FISCAL POLICY SEMINAR
Economics 248
1955/56
Professors Hansen and Williams

PART I

I. GENERAL INTRODUCTORY LITERATURE -- FOR BACKGROUND READING
A. Public Finance Textbooks ........................................... 1
B. National Income and Social Accounting ........................... 1-2

PART II

II. THEORETICAL FRAMEWORK OF FISCAL ECONOMICS
A. Keynes's General Theory: Some Current Interpretations and Appraisals 2-3
B. Hicks-Harrod Analysis of Stable Growth .......................... 3-5
C. Modern Theory of Income Determination
   1. Theoretical Concepts:
      a. Consumption Function Controversy .......................... 5-7
      b. Multiplier Principle; Velocity Analysis; Model Sequences 7-8
      c. The Acceleration Principle and the Theory of Investment 8-9

PART III

III. NATIONAL INCOME -- SIZE AND DISTRIBUTION
A. Consumption/Saving and Investment Behavior .................... 9-10
   1. Influence of Asset Structures on Consumption-Investment Decisions 10-11
B. Income and Wealth: Studies in Income Distribution--By Size and Type 11-13
C. Income Redistribution through Public Finance
   1. Impact of Public Expenditures and Taxation .................. 13-14
   2. Taxable Capacity and Tax Burdens ............................ 14-15

PART IV

IV. DYNAMIC FACTORS IN THE ECONOMY
A. Stagnationist Theory--Controversies of Pre- and Post-War Period .... 16-17
B. Capital Formation and Processes of Economic Change and Growth
   1. Technology, Population, and Investment:
      a. Population Factors in Economic Fluctuations ............... 17-18
      b. Innovations, Technology, and Business Fluctuations ....... 18-19
      c. Inventories and Cyclic Instability ........................ 19-20
      d. Building-Transport Cycles ................................. 20
C. Financial Structure and Economic Growth
   1. Institutional Savings-Investment: Some Trends and Their Implications ......................... 20-22
   2. Corporate Earnings, Savings, and Capital Investment ........ 22-24

PART V

V. FISCAL POLICY: THEORETICAL ANALYSIS AND LESSONS OF EXPERIENCE
A. General Discussions ............................................. 25
B. Tax and Budget Problems and Policies
   1. Tax Revenues and Federal Expenditures ....................... 26
   2. Federal Budget in Theory and Practice ....................... 26-27
      a. Some Current Debates on the Budget:
         (1) Balanced Budget Theorem .............................. 27-28
         (2) Budget Flexibility and 'Built-in' Stabilizers .......... 28-29
V. FISCAL POLICY: THEORETICAL ANALYSIS AND LESSONS OF EXPERIENCE  
Cont'd

3. Taxation: Instruments and Objectives:
      (1) Progressivity ............................................. 30
      (2) Profits Taxation ........................................... 30-31
   b. Federal Taxation of Capital Gains ................................ 31-32
   c. Commodity Taxation: Sales and Excise Taxes .................... 32-34
   d. Estate, Inheritance, and Gift Taxation .......................... 34-35
   e. Property Taxation ............................................. 35-36

C. Public Expenditure in Fiscal Theory ................................ 36

VI. PUBLIC FINANCE AND THE FUNCTIONING OF THE PRIVATE ECONOMY
A. Tax Policy for a Dynamic Economy
   1. Incidence and Effects of Income and Profits Taxation .......... 37
   2. Taxation and Incentives ....................................... 38
   3. Special Problems in Business Taxation:
      a. Corporate Taxation and Business Structure .................. 38
      c. Depreciation as a Tax Problem .............................. 40-41

B. The Role of Public Expenditures
   1. Government Expenditures: Patterns and Trends .................. 42
   2. Aspects of Public Investment:
      a. Public Works as a Depression Fiscal Policy .................. 42-43
      b. Public Expenditures and Welfare Programs ................... 43-44
      c. Housing and Urban Redevelopment ............................ 44-47
      d. Highway Programs and Transportation: Aids and Subsidies .... 47
      e. Public Policy and Problems of Conservation and Regional or State Resource Development .......................... 48-50

VII. FEDERAL-STATE-LOCAL FISCAL RELATIONS: PROBLEM OF GRANTS-IN-AID ....... 51-53

PART VI

VIII. ECONOMIC STABILIZATION: ELEMENTS OF A PRACTICAL PROGRAM
A. Monetary-Fiscal vs. Other Measures for Stability and Expansion ...... 54-55
B. Wage-Price Policy .............................................. 55-56
C. Monetary Policy and Debt Management in the United States ........... 56-58
D. Fiscal Program of the Republican Administration ..................... 58
For an excellent collection of readings in the area of fiscal theory and policy, students are referred to the new volume in the American Economic Association series, READINGS IN FISCAL POLICY, edited by A. Smithies and J. K. Butters [Homewood, Irwin, 1955], and also to the bibliography therein [pp. 558-96] for additional reading suggestions.

PART I

I. GENERAL INTRODUCTORY LITERATURE -- FOR BACKGROUND READING

A. Public Finance Textbooks:

B. National Income and Social Accounting:

II. THEORETICAL FRAMEWORK OF FISCAL ECONOMICS

A. Keynes's General Theory: Some Current Interpretations and Appraisals

Books:

Articles:

B. Hicks-Harrod Analysis of Stable Growth

Books:

Articles:

C. Modern Theory of Income Determination

1. Theoretical Concepts

   a. Consumption Function Controversy

Books:

Articles:

b. Multiplier Principle; Velocity Analysis; Model Sequences

Books:

Articles:

c. The Acceleration Principle and the Theory of Investment

**Books:**

**Articles:**

PART III

IV. NATIONAL INCOME -- SIZE AND DISTRIBUTION

A. Consumption-Saving and Investment Behavior

Books:

Articles:

Books:

Articles:

B. Income and Wealth: Studies in Income Distribution--By Size and Type

Books:

**Articles:**

C. Income Redistribution through Public Finance

1. Impact of Public Expenditures and Taxation
