

2/2/54

Internal Memorandum

Subject: Interview with Mr. Harrison

2/2/54

Saw Harrison at 51 Madison. He had talked by telephone to Mr. Sproul and asked whether he was empowered to turnover to this committee his papers concerning Federal Reserve Bank operations. Having had an affirmative answer he showed me two black folders of records of conversations and said that there were more in his own files. Even on quick scanning this material appears highly important. (MA)
