Scott E. Pardee	Deputy Manager for Foreign Operations

Bank to execute transactions for System Open Market Account

Federal Reserve Bank of New York (until the close of day of first meeting after February 29, 1976.)

\* On leave of absence.

AUTHORIZATION FOR DOMESTIC OPEN MARKET OPERATIONS

(As last amended June 17, 1975)

1. The Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York, to the extent necessary to carry out the most recent domestic policy directive adopted at a meeting of the Committee:

(a) To buy or sell U.S. Government securities, including securities of the Federal Financing Bank, and securities that are direct obligations of, or fully guaranteed as to principal and interest by, any agency of the United States in the open market, from or to securities dealers and foreign and international accounts maintained at the Federal Reserve Bank of New York, on a cash, regular, or deferred delivery basis, for the System Open Market Account at market prices and, for such Account, to exchange maturing U.S. Government and Federal agency securities with the Treasury or the individual agencies or to allow them to mature without replacement; provided that the aggregate amount of U.S. Government and Federal agency securities held in such Account (including forward commitments) at the close of business on the day of a meeting of the Committee at which action is taken with respect to a domestic policy directive shall not be increased or decreased by more than \$3.0 billion during the period commencing with the opening of business on the day following such meeting and ending with the close of business on the day of the next such meeting;

(b) To buy or sell in the open market<sup>\*</sup>, from or to acceptance dealers and foreign accounts maintained at the Federal Reserve Bank of New York, on a cash, regular, or deferred delivery basis, for the account of the Federal Reserve Bank of New York at market discount rates, prime bankers' acceptances with maturities of up to nine months at the time of acceptance that (1) arise out of the current shipment of goods between countries or within the United States, or (2) arise out of the storage within the United States of goods under contract of sale or expected to move into the channels of trade within a reasonable time and that are secured throughout their life by a warehouse receipt or similar document conveying title to the underlying goods; provided that the aggregate amount of bankers' acceptances held at any one time shall not exceed \$1 billion;

(c) To buy U.S. Government securities, obligations that are direct obligations of, or fully guaranteed as to principal and interest by, any agency of the United States, and prime bankers' acceptances of the types authorized for purchase under 1(b) above, from dealers for the account of the Federal Reserve Bank of New York under agreements for repurchase of such securities, obligations, or

-2-

acceptances in 15 calendar days or less, at rates that, unless otherwise expressly authorized by the Committee, shall be determined by competitive bidding, after applying reasonable limitations on the volume of agreements with individual dealers; provided that in the event Government securities or agency issues covered by any such agreement are not repurchased by the dealer pursuant to the agreement or a renewal thereof, they shall be sold in the market or transferred to the System Open Market Account; and provided further that in the event bankers' acceptances covered by any such agreement are not repurchased by the seller, they shall continue to be held by the Federal Reserve Bank or shall be sold in the open market.

2. The Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York, or, under special circumstances, such as when the New York Reserve Bank is closed, any other Federal Reserve Bank, to purchase directly from the Treasury for its own account (with discretion, in cases where it seems desirable, to issue participations to one or more Federal Reserve Banks) such amounts of special short-term certificates of indebtedness as may be necessary from time to time for the temporary accommodation of the Treasury; provided that the rate charged on such certificates shall be a rate  $\frac{1}{4}$  of 1 per cent below the discount rate of the Federal Reserve Bank of New York at the time of such purchases, and provided further that the total amount of such certificates held at any one time by the Federal Reserve Banks shall not exceed \$2 billion.
3. In order to insure the effective conduct of open market operations, the Federal Open Market Committee authorizes and directs the Federal Reserve Banks to lend U.S. Government securities held in the System Open Market Account to Government securities dealers and to banks participating in Government securities clearing arrangements conducted through a Federal Reserve Bank, under such instructions as the Committee may specify from time to time.

AUTHORIZATION FOR FOREIGN CURRENCY OPERATIONS  
(As last amended effective August 29, 1975)

1. The Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York, for System Open Market Account, to the extent necessary to carry out the Committee's foreign currency directive and express authorizations by the Committee pursuant thereto:

A. To purchase and sell the following foreign currencies in the form of cable transfers through spot or forward transactions on the open market at home and abroad, including transactions with the U.S. Stabilization Fund established by Section 10 of the Gold Reserve Act of 1934, with foreign monetary authorities, and with the Bank for International Settlements:

Austrian schillings  
Belgian francs  
Canadian dollars  
Danish kroner  
Pounds sterling  
French francs  
German marks  
Italian lire  
Japanese yen  
Mexican pesos  
Netherlands guilders  
Norwegian kroner  
Swedish kronor  
Swiss francs

B. To hold foreign currencies listed in paragraph A above, up to the following limits:

(1) Currencies purchased spot, including currencies purchased from the Stabilization Fund, and sold forward to the Stabilization Fund, up to \$1 billion equivalent;

(2) Currencies purchased spot or forward, up to the amounts necessary to fulfill other forward commitments;

-2-

(3) Additional currencies purchased spot or forward, up to the amount necessary for System operations to exert a market influence but not exceeding \$250 million equivalent; and

(4) Sterling purchased on a covered or guaranteed basis in terms of the dollar, under agreement with the Bank of England, up to \$200 million equivalent.

C. To have outstanding forward commitments undertaken under paragraph A above to deliver foreign currencies, up to the following limits:

(1) Commitments to deliver foreign currencies to the Stabilization Fund, up to the limit specified in paragraph 1B(1) above; and

(2) Other forward commitments to deliver foreign currencies, up to \$550 million equivalent.

D. To draw foreign currencies and to permit foreign banks to draw dollars under the reciprocal currency arrangements listed in paragraph 2 below, provided that drawings by either party to any such arrangement shall be fully liquidated within 12 months after any amount outstanding at that time was first drawn, unless the Committee, because of exceptional circumstances, specifically authorizes a delay.

2. The Federal Open Market Committee directs the Federal Reserve Bank of New York to maintain reciprocal currency arrangements ("swap" arrangements) for System Open Market Account for periods up to a maximum of 12 months with the following foreign banks, which are among those designated by the Board of Governors of the Federal Reserve System under Section 214.5 of Regulation N, Relations with Foreign Banks and Bankers, and with the approval of the Committee to renew such arrangements on maturity:

-3-

<u>Foreign bank</u>	<u>Amount of arrangement (millions of dollars equivalent)</u>
Austrian National Bank	250
National Bank of Belgium	1,000
Bank of Canada	2,000
National Bank of Denmark	250
Bank of England	3,000
Bank of France	2,000
German Federal Bank	2,000
Bank of Italy	3,000
Bank of Japan	2,000
Bank of Mexico	360
Netherlands Bank	500
Bank of Norway	250
Bank of Sweden	300
Swiss National Bank	1,400
Bank for International Settlements:	
Dollars against Swiss francs	600
Dollars against authorized European currencies other than Swiss francs	1,250

3. Currencies to be used for liquidation of System swap commitments may be purchased from the foreign central bank drawn on, at the same exchange rate as that employed in the drawing to be liquidated. Apart from any such purchases at the rate of the drawing, all transactions in foreign currencies undertaken under paragraph 1(A) above shall, unless otherwise expressly authorized by the Committee, be at prevailing market rates and no attempt shall be made to establish rates that appear to be out of line with underlying market forces.

4. It shall be the practice to arrange with foreign central banks for the coordination of foreign currency transactions. In making operating arrangements with foreign central banks on System holdings of

-4-

foreign currencies, the Federal Reserve Bank of New York shall not commit itself to maintain any specific balance, unless authorized by the Federal Open Market Committee. Any agreements or understandings concerning the administration of the accounts maintained by the Federal Reserve Bank of New York with the foreign banks designated by the Board of Governors under Section 214.5 of Regulation N shall be referred for review and approval to the Committee.

5. Foreign currency holdings shall be invested insofar as practicable, considering needs for minimum working balances. Such investments shall be in accordance with Section 14(e) of the Federal Reserve Act.

6. The Subcommittee named in Section 272.4(c) of the Committee's rules of procedure is authorized to act on behalf of the Committee when it is necessary to enable the Federal Reserve Bank of New York to engage in foreign currency operations before the Committee can be consulted. All actions taken by the Subcommittee under this paragraph shall be reported promptly to the Committee.

7. The Chairman (and in his absence the Vice Chairman of the Committee, and in the absence of both, the Vice Chairman of the Board of Governors) is authorized:

-5-

A. With the approval of the Committee, to enter into any needed agreement or understanding with the Secretary of the Treasury about the division of responsibility for foreign currency operations between the System and the Secretary;

B. To keep the Secretary of the Treasury fully advised concerning System foreign currency operations, and to consult with the Secretary on such policy matters as may relate to the Secretary's responsibilities; and

C. From time to time, to transmit appropriate reports and information to the National Advisory Council on International Monetary and Financial Policies.

8. Staff officers of the Committee are authorized to transmit pertinent information on System foreign currency operations to appropriate officials of the Treasury Department.

9. All Federal Reserve Banks shall participate in the foreign currency operations for System Account in accordance with paragraph 3 G(1) of the Board of Governors' Statement of Procedure with Respect to Foreign Relationships of Federal Reserve Banks dated January 1, 1944.

FOREIGN CURRENCY DIRECTIVE  
(As reaffirmed March 18, 1975)

1. The basic purposes of System operations in foreign currencies are:

A. To help safeguard the value of the dollar in international exchange markets;

B. To aid in making the system of international payments more efficient;

C. To further monetary cooperation with central banks of other countries having convertible currencies, with the International Monetary Fund, and with other international payments institutions;

D. To help insure that market movements in exchange rates, within the limits stated in the International Monetary Fund Agreement or established by central bank practices, reflect the interaction of underlying economic forces and thus serve as efficient guides to current financial decisions, private and public; and

E. To facilitate growth in international liquidity in accordance with the needs of an expanding world economy.

2. Unless otherwise expressly authorized by the Federal Open Market Committee, System operations in foreign currencies shall be undertaken only when necessary:

A. To cushion or moderate fluctuations in the flows of international payments, if such fluctuations (1) are deemed to reflect transitional market unsettlement or other temporary forces and therefore are expected to be reversed in the foreseeable future; and (2) are deemed to be disequilibrating or otherwise to have potentially destabilizing effects on U.S. or foreign official reserves or on exchange markets, for example, by occasioning market anxieties, undesirable speculative activity, or excessive leads and lags in international payments;

B. To temper and smooth out abrupt changes in spot exchange rates, and to moderate forward premiums and discounts judged to be disequilibrating. Whenever supply or demand persists in influencing exchange rates in one direction, System transactions should be modified or curtailed unless upon review and reassessment of the situation the Committee directs otherwise;

C. To aid in avoiding disorderly conditions in exchange markets. Special factors that might make for exchange market instabilities include (1) responses to short-run increases in international political tension, (2) differences in phasing of international economic activity that give rise to unusually large interest rate differentials between major markets, and

(3) market rumors of a character likely to stimulate speculative transactions. Whenever exchange market instability threatens to produce disorderly conditions, System transactions may be undertaken if the Manager reaches a judgment that they may help to reestablish supply and demand balance at a level more consistent with the prevailing flow of underlying payments. In such cases, the Manager shall consult as soon as practicable with the Committee or, in an emergency, with the members of the Subcommittee designated for that purpose in paragraph 6 of the Authorization for Foreign Currency Operations; and

D. To adjust System balances within the limits established in the Authorization for Foreign Currency Operations in light of probable future needs for currencies.

3. System drawings under the swap arrangements are appropriate when necessary to obtain foreign currencies for the purposes stated in paragraph 2 above.

4. Unless otherwise expressly authorized by the Committee, transactions in forward exchange, either outright or in conjunction with spot transactions, may be undertaken only (i) to prevent forward premiums or discounts from giving rise to disequilibrating movements of short-term funds; (ii) to minimize speculative disturbances; (iii) to supplement existing market supplies of forward cover, directly or indirectly, as a means of encouraging the retention or accumulation of dollar holdings by private foreign holders; (iv) to allow greater flexibility in covering System or Treasury commitments, including commitments under swap arrangements, and to facilitate operations of the Stabilization Fund; (v) to facilitate the use of one currency for the settlement of System or Treasury commitments denominated in other currencies; and (vi) to provide cover for System holdings of foreign currencies.
