

PRESS STATEMENT.

February 8, 1919.

Below is given the Federal Reserve Board's twenty-fifth weekly statement of total debits to deposit account, reported through the Federal Reserve Banks by about 150 of the country's more important clearing houses. Transactions cover the weekly periods ending Wednesday January 29 and Wednesday February 5.

Aggregate debits to individual account for the first week of February were about 13 per cent in excess of the corresponding total for the last week in January, all the districts and important centers reporting larger transactions than the week before. Aggregate debits to bank account show a relatively smaller increase, some of the districts, viz; Philadelphia, Atlanta, St. Louis and Minneapolis, reporting smaller bank debits than for the week immediately preceding.

The statement closes with a recapitulation giving comparative data by reserve districts for 150 centers reporting complete data for both weeks. Figures of reporting clearing houses by Federal Reserve districts are as follows:

:	Debits to Individual	:	Debits to Banks' and
:	Account	:	Bankers' Account
