# REPORT

OF THE

# COMMITTEE OF INVESTIGATION

APPOINTED AT THE

### MEETING OF THE STOCKHOLDERS

OF THE

## BANK OF THE UNITED STATES.

Held January 4, 1841.

MADE TO AN ADJOURNED MEETING, HELD APRIL 5, 1841: ALSO, A REPORT OF THE BOARD OF DIRECTORS.

PHILADELPHIA:

1841.

# Bank of the United States, Monday, January 4, 1841.

At a stated meeting of the Stockholders of the Bank of the United States, Samuel Breck was called to the Chair, and Joseph Gratz appointed Secretary.

The President of the Bank then submitted and read to the meeting the report of the Dividend Committee, and also submitted a detailed statement of the affairs of the Bank in a printed form.

On motion, Resolved, That the said report submitted by the President be accepted. Which was carried.

Mr. Lentz offered the following:

Resolved, That hereafter no allowance or presents shall be made by the Directors to any officer, or other person employed by this Institution.

When the following was offered by Mr. Kennedy as a substitute.

Resolved, That the present policy of the Directors of the Bank, in contracting its business and retrenching its expenses, meets the approbation of the Stockholders, and its continuance is recommended. Which was unanimously carried.

The following was offered by Joshua Lippincott.

Resolved, That a committee of six be appointed to examine into the details of the reports submitted to the Stockholders this day.

Resolved, That the meeting appoint the committee. Whereupon the following Stockholders were nominated and appointed.

Joshua Lippincott, Moses Kempton, Thos. P. Cope,

Chas. Massey, Richard Willing, David Kirkpatrick.

Resolved, That the committee be authorised to fill any vacancies, which may occur therein.

Resolved, That the meeting now adjourn to meet at this place on the first Monday in April, at 10 o'clock.

SAMUEL BRECK, Chairman.

Jos. GRATZ, Secretary.

#### ADJOURNED MEETING OF THE STOCKHOLDERS OF THE BANK OF THE UNITED STATES.

At a meeting of the stockholders of the Bank of the United States, held (by adjournment from the 4th of January, 1841) in the banking house, on Monday the 5th of April, 1841, at ten o'clock, A. M., Samuel Breck, Esq., chairman, called the meeting to order, and Charles Gilpin and Joseph R. Chandler were appointed additional secretaries.

Joseph Gratz, one of the secretaries, read the proceedings of the 4th of January, on which a Committee was appointed to whom the reports of the directors and others were referred.

A letter from Thomas Dunlap, Esq., President of the Bank, was read. It accompanied a report of the proceedings and state of the Bank subsequent to that made to the meeting on the 4th of January last.

On motion of J. B. English, the reading of the report was postponed for the present.

Joshua Lippincott, Esq., then presented the report of the Committee appointed at the last meeting, which, with a part of the accompanying documents, was read.

Mr. Lippincott then offered the following resolution, which was unanimously adopted:

Resolved, That the Board of Directors of the Bank of the United States be requested to pay Geo. Sharswood, Esq., 500 dollars for services performed as Secretary of the Committee of Investigation, appointed at a meeting of stockholders on the 4th of January last.

Richard H. Bayard, Esq., of Delaware, offered the following resolution, which was adopted:

Resolved, That two thousand copies of the report of the Committee of Investigation, this day submitted, be printed for the use of the stockholders.

The same gentleman offered the following resolution, which was adopted:

Resolved, That the Committee who made the report this day, with four or six others to be named, be and they are hereby appointed a

Committee to take into consideration the present condition of the Bank, and report to the stockholders, at an adjourned meeting, the proper measures to be adopted for the purpose of relieving the institution from its present embarrassments. The Committee shall have power to fill any vacancies in their own body.

The Committee consists of the Committee of Investigation, and Messrs. Samuel Breck, of Philadelphia, R. H. Bayard, of Delaware, William Drayton of Philadelphia, John Spear Nicholas, of Baltimore, and —— Schwarer, of New York.

John M. Kennedy, Esq., offered the following preamble and resolution, which were adopted:

Whereas, the reported sales of stock of the Bank of the United States is believed, by many, to be much larger than is transferred on the books of the institution; and if so, is calculated to mislead public opinion, as to the degree of confidence reposed in the value of stock of said institution, by the stockholders thereof—therefore, be it

Resolved, That the Cashier be directed to have prepared a statement of the number of shares transferred on the books of the Bank, between the first day of October last, and the first instant, and cause the same to be published.

It was resolved that when this meeting adjourn, it shall adjourn to meet in this place on Thursday next, at ten o'clock, A. M.

The report sent by the President of the Bank was then called up and ordered to be read; whereupon it was

Resolved, That this report, with its accompanying document, be printed with that made by the Investigating Committee.

The following resolution was read and unanimously adopted:

Resolved, That the thanks of this meeting be, and they are hereby, presented to the gentlemen composing the Investigating Committee, for their laborious and faithful exertions, and their luminous and interesting report.

The meeting adjourned at half past 12 P. M.

SAMUEL BRECK, Chairman.

JOSEPH GRATZ, CHARLES GILPIN, Jos. R. CHANDLER, The Committee appointed at the meeting of the Stockholders of the Bank of the United States, held January 4, 1841, to examine the details of the statement, then submitted by the President, respectfully submit the following

#### REPORT.

THE Committee originally appointed, consisted of Joshua Lippincott, Moses Kempton, Charles Massey, Thomas P. Cope, Richard Willing, and David Kirkpatrick. The three last named gentlemen, declined acting: and Edward Coles, James S. Newbold and John Bacon having been selected to fill the vacancies, the Committee were finally organised, by the election of Joshua Lippincott as Chairman, and George Sharswood as Secretary; and on the twenty-ninth day of January, commenced the performance of the duties assigned them.

The Committee were accommodated by the Board of Directors, with an apartment in the Bank, and were from time to time, attended by a Committee of that body, as well as by the Officers and Clerks of the Bank. Every facility was afforded to them, in the prosecution of their labors, as far as was practicable, by submitting to their examination, the Books of the Bank, and by giving such verbal explanations, and furnishing such extracts and copies, as were requested. At an early stage of their proceedings, they were officially notified by the President, that a Resolution had been adopted by the Board of Directors, "that the Committee of Stockholders be informed, that the Board is ready to afford them every facility, in the prosecution of any investigation, which the Committee may be willing to make, of the affairs and transactions of this Bank, and the causes of its actual situation, and that it is the wish of this Board, that the Committee should make such investigation, in order that the results may be laid before the meeting of the Stockholders in April next." Conceiving it to be their duty, under the terms of their original appointment, as well as under the invitation thus extended to them by the Board, the Committee accordingly commenced an examination of "the affairs

and transactions of the Bank," and "the causes of its actual situation."

The Committee proceeded in the first instance, to verify in detail, the Statement of the Assets and Liabilities of December 21, 1840. The securities and evidences in the possession of the Bank at Philadelphia, were accordingly produced and on comparison therewith, the same was found to be correct. The cash was counted, on the second of March, and corresponded with the Leger Balance of that day. The returns from the several offices and Agencies, were read and found to agree with the printed Statement. The accounts of the circulation and Issues, of the late and present Bank were also examined.

The Committee have prepared and herewith submit a still more detailed statement of the Assets and Liabilities of the Bank, on the twenty-first day of December 1840, than that heretofore presented: exhibiting the particulars of each item of the original statement, in the same order and arrangement, as is therein pursued: omitting however, the items "Bank United States Stock, Balance unsold," and the amount credited as "Bonus for Charter."

The next object proposed was to make a valuation of the Assets. With this view they proceeded to re-examine the items of Active and Suspended Debt, Stocks, Real Estate, Bonds and Mortgages, Foreign Bills of Exchange, and Amounts due by State Banks. The President of the Bank was also requested to obtain an estimate of the probable loss, on the Assets at the different Offices, and Agencies: returns from all of which have accordingly been received. The estimates thus made are presented in a column, added to the detailed statement, now submitted and before referred to, (Appendix A.)

The attempt to make an estimate of Probable Losses, was found to be attended with considerable difficulty and embarrassment. To adopt the present depressed market value of the several stocks, and loans held by the Bank, would not be a fair criterion of their actual worth, which, rather than their present availability, was that at which the Committee endeavored to arrive. Still they have been necessarily guided, in a great measure by the Price Current of the day. Of the Real Estate and Bonds and Mortgages, a very imperfect judgment could be formed, without inquiries as to title and incumbrances, which the Committee had not time to make. Many of the securities, are of a character to render it almost impracticable to form even a reasonable conjecture of their value. While therefore the Committee bespeak for this portion of their labors that regard,

which is due to an honest effort, from the best means within their reach, to arrive at the truth, they must be permitted to qualify it with the remark, that it is necessarily only an approximation, in which they cannot ask the Stockholders to place entire confidence. The ability of the Institution to realise any thing like a fair equivalent for its Assets, will depend much upon the course of policy it may in future pursue, and upon circumstances, which no one can be expected to foresee. The estimate is presented however with less reluctance, as from the details now given, each stockholder will be able to form a judgment for himself.

It may be proper here to remark, that it has been thought best by a majority of the Committee, not to submit the lists in detail of the active and suspended debt. The injury which would result to the credit of individuals by such an exposition, might ultimately be detrimental to the interests of the stockholders, while no benefit of sufficient importance to counterbalance such a mischief, appeared to present itself. In regard to these two lines, therefore, the Committee will content themselves with remarking, that but a small proportion consists of regular mercantile discounts. On the Active Debt, December 21, 1840, are loans to seven incorporated or other Companies of 1,211,193 dollars, 22 cents, including one of 502,222 dollars. 22 cents, to the Philadelphia, Wilmington and Baltimore Railroad Company. The sum of 740,056 dollars, 33 cents, is on obligations, having on that day more than six months to run, and of this sum 597,028 dollars, 5 cents, had more than twelve months to run. The sum of 279,388 dollars, 41 cents, a part of this Line entered as "Bills Receivable," being nominally payable on demand, though really composed of permanent accommodations, is not included in either of these amounts. Nor is the sum of 66,800 dollars, 86 cents. "Bills receivable for sale of Offices." A considerable part of it is in large amounts, as will sufficiently appear from the fact, that fortyeight individuals, firms and companies, have discounts exceeding 20,000 dollars each, of whom twenty-seven have discounts exceeding 50,000 dollars each, and nine exceeding 100,000 dollars each. A similar examination of the suspended debt exhibits as the result fifty-two individuals, firms and companies, standing charged on the books of that department, with more than 20,000 dollars each. twenty-nine with more than 50,000 dollars each, and eighteen with more than 100,000 dollars each. There are six individuals and firms whose debts amount to 2,314,000 dollars, two of which are

over 650,000 dollars each, a large amount of which will be lost; and four others, who have loans amounting to 569,000 dollars. Eleven Joint Stock Companies are indebted on this List 807,581 dollars, 23 cents, of which the Philadelphia and Germantown Railroad Company is 129,902 dollars, 76 cents.

The whole result of the valuation made by the Committee, may be thus stated in short:—

The Assets of the Bank, amounting on the twenty-first day of December, 1840, according to the statement of the Committee, to 69,531,742 dollars, 46 cents, have been estimated at \$51,779,795 46 From which deduct liabilities 36,959,539 63

Leaves the sum of	\$14,820,256 11
to represent the capital of	\$35,000,000 00
Less amount of Bank United States stock on hand,	2,471,400 00
	\$32,528,600 00

To this may be added the sum of four or five hundred thousand dollars, for that part of the circulation, amounting on the twenty first of December, 1840, to 9,336,000 dollars, 90 cents, which is probably lost or destroyed.

The Committee submit also herewith, condensed General Statements of the condition of the Bank, on the first day of February, 1836, on the first day of April, 1839, and on the first day of March, 1841; with a comparative Table of Assets and Liabilities, for these three periods, and also a General Statement of April 1, 1841. (Appendix B. C. D. E. and F.)

The general statement of the condition of the bank February 1, 1836, is a copy of that submitted to the stockholders convened at the Bank, upon the nineteenth day of that month, for the purpose of considering the propriety of accepting the charter, then recently granted by the Legislature of Pennsylvania. By that statement, showing the condition of the Institution, after a period of active business extending over twenty years, and including more than one period of serious commercial difficulty, there appeared to the credit of Discount, Exchange, and Interest,

\$423,875 15
Profit and Loss,

3,765,399 54

Contingent Fund, exceeding the Losses chargeable	
thereto, by the sum of	1,436,561 65
Foreign Exchange account,	847,871 03
Fund for extinguishing cost of Banking Houses,	1,104,223 09
Contingent Interest,	440,854 14
•	\$8,018,784 60

These sums after deducting the amount of deficiencies and expenses, 217,194 22

formed the surplus funds of the Institution, \$7,801,590 38 from which, it will be recollected, it was strongly urged upon the stockholders, as the main argument in favor of accepting the charter then offered, that, after making the most liberal allowance for probable losses on the suspended debt and real estate the entire Bonus could be paid, without in the least degree impairing the capital.

The origin of the course of policy, which has conducted to the present situation of the affairs of the Institution, dates however beyond the period of the re-charter by the state. When it was perceived that the charter of the late Bank of the United States would not be renewed or extended by Congress, the President and Directors commenced winding up its concerns, and among the first measures taken to that end, was to sell or dispose of, as far and as speedily as could be effected, the assets of its several branches. This was generally done to State Banks, who gave for them their obligations, payable by instalments at distant periods. At the same time, the policy was adopted of converting the active debt into loans upon the security of stocks, by which permanent investments might be provided for the capital of the Bank during the long period of its anticipated liquidation. On the 6th of March, 1835, "the President submitted to the Board, a general view of the situation of the Bank, its means and liabilities, its circulation and deposits, and the probable future demands upon it, showing its ample resources and power of expansion: whereupon" the committee of Exchange, which was composed of three Directors, appointed by the President, were authorised by the Board "to make loans on the security of the stock of this Bank, or other approved security, and if necessary, at a lower rate than six, but not less than five per cent. per annum." This delegation of power to the Exchange committee, was never expressly and formally renewed under the new charter, unless it be considered as included, under a general resolution of the new Board adopting

"the Bye-Laws, Rules, and Regulations" of the former Bank. By the statement of the condition of the Bank upon the 2d of March, 1835. the whole amount of loans upon Bank stock, and other than personal security, was 4,797,936 dollars 25 cents, while by that of March 3 1836, these loans had increased to the sum of 20,446,367 dollars 88 Under such circumstances, the active means of the Bank were comparatively small, to pay the immediate demand of the state for the Bonus, to settle with the government of the United States for its stock, and to meet its circulation of 20,114,227, dollars 56 cents. which, contrary to the anticipation, expressed at the period of its recharter soon began to be rapidly presented for redemption. Bank was of necessity driven into the market as borrowers, and very soon the first step was taken to obtain loans abroad, by sending the Cashier to Europe for that purpose. Two loans were accordingly negotiated by him; one in England, of £1,000,000 sterling; and another in France, of 12,500,000 francs, on favorable terms.

In order to provide for the payment of these Loans, and to negotiate others, and in general to superintend the interests of the Institution abroad, it was determined by the Board, to have a General Agent residing in London, and on the twenty-second of September, Mr. Samuel Jaudon, then Cashier, was elected to that post, and his agency there commenced accordingly November 8, 1837.

At the same time, the Bank entered the Foreign and Domestic Markets as borrowers, upon their Post Notes and Bonds payable in Europe: the whole amount obtained in this way at different periods up to July 1840, being more than twenty-three millions.

From these causes, as well as from the general derangement of affairs, the suspension of specie payments, and the discredit consequently thrown upon American securities, and more particularly from the course of the Bank's dealing in Foreign Exchange, by drawing Bills to a large amount without having previously provided the funds for their payment, and thus subjecting their agent in London, to the necessity of obtaining money in haste, in order to maintain the credit of the Bank, it was no longer found possible to command funds there upon the same favorable terms as before. And accordingly, upon Mr. Jandon's subsequent negotiations for Loans, to the amount altogether of 12,212,697 dollars, 46 cents, there is chargeable to Losses the sum of 1,149,907 dollars, 4 cents, being for Discount, Commissions to Foreign Bankers, and other charges; not including Mr. Jandon's own commissions, and the expenses of the Agency in London amounting up to January 1, 1841, to the sum of 69,344 pounds 17

shillings 6 pence sterling, which at nine per cent exchange is equal to 335,937 dollars, 39 cents.

It may be proper to explain in passing, how this large sum for expenses of the Agency at London arises. When Mr. Jaudon was elected to the place of foreign agent, he was the principal cashier, at a salary of 7000 dollars per annum. The Bank paid the loss on the sale of his furniture, 5074 dollars, and the passage of himself and family to London, a further sum of 1015 dollars. He was to devote himself exclusively to the business of the Bank, to negotiate an uncovered credit in England, to provide for the then existing debt in Europe, to receive its funds, to pay its bills and dividends, to effect sales of stocks, and generally to protect the interests of the Bank and "the country at large." For these services he was to receive the commission theretofore charged and allowed to Baring, Brothers & Company, equal to about 28,000 dollars per annum. In addition to which, the expenses of the agency were allowed him, including a salary of 1000 pounds sterling to his brother, Mr. Charles B. Jaudon. as his principal clerk. From the increase of money operations, arising from facilities afforded by the agency, the amount upon which commissions were charged was greatly augmented, so that the sums paid him for his ordinary services up to January, 1841, amounted at nine per cent. exchange to 178,044 dollars, 47 cents, and the expenses of the agency to 35,166 dollars, 99 cents. In addition to these sums. he was allowed by the Exchange Committee, an extra commission of one per cent. upon a loan effected in October, 1839, of 800,000 pounds, say 38,755 dollars, 56 cents, and upon his claim for a similar commission upon subsequent loans in France and Holland, to the amount of 8,337,141 dollars, 90 cents, the board of directors, under the sanction of a legal opinion, from counsel of high standing, and the views of the former President, by whom the agreement with Mr. Jaudon was made, that the case of extraordinary loans was not anticipated, nor meant to be included in the original arrangement, allowed the further charge of 83,970 dollars, 37 cents. These several sums amount to 335,937 dollars, 39 cents, as before stated.

Such were some of the results of the resolution of March, 1835, though it cannot be questioned, that much may be fairly attributed to the unhappy situation of the business and exchanges of the country, concurring with the unfortunate policy pursued by the administration of the Bank. Thus the Institution has gone on, to increase its indebtedness abroad, until it has now more money borrowed in Europe, than it has on loan on its list of Active Debt in America.

To this has been superadded, extensive dealing in stocks, and a continuation of the policy of loaning upon stock securities, though it was evidently proper upon the recharter, that such a policy should be at once and entirely abandoned. Such indeed was its avowed purpose, yet one year afterwards, in March, 1837, its loans upon stocks and other than personal security had increased 7.821,541 dollars. while the Bills discounted on personal security, and Domestic Exchange, had suffered a diminution of 9.516.463 dollars, 78 cents. seems to have been sufficient, to obtain money on loan, to pledge the stock of an "Incorporated Company," however remote its operations or uncertain its prospects. Many large loans, originally made on a pledge of stocks, were paid for in the same kind of property, and that too at par, when in many instances they had become depreciated in value. It is very evident to the Committee, that several of the officers of the Bank were themselves engaged in large operations in stocks and speculations, of a similar character, with funds obtained of the Bank, and at the same time Loans were made to the Companies in which they were interested, and to others engaged in the same kind of operations, in amounts greatly disproportionate to the means of the parties, or to their proper and legitimate wants and dealings. The effect of this system, was to monopolise the active means of the Institution, and disable it from aiding and accommodating men engaged in business really productive and useful to the community: and as might have been anticipated, a large part of the sums thus loaned were ultimately lost, or the Bank compelled on disadvantageous terms as to price, to take in payment Stocks, Back Lands and other fragments of the estates of great speculators.

The loose and irregular manner, in which the business of loaning money was conducted, tended greatly to produce this result, and deserves particular notice and explanation. From March, 1835, the period of the passage of the Resolution above referred to, the chief control and management of the affairs of the Institution, appears to have passed from the hands of the Directors. The mode in which the Committee of Exchange transacted their business, shows that there really existed no check whatever upon the officers, and that the funds of the Bank were almost entirely at their disposition. That Committee met daily, and were attended by the Cashier, and at times by the President. They exercised the power of making loans and settlements, to full as great an extent as the Board itself. They kept no minutes of their proceedings—no book in which the loans made, and business done were entered, but their decisions and directions,

were given verbally to the officers, to be by them carried into execu-The established course of business seems to have been, for the First Teller to pay on presentation at the counter, all checks, notes, or due bills having indorsed the order or the initials of one of the cashiers, and to place these as vouchers in his drawer, for so much cash, where they remained, until just before the regular periodical counting of the cash, by the Standing Committee of the Board on the state of the Bank. These vouchers were then taken out, and entered as "Bills Receivable," in a small Memorandum Book, under the charge of one of the clerks. These Bills were not discounted, but bore interest payable semi-annually, and were secured by a pledge of stock, or some other kind of property. It is evidently impossible. under such circumstances, to ascertain, or be assured, in regard to any particular loan or settlement, that it was sanctioned by a majojority of the Exchange Committee. It can be said, however, with entire certainty, that the very large business transacted in this way, does not appear upon the face of the Discount Books, was never submitted to the examination of the members of the Board, at its regular meetings, nor is it any where entered on the minutes, as having been reported to that body, for their information or approbation. As illustrative of the extent of these transactions, it may be proper to state, that the sum total of "Bills Receivable"

On the 4th of March, 1836, was	\$6,221,660 85
On the 4th of March, 1837,	8,183,445 01
On the 4th of March, 1838,	7,229,503 25
On the 4th of March, 1839,	6,772,731 80
On the 4th of March, 1840,	4,041,705 94

The amount outstanding on the books of this Department, on the 4th of March, 1841, had become reduced to the sum of 176,954 dollars, 12 cents. The accounts have been settled in various ways, or transferred to other heads, the Directors having resolved to abolish altogether a course of proceeding, so pregnant with mischief and loss, and to prohibit entirely, all loans except by the Board itself.

There stands now upon the books of the Suspended Debt Department, transferred thereto from "Bills Receivable," still unsettled 1,470,651 dollars, 77 cents. A portion is on the list of Active Debt, having been changed into Bills Discounted, at deferred periods of maturity.

These loans, were generally in large amounts. In the List of Debtors on "Bills Receivable" of the first of January 1837, twenty-one individuals, firms and companies, stand charged, each with an

amount of one hundred thousand dollars and upwards. One firm of this City received accommodations of this kind between August 1835 and November 1837 to the extent of 4.213,878 dollars, 30 cents. more than half of which was obtained in 1837. The officers of the Bank themselves received in this way, loans to a large amount. March 1836 when the Bank went into operation, under its new charter, Mr. Samuel Jaudon, then elected its Principal Cashier, was indebted to it, 100,500 dollars. When he resigned the situation of Cashier, and was appointed Foreign Agent, he was in debt 408,389 dollars, 25 cents, and on the first of March 1841, he still stood charged with an indebtedness of 117,500 dollars. Mr. John Andrews, First Assistant Cashier, was indebted to the Bank in March 1836 104.000 dollars. By subsequent Loans and advances made during the next three years, he received in all, the sum of 426,930 dollars 67 cents. Mr. Joseph Cowperthwaite, then Second Assistant Cashier, was in debt to the Bank in March 1836, 115,000 dollars; when he was appointed Cashier in September 1837, 326,382 dollars, 50 cents, when he resigned, and was elected a Director, by the Board, in June 1840, 72,960 dollars, and he stands charged March 3, 1841, on the Books with the sum of 55.081 dollars, 95 cents. It appears on the Books of the Bank, that these three gentlemen, were engaged in making investments on their joint account, in the Stock and Loan of the Camden and Woodbury Rail Road Co., Philadelphia, Wilmington and Baltimore Rail Road Co., Dauphin and Lycoming Coal Lands, and Grand Gulf Rail Road and Banking Company.

The various settlements effected with the officers and other debtors for these irregular loans, must not be suffered to pass without notice. These settlements were without the knowledge or approbation of the board, at least so far as appears from their minutes. The large loan to a firm in this city, before adverted to, was settled by the receipt in payment of various stocks and real estate, except 247,264 dollars, 50 cents, in cash. Another large amount of loans to a single individual of 1,014,977 dollars, 80 cents, was settled in like manner. There was taken in settlement of debt from Messrs. Bevan & Humphreys, (Mr. Joseph Cabot, one of that firm, being at the time a director of the Bank) one thousand one hundred and fifty shares of United States Bank Stock, in 1838, viz:-On the 2d of August, two hundred and fifty shares, at 123 dollars, the Bank selling on the same day at 120 dollars, less brokerage; on the 22d of August, five hundred shares, and on the 23d of August, four hundred shares at 125 dollars, the market price, on those two days being 123 dollars, 25 cents, the bank selling the day after at 123, less brokerage. Settlements of a similar character with debtors for smaller amounts, were of frequent recurrence.

The first instance in which an officer paid his debt to the bank in other than money, which the Committee can find, was in March, 1838, when Mr. Samuel Jaudon (then in London as the agent of the Bank,) Mr. Joseph Cowperthwaite, (then cashier,) and Mr. John Andrews, (then first assistant cashier,) paid a debt of 269,500 dollars, which they owed the Bank on joint account, in Danville and Pottsville Railroad Company, five per cent. loan, 70,000 Union Canal, 6 per cent. Loan, - 10,000 Philadelphia and Reading R. R. Co., stock 3590 shares, 179,500 West Feliciana R. R. Co., stock 100 shares, - 10,000

\$269,500

Of course, the Committee cannot say, that the Exchange Committee did or did not authorise, or sanction this settlement. The paper which constitutes the only evidence of it, and which the Committee have seen, exhibits no sign of such authority or approbation, other than the initials of Mr. Andrews himself.

Of the residue of the large debt of Mr. Andrews of 463,104 dollars, 88 cents, which includes his one third proportion of the foregoing sum of 269,500 dollars, all except 32,311 dollars, 55 cents was settled by the transfer of Stocks and Loans.

An Account of the Settlements with Messrs. Jaudon, Cowperthwaite and Andrews, accompanies a report made by the Exchange Committee, to the Board on the 21st of August, 1840. That Committee remark in their Report, "Your Committee are unable to say, if any authority was given by the Board under the Charter from Congress, but are very certain that the Boards, under the present Charter, have never sanctioned such loans or settlements, and they cannot too strongly condemn such acts. The power of making loans and settlements must be reserved to the Board, while the Officers must be content with being the executive of its decisions."

The accounts of these officers, are herewith submitted together with some others. (Appendix G.)

In order to inform the Stockholders, not only of the character of the Assets, but of the mode by which they came to the possession of the Bank, there is attached to this Report, a statement showing the particulars of the Stocks on hand at the Bank, the amount taken in settlement of debt, purchased or subscribed, and a list of the Stocks in possession April 1, 1839. (Appendix H. I.) Of the whole amount of Stocks and Loans, which the Bank has received since its recharter, including those since disposed of, it appears, that more than thirty one millions of dollars have been taken in settlement of debts and advances.

In the course of their investigation, the attention of the committee has been directed to certain accounts, which appear on the books as "Advances on Merchandise," but which were, in fact, payments for Cotton, Tobacco, and other produce, purchased by the direction of the then President, Mr. Nicholas Biddle, and shipped to Europe on account of himself and others. These accounts were kept by a clerk in the Foreign Exchange Department, this department being under the charge of Mr. Cowperthwaite, until September 22, 1837, when he was elected Cashier, and of Mr. Thomas Dunlap, until March, 20, 1839, when he was chosen President.

The original documents, necessary to enable the Committee to arrive at all the facts in relation to these transactions, were not accessible, having been retained, as was supposed, by the parties interested, as private papers. A succinct view of the whole matter, sufficient to convey to the stockholders a general idea of its character, may be drawn from the Report of a Committee of the Board of Directors, appointed on the 21st of July, 1840, for the purpose of adjusting nnd settling these accounts, and who reported on the 21st of December, 1840, which report with the accompanying accounts, is spread at large upon the minutes.

The first transactions were in July, 1837, and appear as advances to A. G. Jaudon, to purchase cotton for shipment to Baring, Brothers & Co., of Liverpool, the proceeds to be remitted to their house in London, then acting as the agents of the Bank. The amount of these shipments was 2,182,998 dollars 28 cents. The proceeds were passed to the credit of the Bank, and the account appears to be balanced. The results, as to the Profit and Loss, do not appear, and the committee had no means of ascertaining them, nor the names of the parties interested.

In the autumn of 1837, when the second of these transactions commenced, it will be recollected, that Mr. Samuel Jaudon had been appointed the Agent of the Bank to reside in London. About the same time, a copartnership was formed between Mr. May Humphreys, then a Director of the Bank, and a son of Mr. Nicholas Bid-

dle, under the firm of Biddle & Humphreys. This house was established at Liverpool, and thenceforward acted as agents for the sale of the produce shipped to that place, which comprised a large proportion of the whole amount.

In explanation of these proceedings, the Committee annex to their Report a copy of a Letter dated Philadelphia, December 28, 1840, to the President and Directors of the Bank, from Mr. Joseph Cabot, one of the firm of Bevan & Humphreys, and who became a Director at the election in January, 1838. This letter was read to the Board, December 29, 1840, but was not inserted on the minutes. (Appendix K.)

This arrangement continued during the years 1837, 1838, and 1839, the transactions of which amounted to 8,969,450 dollars, 95 cents. The shipments were made principally to Biddle & Humphreys, were paid for by drafts on Bevan & Humphreys—the funds advanced by the Bank, and the proceeds remitted to Mr. Samuel Jaudon, Agent of the Bank in London.

It appears that there was paid to Messrs. Bevan & Humphreys by the Bank in Philadelphia during the months of March, April and May, 1839, the sum of eight hundred thousand dollars and the account was thus balanced. The committee have reason to believe, that this sum constituted a part or perhaps the whole of the profits derived from the second series of shipments. How, and among whom, it was distributed, they have not been informed, but from the terms of the final settlement to be adverted to presently, each one will be at liberty to make his own inferences.

The third and last Account, amounting to 3,241,042 dollars 83 cents, appears on the books, as "Bills on London, advances S. V. S. W." These letters stand for the name of S. V. S. Wilder of New York. Messrs. Humphreys & Biddle, to whom these consignments were made, continued their accounts in the name of Bevan & Humphreys, but without the knowledge of that firm, as appears by Mr. Cabot's letter of December 28, 1840. The result of these last shipments, was a loss of 962,524 dollars 13 cents. Of this amount the sum of 553,908 dollars 57 cents was for excess of payments by Messrs. Humphreys & Biddle to the London Agency, beyond the proceeds of sale, with interest thereon. The parties interested, claimed and were allowed a deduction for loss on 526,000 dollars of Southern Funds, used in the purchase of cotton, when at a discount, the sum of 310,071 dollars 30 cents, and also this sum being Bankers' Commission to Messrs. Humphreys & Biddle on advances to Samuel

Jandon Agent 21,061 dollars, 86 cents, making 331,133 dollars 16 cents, and leaving to be settled by the parties the sum of 631,390 dollars, 97 cents.

Before proceeding to state the particulars of this settlement, it will be proper to precede it by the remarks of the Committee of the Directors, by whom it was effected. They say: "A long and difficult negotiation has resulted in the settlement of three-fourths of the Balance, and an agreement for the settlement of the remaining fourth. The payment of half the amount, and the agreement for one-fourth, are neither of them such as the committee labored to obtain; yet the terms are better than at one period of the negotiation they could reasonably have expected, and although unsatisfactory in themselves, are acceptable under the peculiar circumstances of the case."

The settlement reported to the Board on the 21st of December, 1840, was as follows:—

With Mr. Nicholas Biddle for one half amounting with interest to

\$321,220 13

For which there was received from him in payment, Three Bonds of the Republic of Texas, for Five thousand Dollars each, and an order on Gen. James Hamilton, then in London, to deliver to the Cashier, or his order, a Bond of the Republic of Texas, payable in London, for 10,1261. 13s. 4d., and also Ninety Bonds of the same, for Two hundred and fifty pounds each: these with Interest due and Exchange, according to a calculation made by Mr. Samuel Jaudon, amount to

201,642 20

#### Leaving a balance of

\$119,577 93

For this Balance, Mr. Biddle agreed to deliver to the Bank within one month, Texas Bonds, and on the delivery of the last mentioned Bonds, the Bank agreed to give him a full discharge from its claim upon him for his share of the Loss on these operations. This contract has been performed. The Committee of the Board say, in reference to this settlement:—"Aware that the Texian securities were much below par in the market, the Committee reluctantly agreed to the settlement, under the belief that a better arrangement for the Bank could not be (at least amicably) effected, and in the hope founded on general information, that the Bonds might at a distant day, be disposed of without serious Loss."

The Committee also settled, with Mr. Joseph Cowperthwaite, for one-fourth of the Loss,  For which was received in payment, Mr. Cowperthwaite's share in certain Dauphin County Coal	\$157,847 74
Land, which cost \$120,000, less a mortgage	Ø110 000
thereon of \$10,000	\$110,000
Land in Cataraugus Co. N. York, which cost,	5,000

	\$247,900
And a cash payment, the Committee say of "about"	. 16,000
Making altogether,	\$263,900

The Committee state, in reference to their settlement with Mr. Cowperthwaite, that it was made on the ground, that "with the exception of a few thousand dollars retained to pay other debts, the agreement comprised all his remaining property."

The Committee also settled with Mr. S. V. S. Wilder the remaining one-fourth, amounting with interest to

\$161,793 33

\$20,000

For the purpose of enabling Mr. Wilder to settle this amount in cash, the Bank of the United States in New York, loaned to him the sum of \$112,000 on the security of

1. Real estate at Green Hill, Philadelphia County,

2. Five thousand five hundred acres of "Iron land," and two furnaces in Columbia County, Pennsylvania, in operation

and producing a Rent equal to 6 per cent.			
on \$200,000	79,000		
3. On his claim upon William H. Ro-			
bertson of Mobile	7,500		
4. On his claim on Mr. Bigelow of New			
York.	5,500	112,000	00
The balance was settled by receiving the amount from Mr. Wilder in cash.	whole	49,793	33
		\$161,793	33

Mr. Thomas Dunlap of Philadelphia guarantees under date of December 21, 1840, the faithful and punctual payment of the loans to Mr. Wilder. The Committee of the Board add "Under this arrangement we apprehend no loss to the Bank."

Upon the presentation of the Report of the Committee on advances, to the Board on the 21 of December, 1840, a motion was made, to recommit the same for the purpose of having inserted therein, the name of the party really interested in the one-fourth, for which the settlement was made with Mr. S. V. S. Wilder. This motion did not prevail, but the Report was accepted and the Committee discharged.

After the Report had been read, the following Preamble and Resolutions were submitted by Mr. James Martin, and unanimously adopted by the Directors present, who were Messrs John R. Neff, Joseph Cabot, Lewis Waln, John Connell, Manuel Eyre, Richard Price, Lawrence Lewis, James Martin, George Handy and Robert Taylor; Mr. Neff acting by deputation as President pro. tem. in the absence of Mr. Dunlap.

"As it appears by the Report of the Committee on Advances, that large transactions have been going on for several years without the sanction or knowledge of the Board of Directors, and as it further appears, that these transactions were mostly if not wholly for the account and to the Profit and Loss of the executive officers of this Bank at those times, it is due from this Board, that their just condemnation of such things, should be fully expressed, and recorded: it is therefore

"Resolved, That the business of loaning money exclusively and of right belongs to the Board of Directors, and that all loans or discounts made by a Committee of the Board, in concurrence with the officers, should be duly reported to a regular meeting of the Board."

"Resolved, That the loaning or discounting, on the deposite of collateral security or promissory notes of the officers of the Bank is unauthorised, and contrary to the proper administration of the affairs of the Bank."

« Resolved, That the large advances made by the Officers of the Bank, in the periods of 1837-8, and 1838-9 being totally unauthorised, and unknown to the Board of Directors, merits and receives our just censure and condemnation."

By the Thirteenth Standing Rule of the Bank, it is provided that the Committee on the state of the Bank, composed of five members, and elected by Ballot every three months, should "at least once during their time of service, examine and count the discounted notes, and compare the amount thereof with the balance of the amount of Bills Discounted in the General Leger: they shall also count the cash, and the printed and the unprinted paper in the possession of the Cashier-examine the evidences of the public debt and property of the corporation, make an Inventory of the same, to be compared with the books, in order to ascertain their agreement and report to the Board." The custom appears to have been for this committee to confine their examination exclusively to the cash, Bills discounted on personal and other security, the Issues, and the Printed and Unprinted Bank paper on hand. The account, however, of the general state of the Bank, submitted to the Directors at every stated meeting. contained the Items of "Bills Receivable on Bank stock and other security," which included as well the bills receivable for sale of branches as the loans made in the manner heretofore adverted to, and "Foreign Bills of Exchange" under which head, was contained the advances on shipments of merchandise. Thus, on the 28th of June. 1838, on which day an examination was reported by the Committee on the state of the Bank, there stood to the debit of "Bills Receivable." the sum of 13,106,074 dollars, 55 cents, and of "Foreign Bills of Exchange," the sum of 7,216,109 dollars, 34 cents. mittee annex to this Report a List of the Directors and the several Standing Committees of the Board since the recharter. (Appendix **L.**)

Not only in regard to Loans and settlements, but in relation to the purchase and sale of stocks, the establishment of agencies, and other important measures of general policy, the Board of Directors were not regularly consulted. Of this the committee must be permitted to present some instances as illustrative. In September, 1836, the Bank

purchased the "Merchants Bank of New Orleans" of the capital of one million of dollars for an advance of 76,250 dollars and established it, as the agent of this Bank at that place. On the eighth day of November, 1836, in like manner a purchase was made for 384,000 dollars of "The Insurance Bank of Columbus, Georgia." In August, 1839, arrangements were made for the purchase of the charter of "The Hamilton Bank," of Baltimore, and the purchase effected, but as the Bank never went into operation the advance was but small. There was taken from Mr. Joseph Cowperthwaite, on the 1st of March, 1838, eighty-nine shares of Bank United States Stock at 120 dollars, the Bank selling the same day at 118 dollars, less brokerage; and on the 8th of January, 1840, there was received from him as cash one hundred and thirty shares at 100 dollars, the market price of that day being 85 dollars 75 cents. On the 4th of March, 1839, Messrs. Joseph Cowperthwaite, Thomas Dunlap and Joseph Cabot, agreed to purchase of the Bank two thousand shares of Philadelphia and Reading Railroad Co.'s Stock, at forty-five dollars per share, on a credit of two years, and on the application of these parties on the 13th of February 1840, the said contract was annulled. It is stated in a Report of the Exchange Committee of August 2S, 1840, and entered on the minutes of the Board, that the Philadelphia and Reading Railroad Co., had made a contract with Mr. Joseph Cowperthwaite for a loan of 500,000 dollars in his individual capacity, (although supposed by the company to have been on account of the Bank,) to be converted into sterling Bonds at 4 dollars 80 cents per pound sterling. At the period of that report, the sum of 326,000 dollars of this loan had been taken up, of which the Bank was then the holders of 272,000 dollars and on that day, (with the assent of the Board,) assumed the balance unpaid of the contract Upon the eighteenth day of August, 1838, the Bank guaranteed a contract made by Mr. Nicholas Biddle in his individual capacity, for the purchase of two thousand five hundred Bonds of the State of Mississippi, of two thousand dollars each, amounting in the whole to 5,000,000 dollars. The signature of Mr. Thomas Dunlap, then second assistant Cashier, was affixed to the guarantee, on behalf of the Bank upon the verbal authority of the President. Upon the 29th of January, 1839, the Bank guaranteed to the state of Michigan, the punctual fulfilment of the obligations of the Morris Canal and Banking Company, for the purchase of Bonds of that state, to the extent of 3,145,687 dollars 50 cents, for 2,700,000 taken at par, and including interest on the instalments payable every three months

up to January, 1843. On the 29th of April, 1839, the Bank guaranteed a contract entered into by Mr. Thomas Dunlap in his individual capacity, for the purchase of one million of dollars of the "Illinois and Michigan Canal Stock." In regard to these transactions, the Committee can find no authority on the minutes of the Board, and have been referred to none, by the President upon whom they called for information.

The Committee submit herewith (Appendix M.) a statement of the Profit and Loss Account of the Contingent Fund, and an abstract of the losses chargeable thereto. In this last account there is a charge under date of June 30, 1840, of 400,000 dollars to "Parent Bank notes account," which has not been explained to the satisfaction of the Committee. It must be also mentioned, that among the expenditures of the Bank, there is entered, at various dates, commencing May 5, 1836, sums amounting in all to 618,640 dollars, 15 cents, as paid on the "Receipts of Mr. N. Biddle," of "Mr. N. Biddle and J. Cowperthwaite," and "Cashier's Vouchers." As the Committee were unable to obtain satisfactory information upon the subject of these expenses from the books or officers of the Bank, application was made by letter to Mr. N. Biddle and Mr. J. Cowperthwaite, from whom no reply has been received.

The Committee have now performed the task assigned them by the stockholders. They have endeavored to select from the mass of materials submitted to their examination, only such as seemed sufficient to illustrate the general course of the administration of the To have gone more into detail, would have required more time than was allotted to the Committee, and to have accompanied each particular with full explanations, would have extended their report beyond all reasonable limits. They have given the simple facts without comment; but enough has been presented, it is believed, to enable each stockholder to form a judgment of the manner in which the interests committed by him to his trustees and agents, the directors and officers, have been managed. To satisfy mere idle curiosity, the Committee had no inclination, and would have gladly omitted many of the facts and explanations they have given, could such a course have been reconciled to their sense of duty, to those by whom they were appointed.

JOSHUA LIPPINCOTT, MOSES KEMPTON, CHARLES MASSEY, JR, EDWARD COLES, JOHN BACON, JAMES S. NEWBOLD.

Bank of the United States, Philadelphia, April 3, 1841.

Attest, GEORGE SHARSWOOD, Secretary.

The Committee again repeat in reference to the estimated value of the Assets, that their character is such as to render it impracticable to make a satisfactory valuation. They have done the best they could with the only attainable information, but the result does not commend itself to their entire confidence. Very much will depend upon the future course of the Bank, and upon contingencies which may greatly change the value of the Assets.

#### LETTER OF JOSEPH CABOT.

To the President and Directors of the Bank of the United States.

Philad. Dec. 28, 1840.

Gentlemen,

In consequence of what occurred at the last meeting of the Board, I have felt myself called upon to submit the following brief statement and explanation of the Agency of my House in certain Cotton operations which took place in the years 1837, '38 & '39.

In the month of October, 1837, before I became, and without the slightest expectation that I ever should become a Director of this Bank, an application was made to Bevan & Humphreys to ascertain whether they would undertake to accept certain bills to be drawn on the South, under the guarantee of the Bank to provide the needful funds to meet the same, as they became due. A few days subsequently they received a letter from Mr. N. Biddle, of which the following is a copy:

Philad., Oct. 19, 1837.

Messrs. Bevan & Humphreys, Gentlemen,

"I may probably have occasion during the "coming winter to direct some shipments of Cotton and other produce " to the charge of our friends, Messrs. Humphreys & Biddle of Liver-" pool. For greater convenience I propose to have the purchases made in the Southern States, by drafts which may be drawn upon you in " consequence of credits opened for your house, to have the bills of la-"ding forwarded to you to be transmitted to Messrs. H. & B. by you, 66 that you should correspond with them in regard to the sales, and make 66 Such disposition of the proceeds as I may direct. Will you have the 66 goodness to say whether you will undertake this business, and whether "the compensation of a commission of one eighth of one per cent. on "the amount of the purchases will be satisfactory to you?

Very respectfully, &c.,

Signed,

The reply to this letter is as follows: N. Biddle, Esq,

Oct. 20, 1837.

N. BIDDLE."

Dear Sir,

"We have received your note of yesterday's 64 date, stating that you may direct some Cotton and other produce from "4 the South the coming winter to the address of Messrs. Humphreys & 's Biddle of Liverpool, the same to be purchased by drafts on us under " credits opened in our favor for that purpose—the bills lading of which to be forwarded to us for transmission to those gentlemen, and that "You will require us to correspond with them in regard to sales and "disposal of the proceeds in the manner you may direct. In reply we " beg to say that we are willing to undertake this business, and that "the compensation proposed of an eighth of one per cent. on the amount " of purchases will be satisfactory."

We are very respectfully, &c.

Signed,

В. & н.

Previously to the dates of these letters, agents had been appointed at the different Southern points, without the knowledge or counsel of my house, letters of credit and general instructions were prepared for them at the Bank, and sent to B. & H. to sign.

In pursuance of these arrangements purchases of Cotton were made to a large amount, and the same shipped to Liverpool, France, and Holland, the net proceeds of sales being ordered to be placed with Mr. Jaudon, of London, and Messrs. Hottinguer & Co., of Paris, to the credit of the United States Bank. The result of this year's operations proved profitable and the cost on this side was fully reimbursed in Eu-At the time application was made to B. & H. to undertake this business, and many months afterwards it was firmly believed by me and them, that it was for account and risk of the bank, for the purpose of placing funds in Europe to provide for the large amount of Bonds which it was known became pavable in London in the Spring of 1838. not then and do not now consider that I had any right to demand of the Bank any explanation in regard to the nature and objects of these shipments. Before engaging in them, we were assured that we were merely required to accept the bills to be drawn from the South, for which the bank would provide the funds, and that we should not be called upon to undertake any extensive correspondence relative thereto. In consequence of this understanding, the insignificant compensation of one eighth of one per cent. was agreed to for transacting the business.

In the shipments made the following year in continuation of the former operation, my house had no agency; the purchases were ordered through parties in New York, through whom the payments were made. It is true the proceeds of sales in Europe were ordered to be placed to the credit of the Bank for account of B. & H., but this was without their knowledge or consent, and a considerble time had elapsed before they incidentally became acquainted with the fact. It was then too late to remedy the error, and they, very much against their inclinations, were compelled to correspond with the parties in Europe in regard to

the sales and remittances.

Touching the shipments to F. Huth & Co., a report is now being prepared for the Board, which renders it unnecessary for me to say any thing further on that subject, and in conclusion I have only to add that neither Bevan & Humphreys nor myself have had the slightest interest or concern in these shipments. They have never had any connection or interest in the house of Humphreys & Biddle, and have had no participation whatever in the commissions derived on the sales of this property either in Liverpool or in any other part of Europe.

I am very respectfully, Gentlemen,

Your most obedient servant,

Signed,

JOS. CABOT.

#### Bank of the United States, April 3, 1841.

SAMUEL BRECK, Esq., Chairman, &c.

SIR:—At a meeting of the Board of Directors held this day, the following preamble and resolutions were, on motion, adopted.

- "The President submitted to the Board a communication and certain statements relative to the affairs and business of the Bank prepared in pursuance of a resolution of the Board of the 16th ult.
  - "On motion, it was
- "Resolved, That the said communication and statements be approved and the President be requested to have the same laid before the meeting of Stockholders to be held on Monday next, the 5th inst."

In accordance with the above resolution, I herewith hand you the enclosed documents, and have the honor to be

Your obedient servant,

T. DUNLAP, President.

9

The following Letter was received from Mr. Cabot, and is here appended:—

Philadelphia, April 5, 1841.

JOHN BACON, Esq.

Dear Sir.—I was not present at the Stockholders' Meeting to-day, but I have understood that in the matter of the 2000 Shares of Reading Railroad Stock returned to the Bank, I was represented as being the owner of 666 Shares. Ar stated to you personally a few days since, I had no interest whatever in this stock at the time it was returned to the Bank, but merely held it for account of another party, which fact was fully known to the Committee of the Bank at the time time transaction took place. I have therefore to request as a matter of common justice that this explanation should be given in the Stockholders' Statement before it as published.

I am, very respectfully,
Your most obedient,
JOS. CABOT.

#### REPORT

OF THE

#### BOARD OF DIRECTORS

OF THE

## BANK OF THE UNITED STATES

TO THE STOCKHOLDERS.

To the Stockholders of the Bank of the United States in general meeting, assembled pursuant to their adjournment on the 4th of January, 1841,

The Board of Directors present the following summary of their transactions since their report in January last, and of the state of the Bank on the 1st inst. At the time of the annual meeting of the Stockholders, and for some months previous, the Board were earnestly employed in making arrangements for the resumption of specie payments on the 15th January, 1841, the day fixed by an act of the Legislature of Pennsylvania, for a general resumption by the Banks of this State. The Bank has already shown to the Legislature of the Commonwealth, that in obedience to law, on the 15th January, 1841, all her notes, bills, deposites, and other liabilities were paid in gold or silver coin, or its equivalent, and that such payments were continued until the 4th day of February last, when it became necessary to discontinue them. The efforts that were made, and resources provided to commence and sustain the resumption of cash payments, were deemed adequate by the Directors at the time, and under any but the peculiar circumstances in which the Bank was placed, the means collected would have proved amply sufficient to enable it to have continued specie payments indefinitely. It was, however, soon made manifest, that a feeling of hostility to the Institution, or what was equally destructive, a pervading distrust of its credit and means. existed to an extent so great, as to render the undertaking hopeless, unless the Bank was prepared to meet every dollar of her liabilities

with a dollar of coin: every species of demand was urgently pressed, and in the course of thirty days upwards of six millions of dollars were demanded and received by her creditors in specie and funds equivalent to specie. This unusual demand continued unabated, and it became perfectly certain that it would be fruitless to persevere in the effort—and on the 4th day of February, 1841, the Directors deemed it indispensable to discontinue payments in specie.

The condition of the Bank, its resources and liabilities on the day of resumption, on that of suspension, and on the 1st day of the present month, are now placed before this meeting in the following exhibits hereto annexed.

No. 1. Statement of Assets and Liabilities of the 14th Jan'y, 1841.

No. 2. " " 4th Feb. " 4th Feb. " 1st April, "

Many circumstances rendered the preparations for resumption difficult and onerous. The large investment of the funds of the Bank in loans and securities of an inflexible and inconvertible character, the peculiar depression existing in the value of all species of property, with the stagnation or unproductiveness of all branches of commercial and other business, rendered it impracticable to obtain cash means, either by sales of securities, or collections of debts, except to a very moderate extent. The instant demand upon the Bank for the redemption of her circulation was also greatly increased by the fact of its having been adopted as the exclusive currency by the other Banks of Philadelphia, and consequently held by them in greater masses than at any previous time. It was, therefore, found necessary by the Directors, to enable the Bank to resume cash payments—

First, To postpone the redemption of a part of their circulation.

Secondly, To anticipate the sale of securities and collection of debts, by obtaining an advance upon them at home or abroad:

Both these courses were successfully adopted.

- 1. An arrangement was entered into with the other Banks of the City and County of Philadelphia, in December 1840, whereby they surrendered to the Bank of the United States five millions of dollars of her notes upon receiving post notes of a like amount, payable in nine to eighteen months.
- 2. Special agents of the Bank were appointed, who proceeded to England, and upon the sale of some, and hypothecation of other securities, procured a loan of eight hundred and sixty thousand pounds sterling. With resources such as these, added to the amount of coin on hand, the board did not hesitate in entering with the other Banks

upon the work of resumption, with confidence in the ability of this Bank to persevere therein. It was, however, on the eve of this resumption discovered, that the Banks of Philadelphia had on hand a greater amount of notes of the Bank of the United States than had been arranged for, and the Directors were, at that late hour informed that payment of the same in specie to the extent of 1,500,000 dollars would be required. This demand was promptly complied with: another claim, to the amount of 1,100,000 dollars was pressed upon the Bank at the same time and paid in full. Numerous suits had been instituted against the Bank during the suspension, principally by eastern holders of her notes; these suits were pending in the Supreme Court of this State. The parties at this point agreed to relinquish their claim to extra interest upon condition of immediate payment, which was instantly acceded to by the Bank. In addition to these demands, the inability of the Commonwealth to provide for the interest on the state debt, falling due on February 1, 1841, produced a call on this Bank for an advance of one half of the loan of 800,000 dollars, and not only was the amount of 400,000 dollars so taken by this Bank paid in specie; but the residue being paid by the other Banks in notes of this Bank, created an instant demand for the whole sum in coin. Thus, upwards of three millions of dollars of the funds provided, were immediately absorbed at the moment of resumption in discharge of these three claims-whilst its remaining means and its daily collections were, as has been above stated, soon exhausted by demands pressed upon it, in a manner unparalleled, it is believed, in the annals of banking.

As the Stockholders of the Bank will receive from the committee of their own body a full report of the resources, liabilities and condition of the Bank, it is not thought necessary by the Directors to present more detailed statements than those which accompany this communication. They feel it their duty, however, to invite the attention of the Stockholders to some considerations growing out of the actual situation of the institution—and calling for prompt measures of protection for the property of the Bank from any undue or compulsory sacrifice.

Since the suspension of cash payments on the 4th of February last, the Banks of Philadelphia have refused to receive the notes of this Bank in deposit or payment of debts, and consequently they have become unavailable to the holders or only available at a depreciation. Many of such holders have instituted legal proceedings—in some instances for the purpose of enforcing a forfeiture of the charter

—in others for the recovery of payment in specie by judgment and execution. If this course should be adopted by others, and for larger amounts, it is obvious that the property and resources of the Bank may be ruinously sacrificed and unequally appropriated. Any general measures to avert these evils, the Directors are advised by counsel, can only be authorised by a general meeting of Stockholders, and to their decision the subject is submitted by this Board. Of a similar character and requiring the same interposition, is an application recently made and now pending, by the Banks of the City and County of Philadelphia for the appropriation specifically of a sufficient amount of the assets of this Bank, by deposit, trust, or otherwise, to secure the payment of the post notes of this Bank, issued to them on the 15th December 1840, to the amount of five millions of dollars, which arrive at maturity from September 1841, to June 1842, in monthly instalments.

As the present meeting of the Stockholders was rapidly approaching, the Board of Directors did not act upon this application, and now feel bound to submit the question to them for decision.

All which is respectfully submitted by order of the Board of Directors.

Bank of the United States, April, 3d, 1841.
