carrying out the provisions of the Federal highway act beginning with the fiscal year 1933. The amount of $16,000,000 has been deducted from the apportionments for 1933 and therefore is reflected in the decrease in the estimates for 1933.

BUREAU OF AGRICULTURAL ENGINEERING

The estimates for the Bureau of Agricultural Engineering for the fiscal year 1933 show an actual decrease of $58,550. This decrease is in the item for agricultural engineering investigations.

BUREAU OF AGRICULTURAL ECONOMICS

The estimates of the Bureau of Agricultural Economics show a net decrease of $455,183. The total of the decreases is $511,303. The principal increase is $55,300 for enforcement of the United States cotton futures and cotton standards acts. The principal decreases are $25,293 for farm management and farm practice, $80,580 for marketing and distributing farm products, $13,800 for crop and livestock estimates, $12,190 for foreign competition and demand, $38,130 for market inspection of farm products, $91,800 for market news service, $39,000 estimate of grade and staple of cotton, $172,700 for enforcement of the perishable commodities act, $22,870 for enforcement of the United States grain standards act, and $10,400 for wool marketing studies.

BUREAU OF HOME ECONOMICS

The estimates of the Bureau of Home Economics for 1933 for home economic investigations show an actual decrease of $12,335.

BUREAU OF PLANT QUARANTINE

The estimates for 1933 propose a change in the name of this unit from Plant Quarantine and Control Administration to Bureau of Plant Quarantine. The estimates show an actual decrease of $454,925. The principal decreases are $55,860 for enforcement of the plant quarantine act, $10,000 for transit inspection, $61,000 for eradication of the pink bollworm of cotton, $26,645 for control of the spread of the parlatoria date scale, $24,150 for control of the spread of the thurberia weevil, $65,000 for control of the spread of the gypsy and brown-tail moths, $155,000 for control of the spread of the European corn borer, $45,000 for control of the spread of the Japanese beetle, and $10,000 for certification of exports.

ENFORCEMENT OF THE GRAIN FUTURES ACT

The estimate for enforcement of the grain futures act for 1933 shows an actual decrease of $1,642.

FOOD AND DRUG ADMINISTRATION

The estimates for the Food and Drug Administration for the fiscal year 1933 show an actual decrease of $79,961. The principal decreases are $40,046 for enforcement of the food and drug act, $11,200 for enforcement of the insecticide and fungicide act, and $23,030 for enforcement of the milk importation act.

MISCELLANEOUS

The item for collection of seed grain loans shows a decrease of $125,000. This decrease, however, is only apparent since $500,000 of the unexpended balance of the appropriation contained in Public Resolution No. 114, approved January 15, 1931, is made available for this purpose during the fiscal year 1933. The item for soil erosion for 1933 shows an actual decrease of $40,800 and for forest roads and trails a decrease of $3,000,000. This decrease was made possible as the regular forest and trail program was advanced during the fiscal years 1931 and 1932 by expenditures from the emergency construction appropriation. As the estimates for 1933 do not provide for seed loans nor for agricultural credits and rehabilitation there is a reduction of $22,000,000 because of the omission of these nonrecurring items.

Permanent appropriations:

EXTENSION SERVICE

The estimate of the Extension Service relating to its permanent appropriation, cooperative agricultural extension work, for 1933, shows an increase of $53,160. Of this amount $50,000 is for the Territory of Porto Rico in accordance with recent legislation. The remaining $3,160 is for the Territory of Hawaii, the automatic increase resulting from an increase in population as disclosed by the 1930 Census.

FOREST SERVICE

The estimates of the Forest Service for 1933 for permanent appropriations show decreases of $360,000 for payments to States and Territories and $100,000 for construction of roads and trails for States, both items being payable from national forest receipt funds. The item for the National Forest Reservation Commission shows a decrease of $25.

Annual appropriations:

Items provided in the 1932 appropriations and nonrecurring in 1933 covering the construction of buildings, vessels, aids to navigation, and fish-cultural stations, special repairs and equipment, aggregating $2,349,712, and covering extension of lighted airways at a cost of $1,914,471; and decreased requirement of $5,154,330 due to the completion of the Fifteenth Decennial Census, reduce the above indicated decrease of 1933 estimates under the 1932 appropriations, to a decrease of $197,413 for the normal operations of the department in 1933.

OFFICE OF THE SECRETARY

The increase of $185,232 in the appropriations for the office of the Secretary includes $118,800 for the Federal Employment Stabilization Board, which is an increase in that amount over 1932 appropriations inasmuch as the board is operating in the current year entirely with funds available from the fiscal year 1931. However, with an estimated expenditure of $80,000 in 1932 the actual increase provided for this activity for 1933 is therefore $38,800. The contingent expense appropriation is given an increase of $29,700 and printing and binding $33,750, principally to meet requirements of the Census Bureau formerly provided for under the appropriation for the Fifteenth Decennial Census.

RADIO DIVISION

Nonrecurring equipment items in 1932 amounting to $17,000 and reduced needs for field personnel have permitted a reduction of $48,200 for the Radio Division.

AERONAUTICS BRANCH

In the administrative appropriation a reduction in travel and per diem costs and in repairs and airplane equipment permit a decrease of $68,500. The estimate of $7,628,500 for air navigation facilities provides no extension of lighted airways in 1933 but is based upon 19,500 miles to be in operation by June 30, next. This effects a reduction of $1,914,471 below the provision for 1932, offset in part by an increased allowance of $565,075 for maintenance and operation of mileage and facilities now in process of extension. There is also included in the estimate $25,500 for replacement of 3 of the 10 planes now in use under this appropriation.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

The Bureau of Foreign and Domestic Commerce estimate of $4,986,531 is $347,591 under the appropriation for 1932. This reduces the activities particularly concerned with foreign trade by $228,622, the promotion of domestic commerce by $56,689, and the district office service by $62,280. A reduction of $11,300 in travel costs, of $8,000 in equipment needs, and a transfer of contingent expense items from the appropriation for domestic commerce to the contingent fund of the department in the amount of $12,120 reduces the net decrease to $316,171 for the regular functions of the bureau. This decrease, however, contemplates no reduction in either the departmental or field forces.

BUREAU OF THE CENSUS

The Bureau of the Census reduction of $5,154,330 represents the close of the decennial census period December 31, 1932, and the estimate of $1,116,250 will enable the bureau to resume its normal program the latter half of the fiscal year 1933.

STEAMBOAT INSPECTION SERVICE

Decreased needs of the contingent appropriation of the Steamboat Inspection Service permit a reduction of $41,750 in that item. The estimates for the salary appropriations are reduced as follows: Office, $5,220; inspectors, $58,050; clerk hire, $9,310. No reduction, however, will result in the present personnel organizations.

BUREAU OF NAVIGATION

A new navigation vessel was included in the 1932 appropriations for the Bureau of Navigation. This is a nonrecurring item and accounts for $65,000 of the reduction shown. Without making a material change in personnel, the appropriation for clerk hire, shipping service, is decreased $12,315 and load lines of American vessels, $8,710. The latter reduction is effected primarily by a reduced allowance for travel and per diem.

BUREAU OF STANDARDS

Included in the 1932 appropriations for the Bureau of Standards is $125,000 for the installation of a refrigerating system, an addition to the dynamometer building, and renovation of the laboratories. This reduces the decrease of $244,315 for 1933, shown above, to an actual decrease of $119,315, distributed over 19 appropriation items, principally as follows: Salaries, bureau, $22,740, from $732,740 to $710,000; testing structural materials, $15,000; sugar standardization, $12,000; standardization of equipment, $26,095. It is believed that these reductions will not result in any material alteration of the bureau activities. The 1933 estimates include an increase of $3,000 under care of grounds for constructing a road to the new hydraulic laboratory. Hydraulic laboratory research is increased from $36,880, representing only a partial-year operation in 1932, to $51,000 for full-time operation in 1933.

LIGHTHOUSE SERVICE

The total allowance of $10,943,859 for the Lighthouse Service makes provision for additional officers and crews of new vessels to be placed in commission. This amounts to $97,740. Retired pay also calls for an increase of $84,000 to meet increasing obligations under that appropriation. The net decrease of $1,138,552 is effected by a reduction in the projects under public works. The estimate of $549,708 submitted for this item will permit the following program for aids to navigation: $55,000 to complete three projects upon which work is now in progress; $238,008 to continue work upon eight more; $190,000 to begin work upon seven; and $66,700 to begin and complete within that amount the construction of two projects.

COAST AND GEODETIC SURVEY

The 1932 appropriations for the Coast and Geodetic Survey include $15,000 for seismograph equipment and $52,000 for special repairs to vessels. Considering these as nonrecurring items, the total estimates for 1933 show an actual decrease of $127,433. There are here involved an increase of $25,500 for field expenses, Atlantic coast, to permit more extensive inshore work; and an increase of $17,687 to care for longevity increases in the commissioned force. The Pacific coast survey work presents reduced requirements permitting an estimate decreased by $42,000; tides, currents, etc., by $5,000; Federal, boundary, and State surveys, by $55,800; magnetic work by $21,940, or $6,940, considering the nonrecurring seismograph equipment noted above; and repairs of vessels, $13,000, besides the special repairs referred to. Temporary employees in the vessel service are reduced by $42,000 in a less extensive intermediate offshore work. The decrease of $7,180 in general expenses is due to moving into the new Commerce Building.

BUREAU OF FISHERIES

The Bureau of Fisheries presents nonrecurring construction items totaling $460,740 in 1932, which decrease the reduction shown above to $107,160 in actual operating costs. The reduction of $3,180 in office salaries represents a saving due to consolidation in the new building. By curtailing expenditures for travel and miscellaneous equipment and supplies, inquiry respecting food fishes is reduced $19,000; fishery industries, $9,830; and propagation of food fishes, $36,030. Protecting seal and salmon fisheries of Alaska is reduced by $33,940 principally in the amount of nonrecurring and other items of equipment. Reduced requirements for the Mississippi wild life and fish refuge permit the decrease of $17,100 shown for that item.

PATENT OFFICE

The appropriations for the Patent Office for 1932 include a nonrecurring amount of $201,970 in excess of usual annual requirements for furniture and filing cases to complete the replacement of old wooden cases for filing copies of patents. The actual decrease for the Patent Office is, therefore, $53,080 below appropriations for 1932. The estimate for salaries is reduced $27,000 below the appropriation of $3,502,000 for 1932. This reduced allowance which still makes provision for a new edit section is justified by anticipating the normal lapses in so large a personnel. Removal to the new building makes possible the reduction of $8,980 in contingent expenses. Printing and binding requires the $14,000 increase given that item.

BUREAU OF MINES

The total of $2,278,765 for the Bureau of Mines for 1932 includes $93,010 for the completion of the helium plant program at Amarillo, Tex., nonrecurring in 1933. A transfer of $6,320 in salaries and $5,000 for contingent expenses has also been made to the office of the Secretary due to consolidation in the new building. The actual decrease then for the bureau becomes $109,905, distributed over the various appropriations in such a way as to disturb as little as possible the normal functions of the bureau. It is contemplated that no reduction will be made in either departmental or field personnel aside from delayed filling of vacancies that normally occur. The reduction will be effected in part through these lapsed salaries but in the main by curtailment of expenditures for travel, supplies, and equipment.

Taking into consideration the transfer of funds to the Secretary's office, noted above, and a transfer of $29,840 from economics of mineral industries to investigating mine accidents, the principal net reductions are as follows: Investigating mine accidents, $23,175; operating mine-rescue cars and stations, $19,165; testing fuel, $9,030; mineral mining investigations, $8,275; oil, gas, and oil shale investigations, $11,645; experiment stations, $11,570; economics of mineral industries, $14,390.

Annual appropriations:

OFFICE OF THE SECRETARY

The net decrease of $3,800 results from the dropping of a position in the office of the Solicitor.

GENERAL LAND OFFICE

The net decrease of $46,100 arises from the alternate year elimination of the item of $15,000 for United States maps and from reductions in various items for current operating expenses.

BUREAU OF INDIAN AFFAIRS

The net decrease of $2,826,658 is occasioned by the following increases and decreases: Reduction of $34,000 for general expenses, consisting of $11,000 for a telephone line and $23,000 for construction of Indian agency buildings; reduction of $126,140 for Indian lands, which includes the elimination of an item of $100,000 for purchase of land for the Navajos; reduction of $195,500 for industrial assistance and advancement, which includes $100,000 in the amount allowed for expenses of sale of timber and $75,000 in the amount allowed for leveling Pima Indian lands; reduction of $625,217 for irrigation and water supply, which includes reductions of $500,000 for construction of the San Carlos project distributing system, $360,000 for continuation of construction of the Wapato project and $200,000 for payments to the Middle Rio Grande Conservancy District, and increases of $332,500 for improvements to the Fort Hall project, and $98,000 for continuing construction of the Flathead project; reduction of $1,193,600 for Indian education, of which $350,000 is in the amount allowed for construction of reservation school buildings, $650,000 in the amount allowed for nonreservation boarding schools, due in part to a decrease in the amount for construction of new buildings and in part to decreased cost of subsistence supplies, and $172,000 in the amount allowed for the construction of Indian school buildings in Alaska; reduction of $802,200 for conservation of health, representing a decrease in the amount allowed for new construction; reduction of $104,000 for roads and monuments on Indian reservations, of which $100,000 is in the amount allowed for road construction; increases of $16,000 for departmental salaries and of $238,000 for general support and administration of Indian property, the latter increase resulting from the decreased amounts of tribal funds available for this purpose and the consequent necessity of providing additional Federal funds.

BUREAU OF RECLAMATION

The net decrease of $2,702,640 for reclamation projects, exclusive of the Boulder Canyon project, results chiefly from decreases of $2,000,000 for the Owyhee project, $786,000 for the Kittitas division of the Yakima project, $45,000 for the Bitter Root project, $239,000 for the Klamath project, $205,000 for the Yuma project, $164,000 for the Minidoka project, and $150,000 for the Belle Fourche project, and increases of $975,000 for the

Yakima project and $529,000 for the Vale project. The major construction items for 1933 are: Owyhee project, $1,000,000, together with the unexpended balances of prior year appropriations; Yakima project, $1,000,000; and Vale project, $674,000.

The 1933 estimate of $10,000,000 for the Boulder Canyon project represents a decrease of $5,000,000 below the 1932 appropriation. It is expected, however, that a 1932 unexpended balance of at least $5,000,000 will be carried forward for expenditure in 1933.

GEOLOGICAL SURVEY

The net decrease of $237,740 is occasioned chiefly by a reduction of $164,000 for topographic surveys due to a probable diminution in the amount of state cooperation in 1933, and a reduction of $69,740 in the item for printing, largely on account of a probable decrease in the number of topographic maps to be printed.

NATIONAL PARK SERVICE

The net decrease of $241,230 for administration, protection and improvement of the various national parks and monuments is due to a somewhat curtailed program of new construction for 1933. A decrease of $1,000,000 for purchase of privately owned lands within national parks and monuments is offset by an increase of a like amount for the construction of roads and trails. While the roads appropriation for 1932 is $5,000,000, the total amount for 1931 was $9,000,000, and of this latter amount a considerable portion will be available for expenditure in 1932.

OFFICE OF EDUCATION

The net decrease of $25,400 is accounted for by increases of $9,600 for administrative personnel and expenses, and of $50,000 for investigation of school finance, and by decreases of $75,000 for investigation of secondary education and $10,000 for the teacher-training investigation.

GOVERNMENT IN THE TERRITORIES

Of the net increase of $108,200, the sum of $93,000 will be required for the expenses of the Territorial Legislatures of Alaska and Hawaii which will meet in biennial session in 1933, and the balance of $15,200 will provide for statutory increases in the salaries of the governor and secretary of Alaska, for a disbursing clerk in the office of the governor, for additional personnel and travel in connection with the reindeer work, and for care of an increased number of insane patients of Alaska.

THE ALASKA RAILROAD

The decrease of $500,000 in the estimate of appropriation to meet the deficit in operating revenues of the Alaska Railroad is occasioned by reductions of $250,000 in operating expenses of the railroad and $250,000 provided in 1932 for an investigation of Alaskan mineral resources affecting railroad tonnage.

TEMPORARY GOVERNMENT FOR THE VIRGIN ISLANDS

The estimate for the temporary government of the Virgin Islands is in the amount of $412,000. The second deficiency act, fiscal year 1931, provided an appropriation of $643,300, fiscal years 1931 and 1932, together with any unexpended balance of the 1931 appropriation, for the expenses of the government of the Virgin Islands. Of this appropriation of $643,300, the sum of $150,000 was contemplated for expenditure in 1931 and $493,300 was intended for use in 1932. Of the latter amount $380,700 was intended for general operating expenses and $112,600 for special rehabilitation projects. The 1933 estimate of $412,000 provides an increase of $31,300 for general operating expenses, which includes an item of $25,000 for the agricultural experiment station work now conducted by the Department of Agriculture. While no new amounts are provided for special rehabilitation projects for the fiscal year 1933, such balance for this purpose as may remain unexpended at the close of the fiscal year 1932 is continued available for the same purpose for the fiscal year 1933, and it is expected that at least $58,300 will be so continued.

ST. ELIZABETHS HOSPITAL

The net decrease of $1,533,367 is due almost entirely to the elimination of new construction for 1933, the amount for this purpose in 1932 being $1,575,000. An increase of $41,633, coupled with a probable decrease in the cost of subsistence supplies, is expected to provide for an increase of 175 patients in 1933.

COLUMBIA INSTITUTION FOR THE DEAF

The net increase of $3,000 will provide increases of $2,000 for repairs of buildings and $1,000 for equipment.

HOWARD UNIVERSITY

The net increase of $50,000 results from an increase of $75,000 for salaries and general expenses and a decrease of $25,000 for construction of new buildings. The estimate for 1933 includes $400,000 for completion of the library building, and $460,000 for a heat, light, and power plant.

FREEDMEN'S HOSPITAL

The net decrease of $93,520 is occasioned by the elimination of the 1932 item of $97,000 for construction of a hospital addition, and by an increase of $3,480 for personnel and expenses.

Permanent appropriations:

GENERAL LAND OFFICE

The principal item in the net decrease of $542,000 is a reduction of $500,000 in the estimate of payments to the States from receipts from oil and gas royalties.

BUREAU OF INDIAN AFFAIRS

The net decrease of $2,750,000 is occasioned by decreases of $2,500,000 in the estimate of expenditures from "Miscellaneous trust funds of Indian tribes" due to reduced receipts from oil and gas royalties, and $400,000 in the estimate of expenditures from "Indian moneys, proceeds of labor" due to probable decreases in tribal revenues, and increases of $100,000 in the estimate for

"Interest on Indian trust funds," and $50,000 in the estimate for "Civilization of the Sioux."

GOVERNMENT IN THE TERRITORIES

The net decrease of $30,000 is in the item "Public schools, Alaska, fund," expenditures from which are regulated by receipts.

THE ALASKA RAILROAD

The estimate of $1,291,300 under the heading "Alaska Railroad special fund" appears for the first time in the 1933 Budget. This fund, derived from operating revenues, reimbursements, and special deposits, was established by decision of the Comptroller General of the United States under date of March 11, 1931.

Annual appropriations:

OFFICE OF THE ATTORNEY GENERAL

The estimate for salaries, Department of Justice, has been increased from $1,282,120 to $1,303,240, or $21,120, but the appropriation for 1932 was reduced $8,500 by transfer to the Department of State of the amount provided for the salary of the Solicitor of the Department of State, which office was abolished and re-created in the Department of State by the office of Legal Adviser of the Department of State by the act approved February 23, 1931, making an actual increase for 1933 of $29,620, which is for additional legal and clerical personnel.

Other changes in the estimates for the Office of the Attorney General are increases in contingent expenses from $90,000 to $95,000, and in printing and binding from $310,000 to $350,000 including printing and binding for the United States courts, and a decrease in traveling and miscellaneous expenses from $25,000 to $20,000 due partly to the reduction made by the department in the rates of travel.

BUREAU OF PRISONS

The estimate for salaries and expenses, Bureau of Prisons, is increased from $234,078 to $255,690, or $21,612. Of this amount $21,202 is for new personnel, while the remaining $410 is a net increase in traveling expenses made up of an increase of $4,260 for the travel of new inspectors and a decrease of $3,850 on account of the reduction in the rates of travel.

MISCELLANEOUS OBJECTS

There is a net decrease in detection and prosecution of crimes from $2,978,520 to $2,826,210, consisting of nonrecurring items in the 1932 appropriation of $142,100 for salaries and $72,261 for travel expenses because of a contemplated reduction in the field force of 49 special agents and a decrease of $49,359 in traveling expenses due to the reduction in the rates of travel, and increases for personnel at Washington of $23,100 for the administrative office and $40,010 for the division of identification and information, $26,950 for rentals including $13,000 for the field office at Chicago because of lack of room in the Federal building, $10,000 for equipment, and $11,350 for supplies, etc.

The increase in the estimate for protecting interests of the United States in customs matters from $119,940 to $128,940 consists of $8,800 for additional personnel and $200 for communication service. Reductions have been made in the estimates for defending suits in claims against the United States from $70,000 to $60,000; examination of judicial offices from $260,340 to $256,340, and enforcement of antitrust laws from $204,160 to $193,860.

JUDICIAL

No estimate is submitted by the Department of Justice for salaries, National Park Commissioners, as this is carried in the Budget of the Interior Department for 1933.

In 1932 an appropriation of $12,565 was made for repairs to buildings, Court of Claims, covering certain items specifically named therein. It is proposed to make such appropriations general in character hereafter, and for 1933 an amount of $5,000 is recommended for necessary repairs and improvements to these buildings.

UNITED STATES COURTS

The following increases are recommended in the estimates for the United States courts: Salaries, fees, and expenses of marshals, from $4,350,460 to $4,430,000, including $17,100 for new personnel, $61,940 for travel expenses of which $30,000 is for transportation of prisoners under writs of habeas corpus ad testificandum by marshals instead of employees of penal institutions as heretofore,

and $500 for transportation of seized property; salaries and expenses of district attorneys from $3,295,620 to $3,366,000, a net increase of $70,380, made up of increases of $73,500 in personnel and $4,000 in communication service, and decreases of $7,040 in travel expenses and $80 in equipment; salaries and expenses of clerks of courts from $2,175,920 to $2,217,000, a net increase of $41,080, consisting of an increase of $43,000 in personnel and a decrease of $1,920 in travel expenses; fees of commissioners from $600,000 to $640,000; fees of jurors and witnesses from $4,150,000 to $4,300,000, of which $100,000 is for per diems for services of jurors and $50,000 for mileage of jurors; pay of bailiffs, etc., from $500,000 to $530,000, the increase being distributed among attendance per diems of bailiffs and criers, meals and lodging for jurors, and traveling expenses of circuit and district judges; supplies for United States courts from $90,000 to $100,000; and books for judicial officers from $75,000 to $90,000.

Decreases are recommended for pay of special assistant attorneys from $450,000 to $447,000, rent of court rooms from $115,000 to $100,000, and miscellaneous expenses from $1,270,980 to $1,250,000.

PENAL AND CORRECTIONAL INSTITUTIONS

There is a net increase in the total of all estimates for penal and correctional institutions from $13,794,255 to $16,170,941.

In 1932 the funds for medical service to inmates of Federal penal and correctional institutions under the supervision of the Public Health Service were included in the appropriations of the respective institutions. Beginning with 1933, however, it is proposed to provide for this service under one appropriation entitled "Medical and Hospital Service," and an amount of $400,000 is requested for that purpose.

The reduction in the estimates for maintenance at the older institutions is due principally to a decrease in maintenance costs and the inclusion in the estimate for medical and hospital service of funds for the Public Health Service. United States penitentiary, Leavenworth, Kans., is reduced from $1,942,440 to $1,858,000, of which $1,180,097 is for the main prison with an estimated average daily population of 3,600 prisoners and $677,903 for the annex prison with an estimated average daily population of 1,800 prisoners; United States penitentiary, Atlanta, Ga., is reduced from $1,198,212 to $1,169,400, with an estimated average daily population of 3,600 prisoners; United States penitentiary, McNeil Island, Wash., is reduced from $516,060 to $487,520, with an estimated average daily population of 1,100 prisoners; Federal Industrial Institution for Women, Alderson, W. Va., is reduced from $352,400 to $322,900, with an estimated average daily population of 480 prisoners; United States Industrial Reformatory, Chillicothe, Ohio, is reduced from $790,448 to $710,860, with an average daily population of 1,600 prisoners; and National Training School for Boys, Washington, D. C., is increased from $258,260 to $265,260, with an estimated average daily population of 475 boys. In 1932 an amount of $287,000 was appropriated for the United States Northeastern Penitentiary for part of the year, but the estimate for 1933 has been increased to $544,000 to provide for an average daily population of 1,200 prisoners during the entire year. Initial estimates covering part of the year are requested for United States Southwestern Reformatory of $350,000 consisting of $139,857 for personnel, $94,380 for maintenance, and $115,763 for equipment; and for the United States Hospital for Defective Delinquents of $369,000 consisting of $54,767 for personnel, $64,233 for maintenance, and $250,000 for equipment, of which $240,000 is for 800 beds at $300 per bed. The estimate for the maintenance of prisoners in Federal detention jails is increased from $871,220 to $897,200, but there will be an unobligated balance of $300,000 in the appropriation for 1932 due to the delay in constructing these jails, which would make an actual increase of $325,980 for 1933; it is expected that in 1933 jails will be in operation during the full year at New York, New Orleans, El Paso, and Billings, and part of the year at Detroit and in Minnesota at a site to be selected. For prison camps there is an increase from $837,640 to $878,000, with an estimated average daily population of 2,000 prisoners at all camps.

There are also requested for major construction projects, $1,850,000 for the completion of the United States Southwestern Reformatory, $1,250,000 for the completion of the United States Hospital for Defective Delinquents, and an additional $900,000 for the United States Industrial Reformatory with which it is hoped to complete the construction of this institution. In addition there are estimates for repairs, improvements, and equipment of $9,520 at Leavenworth and $13,000 at Atlanta, $40,000 for building a kitchen and dining room for prisoners employed on the farm at McNeil Island, $124,000 for the construction and equipment of a new laundry building, changes in heating system, and improvements on account of fire hazards and fire protection at the National Training School for Boys, and $100,000 to supplement the funds already appropriated for the construction of Federal detention jails.

There is an increase in probation system, United States courts, from $230,400 to $440,000, consisting of $117,540 for personnel, $2,420 for supplies and materials, $2,450 for communication service, $82,060 for travel expenses, $4,290 for equipment, and $840 for special and miscellaneous expenses.

The reduction from $3,996,040 to $3,192,281 in support of United States prisoners, from which the maintenance of Federal prisoners in State institutions is paid, is due to the fact that some of these prisoners will be confined in the detention jails which it is anticipated will be completed by 1933.

[1] Budget estimate for 1932 shown under independent offices.

Although the estimates for the Department of Labor for the fiscal year 1933 show a net decrease of $505,803 below the appropriations for 1932, there is an actual increase of $478,878 in the 1933 estimates. This is due to nonrecurring items of $425,850, the expenditure in 1931 of $518,831 pertaining to $1,000,000 made immediately available in the 1932 appropriations for the immigration and employment services, and to an item of $40,000 made immediately available in the 1932 appropriation for the Bureau of Labor Statistics and intended to provide for 1931 requirements. The nonrecurring items are special repairs to immigration stations, $350,000; rental of offices for the department in the District of Columbia, $68,000; and rentals for the Bureau of Naturalization in the field, $7,850. The actual increase includes $576,701 for salaries and expenses of the Bureau of Immigration and $1,220 for the Employment Service. The items of decrease include $21,500 for printing and binding, $7,143 for the Bureau of Labor Statistics, $65,400 for salaries and expenses of the Bureau of Naturalization, and $5,000 for publishing citizenship textbooks. It is estimated that the order of the Secretary of Labor, effective November 1, 1931, reducing the per diem subsistence allowance from $6 to $5 and the actual subsistence expenses from $7 to $6 per day of employees in a travel status will effect an annual saving in Department of Labor appropriations of $60,000.

Annual appropriations:

OFFICE OF THE SECRETARY

The decrease in the Office of the Secretary includes $68,000 for the nonrecurring item of rental of quarters in Washington for the department, which is included in the 1933 estimates of appropriations for Public Buildings and Public Parks of the National Capital, and $21,500 for printing and binding.

BUREAU OF LABOR STATISTICS

Of the $580,480 available for the Bureau of Labor Statistics in 1932 appropriations, $40,000 made immediately available in the second deficiency act, fiscal year 1931, approved March 4, 1931 (Public, No. 869, 71st Cong.), was intended for 1931 requirements, and the remaining $540,480 for 1932 needs. Due to increased savings in 1933 resulting from decreasing the subsistence allowance to employees in travel status, the $533,337 estimated for 1933 will enable the bureau to continue its activities on the same scale as in 1932.

BUREAU OF IMMIGRATION

The appropriation of $10,534,160 for 1932 salaries and expenses provides the immediate availability of $500,000. Of this amount $453,831 was expended in 1931 for the deportation of undesirable aliens and the return of destitute aliens, leaving $10,080,329 available for 1932. Of this amount $2,368,800 may be used only for the border patrol and $7,711,529 is available for the departmental and immigration services. The 1933 estimate of $2,194,180 for the border patrol will enable the department to continue patrol activities with the force now on the rolls, consideration being given to savings accumulating from personnel turnover. The 1933 estimate of $8,462,850 for the departmental and immigration services is $751,321 in excess of the 1932 availability for similar purposes. All of the increase, including $137,325 for mandatory promotion of inspectors, is for the Immigration Service and contemplates the deportation of 20,000 undesirable aliens illegally in this country and the return of 3,000 destitute aliens authorized in section 23 of the act of February 5, 1917. At the present rate approximately the same number will be deported and returned in the current year, and to accomplish this a supplementary appropriation for 1932 will be necessary.

The 1933 estimate for immigration stations is $350,000 less than the appropriation for 1932, wherein provision was made for special, nonrecurring repairs.

BUREAU OF NATURALIZATION

The 1933 estimate for salaries and expenses of the Bureau of Naturalization is $73,250 less than the appropriation for 1932. This reduction is effected by nonrecurring rentals, $7,850; the postponement of statistical work, not presently urgent, for which provision was made in the 1932 appropriation, and subsistence per diem savings. The estimate will permit the bureau to continue the personnel now on its rolls.

CHILDREN'S BUREAU

The estimate for the Children's Bureau for 1933 is the same amount as appropriated for 1932.

WOMEN'S BUREAU

The estimate for the Women's Bureau for 1933 is the same amount as appropriated for 1932.

EMPLOYMENT SERVICE

The 1932 appropriation for the Employment Service is $883,780, including $500,000 made immediately available in the second deficiency act, fiscal year 1931. Of this appropriation, $65,000 was expended in 1931, leaving available $818,780 for the fiscal year 1932. The estimate of $820,000 for 1933 is to continue operations on the current year scale.

UNITED STATES HOUSING CORPORATION

Appropriations for the Housing Corporation heretofore have been made in the independent offices appropriation act. In that act, approved February 23, 1931, making appropriations for the fiscal year 1932, the corporation was authorized, with the approval of the Secretary of Labor, to appoint an official of the Department of Labor to act as its president and to designate the disbursing clerk of the Department of Labor to act in a similar capacity for the corporation. These provisions have been accomplished. The Secretary of Labor being the only stockholder in the corporation representing the Government; an official of the department being president of the corporation; the disbursing clerk of the department acting as the corporation's disbursing officer, and its funds being cleared through the department, the estimate for the corporation is included in the Department of Labor chapter of the Budget for the fiscal year 1933.

The estimate for 1933 is the same amount as appropriated for 1932.

Permanent appropriation:

BUREAU OF NATURALIZATION

The estimate for publishing citizenship textbooks, $5,000 less than the 1932 appropriation, will provide sufficient books, together with the number now on hand, to meet requirements.

GENERAL STATEMENT

The total of the estimates of appropriation for the Navy Department for the fiscal year 1933 is $343,000,000. This total, compared with the total appropriation of $360,101,593 for 1932, indicates a net decrease of $17,101,593. These figures, however, do not present a fair comparison, since the estimates for 1933 contain recommendations that additional funds be made available by transfers of $6,000,000 from the naval supply account fund and $1,750,000 from the clothing and small-stores fund. These sums, added to the estimates of appropriation, increase the amount to be made available for 1933 to $350,750,000, or only $9,351,593 less than the appropriation for 1932. In addition to this, it is proper to state that more than $25,000,000 of the continuing appropriations available for 1932 will not be expended during this year and over $6,000,000 of the annual appropriations for 1932 will not be obligated. Thus, of the approximate amount of $410,000,000 available for expenditure during the current fiscal year, only about $380,000,000 will be expended, and the carry-over into 1933 will make about the same amount, $380,000,000, available for expenditure during that year.

For construction of vessels and the improvement of navy yards for ship construction the estimate of $31,400,000 for 1933, compared with the appropriation of $38,550,000 for 1932, reflects a decrease of $7,150,000, but when the balances carried forward from prior years and the transfer from the naval supply account fund are taken into consideration it is estimated that $53,000,000 will be expended in 1932 and $57,000,000 will be available for expenditure during 1933, which will exceed the amount expended for this purpose during any year since 1922. The estimates provide for normal progress in construction of every vessel now under way, or appropriated for in part, except six destroyers, and, in addition, contemplate the laying down in January, 1933, of another 8-inch gun cruiser permitted under the London treaty.

These estimates show an increase of $15,000,000 over the appropriation for 1932 on account of alterations to naval vessels. The naval appropriation act for 1932 contained no appropriation for modernization of battleships. However, the second deficiency act, fiscal year 1931, provided $10,000,000 toward modernizing the battleships *Idaho, Mississippi,* and *New Mexico.* Of this amount approximately $300,000 was expended prior to July 1, 1931. The remainder will be used during 1932. The estimates for 1933 include $15,000,000 to carry forward work on these vessels.

The estimates for public works amount to $4,122,000, which compared with the appropriation of $12,164,000 for 1932, reflect a decrease of $8,042,000. The estimates provide for continuing work on projects already provided for in part and the undertaking of certain minor, but very essential, projects, particularly in connection with safety provisions at naval magazines.

The estimates for general maintenance and operation of the Navy and Naval Establishment (excluding the items for ship construction, modernization of vessels and public works) amount to $292,478,000 for direct appropriation and $1,750,000 to be transferred from the clothing and small-stores fund, making a total available of $294,228,000. This figure compared with the appropriation of $309,387,593 for 1932 for like purposes, reflects a decrease of $15,159,593. The estimates for these purposes provide for an average of 79,700 enlisted men of the Navy, the same as for 1932; and an average of 15,343 enlisted men of the Marine Corps, as against 17,500 men provided for by the appropriation for 1932. It is contemplated that no fighting vessel of the Navy will be decommissioned, but a "rotating plan" recently adopted by the Navy, which lends itself both to economy and efficiency, will be continued in effect. No navy yards or training stations are to be decommissioned. This reduction of over $15,000,000 in these estimates, especially those covering maintenance and repair, are predicated upon certain changes in the distribution and operations of the fleet, a modification in the program for alterations of vessels afloat, reductions in the cost of materials, the limitation of repairs and maintenance at shore establishments to necessities, and a further utilization of stores and materials on hand.

Further details regarding increases or decreases by bureaus and appropriations are set forth below.

Annual appropriations:

OFFICE OF THE SECRETARY

The net decrease of $208,665 involves the transfer of the appropriation item for the Naval Research Laboratory ($229,765 for 1932) from the Secretary's office to the Bureau of Engineering, a reduction of $58,500 for pay, miscellaneous; $5,000 for contingent, Navy; $3,000 for care of lepers, Island of Guam; and $80,000 for operation and conservation of naval petroleum reserves; and an increase of $167,600 under State marine schools, being a transfer to this head of funds heretofore carried in the maintenance appropriations of the several bureaus.

BUREAU OF NAVIGATION

A net decrease of $1,113,884, due principally to decrease of $780,835 for Naval Reserve activities, $223,091 for instruments and supplies, $41,900 for recruit training stations, $21,600 for ocean and lake surveys, and $10,000 for Reserve Officers' Training Corps. The decreases for the Naval Reserve will curtail the number of reserves to be given basic and advanced aviation training; the decrease for instruments and supplies is largely due to nonrecurring items for gyrocompasses; the decrease for recruit training stations will limit the cost of upkeep and maintenance to necessities; the decrease for ocean and lake surveys contemplates the laying up of one of the three survey ships; and the decrease under Reserve Officers' Training Corps is justified by requirements and past expenditures.

BUREAU OF ENGINEERING

The net decrease of $870,040 under this bureau involves a decrease of $1,088,040 under the appropriation item "Engineering" and an increase of $218,000 due to the transfer of the appropriation item "Naval Research Laboratory" from the Secretary's office to the Bureau of Engineering. The decrease of $1,088,040 is accounted for by a decrease in the estimates for the maintenance and repair of the fleet, for the construction of new yard and district craft, for replacement of machine tools and other improvements at navy yards, for radio traffic stations, for tests and experiments, and by the transfer of amounts for the upkeep of State school ships to the appropriation item "State Marine Schools." The decrease of $11,765 under the head "Naval Research Laboratory" involves a reduction in the amounts for personal services and research materials.

BUREAU OF CONSTRUCTION AND REPAIR

A net decrease of $1,637,500 due principally to the nonrecurring items for submarine safety alterations and the conversion of the *California State* to a school ship, the transfer of the amount for upkeep of State school ships to the appropriation "State marine schools," and a reduction in the estimate for the replacement of machine tools.

BUREAU OF ORDNANCE

A net decrease of $1,120,585 due principally to a reduction in the cost of overhaul and maintenance of ordnance equipage of vessels, a saving in the cost of target material and a reduction in the number of new target rafts to be built, a reduction in the requirements for relining guns, a decrease in the number of target projectiles and in the amount of smokeless powder to be procured, a decrease in the program to provide anti-aircraft machine guns and new fire-control instruments for vessels of the active fleet, a decrease for repairs to buildings and structures at ordnance stations, and a decrease in the allowance for new machinery. The estimate for smokeless powder, heretofore provided for by a separate subhead of the appropriation for ordnance and ordnance stores, has been included in the estimate under the main heading.

BUREAU OF SUPPLIES AND ACCOUNTS

A net decrease of $3,479,041 due principally to decreases of $1,315,870 in the direct appropriation for pay, subsistence, and transportation of naval personnel (which taken in connection with the transfer of $1,750,000 from the clothing and small-stores fund to this head indicates an increase of $434,130 instead of a decrease), $375,000 under appropriation for maintenance, $1,513,171 for fuel due to estimated reduction in fuel costs, and $275,000 for evacuation of high explosives for purposes of safety and storage. The estimate for pay, subsistence, and transportation will provide for the same enlisted strength as was authorized for 1932 and will care for longevity increase in pay and normal increase in the number of retired officers and men. The decrease in the appropriation for fuel is based upon the assumption that there will be no material increase in fuel-oil prices, but a proviso is included to insure the procurement of a definite quantity of fuel, in case of a material rise in prices, by authorizing its issue from current stock without charge to this appropriation. The estimate for the evacuation of high explosives, together with the extension of availability of the present appropriation, will permit the transfer of high explosives to proceed as rapidly as Government transportation facilities will permit.

BUREAU OF MEDICINE AND SURGERY

A decrease of $247,000 due principally to decreases of $240,000 under the head "Medical Department," and $7,000 under "Care of the dead." The major portion of the reduction under "Medical Department" is due to the increased utilization of naval hospitals by the Veterans' Administration. The system of charging the Veterans' Administration for hospitalization of its patients on a cost basis results in a considerable saving to the Veterans' Administration as well as to Navy Department appropriations. The decrease in "Care of the dead" is based on average actual expenditures for the past four years.

BUREAU OF YARDS AND DOCKS

A net decrease of $8,468,816, involving decreases of $8,042,000 under public works, $414,816 under "Maintenance," and $12,000 under "Contingent." The estimate for maintenance, in addition to general maintenance and repair requirements, will provide for maintenance dredging and major repair projects which, prior to 1932, were carried under funds appropriated specifically under the head of "Public works." The estimates for public works include the necessary funds to continue the authorized public-works projects already under way or provided for in part, including the naval air station, Sunnyvale, Calif., and ammunition-storage facilities in Hawaii, and to undertake a number of new projects not requiring legislative authorization.

BUREAU OF AERONAUTICS

A decrease of $4,485,000 due to decreases of $129,400 for instruments, $255,600 for maintenance, $75,000 for experiments and development, $3,800,000 for construction of new airplanes, and $225,000 for construction of rigid airships. As the naval 5-year aircraft program was completed with the appropriation for 1931, procurement of airplanes during the fiscal years 1932 amd 1933 is for replacement purposes. The appropriation for 1932 will procure 325 airplanes, and the estimates for 1933 will procure 150 planes. In addition to the estimates for cash appropriation for airplanes, the estimates for 1933 include a proviso to authorize the Secretary of the Navy to enter into contracts for the procurement of aircraft and accessories aggregating not to exceed $5,000,000, which is a reduction of $2,700,000 in contract authorizations, compared with a similar item of $7,700,000 contract authorization for 1932. By reason of the reduction in cost of planes and accessories, and due to changes in program as to types, savings of over $1,000,000 were made from the appropriation for 1931 and over $3,300,000 will accrue from the appropriations for 1932, which sums will be covered into the surplus fund of the Treasury. The estimates also include $1,450,000 to complete the second rigid airship now under contract, as against $1,675,000 contained in the appropriation for 1932 toward the construction of the first and second rigid airships authorized by law. The first airship, the *Akron*, will be completed with funds already appropriated.

NAVAL ACADEMY

A net decrease of $114,154, consisting of decreases of $45,154 for "Pay, Naval Academy," of $9,000 for "Current and miscellaneous expenses," and of $60,000 for "Maintenance and repairs." These decreases are due to a reduced number of midshipmen, reduced cost of supplies and materials, and to limiting repairs and maintenance to actual necessities.

MARINE CORPS

A net decrease of $2,686,268 due principally to a reduction in enlisted strength of the Marine Corps from 17,500 to 15,343. The decreases effected include, under "Pay, Marine Corps," $849,695 due to reduction in strength and closing of recruiting stations, $26,520 due to reduction in Marine Corps Reserve, excluding transferred and assigned men, $59,910 reduction on account of transferred men; and under "General expenses, Marine Corps," $1,743,435 due to reduction in strength and estimated reduced maintenance costs by reason of prevailing low

prices of commodities and curtailment of procurements, and $10,171 for nonrecurring items for expenses of the Marine Band in attending conventions of veterans' organizations, and an increase in pay of civil employees, Marine Corps, of $1,463 due to reallocation of employees by the Personnel Classification Board.

SALARIES, NAVY DEPARTMENT

A net decrease of $13,840 due principally to reduction in number of personnel. No provision is made for any promotions.

CONTINGENT AND MISCELLANEOUS EXPENSES

A net increase of $10,120 due to decreases of $25,000 for printing and binding, $5,000 for contingent expenses, Navy Department, $6,380 for Hydrographic Office, and $17,500 for the Naval Observatory; and increases of $60,000 for instruments for the astrographic laboratory and $4,000 for observation of solar eclipse.

Annual appropriations:

The Budget estimate of $813,724,487 for postal requirements during the fiscal year 1933 represents a decrease of $27,759,290 under the appropriations for the fiscal year 1932. The appropriations for 1932, however, were based on anticipated revenues during that year of $730,000,000, representing an increase in business of about 2¼ per cent over the estimate for the previous year, whereas according to the best estimates that can be made at this time it is not expected that the revenues for 1932 will exceed $625,000,000, a decrease of approximately 4¾ per cent under the previous year. The drop of $105,000,000 in anticipated revenues is due to the continued depression in business activities which has prevailed since the first estimate was made.

The decrease in postal business has served also to reduce postal expenditures, but not at a rate comparable with the decrease in revenues. This is attributable to several principal causes, namely, long-term contracts not susceptible of adjustment to meet rapidly changing conditions, the inadvisability of reducing the force of postal employees beyond the point of leaving vacancies unfilled, and the necessity of absorbing the cost of readjusting working schedules to conform to legislation recently enacted providing for a 44-hour work week in the Postal Service. The expenditures for the fiscal year 1932 are now estimated at $820,000,000, a reduction of over $24,000,000 below the estimate made at the time the Budget for 1932 was compiled.

Allowing for probable unexpended appropriation balances, the cost of maintaining the postal service during the fiscal year 1933 is estimated at $811,000,000, or $9,000,000 below the estimated cost for 1932. This estimate of expenditures has been made notwithstanding an anticipated increase in revenues during the fiscal year 1933 of $31,000,000, or 5 per cent, and is justified by the fact that the force of employees on the rolls in 1933, although further reduced by a continuation of the practice of not filling vacancies, will still be sufficient to care for the increased business.

The present Budget contemplates a deficiency in the postal revenues for the fiscal year 1933 of $155,000,000, and for the fiscal year 1932 of $195,000,000.

The principal items of increase or decrease which go to make up the net decrease in the 1933 estimates under the 1932 appropriations are as follows:

POST OFFICE DEPARTMENT, WASHINGTON, D. C.

Increases of $50,000 to provide temporary personnel to prepare individual retirement records, and $23,040 in the office of the Third Assistant for the Division of Postal

Savings. These increases are offset by decreases of $10,240 in salaries, Office of the First Assistant; $5,640 in salaries, Office of the Solicitor; $6,000 in miscellaneous items; $45,000 in printing and binding; and $5,000 in heat, light, and power.

POSTAL SERVICE, FIELD OPERATIONS

UNDER THE FIRST ASSISTANT POSTMASTER GENERAL

Decreases of $2,000,000 in compensation to postmasters, $150,000 in compensation to assistant postmasters, $7,000,000 in clerks, etc., first and second class post offices, $150,000 in clerks, contract stations, $300,000 in clerks at third class offices, $150,000 in miscellaneous items first and second class post offices, $2,000,000 in city delivery carriers, $1,250,000 in special delivery fees, and $1,550,000 in rural delivery service, all due to drop in mailings.

UNDER THE SECOND ASSISTANT POSTMASTER GENERAL

An increase of $1,500,000 in Railway Mail Service salaries due to the necessity of taking on additional regular employees to man the service under readjusted schedules conforming to the new 44-hour work week. The annual cost of the shorter work week in this service was originally estimated at $4,000,000, but it has been possible to absorb a large part of this amount by utilizing employees whose services would not otherwise be needed because of reduced postal business.

An increase of $2,816,000 in foreign mail transportation to cover extensions of routes, increased frequency, and use of vessels of increased speed and size under ocean mail contracts.

Decreases of $900,000 in star-route service, $9,000,000 in railroad transportation and mail messenger service, $100,000 in Railway Mail Service travel allowances, and $700,000 in balances due foreign countries, all due to drop in mailings.

A decrease of $40,000 in power boat service due to reduction in cost under contracts.

A decrease of $100,000 in Railway Mail Service miscellaneous expenses due to occupation of space in Federal buildings and reduction in operating costs.

A decrease of $85,000 in electric and cable car service due to reduction in this class of service.

A decrease of $1,000,000 in domestic air-mail service, which is possible through revision of contracts.

UNDER THE THIRD ASSISTANT POSTMASTER GENERAL

A decrease of $400,000 in manufacture of stamped envelopes and newspaper wrappers due to decreased requirements.

A decrease of $300,000 in indemnities for loss, etc., of domestic mail due partly to decreased mailings, and partly to improved methods of handling registered, insured, and C. O. D. matter.

UNDER THE FOURTH ASSISTANT POSTMASTER GENERAL

A decrease of $105,000 in stationery due to reduction in prices.

A decrease of $100,000 in post-office equipment and supplies due principally to reduction in prices.

A decrease of $80,000 in twine and tying devices due to reductions in quantity and price.

A decrease of $750,000 in mail bags and equipment due to reduction in estimated number of bags required.

A decrease of $800,000 in rent, light, and fuel due partly to occupancy of Federal buildings, and partly to reduction in cost of space leased by the Government.

A decrease of $2,900,000 in motor vehicle service due to reduction in service and deferment of an enlarged truck replacement program.

Annual appropriations:

OFFICE OF THE SECRETARY OF STATE

The estimate for salaries, Department of State, shows an increase from $1,985,588 to $2,000,000, or $14,412. The 1932 appropriation, however, contains $21,325, which was granted to meet a temporary situation for that fiscal year only. On the other hand, the appropriation for 1932 was increased $8,500 by transfer from the appropriation made to the Department of Justice of the amount therein provided for the salary of the Solicitor of the Department of State, which office was abolished and re-created in the Department of State by the office of Legal Adviser of the Department of State, by the act approved February 23, 1931. The actual increase provided in the estimates for 1933 is therefore $27,237.

Contingent expenses, Department of State, is reduced from $137,500 to $112,000, the decrease of $25,500 consisting of various items which will not be required in 1933, the most important of which is $15,000 for the installation of a new dictograph system. In printing and binding, Department of State, there is a reduction from $285,000 to $276,875, made up of decreases of $36,573 and increases of $28,448, the principal decreases being $11,549 for the treaty series and $5,000 for foreign relations, while the main item of increase is $14,000 for printing the testimony taken in the trail smelter investigation and the final report of the International Joint Commission, United States and Great Britain, regarding that investigation.

The unexpended balances of the appropriations for collecting and editing official papers of Territories of the United States are continued available until June 30, 1933. A total appropriation of $125,000 is authorized for this project, with a provision that not more than $50,000 shall be appropriated for any one year, and thus far two appropriations of $15,000 each have been made.

FOREIGN INTERCOURSE

Heretofore the appropriations for salaries of ambassadors and ministers have provided specifically for the salary of each ambassador and minister, with the result that in most cases large unexpended balances have been returned to the Treasury on account of lapses in service. To avoid appropriating money unnecessarily, it is proposed that beginning with 1933 this be made a lump-sum fund, and the amount has been reduced from $654,000 to $625,000.

In pursuance of the act entitled "An act for the grading and classification of clerks in the Foreign Service of the United States of America, and providing compensation therefor," approved February 23, 1931, it is proposed to discontinue the appropriations for clerks at embassies and legations and for allowance for clerks at consulates, and include the salaries of all these clerks in one appropriation entitled "Salaries of clerks in the Foreign Service." The estimate for 1933 of $2,716,438 is the sum of the two appropriations for 1932.

The estimate salaries, Foreign Service officers, has been increased from $3,373,500 to $3,440,000 to meet the requirements of that portion of section 33 of the act of February 23, 1931, providing that all Foreign Service officers having a rating of satisfactory or better who shall have been in classes 5, 6, 7, or 8 for a continuous period of nine months or more, shall, on the first day of each fiscal year receive an increase of salary of $100, except that no officer shall receive a salary above the maximum of his class, and all such officers in classes 1, 2, 3, or 4 shall in the same circumstances receive an increase of $200.

The increase from $518,000 to $600,000 for transportation of Foreign Service officers includes $26,430, which it is estimated will be necessary to catch up on transfers that must be deferred because of inadequate funds, and $55,570 to meet the ordinary requirements based on a survey which indicates that the average service at one post of officers transferred is three years.

The Foreign Service building act of 1926 authorizes to be appropriated an amount not exceeding $10,000,000 for the acquisition of sites and buildings and initial furnishing of buildings, for the use of diplomatic and consular establishments and other agencies of the United States in foreign countries, with a restriction that not more than $2,000,000 shall be appropriated for any one year, all appropriations to remain available until expended. A total of $8,835,000 has been appropriated, and an additional amount of $450,000 is recommended in the Budget for 1933, of which $377,661 will be required to meet obligations falling due in 1933 and the remainder is to provide for contingencies which may arise during the year and which can not be foreseen at this time.

There is an increase from $215,000 to $416,000 in the Foreign Service retirement and disability fund. This is due to an actuarial revaluation of the fund based on the act of February 23, 1931.

INTERNATIONAL OBLIGATIONS, COMMISSIONS, BUREAUS, ETC.

The quotas for the Pan American Union and the Pan American Sanitary Bureau are based on population, and on the basis of the estimated population in 1933 the estimates for the share of the United States have been increased from $180,603.20 to $187,367.60, and from $28,774.74 to $29,986.70, respectively.

An amount of $120,000 is recommended for participation by the United States in the Seventh International Conference of American States, to be held at Montevideo, Uruguay, beginning in December, 1932, and lasting about six weeks. This conference is based on the convention of February 20, 1928, relating to the organization of the Pan American Union, section 2 of which provides that the international conferences of American States shall meet at periodic intervals and that the Governing Board of the Pan American Union shall determine the date on which they shall meet, provided that in no case shall a longer period than five years elapse between conferences except in case of force majeure. This convention was ratified by the Senate of the United States on February 28, 1931, and has been ratified by some but not all of the other signatory governments.

The Radiotelegraph Convention signed November 25, 1927, stipulates that the provisions of the convention and the regulations annexed thereto shall be revised by conferences of the plenipotentiaries of the contracting governments, each conference fixing the place and time of the following meeting. It has been decided to hold the next meeting at Madrid, Spain, beginning in September, 1932. The conference will last about three months, and $120,000 is recommended for participation by the United States.

No estimate is included in the Budget for 1933 for the General and Special Claims Commissions, United States and Mexico, as these commissions expired in

August, 1931, under the terms of the treaties establishing them.

An initial appropriation of $54,000 was made by the second deficiency act, fiscal year 1931, for the expenses of this Government in the arbitration of the claims pursuant to the Claims Convention of July 28, 1926, between the United States and Panama, and there is included in the Budget for 1933 an additional amount of $97,500 for the completion of this work.

Pursuant to the act of March 4, 1931, there is included in the Budget for 1933 an estimate of $50,000 for the contribution by the United States, for the expenses and entertainment while in the United States of delegates and members participating in the Fourteenth Annual Convention of the French Veterans of the World War, to be held in the District of Columbia in September, 1932, during the celebration of the two hundredth anniversary of the birth of George Washington, and in honor of the birthday of General Lafayette.

The unexpended balances of the appropriations for the International Water Commission, United States and Mexico, of $287,000 for 1932, and for investigation of fisheries, Passamaquoddy and Cobscook Bays by United States and Canada, of $22,500 each in 1931 and 1932, are continued available until June 30, 1933, as it will not be possible to complete these projects in 1932.

Permanent appropriations:

There have been omitted from the Budget for 1933 special funds for moneys received from other American republics for support of the Pan American Union, in view of the fact that these moneys are no longer deposited in the Treasury but are handled by the Union; and for moneys received from the German, Austrian, and Hungarian Governments for those Governments' moieties of the expenses of the Mixed Claims Commission, as the work of this commission will be completed in 1932.

Annual appropriations:

An increase in Treasury Department estimates for the fiscal year 1933 is due to the necessity of providing additional funds in large amounts to meet the requirements of the Federal building program now under way, not only for the construction of new buildings, but for the maintenance and operation of completed buildings. Were it not for this requirement the estimates for 1933 would be substantially under the appropriations for 1932. The details of the net increase of $24,798,440 are as follows:

SECRETARY'S OFFICE

A decrease of $6,575 due to personnel and salary adjustments.

OFFICE OF THE CHIEF CLERK AND SUPERINTENDENT

A decrease of $5,000 in miscellaneous items, due to decreased requirements.

A decrease of $12,500 in rent, due to transfer of this item to the Office of Public Buildings and Public Parks of the National Capital.

DIVISION OF SUPPLY

An increase of $3,240 in salaries, due to the formal transfer of two employees now on detail to this division.

A decrease of $13,900 in printing and binding, due to decreased requirements.

A decrease of $34,200 in stationery, due principally to decrease in prices.

GENERAL SUPPLY COMMITTEE

An increase of $14,560 in salaries and expenses for additional personnel in connection with definite quantity purchases and occupation of enlarged quarters in new Government warehouse.

OFFICE OF THE COMMISSIONER OF ACCOUNTS AND DEPOSITS

An increase of $20,100, due principally to the transfer of the surety bonds section from the Division of Appointments.

DIVISION OF BOOKKEEPING AND WARRANTS

A decrease of $69,900 due to postponement of recoinage operations and decreased requirements for contingent expenses in connection with handling public moneys.

PUBLIC DEBT SERVICE

A decrease of $10,000 in personnel, and $75,000 in estimated cost of distinctive paper for United States securities, due to reduction in note circulation and better prices for paper.

DIVISION OF APPOINTMENTS

A decrease of $20,025, due principally to transfer of the surety bonds section to the office of the Commissioner of Accounts and Deposits.

CUSTOMS SERVICE

A decrease of $933,600 in item for collecting the customs revenue, following marked drop in receipts.

OFFICE OF THE TREASURER OF THE UNITED STATES

An increase of $41,200 for additional personnel, due to marked increase in number of checks to be handled.

INTERNAL REVENUE SERVICE

A decrease of $26,202,560, due to a reduction of $26,000,000 in the item for refund of taxes illegally collected, and the remainder to decreased requirements following drop in revenues. The unexpended balance of the 1932 appropriation for refunding taxes illegally collected, which it is expected will amount to approximately $43,000,000, is made available for 1933 and prior year claims.

BUREAU OF INDUSTRIAL ALCOHOL

A decrease of $53,420 due principally to unfilled vacancies in 1932 being carried over.

BUREAU OF NARCOTICS

A decrease of $75,728 due principally to unfilled vacancies in 1932 being carried over.

COAST GUARD

A net decrease of $3,193,862. The decreases consist of $1,640,000 for the Coast Guard Academy, the full amount authorized for the project having been heretofore appropriated, $1,600,000 for construction of cutters and boats, due to completion of the various boat building programs, $196,115 for fuel and water, due to decrease in cost of fuel oil, and $121,450 for rebuilding and repairing stations, $50,000 in communication lines, and $83,500 for establishing new Coast Guard stations, all due to decreased requirements. These are offset by increases of $410,000 for pay and allowances, due to additional personnel, automatic promotions and increased cost of enlisted men, $21,663 for outfits, particularly for radio equipment and ordnance, $18,200 for contingent expenses covering transportation of things and repairs to boats, and $50,000 for repairs to Coast Guard vessels to cover increase in amount required for repairs and for spare parts for seaplanes.

BUREAU OF ENGRAVING AND PRINTING

A decrease of $65,000 due to reduction in production program.

PUBLIC HEALTH SERVICE

A net decrease of $511,763. The principal decreases are $584,514 in pay of personnel and maintenance of hospitals due to nonrecurring expenditures for equipping new hospitals, and $97,150 in quarantine service due to nonrecurring expenditures for equipping new stations. Decreases in a number of other items are offset by an increase of $322,452 in pay and allowances of commissioned officers due to the consolidation of the regular commissioned personnel of the service under the increased item.

MINT SERVICE

A decrease of $222,940, practically all of which is due to a reduction in production program.

OFFICE OF THE SUPERVISING ARCHITECT

For public building construction under the act of May 25, 1926, the Budget estimates provide $120,000,000, or double the amount of the appropriation for 1932. This increase is offset by decreases of $5,000,000 in the amount provided in 1932 for acquisition of land in the District of Columbia and $1,703,000 in other construction items.

Aside from the above amounts, the estimates for the Supervising Architect are $4,100,620 in excess of the 1932 appropriations, after deducting $500,000 for repairs and preservation of public buildings because of a curtailment in the program for interior painting and $50,000 for rent of temporary quarters. This increase is made up of the following items, practically all of which are due to the construction and occupation of new Federal buildings: $115,000 for mechanical equipment, $25,000 for vaults and safes, $247,480 for general expenses, $2,035,000 for operating force, $1,250,000 for furniture and repairs, $658,700 for operating supplies, $300,000 for outside professional services, and $19,440 for salaries in the Office of the Supervising Architect.

Permanent appropriations:

DIVISION OF BOOKKEEPING AND WARRANTS

A decrease of $346,000 due principally to postponement of recoinage operations.

PUBLIC DEBT SERVICE

An increase of $174,392 in expenses connected with floating new issues of securities, which is offset by a decrease of $45,747 on account of decreased requirements for preparation, custody, and delivery of farm loan bonds and Federal intermediate credit bank securities.

CUSTOMS SERVICE

A decrease of $805,000 in reimbursable items due to drop in customs revenues.

OFFICE OF THE TREASURER OF THE UNITED STATES

A decrease of $48,090 in expenses incident to redemption and issue of national currency due to reduction in note circulation.

BUREAU OF INDUSTRIAL ALCOHOL

A decrease of $75,000 for reimbursable items due to decreased requirements.

Departmental activities

Annual appropriations:

SALARIES AND EXPENSES

Included under this head are all departmental salaries, contingent expenses, stationery, and printing and binding. The increase for 1933 of $48,645, net, consists of increases of $50,000 for printing and binding, due principally to a larger number of reports of examinations and surveys of rivers and harbors required to be printed, $2,853 for the keeping of civil service retirement fund records, and $2,500 for contingent expenses, less $6,708, reductions in salary rolls.

Military activities

Annual appropriations:

OFFICE OF THE SECRETARY OF WAR

The only item under this head is a small fund for contingencies, which is reduced from $12,000 to $10,000 to correspond with reduced requirements.

GENERAL STAFF CORPS

Includes contingencies, Military Intelligence Division, General Staff, and the Army War College. The amounts of the estimates for 1933 are the same as those appropriated for 1932.

ADJUTANT GENERAL'S DEPARTMENT

The appropriation items concerned are "Command and General Staff School, Fort Leavenworth, Kans.," and "Welfare of enlisted men." The decrease of $2,120 consists of a nonrecurring item of $120 for equipment and $2,000 reduction in travel expenses.

FINANCE DEPARTMENT

Under this head provision is made for the pay and allowances of active and retired officers, warrant officers, nurses, and enlisted men of the Regular Army and the Philippine Scouts; withdrawals by enlisted men of savings deposited with the Finance Department; mileage of the Army; expenses of courts-martial; apprehension of deserters; hire of civilian employees of the Finance De-

partment in the field; and claims for the loss and damage of personal property of Army personnel. The net increase for 1933 in "Pay, etc., of the Army," is $1,791,742. The increases consist of: $1,755,761 for pay and allowances of officers on the active list, $88,930 for pay of retired officers, and $374,120 for longevity and aviation pay of enlisted men; total $2,218,811. The decreases, totaling $427,069, consist of $77,451 in pay of warrant officers, $157,364 in base pay of enlisted men, $73,736 in pay of Philippine Scouts, $21,865 in active duty pay of retired officers, $49,813 in pay of retired enlisted men, $21,320 in pay of nurses, $20,000 in interest on soldiers' deposits, $400 in payment of exchange, $5,000 in extra pay to officers owning private mounts, and $120 in pay of hospital matrons. Changes from 1932 appropriations for other items under the Finance Department consist of decreases of $20,692 in mileage (of which $14,281 is transferred to other items of appropriation), $5,000 in expenses of courts-martial, $10,000 in apprehension of deserters, and $10,000 in claims. The Budget estimate for 1933 provides for average active strengths of 12,000 commissioned officers, 924 warrant officers, and 118,750 enlisted men of the Regular Army and 6,500 enlisted men of the Philippine Scouts.

QUARTERMASTER CORPS

This includes appropriation items for the subsistence clothing, and transportation of the Army; furnishing of nontechnical supplies; the maintenance, repair, and operation of barracks, quarters, and other buildings and utilities; construction of buildings, utilities, and appurtenances; procurement of horses; acquisition of land; incidental expenses; rent of buildings; sewerage system at Fort Monroe, Va.; and construction and repair of hospitals. The net decrease in 1933 amounts to $27,256,415, resulting from a large number of items increased or decreased. The principal decreases are: $6,303,741 in subsistence, due to an estimated reduction in the average cost of the ration from 41.14 cents, appropriated for in 1932, to 37 cents in 1933, amounting to $2,145,955, and a carry-over of subsistence funds into 1933 of $4,157,786, resulting from savings on account of reduced costs, during 1931 and 1932; $569,580 in regular supplies, $1,611,860 in clothing and equipage, $18,500 in incidental expenses, $45,620 in animal transportation, $1,129,226 in maintenance, repair and operation of barracks, quarters, and other buildings and utilities, and $30,180 in maintenance and repair of hospitals, due to nonrecurring items, the postponement of projects where practicable, reduction in commodity costs, and the carry-over of stocks; $18,445,990 for the construction of buildings, utilities, and appurtenances at military posts, due to the fact that no authorization act was passed by Congress for the fiscal year 1933, and that the Army housing program has progressed to such extent that, in the interest of necessary economy in 1933, the retarding of this program is possible without detriment to the Army; total net decrease, $28,154,697. The two principal items of net increase are: $638,725 for army transportation, mainly for the procurement of trucks and major repairs to transports; $250,000 for acquisition of land to protect the water supply of the United States Military Academy, and $9,557 for completing land purchases at Fort Ethan Allen, Vt., and the Delaware ordnance depot at Pedricks-town, Pa.

SIGNAL CORPS

Signal Service of the Army is the only appropriation item concerned. The net decrease in 1933 of $138,416 consists principally of reduced requirements for new telephone installations in connection with the Army housing program and for equipment and supplies for combat organizations.

AIR CORPS

The net decrease under 1932 is $5,996,732, consisting of $2,824,321 for the procurement or purchase of new airplanes and their equipment, spare parts, and accessories; $300,000 for procurement of lighter-than-air equipment; $525,000 for the purchase of new airplanes, spare parts, and accessories for service test; $2,220,199 for operating expenses; and $127,212 for miscellaneous items.

The Budget estimate provides for the procurement of 238 airplanes for the Regular Army under the Air Corps expansion program authorized by Congress, calling for a total of 1,800 airplanes, of which 1,648 are for the Regular Army and 152 for the National Guard. The total estimated cost of the 238 new planes is $11,199,252. It is estimated that this will provide the Air Corps of the Regular Army with a total of approximately 1,475 airplanes on hand and on order on June 30, 1933. The estimate also makes provision for an average of 165 flying hours per qualified airplane pilot during the fiscal year 1933.

MEDICAL DEPARTMENT

Provides for the medical and hospital department of the Army, including hospital care of Panama Canal Zone garrisons, and the maintenance and operation (except cost of personnel) of the Army Medical Museum and library. The decrease in 1933 amounts to $12,868, of which $10,415 is for personnel and $1,540 for testing new equipment.

CORPS OF ENGINEERS

Embraces appropriation items for engineer depots, school, equipment of troops, operations in the field, and military surveys and maps. The net decrease of $32,226 in 1933 is divided as follows: Engineer depots, $960; Engineer School, $520; engineer equipment of troops, $7,150; and engineer operations in the field, $23,596. These decreases are due to reduced requirements in some cases and postponements in others.

ORDNANCE DEPARTMENT

Includes appropriation items for ordnance service and supplies, the maintenance and operation of Rock Island Arsenal bridges, the repair of arsenals, and the development and procurement of gauges, dies, and jigs for manufacture. The net increase for 1933 is $426,025, arrived at as follows: Renovation of ammunition, $318,425; procurement of ordnance matériel, $300,000; painting Rock Island Arsenal bridges, $12,000; total increase $630,425, less $204,400 for nonrecurring items and economies under repair of arsenals; net increase, $426,025.

CHEMICAL WARFARE SERVICE

Net decrease in 1933, $30,099, resulting from minor increases and decreases.

CHIEFS OF INFANTRY, CAVALRY, FIELD ARTILLERY, AND COAST ARTILLERY

Includes the service schools of these four branches of the Army. The decrease in 1933 consists of $1,020 in the requirements of the Coast Artillery School.

SEACOAST DEFENSES

This embraces, for the United States, insular possessions, and Panama Canal, the construction, maintenance, and repair of fixed fortifications; the procurement, installation, and maintenance of fire-control systems, searchlights, and submarine mine defenses; installation of fixed antiaircraft defenses; and the procurement and maintenance of ordnance and ordnance matériel. Various phases of the work are handled by the Corps of Engineers, the Signal Corps, the Coast Artillery Corps, and the Ordnance Department. The Budget decrease for 1933 amounts to $399,763, net, divided as follows: United States, $163,887, insular possessions, $183,329, and Panama Canal, $52,547. These net decreases are the results of a number of increases and decreases affecting 30 objects of expenditure and fall principally in two classes—nonrecurring items and items which can be postponed.

UNITED STATES MILITARY ACADEMY

Under this head fall the pay and allowances of professors, cadets, and civilian employees, and the maintenance, operation, and repair of the academy. The decrease in 1933 is $105,729, of which $12,989 represents reduced requirements for supplies and equipment and pay of professors, and $92,740 reduction in maintenance and repair of buildings and roads. An average of 1,236 cadets is provided for.

MILITIA BUREAU

Under this head provision is made for the entire cost to the Federal Government for the equipment, maintenance, and training of the National Guard, except the pay and allowances of commissioned officers of the Regular Army and the pay of enlisted men of the Regular Army detailed as instructors. The Budget estimate for 1933 is $1,645,577 less than the appropriation for 1932. This decrease consists of the following items: Expenses, camps of instruction, $1,383,778, based upon a reduction in attendance at summer camps from approximately 86 per cent to approximately 75 per cent of the allotted strength of the National Guard of 190,188, to reduced cost of subsistence, and nonrecurring items of camp construction and operation; expenses of guardsmen at Regular Army Service Schools, $55,800; general expenses, equipment and instruction, $20,985; travel of Regular Army personnel, $9,750; forage, $77,969; armory drill pay, $47,500; and arms, uniforms, and equipment for field service, $50,295. For 1933 provision is made for an aggregate authorized strength of 190,188 officers and men. The actual average strength is estimated at about 185,000.

ORGANIZED RESERVES

The net decrease for 1933 is $183,437 and is due entirely to economies effected by the War Department. The Budget estimate makes provision for 14 days' active duty training of 20,000 reserve officers—same as 1932; for details of six months, each, on the General Staff, of 20 such officers—same as 1932; for the detail on active duty for one year with tactical units of the Air Corps of the Regular Army of 272 reserve pilots, same as 1932; for attendance of from 6 to 12 weeks of 300 reserve officers at Regular Army service schools as against 144 for 1932; and for the detail of 130 reserve officers as instructors at citizens' military training camps—same as 1932.

RESERVE OFFICERS' TRAINING CORPS

Increase in 1933, $109,484, net. The total net increase amounts to $143,302 and is practically all for uniforms. The net decreases total $33,818 and cover reductions in requirements of technical supplies and service charges. The Budget estimate makes provision for the enrollment and instruction of 127,565 students in Reserve Officers' Training Corps units at schools and colleges and the training of 7,200 of this number in 42-day camps.

CITIZENS' MILITARY TRAINING CAMPS

Decrease in 1933, $175,505, due to economies effected by the War Department. The Budget estimate makes provision for 30 days' attendance at training camps of 37,500 trainees, the same as for 1932.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE

Provision is made under this head for the annual pistol and rifle matches and small-arms firing school conducted at Camp Perry, Ohio; for quartermaster supplies and services for rifle ranges for civilian instruction; for the procurement of trophies and medals; and for ordnance equipment and ammunition for civilian rifle clubs.

The increase in 1933 of $6,380 is due to the depletion of the balance of funds from prior appropriations from which $6,380 was available for use in 1932.

Permanent appropriations:

FINANCE DEPARTMENT

Two permanent indefinite appropriations are involved—one providing for the repayment to enlisted men of the Army, upon discharge, of savings deposited with the Finance Department during their terms of enlistment, and the other being for the payment of claims of officers and men of the Army for destruction of private property. The decrease in 1933 of $300,000 represents an estimated reduction in the funds required under the first-mentioned item.

ORDNANCE DEPARTMENT

Under this department there is one permanent appropriation which authorizes the use of not more than $75,000 in any one fiscal year from the proceeds of sales of useless ordnance material.

Nonmilitary activities

Annual appropriations:

QUARTERMASTER CORPS

Under this head is included the appropriation items for cemeterial expenses, national military parks, markers, and monuments, survey of battlefields, and special projects of similar character.

The net decrease for 1933 is $633,588 and results from the completion of certain projects and the slowing down of progress on new ones as well as fluctuations in the annual requirements for the maintenance and operation

of the various national cemeteries and national military parks and monuments. The net decreases by activities are as follows: Cemeterial expenses, $298,921; national military parks, $236,570; national monuments, tablets, and markers, $91,797; and survey of battlefields, $6,300.

SIGNAL CORPS

This covers the maintenance and operation of the Washington (State)-Alaska Military Cable and Telegraph System, now used almost exclusively for commercial and Government civil purposes. The decrease in 1933 of $127,552 is due to the completion in 1932 of the installation of a radio system to displace the old cable and telegraph system, the cables, however, being retained in place as a reserve system.

CORPS OF ENGINEERS

Included in the annual appropriations under this head is the maintenance and improvement of existing river and harbor works; maintenance and operation of Dam No. 2, Muscle Shoals, Ala.; flood control on the Mississippi and Sacramento Rivers; emergency fund for flood control on tributaries of the Mississippi River; expenses of the California Débris Commission; the construction and maintenance of roads, bridges, and trails in Alaska; and the preservation and repair of historical fortifications.

The total decrease for 1933 is $3,187,781, arrived at as follows: $9,431 for maintenance and operation of Dam No. 2, Muscle Shoals, Ala.; $3,000,000 for flood control of the Mississippi River and tributaries; $144,000 for Alaska roads; $17,000 for preservation and repair of historical fortifications at San Juan, P. R.; and $17,350 for the California Débris Commission, which item has been consolidated with maintenance and improvement of existing river and harbor works.

The estimate for 1933 for annual appropriation for maintenance and improvement of river and harbor works is the same as the appropriation for 1932, $60,000,000.

However, if the fiscal years 1931, 1932, and 1933 be considered together, the total provided for these three years, including the $22,500,000 appropriated by the Emergency Construction Act of December 20, 1930, becomes $197,500,000, or at the rate of $65,833,333 per year, as compared with normal appropriations of $55,000,000 for 1931 and $60,000,000 for 1932.

The emergency construction appropriation of $3,000,000 for flood control is considered as an advance upon the program and has been deducted from the normal annual amount in this Budget.

The total of the annual appropriations carried in the Budget for 1933 for river and harbor works is $60,245,309, and for flood control, $33,400,000. These amounts are supplemented by estimates of permanent appropriations of $9,897,600 and $640,000, respectively.

Permanent appropriations:

FINANCE DEPARTMENT

Two permanent-indefinite appropriations are concerned, namely, claims for extra pay to Regular Army, war with Spain, and claims of volunteers for extra pay, war with Spain. The estimated amounts required to meet these two classes of claims in 1933 are increased over the estimate for 1932 by $875 and $22,250, respectively.

QUARTERMASTER CORPS

Under this head there is one permanent appropriation which makes available the use of the interest from an endowment fund toward the preservation of the birthplace of Abraham Lincoln. This interest amounts to $2,040 annually.

CORPS OF ENGINEERS

Falling under this head are the following permanent appropriations: Removing obstructions in Mississippi, Atchafalaya, and Old Rivers; operating snag and dredge boats on upper Mississippi, Illinois, and Minnesota Rivers; maintenance of channel, South Pass, Mississippi River; examinations and surveys at South Pass, Mississippi River; gauging waters of the Mississippi River and its tributaries; operating snag boats on the Ohio River; permanent international commission of congresses of navigation; operating and care of canals and other works of navigation; and funds contributed and advanced for river and harbor improvements, flood control, and Alaska roads, bridges, and trails. The Budget estimate for 1933 for these purposes is $10,757,600, a reduction below 1932 of $1,465,000, net, due principally to decreased contributions.

UNITED STATES SOLDIERS' HOME (DISTRICT OF COLUMBIA)

This home is supported by trust funds and the interest derived therefrom, plus certain miscellaneous receipts. The increase in 1933 is $13,000 and is due to a decrease of a like amount in the estimated miscellaneous receipts.

Panama Canal

Annual appropriations:

The appropriation items involved are maintenance and operation, sanitation and civil government.

For maintenance and operation the net increase in 1933 is $3,231,203, the result of numerous increases and decreases. The principal items of increase are $3,500,000 for continuing the construction of the Madden Dam and $835,000 for overhaul of the Pacific locks. The principal decrease is $786,154 for betterments. The betterments provided for in the Budget for 1933 are: Permanent quarters for American employees, $250,000; enlargement of Cristobal Dry Dock, $400,000; home for superannuated alien employees, $50,000; beginning construction of Corundu fill, $66,000; new roads in Corozal cemetery, $25,000; widening La Boca Road, $80,000; and grading of building sites, $184,000; total, $1,055,000.

For sanitation of the canal and Canal Zone there is a net increase in 1933 of $9,711, covering necessary additional funds for this general purpose.

For civil government there is a net decrease in 1933 of $11,143, the result of a number of small increases and decreases occasioned by fluctuations in annual requirements.

Annual appropriations:

SALARIES, ETC., DISTRICT OF COLUMBIA

The net increase of $26,170 is accounted for by nonrecurring 1932 items of $123,600 and by 1933 increases of $149,770. The increases include $75,000 toward the construction of the Georgetown branch library (total cost, $150,000); $14,890 to provide for the full year operation in 1933 of the northeast branch library, provision having been made for the operation of the branch during only one-half of the fiscal year 1932; $4,000 for repairs to library buildings; $19,900 for purchase and installation of traffic signals and equipment; $15,900 for care and maintenance of the Ford Building; and $7,840 for additional personnel in the office of the corporation counsel.

The appropriation item for salaries of the highways, sewer, and trees and parking departments have been removed under this head and placed with the later appropriation items for these departments, and in the above tabulation the total amount for this purpose, $447,930, is eliminated in the 1932 and 1933 columns under this heading and is included under the later heads covering these departments.

CONTINGENT AND MISCELLANEOUS EXPENSES

The net increase of $5,720 is occasioned by nonrecurring items of $9,780 and by 1933 increases of $8,500 for bookkeeping and accounting machines for the auditor's office and calculating and adding machines for the department of insurance, and $7,000 for postage.

MUNICIPAL CENTER

Of the 1932 appropriation of $1,500,000 for beginning construction of the first unit of the municipal center, it is expected that approximately $1,300,000 will be carried forward for expenditure during the fiscal year 1933. Of

the 1933 estimate of $1,600,000, not to exceed $900,000 is made available for the acquisition of land, and not to exceed $600,000 for grading and paving of streets and relocation and construction of District of Columbia owned utilities within and/or adjacent to the municipal center. The text of this item also includes authority for the commissioners to enter into a separate contract for the construction of the foundations of the first unit.

STREET AND ROAD IMPROVEMENT AND REPAIR

The net increase of $42,600 results from decreases of $572,500 and increases of $615,100. The estimates include $203,000 for the widening and repaving of Constitution Avenue from North Capitol Street to Pennsylvania Avenue and Sixth Street; $300,000 toward the construction of a new $600,000 Benning Bridge; $250,000 for the construction of a bridge to replace the present P Street Bridge; $40,000 for the preparation of plans, studies, and investigations for a bridge to replace the Calvert Street Bridge over Rock Creek; and $15,000 for surveys, engineering investigations, and preparation of plans for viaducts in the line of Michigan Avenue and New Hampshire Avenue over the tracks and right of way of the Baltimore & Ohio Railroad.

SEWERS

The net increase of $88,000 is occasioned by decreases of $37,000, and increases of $100,000 for assessment and permit work and $25,000 for beginning surveys and engineering investigations of the Rock Creek drainage area.

REFUSE

The net decrease of $238,000 is accounted for by the 1932 nonrecurring item of $300,000 for the completion of the construction of high-temperature incinerators authorized by the act approved March 4, 1929 (45 Stat. 1549), and by increases of $7,000 for sweeping and cleaning streets and $55,000 for collection and disposal of garbage. Not to exceed $72,500 of the 1932 appropriation for collection and disposal of garbage is continued available for the same purpose in the fiscal year 1933.

PUBLIC PLAYGROUNDS

The net decrease of $21,380 is occasioned chiefly by the completion in 1932 of the program for construction of physical improvements, to cost $75,000, which was begun in 1931.

ELECTRICAL DEPARTMENT

The net decrease of $33,825 results from an increase of $2,800 for supplies and equipment, and from reductions of $2,400 for personal services, $16,225 for police patrol, fire alarm and telephone installations underground, $3,000 for street lighting, and $15,000 for completing the study of the power needs of the District of Columbia.

PUBLIC SCHOOLS

The net increase of $638,355 for operation and maintenance of the public schools results from nonrecurring 1932 items in the amount of $172,990 and 1933 increases in the amount of $811,345. The principal increases are as follows: $11,375 for automatic promotions and additional personnel in the administrative force, $3,600 for additional personnel in the clerical force, $3,500 for automatic promotions and additional personnel in the department of school attendance and work permits, $162,620 for automatic promotions for teachers and $111,180 for additional teachers, $65,330 for additional personnel in the custodial force, $3,500 for purchase of laboratory apparatus, $200,000 for furniture and equipment for the Roosevelt High School, $18,000 for remodeling three rooms in the Western High School for laboratory and typewriting use, $50,000 for equipping the stages of Central and Dunbar High Schools with counterweight systems, draperies, etc., and $180,000 for remodeling and equipping the old Business High School and the old Cardozo High School buildings. Provision for improvement of grounds around school buildings is continued through a recommended reappropriation of $100,000 of unexpended balances.

The estimate of $1,586,000 for buildings and grounds provides $95,000 for the purchase of land in the vicinity of the Logan School, and $1,491,000 for new buildings, as follows: $105,000 for an 8-room addition to the Bancroft School; $115,000 for an 8-room extensible building at the site of the Keene School, $250,000 for completing the Taft (Brookland-Woodridge) Junior High School, $315,000 for completing the Jefferson Junior High School, $225,000 for beginning the construction of the junior high school at Nineteenth Street and Minnesota Avenue, southeast, $36,000 for a 2-room addition to the Crummell School, including a new heating plant, $135,000 for completing the Roosevelt High School and for treatment of grounds, $50,000 for the preparation of plans and specifications for a senior high school in the Reno section, $70,000 for a 4-classroom building to replace the Kenilworth School, $100,000 for a school building in the vicinity of Foxhall Village to provide four classrooms and unfinished space for four additional classrooms, and $90,000 for a combination gymnasium and assembly hall for the Douglass-Simmons School and a gymnasium for the M Street Junior High School, together with the unexpended balance of the 1932 appropriation for an addition to the Douglass-Simmons School, for improvement of the central heating plant at the M Street Junior High and Douglass-Simmons schools.

METROPOLITAN POLICE

The net increase of $79,180 is occasioned by a decrease of $8,000 for rent for the House of Detention, and by increases of $52,780 for automatic promotions for officers and members of the force, $17,100 for two additional telephone operators and for nine clerks to replace police privates now engaged upon clerical work, $3,700 for contingent expenses, $1,100 for uniforms and equipment, and $12,500 for the purchase and maintenance of motor vehicles.

FIRE DEPARTMENT

The net decrease of $77,900 is accounted for by nonrecurring items in the amount of $244,400 and by increases in the amount of $166,500, as follows: $83,500 for the construction and furnishing of a house for a truck company in the vicinity of Fourteenth Street and Rhode Island Avenue, northeast, $42,500 for new fire apparatus,

$3,000 for repairs to apparatus, $31,000 for automatic promotions for officers and members of the force, $3,000 for repairs to engine houses, and $3,500 for uniforms and equipment.

HEALTH DEPARTMENT

The net increase of $8,470 involves decreases of $4,600 and increases of $13,070, provision being made in the latter amount for an additional nurse in the contagious diseases work, and for a new dental clinic and an additional medical inspector and a nurse in the hygiene and sanitation work in the public schools.

COURTS AND PRISONS

The net decrease of $37,061 results from reductions of $45,028 and increases of $7,967, the principal items of increase being $3,760 for salary reallocations in the municipal court, $1,400 for writs of lunacy, and $1,700 for printing and binding for the supreme court and court of appeals.

PUBLIC WELFARE

The net decrease of $49,803 represents decreases and nonrecurring items of $521,940 and increases amounting to $472,137. The increases are accounted for largely as follows: Reallocations and an assistant social service worker for the Board of Public Welfare, $3,600; home care for dependent children, $11,620; additional personnel at the workhouse and reformatory to care for expected increase in number of inmates, $61,480; care of indigent patients at Children's Hospital and Central Dispensary and Emergency Hospital, $5,000 and $10,000, respectively; additional personnel, $6,440, maintenance, $3,000, motor truck, $700, at Tuberculosis Hospital; additional personnel, $35,020, motor trucks, $1,250, and beginning construction of ward building for contagious diseases, $250,000 (total cost, $600,000), at Gallinger Hospital; additional personnel, $8,940, maintenance, $1,800, at District Training School; additional personnel, $7,500, maintenance, $9,600, equipping new cottages, $5,000, motor truck, $700, at Industrial Home School for Colored Children; additional personnel for Industrial Home School, $2,640; additional personnel, $2,040, maintenance, $3,000, addition to men's ward building, $12,500, at the Home for the Aged and Infirm; and care of indigent insane at St. Elizabeths Hospital, $23,647. An item of $240,000 is also included for completion of the buildings and facilities for the Children's Tuberculosis Sanatorium.

MILITIA

The net increase of $1,000 for the militia is occasioned by increases of $1,000 for pay of troops, and $200 for printing, stationery, and postage, and by a decrease of $200 for cleaning and repairing uniforms.

ANACOSTIA PARK

The estimate of $179,520 for reclamation and development of Anacostia Park is in the same amount as the appropriation for 1932.

PUBLIC BUILDINGS AND PUBLIC PARKS

For personal services, the estimate for 1933 is in the same amount as the appropriation for 1932, namely, $405,900. For general expenses, the 1933 estimate of $600,000 includes $309,900 for ordinary maintenance, $38,000 for athletic activities, $15,000 for erection of minor structures, and $25,000 for Anacostia Park development, which are the same amounts as for 1932, and provides $15,000 for minor park improvements, and $182,100 for continuing the development of the Rock Creek and Potomac connecting parkway. For the park police the 1933 estimates provide increases of $2,915 for automatic promotions and $240 for equipment.

NATIONAL CAPITAL PARK AND PLANNING COMMISSION

The 1933 estimates for the National Capital Park and Planning Commission carry the same amounts as for 1932, namely, $50,000 for salaries and expenses, and $1,000,000 for reimbursement to the United States in compliance with the act of May 29, 1930, as amended.

NATIONAL ZOOLOGICAL PARK

The net decrease of $26,160 represents 1932 nonrecurring items in the amount of $36,400 and increases of $9,740 for personal services, and $5,000 for improvements in the water supply system.

WATER SERVICE

The net decrease of $262,340 results from decreases and nonrecurring items of $770,340 and increases of $508,000. The increases are: $13,000 to cover additional pumping costs and $150,000 for a booster pumping plant, at Dalecarlia Reservoir, and $345,000 for a 48-inch water main from Fifth and Upshur Streets to Georgia Avenue and Military Road northwest.

Permanent appropriations:

The net decrease of $9,000 in the estimates for permanent and indefinite appropriations results from increases of $40,000 for teachers' retirement fund deductions, $200,000 for miscellaneous trust fund deposits, $75,000 for the policemen and firemen's relief fund, and $1,000 for the Industrial Home School fund; and from decreases of $40,000 for refunding taxes, $250,000 for extension of streets and avenues, $25,000 for the Washington redemption fund, and $10,000 for the permit fund.

Printing and binding for Congress chargeable to the foregoing appropriation, when recommended to be done by the Committee on Printing of either House, shall be so recommended in a report containing an approximate estimate of the cost thereof, together with a statement from the Public Printer of estimated approximate cost of work previously ordered by Congress within the fiscal year for which this appropriation is made.

During the fiscal year [1932] *1933* any executive department or independent establishment of the Government ordering printing and binding from the Government Printing Office shall pay promptly by check to the Public Printer upon his written request, either in advance or upon completion of the work, all or part of the estimated or actual cost thereof, as the case may be, and bills rendered by the Public Printer in accordance herewith shall not be subject to audit or certification in advance of payment: *Provided*, That proper adjustments on the basis of the actual cost of delivered work paid for in advance shall be made monthly or quarterly and as may be agreed upon by the Public Printer and the department or establishment concerned. All sums paid to the Public Printer for work that he is authorized by law to do shall be deposited to the credit, on the books of the Treasury Department, of the appropriation made for the working capital of the Government Printing Office, for the year in which the work is done, and be subject to requisition by the Public Printer.

All amounts in the Budget for the fiscal year [1933] *1934* for printing and binding for any department or establishment, so far as the Bureau of the Budget may deem practicable, shall be incorporated in a single item for printing and binding for such department or establishment and be eliminated as a part of any estimate for any other purpose. And if any amounts for printing and binding are included as a part of any estimates for any other purposes, such amounts shall be set forth in detail in a note immediately following the general estimate for printing and binding: *Provided*, That the foregoing requirements shall not apply to work to be executed at the Bureau of Engraving and Printing.

No part of any money appropriated in this Act shall be paid to any person employed in the Government Printing Office while detailed for or performing service in any other executive branch of the public service of the United States unless such detail be authorized by law (*act Feb. 20, 1931, vol. 46, p. 1190*).

AMERICAN BATTLE MONUMENTS COMMISSION

American Battle Monuments Commission—

For every expenditure requisite for or incident to the work of the American Battle Monuments Commission authorized by the Act entitled "An Act for the creation of an American Battle Monuments Commission to erect suitable memorials commemorating the services of the American soldier in Europe, and for other purposes," approved March 4, 1923 (U. S. C., title 36, secs. 121–133), including the acquisition of land or interest in land in foreign countries for carrying out the purposes of said Act without submission to the Attorney General of the United States under the provisions of section 355 of the Revised Statutes (U. S. C., title 34, sec. 520; title 40, sec. 255); the maintenance of memorials erected by the commission until the Secretary of War is advised of their completion and assumes their maintenance; employment of personal services in the District of Columbia and elsewhere; the transportation of, mileage of, reimbursement of actual travel expenses or per diem in lieu thereof to the personnel engaged upon the work of the commission; the reimbursement of actual travel expenses (not exceeding an average of $8 per day for subsistence) or per diem in lieu thereof (not exceeding $7 per day) to, and the transportation of the members of the commission, while engaged upon the work of the commission; the establishment of offices and the rent of office space in foreign countries; the maintenance, repair, and operation of motor-propelled passenger-carrying vehicles which may be furnished to the commission by other departments of the Government or acquired by purchase; printing, binding, engraving, lithographing, photographing, and typewriting, including the publication of information concerning the American activities, battlefields, memorials, and cemeteries in Europe; the purchase of maps, textbooks, newspapers, and periodicals [; including not to exceed $20,000 for such expenses as the commission, in its discretion, may decide to be necessary incident to the dedication of the memorials, $304,250], *$400,000,* to be immediately available and to remain available until expended: *Provided,* That the commission may incur obligations and enter into contracts for building materials and supplies and for construction work, which, inclusive of the amounts herein and heretofore made available, shall not exceed a total of $4,500,000: *Provided further,* That notwithstanding the requirements of existing laws or regulations and under such terms and conditions as the commission may in its discretion deem necessary and proper, the commission may contract for work in Europe, and engage, by contract or otherwise, the services of architects, firms of architects, and other technical and professional personnel: *Provided further,* That the commission may purchase materials and supplies without regard to section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) when the aggregate amount involved does not exceed $500: *Provided further,* That when traveling on business of the commission officers of the Army serving as members or as secretary of the commission may be reimbursed for expenses as provided for other members of the commission *(U. S. C., title 36, secs. 121–136; act Feb. 23, 1931, vol. 46, pp. 1356, 1357).*

ARLINGTON MEMORIAL BRIDGE COMMISSION

Arlington Memorial Bridge—

For continuing the construction of the Arlington Memorial Bridge across the Potomac River at Washington, authorized in an Act entitled "An Act to provide for the construction of a memorial bridge across the Potomac River from a point near the Lincoln Memorial in the city of Washington to an appropriate point in the State of Virginia, and for other purposes," approved February 24, 1925 (43 Stat., p. 974), to be expended in accordance with the provisions and conditions of the said Act, $1,000,000, including all necessary incidental and contingent expenses, the maintenance and repair of one motor-propelled passenger-carrying vehicle, printing and binding, and traveling expenses, to remain available until expended: *Provided*, That the commission may procure supplies and services without regard to section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) when the aggregate amount involved does not exceed $50: *Provided further*, That no part of this appropriation shall be used to pay for the cost of reconstructing and paving [B Street northwest] *Constitution Avenue*, as provided in the approved project, except for such portions as may abut upon Government-owned property, and not in excess of 40 per centum of the cost of such reconstructing and paving of that portion of the said street which so abuts (*acts Feb. 24, 1925, vol. 43, p. 974; Feb. 23, 1931, vol. 46, p. 1356*).

Locomotive inspection: For all authorized expenditures under the provisions of the Act of February 17, 1911, "To promote the safety of employees and travelers upon railroads by compelling common carriers engaged in interstate commerce to equip their locomotives with safe and suitable boilers and appurtenances thereto" (U. S. C., title 45, sec. 22), as amended by the Act of March 4, 1915, extending "the same powers and duties with respect to all parts and appurtenances of the locomotive and tender" (U. S. C., title 45, sec. 30), and amendment of June 7, 1924 (U. S. C., title 45, sec. 27), providing for the appointment from time to time by the Interstate Commerce Commission of not more than fifteen inspectors in addition to the number authorized in the first paragraph of section 4 of the Act of 1911 (U. S. C., title 45, sec. 26), and the amendment of June 27, 1930 (46 Stat., pp. 822, 823), including such legal, technical, stenographic, and clerical help as the business of the offices of the chief inspector and his two assistants may require, and for traveling expenses, [$504,865] *$485,359*, of which amount not to exceed [$79,880] *$79,000* may be expended for personal services in the District of Columbia (*U. S. C., title 45, secs. 22–34; U. S. C., Supp. IV, title 45, secs. 24, 26; act Feb. 23, 1931, vol. 46, pp. 1365–1366*).

[1931] *1932*, not to exceed $50,000,000, [; (b) $1,970,000] including the salaries of employees of the Fleet Corporation assigned to the Shipping Board; [(c)] (*b*) all amounts received during the fiscal year ending June 30, [1932] *1933*, other than the proceeds of sales of ships and surplus property; [(d)] (*c*) so much of the total proceeds of sales of ships and surplus property received during the fiscal year [1932] *1933*, but not exceeding $1,500,000, as is necessary to meet the expenses of liquidation, including the costs incident to the delivery of vessels to purchasers, the cost of maintaining the laid-up fleet and the salaries and expenses of the personnel engaged in liquidation: *Provided*, That the unexpended balance of $500,000 made available for experimental and research work in the Independent Offices Appropriation Act for the fiscal year 1930 is hereby reappropriated and made available until June 30, [1932] *1933*, for the same purposes and under the same terms, including supervision and inspection of construction of vessels on which loans have been made from the construction loan fund: *Provided further*, That no part of these sums, (a), (b), [(c),] and (*c*) [(d)], shall be used for the payment of claims arising out of the construction and requisitioning of vessels; [(e)] (*d*) all interest earned on the funds, excepting the construction loan fund, of the United States Shipping Board Merchant Fleet Corporation is to accrue to these funds and is made available for the purposes hereinbefore set forth subject to the limitations herein established: *Provided further*, That the unexpended balances of the sums made available by the Independent Offices Appropriation Act, 1930, for reconditioning and operating ships for carrying coal to foreign ports shall continue available for the same purposes for the fiscal year [1932] *1933*.

That portion of the special claims appropriation, contained in the Independent Offices Appropriation Act for the fiscal year 1923, committed prior to July 1, 1923, and remaining unexpended on June 30, [1931] *1932*, shall continue available until June 30, [1932] *1933*, for the same purposes and under the same conditions.

To enable the United States Shipping Board Merchant Fleet Corporation to operate ships or lines of ships which have been or may be taken back from purchasers by reason of competition or other methods employed by foreign shipowners or operators, there is hereby reappropriated the unexpended balance of the appropriation of $10,000,000 made for similar purposes in the Independent Offices Appropriation Act for the fiscal year 1927: *Provided*, That no expenditure shall be made for the purposes of this paragraph from this sum without the prior approval of the President of the United States.

No part of the sums appropriated in this Act shall be used to pay the compensation of any attorney, regular or special, for the United States Shipping Board or the United States Shipping Board Merchant Fleet Corporation unless the contract of employment has been approved by the Attorney General of the United States.

No officer or employee of the United States Shipping Board or the United States Shipping Board Merchant Fleet Corporation shall be paid a salary or compensation at a rate per annum in excess of $10,000 except the following: One at not to exceed $18,000, and two at not to exceed $15,000 each.

No part of the funds of the United States Shipping Board Merchant Fleet Corporation shall be available for the rent of buildings in the District of Columbia during the fiscal year [1932] *1933* if suitable space is provided for said corporation by the Public Buildings Commission.

No part of the funds of the United States Shipping Board Merchant Fleet Corporation shall be available during the fiscal year [1932] *1933* for the purchase of any kind of fuel oil of foreign production for issue, delivery, or sale to ships at points either in the United States or its possessions, where oil of the production of the United States or its possessions is available, if the cost of such oil compared with foreign oil costs be not unreasonable.

That in the expenditure of appropriations in this Act the United States Shipping Board Merchant Fleet Corporation shall, except as provided in the preceding paragraph, unless in its discretion the interest of the Government will not permit, purchase for use, or contract for the use of, within the limits of the United States only articles of the growth, production, or manufacture of the United States, notwithstanding that such articles of the growth, production, or manufacture of the United States may cost more if such excess of cost be not unreasonable.

Of the sums herein made available under the United States Shipping Board, not to exceed an aggregate of $200,000 shall be expended for compensation of regular attorneys employed on a yearly salary basis and for fees and expenses of attorneys employed in special cases (*U. S. C., title 46, secs. 804, 805; act Feb. 23, 1931, vol. 46, p. 1371*).

appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act as amended, and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, or (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law (*U. S. C., title 5, secs. 661–673; U. S. C., Supp. IV, title 5, sec. 673; act July 3, 1930, vol. 46, pp. 1003–1005*).

SEC. 3. When specifically approved by the head of any independent bureau or establishment provided for herein, transfers may be made between the appropriations in this Act under the respective jurisdiction of any bureau, office, institution, or service, in order to meet increases in compensation resulting from the reallocation by the Personnel Classification Board of positions under any such organization unit. Any such transfers shall be reported to Congress in the annual Budget.

SEC. 4. Whenever, during the fiscal year ending June 30, [1932] *1933*, the executive head of any independent bureau, office, or establishment appropriated for in this Act shall find that the expenses of travel, including travel at official stations, can be reduced thereby, he may authorize in lieu of actual operating expenses, under such regulations as he may prescribe, the payment of not to exceed 3 cents per mile for motor cycles or 7 cents per mile for an automobile used for necessary travel on official business.

When specifically approved by the Secretary of Agriculture, transfers may be made between the appropriations in this Act under the respective jurisdiction of any bureau, office, institution, or service, in order to meet increases in compensation resulting from the reallocation by the Personnel Classification Board of positions under any such organization unit. Any such transfers shall be reported to Congress in the annual Budget (*act Feb. 23, 1931, vol. 46, p. 1243*).

NOTE.—This paragraph did not appear in the Department of Agriculture Appropriation Act, fiscal year 1931, so there are no transfers to report for that year.

Permanent specific appropriation:

Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, there is permanently appropriated $480,000 for each year, $10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the act. There was also appropriated an additional sum of $600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven years a sum exceeding by $500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of $4,100,000 in addition to the sum of $480,000. The additional sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (U. S. C., Supp. IV, title 7, secs. 386–386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of $10,000 plus an additional sum of $12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to $4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by $3,160, thereby automatically raising the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931, provides that the Smith-Lever Act and Acts supplementary thereto be increased without diminishing the amount now received by any State or other Territory, to carry out the provisions of this Act in the Territory of Porto Rico, and specifies that the appropriation for 1933 and subsequent years shall be $50,000. The permanent annual appropriation is thereby increased to $4,656,096 (*U. S. C., title 7, secs. 342, 343; U. S. C., Supp. IV, title 7, secs. 386–386b*).

BUREAU OF ANIMAL INDUSTRY

Salaries and Expenses, Bureau of Animal Industry—

For carrying out the provisions of the Act approved May 29, 1884 (U. S. C., title 7, sec. 391; title 21, secs. 112–119, 130), establishing a Bureau of Animal Industry, and the provisions of the Act approved March 3, 1891 (U. S. C., title 45, secs. 75, 76), providing for the safe transport and humane treatment of export cattle from the United States to foreign countries, and for other purposes; the Act approved August 30, 1890 (U. S. C., title 21, secs. 101–105), providing for the importation of animals into the United States, and for other purposes; and the provisions of the Act approved February 2, 1903 (U. S. C., title 21, secs. 111–113, 120–122), to enable the Secretary of Agriculture to more effectually suppress and prevent the spread of contagious and infectious diseases of livestock, and for other purposes; and also the provisions of the Act approved March 3, 1905 (U. S. C., title 21, secs. 123–128), to enable the Secretary of Agriculture to establish and maintain quarantine districts, to permit and regulate the movement of cattle and other livestock therefrom, and for other purposes; and for carrying out the provisions of the Act of June 29, 1906 (U. S. C., title 45, secs. 71–74), entitled "An Act to prevent cruelty to animals while in transit by railroad or other means of transportation"; and for carrying out

Special funds:

Payments to States and Territories from the National Forests Fund—

Twenty-five per cent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory or county, the distributive share to each from the proceeds of the reserve is proportional to its area therein (*U. S. C., title 16, sec. 500*).

Cooperative Work, Forest Service—

All moneys received as contributions toward cooperative work in forest investigations, or the protection and improvement of the national forests, including deposits received from timber purchases to cover the cost to the United States of disposing of brush and other débris resulting from cutting operations in sales of national forest timber, are covered into the Treasury and constitute a special fund, which is appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of the investigations, protection, or improvements by the Forest Service, and for refunds to the contributors of amounts paid in by them in excess of their share of the cost of the investigations, protection, or improvements (*U. S. C., title 16, sec. 498*).
