BANK DEBITS

Volume of business for the week ending September 27 was \$8,224,000,000, or at approximately the same level as two weeks ago but 13 per cent below the total reported for the week ending September 20 with its heavy income tax and mid-month payments. Smaller figures are reported for all the leading centers, with the exception of Pittsburgh and Detroit.

As compared with the week ending September 28, 1921, the volume of business for the week under review shows an increase of \$757,000,000, or about 10 per cent. Larger figures as compared with last year are reported for all the leading centers, except Baltimore and San Francisco. Pittsburgh with an increase in the volume of business of 34 per cent, and Detroit with an increase of 47 per cent report the most notable advances.

The volume of business is measured by debits to individual accounts reported to the Federal Reserve Board for banks in leading centers. The total number of centers reporting this week is 248, of which 166 are included in the summary by Federal reserve districts.
