In expending appropriations or portions of appropriations contained in this Act, for the payment for personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, with the exception of the Assistant Secretaries of the Navy the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended, and in grades in which only one position is allocated, the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, or (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law (*act Feb. 28, 1931, vol. 46, p. 1451*).

When specifically approved by the Secretary of the Navy, transfers may be made between the appropriations in this Act under the respective jurisdiction of any bureau, office, board, or corps, in order to meet increases in compensation resulting from the reallocation by the Personnel Classification Board of positions under any such organization unit. Any such transfers shall be reported to Congress in the annual Budget (*act Feb. 28, 1931, vol. 46, p. 1452*).

NOTE.—No transfers were made under the provisions of the above paragraph during the fiscal year 1931.

Financial statement of the public-building program authorized by the act of May 25, 1926, etc.—Continued

Under the authorizations for specific projects mentioned above and aggregating $466,811,478, obligations have been incurred up to and including June 30, 1931, payable in the fiscal year in which made and in subsequent fiscal years, amounting to $175,559,924, leaving a balance available for further obligations of	$291,251,554
It is estimated that obligations aggregating $155,000,000 will be incurred during the fiscal year 1932, compared with obligations of $73,633,032 incurred during the fiscal year 1931, leaving a balance of $136,251,554 available for obligations in the fiscal year 1933.	
For the purpose of meeting the obligations of $175,559,924 mentioned above, appropriations of $207,031,231 have been made by Congress up to and including June 30, 1931, leaving a balance available for meeting further obligations of	31,471,307
Deducting this balance of $31,471,307 from the balance of $291,251,554, for which further obligations may be made under limits of cost for specific projects already authorized, will leave an amount of $259,780,247 which it will be necessary to appropriate in order to provide funds to meet payments under contracts as work thereunder is completed. These payments will run over a series of years, depending upon the time the contract is made and the size of the project. On June 30, 1931, unexpended appropriation balances amounted to $89,141,540, and it is estimated that $140,000,000 additional will be required to meet payments that will become due under contracts up to and including June 30, 1933. To cover this amount an estimate for $20,000,000 will be transmitted to Congress for consideration in connection with the first deficiency bill taken up at the forthcoming session, and $120,000,000 is included in this Budget.

In expending appropriations or portions of appropriations, contained in this Act, for the payment for personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, with the exception of the Assistant Secretaries of War the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended, and in grades in which only one position is allocated the salary of such position shall not exceed the average of the compensation rates for the grade, except that in unusually meritorious cases of one position in a grade advances may be made to rates higher than the average of the compensation rates of the grade but not more often than once in any fiscal year and then only to the next higher rate: *Provided*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the reduction in salary of any person whose compensation was fixed as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade in the same or a different bureau, office, or other appropriation unit, or (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923, as amended, and is specifically authorized by other law.
