Internal Memorandum

Conversation with Miss Katharine Brand of the Library of Congress in Washington,

March 25, 1955

In reply to my letter of March 18th, Miss Brand said in the first place, they have no papers of Mr. Thomas Heflin, Senator from Alabama, born 1869. She does not know where they are.

Neither does she know where the papers of Huey Long of Louisiana are, and the assumption is that they are in the State Library in Louisiana, and she has no other information.

In reply to my inquiry as to whether we could borrow the volumes of the Hamlin Diary, as Dr. Chandler needs them, she inquired of Mr. Mearns (or Mr. Land) and got a ruling that the Library would prefer that they were used in Washington. Were this a single request, it might have been granted, but the probability is large that we would want to borrow volume after volume. Shipping charges, administration and possible loss in this are considerable. It is understandable that the request was not granted.
