

## **Prefatory Note**

The attached document represents the most complete and accurate version available based on original copies culled from the files of the FOMC Secretariat at the Board of Governors of the Federal Reserve System. This electronic document was created through a comprehensive digitization process which included identifying the best-preserved paper copies, scanning those copies,<sup>1</sup> and then making the scanned versions text-searchable.<sup>2</sup> Though a stringent quality assurance process was employed, some imperfections may remain.

Please note that this document may contain occasional gaps in the text. These gaps are the result of a redaction process that removed information obtained on a confidential basis. All redacted passages are exempt from disclosure under applicable provisions of the Freedom of Information Act.

---

<sup>1</sup> In some cases, original copies needed to be photocopied before being scanned into electronic format. All scanned images were deskewed (to remove the effects of printer- and scanner-introduced tilting) and lightly cleaned (to remove dark spots caused by staple holes, hole punches, and other blemishes caused after initial printing).

<sup>2</sup> A two-step process was used. An advanced optimal character recognition computer program (OCR) first created electronic text from the document image. Where the OCR results were inconclusive, staff checked and corrected the text as necessary. Please note that the numbers and text in charts and tables were not reliably recognized by the OCR process and were not checked or corrected by staff.

CONFIDENTIAL (FR)  
CLASS III - FOMC

29. U.S. government deposits at commercial banks <sup>8</sup>	0.3	1.8	-0.5	-0.8	1.4	7.6	33.4

1. Amounts shown are from fourth quarter to fourth quarter.

2. Nontransactions M2 is seasonally adjusted as a whole.

3. Commercial bank savings deposits excluding MMDAs grew during January and February at rates of 12 percent and 11.3 percent, respectively. At thrift institutions, savings deposits excluding MMDAs grew during January and February at rates of -4.5 percent and 9.1 percent, respectively.

4. The non-M2 component of M3 is seasonally adjusted as a whole.

5. Net of large denomination time deposits held by money market mutual funds and thrift institutions.

Dollar amounts shown under memoranda are calculated on an end-month-of-quarter basis.

Consists of borrowing from other than commercial banks in the form of federal funds purchased, securities sold under agreements to repurchase, and other liabilities for borrowed money (including borrowing from the Federal Reserve and unaffiliated foreign banks, loan RPs and other minor items). Data are partially estimated.

8. Consists of Treasury demand deposits and note balances at commercial banks.
