

Internal Memorandum

March 1, 1954

Collection of Papers of  
Mr. Walter Lichtenstein

The papers of Mr. Walter Lichtenstein have been divided between the Baker Library (Harvard Business School) and the Widener Library (University proper). About forty volumes of outgoing correspondence on pink sheets and bound in grey have been sent to the Baker Library and with them a mass of incoming correspondence. Mr. Robert Lovett is now at work coordinating outgoing and incoming sheets.

To Widener Library, according to a letter to Mr. Arthur Cole, went all of Mr. Lichtenstein's "diaries and more personal papers." As Mr. Lichtenstein at one time was in Europe for Mr. Coolidge buying books for Harvard, it is assumed that much of this material concerns not banking but Harvard books. This is, however, not certain.

A box of the Federal Advisory Council minutes of meetings from 1926 on is supposed to be sent to Professor Cole. This should be checked later on.

\* \* \*

Mr. Lichtenstein is expected to be at Harvard in March. His papers at Widener are supposed to be sealed.
