

Summary figures, by districts, by months
Individual centers by months

This release presents the annual summary of debits data for 1965 on the revised basis first published with the monthly release of January 1965 data. These figures include debits or charges to demand deposit accounts of individuals, partnerships, and corporations, and of State and local governments, and payments from trust funds on deposit in the banking department. They exclude debits to United States Government deposit accounts, debits to time deposit accounts, and payments of certified and officers' checks, payments in settlement of clearing house balances, charges to expense and miscellaneous accounts, corrections and similar charges, and debits to the accounts of other banks, that is, to interbank accounts.

Data for individual Standard Metropolitan Statistical Area's reflect total debits for all commercial banks in the area for the year as well as seasonally adjusted annual rates of debits for each month. Additional information concerning the revision of the debits series, including a description of the seasonal adjustment techniques employed, appears in the March 1965 Federal Reserve Bulletin.

Annual rate of turnover figures are shown on the summary page for the Total 225 centers, New York area, 6 Other Center, All Centers (1) excluding New York and (2) excluding New York and 6 Other Centers and for each of the Twelve Districts.

Component figures may not add to aggregates because of rounding.
