PUERTO RICO RECONSTRUCTION ADMINISTRATION

Emergency Relief, Interior, Puerto Rico Reconstruction Administration—

[(4) To the Department of the Interior, Puerto Rico Reconstruction Administration, $6,000,000 together with the balance of allocations heretofore made or hereafter to be made to such Administration under the Emergency Relief Appropriation Act of 1937 and the joint resolution of March 2, 1938, which remain unobligated on June 30, 1938, and such amounts shall be available for administration, loans, and rural rehabilitation for needy persons and for Federal and non-Federal projects of the type specified for the Works Progress Administration under limitations (1), (2), and (3) of (1) (d) hereof] (*52 Stat. 810*);

Appropriated 1939, **$6,000,000**

NOTE.—The Puerto Rico Reconstruction Administration was established by Executive Order No. 7057, dated May 28, 1935, for the purpose of initiating, formulating, administering, and supervising a program of approved projects for providing relief and work relief and for increasing employment within Puerto Rico, and permanently bettering the social and economic situation of the island. To accomplish this purpose the Puerto Rico Reconstruction Administration is prosecuting rural rehabilitation, rural electrification, forestation and reforestation, slum clearance and construction of low cost housing, construction of buildings for the University of Puerto Rico, construction of schools and other public buildings, construction of roads and public utilities and other economic, social and health projects. This program has been financed by allocations of $35,098,988 from the Emergency Relief Appropriation Act of 1935, which funds were made available for expenditure until June 30, 1940, under the provisions of the act of Feb. 11, 1936, Public, No. 442, 74th Congress; $5,863,017 from the Emergency Relief Appropriation Act of 1936; $9,521,342 from the Emergency Relief Appropriation Act of 1937; and $6,000,000 from the Emergency Relief Appropriation Act of 1938, together with the balance of allocations made to the Administration under the Emergency Relief Appropriation Act of 1937 and the joint resolution of Mar. 2, 1938, which remained unobligated on June 30, 1938. By Executive Order No. 7689, dated Aug. 12, 1937, the Secretary of the Interior was designated Administrator of this activity.

for the actual and necessary expenses incurred in the apprehension and return to the hospital of escaped patients: *Provided*, That so much of this sum as may be required shall be available for all necessary expenses in ascertaining the residence of inmates who are not or who cease to be properly chargeable to Federal maintenance in the institution and in returning them to such places of residence: *Provided further*, That not exceeding $200 additional may be paid to two employees to provide mail facilities for patients in the hospital: *Provided further*, That no part of this appropriation shall be expended for the purchase of oleomargarine or butter substitutes except for cooking purposes: *Provided further*, That during the fiscal year [1939] *1940* the District of Columbia, or any branch of the Government requiring Saint Elizabeths Hospital to care for patients for which they are responsible, shall pay by check to the Superintendent, upon his written request, either in advance or at the end of each month, all or part of the estimated or actual cost of such maintenance, as the case may be, and bills rendered by the Superintendent of Saint Elizabeths Hospital in accordance herewith shall not be subject to audit or certification in advance of payment; proper adjustments on the basis of the actual cost of the care of patients paid for in advance shall be made monthly or quarterly, as may be agreed upon between the Superintendent of Saint Elizabeths Hospital and the District of Columbia government, department, or establishments concerned. All sums paid to the Superintendent of Saint Elizabeths Hospital for the care of patients that he is authorized by law to receive shall be deposited to the credit on the books of the Treasury Department of the appropriation made for the care and maintenance of the patients at Saint Elizabeths Hospital for the year in which the support, clothing, and treatment is provided, and be subject to requisition upon the approval of the Secretary of the Interior (*24 U. S. C. 161–179; 52 Stat. 340–341*).

Disposition of Deposits of Aliens Who Become Public Charges—

Represents proceeds from redemption of United States bonds deposited as collateral in connection with public-charge bonds filed by aliens and later declared breached by the Secretary of Labor and the penalty forfeited. These funds are available for payment to State or municipal agencies for expenses incurred in caring for aliens who become public charges (*8 U. S. C. 158*).

Return of Deposits to Secure Payment of Fines and Passage Money, Immigration and Naturalization Service—

Amounts collected from transportation companies, owners and masters of vessels and agents to cover fines that may be imposed for unlawful entry of aliens and to secure the return of passage money (including head tax if paid by the alien as part of passage money) for deposit in the trust receipt account "Deposits to Secure Payment of Fines and Passage Money, Immigration and Naturalization Service". The portion of receipts representing fines, penalties, etc., is transferred monthly to miscellaneous-receipt account "Immigration Fines and Penalties". Such amounts as are required to make refunds to transportation companies and others in cases where no fine is imposed, and for payment to aliens of amounts due them are established from time to time in the appropriation act (*31 U. S. C. 725r*).

Total, replacement of naval vessels, annual appropriations, general account:

Estimate 1940, **$270,000,000** Appropriated 1939, **$154,113,150**

Neither the appropriation "Replacement of naval vessels, construction, and machinery", nor the appropriation "Replacement of naval vessels, armor, armament, and ammunition", shall be available for obligation for any purpose as to ships commissioned prior to July 1, 1937, nor as to any ship commissioned subsequent to such date after twelve months shall have elapsed from commissioning date.

GENERAL PROVISIONS

The appropriations made in this Act for the purchase or manufacture of equipment or material or of a particular class of equipment or material shall be available for the purchase of letters patent, applications for letters patent, licenses under letters patent and applications for letters patent that pertain to such equipment or material for which the appropriations are made.

No part of any appropriation made for the Navy shall be expended for any of the purposes herein provided for on account of the Navy Department in the District of Columbia, including personal services of civilians and of enlisted men of the Navy, except as herein expressly authorized: *Provided*, That there may be detailed to the Bureau of Navigation not to exceed at any one time seven enlisted men of the Navy: *Provided further*, That enlisted men detailed to the [Navy] *Naval* Dispensary and the Radio Communication Service shall not be regarded as detailed to the Navy Department in the District of Columbia.

No part of the appropriations made in this Act shall be available for the salary or pay of any officer, manager, superintendent, foreman, or other person or persons having charge of the work of any employee of the United States Government while making or causing to be made with a stop watch or other time-measuring device a time study of any job of any such employee between the starting and completion thereof, or of the movements of any such employee while engaged upon such work; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant; and no part of the moneys herein appropriated for the Naval Establishment or herein made available therefor shall be used or expended under contracts hereafter made for the repair, purchase, or acquirement, by or from any private contractor, of any naval vessel, machinery, article, or articles that at the time of the proposed repair, purchase, or acquirement can be repaired, manufactured, or produced in each or any of the Government navy yards or arsenals of the United States, when time and facilities permit, and when, in the judgment of the Secretary of the Navy, such repair, purchase, acquirement, or production would not involve an appreciable increase in cost to the Government, except when the repair, purchase, or acquirement, by or from any private contractor, would, in the opinion of the Secretary of the Navy, be advantageous to the national defense: *Provided*, That nothing herein shall be construed as altering or repealing the provisos contained in the Acts to authorize the construction of certain naval vessels, approved February 13, 1929, and March 27, 1934, which provide that the first and succeeding alternate vessels in each category, except the fifteen-thousand-ton aircraft carrier, upon which work is undertaken, together with the main engines, armor, and armament, shall be constructed or manufactured in the Government navy yards, naval gun factories, naval ordnance plants, or arsenals of the United States, except such material or parts as are not customarily manufactured in such Government plants.

No part of the funds herein appropriated shall be available to pay a contractor upon any contract for a naval vessel entered into under authority of this Act unless, at the time of filing his bid, he shall also file the estimates upon which such bid was based *(52 Stat. 243–244)*.

Interest on the Public Debt—

Indefinite appropriation for payment of interest on public debt (*31 U. S. C. 732*).

Estimate 1940, **$1,050,000,000** Appropriated 1939, **$976,000,000**

2000 Interest on the public debt: Obligations—1940, $1,050,000,000; 1939, $976,000,000; 1938, $926,732,378.

Sinking Fund—

SEC. 6. (a) That there is hereby created in the Treasury a cumulative sinking fund for the retirement of bonds and notes issued under the First Liberty Bond Act, the Second Liberty Bond Act, the Third Liberty Bond Act, the Fourth Liberty Bond Act, or under this Act, and outstanding on July 1, 1920. The sinking fund and all additions thereto are hereby appropriated for the payment of such bonds and notes at maturity or for the redemption or purchase thereof before maturity by the Secretary of the Treasury at such prices and upon such terms and conditions as he shall prescribe, and shall be available until all such bonds and notes are retired. The average cost of the bonds and notes purchased shall not exceed par and accrued interest. Bonds and notes purchased, redeemed, or paid out of the sinking fund shall be canceled and retired and shall not be reissued. For the fiscal year beginning July 1, 1920, and for each fiscal year thereafter, until all such bonds and notes are retired, there is hereby appropriated, out of any money in the Treasury not otherwise appropriated, for the purpose of such sinking fund, an amount equal to the sum of (1) 2½ per centum of the aggregate amount of such bonds and notes outstanding on July 1, 1920, less an amount equal to the par amount of any obligations of foreign governments held by the United States on July 1, 1920, and (2) the interest which would have been payable during the fiscal year for which the appropriation is made on the bonds and notes purchased, redeemed, or paid out of the sinking fund during such year or in previous years.

That subdivision (a) of section 6 of the Victory Liberty Loan Act is amended by inserting before the period at the end of the first sentence a comma and the following words: "and of bonds and notes thereafter issued, under any of such Acts or under any of such Acts as amended" (*31 U. S. C. 767; 48 Stat. 344, sec. 20 (b)*).

For each fiscal year beginning with the fiscal year 1934, there is hereby appropriated, in addition to and as part of, the cumulative sinking fund provided by section 6 of the Victory Liberty Loan Act, as amended, out of any money in the Treasury not otherwise appropriated, for the purpose of such fund, an amount equal to 2½ per centum of the aggregate amount of the expenditures made out of appropriations made or authorized under this Act as determined by the Secretary of the Treasury (*40 U. S. C. 410b; 48 Stat. 206, sec. 210 (b)*).

Addition to cumulative sinking fund (section 308 of Emergency Relief and Construction Act of 1932): To carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, approved July 21, 1932 (47 Stat. 709), there is hereby appropriated for each fiscal year beginning with the fiscal year 1935, out of any money in the Treasury not otherwise appropriated, for the purpose of the cumulative sinking fund provided in section 6 of the Victory Liberty Loan Act, as amended, in addition to amounts otherwise appropriated, a sum equal to 2½ per centum of the aggregate of the expenditures on or after June 30, 1933, from appropriations made or authorized in sections 301 and 302, title III, of the Emergency Relief and Construction Act of 1932 (*31 U. S. C. 767a, 767b; 48 Stat. 428*).

Obligations Retired from Federal Intermediate Credit Bank Franchise Tax Receipts—

Subject only to review and approval by the Farm Credit Administration, each Federal intermediate credit bank, at the end of its fiscal year, after all its necessary expenses and costs of operation for such fiscal year have been paid or provided for, shall apply its net earnings then remaining, first, to making up any losses in excess of its reserves against unforeseen losses and assets of doubtful value; second, to the elimination of any impairment of its paid-in capital and paid-in surplus; third, to the creation and maintenance of reserves against unforeseen losses and assets of doubtful value in such amount as its board of directors may prescribe; fourth, to the payment of 25 per centum of the amount then remaining to the United States as a franchise tax; and, fifth, to the payment of the remaining net earnings into its surplus account. The amounts paid as franchise taxes to the United States by Federal intermediate credit banks shall, in the discretion of the Secretary of the Treasury, be used to supplement the gold reserve held against outstanding United States notes, or shall be applied to the reduction of the outstanding bonded indebtedness of the United States under regulations to be prescribed by the Secretary of the Treasury. Should a Federal intermediate credit bank be dissolved or go into liquidation, after the payment of all debts and other obligations as hereinbefore provided, any surplus remaining shall be paid to and become the

Redemption of Liberty Bonds Issued in the Year 1918 from Bequest of James Reuel Smith—

That the Secretary of the Treasury is hereby authorized and directed to receive on behalf of the United States, for the purpose set forth in the last will and testament of James Reuel Smith, all moneys and other property bequeathed to the United States under the residuary clause of such will, and to deposit said moneys into the Treasury to the credit of a public debt account entitled "Redemption of Liberty Bonds Issued in the Year 1918 from Bequest of James Reuel Smith." The Secretary of the Treasury is further authorized and directed to sell any real or personal property which may be received under the residuary clause of said will, the proceeds of such sales to be deposited in such public debt account. Such account shall be available until expended, for the redemption of Liberty bonds issued in the year 1918 and for no other purpose, and all payments made in the redemption of such bonds shall be made from such account, to the extent it is available, before any such payments are made out of other funds in the Treasury (*50 Stat. 648*).

BUREAU OF ENGRAVING AND PRINTING

Salaries and Expenses, Bureau of Engraving and Printing—

For the work of engraving and printing, exclusive of repay work, during the fiscal year [1939] *1940*, United States currency and internal-revenue stamps, including opium orders and special-tax stamps required under the Act of December 17, 1914 (26 U. S. C. 1040, 1383), checks, drafts, and miscellaneous work, as follows:

Salaries and expenses: For the Director, two Assistant Directors, and other personal services in the District of Columbia, including wages of rotary press plate printers at per diem rates and all other plate printers at piece rates to be fixed by the Secretary of the Treasury, not to exceed the rates usually paid for such work; for engravers' and printers' materials and other materials, including distinctive and nondistinctive paper, except distinctive paper for United States currency and Federal Reserve bank currency; equipment of, repairs to, and maintenance of buildings and grounds and for minor alterations to buildings; directories, technical books and periodicals, and books of reference, not exceeding $300; traveling expenses not to exceed $2,000; miscellaneous expenses, including not to exceed $1,500 for articles approved by the Secretary of the Treasury as being necessary for the protection of the person of employees; for transfer to the Bureau of Standards for scientific investigations in connection with the work of the Bureau of Engraving and Printing, not to exceed $15,000; and for the maintenance and driving of two motor-propelled passenger-carrying vehicles; [$9,200,000] *$8,500,000*, to be expended under the direction of the Secretary of the Treasury (*26 U. S. C. 211; 31 U. S. C. 171–178; 52 Stat. 131, 1152*).

Annual appropriation, general account:

Estimate 1940, **$8,500,000** Appropriated 1939, [a]**$10,200,000**

[a] Includes $1,000,000 appropriated in Second Deficiency Appropriation Act, fiscal year 1938.

During the fiscal year [1939] *1940* all proceeds derived from work performed by the Bureau of Engraving and Printing, by direction of the Secretary of the Treasury, not covered and embraced in the appropriation for such Bureau for such fiscal year, instead of being covered into the Treasury as miscellaneous receipts, as provided by the Act of August 4, 1886 (31 U. S. C. 176), shall be credited when received to the appropriation for said Bureau for the fiscal year [1939] *1940* (*31 U. S. C. 176*; *52 Stat. 131*).

EXPLANATORY STATEMENT

The expenditures of the Post Office Department are met from postal revenues to the extent that such revenues are sufficient for the purpose, and when the postal revenues are insufficient to meet the expenditures authorized by the appropriations the excess of expenditures over such revenues is paid from the general fund of the Treasury.

The postal revenues for 1938 amounted to $728,634,051, and it is estimated that they will amount to $730,000,000 for 1939 and $740,000,000 for 1940.

The expenditures for postal operations for 1938 were $773,331,458. For 1939 there has been appropriated $793,332,737, although it is now estimated that the expenditures will amount to only $786,516,530. The estimates of appropriations for 1940, contained in this Budget, aggregate $793,281,872.

For 1938 the expenditures for postal operations exceeded postal revenues in the amount of $44,697,407. While the appropriations for 1939 exceed the estimated revenue for that year by $63,332,737, the estimated expenditures for 1939 are expected, as indicated above, to be $6,816,207 less than the amount appropriated; and the deficit for 1939 on account of postal operations to be financed from the general fund of the Treasury will thus approximate only $56,516,530. The estimates of appropriations of $793,281,872 and the estimated revenues of $740,000,000 for 1940 indicate that the excess of expenditures for postal operations over estimated revenues in that year will amount to $53,281,872. The amounts herein referred to as postal deficits for the fiscal years 1938, 1939, and 1940 represent the cash withdrawals from the general fund of the Treasury to supplement the amounts received as postal revenue to meet expenditures for postal operations. The Treasury statements regarding postal operations represent cash transactions, and therefore do not take into consideration the provisions of the act of June 9, 1930, which provide that the Postmaster General may set up certain credits in his financial statements accounting for postal revenues and expenditures.

The estimates of postal revenues and of appropriations for 1940 are predicated on the recorded results of postal business and operations for 1938, the trend of postal business during the fiscal year 1939 to date, and an anticipated slight increase in postal business for 1940 over that now estimated for 1939. The estimated revenues are also predicated on the assumption that the present 3-cent letter rate fixed by temporary legislation, which expires June 30, 1939, will be extended by the Congress to include the fiscal year 1940. Failure to do so would result in a loss of postal revenues and a corresponding increase of the postal deficit by approximately $100,000,000.

The total estimates of appropriations for 1940, $793,281,872, compared with the total appropriations for 1939, $793,332,737, indicate a net reduction under the appropriations for 1939 of $50,865. This figure represents the difference between aggregate decreases of $10,178,275 under several items and the total increases of $10,127,410 under other items. A comparison of the total estimates for 1940 with the total appropriations for 1939 does not present a full picture of the requirements for the 2 years. As indicated above, the estimated savings under the total appropriations for 1939 will approximate $6,816,207, and the total estimates for 1940 are less than the total appropriations for 1939 by $50,865. Therefore, the estimates for 1940, compared with the requirements for 1939, represent an increase of $6,765,342 ($6,816,207 minus $50,865) rather than a reduction in requirements of $50,865 shown as the difference between the estimate for 1940 and the total appropriations for 1939.

The net differences between the estimates for 1940 and the appropriations for 1939 under the respective offices or bureaus are set forth as follows: Departmental salaries and expenses from $4,151,814 for 1939 to $4,213,574 for 1940, an increase of $61,760; under the Office of the Postmaster General (field) from $263,000 to $268,000, an increase of $5,000; under the Office of the Chief Inspector (field) from $3,439,850 for 1939 to $3,603,000, an increase of $163,150; under the Office of the First Assistant Postmaster General from $444,531,235 to $448,221,460, an increase of $3,690,225; under the Office of the Second Assistant Postmaster General from $278,531,000 to $270,965,000, a reduction of $7,566,000; under the Office of the Third Assistant Postmaster General from $5,225,000 to $5,400,000, an increase of $175,000; and under the Office of the Fourth Assistant Postmaster General from $57,190,838 to $60,610,838, an increase of $3,420,000.

The estimates provide additional funds for necessary increases for post-office clerks and carriers and other personnel handling the mails due to expansion of postal activities, and for automatic promotions authorized by law. Also additional funds are required for equipment and supplies for use in connection with the operation of the mail service. Due to the additional number of public buildings that will be in commission during 1940, a considerable increase in the estimates for additional personnel, supplies, and equipment is necessary. The Domestic Air Mail Service is gradually being extended to provide additional service as circumstances justify. The increased use by the public of air-mail facilities has reflected a continued rise of the air-mail revenues to a point more nearly approaching the cost of such service. The estimates for 1940 provide for a 10-percent increase in the amount for this service. The estimates show, however, a decrease under the appropriations for 1939 pertaining to the transportation of mails by railroads, due to the changes in train schedules and changes in modes of inland transportation of mails currently taking place. The appropriations for these purposes for 1939 are largely in excess of requirements for that year, and further reductions in requirements are anticipated for 1940. The transportation of mails by railroads is to some extent being shifted to the Star Route Service, which accounts for a sizable increase in the estimates for the latter service.

SEC. 2. Appropriations for the fiscal year [1939] *1940* available for expenses of travel of civilian officers and employees of the executive departments and establishments shall be available also for expenses of travel performed by them on transfer from one official station to another when authorized by the head of the department or establishment concerned in the order directing such transfer, *including, except as otherwise provided by law, expenses incurred in packing, crating, drayage, and transportation of household effects and other personal property under regulations to be prescribed by the President*: *Provided*, That such expenses shall not be allowed for any transfer effected for the convenience of any officer or employee.

SEC. 3. No appropriation available for the executive departments and independent establishments of the Government for the fiscal year ending June 30, [1939] *1940*, whether contained in this Act or any other Act, shall be expended—

(a) To purchase any motor-propelled passenger-carrying vehicle (exclusive of busses, ambulances, and station wagons), at a cost, completely equipped for operation, and including the value of any vehicle exchanged, in excess of $750, unless otherwise specifically provided for in the appropriation.

(b) For the maintenance, operation, and repair of any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment, except in cases of medical officers on out-patient medical services and except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only as to such latter cases when the same is approved by the head of the department or establishment concerned. The limitations of this subsection (b) shall not apply to any motor vehicles for official use of the President, or of the heads of the executive departments.

(c) For the maintenance, upkeep, and repair (exclusive of garage rent, pay of operators, tires, fuel, and lubricants) on any one motor-propelled passenger-carrying vehicle, except busses and ambulances, in excess of one-third of the market price of a new vehicle of the same make and class and in no case in excess of $400.

SEC. 4. No part of the money appropriated under this Act shall be paid to any person for the filling of any position for which he or she has been nominated after the Senate upon vote has failed to confirm the nomination of such person.

SEC. 5. No part of any appropriation contained in this Act or authorized hereby to be expended shall be used to pay the compensation of any officer or employee of the Government of the United States, or of any agency the majority of the stock of which is owned by the Government of the United States, whose post of duty is in continental United States unless such officer or employee is a citizen of the United States or a person in the service of the United States on the date of the approval of this Act who being eligible for citizenship has filed a declaration of intention to become a citizen or who owes allegiance to the United States: *Provided*, That this section shall not apply to enlisted men of the United States Coast Guard who are on active duty in that service on the effective date of this Act, until the expiration of the period required for such enlisted men to complete their naturalization, nor shall it apply to personnel of the Coast Guard on the retired list, and enlisted men on active duty with over twelve years' honorable service who are ineligible for United States citizenship.

EXPLANATORY STATEMENT

The Commodity Credit Corporation, created under the laws of the State of Delaware pursuant to Executive Order No. 6340, dated October 16, 1933, was organized primarily to make loans to producers to finance the carrying and orderly marketing of agricultural commodities. The act of June 26, 1937 (50 Stat. 5), extended the Corporation as an agency of the United States to June 30, 1939, or such earlier date as may be determined by the President. For this reason no estimates of receipts and expenditures have been included in the Budget for the fiscal year 1940. If the expiration date is not extended it will be necessary for Congress to provide for the collection of outstanding loans and the liquidation of the Corporation.

The Corporation has a capital stock of $100,000,000, all of which is held by the United States, and it is authorized, with the approval of the Secretary of the Treasury, to have outstanding at any one time obligations guaranteed by the United States in an aggregate amount of $500,000,000.

In addition to its general discretionary powers to make loans, the Corporation is directed by section 302 of the Agricultural Adjustment Act of 1938 to make loans upon cotton, wheat, and corn where the market price drops below a certain minimum or the crop estimates exceed normal domestic consumption and exports.

The Secretary of the Treasury is required to make an appraisal of all assets and liabilities of the Corporation as of the 31st of March in each year for the purpose of determining its net worth. In the event, the net worth of the Corporation is determined to be less than $100,000,000, the Secretary of the Treasury, subject to appropriation of funds therefor, is required to restore such capital impairment. In the event the net worth exceeds $100,000,000, such excess shall be deposited by the Corporation in the Treasury of the United States to the credit of miscellaneous receipts.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statements.

EXPLANATORY STATEMENT

Export-Import Bank of Washington was organized under the laws of the District of Columbia, pursuant to Executive Order No. 6581, dated February 2, 1934, to aid in financing and facilitating exports and imports and the exchange of commodities between the United States and other nations or the agencies or nationals thereof.

The capital stock of the Bank consists of $1,000,000 of common stock held by the United States and $45,000,000 par value of preferred stock held by the Reconstruction Finance Corporation.

The act of January 26, 1937 (50 Stat. 5), continues the Bank as an agency of the United States until June 30, 1939, or such earlier date as the President may fix by Executive order. No amount, therefore, has been included for administrative expenses for 1940 and no estimate has been made of receipts and expenditures for that year. If the expiration date is not extended it will be necessary for Congress to provide for the collection of outstanding loans and the liquidation of the Bank. The estimate of administrative expenses for the fiscal year 1939 will need to be supplemented by an additional amount.

The receipts, expenditures, and means of financing for the fiscal years 1938 and 1939 are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Federal Housing Administration was created by the National Housing Act approved January 27, 1934 (48 Stat. 1246), to insure lending institutions against loss incurred on two general types of loans: Those for the repair, alteration, or improvement of property and those secured by mortgages on structures designed primarily for residential use. The first type of loan is limited to a maximum liability outstanding at any time of $100,000,000 and under the present law the authority to insure such loans expires on June 30, 1939. The total insurance liability under the second type of loan was recently increased by the President, under the authority contained in the act, from $2,000,000,000 to the authorized maximum of $3,000,000,000.

The receipts, expenditures, and means of financing of the Administration are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Home Owners' Loan Corporation was created by the act of June 13, 1933, to grant long term mortgage loans at low interest rates in order that distressed home owners might refinance their homes and, wherever possible, save them from foreclosure. The Corporation has a capital stock of $200,000,000 owned by the United States and has authority to issue $4,750,000,000 in bonds unconditionally guaranteed by the United States Government. In accordance with the Home Owners' Loan Act of 1933 the Corporation terminated its lending activities on June 12, 1936, and is now engaged in servicing the loans outstanding and in managing and disposing of real estate acquired as a result of foreclosure proceedings.

The receipts, expenditures, and means of financing are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The Reconstruction Finance Corporation, organized under the act of January 22, 1932 (47 Stat. 5), was created for the purpose of providing emergency loaning facilities for banking and other financial institutions, and for agricultural, commercial, and industrial purposes. The general scope of the Corporation's functions, as authorized by that act, has been extended by subsequent legislation. The act of January 26, 1937 (50 Stat. 5), extended the obligating authority of the Corporation to June 30, 1939. The estimates for the fiscal year 1940, transmitted pursuant to section 7 of the First Deficiency Appropriation Act, fiscal year 1936, are to cover the necessary administrative expenses of the Corporation on a liquidation basis.

The capital stock of the Corporation, $500,000,000, was subscribed by the Secretary of the Treasury from an appropriation made by Congress in accordance with the terms of the original law. Additional funds are provided by an authorization to issue notes, debentures, bonds, and other obligations within limits prescribed by law. The Secretary of the Treasury may purchase the obligations of the Corporation whenever additional funds are needed.

The Corporation operates by two general methods in carrying out its corporate purposes and functions. It renders financial aid directly to eligible applicants by making loans or by purchases of preferred stock. Such transactions are referred to as "direct operations." The Corporation also furnishes funds to other governmental agencies or corporations, such transfers of funds being referred to as "allocations." These financial operations are indicated in the Corporation's Annexed Budget shown above.

The direct operations of the Corporation include loans made to banks, railroads, and business enterprises; loans made for financing the marketing of agricultural products; purchases of stock in banks, insurance companies, and mortgage corporations; and for all administrative expenses incurred in connection with such transactions. Direct receipts include repayment of principal and interest.

Allocations make funds available for advances to other Government agencies and corporations, or for subscriptions to capital stock. These funds have been employed to purchase the capital stock of the Disaster Loan Corporation, regional agricultural credit corporations, Home Owners' Loan Corporation, Federal home-loan banks, Export-Import Banks, Federal Farm Mortgage Corporation, The RFC Mortgage Co., and Federal National Mortgage Association. Funds have been also supplied to the Federal Emergency Relief Administration, Farm Credit Administration, Federal Housing Administration, Commodity Credit Corporation, Rural Electrification Administration, and for the purchase of securities from the Federal Emergency Administration of Public Works and for transfer to the appropriation under the Emergency Relief Appropriation Act of 1935.

By the act of February 24, 1938, the Secretary of the Treasury was authorized and directed to cancel obligations of the Reconstruction Finance Corporation representing outstanding amounts invested in, or advanced to, various governmental agencies, including advances for relief. During the fiscal year 1938 the Secretary of the Treasury, under the authority contained in this act, canceled approximately $2,691,000,000 of the obligations of the Corporation. The limit of obligations which the Reconstruction Finance Corporation is authorized to have outstanding was reduced by a similar amount. Provision was also made that future expenditures falling within the purposes covered by the act of February 24, 1938, should be handled in a like manner.

The receipts and expenditures and means of financing of the Corporation are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

The United States Housing Authority, created as a body corporate in the Department of the Interior operates under the act approved September 1, 1937 (50 Stat. 888), as amended by the act approved June 21, 1938 (52 Stat. 820), and is intended to assist the States and their political subdivisions to remedy unsafe and insanitary housing conditions and the acute shortage of dwellings for families of low income, and to alleviate present and recurring unemployment.

The Authority has a capital stock of $1,000,000 subscribed by the United States and is authorized to issue obligations guaranteed by the United States in an amount not to exceed $800,000,000.

The receipts, expenditures, and means of financing of the Authority (other than expenditures incurred in connection with the completion of the transferred P. W. A. Housing Division projects) are shown in detail in the foregoing statement.

EXPLANATORY STATEMENT

As shown on the summary submitted herewith, the program of the Tennessee Valley Authority for the fiscal year 1940 involves a new appropriation of $40,000,000 and a new contract authorization of $4,000,000. Out of the appropriation requested, $4,000,000 must be set aside to pay for contract obligations to be incurred in the fiscal year 1939. This leaves $36,000,000 of the proposed appropriation and the new contract authorization of $4,000,000 available for new obligations which are estimated to be $40,000,000 in 1940.

On the summary and supporting statements presented herewith, the estimates for 1940 and comparable amounts for 1938 and 1939 are set forth in detail. These statements have been arranged to conform with the classification of accounts now being followed by the Authority. The amounts shown under asset accounts represent the actual or estimated change in the book value of each class of assets and include credit allowances for depreciation-reserve accruals. The amounts shown under income and expense accounts represent the actual or estimated net income or expense of the various primary operations of the Authority. These income and expense accounts include all revenues, direct expenses, depreciation charges, and overhead proration.

The estimates for 1940 provide for the continuation of the program outlined in the Tennessee Valley Authority Act, as amended. This program involves:

1. The unified development of the Tennessee River system for navigation, flood control, and power purposes;
2. The production, testing, and demonstration of fertilizer;
3. The operation and maintenance of Government properties assigned to the Authority; and,
4. Development activities looking toward recommendations as to future legislation and the social and economic development of the Tennessee Valley region.

In addition to the objectives listed above, a broad basic objective of national defense runs through the whole program of the Authority. A separate accounting for this objective, however, is not practical.

NAVIGATION, FLOOD CONTROL, AND POWER PROGRAM

The first of these objectives is the unified development of the Tennessee River system for the control and use of falling water in the interest of navigation, flood control, and of such power development as can be economically provided consistent with prior and adequate provisions for navigation and flood control. This program involves the construction and operation of a series of multiple-purpose dam and reservoir projects, with a total estimated cost of $481,600,000, when all projects are completed to their ultimate stage. The construction of these projects will be over 50 percent completed by June 30, 1940, if the program provided by the estimates, as shown in Supporting Statement No. 1, is carried out. By that date the Pickwick Landing, Wilson, Wheeler, Guntersville, and Norris projects will be in operation; the Gilbertsville, Chickamauga, Watts Bar, and Hiwassee projects will be

Federal Reserve Bank of St. Louis

in various stages of construction, with Chickamauga and Hiwassee nearing completion; the plans for the Coulter Shoals and future tributary storage projects will be nearing completion; and work will be started on channel improvements in the Hales Bar section of the river.

In addition to the construction of multiple-purpose dam and reservoir projects, including hydroelectric power installations, this program involves the construction and acquisition of transmission and other electric plants to interconnect the generating plants with each other and with market centers for the sale of power. It also involves to a certain extent the financing of municipalities and associations who buy or build electric distribution properties. By June 30, 1940, the net book value of transmission and other electric plant will be about $35,800,000, and the balance outstanding on loans to municipalities and associations will be about $2,500,000. Power inventories as of that date will total about $500,000.

The 1940 estimate for additions to transmission lines and substations is based on the amount of construction necessary to deliver increased amounts of power to existing customers or to start delivery of power to customers not now served but who are under contract to start taking power during that period. The outcome of pending negotiations for the purchase of existing facilities in the area will to a certain extent affect expenditures under this estimate. If these negotiations are successful, the purchase of existing facilities will be financed by the sale of bonds, and a part of the estimate included in our 1940 request for appropriation will be used to finance interconnections and additions to purchased facilities. If negotiations are unsuccessful the amount of this estimate will be used to finance the construction of direct connections to customers and other additions to the transmission system such as generating plant substations and inter-tie lines which are needed under either alternative.

The income and expense estimates for navigation, flood control, and power operations are shown on Supporting Statement No. 2. It is of interest to note that while these operations produced an actual net expense of $1,077,000 in 1938, including interest income, the estimate for 1939 and 1940 produce a net income of $314,000 and $1,089,000, respectively. This anticipated improvement is due almost entirely to estimated increase in revenue from power operations. Actual revenue from power operations in 1938 was $2,355,000 as compared with estimated revenue of $5,000,000 in 1939 and $6,500,000 in 1940. The expense estimates for 1939 include allowances for the operation of four multiple-purpose projects as compared with three in 1938 and the estimates for 1940 include allowances for the beginning of operation of the Guntersville project on January 1, 1940.

FERTILIZER PROGRAM

The general objective of the fertilizer program is to cheapen the cost of fertilizer to the farmer and to encourage a program of readjusted agriculture that will conserve the Nation's heritage in the soil and increase the economic return to the farmer. This objective is being achieved by the development of new processes for the production of concentrated fertilizer and by the testing and demonstration of new fertilizer products under practical farm conditions.

Supporting Statement No. 3 shows the net total of all asset accounts for the fertilizer program and presents both actual and estimated obligations. The net amount requested for the fiscal year 1940, after deducting depreciation reserve accruals, is $650,000 or $125,000 less than the amount estimated for 1939. The 1940 estimate provides for: (1) Small additions to phosphate reserves; (2) continuation of construction of an agglomerating plant to process, with maximum recovery, raw phosphatic matrix taken from the phosphate reserves being mined; (3) continuation of construction of a blast furnace plant for the smelting of phosphatic raw material and production of concentrated phosphate fertilizer; (4) beginning of construction of a washing plant for treatment of raw phosphate ores; and (5) improvements to existing plant involving installation of new phosphorus condensation apparatus, equipment to provide additional protection to employees from the hazards of dust, acid and phosphorus, and such other improvements as may be found to increase the efficiency of the plant.

The 1940 estimate of $1,860,000 for fertilizer operations, as shown on Supporting Statement No. 4, provides for continuation of the development of new forms of plant food; their testing and demonstration in cooperation with established Federal, State, and local agricultural agencies; and other work relating to soil conservation and erosion control. This estimate is about the same as that for 1939 and represents an increase of only $14,000 over the actual expense for 1938. The results of this work in terms of improved agricultural practices fully justifies this continued expense.

RELATED PROPERTY OPERATIONS

In connection with the navigation, flood control, and power program the Authority has acquired marginal lands in reservoir areas and has built housing facilities for construction workers and power-plant operators. It also had transferred to it, from the War Department, housing facilities and the idle nitrate plants at Muscle Shoals. It is the policy of the Authority to operate and maintain these properties in such a manner that the maximum incidental benefits will be secured.

The estimates for the asset accounts assigned to this program are shown in Supporting Statement No. 5 on a net basis; that is, gross additions less accruals to the reserve for depreciation. Additions to these properties in 1940 are estimated at $54,000, composed chiefly of minor improvements and alterations to structures and replacement of worn-out equipment. Net depreciation reserve accruals for the same period are estimated at $154,000. These estimates result in a net reduction of $100,000 in the book value of these properties and by the end of the fiscal year 1940 the remaining book value will be about $5,135,000.

The estimate of net expense for the related property operations program in 1940, as detailed in Supporting Statement No. 6, is $646,000, which represents a reduction of $65,000 under the total estimate for 1939. As many of the activities under this program are revenue producing, it is anticipated that the expense for ensuing years will be materially reduced. Increased returns are expected from recreational operations and the sale of timber.

RELATED DEVELOPMENT ACTIVITIES

The amount requested under related development activities, as shown in Supporting Statement No. 7, provides for studies, demonstrations, surveys, and other work which is related to, but not logically a part of, the other programs of the Authority. Much of this work contributes to two or more of the other programs and all of it

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

contributes to the objective of promoting the general development of the Tennessee Valley region as authorized by the Tennessee Valley Authority Act. The amount requested for 1940 of $1,279,000 is an increase of only $24,000 over the estimate for 1939 and is $84,000 less than the actual expense for 1938.

The mapping work scheduled for 1939 and 1940 involves the preparation of topographic maps of selected areas in the Tennessee Valley region. The proposed increase is requested to permit completion of this work in areas of vital importance to the planning of water-control projects and other work involving the use of such maps. This mapping work is done in cooperation with the United States Geological Survey.

The work scheduled for 1940 under the other accounts shown on Supporting Statement No. 7 provides for the continuation of studies and demonstrations at about the 1938 and 1939 levels. This work is being carried on economically in cooperation with other Federal, State, and local agencies and constitutes an important phase of the entire program. Developments in the various fields covered by these studies and demonstrations are basic to the future economic growth of this great region. The rest of the Nation should benefit from this growth.

GENERAL ASSET ACCOUNTS

Supporting Statement No. 8 shows the estimates for general asset accounts not assigned to specific programs. Gross replacements and additions to general plant are estimated at $370,000 for 1940, while depreciation reserve accruals of $487,000 and estimated reduction in inventories of $6,000 causes the net book value of these general asset accounts to be reduced by $123,000 in that year.

Of the $1,146,477 reserved for obligation in 1939, $1,000,000 is in a continuing fund for emergency purposes as provided by section 26 of the Tennessee Valley Authority Act as amended. It is probable that this amount will be carried forward to 1940. The remaining $146,000 will be allotted to programs during 1939 as the need develops.

In the schedule of expenditures by objects, the Authority has supplied a comparative statement showing actual and estimated primary objects of expenditure for 1938, 1939, and 1940. The classification followed in this statement is in accord with the accounts now being kept by the Authority. The amount estimated for personal services in 1940 includes a new allowance of $524,000 for the establishment of a retirement plan for Tennessee Valley Authority employees to be placed in operation on July 1, 1939. This plan has been under discussion for a period of over 2 years. It will include all employees on annual rates of pay and will be supported by joint contributions of the Authority and the employees. The features of the plan, while differing somewhat from the civil service retirement plan, are similar in every respect to features found in well-established retirement plans elsewhere in the public service.

EXPLANATORY STATEMENT

The financial requirements of the District of Columbia for the fiscal year 1940 are summarized in the preceding statements. It will be noted from the Annexed Budget summary that the estimated revenues (general, special, and trust accounts) of the District for 1940 are expected to total $43,961,341 which, together with the Federal contribution of $5,000,000 and the net total of the estimated unobligated balances (general, special, and trust accounts) of $1,977,627 carried over from the fiscal year 1939, will total $50,938,968. The obligations (general, special, and trust accounts) for 1940 are estimated at $52,940,051. It is expected that there will be a net deficit of $2,001,083 at the close of the fiscal year 1940, made up as follows: General revenue account, deficit $3,304,870; special accounts, surpluses $135,528 (highway fund, etc., account) and $128,838 (water account); and trust accounts, surplus of $1,039,421.

With regard to the deficit shown in the general account for 1940 it should be noted that the 1940 general revenue estimate in the summary reflects a marked decline below the 1939 estimate because of the expiration at the close of the fiscal year 1939 of the statutory provisions establishing the $1.75 rate for real estate and tangible personal property and the business privilege tax. This reduction, based as it is on the present status of the District revenue laws, points to a deficit of $3,304,870 at the close of the fiscal year 1940. The Congress at the close of last session made provision for its Joint Committee on Internal Revenue Taxation to survey the local tax structure in the District of Columbia and to report thereon to the Congress not later than January 15, 1939. Following the submission of this report, the District government intends to recommend to the Congress the enactment of new tax legislation which it is contemplated will compensate for the revenue lapsing at the close of the fiscal year 1939 and avert the indicated 1940 deficit.

Revenues of the District of Columbia

Supporting Statement No. 1 shows the revenues of the District estimated for 1940, as allocated to the general, special, and trust accounts. The general account revenues have been touched upon above, but are discussed in more detail immediately below. The estimates under special and trust accounts for 1940 are approximately the same as those for 1939, excluding of course in the trust accounts the recent Public Works Administration allocation of $18,150,000.

It will be observed that, under the general revenue account, by far the largest source of revenue for the District is the tax on real estate, estimated to yield $18,400,000 for 1940. This yield includes both current and back taxes, the levy being based on an assessed valuation of $1,210,000,000 at $1.50 per hundred. This valuation is an increase of $16,500,914 over the estimated valuation for 1939.

The tax on tangible personal property is estimated to yield $1,450,000 including delinquency payments. This estimate is based on an assessment of $100,000,000 at $1.50 per hundred. The assessment is $10,000,000 in excess of the estimated assessment for 1939.

The yield from the tax on intangible personal property is estimated at $3,030,000 based on an assessed valuation of $600,000,000 at $0.50 per hundred. The valuation shows an increase of $15,000,000 in excess of that estimated for 1939.

Other large items in the revenue estimates of the District for 1940 are the tax on public utilities, banks, etc., amounting to $2,250,000; personal-property tax on motor vehicles, $690,000; inheritance and estate taxes, $500,000; penalties and interest on taxes, $325,000; alcoholic beverage taxes and license fees, $1,910,000; miscellaneous revenue items, $3,407,000; highway fund, gasoline tax and motor-vehicle fees, $4,865,000; and water rates, $2,500,000.

Appropriations for the District of Columbia

The appropriations recommended for the District in the fiscal year 1940 under the general and special accounts amount to $47,677,780, excluding trust-account appropriations which amount to $3,884,341. The amounts under the headings of general and special accounts are less than the corresponding 1939 District appropriations by $688,272. The increases and decreases which make up this net decrease and which are explained below, include $127,860 for administrative promotions and $190,140 looking toward the establishment of the 44-hour week. The estimated amounts for the latter purpose are in line with those allowed for the Federal departments and contemplate such readjustment of duty-stations as efficient management should indicate.

GENERAL EXPENSES

Appropriations are made under this heading for the salaries, and in some instances for the expenses, of the principal administrative offices of the District government, and certain other municipal agencies, such as the Public Utilities Commission, Minimum Wage Board, Register of Wills, and Recorder of Deeds. The net increase under general expenses, amounting to $19,760 is made up of small increases totaling $82,500 less small decreases totaling $62,740. The principal increases under this head include $6,780 for the Department of Inspections; $12,370 for the maintenance of the District buildings; $6,960 for the Minimum Wage Board; $6,650 for the Zoning Commission; $13,420 for the Commission on Mental Health; and $12,600 for administrative expenses in connection with the Employees' Compensation Fund. The principal decreases are as follows: $47,140 in the Assessor's Office (personal services) due to expiration of the business privilege tax; $4,800 in nonrecurring market repair items; $3,300 in a nonrecurring equipment item in the Collector's Office; and $2,500 for a similar nonrecurring item in the Assessor's Office.

CONTINGENT AND MISCELLANEOUS EXPENSES

Under this head are included office expenses, postage, printing and advertising, automobile services, and refunding of taxes. The net decrease of $58,977 consists primarily of the following items: $2,645 reduction in District

office expenses, $3,300 reduction in postage, and $15,900 reduction in printing and binding, all due to transfer of these amounts from the general fund to the appropriate highway or water fund items properly chargeable therewith; $25,000 for investigations of District organization and public relief which is nonrecurring; $2,660 for the Central Garage; and $10,000 for a nonrecurring item of repairs to the old Police Court Building.

MUNICIPAL CENTER

Under this head there is a reduction of $500,000, due to the fact that a Public Works Administration allotment has been made for completing the first unit of the District's administration buildings.

REPAYMENT OF LOAN FROM THE PUBLIC WORKS ADMINISTRATION

Under this head there is a reduction in the reimbursement item of $537,500. A payment of $462,500 will complete the reimbursement of the 1934 Public Works Administration loan. In prior years repayments have been in the amount of $1,000,000 annually, and the above reduction is the difference between this year's final payment and the previous annual $1,000,000 payment. Under this head there is likewise an item of $15,277 interest on the 1934 Public Works Administration loan.

FREE PUBLIC LIBRARY

Under this head there is a net decrease of $52,620 made up as follows: Decreases of $60,000 for a nonrecurring item for plans for a new main building; $5,650 in nonrecurring repair expenses; and $10,500 for books and periodicals; and an increase of $23,530 for personal services.

SEWERS

The net increase of $49,100 includes $8,600 for personal services; $5,000 for cleaning and repairing sewers and catch basins; $41,500 for construction of sewers and catch basins; and there is a decrease of $6,000 in the maintenance cost of the sewage treatment plant.

REFUSE

The Refuse Department is responsible for the cleaning of streets and the collection and disposal of trash and garbage. Under this head there is an increase of $95,070.

PUBLIC PLAYGROUNDS

The increase of $4,600 is for personal services.

ELECTRICAL DEPARTMENT

The net increase of $1,500 under this head includes increases for personal services and additional equipment amounting to $16,500, and there is a reduction in the lighting item of $15,000 due to the lowering of rates.

PUBLIC SCHOOLS

The net increase of $544,436 for operation and maintenance of public schools is composed principally of the following items: Administrative and supervisory personnel, $26,750; clerks, $22,340; school-attendance officers, $1,067; teachers and librarians, $194,600; night-school teachers, $2,484; vocational education, $4,400; community center, $5,370; school custodian personnel, $43-295; transportation and maintenance of tubercular, crippled, and blind children, $3,450; manual-training equipment, $9,820; fuel, light, and power, $25,000; contingent expenses, $18,875; replacement of equipment in senior high schools, $15,200; equipping new schools, $72,585, chiefly for the Banneker Junior High School and the Thomas Jefferson Memorial Junior High School; textbooks, $10,000; laboratory supplies, $900; teachers' retirement fund, $99,000. There are nonrecurring items in the amount of $10,700.

The net decrease of $121,150 for buildings and grounds results from a 1940 construction and land-purchase program totaling $1,500,000, and a 1939 nonrecurring program of $1,621,150. The 1940 program consists of the following items: To complete the Calvin Coolidge Senior High School, $450,000; to complete the Thomas Jefferson Memorial Junior High School and Library, $500,000; to add 8 rooms and an assembly-gymnasium to the Montgomery School, $175,000; to add 10 rooms to the Randall Junior High School, $140,000; for plans for a new Wilson Teachers' College, $30,000; and to acquire additional land, $205,000, including a site for school purposes in the vicinity of Massachusetts Avenue and Macomb Street NW., a site for a new northeast senior high school, and land adjoining the Montgomery School and the Syphax School for extension of the present buildings.

POLICE

The net increase of $58,215 includes $7,520 for additional personal services and $68,000 for a new precinct station on square south of 482; with miscellaneous reductions of $17,305 in maintenance and operation items.

POLICEMEN AND FIREMEN'S RELIEF

The increase of $65,000 under this head is in line with recent experience as to the requirements for this purpose.

FIRE

The net decrease of $24,990 is composed of an increase of $1,010 under salaries and expenses, and reductions of $26,000 in miscellaneous expenses.

HEALTH

The decrease of $40,668 is made up of the following increases and decreases: Increases—for the protective work of the Health Department, $16,032; for the Tuberculosis Sanatoria, $48,320; for Gallinger Municipal Hospital, $98,980. Decreases—for Children's Hospital, $4,000; for the Health Center Building (nonrecurring item), $200,000.

COURTS

Under this head provision is made only for the Juvenile Court, Police Court, the Municipal Court, and the probation system under the District Court of the United States for the District of Columbia.

Digitized for FRASER
http://fraser.stlouisfed.org/
Federal Reserve Bank of St. Louis

There is a net increase of $3,870 for the Juvenile Court and an increase of $5,600 for the Police Court, principally for extension of the probation system. For the Municipal Court there is a net decrease of $10 due to nonrecurring items. The probation system under the District Court of the United States for the District of Columbia shows an increase of $7,500 for additional personal services and transportation.

Estimates for the United States Marshal's Office, the District Court of the United States for the District of Columbia, and the United States Court of Appeals for the District of Columbia are carried in the Department of Justice chapter of this Budget and amount to $1,131,470.

Sixty per centum of the expenditures for the United States Marshal's Office and the District Court of the United States and thirty per centum of the expenditures for the conduct of the United States Court of Appeals for the District of Columbia, amounting to $631,130, will be payable out of District of Columbia revenues.

PUBLIC WELFARE

The Board of Public Welfare has general supervision of dependents, defectives, and delinquents in the District of Columbia. The increase of $53,860 under the Board proper, which includes the Division of Child Welfare, is principally for additional case workers and for board and care of additional children. For the Jail there is a small net increase of $1,960. There is a net increase of $97,340 for the Workhouse and Reformatory made up as follows: Increases—personal services, $40,340; maintenance, $15,000; construction, $157,000; replacement of sand dredge, $12,000; support of convicts, $39,000. Decreases—$166,000 in nonrecurring construction items. There is a decrease of $5,000 for the National Training School for Boys, and an increase of $11,080 for the National Training School for Girls.

For the District Training School there is a net increase of $19,030, which is made up of increases for maintenance and operation amounting to $32,480 and decreases of $13,450 in nonrecurring construction items. Included in the 1940 Budget is a recommendation for the reappropriation of the 1938 hospital construction appropriation of $175,000, for the purpose of constructing additional dormitories to take care of more than 200 applicants for admission. There is an increase of $1,585 for the Industrial Home School for Colored Children. The Industrial Home School for White Children has an increase of $4,300 for personal services. The Home for the Aged and Infirm has an increase of $18,490, of which sum $15,000 is for an addition to the infirmary.

The estimates of appropriations for emergency relief, for home care for indigent children, for old-age pensions, for pensions for the needy blind, and for transportation of indigent nonresidents remain unchanged, awaiting the report of the special congressional committee investigating the relief situation in the District of Columbia. For the same reason the amount of $189,500 appropriated in 1939 as sponsor's contributions to Works Progress Administration projects is not repeated in the 1940 Budget.

There is an increase of $176,260 to care for the District's indigent insane at Saint Elizabeths Hospital due to the constantly increasing number of admissions.

NATIONAL CAPITAL PARKS

Under this head there is an increase of $21,880 for improved maintenance of park system.

NATIONAL CAPITAL PARK AND PLANNING COMMISSION

The estimate of $837,500 for reimbursement to the United States under the Capper-Cramton Act, together with the 1940 item of $462,500 for final payment on the 1934 Public Works Administration loan previously referred to, provide for total repayments in the amount of $1,300,000, which is the same amount as for 1939.

NATIONAL ZOOLOGICAL PARK

There is an increase of $10,480 under this head.

HIGHWAY FUNDS, GASOLINE TAX AND MOTOR-VEHICLE FEES

There is a decrease of $64,750 for the Department of Vehicles and Traffic, due primarily to a nonrecurring inspection stations construction item. There is a net decrease in the amounts for the Highway Department of $718,200, due primarily to nonrecurring special items, such as the Thomas Circle underpass and the K Street grade separation at Rock Creek and Potomac Parkway. There is an increase for trees and parkings amounting to $10,500.

WATER ACCOUNT

There is a decrease of $61,650 in the Washington Aqueduct amounts because of nonrecurring items. Under the Water Department there is a net decrease of $139,950, representing additional maintenance costs amounting to $66,030; a new main to cost $200,000 to connect the new Soldiers' Home reservoir with the Bryant Street pumping station, and nonrecurring items in the amount of $405,980, of which $400,000 was for the new Soldiers' Home reservoir.

Seventh Street west, Constitution Avenue north to Independence Avenue south, $88,000;

Northwest: Eleventh Street, Rhode Island Avenue to Vermont Avenue, $49,500;

Provided, That in widening, altering, paving, and repaving these roadways 40 per centum of the entire cost thereof shall be assessed against and collected from the owners of the abutting property in the manner provided in the Act approved February 20, 1931 (46 Stat. 1197–1199). The owners of abutting property also shall be required to modify, at their own expense, the roofs of any vaults that may be under the sidewalks or parking on said street if it be found necessary to change such vaults to permit of the roadway being widened;

For grading, paving, repaving, surfacing and otherwise improving streets, avenues and roads, including curbing and gutters, drainage structures, retaining walls, the replacement and relocation of sewers, water mains and fire alarm boxes and police patrol boxes and replacement of curb-line trees, when necessary, as Federal-aid highway projects under section 1–b of the Federal-Aid Highway Act of 1938 (Public No. 584, 75th Congress), $560,000.

For grading streets, alleys, and roads, including construction of necessary culverts and retaining walls, $50,000;

For paving the unpaved center strips of paved roadways, $5,000;

For minor changes in roadway and sidewalks on plans to be approved by the Commissioners of the District of Columbia to facilitate vehicular and pedestrian traffic, $5,000;

For construction of curbs and gutters, or concrete shoulders in connection with all forms of macadam roadways and adjustment of roadways thereto, together with resurfacing and replacing of base of such roadways where necessary, $200,000;

For the surfacing and resurfacing or replacement of asphalt, granite block, or concrete pavements with the same or other approved material, [$450,000] *$350,000*;

For construction, maintenance, operation, and repair of bridges, $50,000;

For current work of repairs to streets, avenues, roads, and alleys, including the reconditioning of existing gravel streets and roads; for cleaning snow and ice from streets, sidewalks, cross walks, and gutters in the discretion of the Commissioners; and including the purchase, exchange, maintenance, and operation of non-passenger-carrying motor vehicles used in this work, [$850,000] *$875,000, of which amount $25,000 shall be available exclusively for snow removal*: *Provided*, That appropriations contained in this Act for highways, sewers, city refuse, and the water department shall be available for snow removal when specifically and in writing ordered by the Commissioners: *Provided further*, That the Commissioners of the District of Columbia, should they deem such action to be to the advantage of the District of Columbia, are hereby authorized to purchase a municipal asphalt plant at a cost not to exceed $30,000;

This appropriation shall be available for the construction and repair of pavements of street railways in accordance with the provisions of the Merger Act, approved January 14, 1933 (47 Stat. 752). The proportion of the amount thus expended which under the terms of the said Act is required to be paid by the street-railway company shall be collected, upon the neglect or the refusal of such street-railway company to pay, from the said street-railway company in the manner provided by section 5 of "An Act providing a permanent form of government for the District of Columbia", approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which it is collected;

[For the construction of a grade-separation structure at K Street Northwest and Rock Creek and Potomac Parkway, in accordance with plans and profile to be approved by the Commissioners of the District of Columbia, including the replacement of the bridge in the line of K Street over Rock Creek, the necessary construction, reconstruction, and changes of roadways, walkways, sidewalks, and curbing in the vicinity of the structures, relocation and reconstruction of any necessary parkway roads, walkways, and so forth, construction of and changes in water and sewer mains, fire-alarm and police-patrol boxes, street and traffic lights, travel expenses in connection with the inspection of material at the point of manufacture, employment of engineering or other professional services, by contract or otherwise, and without reference to section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) or the Classification Act of 1923, as amended, and engineering and incidental expenses, $320,000;]

including necessary changes, construction, and reconstruction of roadways, sidewalks, and curbing, construction of and changes in sewer and water mains, street and traffic lights, fire-alarm and police-patrol boxes in the vicinity of the circle, construction of and such changes in walkways, landscaping, and so forth, of the Thomas Circle Park Reservation as may be approved by said Commissioners, travel expenses in connection with the inspection of material at the point of manufacture, employment of engineering and other professional services by contract or otherwise and without reference to section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) or the Classification Act of 1923, as amended, and engineering and incidental expenses, $530,000;]

For the preparation of studies, plans and surveys, estimates, and investigation of foundation conditions for a grade separation structure in the vicinity of Fourteenth and Water Streets, Southwest, including the necessary changes in outlet bridge, curbing, roadways and walkways in streets, parks and other public areas, street railway tracks and underground structures, and including the employment of engineering or other professional services by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), the Classification Act of 1923, as amended, or the civil-service requirements, and engineering and incidental expenses, $25,000;

For *continuing* the construction of a bridge to replace the bridge in line of Pennsylvania Avenue over the Anacostia River in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including construction of and changes in sewer and water mains, traveling expenses in connection with the inspection of material at the point of manufacture, employment of engineering and other professional services, by contract or otherwise, and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5), [or] the Classification Act of 1923, as amended, *or the civil-service requirements* and engineering and incidental expenses, [$620,000] *$700,000*, and the Commissioners are authorized to enter into contract or contracts for the completion of said bridge at a cost not to exceed $2,000,000: *Provided*, That the expense of necessary personnel to handle railroad traffic during construction and the changes in power and conductor lines incident to construction of the bridge shall be borne by the Pennsylvania Railroad Company.

For *completing* the construction of an additional culvert under Massachusetts Avenue Northwest in the line of Rock Creek and Potomac Parkway in accordance with plans and profiles to be approved by the Commissioners of the District of Columbia, including necessary changes, construction and reconstruction of roadways, sidewalks, and curbing, and construction of and changes in sewer and water mains, fire alarm and police patrol boxes, and construction, reconstruction and relocation of parkway roads, walkways, and so forth as may be approved by said Commissioners, travel expenses in connection with the inspection of material at the point of manufacture, employment of engineering and other professional services by contract or otherwise and without reference to section 3709 of the Revised Statutes (41 U. S. C. 5) or the Classification Act of 1923, as amended, civil service requirements, and engineering and incidental expenses, [$125,000] *$175,000*, and the Commissioners are authorized to enter into contract or contracts for the completion of said culvert at a cost not to exceed $300,000.

For the construction of a second story to the highway garage, at Second and Bryant Streets Northwest, to provide additional storage space for motor vehicles and other equipment, including the preparation of plans, inspection, construction, and incidental expenses, $50,000;

To carry out the provisions of existing law which authorize the Commissioners of the District of Columbia to open, extend, straighten, or widen any street, avenue, road, or highway, in accordance with the plan of the permanent system of highways for the District of Columbia, including the procurement of chains of title, $150,000, to remain available until June 30, [1940] *1941*: *Provided*, That this appropriation shall be available to carry out the provision of existing law for the opening, extension, widening, or straightening of alleys and minor streets and for the establishment of building lines in the District of Columbia;

For assessment and permit work, paving of roadways under the permit system, and construction and repair of sidewalks and curbs around public reservations and municipal and United States buildings, including purchase or condemnation of streets, roads, and alleys, and of areas less than two hundred and fifty square feet at the intersection of streets, avenues, or roads in the District of Columbia, to be selected by the Commissioners, and including maintenance of non-passenger-carrying motor vehicles, $150,000;

In all, [$4,621,600] *$3,900,500*, to be immediately available, to be disbursed and accounted for as "Street improvements", and for that purpose shall constitute one fund: *Provided*, That assessments in accordance with existing law shall be made for paving and repaving roadways, alleys, and sidewalks where such roadways, alleys, and sidewalks are paved or repaved with funds herein appropriated: *Provided further*, That any portion of this appropriation may be used for payment to contractors and for other expenses in connection with the expense of design, construction, and inspection of grade-crossing elimination *and other construction* projects authorized under section 8 of the Act approved June 16, 1936 (49 Stat. 1521), *and section 1–b of the Federal Aid Highway Act of 1938 (Public No. 584, 75th Congress)*, pending reimbursement to the District of Columbia by the Department of Agriculture, reimbursement to be credited to fund from which payment was made (*52 Stat. 185–188*).

The Commissioners of the District of Columbia are authorized and empowered, in their discretion, to fix or alter the respective widths of sidewalks and roadways (including tree spaces and parking) of all highways that may be improved under appropriations contained in this Act.

No part of any appropriation contained in this Act shall be available for repairing, resurfacing, or paving any street, avenue, or roadway by private contract unless the specifications for such work shall be so prepared as to permit of fair and open competition in paving material as well as in price.

In addition to the provision of existing law requiring contractors to keep new pavements in repair for a period of one year from the date of the completion of the work, the Commissioners of the District of Columbia shall further require that where repairs are necessary during the four years following the said one-year period, due to inferior work or defective materials, such repairs shall be made at the expense of the contractor, and the bond furnished by the contractor shall be liable for such expense.

No part of the appropriations contained in this Act shall be used for the operation of a testing laboratory of the highways department for making tests of materials in connection with any activity of the District government (*52 Stat. 188–189*).

SEC. 2. That the services of draftsmen, assistant engineers, levelers, transitmen, rodmen, chainmen, computers, copyists, overseers, and inspectors temporarily required in connection with sewer, water, street, street-cleaning, or road work, or construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations may be employed exclusively to carry into effect said appropriations when specifically and in writing ordered by the Commissioners, and all such necessary expenditures for the proper execution of said work shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in their Budget estimates shall report the number of such employees performing such services, and their work, and the sums paid to each, and out of what appropriation: *Provided*, That the expenditures hereunder shall not exceed $42,000 during the fiscal year [1939] *1940: Provided further*, That, excluding inspectors in the sewer department and one inspector in the electrical department, no person shall be employed in pursuance of the authority contained in this paragraph for a longer period than nine months in the aggregate during the fiscal year.

Appropriations in this Act shall be available for payment by the District of Columbia of its contributions as an employer, in accordance with the provisions of the District of Columbia Unemployment Compensation Act (49 Stat. 946).

The Commissioners, or their duly designated representatives, are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, water, street, and road work, and street cleaning, or the construction and repair of buildings, and bridges, furniture and equipments, and any general or special engineering or construction or repair work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, drivers, hostlers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.

SEC. 3. That all horses, harness, horse-drawn vehicles necessary for use in connection with construction and supervision of sewer, street, street lighting, road work, and street-cleaning work, including maintenance of said horses and harness, and maintenance and repair of said vehicles, and purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained, and motortrucks may be hired exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners; and all such expenditures necessary for the proper execution of said work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners in the Budget estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation; and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: *Provided*, That such horses, horse-drawn vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section 2 of this Act in relation to the employment of laborers, skilled laborers, and mechanics.

SEC. 4. That the Commissioners are authorized to employ in the execution of work, the cost of which is payable from the appropriation account created in the District of Columbia Appropriation Act, approved April 27, 1904, and known as the miscellaneous trust-fund deposits; District of Columbia, necessary personal services, horses, carts, and wagons, and to hire therefor motortrucks when specifically and in writing authorized by the Commissioners, and to incur all necessary expenses incidental to carrying on such work and necessary for the proper execution thereof, including the purchase, exchange, maintenance, and operation of motor vehicles for inspection and transportation purposes, such services and expenses to be paid from said appropriation account: *Provided*, That the Commissioners may delegate to their duly authorized representatives the employment under this section of laborers, mechanics, and artisans.

SEC. 5. That the Commissioners and other responsible officials, in expending appropriations contained in this Act, so far as possible, shall purchase material, supplies, including food supplies and equipment, when needed and funds are available, in accordance with the regulations and schedules of the Procurement Division of the Treasury Department or from various services of the Government of the United States possessing materials, supplies, passenger-carrying and other motor vehicles, and equipment no longer required. Surplus articles purchased from the Government, if the same have not been used, shall be paid for at a reasonable price, not to exceed actual cost, and if the same have been used, at a reasonable price based upon length of usage. The various services of the Government of the United States are authorized to sell such surplus articles to the municipal government under the conditions specified, and the proceeds of such sales shall be covered into the Treasury as miscellaneous receipts: *Provided*, That this section shall not be construed to amend, alter, or repeal the Executive order of December 3, 1918, concerning the transfer of office materials, supplies, and equipment in the District of Columbia falling into disuse because of the cessation of war activities.

SEC. 6. No part of the funds appropriated in this Act shall be available for the payment of rental of quarters for any activity at a rate in excess of 90 per centum of the per annum rate paid by the District of Columbia for such quarters on June 30, 1933: *Provided*, That the provisions of this paragraph shall not apply to leases made prior to the passage of this Act, except when renewals thereof are made hereafter: *Provided further*, That the appropriations or portions of appropriations unexpended by reason of the operation of this paragraph shall not be used for any purpose, but shall be impounded and deposited in the Treasury to the credit of the District of Columbia.

SEC. 7. Appropriations contained in this Act shall be used to pay increases in the salaries of officers and employees by reason of the reallocation of the position of any officer or employee by the Civil Service Commission: *Provided*, That the total reallocation increases under such appropriations shall not exceed $35,000: *Provided further*, That such reallocation increases shall be subject to the approval of the Commissioners of the District of Columbia.

SEC. 8. Section 3709 of the Revised Statutes of the United States shall not be construed to apply to any purchase made or service rendered under the appropriations contained in this Act when the aggregate amount does not exceed the sum of $50.

SEC. 9. No part of this appropriation shall be available for any expense for or incident to the issuance of congressional tags except to those persons set out in the Act of December 19, 1932 (47 Stat. 750), including the Speaker and the Vice President.

[SEC. 10. Credit is allowed in the accounts of the District of Columbia for disbursements made from the appropriation "Division of Child Welfare, District of Columbia, 1933", covered by audit Numbers 180442, 186060, 192920; and General Accounting Office Certificate Numbered G–73092–DC, dated October 11, 1937.]

[SEC. 11. The Commissioners of the District of Columbia are hereby authorized and empowered, in their discretion, to secure and to install experimentally, at no expense to the said District, mechanical parking meters or devices on the streets, avenues, roads, highways, and other public spaces in the District of Columbia under the jurisdiction and control of said Commissioners, such installations to be limited to a linear footage not to exceed the total of the perimeters of four normally sized squares in such District; and said Commissioners are authorized and empowered to make and enforce rules and regulations for the control of the parking of vehicles on such streets, avenues, roads, highways, and other public spaces, and as an aid to such regulation and control of the parking of vehicles the Commissioners may prescribe fees for the privilege of parking vehicles where said meters or devices are installed.]

[The Commissioners are further authorized and empowered to pay the purchase price and cost of installation of the said meters or devices from the fees collected, which are hereby appropriated for such purpose, for the fiscal years 1938 and 1939, and thereafter such meters or devices shall become the property of said District, and all fees collected shall be paid to the collector of taxes for deposit in the Treasury of the United States to the credit of the revenues of said District.]

[12] The 1938 expenditures have been adjusted to the basis of the 1940 appropriation estimates which involve numerous transfers and consolidations of appropriations. For this reason the 1938 expenditures under the Department of Agriculture are not strictly comparable with those shown for prior years.

[13] Includes $17,739,448.73 in 1937 and $965,044.32 in 1936 for elimination of diseased cattle, formerly carried under "Miscellaneous."
